THE DIAGRAM.

The accompanying diagram is intended to show the movement of gold and silver and Government issues since June, 1878.

The act authorizing "the coinage of the standard silver dollar and to restore its legal-tender character" became a law February 28, 1878. It provided for the purchase by the Treasury of silver bullion at the market price thereof, not less than $2,000,000 worth per month nor more than $4,000,000 worth per month, to be coined monthly as fast as so purchased into dollars of the weight of 412½ grains troy of standard silver. Any holder of the coin could deposit the same with the Treasurer or any assistant treasurer of the United States in sums not less than $10, and receive therefor certificates of not less than $10 each, corresponding with the denominations of the United States notes, these certificates to be receivable for customs, taxes, and all public dues, and when so received may be reissued.

The act of August 4, 1886, authorized and required the Secretary of the Treasury to issue silver certificates in denominations of $1, $2, and $5, which were to be receivable, redeemable, and payable in like manner and for like purposes as was provided in the law of 1878.

By the law of July 14, 1890, the Secretary of the Treasury was directed to purchase silver bullion to the aggregate amount of 4,500,000 ounces or so much thereof as may be offered in each month at the market price, and to issue in payment of such purchases of silver bullion Treasury notes of the United States, these notes to be redeemable on demand in coin, and when so redeemed may be reissued, to be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued. Such notes, when held by any national banking association, may be counted as a part of its lawful reserve. The coinage of silver dollars to be each month limited to 2,000,000 ounces of silver bullion a month until the first day of July, 1891; after that time as much silver bullion to be coined as should be necessary to provide for the redemption of the Treasury notes provided for in this act.

November 1, 1893, an act became a law discontinuing the purchases of silver bullion under the law of 1890.

In the diagram the purchases, coinage, and circulation under the law of 1878 are shown in the light-colored section. The sections of a pink color show the experience under the laws of 1890 and 1893.

Appendix.

No. 1.—Names and compensation of officers and clerks in the office of the Comptroller of the Currency, October 31, 1894 401
No. 2.—Expenses of the office of the Comptroller of the Currency for the year ended June 30, 1894 402
No. 3.—Number of banks organized, in liquidation, and in operation, with their capital, bonds on deposit, and circulation issued, redeemed, and outstanding on October 31, 1894 403
No. 4.—The number and capital, by States, of national banks organized during the year ended October 31, 1894 404
No. 5.—Statement showing, by States, the number of national banks in active operation October 31, 1894 404
No. 6.—Statement showing total number of national banks organized, number now in operation, and the number passed out of the system since February 25, 1863 404
No. 7.—Number and authorized capital of banks organized and the number and capital of banks closed in each year ended October 31, since the establishment of the national banking system, with the yearly increase or decrease 405
No. 8.—Statement showing, by States, the number and capital of all banks extended under act of July 12, 1882 405
No. 9.—Statement showing the number, capital, and circulation of national banks which will reach the expiration of their corporate existence during the period of ten years from 1895 to 1904, inclusive 406
No. 10.—Statement showing the title, location, capital, and circulation of banks the corporate existence of which expired during the year ended October 31, 1894, and of the associations which succeeded them 406
No. 11.—Statement showing the number, capital, and circulation by States, of national banks the corporate existence of which was extended during the year ended October 31, 1894 406
No. 12.—Statement showing the national banks the corporate existence of which will expire during the year ending October 31, 1895, with the date of expiration, capital, and amount of United States bonds and circulating notes 407
No. 13.—Statement giving titles of national banks which were closed to business, by voluntary liquidation and otherwise, during the year ended October 31, 1894, with date of authority to commence business, date of closing, capital, and circulation issued, redeemed, and outstanding 409
No. 14.—Statement showing the amount of authorized capital stock of the national banks on the first day of each month from January 1, 1873, to November 1, 1894, the amount of United States bonds on deposit to secure circulation, the amount of circulation secured by the bonds on deposit, the amount of lawful money to redeem circulation, and the total amount of national-bank notes outstanding, including notes of national gold banks 412

REPORT OF THE COMPTROLLER OF THE CURRENCY—Continued. Page.

No. 15.—Changes in capital, bonds, and circulation, by geographical divisions 416

No. 16.—Decrease or increase of national-bank circulation during each of the years ended October 31, 1887 to 1894, inclusive, and the amount of lawful money on deposit at the end of each year.. 421

No. 17.—Table showing, by States, the amount of national-bank circulation issued, the amount of lawful money deposited in the United States Treasury to retire national-bank circulation from June 20, 1874, to October 31, 1894, and amount remaining on deposit at latter date 422

No. 18.—Statement showing the amount of national-bank notes outstanding, the amount of lawful money on deposit with the Treasurer of the United States to redeem national-bank notes, and the kinds and amounts of United States bonds on deposit to secure circulation, and public deposits on October 31, 1894, with the changes during the preceding year and the preceding month 423

No. 19.—Statement showing profits upon circulating notes based upon a deposit of $100,000 bonds, October 31, 1893 424

No. 20.—Statement showing profits upon circulating notes based upon a deposit of $100,000 bonds, October 31, 1894 425

No. 21.—Statement showing quarterly increase or decrease in national-bank circulation from January 14, 1875, to October 31, 1894.. 426

No. 22.—Statement showing national-bank notes issued, redeemed, and outstanding, by denominations and amounts, on October 31, in each year from 1864 to 1894, inclusive 428

No. 23.—Statement of national gold bank notes issued, redeemed, and outstanding October 31, 1894 431

No. 24.—Statement of national-bank notes issued during the year ended October 31, 1894, with the total amount issued, redeemed, and outstanding 431

No. 25.—Monthly statement of additional circulation issued on bonds for years ended October 31, from 1883 to 1894 431

No. 26.—Statement showing, by denominations, the amount of national-bank notes issued and redeemed since the organization of the system, and the amount outstanding October 31, 1894 432

No. 27.—Vault account, showing the amount of currency received and issued by this Bureau during the year ended Obtober 31, 1894. 432

No. 28.—Statement showing, by States, the amount of "additional circulation" issued and retired during the year ended October 31, 1894, and total amount issued and retired since June 20, 1874. 433

No. 29.—Statement exhibiting the amount of national-bank notes received monthly for redemption by the Comptroller of the Currency during the year ended October 31, 1894, and the amount received during the same period at the redemption agency of the Treasury, together with the total amount received since the approval of the act of June 20, 1874 434

No. 30.—Statement showing the national-bank notes received at this Bureau and destroyed yearly since the establishment of the system 435

No. 31.—Vault account, showing the amount of currency received and destroyed during the year ended October 31, 1894 435

No. 32.—Statement showing amount of tax on circulation, cost of redemption, assessment for plates, and examiners' fees for the year ended June 30, 1894 436

REPORT OF THE COMPTROLLER OF THE CURRENCY—Continued. Page.

No. 33.—Statement showing by comparison the amount of taxes assessed as semiannual duty on circulating notes, cost of redemption, cost of plates, and examiners' fees for the past twelve years.. 436

No. 34.—Total amount of tax collected on capital, deposits, and circulation to June 30, 1894..... 436

No. 35.—Statement showing the total capital and bonds of national banks which do not issue circulation 436

No. 36.—Statement of the specie and bank-note circulation of the United States in the years specified from 1800 to 1859..... 437

No. 37.—Statement of the coin and paper circulation of the United States on June 30, from 1860 to 1894, inclusive..... 438

No. 38.—Statement showing the amount and kinds of United States bonds held to secure circulating notes of national banks on June 30 of each year, from 1865 to 1894, and the amount owned and held by the banks for other purposes, including those deposited with the Treasurer to secure public deposits..... 439

No. 39.—Statement showing the amount of United States bonds held to secure circulating notes of national banks for the years ended October 31, from 1882 to 1894, inclusive, and exhibiting the changes which occurred in the several classes of bonds..... 340

No. 40.—Statement showing the amount of interest-bearing bonded debt of the United States from 1865 to 1894, inclusive 441

No. 41.—Statement showing the opening, highest, and lowest market prices of United States registered bonds by weeks during the year ended October 31, 1894 442

No. 42.—Statement showing the investment value of United States 4½, 4, and 5 per cent. coupon bonds from 1885 to 1894, inclusive 443

No. 43.—Statement showing the number of depositors in national banks on July 18, 1894, classified as to amounts to their credit on that date..... 444

No. 44.—Table by States, Territories, and reserve cities, exhibiting the number of banks in each, capital, bonds actually held on October 2, 1894, minimum amount of bonds required by law, and the excess of bonds on October 2, 1894, and October 3, 1893. 447

No. 45.—Table, by States, Territories, and reserve cities, exhibiting the number of banks in each, with capital of $150,000 and under, for the years 1893 and 1894, and the increase or decrease in banks and capital during the interval 449

No. 46.—Table, by States, Territories, and reserve cities, exhibiting the number of banks in each, with capital exceeding $150,000, for the years 1893 and 1894, and the increase or decrease in banks and capital during the interval..... 451

No. 47.—Comparative statement of the resources and liabilities of the national banks from 1864 to 1894, inclusive..... 453

No. 48.—Statement presenting an abstract of the resources and liabilities of the national banks at close of business October 2, 1894; the condition of banks in New York City, in the three central reserve cities, in other reserve cities, and of the country banks being shown separately 455

No. 49.—Statement showing the highest and lowest points reached in the principal items of resources and liabilities of national banks during the existence of the system..... 456

No. 50.—Statement showing the percentages of loans, United States bonds, and specie to the aggregate funds of national banks, 1866 and 1887 to 1894 456

REPORT OF THE COMPTROLLER OF THE CURRENCY—Continued. Page.

No. 51.—Statement exhibiting a classification of loans made by the national banks in the central reserve cities (New York, Chicago, and St. Louis) and other reserve cities, in groups, together with country banks, on approximate dates for the past five years 457

No. 52.—Statement showing the classification of the loans by national banks in New York City for the last nine years 459

No. 53.—Classification of the loans and discounts of the national banks in the reserve cities and in the States and Territories on October 2, 1894 459

No. 54.—Table, by States, Territories, and reserve cities, exhibiting the amount of each kind of coin and coin certificate held by the national banks on October 4, 1888; September 30, 1889; October 2, 1890; September 25, 1891; September 30, 1892; October 3, 1893, and October 2, 1894 461

No. 55.—Statement exhibiting, by States, Territories, and reserve cities, the amount of coin and coin certificates held by the national banks on October 2, 1890; September 25, 1891; September 30, 1892; October 3, 1893, and October 2, 1894 471

No. 56.—Table exhibiting the deposits and reserve of national banks on or about October 1 of each year, from 1874 to 1894, in each central reserve city, in all other reserve cities, in the States and Territories, and a similar statement with respect to all national banks 473

No. 57.—Lawful money reserve of the national banks, as shown by their reports of condition at the close of business on October 2, 1894 477

No. 58.—Statement showing amount of deposits held by national banks, amount of lawful money reserve required, and ratio of same; also amount, ratio, and classification of reserve actually held on December 19, 1893, February 28, May 4, July 18, and October 2, 1894 478

No. 59.—Liabilities of the national banks, and the reserve required and held on three dates in the years 1889, 1890, 1891, 1892, 1893, and 1894 479

No. 60.—State of the lawful money reserve of the national banks, as shown by the reports from October 4, 1888, to October 2, 1894 482

No. 61.—Table showing, by geographical divisions, the reserve cities and central reserve cities, the number of banks in operation at every date on which reports of condition have been made, from March 10, 1885, to October 2, 1894, inclusive, together with the amount of reserve required and the amount held at each of those dates, and the classification of the reserve held, showing amounts and percentages in each case 484

No. 62.—Average weekly deposits, circulation, and reserve of the national banks of New York City, as reported to the New York Clearing House, for the months given, in the years 1888, 1889, 1890, 1891, 1892, 1893, and 1894 494

No. 63.—Table showing the movement of the reserve of the national banks in New York City during October for the last sixteen years 495

No. 64.—Abstract of reports of earnings and dividends of national banks in the United States 496

No. 65.—Omitted.

REPORT OF THE COMPTROLLER OF THE CURRENCY—Continued. Page.

No. 66.—Table, by States and reserve cities, showing ratios to capital, and to capital and surplus, of the earnings and dividends of national banks from March 1, 1890, to September 1, 1894..... 505

No. 67.—Earnings and dividends of the national banks, arranged by geographical divisions, for semiannual periods from September, 1885, to September, 1894..... 506

No. 68.—Number of national banks, their capital, surplus, dividends, net earnings, and ratios, yearly, 1870 to 1894..... 508

No. 69.—National banks which have gone into voluntary liquidation under the provisions of sections 5220 and 5221 of the Revised Statutes of the United States, with the dates of liquidation, the amount of their capital, circulation issued, retired, and outstanding October 31, 1894..... 509

No. 70.—National banks in liquidation under section 7, act July 12, 1882, with date of expiration of charter, circulation issued, retired, and outstanding, succeeded by associations with the same or different title, October 31, 1894..... 522

No. 71.—National banks which have gone into voluntary liquidation under the provisions of sections 5220 and 5221 of the Revised Statutes of the United States, for the purpose of organizing new associations with the same or different title, with date of liquidation, amount of capital, circulation issued, retired, and outstanding on October 31, 1894..... 523

No. 72.—National banks in liquidation under section 7, act of July 12, 1882, with date of expiration of charter, circulation issued, retired, and outstanding October 31, 1894..... 525

No. 73.—National banks which have been placed in the hands of receivers, together with capital and surplus at date of organization and at date of failure, cause of failure, dividends paid while solvent, circulation issued, lawful money deposited with the Treasurer to redeem circulation, the amount redeemed, and the amount outstanding October 31, 1894..... 526

No. 74.—Insolvent national banks, dates of organization, appointment of receiver and closing, since the organization of the national banking system, with amounts of nominal and additional assets, amounts collected from all sources, loans paid and other disbursements, losses on assets, expenses of receivership, claims proved, dividends paid, and remaining assets returned to stockholders..... 538

No. 75.—Statement showing the national banks which failed during the year ended October 31, 1894, with capital, surplus, and liabilities, obtained from last report of condition..... 554

No. 76.—Statement showing receiverships in an inactive condition..... 555

No. 77.—Statement giving the title of the eight national banks the affairs of which were closed during the year ended October 31, 1894, with date of appointment of receiver, total dividends on principal of claims, and proportion of interest paid. 555

No. 78.—Dividends, one hundred and twenty in number, paid to the creditors of insolvent national banks during the past year, with the total dividends in each case up to November 1, 1894. 556

No. 79.—Comparative statement for two years of the transactions of the New York Clearing House, showing aggregate amount of clearings, aggregate balances, and the kinds and amounts of money passing in settlement of these balances..... 559

REPORT OF THE COMPTROLLER OF THE CURRENCY—Continued. Page.

No. 80.—Statement showing by comparison the transactions of the New York Clearing-House for forty-one years, and for each year, the number of banks, aggregate capital, clearings, balances, average of the daily clearings and balances, and the percentage of balances to clearings 560

No. 81.—Statement showing clearing-house transactions of the assistant treasurer of the United States at New York, for the year ended October 1, 1894 560

No. 82.—Comparative statement of the exchanges of the clearing houses of the United States for October, 1894, and October, 1893 561

No. 83.—Comparative statement of the exchanges of the clearing houses of the United States for weeks ended October 27, 1894, and October 28, 1893 562

No. 84.—Comparative statement of the exchanges of the clearing houses of the United States for years ended September 30, 1894, and September 30, 1893 563

No. 85.—Abstract of reports of condition of State banks in the United States, 1893–'94 565

No. 86.—Abstract of reports of condition of loan and trust companies in the United States, 1893–'94 568

No. 87.—Abstract of reports of condition of the private banks in the United States, 1894 574

No. 88.—Abstract of reports of condition of State banks, 1872–'73 to 1893–'94 574

No. 89.—Aggregate resources and liabilities of loan and trust companies from 1889–'90 to 1893–'94 580

No. 90.—Aggregate resources and liabilities of savings banks from 1889–'90 to 1893–'94 580

No. 91.—Aggregate resources and liabilities of private banks in 1890, 1891, 1892, 1893, and 1894 581

No. 92.—Aggregate resources and liabilities of all State banks, loan and trust companies, savings and private banks, 1893–'94 582

No. 93.—Statement showing the amount of gold, etc., held by national banks on July 18, 1894, and by other banking institutions on or about the same date 582

No. 94.—Statement showing by States, etc., the gold, silver, specie (not classified), paper currency, and cash (not classified) held by banks other than national at date of latest reports, 1893–'94. 583

No. 95.—Table showing, by States, the number and capital stock of State banks reporting their resources and liabilities, and number, capital stock, amount, and average rate per cent. of annual dividends paid by banks reporting that information, 1893–'94. 584

No. 96.—Table showing, by States and Territories, the capital of the national banks on July 18, 1894, and of the State, stock savings, and private banks and loan and trust companies at date of latest reports to this Bureau 585

No. 97.—Table showing, by States and Territories, the population of each on June 1, 1894, and the aggregate capital, surplus, and undivided profits, and individual deposits of national and State banks, loan and trust companies, savings and private banks in the United States on or about June 30, 1894; the average of these per capita of population, and the per capita averages of such resources in each class of banks and in all banks.... 586

REPORT OF THE COMPTROLLER OF THE CURRENCY—Continued. Page.
No. 98.—Statement showing the number and value of stock issued, number and value of shares held by women, number of women shareholders, number of women employees, and annual salaries paid to them, by State banks, June 30, 1894 587
No. 99.—Table showing, by States, the aggregate savings deposits of savings banks, with the number of the depositors and the average amount due to each, in 1892-'93 and 1893-'94..... 588
No. 100.—Table showing the number of savings banks in the United States, number of depositors, amount of savings deposits, average amount due each depositor in the years 1820, 1825, 1830, 1835, 1840, and 1845 to 1894, and average per capita in the United States in the years given 589
No. 101.—Table showing, by States and geographical divisions, the number, assets, and liabilities of State and savings banks, trust and mortgage companies, and private banks in the United States, which failed during the year ended on August 31, 1894..... 591
No. 102.—Report of the condition of the National Savings Bank of the District of Columbia, at Washington, D. C., at the close of business on the 2d day of October, 1894..... 592
No. 103.—Report of the condition of the National Safe Deposit, Savings and Trust Company of the District of Columbia, at Washington, D. C., at the close of business on the 2d day of October, 1894..... 592
No. 104.—Report of the condition of the Washington Loan and Trust Company, at Washington, D. C., at the close of business on the 2d day of October, 1894 593
No. 105.—Report of the condition of the American Security and Trust Company, at Washington, in the District of Columbia, at the close of business on the 2d day of October, 1894..... 595
No. 106.—Summary of the condition of the thirty-nine chartered banks of the Dominion of Canada on July 31, 1894..... 596
REPORT OF THE COMMISSIONER OF INTERNAL REVENUE 597-721

Statement of customs business for the fiscal year ended June 30, 1894 962
REPORT OF THE CHIEF OF THE SECRET-SERVICE DIVISION 967-974
FREE ALCOHOL IN THE ARTS:
Correspondence between the Secretary of the Treasury and the Commissioner of Internal Revenue concerning the provisions in the tariff bill of August 28, 1894, relative to the use of alcohol in the arts free of internal-revenue tax 975-992

ANNUAL REPORT ON THE FINANCES.

TREASURY DEPARTMENT,
Washington, D. C., December 3, 1894.

SIR: I have the honor to submit the following report:

RECEIPTS AND EXPENDITURES.

Fiscal year 1894.

The revenues of the Government from all sources for the fiscal year ended June 30, 1894, were:

From internal revenue	$147,111,232.81
From customs	131,818,530.62
From the District of Columbia	3,745,422.83
From fees—consular, letters patent, and land	2,765,699.41
From sinking fund for Pacific railways	1,916,314.11
From sales of public lands	1,673,637.30
From tax on national banks	1,610,867.56
From sale of navy-yard lands, Brooklyn, N. Y.	1,190,531.01
From navy pension and navy hospital funds, etc	1,059,964.64
From repayment of interest by Pacific railways	926,420.09
From profits on coinage, bullion deposits, and assays	870,016.78
From miscellaneous sources	772,148.18
From customs fees, fines, penalties, and forfeitures	682,041.48
From sales of Indian lands	399,811.36
From bequest of Gen. Cullum for Memorial Hall, West Point	237,500.00
From immigrant fund	214,142.47
From sales of Government property	201,970.88
From Soldiers' Home, permanent fund	191,382.15
From sale of old custom-house, Milwaukee, Wis	107,680.00
From deposits for surveying public lands	103,424.87
From sales of ordnance material	60,159.91
From reimbursement by International Union of American Republics	26,243.75
From sale of abandoned military reservations	22,202.14
From depredations on public lands	8,774.05
From sales of condemned naval vessels	5,400.85
From tax on seal skins	500.00
From postal service	75,080,479.04
Total receipts	372,802,498.29

The expenditures for the same period were:

For the civil establishment, including foreign intercourse, public buildings, collecting the revenues, deficiency in postal revenues, refund of direct taxes, bounty on sugar, District of Columbia, and other miscellaneous expenses	$101,943,884.07
For the military establishment, including rivers and harbors, forts, arsenals, and seacoast defenses	54,567,929.85
For the naval establishment, including construction of new vessels, machinery, armament, equipment, and improvements at navy-yards	31,701,293.79
For Indian service	10,293,481.52
For pensions	141,177,284.96
For interest on the public debt	27,841,405.64
For postal service	75,080,479.04
Total expenditures	442,605,758.87
Showing a deficit of	69,803,260.58

In addition to the ordinary revenues collected during the year, the cash in the Treasury was increased by the following sums: From the sale of fifty million five per cent ten year bonds issued under act of January 14, 1875, $58,633,295.71; from national bank fund deposited under act of July 14, 1890, in excess of notes redeemed, $5,708,247.75; and from the issue of four per cent bonds in liquidation of interest accrued on refunding certificates converted during the year, $4,790; making a total of $64,346,333.46. The securities redeemed during the year on account of the sinking fund were as follows:

Loan of July and August, 1861	$100.00
Loan of July and August, 1861, continued at 3½ per cent	18,000.00
Funded loan of 1881	1,000.00
Funded loan of 1881, continued at 3½ per cent	15,400.00
Loan of 1882	4,400.00
Funded loan of 1891	176,000.00
Fractional currency and notes	6,687.20
Total	221,587.20

As compared with the fiscal year 1893 the receipts for 1894 fell off $88,914,063.65, as follows:

Source.	1893.	1894.	Increase.	Decrease.
Sale of navy-yard lands, Brooklyn, N.Y.		$1,190,531.01	$1,190,531.01	
District of Columbia	$3,111,742.27	3,745,422.83	633,680.56	
Bequest of Gen. Cullum for memorial hall, West Point		237,500.00	237,500.00	
Tax on national banks	1,392,623.63	1,610,867.56	218,243.93

Bureau of Navigation	245,617.41	150,012.70		95,604.71
Bureau of Construction and Repair	994,423.28	988,039.32		6,383.96
Bureau of Ordnance	449,788.29	338,201.43		111,586.86
Bureau of Steam Engineering	753,836.34	740,189.97		13,646.37
Bureau of Supplies and Accounts	1,505,843.92	1,777,194.08	271,350.16	
Bureau of Medicine and Surgery	223,916.40	215,531.15		8,385.25
Marine Corps	894,841.02	933,411.72	38,570.70	
Naval Academy	211,744.63	220,847.01	9,102.38	
Pay of the Navy	7,401,862.60	7,536,262.04	134,399.44	
Miscellaneous items	352,806.12	186,089.22		166,716.90
Total Naval Establishment	30,136,084.43	31,701,293.79	1,967,533.41	402,324.05
Indian Service	13,345,347.27	10,293,481.52		3,051,865.75
Pensions	159,357,557.87	141,177,284.96		18,180,272.91
Interest on the public debt	27,264,392.18	27,841,405.64	577,013.46	
Grand total	383,477,954.49	367,525,279.83	16,765,984.12	32,718,658.78
Net decrease				15,952,674.66

Fiscal year 1895.

The revenues of the Government for the current fiscal year are thus estimated upon the basis of existing laws:

From customs	$160,000,000.00
From internal revenue	165,000,000.00
From miscellaneous sources	15,000,000.00
From postal service	84,427,748.44
Total estimated revenues	424,427,748.44

The expenditures for the same period are estimated as follows:

For the civil establishment	$91,250,000.00
For the military establishment	53,250,000.00
For the naval establishment	32,500,000.00
For the Indian service	11,500,000.00
For pensions	140,500,000.00
For interest on the public debt	31,000,000.00
For postal service	84,427,748.44
Total estimated expenditures	444,427,748.44
Or a deficit of	20,000,000.00

Fiscal year 1896.

It is estimated that upon the basis of existing laws the revenues of the Government for the fiscal year 1896 will be:

From customs	$185,000,000.00
From internal revenue	190,000,000.00
From miscellaneous sources	15,000,000.00
From postal service	86,907,407.00
Total estimated revenues	476,907,407.00

The estimates of appropriations required for the same period, as submitted by the several Executive Departments and offices, are as follows:

Legislative establishment		$3,994,600.02
Executive establishment—		
Executive proper	$199,540.00	
State Department	137,420.00	
Treasury Department	9,163,784.55	
War Department	1,709,556.00	
Navy Department	425,790.00	
Interior Department	4,749,031.00	
Post-Office Department	880,950.00	
Department of Agriculture	2,400,330.00	
Department of Justice	195,540.00	
Department of Labor	187,470.00	
		20,049,411.55
Judicial establishment		705,420.00
Foreign intercourse		1,583,118.76
Military establishment		25,030,412.09
Naval establishment		29,415,293.96
Indian affairs		6,723,844.83
Pensions		141,581,570.00
Public works—		
Legislative	$1,105,850.00	
Treasury Department	4,914,680.00	
War Department	21,596,679.80	
Navy Department	1,536,803.00	
Interior Department	129,000.00	
Department of Justice	1,000.00	
		29,284,012.80

Miscellaneous—		
Legislative	$3,236,292.48	
Treasury Department	11,736,426.14	
War Department	4,697,981.66	
Interior Department	2,185,428.00	
Department of Justice	5,767,500.00	
District of Columbia	7,217,934.25	
		$34,841,562.53
Postal service, including $4,151,876.64 deficiency in postal revenues		91,059,283.64
Permanent annual appropriations—		
Interest on the public debt	$31,771,796.32	
Refunding—customs, internal revenue, etc	9,165,000.00	
Collecting revenue from customs	5,500,000.00	
Miscellaneous	17,387,160.00	
		63,823,956.32
Total estimated appropriations, exclusive of sinking fund		448,092,486.50
Or an estimated surplus of		28,814,920.50

OPERATIONS OF THE TREASURY.

The report of the Treasurer of the United States* contains the usual statistical information relating to the operations and condition of the Treasury. Including, together with the general balance, the balances of the postal revenues, of disbursing officers' funds, and of the various other deposit accounts, the total liabilities of the Treasury were $776,041,808 on June 30, 1893, and $804,854,753.31 on June 30, 1894. These liabilities were fully covered by the sums of money and securities in the several offices of the Treasury and Mint, together with other authorized items of credit. After setting aside the unavailable amounts, chief of which are the deposits made with the States under the law of 1836, the net available assets were $746,538,655.58 at the former date and $775,310,559.50 at the latter. Of these sums, $584,593,920 and $616,155,820, respectively, were on deposit for the payment of outstanding gold certificates, silver certificates, currency certificates, and Treasury notes, leaving $161,944,735.58 in 1893 and $159,154,739.50 in 1894 available for the general uses of the Treasury.

Several forms of stating the liabilities and resources of the Treasury having been employed at different periods, the Treasurer has recast the published monthly reports of condition in the form which has for some time been followed in the statement of the public debt, and for convenience of reference has presented the results in a series of tables. These afford a complete view of the condition of the Treasury at intervals of month since June, 1878.

These tables, together with others accompanying the report, exhibit the fluctuations in the gold reserve of the Treasury, and furnish full information concerning the conditions which have rendered it necessary to resort to unusual measures for the maintenance of that fund. Amongst these conditions are the diminishing resources of the Treasury and the increasing demands for gold in redemption of United States notes and Treasury notes, both for export and for domestic use.

* See Appendix, page 3.

The amount of new issues of paper put into circulation during the year was never exceeded except once, in 1892, and the amount of worn and mutilated pieces redeemed was exceeded but once, in 1893. In consequence, the total paper circulation of the country reached, by the end of May, 1894, the highest point it had ever attained, standing then at $1,175,054,480. A slight contraction since that time has been the result chiefly of the gradual redemption and retirement of gold certificates, the issue of which was suspended, in compliance with law, when the gold reserve fell below $100,000,000.

COINS AND COINAGE—PRECIOUS METALS.

The Director of the Mint reports* the operations of the mints and assay offices during the year, in detail, together with statistics of all the foreign countries, relative to the monetary condition, coinage, and production of each.

The value of the gold deposited at the mints and assay offices of the United States during the year was $140,942,545.48; original deposits, $71,909,513.31; redeposits, $69,033,032.17. Of the amount of the original deposits, $38,696,951.40 was of domestic production, $28,000,525.00 foreign bullion and coin, $3,118,421.45 old material, and $2,093,615.46 worn and uncurrent United States coin. The deposits and purchases of silver during the year were 22,746,661.32 fine ounces, the dollar coinage value of the same being $29,409,824.68; original deposits, $28,697,030.80; redeposits, $712,793.87. Of the original deposits, $19,777,700.38 was of domestic production, $1,832,889.99 foreign bullion and coin, $6,481,403.98 worn and uncurrent United States coin, and $605,036.46 old material.

The purchases of silver bullion under the act of July 14, 1890, during the year were 11,917,658.78 fine ounces, costing $8,715,521.32, an average cost of $0.7313 per fine ounce. The total amount of silver bullion purchased under this act from August 13, 1890, to November 1, 1893, the date of the repeal of the purchasing clause, was 168,674,682.53 fine ounces, costing $155,931,002.25, the average price per fine ounce being $0.9244.

The number of silver dollars coined during the year from bullion purchased under this act was 758, consuming 586.27 fine ounces, costing $530.99. The seigniorage on this coinage was $227.01.

The total coinage of silver dollars, under the act of July 14, 1890, to July 1, 1894, was 36,087,943, consuming 27,911,768.41 fine ounces, costing $29,110,647.24. The total seigniorage on this coinage was $6,977,295.76, and the balance of silver bullion purchased under the act and on hand at the mints on July 1, 1894, was 140,699,343.74 fine ounces, costing $126,757,819.37.

Since the repeal of the purchasing clause of this act, silver contained in gold deposits, bar charges and fractions, to the amount of 82,989.71

* See Appendix, page 142.

fine ounces, costing $53,095.84, of the coining value in subsidiary coin of $114,725,70, was purchased under the provisions of section 3526 of the Revised Statutes of the United States.

The total coinage during the year consisted of 62,485,220 pieces, valued as follows:

Gold	$99 474,912.50
Silver dollars	758.00
Subsidiary silver	6,024,140.30
Minor coins	716,919.26
Total	106,216,730.06

The highest London price of bar silver during the year was reached on September 12, 1893, 34⅛*d.*, equal to $0.7645 per ounce, fine; while the lowest price was recorded in March, 1894, 27*d.*, equal to $0.5918 per ounce, fine, showing a fluctuation of $0.1727.

Earnings and expenditures.

During the year the amount expended for the support of the Mint service aggregated $1,068,612.19, as against $1,344,005.07 for the fiscal year 1893. The total earnings of the mints and assay offices during the year were $870,672.71, while the expenditures were $1,278,723.06.

Imports and exports.

The net gold exports for the fiscal year were $4,172,665, as against $86,897,275 for the previous fiscal year.

The net silver exports for the fiscal year were $31,041,359, as against $7,653,813 for the fiscal year 1893.

Coinage of standard silver dollars.

Since the passage of the act of February 28, 1878, standard silver dollars have been coined at the mints of the United States to the amount of $421,776,408, of which $378,166,793 were coined from the bullion purchased under that act; $38,531,143 from bullion purchased under the act of July 14, 1890, and $5,078,472 under the act directing the coinage of trade-dollar bullion.

Gold and silver used in the industrial arts.

The value of the gold and silver used in the industrial arts in the United States during the last calendar year, based upon the best information obtainable, was, approximately, gold, $12,523,523; silver, $9,534,277. Of the gold $8,354,482 and of the silver $6,570,737 were new bullion.

Metallic stock of money in the United States.

The estimated metallic stock of money in the United States, consisting of coin and bullion, on July 1, 1894, was, gold, $627,293,201; silver, $624,347,757; a total of $1,251,640,958.

Production of gold and silver in the United States.

The estimated production of gold and silver in the United States during the calendar year 1893 was:

	Fine ounces.	Commercial value.	Coining value.
Gold	1,739,323	$35,955,000	$35,955,000
Silver	60,000,000	46,800,000	77,576,000

The world's production of the precious metals for the calendar year 1893 was estimated to have been $157,228,100 in gold and $209,165,000 in silver.

The world's coinage.

Information received as to the coinages of the various countries of the world for the calendar year 1893 shows there were coined $232,485,668 in gold and $135,389,753 in silver.

PUBLIC MONEYS.

The monetary transactions of the Government have been conducted through the Treasurer of the United States, nine subtreasury officers, and 170 national bank depositaries. The number of such depositaries on November 1, 1894, was 155, and the amount of public moneys held by them on that date, including those to the credit of the Treasurer's general account and United States disbursing officers, was $14,915,705.30, an increase, since November 1, 1893, in number of depositaries of two, and a decrease in amount of holdings of $541,625.74.

LOANS AND CURRENCY.

The interest-bearing debt of the United States was increased $50,003,820 during the twelve months ended November 1, 1894. The indebtedness at 4 per cent was increased $3,820 through the issue of bonds on account of accrued interest on refunding certificates presented for redemption, as authorized by the act of Congress approved February 26, 1879; and there were issued and sold, in pursuance of the public notice of January 17, 1894, $50,000,000 of 5 per cent bonds, dated February 1, 1894, redeemable in coin, at the pleasure of the Government after ten years from the date of their issue.

The public notice fixed 117.223 as the lowest price which would be considered by the Department, that price being the one at which the bonds should sell in order to yield to the purchaser an income of 3 per cent upon the amount of his investment. The total amount of subscriptions received and considered was $52,292,150, of which $9,295,300 were at prices above the limit fixed in the public notice. All these were accepted, and the remainder, $42,996,850, were scaled down 5.331 per cent, making the total allotment of bonds at the limit of 117.223 $40,704,700. It was provided in the public notice that payments should be made in gold coin, or gold certificates, and the total proceeds of the bonds were paid into the Treasury in strict accordance with this provision, as follows:

Gold coin received.

Treasury at Washington	$7,125.99
Subtreasury at Baltimore	207,281.00
Subtreasury at Philadelphia	560,041.50
Subtreasury at New York	47,021,626.00
Subtreasury at Boston	4,071,277.50
Subtreasury at Cincinnati	384,125.06
Subtreasury at Chicago	307,696.00
Subtreasury at St. Louis	94,180.00
Subtreasury at New Orleans	12,939.93
Subtreasury at San Francisco	183,971.32
Total	52,850,264.24
Gold certificates received	5,810,240.00
Other forms of money received in making change	233.39
Total proceeds of bonds	58,660,917.63

Bids which were received and not considered amounted to $55,705,100. Of this amount five bids, amounting to $705,100, were received after the time fixed for considering them; one other bid of $2,000,000 was conditional, and for that reason was not considered. One bid for $3,000,000 was rejected because no satisfactory address of the subscriber could be obtained, and the remainder, being fifty bids of $1,000,000 each by one individual, was rejected because of the subscriber's lack of financial standing.

The amount of money in the United States, outside of the Treasury, November 1, 1894, was $1,672,093,422, a decrease during the twelve months of $46,451,260; but, during the same period, there was an increase in the total stock of money in the country of $36,122,888. The population is estimated to have increased during the twelve months from 67,426,000 to 68,887,000, and, upon this basis, the per capita supply of the total stock declined during the period mentioned from 32.70 to 32.53. The per capita supply of money outside the Treasury fell during the same period from $25.49 to $24.27. The following tables

show the changes in each form of money, both as to the amount outside the Treasury and the total stock:

Money outside of the Treasury.

	Nov. 1, 1893.	Nov. 1, 1894.	Decrease.	Increase.
Gold coin	$498,121,679	$500,181,380		$2,059,701
Standard silver dollars	58,725,818	56,443,670	$2,282,148	
Subsidiary silver	64,309,807	60,242,999	4,066,808

Net increase				36,122,888

NATIONAL BANKS.

The report of the Comptroller of the Currency* contains detailed information as to the organization, condition, and liquidation of all active and failed national banks for the year ended October 31, 1894.

On October 31, the total number of national banks in operation was 3,756, having an authorized capital stock of $672,671,365, represented by 7,955,076⅓ shares of stock, owned by 287,842 shareholders.

The total resources of the 3,755 banks in operation and reporting on October 2, 1894, was $3,473,922,055.27, of which loans and discounts aggregated $2,007,122,191.30, and money of all kinds in bank $422,428,192.45. Of their liabilities $1,728,418,819.12 represented individual deposits, $334,121,082.10 surplus and net undivided profits, and $172,331,978 circulating notes outstanding. The total amount of circulation of national banks on October 31, was $207,472,603, being a net decrease during the year of $1,741,563, and a gross decrease of $8,614,864 in circulation secured by a deposit of bonds.

Only fifty banks were organized during the year, with an aggregate capital stock of but $5,285,000, the smallest number organized, as well as the minimum amount of capital, in any one year since 1879. Of

* See Appendix, page 365.

these twenty-seven are located in the Northern and Eastern States; ten in the Southern States, and thirteen in the Western or transmississippi division.

The charters of forty-one banks, having a capital stock of $5,143,000, and $1,678,050 of circulation, were extended during the year, and seventy-nine banks passed out of the system by voluntary liquidation, with an aggregate capital stock of $10,475,000. Twenty-one banks, including two which failed during the year 1893, with a capital stock of $2,770,000, have become insolvent and been placed in charge of receivers. Of the banks that were in the hands of receivers at the date of the last report ten, with a capital stock of $1,575,000, resumed during the year.

The charters of six banks, reporting a capital stock of $665,000 and circulation amounting to $283,950, expired by limitation. Of these five were succeeded by new associations, with a capital stock of $600,000, and circulation aggregating $92,250.

A comparison of the reports of 1893 with those of 1894 shows that the item of individual deposits declined from $1,764,456,177 on December 9, 1892, to their lowest point, $1,451,124,330, on October 3, 1893, but from that date they steadily increased to $1,539,399,795 on December 19, 1893, $1,586,800,444 on February 28, 1894, $1,670,958,769 on May 4, 1894, $1,677,801,200 on July 18, 1894, until on October 2, 1894, they had reached the sum of $1,728,418,819, or an amount but $36,000,000 less than on December 9, 1892, the highest point reached by individual deposits during the two years named.

On October 2, 1894, the banks had a surplus fund of $245,197,517, and net undivided profits of $88,923,564, as against a surplus fund of $239,931,932, and undivided profits, after deducting expenses and taxes, of $100,398,914 on December 9, 1892.

National bank notes outstanding increased from $145,669,499 on December 9, 1892, to $182,959,725 on October 3, 1893, after which date there was a decrease until July 18, 1894, when the amount outstanding reached $171,714,552. Between the last-named date and October 2, 1894, the amount again increased to $172,331,978.

On October 3, 1893, the liabilities of the banks for money borrowed in different forms amounted to $80,126,026, which decreased by December, 19, 1893, to $28,827,772. The same items on October 2, 1894, aggregated $26,944,248.

The amount of United States bonds held to secure circulation on December 9, 1892, was $166,449,250, which increased gradually during 1893, until October 3, 1893, when it reached $206,463,850, the highest point attained during the two years named. After the last-mentioned date there was a slight decrease, the amount held on October 2, 1894, having been reduced to $199,642,500. On December 9, 1892, the banks held for investment United States bonds amounting to $4,148,600. This amount decreased until October 3, 1893, when they held $2,760,950. On December 19, 1893, it increased to $3,049,000, but on February 28,

1894, it reached $17,250,150, the increase being chiefly due to investments in the 5 per cent bonds sold by the Government during the intervening period. After February 28, 1894, the amount held for investment gradually decreased until October 2, 1894, when the banks held $10,662,200.

The amount of stocks and securities steadily decreased from December 9, 1892, until October 3, 1893, when it was but $148,569,950. An increase then began and continued until October 2, 1894, when it reached $193,300,072, indicating the extent to which this form of investments was resorted to by the banks during a period of easy money, commencing at the close of the monetary stringency and continuing while the cash resources of the banks were being replenished by depositors.

The specie held by the banks on December 9, 1892, amounted to $209,895,260, which gradually decreased to $186,761,173 on July 12, 1893, after which date it increased until May 4, 1894, when it amounted to $259,941,923, and thereafter decreased to $237,250,654, on October 2, 1894.

The lawful money reserve in the banks, which reached its lowest point on July 12, 1893, when it amounted to $289,244,850, steadily increased thereafter until May 4, 1894, when it amounted to $452,103,214. It then decreased again to $438,931,970 on July 18, 1894, and still further to $402,894,682 on October 2, 1894. This decrease in cash resources of the banks is accounted for by the marked increase in the item of loans and discounts during the same period, due to a gradual revival of business between the dates named, but more particularly between July 18, 1894, and October 2, 1894.

The average annual dividends of the banks between March, 1869, when the law requiring dividend reports to be made went into effect, and March, 1894, is shown to amount to $44,355,814, and the net earnings to $55,237,454. The rate per cent of dividends declared varies from 10.5 to 6.8, the average for the twenty-five years being 8.5.

A consolidation of rival banks is suggested in communities where banking has been overreached, as the best means of checking reckless banking resulting from unwholesome competition to obtain business sought by several institutions which could all be done by one strong bank.

The report contains the usual statistics in regard to banks other than national, but more complete in details than heretofore.

The report also contains statistics as to the interest of women in banks, showing the number and value of shares of stock owned by them, the number employed in banks, and the compensation paid them.

Twenty-one banks were placed in the hands of receivers during the year, having an aggregate capital of $2,770,000; surplus and undivided profits, $715,889; outstanding circulation, $453,154; other liabilities, $5,470,013, and total liabilities, $9,409,356.

During the year, 143 insolvent banks have demanded the supervision of the Comptroller. Of these, 10 have been restored to solvency and have resumed business; the accounts of 8 have been finally closed, and 25 have been placed upon the inactive list, the accounts being kept open only to await the result of pending litigation, or to prevent a too great sacrifice of the remaining assets.

Among other subjects of interest discussed at length in the report of the Comptroller is the use of credit instruments in retail business transactions throughout the country, and their importance in payments and exchanges generally, as against the necessity of any additional provisions for simply increasing the volume of money, without taking into consideration the other and more important elements which should characterize the currency circulation.

The Comptroller also reports the result of investigations made as to the number of depositors in national banks, showing how many there are, and also the profit accruing to the Government through the tax levied upon the banks and the services of the banks to the public throughout the country.

He also suggests for the consideration of Congress that the provision of law requiring a deposit of bonds to secure circulation be repealed, and instead a provision made whereby the banks, upon depositing such percentage of their capital as is deemed necessary in the legal tender issues of the Government and the issues under the Sherman Silver Act of 1890, be permitted to issue notes to the extent of such deposit, and in addition also issue notes against their assets; the notes issued against their assets to be subject to the percentage of tax amply sufficient to create a safety fund, to be held by the Government for the purpose of redeeming the notes of insolvent banks.

The details of the plan suggested are not discussed, but simply its general principles. The Comptroller suggests that as the Government would permit the banks to issue notes against a portion of their assets, the banks should for such franchise relieve the Government of the continued embarrassment of the current redemption of its Treasury issues. He would have each bank in the system keep with the Treasurer or at each redemption agency a sufficient sum in gold coin or lawful money of the United States to currently redeem the notes issued by the banks, both against the Treasury note deposit and the notes issued against the assets of the banks. He believes that all other provisions of the National Bank Act should remain as they are, except those wherein such change can be made as will make the system more conducive to the public good than it now is, and that whatever legislation is enacted upon the subject of note issues should be so carefully prepared and surrounded by such safeguards as would make the issues of the banks as safe as they are now. Any changes which are made should be to secure, upon the one hand, a greater elasticity in the note-issuing function of the banks, and

at the same time give such relief as is possible to the General Government from the dangers incident to the current redemption under existing laws, of notes issued by the Treasury Department.

FOREIGN COMMERCE.

The returns of foreign commerce for the fiscal year ended June 30, 1894, and a comparison with the preceding year, are shown in the following table:

	1893.	1894.
Imports:		
Merchandise: Dutiable	$421,856,711	$275,199,086
Free	444,544,211	379,795,536
Total	866,400,922	654,994,622
Gold	21,174,381	72,449,119
Silver	23,193,252	13,286,552
Exports:		
Merchandise: Domestic	831,030,785	869,204,937
Foreign	16,634,409	22,935,635
Total	847,665,194	892,140,572
Gold	108,680,844	76,898,061
Silver	40,737,319	50,451,265
Tonnage: Entered ....tons.	19,581,816	20,069,309
Cleared ....do....	19,760,746	20,275,074
Immigration ....number..	502,917	314,467

It appears from the foregoing statement that the total value of our imports of merchandise during the fiscal year 1894 was $201,406,800 less than in 1893, while the total value of our exports of merchandise, domestic and foreign, was $44,495,378 more than in 1893. Our exports of merchandise exceeded our imports of merchandise to the amount of $237,149,950.

CUSTOMS ADMINISTRATION.

There is great necessity, in my opinion, for a reorganization of the customs districts throughout the country. There are now many ports of entry at which little or no business is transacted, and which should be abolished. Many of these places were important when foreign trade was carried on in sailing vessels and before the concentration of the importing business at a few of the larger ports by the employment of regular lines of large ocean steamers and the present system of rapid inland transportation. Notwithstanding these changed conditions, the custom-houses, with collectors, deputies, inspectors, and clerks, are still maintained. A consolidation of the districts and a reduction of the number of ports of entry may be accomplished without impairing the means necessary to protect the revenue against smugglers and without withdrawing proper facilities for documenting vessels. The appropriation for the collection of the revenue from customs was fixed many years ago, and the necessities of business have required the establish-

ment of new ports, with a consequent increase of expense. Whatever expenditure of public money is necessary to protect the revenue or accommodate shipping interests should be authorized, but sound business considerations and the exercise of proper economy would seem to demand such action by Congress as will enable the Secretary of the Treasury to consolidate customs districts whenever, in his judgment, such proceeding is necessary. An examination of the tables accompanying this report,* showing the business at the ports throughout the country and the cost of maintaining them, will emphasize the suggestion herein made.

Penal duties.

The penal additional duties provided for in section 7 of the Customs Administrative Act have, in many cases, been found to work extortion and injustice. These duties have frequently amounted to a practical confiscation of the goods, as, for instance, one importation at New York accidentally undervalued at $35, and appraised at $350, was found liable to additional duties amounting to $12,500. In virtue of the power conferred by the statutes upon the Secretary of the Treasury, I have considered it expedient in some instances to intervene for the protection of the importer, by a remission of the penal duties on payment of the regular duty upon the appraised value of the goods.

The substitution of the following for section 7 of the existing act is recommended:

SEC. 7. "That the owner, consignee, or agent of any imported merchandise which has been actually purchased, may, at the time when he shall make and verify his written entry of such merchandise, but not afterwards, make such addition in the entry to the cost or value given in the invoice, or pro forma invoice, or statement in form of an invoice, which he shall produce with his entry, as in his opinion may raise the same to the actual market value or wholesale price of such merchandise at the time of exportation to the United States, in the principal markets of the country from which the same has been imported, but no such addition shall be made upon entry to the invoice value of any imported merchandise obtained otherwise than by actual purchase; and the collector within whose district any merchandise may be imported or entered, whether the same has been actually purchased or procured otherwise than by purchase, shall cause the actual market value or wholesale price of such merchandise to be appraised; and if the appraised value of any article of imported merchandise shall exceed by more than ten per centum the value declared in the entry, there shall be levied, collected, and paid, in addition to the duties imposed by law on such merchandise, a further sum equal to one per centum of the total appraised value for each one per centum that such appraised value exceeds the value declared in the entry; and

*See Report of Supervising Special Agent in the Appendix, page 957.

the additional duties shall only apply to the particular article or articles in each invoice which are undervalued, but such additional duties shall not exceed forty per centum in any case; and if such appraised value shall exceed the value declared in the entry more than forty per centum, such entry may be held to be presumptively fraudulent, and the collector of customs may seize such merchandise and proceed as in cases of forfeiture for violation of the customs laws; and in any legal proceedings which may result from such seizure the fact of such undervaluation shall be presumptive evidence of fraud, and the burden of proof shall be on the claimant to rebut the same, and forfeiture shall be adjudged unless he shall rebut said presumption of fraudulent intent by sufficient evidence: *Provided*, That the forfeitures provided for in this section shall apply to the whole of the merchandise or the value thereof in the case or package containing the particular article or articles in each invoice which are undervalued: *And, provided further*, That all additional duties, penalties, or forfeitures applicable to merchandise entered by a duly certified invoice shall be alike applicable to goods entered by a pro forma invoice or statement in form of an invoice. The duty shall not, however, be assessed upon an amount less than the invoice or entered value: *And provided further*, That whenever the Secretary of the Treasury shall be satisfied that such additional duties were incurred without willful intent to defraud the revenue, he is hereby authorized, in accordance with the provisions of section 5293 of the Revised Statutes to remit such additional duties and to allow the liquidation of the entry at the duty upon the value returned by the appraiser, or on appeal, by the Board of General Appraisers."

It occasionally happens that, through the dishonesty or carelessness of laborers or other employés in the appraising office of customs, serious damage occurs to imported merchandise while it is in the appraiser's hands for examination. In some instances there have been considerable losses by robbery. There is, under the present laws, no provision for the reimbursement of such losses, and it is recommended that Congress take this matter into consideration with a view of determining whether it would not be proper to confer upon the Secretary power to pay to actual owners, or their legal representatives, the amount of any losses from the causes above specified. The importer is denied the custody of such goods pending examination, such custody being assumed by the officers of the Government. It is difficult to deny the responsibility of the Government for the safety of the goods, as the equitable claim of the owner to compensation for losses occasioned by the negligence of its officials who have exclusive charge of the goods, seems to be well founded.

Ports of delivery in New Orleans district.

Attention is called to the provisions of section 2568, Revised Statutes, which constitutes all the ports on the Mississippi River and its tributa-

ries ports of delivery within the customs collection district of New Orleans. The causes which led to the passage of this law do not now exist by reason of the altered means of communication, and I am of opinion that the section of the statutes referred to should be repealed, and, if necessary, that the chief officers at the more important ports on the river and its tributaries be designated as collectors instead of surveyors of customs.

Enforcement of Chinese Exclusion Act.

The appropriations heretofore made annually for the enforcement of the Chinese exclusion laws are inadequate for the purpose. To properly enforce these statutes involves the employment of inspectors, not only at ports where Chinese arrive directly by vessels, but at various places on the Mexican and Canadian frontiers, and also at places in the interior where there are large Chinese colonies. The expense involved in investigating cases where Chinese unlawfully enter the United States, in the trial of those arrested, and the deportation of those convicted, including their transportation to the Pacific coast, is very large, and the appropriation referred to should, in my judgment, be not less than $100,000 per annum. The pending treaty between China and the United States, under which laborers residing here may, under certain conditions, leave this country and return thereto, will necessitate the exercise of greater vigilance and a consequent increase in expense.

Sampling and Assaying Imported Ores.

Section 165 of the tariff act of 1894 provides for the sampling and assaying of lead and other ores at the ports of entry. It will be necessary, in order to comply with this requirement of the law, that an appropriation be made for the establishment, at probably six places on the Canadian and Mexican borders, of sampling works equipped with suitable appliances. I therefore recommend action in the direction indicated.

INTERNAL REVENUE.

The receipts from the several objects of taxation under the internal-revenue laws for the fiscal years ended June 30, 1893 and 1894, were as follows:

Objects of taxation.	Fiscal year ended June 30—		Increase.	Decrease.
	1893.	1894.		
Distilled spirits	$94,720,260.55	$85,259,252.25		$9,461,008.30
Manufactured tobacco	31,889,711.74	28,617,898.62		3,271,813.12
Fermented liquors	32,548,983.07	31,414,788.04		1,134,195.03
Oleomargarine	1,670,643.50	1,723,479.90	$52,836.40	
Miscellaneous collections	175,390.81	153,030.89		22,359.92
Total	161,004,989.67	147,168,449.70		13,836,539.97

The receipts from all sources of internal revenue for the fiscal year ending June 30, 1894, were	$147,168,449.70
The receipts from the same sources for fiscal year ended June 30, 1893, were	161,004,989.67
Making a decrease in the receipts for the fiscal year just ended of	13,836,539.97
The total cost of collection for the fiscal year ended June 30, 1894, was	3,975,904.00
The total cost of collection for the fiscal year ended June 30, 1893, was	4,219,769.69
Decreased cost of collections for the fiscal year ended June 30, 1894, was	243,865.69

The amounts above stated are the receipts actually collected during the fiscal years mentioned, but in many cases the money collected on the last day of June is not deposited until the first day of July. thus causing a discrepancy between the collections and deposits.

A detailed statement of the receipts and expenditures will be found in the report of the Commissioner of Internal Revenue.*

It is estimated that the receipts from all sources of internal revenue for the fiscal year ended June 30, 1895, will aggregate $165,000,000.

The percentage of cost of collection for the fiscal year ended June 30, 1894, was 2.70 per cent, as against 2.62 per cent for the fiscal year ended June 30, 1893.

The total production of distilled spirits, exclusive of fruit brandies, for the fiscal year ended June 30, 1894, was 89,205,492 taxable gallons; the total production for the fiscal year ended June 30, 1893, was 128,651,782 taxable gallons, showing a decrease in the production for the fiscal year just ended of 39,446,290 gallons. There were also produced during the fiscal year ending June 30, 1894, 550,695 gallons of apple brandy, 76,989 gallons of peach brandy, and 2,320,474 gallons of grape brandy, making a total production of 2,948,158 gallons of brandy from fruits during that year. A further comparison of the two fiscal years shows a decrease of 51,174 gallons in the production of apple brandy, an increase of 19,400 gallons in the production of peach brandy, and an increase of 621,384 gallons of grape brandy for the fiscal year ended June 30, 1894, an aggregate increase of 589,610 gallons of brandy produced from fruits as compared with the previous fiscal year.

The quantity of distilled spirits gauged for the fiscal year ending June 30, 1894, was 242,626,324 gallons; the quantity gauged for the fiscal year ended June 30, 1893, was 311,821,533 gallons, making a decrease in the quantity of spirits gauged for the fiscal year just ended of 69,195,209 gallons.

During the fiscal year ending June 30, 1894, 5,148 distilleries of all kinds were operated; for the preceding fiscal year 4,745 distilleries of all kinds were operated, a comparison showing an increase of 403 in the number of distilleries operated for the fiscal year just ended.

* See Appendix, page 597.

During the fiscal year ended June 30, 1894, there were produced 33,362,373* barrels of beer; the number of barrels produced during the fiscal year ended June 30, 1893, was 34,591,179, making a decreased production for the fiscal year just ended of 1,228,806 barrels.

For the fiscal year ended June 30, 1894, the total receipts from the taxes on tobacco, cigars, cigarettes, snuff, etc., were $28,617,898.62. The receipts from the same sources for the fiscal year ended June 30, 1893, were $31,889,711.74, showing a decrease of $3,271,813.12 for the fiscal year ended June 30, 1894.

Sugar bounty.

Total bounty paid upon sugar produced in the United States for the fiscal year ending June 30, 1894, was $12,100,208.89; the bounty paid upon sugar for the fiscal year ending June 30, 1893, was $9,375,130.88, making an increase of $2,725,078.01 for the last year.

The amount of bounty paid from July 1, 1894, to August 28, 1894, the date when further payments ceased by operation of law, was $966,185.84.

Expenses relating exclusively to the payment of the bounty on sugar for the fiscal year ended June 30, 1894.

Additional deputies, clerks, and employés	$96,229.83
Laboratory supplies, etc	591.74
Sugar inspectors	24,749.28
Salaries of clerks, etc., in the office of the Commissioner of Internal Revenue	8,570.00
Total	130,140.85

The expenses for the same purpose in the fiscal year ended June 30, 1893, were $138,586.27, making a decrease of $8,445.42 for the fiscal year ended June 30, 1894.

I respectfully call attention to the various recommendations contained in the report of the Commissioner of Internal Revenue, and ask their favorable consideration by Congress.

ENGRAVING AND PRINTING.

The consolidation of all the engraved and plate-printed work in the Bureau of Engraving and Printing makes it the largest establishment of the kind in the world, and, through good management, should secure the best results from its operations. The greater aggregate amount of work lessens the net cost per thousand impressions, and it is reasonable to expect that the securities of the Government will be printed at the lowest possible rate. There were 55,516,961 sheets produced during the fiscal year 1894, at a cost of $23.73 per thousand, which is a lower

*Including 27,590 barrels removed for export free of tax.

rate than was ever before reached. The estimated number of sheets to be printed during the fiscal year 1896 is 70,211,171, requiring printings to the enormous number of nearly one hundred millions.

The transfer of the adhesive postage-stamp contract to this Bureau will, after the present year, be productive of a large annual saving to the Government. While there were at first some imperfections in the deliveries of stamps, the present output is satisfactory to the Post-Office Department, and in a very short time will be entirely satisfactory to the people. In fact, the Bureau has demonstrated its ability to successfully perform this work.

It has been deemed advisable to improve the designs adopted by the Department for the various bank-note issues of the Government, and to accomplish this end the best artists of the country have been invited to contribute, and are now submitting designs to supersede the defective and insecure forms used in the past. It is expected that the future notes and certificates issued by the Government, if this policy is continued, will be not only highly creditable from an artistic standpoint, but will be beyond the skill of counterfeiters to imitate to such an extent as to be at all dangerous to the public.

The work of engraving the plate of the diploma for the World's Columbian Exposition has progressed satisfactorily, and it is expected that the issue of these diplomas will be commenced at an early day. This diploma will be a beautiful work of art, creditable to the designer, the engraver, the Bureau, and the country.

IMMIGRATION.

The report of the Superintendent of Immigration shows the arrival during the year of 288,020 immigrants, 2,389 of whom were debarred and returned to their respective countries at the expense of steamship companies. The number not admitted includes 1,533 who came under contract made previous to arrival to perform labor in the United States, and 836 who belonged to the other excluded classes. There were also returned 417, who became public charges within one year after arrival. To such an extent have our almshouses, hospitals, and insane asylums been relieved of immigrants who have become a burden upon the country, within one year after landing, from causes existing prior thereto, that the Bureau is not advised of any now being supported who should have been deported at the expense of the steamship companies bringing them to the United States. Many others who have become charges during the same period for causes existing subsequent to landing, the nature of which was likely to be of a permanent character, have, at their request, been returned tc their homes at the expense of the immigrant fund.

A great decrease in the volume of immigration, as compared with recent years, is shown. In 1893 the arrivals numbered 440,783, which was a decrease of 141,044 from the previous year, while the reports for the last fiscal year show a further decrease of 152,763, or 293,807 less

than in 1892. In 1893 the decrease was caused mainly by the suspension of immigration on account of cholera. The decrease this year may be attributed largely to the general business depression, which produced a condition not encouraging to classes seeking new and better homes; but no doubt through more efficient execution of the laws, many belonging to the least desirable classes have been prevented from coming. Under loose statutes and laxity in their execution, these classes have previously entered our ports in great numbers, and the totals of other years were thus largely augmented.

Next to Sweden, Italy shows the least percentage of decrease. This is accounted for by the existence of the padrone system, and it is gratifying to report that the Government of Italy has expressed a desire to cooperate in the eradication of this evil.

Russia and Poland contribute the largest percentage of decrease, which is due partly to the fact that Russia has now ceased to execute its edicts against the Jews, and to the extensive colonization of that people in the Argentine Republic, under the direction of Baron Hirsch.

An interesting and significant report from the port of New York shows that of 219,046 arrivals there, 29,827 were returning to the United States, and 91,037 came to join immediate families, while the number embracing collaterals who came attracted by family ties is not shown. The same is true at other ports, and indicates that for the fiscal year the number who came only for the purpose of seeking better fortune was comparatively small.

The responsibility of steamship lines under the act of March 3, 1893, while operating as a restriction upon immigration has at the same time produced very satisfactory results in the way of raising the general standard of those who came. There seems to be no doubt that as the present system of inspection, first, at the home of the intending emigrant, second, at the port of embarkation, and, third, upon arrival in this country, becomes better understood, it will be even more remedial.

The exposed condition of the Canadian frontier has heretofore enabled many to enter this country who would have been refused admission on inspection at any of our ports; but early in the year the Superintendent of Immigration, by an arrangement with the various transportation companies interested, succeeded in establishing a system, which, conducted at small cost to the immigrant fund, has effectually served to guard the long line of frontier, and to divert from Canadian land routes vast numbers who sought thereby to avoid the inspection provided by law at ports of the United States. By this arrangement the immigration service has solved a serious problem and been relieved of a troublesome annoyance.

The inspection of immigrants has been made uniform at the various ports, and the management of the local affairs of immigration brought well within the control of the General Government, so that uniformity and a commendable standard of efficiency now prevail.

Various measures of economy have also been successfully instituted at several ports, resulting in a substantial saving to the immigrant fund, and added benefit to the service.

The attention of Congress is again invited to the recommendation of the Superintendent of Immigration, in which I concur, that it will at an early date carefully revise and reenact the Alien Contract Labor Laws, making them more certain, explicit, and comprehensive, and giving effective remedies to insure their enforcement.

MARINE-HOSPITAL SERVICE.

The Surgeon-General of the Marine-Hospital Service reports that the nineteen marine hospitals owned and operated by the Service are in excellent condition, in consequence of careful attention to work of repair during the year, and that at these hospitals and the other 136 relief stations there were treated during the fiscal year 52,803 patients; 13,725 were treated in hospitals, and the remainder, 39,078, were dispensary or out patients. Ninety-four seamen of the merchant marine were examined before shipment as to their physical fitness and 5 were rejected.

The sum total of the Marine-Hospital fund available during the fiscal year was $658,072.16, and the expenditures from this fund were $586,741.75, leaving a balance June 30 of $71,330.41. The balance of the appropriation for the prevention of epidemic diseases available June 30, 1894, was $601,773.79.

During the year one board of examiners was convened to examine candidates for admission into the regular corps of the Service. Twenty-seven applicants appeared, of which number four only were successful. These four have all been appointed assistant surgeons. Notwithstanding the great increase of work thrown upon the Marine-Hospital Service by reason of the passage of the Quarantine Act of February 15, 1893, since that act there have been but three additions to the number of medical officers in the regular corps.

During the year, in aid of the inspection service of steam vessels, 628 pilots were examined by the officers of this Service for color-blindness, of which number 26 were rejected.

In aid of the Life-Saving Service 1,076 surfmen and keepers were examined as to their physical fitness, of which number 22 were rejected. One hundred and seventy claims of keepers and surfmen for the benefits under section 7 of the act of May 4, 1882, were referred to the Bureau for examination of the medical evidence submitted and opinion as to the probable cause and effect of the diseases and injuries on which the claims were based. By act of Congress approved August 4, 1894, the benefits of the marine hospitals have been extended to the keepers and crews of the Life-Saving Service, and regulations carrying the law into effect have been duly issued by this Department.

In aid of the Revenue Cutter Service, two boards of medical officers

have been convened to pass upon the physical qualifications of candidates for promotion and of candidates for appointment as cadets in said Service. Two hundred and twenty seamen were examined physically prior to enlistment to determine their physical fitness for the Revenue Cutter Service, of which number 21 were rejected.

In aid of the Immigration Service medical officers of the Marine-Hospital Service have been stationed at Boston, New York, Philadelphia, and Baltimore. At the other ports where immigrants occasionally arrive the service of the officers on duty in the marine hospitals are available when required. The number of immigrants inspected by the marine hospital officers during the fiscal year 1894, as reported to the Bureau, was 296,614, of which number 244 were rejected under the law.

In the laboratory of the Service examinations have been made of the dejecta of immigrants arriving on steamships, and in two cases diagnoses of true cholera were confirmed. Pathological examinations have also been made to determine the diagnosis of yellow fever. Bacteriological analyses have been made of samples of the water from suspected quarters at the request of various health officers of the United States. Water from a number of the wells in the District of Columbia have been examined, and 90 per cent of the wells examined found to be contaminated with sewage. A systematic course of instruction in bacteriology has been conducted for the benefit of the officers of the Service and others. Investigations concerning the etiology and pathology of the eruptive fevers, and in preventive inoculation against acute infectious diseases have been and are now being conducted. A bacteriologist of the Service is now in Europe familiarizing himself with the latest advances in preventive inoculation. A supply of toxine has been forwarded to the Bureau, and animal immunization is now in progress with a view of obtaining the antitoxine serum for the prevention and cure of diphtheria.

National quarantine service.

The medical officers of the Marine-Hospital Service detailed by the President to serve during the cholera epidemic of 1893 at London, Liverpool, Southampton, Glasgow, Bremen, Hamburg, Rotterdam, Antwerp, Havre, Marseilles, Genoa, and Naples were recalled December 1, 1893. One experienced surgeon, however, was kept in foreign countries in order to give reliable information as to the prevalence and spread of cholera. This officer during the past season visited the cities most available for obtaining the desired information, investigated rumors and reports of cholera, visited the most important consulates to observe the method of enforcing the Treasury regulations, and made weekly reports to the Surgeon-General, supplementing the same frequently by cable dispatches. In this manner accurate information was constantly available in the United States relative to the threatening epidemic.

The foreign quarantine regulations, including those relating to the

detention of suspected immigrants coming from infected districts, and the disinfection of their baggage, were enforced by the consular officers.

During the year the quarantine regulations made in accordance with the act of February 15, 1893, were revised. Some of the restraints placed in foreign ports upon articles of merchandise having been found as a result of increased knowledge and practical experience to be unnecessary, were removed or modified. As a result, during the past year there has been no interference, practically, with commerce so far as merchandise is concerned; at the same time the public health has been efficiently guarded.

The two principal diseases against which precautions were necessary during the past year were cholera and yellow fever, the former being feared by reason of its continuance throughout Europe, although it was not epidemic at any of the great seaports with which the United States has intimate commercial relations. There was some apprehension of a recurrence of yellow fever in the South as a result of the epidemic in Brunswick in the year previous, which came to a close November 30, 1893. On account, however, of the post-epidemic disinfection carried on in the city of Brunswick and in the town of Jesup by the officers of the Marine-Hospital Service, there was no reappearance of the disease.

In order, however, that the Bureau might be promptly informed if the disease should reappear, and upon invitation of the board of health of Brunswick, after overtures were made by the Bureau to this end, an experienced surgeon was stationed in the city of Brunswick in order to determine upon any doubtful cases, and to give timely warning. At the same time, under the act of Congress of February 15, 1893, and the Treasury regulations promulgated in accordance therewith, to the effect that the Surgeon-General of the Marine-Hospital Service should from time to time personally, or through a detailed officer inspect all quarantines, the seaboard of the United States, from Maine to the State of Washington, was divided into districts, and each district allotted to an experienced surgeon of the Service who made periodical inspections of the quarantine systems at every port of entry within his district, making his report upon a prescribed form which embraced every desired detail.

Particular attention was paid to the South Atlantic and Gulf coasts, which are especially threatened with the invasion of yellow fever each summer. From Wilmington, N. C., to Brownsville, Tex., during what is known as the yellow fever season, the coast was under almost constant patrol by an officer of the Service inspecting local quarantines and reporting upon such deficiencies as were found to exist. The attention of the several State boards of health or local quarantine boards was called to these deficiencies, and they were generally made good, but in some instances where through want of proper organization no action by local authorities could be taken, appropriate action was taken by the Bureau. These inspections were well received by the State and local

authorities, all of which manifested a desire to cooperate with the Bureau in its efforts to prevent the introduction and spread of disease. There can be no doubt that the presence of these inspectors, who were men of large experience in quarantine measures, had a salutary influence; and owing largely to the prudent conduct of the medical officers, in no instance was their presence resented.

The records of the various quarantine stations show that a large number of infected vessels received treatment and an unusual number of yellow-fever patients were taken therefrom. At the Key West quarantine station, Dry Tortugas, eleven cases of yellow fever were taken from vessels bound for the United States. The necessity of the quarantine service, particularly in the South, is amply demonstrated by the season's record, and the necessity will continue until all the Southern seaboard cities have been placed in such sanitary condition as will prevent the spread of this imported disease.

The Surgeon-General reports that the twelve quarantine stations of the United States are in good condition and are thoroughly equipped, with the exception of Port Townsend and San Diego, whose equipment will be shortly completed. During the year the quarantine station at Reedy Island has been completed, and this, together with the station at the Delaware Breakwater, is amply sufficient for the protection of all cities and towns upon the Delaware Bay and River. The Station on Fishermans Island has also been completed, and the vessel *Jamestown*, turned over to the Bureau by the Navy Department, has been supplied with a fumigating furnace and steam disinfecting chamber, and is a complete quarantine station in itself.

Following the destruction of the Chandeleur quarantine by storm October 1, 1893, the station was temporarily removed to Ship Island, and Congress in the appropriation act, approved August 18, 1894, has approved its rehabilitation at this point. Until this act of Congress was passed it was necessary to order that infected vessels bound for the port of Mobile should be cared for by the municipal quarantine, against which a vigorous protest was made. As soon as the act was passed this order was revoked and permission given to send all infected vessels to Ship Island.

Interstate Quarantine.

In accordance with the law of February 15, 1893, regulations have been promulgated by the Department for the purpose of preventing the introduction of contagious diseases into one State or Territory, or the District of Columbia, from another State or Territory or the District of Columbia. These regulations, prepared in the Marine-Hospital Bureau, relate at present only to specific diseases, viz: cholera, yellow fever, smallpox, typhus fever, leprosy, and plague. It has not been deemed advisable to add other diseases to this list at the present time; but the regulations are comprehensive in their character, permitting minor details to be supplied by local health authorities if desired.

The attention of Congress is invited to the necessity of making some provision for carrying into effect section 8 of the act of February 15, 1893, which is as follows:

"SEC. 8. That whenever the proper authorities of a State shall surrender to the United States the use of the buildings and disinfecting apparatus at a State quarantine station, the Secretary of the Treasury shall be authorized to receive them, and to pay a reasonable compensation to the State for their use, if in his opinion they are necessary to the United States."

Since the passage of this act two States, Pennsylvania and North Carolina, have practically surrendered their quarantine functions, and an important seaport of another State, Brunswick, Ga., has, under authority conferred by law, been deprived of its quarantine functions because of inefficiency.

The maintenance of these quarantine stations has been provided for in the appropriations for the present fiscal year, but other States and other local authorities are contemplating the surrender of their quarantine functions, and it is desirable that a definite policy regarding the stations so surrendered should be adopted and provision made for their equipment and maintenance through a general fund to be established for that purpose by fees collected from vessels or otherwise, as may be determined by Congress, from which fund all the quarantine expenses of the United States shall be paid.

REVENUE CUTTER SERVICE.

During the past fiscal year thirty-five vessels have been in commission which have been constantly engaged in patrolling the coasts, rivers, and harbors of the United States, for the protection of the revenue and the enforcement of law relative to other subjects.

The following is a statistical statement of duties performed:

Aggregate number of miles cruised by vessels of the Service	308,682
Number of merchant vessels boarded and examined	29,727
Number of merchant vessels found violating the law in some particular and seized or reported to proper authorities	482
Fines or penalties of vessels so seized or reported	$98,335.70
Number of vessels in distress assisted	70
Value of vessels and their cargoes imperiled by the sea, thus assisted	$1,709,105.00
Number of persons on board vessels assisted	658
Miles cruised in the performance of duties connected with Life-Saving Service	7,615

During the year, 87 lives were saved. Of this number 78 were actually taken out of the water and saved from drowning, and 9 were of the shipwrecked crew of the American whaling bark *James Allen*, rescued by the steamer *Bear*.

The revenue steamers *Bear*, *Rush*, and *Corwin* were designated by the President as part of the fleet under command of Commander C. E. Clark, U. S. Navy, charged with patrolling the North Pacific Ocean and Bering Sea for the enforcement of the provisions of the acts of Congress, approved April 6 and April 24, 1894, and the President's proclamation issued April 9, 1894, for the protection of the fur seal and the interests of the Government on the seal islands, Alaska. The efficiency of these vessels in the performance of the duties assigned them under the direction of the Secretary of the Navy has elicited the highest commendations from the naval officers under whose immediate command they were operating.

By request of the Secretary of the Interior, the steamer *Bear* continued the service of previous years in connection with the reindeer station at Port Clarence, Alaska. She made several trips to the coast of Siberia, from which 134 reindeer were transported to the station. This vessel also rendered service of importance in the way of transportation, relief, and furnishing supplies to the mission schools established at the different points along Bering Sea, and the Arctic Ocean to Point Barrow, and in furnishing medical supplies and treatment to the natives on the Alaskan coast, and to the whaling fleet.

On June 12, in the Bering Sea, the *Bear* discovered and picked up a boat containing the master (Arthur Huntley) and 6 men of the American whaling bark *James Allen*, of San Francisco, which had been wrecked, May 11, in Sequam Pass, Aleutian Islands. They reported that 10 of their ship's company were on Umnak Island, 130 miles distant, without food or shelter. The cutter at once proceeded to their rescue, and on the 14th June the men were found in a famishing condition. One having in the meantime died of starvation and exposure, the 9 remaining were taken on board the vessel, properly cared for, and transportation to San Francisco subsequently secured for them.

For several years Spanish fishing smacks from the Island of Cuba have frequented the west coast of Florida, carrying on a small illicit trade in liquor and tobacco, and totally ignoring our customs and quarantine laws. In July last the revenue steamer *McLane*, Lieut. O. S. Willey, commanding, seized in Anclote Harbor, Florida, twelve of these vessels and delivered them to the proper authorities for trial, which it is believed will have the effect of breaking up this trade.

The steamer *Manhattan* has continued on duty in the enforcement of the provisions of the act approved May 16, 1888, relating to the anchorage of vessels in the harbor of New York. The advantages of the enforcement of this law in keeping the channels open to vessels plying in the waters of this harbor is demonstrated by the comparative number of vessels reported for being outside the limits prescribed for anchorage during the first year after the enactment of the law, and the number so

reported during the year ended June 30 last; the numbers being respectively 1,750 and 490.

The revenue cutters during the year rendered material assistance, as customary, to the Life-Saving Service, boats, stores, and supplies having been transported and delivered at stations off established routes of travel and difficult of access, except by special conveyance.

One new vessel of the third class (steamer *Calumet*), has been completed during the year, and placed in commission for service at Chicago, Ill. A number of new vessels are urgently needed for the proper maintenance of the Service. Many of the present vessels when first placed in commission were of sufficient size to perform the work then required of them, but they are now entirely too small to meet the enlarged duties of the Service. The cutters at present on the Pacific coast, with the exception of the steamer *Bear*, are not adapted to the arduous work which of late has devolved upon them in Alaskan waters and in Bering Sea. The necessary withdrawal of these steamers from the California and Oregon coasts for duty with the Bering Sea fleet during the summer has left those districts without patrol and caused serious embarrassment to the Customs Service. A new steamer is needed for service on the Pacific coast, one at the port of New York to replace the steamer *Grant*, assigned to duty on Puget Sound, and one on the Great Lakes to replace the steamer *Geo. M. Bibb*, condemned and sold, being no longer seaworthy.

The personnel of the Revenue Cutter Service consists of 222 commissioned officers and 815 pilots and enlisted men. Owing to the absence of any law authorizing retirement, 33 per cent of the officers in the senior grades of the Service have become incapacitated for active service, by reason of advanced age or physical disability contracted in the line of duty. The higher grades contain so many of these superannuated officers that the efficiency of the Service is seriously impaired.

A bill (H. R. 6723) now pending in Congress will provide the necessary legislation for the correction of this evil, and I urgently recommend its enactment into law during the present session.

The expense of conducting the Service has been $927,445.88, of which sum $19,248.19 were used in enforcing the provisions of the act of Congress approved May 16, 1888, regulating the anchorage of vessels in the bay and harbor of New York.

NAVIGATION.

The annual report of the Commissioner of Navigation shows the strength, geographical distribution, material and motive power, and

employment of the documented merchant marine of the United States on June 30, 1894, compared with June 30, 1893, as follows:

	1894. Number	1894. gross tons.	1893. Number	1893. gross tons.
Total shipping	23,586	4,684,029	24,512	4,825,071
GEOGRAPHICAL DISTRIBUTION.

*Including canal boats and barges.

The decrease in tonnage is more apparent than real, being attributed in part to closer revision of the lists of documented vessels than has been made of late years. While the decrease of construction in American yards during the year has been considerable, a like decrease has been observed in foreign yards.

The amount of tonnage taxes for the fiscal year covered into the Treasury was $537,798.19. Modifications of the laws concerning tonnage taxes and net tonnage are suggested by the Commissioner of Navigation. These and the suggested abolition of registry bonds and extension of the powers of the Secretary of the Treasury to mitigate or remit fines upon vessels are commended to the attention of Congress.

The enactment of the tariff law, the small tonnage of our merchant marine registered for foreign trade, and modern conditions of over-sea navigation suggest the necessity for a prompt amendment of the laws concerning the registry of vessels. I concur, therefore, in the recommendation for the repeal of that portion of the law of 1792 which prohibits American registry and the use of the American flag to vessels owned by our own citizens and engaged in foreign trade, unless built within the United States.

While that provision of law confers no benefit whatever upon the domestic shipbuilding industry it seriously obstructs the progress of American over-sea navigation. It has deprived the people of the United States of their proper share of the ocean carrying trade, prevented us from attaining our proper rank as a maritime power, and enhanced the strength and importance of our commercial rivals. It has compelled American citizens to place their property on the high seas under the protection of foreign flags, subjected it to the laws and regulations of foreign governments, and rendered it tributary to the wealth-producing forces of foreign nations. It rests upon a theory which all maritime nations, except the United States, have abandoned as impracticable and as a source of national weakness.

The considerable investments of American capital in transatlantic steamships, purchased abroad within the past few years, warrant the belief that the repeal of the restrictive provisions of our navigation laws will be followed by a steady and permanent increase in our registered tonnage, a larger control over the means of communication by sea between the United States and foreign nations, and an expansion of the opportunities for American labor and capital.

The opinion that our merchant marine in foreign trade can be increased by the imposition of discriminating taxes in American ports on foreign vessels or their cargoes is obviously erroneous. The attempt would be an invitation to commercial retaliation against American vessels in foreign ports which would in effect deprive them of any advantages in domestic ports that discriminating legislation might undertake to be-

stow. Discrimination on account of the flag carried by a vessel has no longer a place in an intelligent maritime policy.

I concur in the recommendation that the several marine bureaus of the Treasury Department be assembled under the direct supervision of one Assistant Secretary of the Treasury, and to carry out the recommendation I request that Congress provide for an additional Assistant Secretary of the Treasury. It is believed that such reforms in the administration of the Department will result from favorable action upon this recommendation that the creation of the new office will reduce expenditures. The Treasury Department is intrusted with the administration of laws relating to a great variety of subjects, having no necessary or practical connection with each other, and its organization must be highly specialized to enable it to respond promptly and efficiently to the public demands upon it. The proposed concentration of marine bureaus would secure substantially all the advantages which have been suggested as reasons for the creation of a new Department of Commerce or a National Marine Board, and is open to none of the manifest and conclusive objections to those two projects.

THE LIGHT-HOUSE SERVICE.

The Light-House Board has submitted estimates for the building of three new steam tenders to take the place of vessels about worn out, and which will be unseaworthy by the time the new ones can be made ready to take their places. These little steamers are of very great value to the Board, enabling it to quickly replace buoys or light-ships when they go adrift, to promptly furnish light-houses with supplies needed to meet an emergency, and, above all, to make frequent inspections of light-houses and light-ships, and to keep in constant force the discipline of the Service. The vessels it is proposed to replace are now so frail, from age and severe service, that they can not keep the sea in heavy weather, but are forced to seek refuge in harbor at the very times when they are most needed.

Estimates are submitted for building several light-vessels, which appear to be much needed to take the places of regular vessels brought in for repair. The Light-House Establishment is singularly lacking in relief light-vessels. This is because it has had to draw so heavily upon its reserved forces. A new light-vessel, to be stationed in the Pacific Ocean off Umatilla Reef, near the entrance to the Straits of San Juan de Fuca, is very much needed.

Attention is invited to the urgent necessity for more liberal appropriations to maintain the Light-House Establishment. Congress makes appropriations at each session for increasing the number of light-stations, but it does not increase, in like ratio, the appropriations for supplying these stations with oil, wicks, chimneys, cleaning material, and the like; for paying the wages of the additional keepers required;

for keeping the light-stations in proper repair; and for keeping up the buoyage of the coasts. The estimates made for these purposes are based on the actual present needs of the Service, as set forth in itemized requisitions made by the light-house district officers, and the appropriations asked for will make it possible to keep the Service up to a high standard.

The Light-House Board has during the past year kept fully up with the advance of science in its line in the other countries of the world, as will be seen from the appendices submitted with its annual report, showing the condition of the unique electric-lighted buoys in New York Bay; the descriptions of the peculiar foundation built for Wolf Trap light-house in Chesapeake Bay; the curious conduits in which lights are hauled out to pierheads on the lakes; the account of the exhibit of the Light-House Establishment at the World's Columbian Exhibition, and the able and complete account of the kind, force, and use of fog signals, involving much practical discussion of mooted points in the laws of sound.

LIFE-SAVING SERVICE.

The past year was remarkable for the number and violence of the tempests that swept both the sea and lake coasts, some of those on the lakes surpassing in fury any previously recorded in the annals of the Weather Bureau, while several on the Atlantic have not been exceeded in ferocity during the past twenty years. The disasters occurring within the province of the Life-Saving Service were more numerous, and involved the total destruction of a greater number of vessels than in any former year since the organization of the Establishment. The skill and heroism of the men and the efficiency and adequacy of the appliances of the stations were subjected to extreme tests, and, it is gratifying to say, with results which reflect credit alike upon the organization and the country.

At the close of the year the Service embraced 247 stations, of which 182 were located on the Atlantic and Gulf coasts, 51 on the Lakes, 1 at the Falls of the Ohio, Louisville, Ky., and 13 on the Pacific. The following are the statistics of casualties occurring during the year within the field of their operations:

The number of documented vessels involved in disaster was 380, on board of which there were 4,054 persons, of whom 3,993 were saved and 61 lost. The estimated value of the property involved was $9,890,610, of which $7,688,170 was saved and $2,202,440 lost. The number of vessels totally lost was 91.

There were also 214 casualties to undocumented small craft, such as sailboats, rowboats, etc., on which were 467 persons, 460 of whom were saved and 7 lost. The property involved in the latter disasters amounted to $109,810, of which $75,045 was saved and $34,765 lost.

The following is the aggregate:

Total number of disasters	594
Total value of property involved	$10,000,420
Total value of property saved	$7,763,215
Total value of property lost	$2,237,205
Total number of persons involved	4,521
Total number of persons lost	68
Total number of shipwrecked persons succored at stations	658
Total number of days' succor afforded	1,501
Number of vessels totally lost	91

Besides those saved from vessels, 83 others were rescued, under a variety of circumstances, from the peril of drowning. The crews also rendered very valuable service in saving property, 439 vessels having been aided by them in getting afloat when stranded, repaired when damaged, piloted out of dangerous places, etc. There were 244 instances in which vessels in danger of stranding were warned off by the signals of the patrolmen and escaped disaster.

The cost of the maintenance of the Service during the year was $1,258,221.24.

The stations mentioned in the last report as being in process of construction, one at Ashtabula, Ohio, and one between Point Lobos and Point San Pedro, California, have been completed and put in operation. Two others, one at Duluth, Minn., and one at Portsmouth, N. C., have also been completed, and are now receiving their equipments. The former will be ready for occupancy at the opening of navigation next spring, and the latter probably before the 1st of January. A station, authorized to be established on Seven-Mile Beach, New Jersey, is under construction and approaching completion. Two stations have been rebuilt during the year, one at Cahoons Hollow, on Cape Cod, Massachusetts, to replace the one destroyed by fire February 25, 1893, and one at Spermaceti Cove, near Sandy Hook, New Jersey, to take the place of an old station built many years ago, which stood within the range of the heavy guns on the proving grounds of the Ordnance Department, U. S. Army, and was not worth removing.

The Government improvements to the approaches of Charleston Harbor having diverted the main ship channel from the vicinity of Morris Island on the south side to that of Sullivans Island on the north, thus leaving the Morris Island Life-Saving Station too remote to render prompt assistance to vessels meeting with accident in entering or leaving the harbor, Congress, by act of March 14, 1894, authorized the Secretary of the Treasury to transfer the life-saving station to Sullivans Island, with permission to cause the present station buildings to be removed to the new locality or new buildings to be erected, as should appear for the best interests of the Government. Examination showing that the transfer of the buildings and their proper establishment on the new site would involve an expense in excess of their value, the construction

of a new station upon a site donated by the town of Moultrieville was authorized, and the station is nearly ready for occupancy.

The coast telephone service has been somewhat further extended and improved. By means of this ready method of communication between stations, and with neighboring seaports, several life-saving crews are easily assembled on critical occasions, and tugs and other aids to the shipwrecked promptly advised when their services are needed. During the past year the lines have, in many important instances, demonstrated their almost incalculable value as an aid to expeditious and efficient life-saving operations. This feature of the Service has attracted much attention in foreign countries, especially in Great Britain, finally resulting in a visit by the agent of a royal commission, who personally examined the working of the system at our stations, and in his report highly commended it, and recommended its adoption in his own country.

The report of the General Superintendent calls attention to the discrimination made in the pay of the surfmen by the act of August 3, 1894, extending the period during which the stations are to be manned upon the Atlantic and Gulf coasts, the result of which is that the difference of a single day in the period of the employment of two men produces a difference of $38 in favor of the man who serves the shorter period, although they perform precisely the same duties and are subject to the same perils and discipline. He also points out some difficulties that attend the execution of the law. The establishment of a fair and uniform rate of compensation for the surfmen throughout the Service would obviate the difficulties and dispel the discontent among the crews which the present condition engenders, and I would respectfully recommend appropriate legislation to this end.

STEAMBOAT INSPECTION SERVICE.

The Supervising Inspector-General reports the inspection, during the year, of 7,762 domestic steam vessels, with a net tonnage of 1,595,785.27. The officers licensed numbered 38,680. The number of foreign passenger steamers inspected was 283; net tonnage, 500,807.08. It is estimated that between 600,000,000 and 700,000,000 passengers were carried during the year.

The number of lives lost was 225, being an increase of 27 over that of the previous year. Of the number of lives lost 96 were passengers and 159 were officers or persons employed on the steamers.

The personnel of the Service at the end of the fiscal year consisted of 161 officers, clerks, and messengers, exclusive of two vacancies existing at close of year by reason of the decease of two local inspectors. The expenses of the foreign inspection service were only $361.08, out of an authorized expenditure of $46,000, showing a saving of $45,638.92, which was accomplished by an order transferring to the officers of the domestic service, under appointments designating them as "*acting* special inspectors of foreign steam vessels," the work formerly done by the

officers previously appointed specially for that purpose, whose duties as such were scarcely more than nominal, and the positions held by them being virtually sinecures.

Attention is called to the recommendations of the Supervising Inspector-General, relating to amendments to the steamboat inspection laws, which are commended to Congress for its consideration.

COAST AND GEODETIC SURVEY.

The Superintendent of the Coast and Geodetic Survey presents in his annual report statements exhibiting the general scope of the operations of that service, followed by summaries of what has been accomplished in the several branches of field and office work during the fiscal year. In the maps of general progress, which are to accompany the report at the date of its transmission to Congress, the advance made is shown graphically.

The work of the Survey has included the measurement of base lines; reconnoissance, and triangulation; determination of time, latitude, longitude, and azimuth; observations for the force of gravity; determination of the variations of latitude; geodetic leveling; observations for magnetic declination, dip, and intensity; topographical surveys; hydrographic work, involving inshore and offshore soundings and observations of tides and currents. Among operations of importance begun, continued, or completed during the year, the following may be here mentioned: Action taken by the Superintendent as Commissioner on the part of the United States, conjointly with the Commissioner of the Dominion of Canada, to determine upon a method of defining with greater accuracy the boundary line between the two countries in the waters of Passamaquoddy Bay; completion of the hydrographic survey of the Northeastern Boundary Lakes; approach towards completion of the resurvey of Boston Bay and Harbor, and completion of the topographical resurvey of the Connecticut River; surveys made in compliance with a request from the State of Virginia for defining the limits of the natural oyster beds in the waters of that State; survey of the Outer Diamond Shoal off Cape Hatteras for the use of the Light-House Board; advance toward completion of the resurveys of Pensacola Bay and its tributaries; limiting lines of the natural oyster beds in Mobile Bay, determined for the U. S. Commissioner of Fish and Fisheries; reconnoissance and triangulation along the Rio Grande, continued towards the Gulf of Mexico with a view ultimately to the location of that part of the United States and Mexican boundary line; cooperation with the Navy Department in the speed trial of the new cruiser *Olympia* over the trial course laid out by the Survey in the Santa Barbara Channel; progress made in the resurvey and remarking, as provided for in act of Congress, of that part of the boundary line between the States of California and Nevada, extending from a point in Lake Tahoe to the Colorado River; development of the inshore hydrography of San Francisco

entrance; advance towards completion of the survey of the Strait of San Juan de Fuca, and surveys in southeastern Alaska, carried on in cooperation with officers of the Dominion of Canada for the location of the boundary line between Alaska and British Columbia, as provided for in the treaty of 1892, between the Governments of the United States and Great Britain.

The assignments of two of the officers of the Survey to special duty by appointment of the President are still in force; one is serving as a member of the Mississippi River Commission and the other as a member of the International Boundary Commission, organized for the location of that part of the United States and Mexican boundary line extending from the Rio Grande to the Pacific.

More than 51,000 copies of charts were issued during the fiscal year, and the demand for them and for Coast Pilots and Tide Tables has been steadily maintained.

The exhibit of the Survey at the World's Columbian Exposition, reference to which was made in my last annual report, received the following awards, announcements of which were communicated to the Superintendent after the close of the Exposition by the chairman of the Executive Committee on Awards:

1. For the collective exhibit of charts, maps, models, instruments, and publications.

2. For the charts of the Survey, which are probably the most perfect ever produced.

3. For a number of improvements in the construction of theodolites, levels, and other instruments of precision. For a large collection of geodetic instruments of the highest degree of excellence, many of which were improved by members of the corps, and made in the shops of the Survey.

4. For important improvements in pendulums for gravity work, namely: the transfer of the knife edges to the supports, whereby they can be polished or sharpened without affecting the pendulum; for the means of determining the period by the principle of coincidences, for the consequent reduction of size and weight, facilitating transportation and manipulation.

5. For the instructive object lesson presented in the model of the United States, including Alaska, by which the true curvature of the earth is clearly shown, and the relation of heights and distances by the employment of but one scale. It exhibits in an ingenious manner the direction of the magnetic meridians, and also the principal triangulation of the United States, and the positions of the base lines.

6. For various ingenious devices for securing the greatest possible accuracy in the measurement of bases, and for determining the errors incidental thereto. For carefully engraved charts, a collection of the annual reports of great interest and importance, and complete sets of Tide Tables and Coast Pilots.

7. For evidence of the fine construction and precision of the standards of length, weight, and volume, constructed in the shops of the Bureau; and for the representatives of the international meter and the British imperial yard.

Office of Standard Weights and Measures.

The preparation of five sets of weights and measures intended for the States that had not yet received them occupied the major portion of the year. The standards for North and South Dakota, begun last year, are almost ready to be delivered, only requiring the final comparison of the weights and length measures.

In addition to the above State work, the usual number of comparisons of weights and measures with the standards of the United States have been made for colleges, surveyors, manufacturers, and others.

A bulletin, approved by the Secretary of the Treasury, was issued in December, 1893, by the Superintendent of Standard Weights and Measures, announcing the formal adoption, by that office, of the names and values of units of electrical measure, as defined by the International Congress of Electricians of 1893.

PUBLIC BUILDINGS.

During the past year work has been prosecuted on 68 buildings including extensions and repairs specifically appropriated for, of which number 10 buildings have been completed for occupation, thus placing under the control of the construction branch of this Department 371 buildings, classified as follows:

Completed and occupied	283
In course of construction, repairs, and modifications specially appropriated for	58
Active operations not yet commenced	30
	371

The following statement shows the amount expended on public buildings during the year ending September 30, 1894:

For sites and construction of new buildings	$3,075,895.25
For repairs and preservation of public buildings	195,900.14
For heating apparatus for public buildings	122,822.52
For vaults, safes, and locks for public buildings	50,632.03
For photographic duplication of plans	1,661.86
	3,446,911.80

The amount of work imposed upon the office of the Supervising Architect would seem to demand that the allowance made for the required technical service should be increased in order that the public buildings authorized by Congress may be erected with greater promptness, and this has been given consideration in the preparation of estimates to be submitted for the coming fiscal year.

Experience convinced me that a substantial reorganization of this office was necessary in order that the several kinds of work allotted to it might be so separated as to secure a greater degree of harmony and efficiency in its administration, prevent duplications of labor, and thus reduce the expenditures in certain branches of the Service; and, accordingly, such reorganization has been recently made. It has been done upon a basis which will enable the Department, without supplementary legislation, to carry into effect the provisions of the bill (H. R. 7470) now pending, with reference to securing competitive designs and plans for public buildings erected under the authority of the Secretary of the Treasury, and the passage of that measure is again respectfully recommended.

DISTRICT OF COLUMBIA.

The net expenditures on account of the District of Columbia for the fiscal year 1894 were $5,742,369.57. The net revenues deposited in the Treasury on this account, for the same period, were $3,745,422.83.

The bonded debt has been reduced during the fiscal year $391,200, and the annual interest charge $14,617. On July 1, 1878, when the duties of the late sinking fund commissioners of the District devolved upon the Treasurer of the United States, the debt of the District amounted to $22,106,650. Under the provisions of the act of June 16, 1880, the Treasurer has issued $1,033,050 of 3.65 per cent bonds in redemption of board of audit certificates and in payment of judgments of the Court of Claims. The operations of the sinking fund, however, served to prevent any material increase of the debt, which reached its maximum $22,144,500, on January 1, 1881. There has been a steady decrease since that date, the debt on July 1, 1894, being $18,184,200, showing a net reduction since July 1, 1878, of $3,922,450. The annual interest charge has been reduced during the same period $319,961.72. The ten-year 3.50 per cent funding bonds of the District are now subject to call, and during the current fiscal year the debt will be further decreased at least $600,000.

Detailed information in regard to the affairs of the District of Columbia will be found in the report to be submitted by the District Commissioners and by the Treasurer of the United States, *ex officio* Commissioner of the sinking fund of the District.

TERRITORY OF ALASKA.

In view of the many important questions under the jurisdiction of the Treasury Department which have arisen in Alaska, especially those relating to the taking of fur seals, the salmon fisheries, and the revenue laws, I determined to have a careful investigation made with a view of making definite recommendations to Congress as to necessary changes in the laws. To this end Assistant Secretary of the Treasury Charles S. Hamlin was directed to proceed to Alaska and make a careful investiga-

tion and report upon these and other important matters. The U. S. revenue Steamer *Rush*, under the command of Capt. C. L. Hooper, was placed at his disposal, and, accompanied by Mr. Joseph W. Murray, inspector of salmon fisheries, he visited the different ports of Alaska and made a careful investigation. Although not at this time ready to transmit his report to Congress, certain conclusions drawn from it, and other reports, and certain recommendations of my own, I feel it to be my duty to present at this time.

The Pribylof [seal] Islands.

The Department is in possession of reports indicating a marked decrease in the number of seals on the Pribylof Islands. Although the limit was fixed for the past season at seventy-five hundred, yet authority was given to take an additional number, not exceeding twenty thousand in all, provided, in the opinion of the agent in charge, the condition of the herd would warrant it. It was found, however, impossible to secure the maximum number, fifteen thousand being all that could safely be taken; the fact that even this number was secured was because under the *modus vivendi* of 1892 and 1893 seals were spared which could be killed safely this season. For the ensuing year the limit will have to be fixed lower than the past season in view of such decrease.

Concurrently with this falling off on the islands there has been for some years a great increase in the number of seals killed at sea. While the official returns can not yet be stated it is known that the total catch in the North Pacific and Bering Sea for the season just expired is by far the largest ever known in the history of pelagic sealing. The decrease in the seals on the Pribylof Islands, coupled with the large number of dead pups found on the islands during the last season, whose mothers presumably were killed at sea, and the further phenomenal increase in the pelagic catch, justifies the belief that before the expiration of five years—when the regulations enacted by the tribunal of arbitration are to be submitted to our Government and that of Great Britain for a new examination to consider possible modifications in the light of past experience—the fur seal will have been practically exterminated.

Under these circumstances it is to be regretted that the suggestion contained in the second declaration of the tribunal of arbitration approved by M. De Courcel, and the American arbitrators, that we should endeavor to "come to an understanding with the British Government, in order to prohibit any killing of fur seals either on land or sea for a period of two or three years, or at least one year, subject to such exceptions as the two Governments might think proper to admit of," can not be immediately adopted.

Salmon fisheries.

It would further appear that the salmon are rapidly decreasing in Alaska because of incessant and indiscriminate fishing and the illegal

use of implements, such as nets, weirs, etc., constituting an obstruction of the streams, and I recommend that this be prohibited for at least two days of each week, and that authority be given to Government officials to destroy all obstructions placed in the streams.

The canning of salmon has become a very important Alaskan industry, furnishing employment to many people. The industry contributes nothing, however, to the wealth of the Territory, as the natives are but rarely employed, and the fishermen and laborers in the canneries, largely Chinese, are brought from California at the beginning of the season, returning at the close of the year. I recommend that a moderate tax be imposed upon each case of salmon canned, in order that some part of the expense of maintaining the Territory may be borne by those who take from it annually such a rich harvest, contributing to it nothing in return.

Customs Service.

In spite of the most earnest efforts of customs officers, the smuggling of liquor into Alaska and its illegal sale to whites and natives still continue flagrantly and defiantly. In view of the vast area of the Territory—being about one-sixth part of the whole United States—and in view of its thousands of miles of coast line, it is, perhaps, not surprising that such practices have not yet been thoroughly broken up. Complaint is also made that it is almost impossible to secure conviction by jury trial because of sympathy with the accused, and the suggestion has been made that the United States district judge be empowered to select the jury in prosecutions for violation of liquor laws.

It seems to be the almost unanimous feeling of the people of Alaska that a system of high license be adopted as the most desirable change from the existing practice. It is my purpose, however, to enforce vigorously and rigorously the existing prohibition of the importation of liquor, and it has, therefore, been determined to station a revenue cutter permanently in Alaska for this purpose.

The growth of population in Alaska is steady and the amount of money invested in the Territory increases yearly. It is believed that a large immigration will set in as soon as Congress shall extend over the Territory the general land laws or some other system of laws enabling the settler to acquire private ownership in land, a privilege now accorded only to the occupiers of town sites and to the owners of mines, canneries, and persons engaged in trade and manufacture.

I recommend that power be given to the Secretary of the Treasury to establish additional subports of entry and delivery throughout the Territory of Alaska wherever and whenever in his judgment such ports are necessary and to appoint such additional officers as such increase in ports demands.

Other important recommendations and details regarding needed legislation in Alaska are reserved for a further communication.

THE NEW ACCOUNTING SYSTEM.

The legislative, executive, and judicial appropriation act of July 31, 1894, provided for a radical change, to take effect October 1, in the accounting system of the Government. The offices of the Second Comptroller of the Treasury and the Commissioner of Customs were abolished and the First Comptroller made the sole Comptroller of the Treasury. The jurisdiction of the six Auditors is so arranged that each Auditor settles the accounts of one Department, excepting in the case of the former Fifth Auditor, who now settles the accounts of the Department of State, Justice, and Agriculture and other establishments and bureaus not under any of the Executive Departments, and accounts not assigned to the other Auditors. The Auditors being designated as the Auditors for the respective Departments tends to simplify the question of the jurisdiction of accounts, and at the same time makes it more convenient for the officers of the Government and the public having business with the accounting offices.

The detail revision of accounts, heretofore the work of the Comptrollers' offices, is abolished, and the settlements of the Auditors are final and conclusive upon the executive branch of the Government, unless an appeal is taken to the Comptroller of the Treasury by the claimant, the head of the Department interested, or the Comptroller. In such case the Comptroller's revision is final. The change was promptly effected on October 1, and notwithstanding the reduction of force in the accounting offices, it is believed that the settlement of accounts will be expedited, and that the danger of mistakes or loss to the Government will not be increased.

FREE ALCOHOL IN THE ARTS.

Owing to defects in the legislation the Treasury Department has been unable to execute the provisions of section sixty-one of the act of August 28, 1894, permitting the use of alcohol in the arts, or in any medicinal or other like compound, without the payment of the internal tax. The act made no appropriation to defray the expenses of its administration, or for the repayment of taxes provided for; and, after full consideration of the subject and an unsuccessful attempt to frame regulations which would, without official supervision, protect the Government and the manufacturers, the Department was constrained to abandon the effort and await the further action of Congress.

It is estimated in the office of the Commissioner of Internal Revenue that the drawbacks or repayments provided for in the act will amount to not less than $10,000,000 per annum, and that the expense of the necessary official supervision will not be less than $500,000 per annum. For the information of Congress, the correspondence between the Secretary and the Commissioner of Internal Revenue upon this subject will accompany this report.*

*NOTE.—Since the preparation of this report a communication, based on recently acquired information, has been received from the Commissioner in which he estimates this expense at not less than $1,000,000. See his letter of January 9, 1895, Appendix, page 991.

APPROPRIATION LAWS.

The Comptroller of the Treasury calls attention in his report to the difficulties attending the administration of the appropriation acts passed by Congress, on account of the doubts which frequently arise as to the intention of that body concerning the time during which the money appropriated shall be available. There appears to have been heretofore no authoritative or consistent rule upon this subject sufficiently explicit to afford a guide in all cases, and, consequently, the practice has varied under different administrations of the Treasury Department and has not always been uniform under any one of them. The general policy now is to construe all appropriations as annual unless a contrary intention is expressed in the act, or it clearly appears from the character of the object or service appropriated for that Congress must have intended the money to be available until the object was fully accomplished or the service fully completed. But the application of this rule is very difficult in many cases, and I, therefore, concur in the recommendation of the Comptroller that Congress shall hereafter clearly indicate in each act those appropriations which are intended to be available until expended, thus removing all doubt upon the subject.

CONDITION OF THE TREASURY—CURRENCY REFORM.

On the 1st day of July last the total cash in the Treasury, excluding current liabilities, but including a gold reserve of $64,873,024, was $116,626,221; and on the 1st day of November, the total cash, excluding current liabilities, but including $61,361,826 in gold, was $106,992,734, showing a decrease of $9,633,487. The excess of expenditures over receipts during the last fiscal year was $69,803,260, and during the first five months of the present fiscal year, $21,737,367.92. It is not believed, however, that this difference between the receipts and expenditures will continue in the same proportion until the close of the year, and, accordingly, I have estimated a deficiency of $20,000,000 at that time. Owing to the large importations of raw sugar in anticipation of the passage of the tariff act of August 28, 1894, the duties collected upon that article up to December 1st amounted to only $3,022,000, and, of course nothing has yet been realized from the tax on incomes, as its payment can not be legally enforced until after July 1, 1895. But there is reason to believe that the importations of sugar must be resumed at an early date and continued upon a scale which will yield a large revenue from that source during the remainder of the year, and it is probable, also, that on accoun of the penalties which may be incurred for nonpayment within ten days after July 1, a considerable part of the income tax will be realized in time to be available. As the reduced rates of duty on manufactures of wool will take effect on January 1, 1895, the importations of that class of goods will doubtless be greatly increased after that date, and, consequently, a considerable addition to the revenue may be reasonably anticipated from that source. If these expectations should be to any

considerable extent disappointed, the year will close with a greater deficiency than has been estimated.

My opinion is that the laws now in force will yield an ample revenue for the fiscal year 1896, as all their provisions will then be operative, and the prospective improvement in the business of the country, if realized, will greatly increase the resources from which taxes are collected, and, accordingly, a surplus of $28,814,920 is estimated for that year.

In my last annual report I called attention to the unsatisfactory condition of our financial legislation, and especially to the issue and redemption of circulating notes by the Government, and the inability of the Secretary of the Treasury, under existing laws, to make prompt and adequate provision for the support of the public credit. The experience of the past year has confirmed and strengthened the opinions then expressed, and I therefore respectfully but most earnestly urge upon Congress the necessity for remedial legislation during its present session. The well-known defects in our financial system and the serious nature of the evils threatened by them have done more during the last two years to impair the credit of the Government and the people of the United States, at home and abroad, and to check our industrial and commercial progress than all other things combined, and our first and plainest duty is to provide, if possible, some effective method for the prompt and permanent relief of the country from the consequences of the present unwise policy. A brief statement of the practical and unavoidable results of the existing legislation will demonstrate its injurious effects upon our financial affairs more clearly than any argument that could be submitted.

After many fluctuations, the gold reserve held for the redemption of United States legal-tender notes was reduced on the 17th day of January, 1894, to the sum of $69,757,824, and the cash balance in the Treasury, excluding the current liabilities, but including the gold reserve and subsidiary and minor coin, was $83,961,402. The current ordinary expenses for the support of the Government were, and for some time had been, very considerably in excess of the current receipts, and, consequently, it was impossible to procure gold for the reserve without resorting to the issue and sale of bonds, under the authority conferred by the act of January 14, 1875, commonly known as the Resumption Act. Accordingly, bonds to the amount of $50,000,000, bearing interest at the rate of five per centum, and payable after ten years from date, being one of the three classes of bonds authorized by the act referred to, were issued and sold for the sum of $58,660,917.63, no bid having been accepted which would yield the purchaser more than three per centum upon his investment. On the 6th day of March, 1894, the free gold in the Treasury amounted to the sum of $107,446,802, which was the highest point that has been reached since March 25, 1893. The lowest point reached by the reserve since the resumption of specie payments was on the 7th day of August, 1894, when, by reason

of withdrawals in the redemption of notes, it was reduced to $52,189,500. After that date it was slowly replenished by voluntary exchanges of gold coin for United States notes by the banks, and by small receipts of gold in the payment of dues to the Government, until the 14th day of November, 1894, when it reached the sum of $61,878,374.

In the meantime, however, the frequent presentation of notes for redemption in gold by individuals and institutions not desiring it for export, clearly indicated the existence of a feeling of uneasiness in the public mind, while foreign exchange was almost constantly at or near a rate which made it more profitable to export gold than to purchase bills, and, consequently, withdrawals for shipment were daily threatened. In addition to these causes of anxiety, the vast accumulation of money at our financial centers and the general depression in business which prevailed in this country, had so reduced the rates of discount that the inducement to keep funds abroad where better investments could be made were much greater than in ordinary times, and this, together with the other facts stated, made it highly imprudent to neglect any precaution which appeared necessary to insure the safety of our financial position. In fact, some shipments of gold were actually made, and, as the season was approaching when in the usual course of trade and financial operations large exportations nearly always occur, it was considered absolutely necessary for the maintenance of the public credit and the continued execution of the monetary policy declared by Congress in the act of July 14, 1890, and repeated in the act of November 1, 1893, to resort again to the issue of bonds. With a current revenue inadequate to defray the ordinary current expenses, and practically no receipts of gold from customs or other sources, it was evident that the Treasury would be unable to meet even the usual demands for export, which, however, would probably be very much augmented by the increased apprehension produced by the depleted condition of the reserve. Heretofore, when redemptions have been demanded to any considerable amount they have commenced at a time when the reserve was sufficiently large to sustain the loss without seriously endangering the credit of the Government, or impairing the soundness of the currency; but with a reserve of only $61,878,374 to begin with, it would not have been possible at any time heretofore, and in my opinion would not be possible hereafter, to meet the obligations of the Government in the manner plainly required by the letter and spirit of the statutes enacted by Congress upon the subject.

This was the condition of affairs when, on the 14th day of November, proposals were issued for the sale of additional United States five per cent ten-year bonds to the amount of $50,000,000, reserving in the official announcement the right to reject any or all bids, and requiring the payment of twenty per cent in gold coin, or gold certificates, at the time of

the acceptance of each bid, and twenty per cent at the end of each ten days thereafter, but giving purchasers the option to pay the whole amount at once, or at the maturity of any one of the intervening installments. The result of this proposition was that four hundred and eighty-six bids were received, amounting to $178,836,050, nearly all of which were at rates which would yield to the investor three per cent, or less, upon the sums proposed to be paid. One bid for the whole sum of $50,000,000, upon the basis of 2.878 per cent, and being the most advantageous offer for the Government that was made, either singly or by aggregating the separate bids, was accepted, and the proceeds of the sale, $58,538,500, have nearly all been paid into the Treasury according to the terms of the sale.

This transaction justifies the opinion that a two and one-half per cent bond, having a reasonable time to run, could probably have been sold at par, and certainly that a three per cent bond could have been disposed of at or above that rate. The fact that a bond bears so high a rate of interest and has so long a time to run that it must be sold at a large premium, deters many from offering to purchase and detracts considerably from its investment and speculative value in the hands of the comparatively few who are willing to take the risk of future fluctuations in its price. The consequence is that the purchases are made almost exclusively by large moneyed institutions and capitalists who are familiar with such securities, and the people generally are precluded from investing their savings in the only form which is known to be perfectly good and always convertible into money. As the authority to issue and sell bonds already exists, and the present state of our financial legislation compels its occasional exercise, I repeat the recommendation made in my last annual report that, in the interest of the Government and people, power be conferred upon the Secretary of the Treasury to negotiate loans at a lower rate of interest and for a shorter time than are now allowed. The existence of such authority, instead of increasing the probabilities of a frequent resort to that means of raising money, would have the contrary effect, because, when it is known that the Secretary of the Treasury is clothed with ample power and facilities to procure means for the maintenance of the reserve, public confidence in the ability of the Government to meet promptly all demands upon it will be much stronger than under present circumstances. Besides, the policy of limiting the Government to the sale of an antiquated bond, bearing a rate of interest wholly inconsistent with the existing state of the public credit and having a longer time to run than is apparently necessary at the date of its issue, can not be justified upon any grounds of expediency or principle. The only bonds which the Government now has authority to issue for any purpose are described in the Refunding Act of July 14, 1870, passed nearly a quarter of a century ago, and since then the credit and resources of the country have so greatly im-

proved that the fiscal legislation of that period is wholly unsuited to the present situation.

The law should be so amended as to conform to the conditions and requirements of the public credit and service at the present time, and I earnestly hope that Congress will take early and favorable action upon the subject.

Had there been no statute or public policy requiring the Government to redeem in coin and reissue its own notes and to maintain the parity of two kinds of coin of unequal intrinsic value, there would never have been a time since the close of the war when the funds in the Treasury were not ample for all other purposes, and no issue of bonds could, therefore, have been necessary. But while the statutes referred to remain in force, and so long as there are in circulation under the authority of the Government two coins unequal in value, but equal in legal-tender qualities, every consideration of good faith and sound policy requires the prompt redemption of the notes on presentation in the kind of coin demanded by the holder, and the constant observance of such administrative methods as may be necessary to preserve the purchasing power of the less valuable metal. This is essential to the continued circulation of our standard silver dollars and their paper representatives at par, and to abandon this policy, without substituting a better one in its place, would not only fail to cure many of the evils now existing, but would entail upon the people of the country additional and greater ones.

If, however, the mandatory legislation which keeps a large volume of Government notes in circulation, notwithstanding their repeated redemptions in coin, and also imposes upon the Government an obligation to maintain the parity of the two metals in respect to their purchasing and debt-paying power, is perpetuated, it is evident that the Treasury must remain in a position which will compel it to procure and furnish gold to all who demand it, whether they be our own citizens or citizens or subjects of other countries. At the same time it will have no lawful or regular means of obtaining gold, except by the issue and sale of bonds, thus periodically increasing the interest-bearing public debt without either making permanent additions to its stock of this metal, or diminishing to any extent its obligations on account of the notes redeemed. This situation is the necessary result of three features of our currency legislation, and it can not be permanently avoided, or even temporarily improved, without material changes in our laws relating to that subject. These features are:

(1) The circulation of United States notes as currency and their current redemption in coin on demand.

(2) The compulsory reissue of such notes after redemption.

(3) The excessive accumulation and coinage of silver and the issue of notes and certificates against it upon a ratio which greatly overvalues that metal as compared with the standard unit of value in this and the other principal commercial countries.

These features are the most prominent characteristics of our financial code and they constitute a monetary system unlike that of any other enlightened government in the world. One of their most obvious effects is to defeat all attempts of the Treasury Department to procure and keep constantly on hand a sufficient amount of gold to inspire entire confidence at home and abroad in the ability of the Government to preserve its own credit and maintain a sound currency for the use of the people. Frequent issues of bonds for the purpose of procuring gold, which can not be kept after it has been obtained, will certainly cause increased distrust among our own people as well as among the people of other countries, and not only swell the volume of our securities returning from abroad for sale or redemption, but increase the withdrawals of foreign capital heretofore invested in our domestic enterprises; and it must be admitted by all, no matter what opinions they may entertain upon current questions of finance, that such a condition of affairs can not permanently continue without still more serious consequences to the material interests of all our citizens than have heretofore been experienced.

The result of all our commercial and financial transactions with the people of other countries has been to keep us almost constantly in the position of debtors, and, generally, to a very large amount. The prosperity of our people, therefore, depends largely upon their ability to sell their surplus products in foreign markets at remunerative prices in order to secure money or establish credit abroad with which to pay interest and dividends upon loans and other investments which our customers there have made here. Ordinarily, when there is no distrust of our currency, or other discouraging influence, a considerable part of the interest and dividends earned by foreign capital in this country is annually or semiannually reinvested here, and this, together with the fact that under normal conditions the balance of trade is in our favor, enables our people to meet their obligations abroad without reducing their stock of money at home. But, when distrust arises, either as to our ability to pay, or as to the value of the money with which we intend to pay, the foreign capitalist not only ceases to reinvest but proceeds to withdraw all his money by disposing of his American securities in order to protect both capital and income against threatened depreciation. There are but two ways in which this withdrawal can be effected; one is for our people to export and sell their commodities in foreign markets to a sufficient amount to create a balance of credit in their favor equal to the amount to be withdrawn, and the other is to ship gold, that being the only money recognized in the settlement of international balances. The extent to which these withdrawals have occurred during the last two years, and the manner in which they have been accomplished, are partially shown by the facts that, although our exports of merchandise, including silver bullion, exceeded our imports during the fiscal year 1893 to the amount of $36,279,795, the net export

of gold was $86,897,275, while during the fiscal year 1894 the net export of that metal was $4,172,665, notwithstanding the balance in our favor on account of merchandise and silver bullion sold abroad amounted to $264,314,663. It thus appears that our people were compelled to pay abroad in merchandise and gold during the time named at least $391,600,000 more than they received back, and this vast sum has been abstracted largely from the active business enterprises of the country, so affecting their growth and prosperity as to limit consumption, reduce prices and discourage productive industry.

But, independently of these considerations, our own people have a clear right to demand a sound and stable currency for use in the transaction of their business at home, while their purely commercial relations with the people of other countries, upon whom the producers of exportable commodities are compelled to rely for the consumption of their surplus, can not be profitably maintained unless they are always in a condition to pay for what they buy in as good money as they receive for what they sell. We can not, therefore, preserve our trade relations with the best customers for our surplus products unless we maintain a monetary system substantially in accord with theirs; and until they manifest a disposition to cooperate with us in effecting a change upon terms just and fair to all our interests, we ought to continue our adhesion to the gold standard of value with as large a use of silver as is consistent with the strict maintenance of that policy. But, in order to insure the success of such a policy, it is necessary not only that the Government should be at all times prepared to redeem its direct obligations in the standard unit of value and preserve equality in the exchangeable value of all its legal-tender coins, but that its ability and determination to discharge this duty shall be so manifest as to command the entire confidence of the public.

Since the resumption of specie payments, on the first day of January, 1879, United States legal-tender notes, and Treasury notes issued under the act of July 14, 1890, have been redeemed in gold to the amount of $260,000,000 and all the notes so redeemed have been reissued and are now outstanding. They are a constant menace to the gold reserve, and no scheme of financial reform can be complete or effectual which does not provide at least for their gradual elimination from our currency system. To retain them as a part of the currency of the people and refuse to redeem them in standard coin on demand, would be repudiation in its most odious form, because the larger part of these notes were forced into the circulation by the Government at a time and under circumstances which justified the most implicit reliance upon its good faith. On the other hand, to continue their redemption and reissue under present conditions endangers the entire volume of our currency, discredits the obligations of the Government and people, increases the public debt, and seriously embarrasses the administration of our financial affairs.

While no proposition should be entertained that will have a tendency to degrade the currency, or in any degree impair public confidence in its safety, I am convinced that the interests of the country require such changes in our legislation as will disconnect the Government entirely from the business of issuing or reissuing circulating notes, and thus relieve its fiscal department from the periodical demands upon its resources which under the existing system must continue to disturb the financial and general business affairs of the people. In proposing such changes no consideration should be ignored which affects the industrial or commercial interests of any part of the country, for all the people are alike concerned in whatever promotes or retards the healthy development of our great national resources.

It is not the capitalist alone whose interests are affected by the use, or threatened use, of a depreciated and fluctuating currency, and the consequent derangement and diminution of business. A paralysis of business, whatever may be its cause, strikes first the wage-earner, then the man of moderate means, and lastly the capitalist who has accumulated a surplus store of goods or money. A sound and elastic currency, capable of adjusting its volume easily and rapidly to the actual demands of legitimate business, is what the common interests of all our people require, and no argument is necessary to show that such a currency is impossible under any system of compulsory issue, or reissue, of circulating notes. Arbitrary regulation of the volume of circulation to be kept outstanding is wholly inconsistent with the maintenance of a healthy financial condition and is the exercise of a function which does not properly belong to the Government of the United States, or any other public authority. Its effect is to force paper currency upon the people when it is not needed, and deprive them of it when it is needed, thus establishing and maintaining an improper and unwarranted connection between the Government and the private business affairs of its citizens, and making their successful prosecution largely dependent upon the judgment or caprice of a superior authority having no interest in the transactions except, perhaps, a partisan interest not in harmony with sound fiscal arrangements.

Under our present currency system, so far as it consists of notes issued by the United States Government, the volume of circulation was intended to be, and is, in fact, unchangeable; it is unalterably fixed at a certain amount and, no matter how great the emergency may be, it can be neither enlarged nor diminished. The only part of the currency possessing in any degree the quality of elasticity is that issued by the national banking associations, and it is now generally conceded, I believe, that in this respect, at least, it has failed to meet the requirements of the situation at some of the most critical periods in the business affairs of the country. This failure is attributable, in my opinion, to three principal causes: First, the large volume of United States currency of various kinds kept constantly out-

standing, making the contraction or expansion of the comparatively small national bank circulation less effective than it would otherwise have been; secondly, the difficulty and delay in procuring, and to some extent in retiring, circulation; thirdly, and mainly, the provisions of the law which require the deposit of United States bonds to secure circulation, and restrict the issue of notes to ninety per cent of the par value of the bonds. With $900,000,000 in United States notes, Treasury notes of 1890, silver certificates and gold certificates, besides about $625,000,000 in gold and silver coins, constantly outstanding, none of which can be lawfully retired by the Government without substituting other currency in its place, the national bank notes, which amount to only $207,500,000, or about twelve per cent of the whole, can not exert a very effective influence upon the volume of outstanding currency at any time, and especially at times when large contractions or expansions are most needed. But the greatest difficulties are encountered, and the national banking system, as now organized, is least effective, when the business of the country demands quick expansions of the currency to meet sudden emergencies. In the first place, in order to secure additional circulation, the banks are required, at the very time when money is most difficult to procure, to deposit United States bonds, worth in the market much more than their face value, upon which they will receive notes only to the amount of ninety per cent upon the par value of the securities; and, in the second place, under the present laws, which do not authorize the Treasury Department to prepare and hold a reserve of blank national bank notes ready for delivery immediately upon application, from thirty to sixty days must ordinarily elapse before the issue can be made, and in the meantime the emergency has probably passed. Thus, the inducement to take out circulation when businesss necessities are greatest is very small, if it exists at all, and even if applications are made the circulation will probably not be secured until too late to afford relief.

In addition to these obstructions to the prompt increase and decrease of circulation, the ninth section of the act of July 12, 1882, which provides for the extension of the corporate existence of national banks, expressly prohibits them from retiring their notes to a greater amount than $3,000,000 in the aggregate per month, and enacts that no bank which has made a deposit of lawful money in order to withdraw its circulation shall be permitted to make any increase in its circulation for a period of six months thereafter. These provisions are so manifestly in conflict with the dictates of sound policy that they require no comment.

In view of the foregoing considerations, and many others that might be urged in favor of a reorganization and reformation of our paper currency system, I have prepared the outlines of a plan which, in my opinion, will relieve the Government to a great extent from the burdens now imposed upon it, secure within a reasonable time a safe and elastic national and State bank currency, and result ultimately in the perma-

nent retirement of United States legal-tender notes of both classes. It is, in brief, as follows:

I.

Repeal all laws requiring, or authorizing, the deposit of United States bonds as security for circulation.

II.

Permit national banks to issue notes to an amount not exceeding seventy-five per centum of their paid-up and unimpaired capital, but require each bank before receiving notes to deposit a guarantee funds consisting of United States legal-tender notes, including Treasury notes of 1890, to the amount of thirty per centum upon the circulating note, applied for. This percentage of deposits upon the circulating notes outstanding to be maintained at all times, and whenever a bank retires its circulation, in whole or in part, its guarantee fund to be returned to it in proportion to the amount of notes retired.

III.

Retain the provision of the law making stockholders individually liable, and provide that the circulating notes shall constitute a first lien upon all the assets of the bank.

IV.

Impose a tax of one-half of one per centum per annum, payable semi-annually, upon the average amount of notes in circulation, to defray the expenses of printing notes, official supervision, cancellation, etc.

V.

No national bank note to be of less denomination than ten dollars, and all notes of the same denomination to be uniform in design; but banks desiring to redeem their notes in gold may have them made payable in that coin. The Secretary of the Treasury to have authority to prepare and keep on hand ready for issue upon application a reserve of blank national bank notes for each banking association having circulation.

VI.

Require each national banking association to redeem its notes at its own office, or at its own office and at agencies to be designated by it.

VII.

To provide a safety fund for the immediate redemption of the circulating notes of failed banks, impose a tax of per centum per annum upon the average circulation of each bank until the fund amounts to five per centum of the total circulation outstanding. Require each new

bank, and each bank taking out additional circulation, to deposit its proper proportion of this fund before receiving notes. When a bank fails, its guarantee fund held on deposit to be paid into the safety fund and used in the redemption of its notes and if this fund shall be impaired by the redemption of the notes of failed national banks, and the immediately available cash assets of such banks are insufficient to reestablish the fund, it shall at once be made good by pro rata assessments upon the other banks, according to the amounts of their outstanding circulation; but there shall be a first lien upon all the assets of the failed bank, or banks to reimburse the contributing banks. The safety fund may be invested in outstanding United States bonds having the longest time to run, the bonds and the interest upon them to be held as part of the fund and sold when necessary to redeem notes of failed banks.

VIII.

Repeal the provisions of the reorganization and extension act of July 12, 1882, imposing limitations upon the reduction and increase of national-bank circulation.

IX.

Repeal all provisions of the law requiring banks to keep a reserve on account of deposits.

X.

The Secretary of the Treasury may, in his discretion, use any surplus revenue of the United States in the redemption and retirement of United States legal tender notes, but such redemptions shall not in the aggregate exceed an amount equal to seventy per cent of the additional circulation taken out by national and State banks under the system herein proposed.

XI.

Circulating notes issued by a banking corporation, duly organized under the laws of any State, and which transacts no other than a banking business, shall be exempt from taxation under the laws of the United States, when it is shown to the satisfaction of the Secretary of the Treasury and the Comptroller of the Currency—

(1) That such bank has at no time had outstanding its circulating notes in excess of seventy-five per centum of its paid-up and unimpaired capital.

(2) That its stockholders are individually liable for the redemption of its circulating notes to the full extent of their ownership of stock.

(3) That the circulating notes constitute by law a first lien upon all the assets of the bank.

(4) That the bank has at all times kept a guarantee fund in United States legal-tender notes, including Treasury notes of 1890, equal to thirty per centum of its outstanding circulating notes; and

(5) That it has promptly redeemed its notes on demand at its principal office, or at one or more of its branch offices, if it has branches.

XII.

The Secretary of the Treasury may, under proper rules and regulations to be established by him, permit State banks to procure and use in the preparation of their notes the distinctive paper used in printing United States securities; but no State bank shall print or engrave its notes in similitude of a United States note, or certificate, or national bank note.

Whatever may be the objections to the issue and circulation of United States legal-tender paper, upon either constitutional or financial grounds, it has become so incorporated into our currency system, and constitutes so large a part of our active circulation, that it could not be suddenly withdrawn without producing, in the present state of our laws, considerable disturbance in the fiscal operations of the Government as well as the business of the people, and, therefore, the plan now suggested provides for its gradual retirement, by the use of surplus revenues hereafter received, a process which will probably require several years for its completion. As these notes can not be retired until other forms of currency to an equal amount have taken their place, there will be neither a forced contraction nor expansion of the circulation on account of the change. In the meanwhile, for the double purpose of protecting the Treasury as far as possible under the circumstances from repeated presentations of notes for redemption in gold, and establishing a safe basis for the national and State bank notes, the former are to be required to keep always on deposit and the latter to keep constantly on hand legal-tender paper to an amount equal at least to thirty per cent upon their outstanding circulation.

If all the national and State banks now in existence should take out circulation to the full amount proposed to be authorized, the guarantee fund alone would absorb about $225,000,000 of legal-tender notes, and the national bank safety fund, when raised to its full amount of five per cent upon outstanding circulation, might be made to absorb about $3,500,000 more.

As the plan suggested proposes to exempt the Government of the United States from all liability for the redemption of national bank notes and place the sole responsibility upon the banks themselves, a guarantee fund of not less than thirty per cent upon the outstanding circulation is regarded as a very proper and necessary feature of the system. A safety fund consisting of only five per cent upon the circulation, together with governmental liability for redemption in case the fund should at any time be insufficient, as proposed in one of the plans recently made public, would, of course, secure the note-holder, but it would pledge the faith and credit of the United States in a business in which they have no pecuniary interest whatever, and for that reason alone, if there were no others, such a system would be quite objectionable, and, in my opinion, not attainable.

In the case of the State banks this guarantee fund will constitute a permanent reserve which, together with the individual liability of stockholders and the first lien upon all the assets, will make its circulating notes entirely safe. In my opinion the imposition of a tax by the Federal Government upon the use of circulating notes, lawfully issued by State banks, is an unjustifiable, if not an unconstitutional, interference with the authority of the several States; but its validity has been judicially sustained, and as it does not appear to be practicable to repeal it absolutely at this time, it is proposed to avoid its prohibitory effect by exempting from taxation the notes of such banking institutions as may be organized and conducted under conditions which will amply protect the holders of their paper. While direct governmental supervision is not, and ought not to be provided for, the requirement that a bank in order to secure exemption from taxation must satisfy the Secretary of the Treasury and the Comptroller of the Currency that it has complied with all the conditions imposed will enable those officials to adopt such measures as may be necessary, in each case, to ascertain every material fact involved in the inquiry. The contingent liability to a heavy rate of taxation upon the whole amount of its circulating notes when paid out by itself, or by other banks, will constitute, it is believed, a sufficient incentive to secure sound and conservative management and to a great extent dispense with the necessity for such official supervision as is proposed to be retained over national banks.

It will be observed that the plan submitted proposes the repeal of all provisions of existing laws which require national banks to hold a fixed reserve against deposits, and, as this is a departure from the practice which has prevailed continuously for more than thirty years, it is proper to state, briefly, the reasons which have prompted me to make this suggestion. When the national banking system was originally authorized it was regarded by many as a doubtful experiment at best, and, accordingly, various precautionary restrictions and limitations were imposed for the security of the note-holders and depositors which practical experience has since shown to be unnecessary, and sometimes harmful. Among these are the requirements that bonds shall be deposited to secure ninety per cent of their par value in circulating notes, and that a fixed reserve, which can not be lawfully diminished, shall be held on account of deposits. The consequence of this last requirement is that when a bank stands most in need of all its resources it can not use them without violating the law. The necessity for holding a sufficient reserve against deposits is not questioned, and, in fact, the business of receiving deposits and discounting paper ought never to be conducted without it, but it should be held for actual use when the occasion arises, and not made legally inaccessible at the very time when it was theoretically supposed to be beneficial in sustaining the credit of the bank and affording relief to its customers. Under the present law, when a bank finds its reserve in danger of reduction below

the legal requirement, on account of the demands of its depositors, it is compelled at once to call in its loans, thereby increasing the distrust and aggravating the situation which a judicious use of the reserve would have relieved; and besides, at such times, in order to protect the reserve, which is then entirely useless for all practical purposes, clearing-house certificates, various forms of time-checks and bills and other devices of doubtful legality, are habitually resorted to for the purpose of supplying circulation to take the place of lawful money lying idle in the vaults of the banks. To provide for a reserve which can not be utilized even at a time of the greatest stringency and distrust without incurring the penalties of forfeiture, affords a most striking illustration of the impolicy of legislative interference with the natural laws of trade and finance. It is not the duty or province of the Government to control or regulate the private affairs of the people, except for certain well-defined purposes, and as the custody and use of funds belonging to depositors are matters which affect only the interests of the immediate parties they should be left to their own judgment and discretion. The duty of the Government, so far as it has any duty in the premises, is simply to provide that all the currency issued under its authority is sufficiently secured to prevent its loss or depreciation in the hands of the people, who are compelled to receive and pay it out in the transaction of business; but a bank is not dependent upon the Government for authority to receive deposits, and its use for that purpose by the public is as purely voluntary as the credit extended to any other corporation or to a private individual.

Every prudently managed bank, if left free to conduct its deposit and discount business in the manner most advantageous to its own interests and the interests of its patrons, will undoubtedly keep on hand a reasonable reserve to meet not only all the ordinary demands upon it, but to provide for such emergencies as are liable to occur in the community where it is located; but it ought not to be prohibited by law from using such reserve for the only purposes it was designed to accomplish. The average amount of reserve held by all the national banks does not usually exceed seventeen or eighteen per cent of their deposits, while the statistics show that the State banks doing a deposit and discount business, and which are not required by law to keep a fixed reserve, have generally kept on hand in ordinary times about twenty per cent of their deposits, a fact which conduces strongly to sustain the position that a regulation upon this subject is not really necessary in order to secure the safe management of banking institutions, and, therefore, ought not to be continued.

A safety fund, consisting of five per cent upon the outstanding circulation of all the banks, to insure the prompt redemption of the notes of failed banks, is believed to be a necessary feature of any plan which proposes to dispense with the deposit of bonds and exempt the Government from liability on account of the national bank currency. That

the Government should be exempt, and the entire responsibility for the redemption of their own notes assumed by the banks, is a proposition which, for many reasons, I think, will receive the approval of the general public and ought not to be opposed by any special interest. The requirement that the banks shall pay their own obligations imposes upon them no greater hardship than is imposed by law upon every other business and financial institution in the country, and the only argument that can be plausibly urged against it, in the case of the banks, is that, as the Government has undertaken through their agency to secure a sound circulating medium, it should pledge its credit to keep it good under all circumstances. The conclusive answer to this is that the Government has discharged its whole duty in the matter when it has by its legislation provided such safeguards as will, with honest and competent management, guarantee the safety of the notes issued by its authority; and this is one of the results which the proposed plan is intended to accomplish. The deposit of thirty per cent by each bank as a guarantee fund for the redemption of its own notes, and a deposit of five per cent by all the banks in a common safety fund for the redemption of the notes of failed banks, together with a first lien upon all the assets, individual liability of stockholders, official supervision, and the power to assess all banks to supply deficiencies, constitute the effective parts of a system which will afford to the note-holder ample assurance against loss and at the same time leave a liberal margin for profit on the circulation.

One beneficial effect of requiring each bank to redeem its own notes will be the promotion of more careful and conservative management of its affairs, thus avoiding to a large extent the causes which have produced a majority of the failures heretofore. Governmental responsibility for the redemption of any part of the obligations of the banks has a strong tendency to encourage speculative adventures and careless methods, which would not otherwise be permitted by the directing officials, and is, besides, inconsistent with the policy that the banking business, like all others, should be conducted upon the credit and at the risk of the parties most directly interested in its success.

In order to provide a wider field for the active circulation of our silver coins and certificates, which now constitute about one-fifth of the entire volume of our currency, and to protect the Treasury as far as possible against the accumulation of certificates returned in payment of customs and other dues to the Government, it is proposed that no national bank note of a less denomination than ten dollars shall be issued. The bank notes under that denomination now outstanding amount to $63,258,949, and there are also in circulation $64,418,831 in old United States legal-tender notes in denominations less than ten dollars, $60,193,658 in Treasury notes of 1890, and $131,047,547 in silver certificates, making in the aggregate $318,618,985 in small notes, or only about $19,000,000 less than the entire issue of silver certificates.

Attention was called to this subject in my last annual report, and the opinion was then expressed that it would be good policy to retire these small notes and replace them with larger ones of like character. Such a course would not subject the people to any inconvenience in the transaction of their ordinary business, and would keep permanently outstanding a much larger amount of silver coin and certificates than has heretofore been done, thus relieving the Treasury to a considerable extent from one of the difficulties which frequently embarrass its operations. The large notes would be used generally in conducting the more important transactions of the people and in the payment of dues to the Government, so that, while no denomination would be excluded from circulation, public and private interests would be alike subserved. These changes could be made gradually as the various kinds of notes are received into the Treasury, and with very little, if any, additional expense.

The fact that our circulating medium is composed of so many different kinds of currency would seem to require the enactment of such legislation as will provide a place in which each can be safely and conveniently used, and as this can be done without discrimination against any of them, it ought not to be omitted from any plan which proposes permanent changes in the system. The policy of various other countries in this respect appears to have enabled them to avoid the difficulties encountered here in the attempt to keep the less valuable coins and their representatives in circulation, without derangement of the currency or disturbance of the public finances.

Great Britain, with $550,000,000 in gold and only $112,000,000 in silver, none of which is full legal tender, authorizes the issue of no note of a less denomination than five pounds, equal to $24.33; France, Belgium and Italy, with $976,000,000 in gold and $518,300,000 in legal-tender silver, issue no notes of a less denomination than twenty francs; or $3.86; Holland, with $27,600,000 in gold and $53,400,000 in legal-tender silver, issues no paper below twenty-five florins, equal to $10.05, Spain, with $40,000,000 in gold and $126,000,000 in legal-tender silver, issues nothing below twenty-five pesetas, or $4.72; Denmark, Sweden and Norway, with $28,000,000 in gold and $12,100,000 in limited legal-tender silver, have no paper under ten crowns, or $2.68, and Austria-Hungary, with $130,000,000 in gold and $81,000,000 in legal-tender silver, is gradually retiring all notes under ten crowns, or $4.04. None of these countries have any paper based exclusively upon silver, as we have, and consequently all payments made in sums less than the denominations of notes mentioned must be made in actual coin, which would not be the case here if the recommendation now made should be complied with. Our stock of full legal-tender silver coins is larger in proportion to the stock of gold than in any of the countries named, except Holland, Belgium, and Spain, and yet we continue to obstruct their circulation by the issue of small United States notes and bank notes,

which serve the purposes of the people in their daily transactions no better than the coins or certificates based upon them.

The experience of this country under the act of February 28, 1878, which limited silver certificates to denominations of ten dollars and over, and under the act of August 4, 1886, which removed that restriction, justifies the belief that the change now proposed would result in a greatly increased use of silver coins and certificates and that they would be much less likely to return to and remain in the Treasury than at present. At the time of the passage of the act last referred to, permitting the issue of silver certificates in denominations of one, two, and five dollars, standard silver dollars not represented by certificates had accumulated in the Treasury to the amount of $93,959,880, although the total coinage up to that date was only $235,643,286. Within four months after that date, although in the meantime the coinage was progressing at the usual rate, the amount of free silver held in the Treasury was reduced to $71,259,568, and it continued to decrease, on account of the demand for small certificates, until it became so reduced that further issues of certificates had to be limited, practically, to the current coinage of the dollars.

REVENUE REFORM.

If this country is to utilize to the fullest extent the opportunities offered by its geographical position, natural resources, and the mechanical skill and commercial enterprise of its people, it must adhere steadfastly and aggressively to the revenue policy inaugurated by the present Congress at its last session. The reduction of taxation to the lowest point compatible with the collection of a revenue sufficient to maintain an efficient public service is a duty which, upon the plainest principles of justice, every Government owes to its citizens under all circumstances; but, when the taxation is imposed in such form or at such rates as to increase the cost of living and obstruct the processes of industry and trade, this duty becomes still more imperative, and a failure to discharge it when the power exists is a gross violation of the public trust and confidence.

For many years our tariff laws have been framed upon the theory that the wealth of the country could be increased by imposing taxes upon the people, and that the prosperity of our industries could be promoted by increasing the cost of production, and the result has been that the net profits of labor and capital constantly diminished until they reached a point which made further development of our resources almost impossible. But little opportunity was afforded for the extension of our manufacturing and mechanical industries or for the growth of our trade at home or abroad, and thus the farmers and other producers of the country were confronted by a situation which compelled them to receive diminished rewards for increased production.

A change was demanded by every consideration of public duty and private interest, and, although the recent legislation did not accom-

plish all that was expected or desired, it inaugurated a policy which it is hoped and believed will ultimately result in a great improvement in our industrial condition and a corresponding enlargement of our internal and international commerce. In the prosecution of this policy no temporary check or apparent diversion of the public mind to other subjects should be permitted to diminish our confidence in its final success or weaken our determination to maintain a consistent advocacy of its claims to the favorable consideration of the people. On the contrary, reverses should stimulate increased effort, and every movement hereafter made should be a step forward in the direction of freer trade and a more equal distribution of the rewards of industry.

The raw materials used in the production of commodities for the use of the people in their homes and in their various industrial pursuits should be free from taxation, in order that the burdens of labor may be lightened, the opportunities for employment increased, and the necessaries of life made more abundant and less expensive. If our industries are to be profitably conducted, reduced cost of production must precede or accompany reduced prices of the finished product, and as cheap commodities increase consumption, the interests of all classes will be promoted by removing the obstructions which deny our skilled laborers and artisans access to the world's store of raw materials.

The late act, while it places upon the free list a considerable part of the most important raw materials used in our manufactures, left iron and lead ores and bituminous coal, together with several other articles of less consequence, still dutiable, thus not only failing to present a consistent system of revenue reform, but leaving some of our most valuable industries at a great disadvantage as compared with their rivals differently located. There are other defects consisting of ambiguous phraseology in some of the paragraphs, and inconsistent and excessive rates of duty in some of the schedules, a correction of which would be in harmony with a policy of progressive reform upon a basis of equal justice to producers and consumers, and would not affect the revenue to any considerable extent. Advantage should be promptly taken of every opportunity to remove all these objectionable features from the act in order that our legislation may be made to conform, as speedily as possible, to the pledges given to the people and to the demands of public sentiment on this subject.

J. G. CARLISLE,
Secretary of the Treasury.

To

Hon. CHARLES F. CRISP,
Speaker of the House of Representatives.

TABLES ACCOMPANYING THE REPORT ON THE FINANCES.

LEGAL-TENDER NOTES.							
The act of February 25, 1862 (12 Statutes, 345), authorized the issue of $150,000,000 United States notes, not bearing interest, payable to bearer at the Treasury of the United States. and of such denominations, not less than five dollars, as the Secretary of the Treasury	Indefinite...	On demand ...	None	Par.....	450,000,000.00	.....	346,681,016.00

might deem expedient $50,000,000 to be applied to the redemption of demand notes authorized by the act of July 17, 1861; these notes to be a legal tender in payment of all debts, public and private, within the United States, except duties on imports and interest on the public debt, and to be exchangeable for 6 per cent United States bonds. The act of July 11, 1862 (12 Statutes, 532), authorized an additional issue of $150,000,000 of such denominations as the Secretary of the Treasury might deem expedient, but no such note should be for a fractional part of a dollar, and not more than $35,000,000 of a lower denomination than five dollars; these notes to be a legal tender as before authorized. The act of March 3, 1863 (12 Statutes, 710), authorized an additional issue of $150,000,000 of such denominations, not less than one dollar, as the Secretary of the Treasury might prescribe; which notes were made a legal tender as before authorized. The same act limited the time in which the Treasury notes might be exchanged for United States bonds to July 1, 1863. The amount of notes authorized by this act were to be in lieu of $100,000,000 authorized by the resolution of January 17, 1863 (12 Statutes, 822). The act of May 31, 1878 (20 Statutes, 87), provides that no more of the United States legal-tender notes shall be canceled or retired, and that when any of said notes are redeemed or received into the Treasury under any law, from any source whatever, and shall belong to the United States, they shall not be retired, canceled, or destroyed, but shall be reissued and paid out again, and kept in circulation.							
TEMPORARY LOAN.

FIVE-PER-CENT LOAN OF 1881.							
The act of January 14, 1875 (18 Statutes, 296), authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par, in coin, either of the description of bonds of the United States described in the act of July 14, 1870 (16 Statutes, 272), to the extent necessary for the redemption of fractional currency in silver coins of the denominations of ten, twenty-five, and fifty cents of standard value.							
The act of March 3, 1875 (18 Statutes, 466), directs the Secretary of the Treasury to issue bonds of the character and description set out in the act of July 14, 1870 (16 Statutes, 272), to James B. Eads, or his legal representatives, in payment at par of the warrants of the Secretary of War for the construction of jetties and auxiliary works to maintain a wide and deep channel between the South Pass of the Mississippi River and the Gulf of Mexico, unless Congress shall have previously provided for the payment of the same by the necessary appropriation of money.							
The act of July 14, 1870 (16 Statutes, 272), authorizes the issue of $200,000,000 at 5 per centum, principal and interest payable in coin of the present standard value, at the pleasure of the United States Government, after ten years; these bonds to be exempt from the payment of all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority. Bonds and coupons payable at the Treasury of the United States. This act not to authorize an increase of the bonded debt of the United States. Bonds to be sold at not less than par in coin, and the proceeds to be applied to the redemption of outstanding 5-20's or to be exchanged for said 5-20's, par for par. Payment of these bonds, when due, to be made in order of dates and numbers, beginning with each class last dated and numbered. Interest to cease at the end of three months from notice of intention to redeem. The act of January 20, 1871 (16 Statutes, 399), increases the amount of 5 per cents to $500,000,000, provided the total amount of bonds issued shall not exceed the amount originally authorized, and authorizes the interest on any of these bonds to be paid quarterly.	10 years....	May 1, 1881 ...	5 per cent...	Par...		517,994,150.00	38,800.00
The act of December 17, 1873 (18 Statutes, 1), authorized the issue of an equal amount of bonds of the loan of 1858, which the holders thereof may, on or before February 1, 1874, elect to exchange for the bonds of this loan.					1,500,000,000.00

in the Treasury not otherwise appropriated, and to issue, sell, dispose of at not less than par, in coin, either of the descriptions of bonds of the United States described in the act of July 14, 1870 (16 Statutes, 272), for the purpose of redeeming, on and after January 1, 1879, in coin, at the office of the Assistant Treasurer of the United States in New York, the outstanding United States legal-tender notes when presented in sums of not less than fifty dollars.

TREASURY NOTES OF 1890.

The act of July 14, 1890 (26 Statutes, 289), directs the Secretary of the Treasury to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States, to be prepared by the Secretary of the Treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe. That said notes shall be redeemable on demand, in coin, at the Treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued; but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom then held in the Treasury, purchased by such notes, and such Treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the Treasury notes provided for the Secretary of the Treasury shall redeem the same in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law. 152,584,417.00

NATIONAL-BANK NOTES (REDEMPTION ACCOUNT).

The act of July 14, 1890 (26 Statutes, 289), provides that balances standing with the Treasurer of the United States to the respective credits of national banks for deposits made to redeem the circulating notes of such banks, and all deposits thereafter received for like purpose, shall be covered into the Treasury as a miscellaneous receipt, and the Treasurer of the United States shall redeem from the general cash in the Treasury the circulating notes of said banks which may come into his possession subject to redemption, * * * and the balance remaining of the deposits so covered shall, at the close of each month, be reported on the monthly public debt statement as debt of the United States bearing no interest. 26,371,685.50

*1,632,253,636.68

*Exclusive of $64,623,512 bonds issued to Pacific railroads.

TABLE B.—STATEMENT OF OUTSTANDING PRINCIPAL OF THE PUBLIC DEBT OF THE UNITED STATES ON THE 1ST OF JANUARY OF EACH YEAR FROM 1791 TO 1843, INCLUSIVE, AND ON THE 1ST OF JULY OF EACH YEAR FROM 1843 TO 1894, INCLUSIVE.

1843	20,201,226.27		

*In the amount here stated as the outstanding principal of the public debt are included the certificates of deposit outstanding on the 30th of June, issued under act of June 8, 1872, for which a like amount in United States notes was on special deposit in the Treasury for their redemption, and added to the cash balance in the Treasury. These certificates, as a matter of accounts, are treated as a part of the public debt, but being offset by notes held on deposit for their redemption, should properly be deducted from the principal of the public debt in making comparison with former years.

† Exclusive of gold, silver, currency certificates, and Treasury notes of 1890, held in the Treasurer's cash, and including $64,623,512 bonds issued to the several Pacific railroads.

TABLE C.—ANALYSIS OF THE PRINCIPAL OF THE PUBLIC DEBT OF THE UNITED STATES FROM JULY 1, 1856, TO JULY 1, 1894.

Year.	3 per cents.	3½ per cents.	4 per cents.	4½ per cents.	5 per cents.	6 per cents.	7 3/10 per cents.	Total interest-bearing debt.

NOTE 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Railway bonds.

NOTE 2.—The figures for July 1, 1879, were made up assuming pending funding operations to have been completed.

NOTE 3.—The temporary loan per act of July 11, 1862, is included in the 4 percents from 1862 to 1868, inclusive, with the exception of the amount outstanding August 31, 1865, this being the date at which the public debt reached its highest point. This loan bore interest from 4 per cent to 6 per cent, and was redeemable on ten days' notice after thirty days; but being constantly changing, it has been considered more equitable to include the whole amount outstanding as bearing 4 per cent interest on an average for the year.

TABLE D.—STATEMENT OF THE ISSUE AND REDEMPTION OF LOANS AND TREASURY NOTES (BY WARRANTS) FOR THE FISCAL YEAR ENDED JUNE 30, 1894.

	Issues.	Redemptions.	Excess of issues.	Excess of redemptions.
Loan of July and Aug., 1861, acts of July 17 and Aug. 5, 1861	.....	$18,100.00	.....	$18,100.00
Five-twenties of 1862, act of Feb. 25, 1862	.....	4,000.00	.....	4,000.00
Legal-tender notes, acts of Feb. 25 and July 11, 1862, Jan. 7 and Mar. 3, 1863	$90,960,000.00	90,960,000.00	.....	.....

NOTE.—The difference between the amount of money in the country and the amount in circulation represents the money in the Treasury.

Currency certificates, act of June 8, 1872, are included in the amount of United States notes in circulation in the tables for the years 1873 to 1891 inclusive; since 1891 they are reported separately.

The foregoing tables present the revised figures for each of the years given.

TABLE I.—POPULATION, NET REVENUE, AND NET EXPENDITURES OF THE GOVERNMENT FROM 1837 TO JUNE 30, 1894, AND PER CAPITA OF THE REVENUES AND PER CAPITA OF EXPENDITURES.

Year.	Population.	Net revenue.	Per capita on revenue.	Net expenses.	Per capita on expenditures.
1837	15,655,000	$24,954,153.00	$1.59	$37,243,496.00	$2.38
1838	16,112,000	26,302,562.00	1.63	33,865,059.00	2.10
1839	16,584,000	31,482,750.00	1.90	26,899,128.00	1.62
1840	17,069,453	19,480,115.00	1.14	24,317,579.00	1.42
1841	17,591,000	16,860,160.00	.96	26,565,873.00	1.51
1842	18,132,000	19,976,197.00	1.10	25,205,761.00	1.39
1843 (6 months)	18,694,000	8,302,702.00	.89	11,858,075.00	1.27

TABLE K.—STATEMENT OF THE NET RECEIPTS (BY WARRANTS) DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Customs:		
Quarter ended September 30, 1893	$39,459,843.52	
Quarter ended December 31, 1893	30,352,247.58	
Quarter ended March 31, 1894	33,648,516.09	
Quarter ended June 30, 1894	28,357,923.43	
		$131,818,530.62
Internal revenue:		
Quarter ended September 30, 1893	37,112,704.07	
Quarter ended December 31, 1893	36,149,276.03	
Quarter ended March 31, 1894	35,099,805.45	
Quarter ended June 30, 1894	38,749,447.26	
		147,111,232.81
Sales of public lands:		
Quarter ended September 30, 1893	469,405.94	
Quarter ended December 31, 1893	432,606.57	
Quarter ended March 31, 1894	433,127.45	
Quarter ended June 30, 1894	338,497.34	
		1,673,637.30
Tax on circulation of national banks:		
Quarter ended September 30, 1893	732,325.35	
Quarter ended December 31, 1893	9,170.83	
Quarter ended March 31, 1894	855,375.06	
Quarter ended June 30, 1894	13,996.32	
		1,610,867.56
Repayment of interest by Pacific railroads:		
Quarter ended September 30, 1893	222,732.27	
Quarter ended December 31, 1893	217,688.09	
Quarter ended March 31, 1894	218,956.07	
Quarter ended June 30, 1894	267,043.66	
		926,420.09
Customs fees, fines, penalties, and forfeitures:		
Quarter ended September 30, 1893	152,251.32

APPENDIX TO THE REPORT ON THE FINANCES.

FI 94——1

APPENDIX.

REPORTS OF HEADS OF BUREAUS AND OTHER OFFICERS.

(No. 1.)

REPORT OF THE TREASURER.

TREASURY DEPARTMENT,
OFFICE OF THE TREASURER,
Washington, December 1, 1894.

SIR: I have the honor to submit the annual report on the operations and condition of the Treasury.

REVENUES AND EXPENDITURES.

The net ordinary revenues and expenditures for the fiscal years ending June 30, 1893 and 1894, were as shown in the following table:

	1893.	1894.	Increase.	Decrease.
REVENUES.				
Customs	$203,355,016.73	$131,818,530.62		$71,536,486.11

Judiciary	7,212,216.68	5,544,599.11		1,667,617.57
War Department	49,641,773.47	54,567,929.85	4,926,156.38	
Navy Department	30,136,084.43	31,701,293.79	1,565,209.36	
Interior Department (Indians and pensions)	172,702,905.14	151,470,766.48		21,232,138.66
Interest on public debt	27,264,392.18	27,841,405.64	577,013.46	
Total	383,477,954.49	367,525,279.83	9,428,828.03	25,381,502.69
Net decrease				15,952,674.66
Surplus	2,341,674.29			72,144,934.87
Deficiency		69,803,260.58		

Classified according to the principal heads, the revenues and expenditures on account of the public debt were as given below:

	1893.	1894.	Increase.	Decrease.
REVENUES.				
Certificates of deposit	$165,737,000.00	$208,248,000.00	$42,511,000.00	
United States notes	91,116,000.00	90,960,000.00		$156,000.00
Treasury notes of 1890	87,238,106.00	51,791,190.00		35,446,916.00
National-bank notes	2,937,580.00	16,637,783.50	13,700,203.50	
Bonds	22,900.00	58,647,545.71	58,624,645.71	
Total	347,051,586.00	426,284,519.21	114,835,849.21	35,602,916.00
Net increase			79,232,933.21	
EXPENDITURES.				
Certificates of deposit	246,906,540.00	182,840,290.00		64,066,250.00
United States notes	91,116,000.00	90,960,000.00		156,000.00
Treasury notes of 1890	41,759,950.00	46,397,000.00	4,637,050.00	
National-bank notes	9,037,651.50	10,929,535.75	1,891,884.25	
Bonds and fractional currency	709,903.00	256,447.20		453,455.80
Total	389,530,044.50	331,383,272.95	6,528,934.25	64,675,705.80
Net increase				58,146,771.55
Revenues over expenditures		94,901,246.26	137,379,704.76	
Expenditures over revenues	42,478,458.50			

The aggregates on all accounts were therefore as follows:

	1893.	1894.	Increase.	Decrease.
REVENUES.				
Ordinary	$385,819,628.78	$297,722,019.25		$88,097,609.53
Account of debt	347,051,586.00	426,284,519.21	$79,232,933.21	
Total	732,871,214.78	724,006,538.46	79,232,933.21	88,097,609.53
Net decrease				8,864,676.32
EXPENDITURES.				
Ordinary	383,477,954.49	367,525,279.83		15,952,674.66
Account of debt	389,530,044.50	331,383,272.95		58,146,771.55
Total	773,007,998.99	698,908,552.78		74,099,446.21
Revenues over expenditures		25,097,985.68	65,234,769.89	
Expenditures over revenues	40,136,784.21			

As between the net ordinary receipts and disbursements and those on account of loans on the one hand and those on account of deposits for certificates and Treasury notes on the other, the aggregates are divided thus:

	1893.	1894.	Increase.	Decrease.
ORDINARY AND LOANS.				
Revenues	$479,896,108.78	$463,967,348.46		$15,928,760.32
Expenditures	484,341,508.99	469,671,262.78		14,670,246.21

STATE OF THE TREASURY.

The balance standing charged to the Treasurer on the books of the Department at the close of business on June 30, 1893, was $738,467,555.07. Adding thereto the receipts for the year from all sources, which amounted to $724,006,538.46, as above stated, gives $1,462,474,093.53 as the total to be accounted for, and deducting from this $698,908,552.78, the aggregate expenditures for the year, leaves $763,565,540.75, the balance on June 30, 1894.

In addition to this accountability to the Department, the Treasurer had liabilities on his agency account, arising from the postal revenues, disbursing officers' balances, the 5 per cent fund for the redemption of national-bank notes, and from other sources. These amounted to $37,119,930.64 at the former date and to $40,268,751.34 at the latter. The sums of $454,322.29 and $1,020,461.22 had also been received at the two dates, respectively, which had not yet been covered by warrant or charged to the Treasurer by the Department. The total liabilities of the Treasury were therefore as follows:

Account.	June 30, 1893.	June 30, 1894.
General	$738,467,555.07	$763,565,540.75
Agency	37,119,930.64	40,268,751.34
Uncovered moneys	454,322.29	1,020,461.22
Total	776,041,808.00	804,854,753.31

Against these liabilities there were held in the several offices of the Treasury and Mint the sums of money and securities exhibited in the usual tables in the appendix, which, together with the other authorized items of credit, may be summarized thus:

Description.	June 30, 1893.	June 30, 1894.
Gold coin and bullion	$189,075,634.59	$131,316,470.70
Silver coin and bullion	492,696,226.82	513,174,338.37
Notes and certificates	44,222,765.28	115,135,264.24
Minor coin and fractional currency	607,882.83	1,356,950.93
Deposits in national banks	14,387,107.32	14,314,529.53
Bonds and interest paid	5,549,038.74	13,005.73
Deposits with States	28,101,644.91	28,101,644.91
Unavailable funds	1,393,822.88	1,393,822.88
Unpaid loss on recoinage	7,684.63	48,726.02
Total	776,041,808.00	804,854,753.31

By the foregoing the condition of the Treasury is reconciled at once with the accounts of the Department and with the results of the operations of the fiscal year.

The amount on deposit with the States is not carried on the Treasurer's books, and in the statements of assets contained in this report the unavailable funds and the loss on recoinage of uncurrent coins are also omitted, the liabilities on general account being correspondingly diminished. In summary form the true assets and liabilities are therefore given as follows:

	June 30, 1893.	June 30, 1894.
Assets	$746,538,555.58	$775,310,559.50
Liabilities:		
General account	709,418,724.94	735,041,808.16
Agency account	37,119,930.64	40,268,751.34
Total	746,538,655.58	775,310,559.50

While the proceeds of the revenues from all sources are massed together in the vaults and the accounts, it is convenient, in arriving at the condition of the general fund, to set aside the gold, silver, and United States notes which are on deposit against outstanding certificates and Treasury notes from the other assets, which are available for ordinary expenditures. If the deposit business of the Treasury were considered a separate one, the assets and liabilities arising from it would be stated as follows:

	June 30, 1893.	June 30, 1894.
Assets:		
Gold coin and bullion	$94,041,189.00	$66,387,899.00
Silver dollars and bullion	478,147,731.00	489,732,921.00
United States notes	12,405,000.00	60,035,000.00
Total	584,593,920.00	616,155,820.00
Liabilities:		
Gold certificates	94,041,189.00	66,387,899.00
Silver certificates	330,957,504.00	337,148,504.00
Currency certificates	12,405,000.00	60,035,000.00
Treasury notes of 1890	147,190,227.00	152,584,417.00
Total	584,593,920.00	616,155,820.00

The assets and liabilities on account of the general fund would appear thus:

	June 30, 1893.	June 30, 1894.
Assets:		
Gold coin and bullion	$95,034,445.59	$64,928,571.70
Silver coin and bullion	14,548,495.82	23,441,417.37
Notes and certificates	31,817,765.28	55,100,264.24
Minor coin and fractional currency	607,882.83	1,356,950.93
Deposits in national banks	14,387,107.32	14,314,529.53
Bonds and interest paid	5,549,038.74	13,005.73
Total	161,944,735.58	159,154,739.50
Liabilities:		
Agency account	37,119,930.64	40,268,751.34
Balance general account	124,824,804.94	118,885,988.16
Total	161,944,735.58	159,154,739.50

In former reports there have appeared tables showing the amounts of the different kinds of money in the Treasury, but not of the other assets, at the end of each month for a series of years. These tables have now been extended to include all the assets, as well as the liabilities, so that in their present shape, as they will be found in the appendix, they afford a complete view of the condition of the Treasury at intervals of a month since June, 1878. Several forms of statement having been currently in use during the period, differing chiefly in details of arrangement and in the scope of the obligations admitted as liabilities, it has been deemed proper, with a view to convenience of reference and comparison, to follow a uniform method of treatment. In the present tabulation, therefore, the form which has for some time been employed in the monthly debt statement has been adhered to throughout.

In consequence of the insufficiency of the revenues to meet the expenditures the Treasury has been drained of its available resources, and the

difficulties produced by this condition have been increased by the unavoidable impairment of the gold reserve. In proportion, however, to the total net cash balance the reserve was well kept up so long as it was exempt from any direct inroads upon itself. To the end of 1893 it maintained, in fact, an increasing ratio to the general balance in the Treasury, being materially aided by the voluntary contributions of gold from the banks in exchange for paper currency. Even when the supply of paper had become so reduced that the Treasury was obliged to pay out large sums of gold in the ordinary disbursements, there was no consequent diminution of the reserve, the coin being freely returned in the revenues. A good part of the gold imported during the months of August and September, 1893, also found its way into the Treasury.

Early in January, however, it became apparent that extraordinary measures must be resorted to for the rehabilitation of the reserve. When this necessity came to be fully recognized, although there were no considerable withdrawals of gold in redemption of notes, a less proportion of the coin paid out in the disbursements was returned, and the decrease of the reserve became more rapid. The proceeds of the loan of $50,000,000 in 5 per cent ten-year bonds, which was then offered, were as follows:

Gold coin	$52,850,264.24
Gold certificates	5,810,420.00
Other kinds of money	233.39
Total	58,660,917.63

The amount realized was divided on account of principal, premium, and accrued interest in the following proportions:

Principal	$50,000,000.00
Premium	8,633,295.71
Accrued interest	27,621.92
Total	58,660,917.63

From the varied character of the operations going on concurrently, it is impossible to state exactly the net result of the sale of bonds. During the month of February, however, while the proceeds of the sale were coming in, there being within the same period an excess of $7,000,000 of payments over ordinary receipts, the net assets of the Treasury increased from $125,060,971 to $177,165,927. So far as the gold reserve was concerned, the gross receipts of nearly $58,700,000 in gold and gold certificates from the loan were offset, in part, by the redemption, within the month, of $19,200,000 of United States notes and Treasury notes in gold, leaving a net gain of $39,500,000. A further gain of about $1,500,000 from ordinary sources brought the reserve up from $65,650,175 to $106,527,068.

During the succeeding months, till the end of the first week in August, the gold reserve was adversely affected by the combined influences of deficient revenues and withdrawals for export. The movement abroad was stimulated, too, by the necessity which the Treasury was under of furnishing exporters new full-weight coin, the supply of pieces that had been in circulation and become somewhat abraded having been exhausted in the earlier part of the season. With the cessation of exports the reserve began once more to increase, notwithstanding the gradual diminution of the available balance.

The following table shows the total amount of gold in the Treasury, the amount of gold certificates in circulation, the net gold in the Treasury, the net balance or excess of assets over demand liabilities, and the net assets or assets in excess of outstanding certificates and Treasury notes, at intervals of three times a month from January, 1893, to October, 1894:

Date.	Total gold in Treasury.	Gold certificates in circulation.	Net gold in Treasury.	Net balance.	Net assets.
1893.					
January 10	$237,448,372	$117,750,679	$119,697,693	$131,301,178	$174,071,246

October 31	125,613,896	64,252,069	61,361,827	107,340,146	147,059,591

The lowest point touched by the gold reserve was $52,189,500, on August 7, 1894.

In the absence of a complete record of the receipts of the different kinds of money, the following statement showing the totals and the percentages of the several classes paid into the subtreasury in New York for customs, during the same period as that covered by the last table, is presented:

Month.	Receipts.	Gold coin.	Silver coin.	Gold certificates.	Silver certificates.	United States notes.	Treasury notes of 1890.
1893.		*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*	*Per cent.*

Prior to July, 1892, the gold reserve was but little affected by withdrawals of coin. There had never been any considerable demand for the redemption of notes. Even in seasons when exports of gold were heavy the metal was furnished by bankers directly from their vaults or was obtained from the Treasury for gold certificates, of course without impairment to the reserve. Such insignificant losses as were sustained by the Treasury came generally toward the last of the exporting movement, when bankers' supplies of coin and certificates had become reduced. During the last two years, however, the Treasury has been called upon to furnish nearly the whole of the requirements for exportation. Besides, there have recently been considerable withdrawals on United States notes and Treasury notes for other uses. Upwards of nineteen millions was taken in February last, as already stated, presumably for application in payment of subscriptions to the loan issued during that month.

The following table shows the amounts of United States notes and Treasury notes redeemed in gold during each month, from October, 1891, when the first redemption of Treasury notes occurred, to September, 1894, and also the exports of gold:

Month.	United States notes.	Treasury notes of 1890.	Total.	Exports of gold.
1891.				
October	$481,249	$281,810	$763,059	$809,595

The total redemption of notes in gold and the gross exports of that metal during each fiscal year since the resumption of specie payments are shown below:

Fiscal year.	United States notes.	Treasury notes of 1890.	Total.	Exports of gold.
1879	$7,976,698		$7,976,698	$4,587,614
1880	3,780,638		3,780,638	3,639,025
1881	271,750		271,750	2,565,132
1882	40,000		40,000	32,587,880
1883	75,000		75,000	11,600,888
1884	590,000		590,000	41,081,957
1885	2,222,000		2,222,000	8,477,892
1886	6,863,699		6,863,699	42,952,191
1887	4,224,073		4,224,073	9,701,187
1888	692,596		692,596	18,376,234
1889	730,143		730,143	59,952,285
1890	732,386		732,386	17,274,491
1891	5,986,070		5,986,070	86,362,554
1892	5,352,243	$3,773,600	9,125,843	50,195,327
1893	55,319,125	46,781,220	102,100,345	108,680,844
1894	68,242,408	16,599,742	84,842,150	76,978,061
1895 (3 months)	18,213,748	1,388,576	19,602,324	19,586,329
Total	181,312,577	68,543,138	249,855,715	594,599,991

THE PUBLIC DEBT.

Two important events affecting the condition of the public debt occurred during the year—the issue of $50,000,000 of 5 per cent bonds to replenish the gold reserve, and the stoppage of the purchase of silver bullion with Treasury notes. A further increase of $4,790 in the principal of the interest-bearing debt was produced by the conversion of interest on refunding certificates into 4 per cent bonds.

As given in the statement published monthly, the condition of the debt on June 30, 1893 and 1894, was as follows:

Class.	June 30, 1893.	June 30, 1894.
Interest-bearing loans	$585,037,100.00	$635,041,890.00
Matured loans	2,094,060.26	1,851,240.26
Old demand notes	55,647.50	54,847.50
United States notes	346,681,016.00	346,681,016.00
Fractional currency, estimated	6,900,504.62	6,897,137.42
National-bank notes, redemption account	20,663,437.75	26,371,685.50
Treasury notes of 1890	147,190,227.00	152,584,417.00
Certificates of deposit	437,363,693.00	462,771,403.00
Total	1,545,985,686.13	1,632,253,636.68

With respect to conditions of payment the debt may be classified under five general heads, as shown below:

Condition of payment.	June 30, 1893.	June 30, 1894.
At maturity, future dates	$559,672,600.00	$609,677,390.00
At option of the United States	25,364,500.00	25,364,500.00
On demand, without reissue	29,713,650.13	35,174,910.68
On demand, for reissue	493,871,243.00	499,265,433.00
On demand, out of deposits	437,363,693.00	462,771,403.00
Total	1,545,985,686.13	1,632,253,636.68

The Treasury notes, which in this list are classed with the United States notes as reissuable, are, however, subject to cancellation and retirement when redeemed in silver dollars coined under the act of July 14, 1890. In some respects, therefore, they have more resemblance to silver certificates, but they can not be issued upon deposits of silver dollars, although the dollars paid out in their redemption may afterwards be deposited for silver certificates.

Prior to August, 1893, the Treasury had been able to provide for the redemption of Treasury notes in silver dollars out of the holdings of free silver, so that there had not been, up to that time, any impairment of the total amount of the silver fund accumulated under the act. On the 3d of that month, however, the silver dollars and bullion in the Treasury had become reduced to the amount required by law to be retained for the payment of outstanding Treasury notes and certificates, and the demand for the redemption of notes continuing in consequence of the scarcity of small denominations of currency, it became necessary to draw upon the dollars coined especially for that purpose. The silver fund being thus impaired, the notes so redeemed were canceled, in order to preserve the required equality between the silver in the Treasury and the notes outstanding. The total amount of the notes retired in this way, up to October 31, was $4,790,434.

THE CURRENCY.

According to the revised estimates the stock of gold, silver, and paper money in the United States on June 30, 1893 and 1894, was composed as follows:

Kind.	June 30, 1893.	June 30, 1894.
Gold coin	$519,156,102	$582,512,083
Gold bullion	78,54.,583	44,781,118
Silver dollars	419,332,450	419,333,208
Fractional silver coin	77,415,123	76,249,925
Silver bullion	119,113,911	128,764,624
Total coin and bullion	1,213,559,169	1,251,640,958
United States notes	346,681,016	346,681,016
Treasury notes of 1890	147,190,227	152,584,417
National-bank notes	178,713,872	207,353,244
Gold certificates	94,041,189	66,387,899
Silver certificates	330,957,504	337,148,504
Currency certificates	12,405,000	60,035,000
Total paper currency	1,109,988,808	1,170,190,080
Aggregate	2,323,547,977	2,421,831,038

The estimated effective stock of money, which is arrived at by eliminating from the list of paper issues the certificates of deposit and Treasury notes, as merely representative, on June 30 in each of the last five years, was as follows:

Kind.	1890.	1891.	1892.	1893.	1894.
Gold	$695,563,029	$646,582,852	$664,275,335	$597,697,685	$627,293,201
Silver	463,211,919	522,277,740	570,313,544	615,861,484	624,347,757
Notes	532,651,791	514,608,990	519,364,866	525,394,888	554,034,260
Total	1,691,426,739	1,683,469,582	1,753,953,745	1,738,954,057	1,805,675,218

The following table, compiled from the official records of imports and exports and the monthly estimates of the total stock of gold, exhibits the gains and losses of that metal during the fifteen months ending with September:

Month.	Net imports.	Net exports.	Net production.	Net consumption.	Increase.	Decrease.
1893.						
July	$5,776,401		$5,858,369		$11,634,770	
August	40,622,529		1,543,108		42,165,637	
September	5,242,083		6,374,257		11,616,340	
October	1,072,919		2,817,052		3,889,971	
November	4,139,832		644,456		4,784,288	
December		$1,908,300	2,634,751		726,451	
1894.						
January		573,790	3,690,710		3,116,920	
February		1,068,335	5,538,005		4,269,670	
March		2,929,241	1,194,062			$1,735,179
April		9,402,110	4,931,300			4,470,810
May		23,124,058		$96,165		23,220,223
June		22,376,872	6,601,328			15,775,544
July		12,823,572	3,758,561			9,065,011
August		1,935,303	202,345			1,732,958
September	418,118		5,080,431		5,498,549	
Total	57,271,882	76,141,581	50,668,735	96,165	87,702,596	55,999,725
Net		18,869,699	50,572,570		31,702,871	

Since the repeal of the clauses in the act of July 14, 1890, requiring the purchase of silver bullion by the issue of Treasury notes, the monetary stock of silver has been affected mainly by the operations of the mint upon the subsidiary coinage. Consequently, since November 1, 1893, the date of the repeal, the stock of this metal has practically remained stationary. The volume of United States notes being fixed by law, and the Treasury notes issued under the act of 1890 being considered merely representative of silver, the variations in the supply of notes are confined to the national-bank circulation. After a rapid expansion of $30,000,000, during July, August, and September, 1893, the changes in this medium, too, became unimportant.

In the following table are given the net exports, the estimated net production, and the consequent increase and decrease in the monetary stock of silver, together with the increase and decrease of national-bank notes, during the fifteen months ending with September:

Month.	Silver.				Notes.	
	Net exports.	Net production.	Increase.	Decrease.	Increase.	Decrease.
1893.						
July	$4,007,976	$4,419,557	$411,581		$5,041,275

THE CIRCULATION.

As between the Treasury and the circulation, on June 30 in each of the last two years, the distribution of the monetary stock of the country, according to the revised estimates of the Department, was as follows:

Kind.	In Treasury and mints.		In circulation.	
	1893.	1894.	1893.	1894.
Gold coin	$110,620,439	$86,455,197	$408,535,663	$496,056,886
Gold bullion	78,541,583	44,781,118		
Silver dollars	362,402,777	368,160,173	56,929,673	51,173,035
Fractional silver coin	11,945,257	17,738,968	65,469,866	58,510,957
Silver bullion	118,968,327	128,666,824	145,584	97,800
Total coin and bullion	682,478,383	645,802,280	531,080,786	605,838,678
United States notes	27,621,590	80,091,414	319,059,426	266,589,602
Treasury notes of 1890	6,334,613	17,902,988	140,855,614	134,681,429
National-bank notes	4,043,906	6,635,044	174,669,966	200,718,200
Gold certificates	1,399,000	48,050	92,642,189	66,339,849
Silver certificates	4,133,656	10,157,768	326,823,848	326,990,736
Currency certificates	690,000	300,000	11,715,000	59,735,000
Total paper	44,222,765	115,135,264	1,065,766,043	1,055,054,816
Aggregate	726,701,148	760,937,544	1,596,846,829	1,660,893,494

The actual and virtual division of the effective stock of gold, silver, and notes, as determined by the possession of the metals and paper themselves, or of the certificates and Treasury notes which are their representatives, is shown below:

Kind.	In Treasury and mints.	In circulation.	Total stock.
June 30, 1893:			
Gold	$96,519,833	$501,177,852	$597,697,685
Silver	25,636,899	590,224,585	615,861,484
Notes	19,950,496	505,444,392	525,394,888
Total	142,107,228	1,596,846,829	1,738,954,057
June 30, 1894:			
Gold	64,896,466	562,396,735	627,293,201
Silver	52,893,800	571,453,957	624,347,757
Notes	26,991,458	527,042,802	554,034,260
Total	144,781,724	1,660,893,494	1,805,675,218

In the following table are shown the changes from month to month in the amounts of gold and of silver and notes in the circulation, or represented therein by certificates or Treasury notes, in the fifteen months ending with September:

Month.	Gold.		Silver and notes.		Total.	
	Increase.	Decrease.	Increase.	Decrease.	Increase.	Decrease.

ISSUE AND REDEMPTION OF CURRENCY.

Since the Government began the issue of paper money, the amount of new pieces put in circulation during the last fiscal year has been exceeded in any like period but once, in 1892, and the amount redeemed, but once, in 1893. Including national-bank notes, the issues of the year, however, exceeded the redemptions by upwards of $60,000,000. In consequence, the total paper circulation of the country reached at the end of May last the highest point ever attained, the amount of all issues then outstanding—exclusive of fractional currency, of which a considerable remnant is still in existence—being $1,175,054,480. Since then there has been a slight contraction, caused chiefly by the gradual redemption and retirement of gold certificates, the issue of which was suspended, as required by law, when the gold reserve of the Treasury fell below $100,000,000.

The following table shows the amounts of each denomination of all kinds of paper money, inclusive of national-bank notes, issued and redeemed during the year, the total issued and redeemed, and the amount outstanding on June 30:

Denomination.	Issued during year.	Total issued.	Redeemed during year.	Total redeemed.	Outstanding.
One dollar	$19,913,190	$332,241,974	$21,302,589	$293,721,793.70	$38,520,180.30
Two dollars	12,496,000	283,418,086	15,549,516	255,060,702.80	28,357,383.20
Five dollars	84,318,760	1,371,678,220	93,046,905	1,135,911,881.50	235,766,338.50
Ten dollars	90,160,460	1,357,523,310	93,440,930	1,061,569,624.00	295,953,686.00
Twenty dollars	71,262,160	1,000,294,780	60,992,840	760,058,880.00	240,235,900.00
Fifty dollars	9,087,550	293,468,850	10,223,250	250,737,485.00	42,731,365.00
One hundred dollars	27,264,900	443,348,300	16,730,200	358,151,030.00	85,197,270.00
Five hundred dollars		289,209,500	5,830,500	272,007,500.00	17,202,000.00
One thousand dollars	48,920,000	621,253,000	15,520,000	530,310,500.00	90,942,500.00
Five thousand dollars	290,000	694,685,000	5,925,000	682,090,000.00	12,595,000.00
Ten thousand dollars	77,600,000	1,660,280,000	42,290,000	1,577,890,000.00	82,390,000.00
Total	441,313,020	8,347,401,020	380,851,730	7,177,509,397.00	1,169,891,623.00
Unknown, destroyed					1,000,009.00
Net					1,168,891,623.00

Recent operations of the Treasury in preparing and distributing the supplies of currency demanded by the public have been conducted with much less difficulty than had formerly been encountered. Increased facilities for the manufacture of the notes have enabled the Department easily to keep pace in the work of issuing with the demands for redemption. Such embarrassments as have been felt were occasioned chiefly by the narrow margin of the available resources of the Treasury, which has made it necessary for the greater part of the time to destroy old material before new could be delivered. The greater ease of the currency situation, growing out of the unusually large supply and a more general distribution throughout the country, has also lessened the strain upon the Treasury. A considerable share of the autumn demand for small notes has been supplied this season by local bankers, without assistance either from their city correspondents or the Treasury, and to that extent the Treasury has been relieved, while the metropolitan financial institutions have found the opportunity to convert a part of their paper holdings into large denominations. As a result of this change in conditions, the proportion of small notes, which for some time had been steadily increasing, fell off during the past year both relatively to the whole circulation and in the aggregate.

The amounts of the denominations of twenty dollars and under and of fifty dollars and over, of all kinds of paper money outstanding at the close of the last four fiscal years, were as follows:

Denomination.	1891.	1892.	1893.	1894.
Twenty dollars and under	$765,475,318	$814,171,490	$845,015,698	$838,833,488
Fifty dollars and over	290,941,635	326,254,685	264,414,635	331,058,135
Total	1,056,416,953	1,140,426,175	1,109,430,353	1,169,891,623

THE COINAGE.

The following table shows the amounts of uncurrent gold and silver coins transferred during the fiscal year from the Treasury to the mint to be recoined, together with the loss arising from their conversion into bullion:

Denomination.	Amount.	Loss.
Double eagles	$546,020.00	.....
Eagles	318,180.00	.....
Half eagles	346,225.00	.....
Quarter eagles	139,957.50	.....
Three-dollar pieces	149,547.00	.....
One-dollar pieces	141.00	.....
Total gold	1,500,070.50	$6,333.02
Standard dollars	14,350.00	.....
50-cent pieces	4,284,426.50	.....
25-cent pieces	2,257,913.00	.....
20-cent pieces	951.80	.....
10-cent pieces	621,012.00	.....
5-cent pieces	5,483.80	.....
3-cent pieces	335.07	.....
Total silver	7,184,472.17	259,719.12
Aggregate	8,684,542.67	266,052.14

There was also transferred to the mint at Philadelphia $118,605 in minor coin to be cleaned and reissued.

During the past three fiscal years worn and abraded silver coins, mostly 25 and 50 cent pieces, amounting to upward of $22,000,000, were withdrawn from circulation and melted. The fresh coinage for which the product furnished material has brought about a marked improvement in this part of the currency.

The management of the Columbian Exposition having finally declined to defray the expense of recoining the Columbian half dollars which had found their way into the Treasury, they have been offered to the public at par in exchange for gold or gold certificates, and a considerable sum of them has been distributed in that manner. The Isabella quarters in the Treasury are retained for the requisitions of the board of lady managers of the exposition.

SPURIOUS AND FRAUDULENT ISSUES.

Counterfeit silver coins and paper currency of the following denominations and amounts were detected during the year at the offices of the Treasury:

Denomination.	Silver coins.	United States notes.	Treasury notes of 1890.	National-bank notes.	Silver certificates.	Fractional currency.	Total.
Ten cents						$0.50	$0.50
Twenty-five cents	$654.50					24.50	679.00
Fifty cents	504.50					204.00	708.50
One dollar	1,731.00	$9.00			$33.00		1,773.00
Two dollars		14.00	$2.00	$34.00	522.00		572.00
Five dollars		100.00		405.00	335.00		840.00
Ten dollars		670.00		570.00			1,240.00
Twenty dollars		1,040.00		560.00			1,600.00
Fifty dollars		1,550.00		200.00			1,750.00
One hundred dollars		600.00		800.00			1,400.00
Total	2,890.00	3,983.00	2.00	2,569.00	890.00	229.00	10,563.00

In comparison with the preceding year the total is $905 greater, the increase being in silver coins, United States notes, and silver certificates.

TRUST FUNDS.

United States bonds of the descriptions and amounts exhibited in the following table were held on June 30 in trust for national banks to secure circulating notes and public deposits:

Kind of bonds.	Rate of interest.	To secure circulation.	To secure public deposits.	Total.
	Per cent.			
Bonds issued to Pacific railroads	6	$15,292,000	$1,195,000	$16,487,000
Funded loan of 1891, continued	2	22,711,850	1,013,000	23,724,850
Funded loan of 1907	4	158,837,950	12,078,000	170,915,950
Loan of 1904	5	4,849,950	450,000	5,299,950
Total		201,691,750	14,736,000	216,427,750

There were $45,377,650 of bonds deposited and $20,274,150 with drawn as security for circulating notes, and $1,882,000 deposited and $2,393,000 withdrawn as security for public deposits.

The following-described bonds were held on June 30 for the sinking funds of the Pacific railroads.

Kind of bonds.	Rate of interest.	Union Pacific sinking fund.	Central Pacific sinking fund.	Total.
	Per cent.			
United States bonds issued to Pacific railroads	6	$74,000	$2,101,000	$2,175,000
Union Pacific first mortgage	6	6,366,000	939,000	7,305,000
Central Pacific first mortgage	6	3,409,000	1,710,000	5,119,000
Central Branch, Union Pacific	6	1,001,000	131,000	1,132,000
Eastern Division, Union Pacific	6	1,478,000	300,000	1,778,000
Sioux City and Pacific	6	716,500	32,000	748,500
Western Pacific	6	350,000	117,000	467,000
United States loan of 1904	5	235,750	.....	235,750
Total	.....	13,630,250	5,330,000	18,960,250

There was an increase of $1,552,250 during the year in face value of the bonds held, of which $1,139,750 was on account of the Union Pacific and $412,500 on account of the Central Pacific.

Bonds and stocks described as follows were held on June 30 in trust for the Secretary of the Interior as trustee of various Indian tribes:

Kind.	Registered.	Coupon.	Total.
Arkansas funded debt	.....	$168,000	$168,000.00
Florida State stocks	.....	42,000	42,000.00
Louisiana State stocks	.....	22,000	22,000.00
North Carolina State stocks	.....	38,000	38,000.00
South Carolina State stocks	.....	122,000	122,000.00
Tennessee State stocks	$191,666.66⅔	123,000	314,666.66⅔
Virginia State stocks	540,000.00	.....	540,000.00
Virginia, Chesapeake and Ohio Canal bonds	.....	1,000	1,000.00
United States bonds issued to Pacific railroads	231,000.00	.....	231,000.00
Total	962,666.66⅔	516,000	1,478,666.66⅔

Under the provisions of the second section of the act approved August 15, 1894, making appropriations for the Indian service, the face value of the State bonds and stocks included in the above list has been placed upon the books of the Treasury to the credit of the several tribes, to draw interest at the rate of 5 per cent per annum, and the bonds and stocks have become the property of the United States. The Pacific Railroad bonds in the list remain on deposit on account of the fund. Besides the obligations so transferred, the following-described bonds and stocks, also belonging to the United States, are held, as formerly, for the Secretary of the Treasury:

Kind.	Amount.
Arkansas State bonds	$625,000
Louisiana State bonds	15,000
North Carolina State bonds	20,000
Tennessee State bonds	21,000
Virginia State bonds	41,800
Chesapeake and Ohio Canal bonds, guaranteed by Virginia	12,000
South Carolina State stocks	3,000
Florida State stocks	90,000
Total	827,800

United States bonds are held, under various provisions of law, for private institutions as follows:

Institution.	Rate of interest.	Amount.
	Per cent.	
American Printing House for the Blind	4	$250,000
Manhattan Savings Institution	4	75,000
North American Commercial Company	2	50,000
Total		375,000

A special deposit of $70,000 of United States 4 per cent bonds is held in the name of the Comptroller of the Currency for the benefit of the Fidelity National Bank, of Cincinnati.

Captured bonds of the State of Louisiana, of the face value of $545,000, are held for the Secretary of War.

REDEMPTION OF NATIONAL-BANK NOTES.

After unimportant variations from month to month for a period of years the receipts of national-bank notes for redemption were suddenly reduced by the monetary stringency of last year to the lowest point they had ever reached since the establishment of the redemption agency at Washington. Upon the subsidence of the panic and the return of the currency to the banks the demands for redemption increased as suddenly as they had fallen off, assuming at once proportions that had not before been equaled in fifteen years, and that consequently exceeded the immediate capacities of the agency. As a large part of the notes presented were fit for further use, and as these, together with the new notes sent to the banks in place of those canceled and destroyed, were returned into circulation, there was no diminution of the amount outstanding. A change of regulation, whereby the senders were required to bear the charges of transportation, had the effect of cutting down the receipts somewhat. Nevertheless the total for the year, reaching $105,000,000, or more than half of the average circulation, was the heaviest since 1886, and, in proportion to the outstanding volume, the heaviest since the early years of redemptions in Washington.

In concluding this report, I take pleasure in renewing my acknowledgment of the faithfulness and ability which, during a period of unusual difficulty, the officers and employés associated with me have displayed in the performance of their responsible duties.

I have the honor to be, very respectfully, your obedient servant,

DANIEL N. MORGAN,
Treasurer of the United States.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

APPENDIX.

No. 1.—RECEIPTS AND EXPENDITURES FOR THE FISCAL YEAR 1894, AS SHOWN BY WARRANTS ISSUED.

Account.	Receipts.	Expenditures.	Repayments from unexpended appropriations.	Counter credits to appropriations.
Customs	$131,818,530.62	$20,316,268.90	$362,392.10	$54,388.11
Internal revenue	147,111,232.81	16,308,849.71	46,104.15	789.41

(No. 2.)

REPORT OF THE DIRECTOR OF THE MINT.

TREASURY DEPARTMENT,
BUREAU OF THE MINT,
Washington, D. C., November 24, 1894.

SIR: The following report, covering the operations of the mints and assay offices of the United States for the fiscal year ended June 30, 1894, being the twenty-second annual report of the Director of the Mint, is respectfully submitted.

DEPOSITS OF GOLD.

During the year the amount of original deposits of gold at the mints and assay offices of the United States, including gold contained in silver deposits and purchases, was 3,865,136.342 standard ounces, of the value of $71,909,513.31, showing an increase as compared with the previous fiscal year of 1,368,457.359 standard ounces, of the value of $25,459,671.81.

The value of the redeposits of gold during the year was $69,033,032.17, an increase over 1893 of $64,642,968.14, making an aggregate increase in the total amount deposited during the year of $90,102,639.95.

The following table exhibits the classification and weight in standard ounces of the deposits and redeposits of gold bullion at the mints and assay offices of the United States for the fiscal years 1893 and 1894, and the increase or decrease of each class during the latter year:

WEIGHT OF THE DEPOSITS AND REDEPOSITS OF GOLD BULLION AT THE MINTS AND ASSAY OFFICES OF THE UNITED STATES DURING THE FISCAL YEARS 1893 AND 1894, AND THE INCREASE OR DECREASE OF THE SAME DURING THE LATTER YEAR.

Classification of deposits of gold.	Fiscal year.		Increase, 1894.	Decrease, 1894.
	1893.	1894.		
Domestic production:	*Stand. ozs.*	*Stand. ozs.*	*Stand. ozs.*	*Stand. ozs.*

DEPOSITS AND PURCHASES OF SILVER.

The original deposits and purchases of silver, including silver contained in gold deposits, aggregated during the fiscal year ended June 30, 1894, 24,661,510.89 standard ounces, of the coining value of $28,697,030.81 in standard silver dollars, as compared with 72,388,449.92 standard ounces, of the value of $84,233,832.61, during the prior fiscal year, a decrease of 47,726,939.03 standard ounces, of the value of $55,536,801.80.

The redeposits of silver at the mints and assay offices during the fiscal year 1894 were 612,557.24 standard ounces, of the coinage value in silver dollars of $712,793.87, as compared with 747,255.84 standard ounces, of the value of $869,534.06, during the fiscal year 1893, showing a decrease in the value of $156,740.19.

The classification and value of the deposits, including redeposits, of silver bullion at the mints and assay offices of the United States during the fiscal years 1893 and 1894, and the increase or decrease in the latter year are shown in the following table:

WEIGHT OF THE DEPOSITS AND REDEPOSITS OF SILVER BULLION AT THE MINTS AND ASSAY OFFICES OF THE UNITED STATES DURING THE FISCAL YEARS 1893 AND 1894, AND THE INCREASE OR DECREASE OF THE SAME DURING THE LATTER YEAR.

Jewelers' bars, old plate, etc.	753,426.46	605,036.46		148,390.00
Total original deposits	84,233,832.61	28,697,030.81		55,536,801.80
Redeposits:				
Fine bars	46,286.83	322,736.94	$276,450.11	
Unparted bars	823,247.23	390,056.93		433,190.30
Total	85,103,366.67	29,409,824.68	276,450.11	55,969,992.10

The classification of silver bullion deposited at the mints and assay offices is not exact, as fine silver bars, the product of private refineries in the United States, delivered on purchases, were without exception classified as of domestic production, although frequently composed, to a great extent, of silver obtained from ore and bullion imported from Mexico and smelted and refined in the United States.

The domestic silver coin received and melted by the mints during the year consisted of $7,184,472.17 in worn and uncurrent coin transferred from the Treasury for recoinage, and $5,247.95 in mutilated coin

purchased at the mints as bullion, making the total amount of domestic silver coin received and melted by the mints during the year $7,189,720.12.

Of the fine gold bars redeposited, 3,235,212.931 standard ounces, of the value of $60,190,008.03, were bars that had accumulated in the United States assay office at New York since 1881, and which it became necessary to transfer to the mint at Philadelphia for conversion into coin to meet the demands upon the Treasury for gold coin. There were also 46,132.601 ounces of standard gold in fine bars and 3,121.513 ounces in standard bars, of the coining value of $916,355.61, refined at the mint at Carson, Nev., and transferred to the mint at San Francisco for coinage. The remainder, 4,580.355 ounces of standard gold of the coining value of $85,215.90, were large bars redeposited at the assay office at New York for conversion into small bars for use in the industrial arts.

The redeposits of 3,121.513 ounces of standard metal of the value of $58,074.66, represent the value of standard gold bullion on hand June 1, 1893, the date of the suspension of coinage operations at the mint at Carson, and which were transferred to the mint at San Francisco for conversion into coin.

The nominal or face value of uncurrent domestic gold coin received and melted by the mints and assay offices of the United States during the year was $2,105,984; of this sum $1,500,070.50 consisted of worn and uncurrent coin transferred by the Treasury to the mints for recoinage, and the remainder, $605,913.50, was mutilated and uncurrent coin received from individuals. The value of the total amount in new coins of the old and uncurrent gold coin received during the year was $2,093,615.46. The refined bullion classed as original deposits was the product of private refineries in the United States.

In the Appendix (p. 240) a table will be found showing the distribution of the amount of unrefined gold bullion deposited at the mints and assay offices of the United States during the year among the States and Territories that produced the same.

The coining value of gold and silver (exclusive of redeposits) received at the mints and assay offices of the United States each fiscal year from 1880, is shown in the following table:

VALUE OF THE GOLD AND SILVER (NOT INCLUDING REDEPOSITS) RECEIVED AT THE MINTS AND ASSAY OFFICES, 1880–1894.

Fiscal years.	Gold.	Silver (coining value).	Total value.
1880	$98,835,096	$34,640,522	$133,475,618
1881	130,833,102	30,791,146	161,624,248
1882	66,756,652	33,720,491	100,477,143
1883	46,347,106	36,869,854	83,216,940
1884	46,326,678	36,520,290	82,846,968
1885	52,894,075	36,789,774	89,683,849
1886	44,909,749	35,494,183	80,403,932
1887	68,223,072	47,756,918	115,979,990
1888	72,225,497	41,331,014	113,556,511

1892	61,131,460	83,177,666	144,309,126
1893	46,449,842	84,233,832	130,683,674
1894	71,909,513	28,697,031	100,606,544

COINAGE.

The coinage of gold and silver executed during the year by the mints at Philadelphia, San Francisco, and New Orleans, consisted of 27,697,578 pieces of the value of $105,499,810.80, while the minor coinage, which is by law confined to the Philadelphia Mint, consisted of 34,787,642 pieces of the value of $716,919.26.

The denominations and value of coinage executed were as follows:

Gold.	Pieces.	Value.
Double eagles	2,757,182	$55,143,640.00
Eagles	3,496,884	34,968,840.00
Half eagles	1,857,436	9,287,180.00
Quarter eagles	30,101	75,252.50
Total gold	8,141,603	99,474,912.50
Silver.	**Pieces.**	**Value.**
Standard silver dollars	758	$758.00
Half dollars	6,726,654	3,363,327.00
Quarter dollars	9,186,380	2,296,595.00
Dimes	3,642,183	364,218.30
Total silver	19,555,975	6,024,898.30
Minor coins.	**Pieces.**	**Value.**
Five-cent nickels	9,226,071	$461,303.55
One cent, bronze	25,561,571	255,615.71
Total minor coins	34,787,642	716,919.26
Total coinage	62,485,220	106,216,730.06

The gold coinage was the largest ever executed by the mints in any one year since the organization of the Mint.

The silver dollars coined during the fiscal year 1894 were made from bullion purchased under the act of July 14, 1890. The amount of bullion consumed in this coinage was 586.27 fine ounces, costing $530.99, giving a profit of $227.01, which has been paid into the Treasury.

Of the subsidiary silver coinage executed during the year, $6,018,872.60 were from bullion resulting from the melting of worn and uncurrent silver coin transferred from the Treasury for recoinage and $5,267.70 from silver bullion acquired under the provisions of section 3526 Revised Statutes of the United States.

During the year there were transferred from the Treasury to the mints for recoinage worn and uncurrent silver coin of the nominal value of $7,184,472.17, containing 5,565,770.36 ounces of standard silver of the coining value in new subsidiary silver coin of $6,924,753.05, showing a loss by wear of $259,719.12, which sum was reimbursed the Treasury from the appropriation for loss on recoinage of worn and uncurrent silver coin.

The amount and cost of silver bullion on hand July 1, 1893, available for the subsidiary silver coinage, the amount obtained by purchase and transfer, the amount used in coinage, wasted, and sold in sweeps dur-

ing the year, and the balance on hand July 1, 1894, are shown in the following table:

SILVER FOR SUBSIDIARY COINAGE, FISCAL YEAR 1894.

Stock.	Mint at Philadelphia.		Mint at San Francisco.	
	Fine ounces.	Cost.	Fine ounces.	Cost.

Subsidiary silver coin	28,947,461	19,555,217	.....	9,392,244	.....
Minor coin	60,707,430	34,787,642	.....	25,919,788	.....
Total	97,280,875	62,485,220	5,859,334	40,654,989	34,795,655

The following table shows by value the coinage executed at the mints of the United States during the fiscal years 1893 and 1894, and the increase or decrease of the same during the latter year:

Classification of coinage.	Fiscal years.		Increase, 1894.	Decrease, 1894.	Net increase, 1894.
	1893.	1894.			
Gold coin	$30,038,140.00	$99,474,912.50	$69,436,772.50		
Silver dollars	5,343,715.00	758.00		$5,342,957.00	
Subsidiary silver coin	7,217,220.90	6,024,140.30		1,193,080.60	
Minor coin	1,086,102.90	716,919.26		369,183.64	
Total	43,685,178.80	106,216,730.06	69,436,772.50	6,905,221.24	$62,531,551.26

The total coinage of silver dollars under the act of July 14, 1890, up to June 30, 1894, was $36,087,943, consuming 27,911,768.41 ounces fine, which cost $29,110,647.24.

The seigniorage on the same was $6,977,295.76.

From July 1 to November 1, 1894, 2,443,200 standard silver dollars containing 1,889,662.46 ounces fine, costing $1,656,435.73, were coined from bullion purchased under the same act, giving a seigniorage of $786,764.27, which has been covered into the Treasury.

The total number of silver dollars coined under the acts of February 28, 1878, July 14, 1890, and March 3, 1891, to November 1, 1894, is shown in the following statement:

COINAGE OF SILVER DOLLARS FROM FEBRUARY 28, 1878, TO NOVEMBER 1, 1894.

Coinage under acts of—	Amount.
February 28, 1878	$378,166,793
July 14, 1890	38,531,143
March 3, 1891	5,078,472
Total	421,776,408

Tables will be found in the Appendix (p. 256) to this report, giving the denominations and values of coins manufactured by the several mints during the fiscal year 1894, and during the calendar year 1893; also showing the coinage for each calendar year since the organization of the mint of the United States in 1792 to the close of the fiscal year 1894 (p. 320).

MINOR COINAGE.

The amount of minor coinage executed by the mint at Philadelphia during the fiscal year 1894 was $719,619.26, against $1,086,112.90 for the fiscal year 1893, a decrease of $369,183.64.

No minor coins were issued from the mint during the year to any of the following cities, viz: Washington, Boston, New York, Philadelphia, Baltimore, Cincinnati, Chicago, St. Louis, or New Orleans, as the amount of such coin, and especially of 5-cent nickel pieces, presented to the Treasury for redemption in lawful money showed them to be redundant. The coinage of both the 1-cent bronze pieces and the 5-cent nickel pieces was therefore suspended in April, 1894, and provisions made that when the supply of these coins then on hand at the mint at

Philadelphia had been exhausted in filling orders from cities other than those above named transfers of minor coins might be made from the surplus stock in the Treasury to the mint in such amounts as might be required to fill any orders received for the same.

The stock of 5-cent nickel pieces in the several subtreasuries would be ample to meet the requirements for some time to come but for the fact that many such pieces transferred to the mint at Philadelphia for cleaning and reissue are of old types and unfit for circulation.

These latter will be melted and recoined, as will other denominations of minor coins unfit for circulation.

It has recently been found necessary to resume the coinage of the 1-cent bronze piece for the reason that the stock on hand at the mint and in the Treasury was not sufficient to meet the demands for the same outside of the cities above mentioned.

If the mint at Philadelphia were made the sole redemption agency for minor coins, their issue could, it is believed, be confined to an amount sufficient to supply the demands, and no great redundancy of them would ever occur. Another advantage of this would be that none but coins in good condition would be paid out and complaints from this cause by the general public would not be heard.

The following table exhibits the distribution of minor coins during the fiscal year 1894:

State or Territory.	5-cent nickel.	1-cent bronze.	State or Territory.	5-cent nickel.	1-cent bronze.
Alabama	$718	$320	Montana	1,100	.....
Arizona	200	.....	Nebraska	3,955	1,145
Arkansas	755	245	New Hampshire	3,775	3,010
California	3,235	810	New Jersey	21,620	16,608
Colorado	2,940	260	New Mexico	60	20
Connecticut	7,610	4,740	New York	64,660	50,490
Delaware	60	50	North Carolina	1,090	735
District of Columbia	120	250	North Dakota	85	490
Florida	1,060	460	Ohio	18,262	13,450
Georgia	1,554	2,050	Oregon	620	260
Idaho	60	20	Pennsylvania	10,510	13,660
Illinois	48,341	40,110	Rhode Island	3,880	4,420
Indian Territory	1,000	50	South Carolina	775	1,300
Indiana	5,605	6,475	South Dakota	740	695
Iowa	8,075	6,380	Tennessee	2,085	920
Kansas	5,965	4,615	Texas	13,105	1,380
Kentucky	33,370	2,370	Vermont	1,220	1,710
Louisiana	2,150	100	Virginia	785	1,375
Maine	1,090	3,150	Washington	95	410
Maryland	1,280	440	West Virginia	2,170	1,515
Massachusetts	13,820	30,370	Wisconsin	12,365	11,665
Michigan	6,910	7,195	Wyoming	80	.....
Minnesota	3,640	6,581	Total	322,930	250,089
Mississippi	1,175	435			
Missouri	9,160	7,355			

The following table exhibits several types and denominations of minor coins issued by the mint at Philadelphia since its establishment, the amount remelted, and the amount apparently outstanding June 30, 1894:

Denominations.	Coined.	Remelted.	Outstanding June 30, 1894.
Copper cents	$1,562,887.44	$376,314.53	$1,186,572.91
Copper half-cents*	39,926.11		39,926.11
Copper-nickel cents	2,007,720.00	764,805.19	1,242,914.81
Bronze cents	7,351,433.35	40,561.13	7,310,872.22
Bronze 2-cent pieces	912,020.00	320,156.58	591,863.42
Nickel 3-cent pieces	905,768.52	233,720.92	672,047.60
Nickel 5-cent pieces	13,456,420.95	169,545.60	13,286,875.35
Total	26,236,176.37	1,905,103.95	24,331,072.42

* There is no record of the melting of any old copper half-cents, but it is believed that few, if any, are now in circulation.

An avoirdupois pound of 1-cent bronze blanks will coin $1.46, and an avoirdupois pound of nickel blanks will coin $4.43.

GOLD AND SILVER BARS MANUFACTURED.

During the year, in addition to the coinage executed there were manufactured by the mints and assay offices gold and silver bars of the value of $56,315,566.71.

BARS MANUFACTURED, FISCAL YEAR 1894.

Description.	Value.
Gold	$48,932,884.12
Silver	7,382,682.59
Total	56,315,566.71

DIES AND MEDALS MANUFACTURED.

The number and description of the coinage and medal dies prepared by the engraving department of the mint at Philadelphia are shown in following tables:

DIES MANUFACTURED, 1894.

Description.	Number.
Gold coinage	400
Silver coinage	424
Minor coinage	278
Proof coinage	28
Annual assay medal	2
Columbian award (obverse)	1
Indian peace	1
Franklin Pierce, Presidential reproduction	1
Total	1,135

MEDALS MANUFACTURED, 1894.

Description.	Number.
Gold	84
Silver	382
Bronze	3,916
Total	4,382

A detailed list of the medals struck during the year appears in the Appendix (p. 266).

The number of proof sets, single proof coins, and medals sold during the year is exhibited in the following table:

MEDALS AND PROOF COINS MANUFACTURED AND SOLD, 1894.

Medals.	Number.	Value.
Gold	87	$4,135.84
Silver	344	632.07
Bronze	794	545.32
Total	1,225	5,313.23
Proof sets:		
Gold	36	1,386.00
Silver	757	1,892.50
Minor	1,240	99.20
Total	2,033	3,377.70
Proof pieces:		
Single gold pieces	91	332.50

GOLD BARS EXCHANGED FOR GOLD COIN.

The value of gold bars, for use in the industrial arts, exchanged for gold coin during the last fiscal year at the mint at Philadelphia and assay office at New York, was $3,508,899.10, as shown in the following table:

FINE GOLD BARS EXCHANGED FOR GOLD COIN, 1894

Months.	Philadelphia.	New York.	Total.
1893.			
July	$55,340.78	$180,103.19	$235,443.97
August	25,295.61	108,053.75	133,349.36
September	45,374.71	220,677.10	266,051.81
October	35,128.26	267,899.64	303,027.90
November	45,264.05	352,729.75	397,993.80
December	25,094.46	160,248.91	185,343.37
1894.

SILVER PURCHASES.

From July 1 to November 1, 1893, the date of the repeal of the purchasing clause of the act of July 14, 1890, silver bullion was purchased by the Secretary of the Treasury under the provisions of said act. Offers for the sale of silver in lots of 10,000 ounces and over were received and considered on Mondays, Wednesdays, and Fridays of each week, and the superintendent of the mints at Philadelphia, New Orleans, San Francisco, and Carson were authorized to purchase lots of less than 10,000 ounces, at a price fixed from time to time by the Director of the Mint, with the approval of the Secretary of the Treasury, the price being determined in accordance with the prevailing market rate. The amount of silver purchased under the provisions of the act of July 14, 1890, from July 1 to November 1, 1894, aggregated 11,917,658.78 ounces fine, costing $8,715,521.32. The average cost per ounce fine was $0.7313, at which rate the bullion value of the silver dollar is $0.5656.

The total amount of silver purchased under the act of July 14, 1890, from August 13, 1890, the date the act went into effect, to November 1, 1893, the date of the repeal of its purchasing clause, aggregated 168,674,682.53 ounces fine, costing $155,931,002.25, the coining value of the same in silver dollars being $218,084,438. Of the amount purchased there was used up to November 1, 1894, in the coinage of 38,531,143 silver dollars 29,801,430.88 ounces fine, costing $30,767,082.97.

The amount wasted by the operative officers of the mints and sold in sweeps was 63,570.37 ounces fine, costing $62,535.64, leaving a balance on hand November 1, 1894, of 138,809,681.28 ounces fine, costing $125,101,383.64, the coining value of the same in silver dollars being 179,471,103, and which would give a seignorage of $54,369,719.36.

The quantity and cost of silver purchased from July 1 to November 1, 1893, at each of the coinage mints is shown in the following tables:

DELIVERIES ON PURCHASES OF SILVER UNDER ACT OF JULY 14 1890, FROM JULY 1, TO NOVEMBER 1, 1893.

Mints.	Fine ounces.	Cost.
Philadelphia	8,997,601.00	$6,581,593.83
San Francisco	1,231,351.70	901,488.47
New Orleans	1,386,116.55	1,011,543.41
Carson	302,589.53	220,895.61
Total	11,917,658.78	8,715,521.32

BULLION DELIVERED ON SILVER PURCHASES UNDER ACT OF JULY 14, 1890, FOR THE MONTHS OF JULY, AUGUST, SEPTEMBER, OCTOBER, AND NOVEMBER, 1893.

Mode of acquisition.	Fine ounces.	Cost.
Purchased by Treasury Department (lots of over 10,000 ounces)	11,074,042.65	$8,100,281.25
Purchased at mints (lots of less than 10,000 ounces)	770,939.94	562,152.58
Partings, bar charges, and fractions	72,676.19	53,087.49
Total	11,917,658.78	8,715,521.32

From 1873 to November 1, 1893, the date of the repeal of the purchasing clause of the act of July 14, 1890, the Government of the United States was a large purchaser of silver.

The amount purchased, the cost thereof, the average price paid, and the acts of Congress under which the purchases were made are shown in the following statement:

Act authorizing.	Fine ounces.	Cost.	Average cost per ounce.
February 12, 1873	5,434,282	$7,152,564	$1.314
January 14, 1875	31,603,906	37,571,148	1.189
February 28, 1878	291,272,019	308,279,261	1.058
July 14, 1890	168,674,682	155,931,002	.924
Total	496,984,889	508,933,975	1.024

The following tables exhibit the amount and cost of silver bullion purchased each year under the acts of February 28, 1878, and July 14, 1890, the average price paid, and the bullion value of the standard silver dollar.

AMOUNT, COST, AND AVERAGE PRICE PAID FOR SILVER BULLION PURCHASED, ALSO BULLION VALUE OF THE SILVER DOLLAR COINED UNDER ACT OF FEBRUARY 28, 1878.

Fiscal year.	Fine ounces.	Cost.	Average price per fine ounce.	Bullion value of a silver dollar.
1878	10,809,350.58	$13,023,268.96	$1.2048	$0.9318

BALANCE OF SILVER PURCHASED UNDER ACT OF JULY 14, 1890, ON HAND AT EACH MINT JUNE 30, 1894.

Mint.	Fine ounces.	Cost.
Philadelphia	118,992,118.11	$107,702,715.59
San Francisco	11,986,924.81	10,751,277.59
New Orleans	8,984,898.95	7,715,082.89
Carson	735,401.87	588,743.30
Total	140,699,343.74	126,757,819.37

The balance of silver bullion purchased under the act of July 14, 1890, on hand at each mint November 1, 1894, is exhibited in the following table:

Mint.	Fine ounces.	Cost.
Philadelphia	118,906,885.31	$107,625,569.26
San Francisco	11,205,752.93	10,050,631.19
New Orleans	7,961,641.17	6,836,439.89
Carson	735,401.87	588,743.30
Total	138,809,681.28	125,101,383.64

Since November 1, 1893, the date of the repeal of the purchasing clause of the act of July 14, 1890, the silver contained in gold deposits, the small fractions of silver for return in fine bars, and the amount retained in payment of charges on silver deposits and mutilated domestic silver coin were purchased by the Mint for the subsidiary silver coinage, under the provisions of section 3526 of the Revised Statutes.

The total amount of silver purchased for the subsidiary coinage from November 1, 1893, to June 30, 1894, was 82,989.71 ounces fine, of the coining value in subsidiary coin of $114,725.70.

The quantity and cost of silver purchased from November 1, 1893, to June 30, 1894, at each mint for the subsidiary coinage is exhibited in the following table:

Mint.	Fine ounces.	Cost.
Philadelphia	58,322.60	$37,667.54
San Francisco	20,228.40	12,674.81
New Orleans	2,577.91	1,579.68
Carson	1,860.80	1,173.81
Total	82,989.71	53,095.84

COURSE OF SILVER.

On the 1st of July, 1893, the London quotation for silver .925 (British standard), was 33½ pence, equivalent to $0.7343 in United States money, for silver 1000 fine. The New York quotation on the same day fluctuated from 72 to 74 cents per ounce fine. After this date there was a gradual advance in the price, owing to the fact that large purchases continued to be made on Indian account, notwithstanding the mints of that country had been closed to deposits of silver for coinage on individual account, and from the further fact that for the first time China became an important buyer of bar silver and continued to purchase large amounts until near the close of the year.

The advance was uninterrupted until September 12, when the price in London for bars ready for immediate shipment was 34½ pence, equivalent to $0.7562 per ounce fine. At this date the New York quotation for fine bar silver ranged from 74⅛ to 76 cents per ounce. From this point the price declined, closing October 31, 1893, in London at 31½ pence, equivalent to 69 cents per ounce fine.

November 1, the date of the repeal of the purchasing clause of the act of July 14, 1890, the London price was 31½ pence, equivalent to 69 cents per ounce fine. From this date the price advanced, until on the 18th it had risen to 32¾ pence, equivalent to $0.71791 per ounce fine, but declined from this point, and closing on the 30th at 32 pence, equivalent to $0.7015 per ounce fine.

During the month of December, 1893, the London price ranged from 31½ to 32 5/16 pence, and the New York quotation from 68¾ to 70½ cents.

In January, 1894, the price commenced to fall, and continued to decline until March, when it had reached 27 pence in London, equivalent to $0.59187 per ounce fine, which is the lowest recorded price. After this the price gradually advanced, closing April 30 in London at 29⅛ pence, equivalent to $0.63845 per ounce fine. From this the price again declined, and the closing price in London June 30 was 28¾ pence, or 63 cents per ounce fine.

At the highest price (34⅞ pence) of silver during the fiscal year, the bullion value of the silver dollar was 59.13 cents, and at the lowest (27 dence) 45.77 cents. Since the close of the fiscal year the price has fluctuated in the London market from 28 7/16 to 30 7/16 pence, or from 62.338 to 66.722 cents per ounce fine.

The following table exhibits the value of the pure silver in a silver dollar, reckoned at the commercial price of silver bullion from $0.50 to $1.2929 (parity), per ounce fine:

Price of silver per fine ounce.	Value of pure silver in a silver dollar.	Price of silver per fine ounce.	Value of pure silver in a silver dollar.	Price of silver per fine ounce.	Value of pure silver in a silver dollar.

SEIGNIORAGE ON SILVER COINAGE.

The balance of profits on the coinage of silver on hand at the mints at the commencement of the fiscal year, July 1, 1893, was $201,759.62. The seigniorage on the coinage of silver dollars during the year amounted to $227.01, and on the subsidiary coinage to $2,729.10; a total of $2,956.11.

From the seigniorage there were paid during the year for expenses of distributing silver coin $2,638.85, and for reimbursements on silver wasted by the operative officers and for bullion sold in sweeps $673.24, The balance of profits on the coinage of silver on hand at the mints June 30, 1894, was $2,294.84.

Including the balance on hand at the mints July 1, 1878, the net profits on account of the coinage of silver from that date to June 30, 1894, aggregates $74,262,615.01.

The total seigniorage on the coinage of silver under the act of July 14, 1890, from August 13, 1890, to June 30, 1894, was $6,977,295.76; and from July 1 to November 1, 1894, $786,764.27; a total seigniorage under this act of $7 764,060.03.

A table will be found in the Appendix (p. 262), exhibiting the seigniorage on the silver coinage during the fiscal year at each mint, and the disposition of the same.

APPROPRIATIONS AND EXPENDITURES.

The amount specifically appropriated for the support of the mints and assay offices by the act making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ended June 30, 1894, aggregated $1,050,100.

It became necessary to obtain appropriations to supply deficiencies in the following appropriations for the fiscal year 1894:

For wages of workmen and adjusters at the mint at Philadelphia, $46,000.

For contingent expenses, mint at Philadelphia, $16,969.37.

For wages of workmen and adjusters, mint at New Orleans, $6,500.

And for freight on bullion and coin between mints and assay offices, $10,503.85.

The necessity for the additional appropriation for wages of workmen and adjusters at the Philadelphia Mint was due to the large gold coinage necessary to be done at that institution to meet the requirements of the Treasury. In order to do this, it was not only necessary to employ, temporarily, additional workmen and adjusters but to work a large portion of the force overtime.

The appropriation of $16,969.37 for contingent expenses was necessary to reimburse the Treasury for the amount allowed the coiner and melter and refiner for wastage in their gold and silver operations during the year, under the provisions of section 3542, Revised Statutes of the United States.

The deficiency in the appropriation for freight on bullion and coin between the mints and assay offices was due to the amount of gold bullion transferred from the United States assay office at New York and the increase in the deposits of gold bullion at the minor assay offices, which was transferred to the mint at Philadelphia for coinage, and also to the further fact that the gold bullion deposited at the mint at Carson since the suspension of the coinage operations at that institution had been transferred to the mint at San Francisco for coinage. In this connection it is proper to state that during the year the amount of gold bullion transferred from the assay office at New York to the mint at Philadelphia aggregated $50,207,000. The charges for transportation on the amount were $15,047.80, of which sum $12,536.80 were paid from the appropriation for contingent expenses of the mint at Philadelphia under section 3553, Revised Statutes of the United States, and the balance from the appropriation for freight on bullion and coin between the mints and assay offices, making the total amount paid for transportation of bullion $32,040.65.

The appropriation of $6,500 to supply a deficiency in the appropriation for wages of workmen and of adjusters at the mint at New Orleans was necessary to continue coinage operations at that institution during the month of June, and the recoinage of uncurrent subsidiary silver coin required to supply the demand of the Treasury.

The aggregate appropriations, including deficiencies, for the support of the mint service during the year amounted to $1,130,073.22.

The expenditures during the year from the appropriations aggregated $1,045,122.73, leaving an unexpended balance of $84,950.49. In addition to the expenditures from the regular appropriations there was expended from the general appropriation contained in the act of July 14, 1890, authorizing the purchase of silver bullion and for other purposes, the sum of $23,096.46. This expenditure was due to the weighing and counting of the large amounts of silver bullion and coin, incident to the change in the superintendency of the mint at Philadelphia; there was also expended from the same appropriation $393 for cablegrams from London, reporting the daily price of silver bullion. Adding to the expenditures from the specific appropriations the amount of $23,489.46, expended from the appropriation contained in the act of July 14, 1890, the total expenditures on account of the mint service for the year were $1,068,612.19.

The following table exhibits the appropriations and expenditures of the respective mints and assay offices, exclusive of the sum of $393 paid for cablegrams, as previously stated:

APPROPRIATIONS AND EXPENDITURES, 1894.

Total	36,310.00	32,879.20	3,430.80

The appropriations made by Congress for the support of the mints and assay offices during the fiscal year 1895 is shown in the following table:

APPROPRIATIONS FOR MINTS AND ASSAY OFFICES, 1895.

Institutions.	Salaries.	Wages of workmen.	Contingent expenses.	Total.
MINTS.				
Philadelphia	$41,550	$293,000	$75,000	$409,550
San Francisco	41,100	170,000	35,000	246,100
Carson	18,100	15,000	7,500	40,600
New Orleans	31,950	74,000	33,000	138,950
ASSAY OFFICES.				
New York	39,250	27,500	10,000	76,750
Denver	10,950	17,500	4,000	32,450
Helena	7,250	12,700	4,500	24,450
Boise	3,200	.....	8,000	11,200
Charlotte	2,750	.....	2,000	4,750
St. Louis	3,000	.....	2,400	5,400
Total	199,100	609,700	181,400	990,200

The estimates of the appropriations for the support of the mint service, including the office of the Director of the Mint, for the fiscal year 1896, submitted October 24, 1894, amounted to $1,065,210—$29,700 in excess of the appropriation for the current year.

The estimate of the appropriation for freight on bullion and coin between the mints and assay offices, which is increased from $9,000 to $30,000, makes up $21,000 of the increase.

The addition asked for is due to the largely increasing deposits of gold bullion at the United States mint at Denver and the United States assay office at Helena, Mont.

The increase asked for in the appropriation for wages of workmen and contingent expenses at these institutions is due to the same cause.

EARNINGS AND EXPENDITURES OF THE REFINERIES, OF THE COINAGE MINTS, AND OF THE ASSAY OFFICE AT NEW YORK.

The charges collected for the operations of parting and refining bullion during the fiscal year 1894 aggregated $147,591.92, exclusive of the amounts received from the sale of by-products, $14,197.71, which is not applicable to the payment of the expenses of parting and refining bullion, but is deposited and covered into the Treasury as a miscellaneous receipt.

The gross expenditures for the year on account of these operations amounted to $170,130.68, showing an excess of expenditures over charges collected of $22,538.76, deducting the amount realized from the sale of by-products, leaves the net excess of expenditures $8,341.05.

The charges collected for and the expenses of parting and refining bullion during the fiscal year 1894 are exhibited in the following table:

CHARGES COLLECTED AND EXPENDITURES FOR PARTING AND REFINING BULLION, 1894.

Institutions.	Charges collected.	Gross expenditures.	Net expenditures.
Mint at Philadelphia	$21,747.68	$20,549.80	$20,549.80
Mint at San Francisco	16,814.18	33,608.52	32,638.13
Mint at Carson	11,242.73	17,168.08	16,144.72
Mint at New Orleans	1,163.95	1,310.16	1,310.16
Assay office at New York	96,623.38	97,494.12	85,290.16
Total	147,591.92	170,130.68	155,932.97

EARNINGS AND EXPENDITURES OF THE MINTS AND ASSAY OFFICES.

The total earnings of the mints and assay offices during the fiscal year 1894, including amount of charges collected for parting and refinl ing bullion, aggregated $870,672.71.

The seigniorage on the coinage of silver during the year amounted to only $2,956.11 as against $1,559,362.41 for 1893.

The profits on minor coinage executed during the year amounted to $649,425.60, against $971,782.93 for the fiscal year 1893.

The total cost of the mint service during the year, including the wastage by the several operative officers, loss on sale of sweeps, and expenses of distributing minor coins, exceeded the earnings by $408,050.35.

In the Appendix (p. 260) a table will be found showing in detail the earnings and expenditures, classified under the proper heading, at each mint and assay office.

CLASSIFIED STATEMENT OF EXPENDITURES.

The expenditures of the mints and assay offices for supplies, salaries, and wages of workmen during the fiscal year 1894, will be found in the Appendix (p. 306). The consolidated expenditures are shown in the following table:

CONSOLIDATED TABULATED STATEMENT OF EXPENDITURES FOR SUPPLIES OF THE MINTS AND ASSAY OFFICES OF THE UNITED STATES FOR THE FISCAL YEAR ENDING JUNE 30, 1894.

IMPORTS AND EXPORTS OF THE PRECIOUS METALS.

GOLD.—During the fiscal year 1894 foreign gold bullion of the value of $14,489,341 was imported into the United States, of which amount $8,347,623 came from England, $2,357,565 from Germany, $1,210,757 from Mexico, $887,684 from France, $576,149 from Australia, $442,732 from Colombia, $295,044 from British Columbia, $126,254 from Nicaragua, and the remainder from various countries, principally from South and Central American States.

Foreign gold coins of the value of $27,168,886 were imported. Of this amount $7,676,617 came from France, $7,320,934 from England, $6,664,632 from Cuba, $3,120,874 from Germany, $1,392,838 from Australia, $734,711 from Quebec and Ontario, $116,823 from Mexico, $99,086 from West Indies, and the remainder from Central and South American States.

Foreign gold ores of the invoiced value of $540,444 were imported for reduction, all of which came from Mexico except about $38,400 worth, which came from British Columbia, Quebec, and Ontario.

United States gold coins of the value of $30,790,892 were returned during the year. Of this amount $15,949,988 came from England, $8,959,428 from Germany, $2,178,206 from France, $912,813 from Quebec and Ontario, $696,483 from Venezuela, $735,798 from the West Indies, $618,093 from Cuba, $190,160 from China, $176,238 from Mexico, $154,637 from Colombia, $90,133 from Central American States, and the remainder chiefly from the Azores, Madeira Islands, and Japan.

The following table shows the total gold imports into the United States during the fiscal year 1894:

GOLD IMPORTS, 1894.

Items.	Amount.
Foreign bullion	$14,489,341
Foreign coin	27,168,886
Foreign ores	540,444
Total foreign gold	42,198,671
United States coin	30,790,892
Total gold imports	72,989,563

Gold bars bearing the stamp of a United States mint or assay office, valued at $76,365, were exported to Quebec and Ontario. Other domestic gold bullion of the value of $107,139 was exported, of which $81,790 went to England; $23,717 to the Dominion of Canada, and the remainder to Hongkong and Cuba.

United States gold coins of the value of $64,303,840 were exported as follows: $28,800,000 to Germany; $15,345,000 to France; $14,853,500 to England; $1,435,338 to Quebec and Ontario; $1,282,958 to the West Indies; $792,085 to the Hawaiian Islands; $725,000 to the Netherlands; $528,125 to the South American States; $317,980 to the Central American States, and the remainder to Hongkong and British Columbia.

Gold contained in silver-copper matte of the value of $20,319 was exported from the port of Baltimore.

Domestic gold ores of the invoiced value of $146,779 were exported. Of this amount $127,735 were shipped to England, and the remainder to Germany.

Foreign gold coins of the value of $12,490,707 were reexported, of which $11,896,644 went to Cuba; $194,794 to Quebec and Ontario; $134,000 to England; $105,000 to France; $102,285 to Bermuda, and the remainder principally to Colombia, West Indies, and Germany.

Foreign gold ores of the invoiced value of $17,069 were reexported to England.

The following table shows the total gold exports from the United States during the fiscal year 1894:

GOLD EXPORTS, 1894.

Items.		Amount.
United States bars		$76,375
Other domestic bullion		107,139
Domestic coin		64,303,840
Gold contained in copper matte		20,319
Domestic ores		146,779
Total domestic		64,654,452
Foreign coin reexported	$12,490,707	
Foreign ores reexported	17,069	
Total foreign		12,507,776
Total gold exports		77,162,228

The net gold exports for the fiscal year 1894 amounted to $4,172,665, against $86,897,275 for the previous fiscal year.

The following table shows the imports and exports of United States gold coin from January 1, 1870, to November 1, 1894:

IMPORTS AND EXPORTS OF UNITED STATES GOLD COIN.

Period.	Imports.	Exports.	Period.	Imports.	Exports.
Jan. 1 to July 1, 1870		$6,384,250	Fiscal year—		
Fiscal year—			1886	$1,687,231	$5,400,976
1871		55,491,719	1887	5,862,509	3,550,770
1872		40,391,357	1888	5,181,512	3,211,399
1873		35,661,863	1889	1,403,619	4,143,939
1874		28,766,943	1890	1,949,552	3,951,736
1875		59,309,770	1891	2,824,146	67,704,900
1876		27,542,861	1892	15,432,443	42,841,963
1877		21,274,565	1893	6,074,899	101,844,087
1878	$7,325,783	6,427,251	1894	30,790,892	64,303,840
1879	3,654,859	4,120,311	Total	128,058,103	634,949,410
1880	18,207,559	1,687,973	July, 1894	105,276	13,088,836
1881	7,577,422	1,741,364	August, 1894	165,156	3,385,408
1882	4,796,630	29,805,289	September, 1894	285,563	161,135
1883	8,112,265	4,802,454	October, 1894	323,292	1,053,692
1884	3,824,692	12,242,021	Total	128,937,390	652,638,481
1885	3,352,090	2,345,809			

SILVER.—Foreign silver bullion of the commercial value of $3,924,205 (6,123,703 ounces) was imported during the fiscal year 1894, of which $3,537,229 came from Mexico, and the remainder from Central and South American States.

Silver in foreign ores of the invoiced value of $6,679,161 was imported into the United States for reduction, $6,398,968 coming from Mexico,

and the remainder from British Columbia and Peru. These silver-lead ores contained 50,975,674 pounds of lead, valued at $716,793, and 1,233,537 pounds of copper, valued at $92,281.

The following table, kindly compiled and furnished by the Chief of the Bureau of Statistics, shows the quantity and value of the metals contained in these silver-lead ores imported during the fiscal year 1894:

STATEMENT SHOWING BY CUSTOMS DISTRICTS THE ESTIMATED QUANTITIES AND VALUES OF SILVER ORE IMPORTED INTO THE UNITED STATES DURING THE YEAR ENDED JUNE 30, 1894, WITH THE QUANTITIES AND VALUES OF GOLD, SILVER, LEAD, AND COPPER CONTAINED IN THE ORE AS FAR AS COULD BE ASCERTAINED.

*Calculated.

Foreign silver coins of the value of $9,233,288 were imported, of which $7,747,259 came from Mexico; $450,525 from South American States; $357,054 from the West Indies; $326,947 from Central American States; $305,170 from Canada, and the remainder from France and England.

United States silver coins (principally subsidiary pieces) of the value of $129,059 were imported, of which $92,183 came from Quebec and Ontario, and the remainder from the West Indies, South American States, and England.

The following table shows the total silver import into the United States during the fiscal year 1894:

IMPORTS OF SILVER, 1894.

Items.	Amount.
Foreign bullion (commercial value)	$3,924,205
Silver in foreign ores (commercial value)	6,679,161
Foreign silver coin	9,233,288
Total foreign	19,836,654
United States silver coin	129,059
Total silver imports	19,965,713

The export of United States silver bars bearing the stamp of a United States mint or assay office was 136,493 ounces, valued at $92,385, of which $45,655 went to Quebec and Ontario, and the remainder to China and Japan. Other domestic silver bars, containing 57,136,373 ounces, valued at $38,898,025, were exported during the year, of which $33,111,913 were shipped to England; $3,569,880 to Japan; $1,309,276 to China; $355,216 to Colombia; $244,482 to Guatemala; $201,000 to France, and the remainder to Germany and Mexico.

There were exported during the year 50,910,745 pounds of copper matte, containing 709,858 ounces of fine silver, which, at the average commercial price for the year, is valued at $486,792.

The following letters from the superintendent of the United States assay office at New York and the collector of customs at Baltimore give the quantity of the precious metals exported in this copper matte:

OFFICE OF THE COLLECTOR OF CUSTOMS,
Port of Baltimore, September 18, 1894.

SIR: Responding to your request of the 10th instant, I have the pleasure to inclose herewith an abstract of the amount of gold and silver contained in copper matte exported from this port during the fiscal year ended June 30, 1894. I would add that there has been no copper matte exported from this port since November, 1893, to date.

Very respectfully,

JAMES A. DIFFENBAUGH,
Collector.

Hon. R. E. PRESTON,
Director of the Mint, Washington, D. C.

WEIGHT OF SILVER-COPPER MATTE EXPORTED FROM THE PORT OF BALTIMORE, MD., DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

[Calculated on a basis of 60.5 per cent pure copper, 35 ounces pure silver, and 0.14 ounces pure gold per ton.]

Months.	Matte.		Pounds of pure copper.	Ounces of pure silver.	Ounces of pure gold.
	Pounds.	Tons.			
August	4,271,680	1,907	2,584,366	66,745	266.98

November	680,960	304	411,981	10,640	42.56
Total	15,727,065	7,021	9,514,874	245,735	982.94

UNITED STATES ASSAY OFFICE AT NEW YORK,
Superintendent's Office, October 10, 1894.

SIR: In reply to your letter of the 10th ultimo, relative to the export of copper matte and argentiferous matte from this port during the fiscal year ended June 30, 1894, with the quantities of gold and silver contained, I have to report that the amount of said exports, according to the custom-house records, was as follows: Copper matte, 35,183,680 pounds. It contained 464,123 ounces of fine silver but no gold.

Respectfully,

ANDREW MASON, *Superintendent.*

Hon. R. E. PRESTON,
Director of the Mint, Washington, D. C.

United States subsidiary silver coin of the value of $78,677 was exported, of which $41,238 went to Mexico, $31,374 to Canada, and the remainder to the West Indies and Hawaiian Islands.

Foreign silver coin, principally Mexican dollars, of the value of $11,320,688, was reexported. Of this amount, $7,865,715 went to Hongkong, $1,995,995 to England, $514,578 to Mexico, $288,104 to the West Indies, $258,500 to Japan, $250,035 to South American States, and the remainder to Quebec and Ontario and Central American States.

Foreign silver bars containing 113,910 ounces, of the value of $61,490, were reexported, all of which went to Mexico.

Silver in foreign ore, of the value of $69,015, was reexported to England for reduction.

The following table shows the total silver exports from the United States during the fiscal year 1894:

EXPORTS OF SILVER, 1894.

Items.		Amount.
United States bars		$92,385
Other domestic bullion		38,898,025
Silver contained in copper matte		486,792
United States subsidiary silver coin		78,677
Total domestic		39,555,879
Foreign silver coin reexported	$11,320,688	
Foreign silver bullion reexported	61,490	
Silver in foreign ores reexported	69,015	
Total foreign		11,451,193
Total silver exports		51,007,072

From a comparison of the tables of imports and exports of silver for the fiscal year 1894, it will be seen that the exports exceed the imports by $31,041,359.

A table exhibiting the imports and exports of the precious metals by customs districts and by months for the fiscal year 1894, kindly compiled by the Chief of the Bureau of Statistics, will be found in the Appendix (p. 271), where will also be found tables exhibiting the imports and exports of gold and silver for a series of years of the principal countries of the world.

MOVEMENT OF GOLD FROM THE UNITED STATES.

The superintendent of the United States Assay Office at New York, has kindly prepared the following tables, giving the exports and imports of gold from the port of New York to Europe during the fiscal year 1894:

STATEMENT OF UNITED STATES GOLD COIN EXPORTED FROM THE PORT OF NEW YORK TO EUROPE DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Date.	Destination.	Value.	Rate of exchange.	Date.	Destination.	Value.	Rate of exchange.

STOCK OF MONEY IN THE UNITED STATES.

The following table exhibits the stock of coin in the United States July 1, 1894:

OFFICIAL TABLE OF STOCK OF COIN IN THE UNITED STATES JULY 1, 1894.

Items.	Gold.	Silver.	Total.
Estimated stock of coin July 1, 1893	$519,156,102	$496,747,573	$1,015,903,675
Gain, by corrected amount used in the arts, for the first six months of 1893	1,000,000	50,000	1,050,000
Coinage, fiscal year 1894	99,474,913	6,024,898	105,499,811
Net imports of United States coin, fiscal year 1894	.....	50,382	50,382
Total	619,631,015	502,872,853	1,122,503,868
Loss:			
Net exports of United States coin for fiscal year 1894	33,512,948	.....	33,512,948
United States coin melted for recoinage, fiscal year 1894	2,105,984	7,189,720	9,295,704
United States coin used in the arts, fiscal year 1894	1,500,000	100,000	1,600,000
Total	37,118,932	7,289,720	44,408,652
Estimated stock of coin July 1, 1894	582,512,083	495,583,133	1,078,095,216

The total estimated stock of gold and silver coin in the United States on July 1, 1894, is given in the above table at $1,078,095,216; gold $582,512,083, and silver $495,583,133. Of the silver coin $419,333,208 were in silver dollars and $76,249,925 in subsidiary pieces.

As a new estimate was made (Report on the Production of Precious Metals, 1893) of the amount of gold and silver coin used in the arts ($1,500,000 in gold and $100,000 in silver yearly, instead of $3,500,000 in gold and $200,000 in silver), it will be noticed that the gold coin balance on July 1, 1893, is increased $1,000,000 and silver coin $50,000.

The amounts of gold and silver coin melted for recoinage represent their nominal values, the silver coins being worn, subsidiary pieces transferred from the Treasury to the mints, and all mutilated pieces of that class of coin being purchased at the mints or assay offices as bullion.

The value of the gold and silver bullion belonging to the Government in the mints and assay offices on July 1, 1894, was as follows:

BULLION IN MINTS AND ASSAY OFFICES JULY 1, 1894.

Metals.	Value.
Gold	$44,781,118
Silver (cost)	128,666,824
Total	173,447,942

The stock of silver bullion as reported on June 30, 1894, on deposit with the Mercantile Safe Deposit Company, in New York City, was 154,674 fine ounces, the commercial value of which was $97,800, the price of silver at that date being $0.6323 per ounce fine.

The stock of coin in the United States, the gold and silver bullion belonging to the Government, together with the silver held by the Mer-

cantile Safe Deposit Company, constituted the total metallic stock of the United States on July 1, 1894, as shown in the following table:

METALLIC STOCK OF THE UNITED STATES JULY 1, 1894.

Coin and bullion.	Value.
Gold	$627,293,201
Silver (including bullion in mints and Mercantile Safe Deposit Co.)	624,347,757
Total	1,251,640,958

The estimated metallic stock of the United States on July 1, 1893, was as follows:

METALLIC STOCK OF THE UNITED STATES, JULY 1, 1893.

Coin and bullion.	Value.
Gold	$597,697,685
Silver (including bullion in mints and Mercantile Safe Deposit Co.)	615,861,484
Total	1,213,559,169

By comparing the amounts in the above tables it will be noticed that the estimated stock of gold in the United States during the fiscal year increased $29,595,516, and that of silver $8,486,273, a total increase of $38,081,789.

The ownership of the stock of coin and gold and silver bullion in the United States on July 1, 1894, was as follows:

OWNERSHIP OF GOLD AND SILVER IN THE UNITED STATES JULY 1, 1894.

Ownership.	Gold coin and bullion.	Silver coin and bullion.				Total gold and silver coin and bullion.
		Silver dollars.	Subsidiary silver coin.	Silver bullion.	Total silver.	
United States Treasury	* $64,896,466	† $41,169,437	$17,738,968	$128,666,824	$187,575,229	$252,471,695

Total	115,135,264	304,676,081	750,378,735	1,170,190,080

*Includes $34,023,000 gold clearing-house certificates.
†Includes $8,438,528 of their own notes held by different national banks.

The amount of silver dollars in actual circulation on July 1, 1894, was $51,173,035, against $56,929,673 at the same date the previous year, showing a decrease in the actual circulation of silver dollars of $5,756,638.

The total amount of money in circulation in the United States on July 1, 1894, excluding the amounts held by the Treasury and the silver bullion held by the Mercantile Safe Deposit Company, was $1,660,795,694, against $1,596,701,245 on July 1, 1893, showing an increase of $64,094,449 during the fiscal year.

The approximate stock of United States coin for November 1, 1894, was as follows:

STOCK OF GOLD AND SILVER COIN IN THE UNITED STATES NOVEMBER 1, 1894.

Date.	Gold coin.	Silver coin.			Total gold and silver coin.
		Silver dollars.	Subsidiary.	Total silver coin.	
Stock July 1, 1894	$582,512,083	$419,333,208	$76,249,925	$495,583,133	$1,078,095,216
Gain or loss since that date	−914,242	2,443,200	−582,813	1,860,387	946,145
Stock Nov. 1, 1894	581,597,841	421,776,408	75,667,112	497,443,520	1,079,041,361

The value of the gold and silver bullion in the mints and assay offices at the same date (November 1, 1894) was as follows:

GOLD AND SILVER BULLION IN MINTS AND ASSAY OFFICES NOVEMBER 1, 1894.

Metals.	Cost value.
Gold	$45,034,237
Silver	127,779,988
Total	172,814,225

The amount of silver bullion reported as held in the vaults of the Mercantile Safe Deposit Company at the close of business October 31, 1894, was 174,721 ounces of fine silver bars, the commercial value of which was $112,043.

This amount, added to the gold and silver bullion in the mints and assay offices and the stock of coin in the United States, gives, approximately, the total metallic stock as follows:

METALLIC STOCK NOVEMBER 1, 1894.

Coin and bullion.	Amount.
Gold	$626,632,078
Silver (bullion in mints and Mercantile Safe Deposit Co.)	625,335,551
Total	1,251,967,629

The following table exhibits the amount of metallic and paper money in the United States and the location of the same on November 1, 1894:

LOCATION OF THE MONEYS OF THE UNITED STATES NOVEMBER 1, 1894.

Moneys.	In Treasury.	Outside of Treasury.	Total.
METALLIC.			
Gold bullion	$45,034,237		$45,034,237
Silver bullion	127,779,988	$112,043	127,892,031
Gold coin	81,416,461	500,181,380	581,597,841
Silver dollars	365,332,738	56,443,670	421,776,408
Subsidiary silver coin	15,424,113	60,242,999	75,667,112
Total	634,987,537	616,980,092	1,251,967,629
PAPER.			
Legal-tender notes (old issue)	66,206,311	280,474,705	346,681,016
Legal-tender notes (act July 14, 1890)	28,425,172	122,715,396	151,140,568
Gold certificates	56,280	64,252,069	64,308,349
Silver certificates	6,569,203	331,143,301	337,712,504
National-bank notes	4,970,188	202,594,902	207,565,090
Currency certificates	280,000	54,045,000	54,325,000
Total	106,507,154	1,055,225,373	1,161,732,527

For the purpose of comparison a similar table is given, dated November 1, 1893:

LOCATION OF THE MONEYS OF THE UNITED STATES NOVEMBER 1, 1893.

Moneys.	In Treasury.	Outside of Treasury.	Total.
METALLIC.			
Gold bullion	$96,066,855		$96,066,855
Silver bullion	127,711,696	$108,331	127,820,027
Gold coin	66,616,899	498,121,679	564,738,578
Silver dollars	360,606,732	58,725,818	419,332,550
Subsidiary silver coin	12,667,195	64,309,807	76,977,002
Total	663,669,377	621,265,635	1,284,935,012
PAPER.			
Legal-tender notes (old issue)	24,788,988	321,892,028	346,681,016
Legal-tender notes (act of July 14, 1890)	1,916,606	150,818,582	152,735,188
Gold certificates	115,860	78,889,309	79,005,169
Silver certificates	7,727,272	325,717,232	333,444,504
National-bank notes	11,566,766	197,745,227	209,311,993
Currency certificates	100,000	22,325,000	22,425 000
Total	46,215,492	1,097,387,378	1,143,602,870

A comparison of the above tables, dated November 1, 1893, and November 1, 1894, shows a decrease in the Treasury in the amount of coin and bullion of $36,233,056; in gold certificates of $59,580; in silver certificates of $1,158,069; and in national-bank notes of $6,596,578.

There was an increase in the Treasury in silver coin and bullion of $7,551,216 (of which $68,292 was in silver bullion; $4,726,006 in silver dollars, and $2,756,918 in subsidiary silver coin; in legal-tender notes (all issues) of $67,925,889; and in currency certificates of $180,000; showing a total net increase in the Treasury of $31,609,822.

The same comparison shows a decrease outside of the Treasury in silver coin and bullion of $6,345,244 (of which $2,282,148 was in silver dollars and $4,066,808 in subsidiary silver coins); in legal-tender notes (all issues) of $69,520,509; and in gold certificates of $14,637,240; while there was an increase in gold coin of $2,059,701; in silver certificates of $5,426,069; in national-bank notes of $4,849,675; and in currency certificates of $31,720,000; a total net decrease of $46,447,548.

MONETARY SYSTEMS AND APPROXIMATE STOCKS OF MONEY IN THE PRINCIPAL COUNTRIES OF THE WORLD.

The following table of the monetary systems and the approximate stock of gold, silver, and uncovered paper money in the principal countries of the world has been compiled from the latest information obtainable, and, while necessarily but an estimate, is believed to show approximately the stock of money in the world:

MONETARY SYSTEMS AND APPROXIMATE STOCKS OF MONEY IN THE AGGRE

Countries.	Monetary system.	Ratio between gold and full legal-tender silver.	Ratio between gold and limited-tender silver.	Population.	Stock of gold.
United States *a*	Gold and silver	1 to 15.98	1 to 14.95	68,900,000	$626,600,000

j Indian Currency Committee report.

GOLD AND SILVER USED IN THE INDUSTRIAL ARTS.

As has been the custom in past years, inquiries have been made for the purpose of ascertaining the amount and value of gold and silver used in the industrial arts in the United States during the calendar year 1893.

Statements have been received from Government institutions and from private refineries showing the amount and value of the gold and silver bars sold to manufacturers and jewelers for use in the arts, and, as nearly as possible, the material used in the manufacture of such bars.

The quantity and value of gold and silver bars furnished manufacturers and jewelers by the United States assay office at New York during the calendar year 1893 are as follows:

BARS MANUFACTURED FOR USE IN THE INDUSTRIAL ARTS BY THE UNITED STATES ASSAY OFFICE AT NEW YORK DURING THE CALENDAR YEAR 1893.

Material used.	Gold.		Silver.	
	Fine ounces.	Value.	Fine ounces.	Coining value.
Domestic bullion	276,095.152	$5,707,393	3,597,965	$4,651,915
United States coin	21.012	434	.....	.....
Foreign material	38,905.773	804,254	1,346,326	1,740,704
Old plate, jewelry, etc	91,083.171	1,882,856	387,451	500,946
Total	406,105.108	8,394,937	5,331,742	6,893,565

The following table exhibits the quantity and value of bars furnished by the mint at Philadelphia for use in the industrial arts during the calendar year 1893:

VALUE AND WEIGHT OF GOLD AND SILVER BARS MANUFACTURED FOR USE IN THE INDUSTRIAL ARTS BY THE UNITED STATES MINT AT PHILADELPHIA DURING THE CALENDAR YEAR 1893.

Material used.	Bars manufactured.			
	Gold.		Silver.	
	Fine ounces.	Value.	Fine ounces.	Coining value.
Domestic bullion	48,875.884	$1,010,354	1,876	$2,426
United States coin	1,955.052	40,415	.....	.....
Jewelry, etc	3,824.575	79,061	9,456	12,226
Total	54,655.511	1,129,830	11,332	14,652

The amounts of gold and silver furnished during the calendar year 1893 by private refineries for use in the industrial arts have been obtained by inquiries sent in the form of a circular letter to 49 firms, 47 of which replied.

Of the number replying, 18 reported that no bars were manufactured by them during the year. The weight and value of the bars manufactured by the remaining 29 firms are given below:

BARS FOR INDUSTRIAL USE FURNISHED GOLDSMITHS AND OTHERS BY PRIVATE REFINERIES DURING THE CALENDAR YEAR 1893.

Material used.	Gold bars manufactured.		Silver bars manufactured.	
	Fine ounces.	Value.	Fine ounces.	Coining value.
Domestic bullion (exclusive of United States bars)	79,177.056	$1,636,735	1,482,212	$1,916,396
United States bars	62,248.514	1,286,791	642,690	830,953
United States coin	26,450.144	546,773	.....	.....
Old plate, jewelry, and other old material	39,437.622	815,248	548,881	709,664
Total	207,313.336	4,285,547	2,673,783	3,457,013

In the above table it will be noticed that the amounts of "United States bars," that is, bars bearing the stamp of the mint at Philadelphia or assay office at New York, furnished by private refineries for industrial uses during the year were: Gold, $1,286,791; silver, $830,953.

As these bars are included in the amounts reported to the Bureau by the Philadelphia mint and New York assay office, it is necessary to eliminate the item representing them from the amounts reported by private refineries.

The weight and value of gold and silver bars other than those bearing the stamp of the mint at Philadelphia or assay office at New York are given in the following table:

BARS FOR INDUSTRIAL USE (EXCLUSIVE OF GOVERNMENT BARS) FURNISHED GOLDSMITHS AND OTHERS BY PRIVATE REFINERIES DURING THE CALENDAR YEAR 1893.

Material.	Gold bars manufactured.		Silver bars manufactured.	
	Fine ounces.	Value.	Fine ounces.	Coining value.
Domestic bullion	79,177.056	$1,636,735	1,482,212	$1,916,396
United States coin	26,450.144	546,773	.....	.....
Old plate, jewelry, and other old material	39,437.622	815,248	548,881	709,664
Total	145,064.822	2,998,756	2,031,093	2,626,060

The value of the gold and silver bars furnished for industrial uses by Government and private refineries during the calendar year 1893 was as follows:

GOLD AND SILVER BARS FURNISHED FOR USE IN MANUFACTURES AND THE ART DURING THE CALENDAR YEAR 1893, AND CLASSIFICATION OF THE MATERIAL USED.

Material.	Gold.	Silver.	Total.
Domestic bullion	$8,354,482	$6,570,737	$14,925,219
United States coin	587,622	.....	587,622
Foreign bullion and coin	804,254	1,740,704	2,544,958
Old material	2,777,165	1,222,836	4,000,001
Total	12,523,523	9,534,277	22,057,800

For the purpose of comparison, the following table, exhibiting the value of gold and silver furnished for industrial uses by Government institutions and private refineries during the calendar year 1892, is given:

GOLD AND SILVER BARS FURNISHED FOR USE IN MANUFACTURES AND THE ARTS DURING THE CALENDAR YEAR 1892, AND CLASSIFICATION OF THE MATERIAL USED.

Material.	Gold.	Silver.	Total.
Domestic bullion	$10,588,703	$7,204,210	$17,792,913
United States coin	787,334	5,152	792,486
Foreign bullion and coin	771,686	1,249,801	2,021,487
Old material	4,468,685	647,377	5,116,062
Total	16,616,408	9,106,540	25,722,948

By comparing the tables for the two years, it will be seen that there has been a decrease in the value of gold employed in the industrial arts during the calendar year 1893 of $4,093,000, while the value of silver thus employed has increased $428,000.

The amount of United States gold coin reported as having been used in the manufacture of bars for industrial purposes was $587,622.

No United States silver coin was reported as having been used for such purpose.

It will be observed that the amount of gold coin actually consumed in the manufacture of bars for industrial uses, as reported by private refineries and Government institutions, was a little over one-seventh of the amount heretofore estimated to have been used annually for this purpose, namely, $3,500,000, which estimate (made some years ago) was based on four censuses taken by this Bureau. It is believed that now $1,500,000 would be a very liberal estimate of the amount of United States gold coin used in the arts annually, and considering the fact that fine gold bars of the weight of 5 ounces and upward, are manufactured by the Government institutions for use in the industrial arts, can be readily obtained by manufacturers and jewelers, and the further fact that by using bars they are subjected to no loss from abrasion, as would be the case if coin were used; it, therefore, seems reasonable to believe that manufacturers and jewelers would much prefer to use bullion in the shape of bars rather than coin.

In regard to United States silver coin used in the arts it is plain that manufacturers, who can buy silver bullion at the prevailing low price,

prefer its use to that of coin. The bullion value of the silver dollar, at the average price of silver for the calendar year 1893, was 60 cents, and for this same dollar the manufacturer or jeweler could go into the market and buy 619 grains of fine silver.

It is not likely, therefore, that he would use coin when bullion can be so readily and cheaply obtained.

The estimate heretofore made of the amount of United States silver coin used annually in the arts was $200,000, which evidently is too high, from the fact that at no time since this estimate was made has the bullion value of the silver dollar been equal to 100 cents, much less the bullion value of the subsidiary coins, which contain less silver in proportion.

In accordance with these facts, it is believed that the amount of United States silver coin consumed annually in the arts does not exceed, if, indeed, it reaches, $100,000.

Making these allowances for the total amount of United States gold and silver coin, respectively, used in the arts, the table showing the industrial consumption of the precious metals in the United States in 1893 would have to be modified thus:

Material.	Gold.	Silver.	Total.
Domestic bullion	$8,354,482	$6,570,737	$14,925,219
United States coin	1,500,000	100,000	1,600,000
Foreign bullion and coin	804,254	1,740,704	2,544,958
Old material	2,777,165	1,222,836	4,000,001
Total	13,435,901	9,634,277	23,070,178

GOLD BARS FOR USE IN THE INDUSTRIAL ARTS EXCHANGED FOR GOLD COIN, CALENDAR YEAR 1893.

Month.	Philadelphia.	New York.	Total.
January	$151,660.03	$577,599.89	$729,259.92
February	136,933.69	736,194.11	873,127.80
March	121,762.40	691,595.32	813,357.72
April	126,471.11	631,024.80	757,495.91
May	131,393.66	435,885.08	567,278.74
June	110,635.48	374,800.31	485,435.79
July	55,340.78	180,103.19	235,443.97
August	25,295.61	108,053.75	133,349.36
September	45,374.71	220,677.10	266,051.81
October	35,128.26	267,899.64	303,027.90
November	45,264.05	352,729.75	397,993.80
December	25,094.46	160,248.91	185,343.37
Total	1,010,354.24	4,736,811.85	5,747,166.09

Data relating to the weight and value of bars furnished for use in industry during the fiscal year 1894 were received from Government institutions only. They are summarized in the following tables:

BARS MANUFACTURED FOR USE IN THE INDUSTRIAL ARTS BY UNITED STATES MINT AT PHILADELPHIA DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Material used.	Bars manufactured.			
	Gold.		Silver.	
	Fine ounces.	Value.	Fine ounces.	Coining value.
Domestic bullion	29,426.810	$608,306.15	2,672.84	$3,455.80
United States coin	1,989.095	41,118.25	.....	.....
Jewelry, etc	3,831.623	79,206.69	21,896.65	28,310.82
Total	35,247.528	728,631.09	24,569.49	31,766.62

BARS MANUFACTURED FOR USE IN THE INDUSTRIAL ARTS BY THE UNITED STATES ASSAY OFFICE AT NEW YORK DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Material used.	Bars manufactured.			
	Gold.		Silver.	
	Fine ounces.	Value.	Fine ounces.	Coining value.
Domestic bullion	167,667.767	$3,466,000.36	3,659,553.93	$4,731,544.47
Foreign material	27,726.430	573,156.16	1,048,868.39	1,356,112.67
Old plate, jewelry, etc.	62,068.254	1,283,064.69	372,736.18	481,921.52
Total	257,462.451	5,322,221.21	5,081,158.50	6,569,578.66

BARS MANUFACTURED BY GOVERNMENT INSTITUTIONS FOR USE IN THE INDUSTRIAL ARTS DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Material used.	Gold.		Silver.	
	Fine ounces.	Value.	Fine ounces.	Coining value.
United States coin	1,989.095	$41,118.25	.....	.....
Domestic bullion	197,094.577	4,074,306.51	3,662,226.77	$4,735,000.27
Foreign material	27,726.430	573,156.16	1,048,868.39	1,356,112.67
Old plate jewelry, etc	65,899.877	1,362,271.38	394,632.83	510,232.34
Total	292,709.979	6,050,852.30	5,105,727.99	6,601,345.28

It will be seen by the above table that the value of the gold bars manufactured by Government institutions during the fiscal year 1894 was $6,050,852, a decrease of $6,945,639 (or over 53 per cent) as compared with the amount manufactured during the fiscal year 1893.

The value of the silver bars manufactured was $6,601,345, a decrease of $842,376 (or over 11 per cent) as compared with the previous fiscal year.

In the Appendix (p. 302) will be found a table showing the value and description of the gold and silver employed in the industrial arts in the United States for the years 1880–1893, inclusive, giving the items of each year separately.

PRODUCT OF GOLD AND SILVER.

The detailed statistics of the product of gold and silver in the United States for the calendar year 1893 were presented in a special report to Congress on that subject, according to which they were as follows:

PRODUCT OF MINES OF THE UNITED STATES, 1893.

Metals.	Fine ounces.	Value.
Gold	1,739,323	$35,955,000
Silver	60,000,000	*77,575,757
Total		113,530,757

*Coining value.

The distribution of the product of our own mines among producing States and Territories was approximately as follows:

APPROXIMATE DISTRIBUTION BY PRODUCING STATES AND TERRITORIES OF THE PRODUCT OF GOLD AND SILVER IN THE UNITED STATES FOR THE CALENDAR YEAR 1893, AS ESTIMATED BY THE DIRECTOR OF THE MINT.

State or Territory.	Gold.		Silver.		Total value.
	Fine ounces.	Value.	Fine ounces.	Coining value.	
Alaska	48,863	$1,010,100	9,600	$12,412	$1,022,512
Arizona	57,286	1,184,200	2,935,700	3,795,652	4,979,852
California	584,370	12,080,000	470,100	607,806	12,687,806
Colorado	364,119	7,527,000	25,838,600	33,407,483	40,934,483
Georgia	4,702	97,200	500	646	97,846
Idaho	79,669	1,646,900	3,910,700	5,056,259	6,703,159
Michigan	2,032	42,000	43,500	56,242	98,242
Montana	172,989	3,576,000	16,906,400	21,858,780	25,434,780
Nevada	46,367	958,500	1,561,300	2,018,651	2,977,151
New Mexico	44,171	913,100	458,400	592,679	1,505,779
North Carolina	2,593	53,600	13,400	17,325	70,925
Oregon	79,592	1,645,300	11,800	15,257	1,660,557
South Carolina	5,998	124,000	500	646	124,646
South Dakota	193,809	4,006,400	140,400	181,527	4,187,927
Texas	.....	.....	349,400	451,750	451,750
Utah	41,293	853,600	7,196,300	9,304,307	10,157,907
Washington	10,744	222,100	152,700	197,430	419,530
Alabama, Maryland, Tennessee, Virginia, Vermont, Wyoming	726	15,000	700	905	15,905
Total	1,739,323	35,955,000	60,000,000	77,575,757	113,530,757

In the Appendix (p. 290) will be found a table showing the annual product of gold and silver from the mines of the United States since 1792.

A summary of the world's production of gold and silver for the years 1891, 1892, and 1893 will be found in the following table.

WORLD'S PRODUCTION OF THE PRECIOUS METALS.

Calendar years.	Gold.	Silver.
1891	$130,650,000	$177,352,300
1892	146,297,600	197,740,700
1893	157,228,100	209,165,000

A table compiled from information furnished by foreign governments through our diplomatic representatives and revised from the latest data, exhibiting the weight and value of the gold and silver product of the principal countries of the world for the calendar years 1891, 1892, and 1893, will be found in the Appendix (p. 292).

For the sake of uniformity the value of silver has, as heretofore, been calculated at its coining rate, viz, $1.2929+ per fine ounce.

The following table exhibits the estimated product of the precious metals in the world for each calendar year since 1873:

PRODUCTION OF GOLD AND SILVER IN THE WORLD FOR THE CALENDAR YEARS 1873–1893.

Calendar years.	Gold.	Silver.		
		Fine ounces (troy).	Commercial value.	Coining value.
1873	$96,200,000	63,267,000	$82,120,000	$81,800,000
1874	90,750,000	55,300,000	70,673,000	71,500,000
1875	97,500,000	62,262,000	77,578,000	80,500,000
1876	103,700,000	67,753,000	78,322,000	87,600,000
1877	114,000,000	62,648,000	75,240,000	81,000,000
1878	119,000,000	73,476,000	84,644,000	95,000,000
1879	109,000,000	74,250,000	83,383,000	96,000,000
1880	106,500,000	74,791,000	85,636,000	96,700,000
1881	103,000,000	78,890,000	89,777,000	102,000,000
1882	102,000,000	86,470,000	98,230,000	111,800,000
1883	95,400,000	89,177,000	98,986,000	115,300,000
1884	101,700,000	81,597,000	90,817,000	105,500,000
1885	108,400,000	91,652,000	97,564,000	118,500,000
1886	106,000,000	93,276,000	92,772,000	120,600,000
1887	105,775,000	96,124,000	94,031,000	124,281,000
1888	110,197,000	108,827,000	102,283,000	140,706,000
1889	123,489,000	120,213,600	112,399,700	155,427,700
1890	118,848,700	126,095,000	132,399,700	163,032,000
1891	130,650,000	137,170,900	135,524,800	177,352,300
1892	146,297,600	152,940,100	133,822,600	197,740,700
1893	157,228,100	161,776,100	126,185,300	209,165,000

The silver product is given at its commercial value, reckoned at the average market price of silver each year, as well as its coining value in United States dollars.

In the Appendix (p. 304) will be found a table showing the production of gold and silver in the world for the calendar years 1493–1893.

WORLD'S COINAGE.

In the Appendix (p. 291) will be found a table, revised from the latest information received, exhibiting the coinages of the various countries of the world during the calendar years 1891, 1892, and 1893.

The following is a summary of the same:

Calendar years.	Gold.	Silver.
1891	$119,534,122	$138,294,367
1892	172,473,124	155,700,697
1893	232,485,668	135,389,753

The above figures represent, as nearly as this Bureau has been able to ascertain, the total value of the gold and silver coinages executed in the world during the years therein named.

It must be borne in mind, however, that the total of these coinages does not correctly represent the amount of new gold and new silver made into coins during the year, for the reason that the coinages as reported include the value of domestic and foreign coins melted for recoinage, as well as old material, plate, etc., used in coinage.

In the circular letter of inquiry prepared at this Bureau and sent to foreign governments through the Department of State, asking for information on these subjects, it was especially requested that each country report the amount of such recoinages. This has been done in many instances, but not in all.

WORLD'S RECOINAGES.

The following table, compiled from official sources, exhibits approximately the recoinages of gold and silver of the principal countries of the world for 1892 and 1893, so far as the same has been reported to this Bureau:

GOLD AND SILVER RECOINAGES REPORTED BY THE PRINCIPAL COUNTRIES OF THE WORLD DURING THE CALENDAR YEARS 1892 AND 1893.

[Value expressed in United States money.]

Countries.	1892.		1893.	
	Gold.	Silver.	Gold.	Silver.
United States	$558,334	$8,275,440	$1,717,957	$5,952,389
Great Britain	84,521,980	1,105,747	30,658,950	1,431,296

Total	14,733,563	3,047,152	12,979,069	1,828,803

VALUE OF FOREIGN COINS.

The law requires:

That the value of foreign coins as expressed in the money of account of the United States shall be that of the pure metal of such coin of standard value; and the values of the standard coins in circulation of the various nations of the world shall be estimated quarterly by the Director of the Mint and be proclaimed by the Secretary of the Treasury immediately after the passage of this act and thereafter quarterly on the 1st day of January, April, July, and October in each year.

In accordance with the above requirement, the values of foreign coins have been estimated and proclaimed as follows:

VALUES OF FOREIGN COINS, JANUARY 1, 1894, UNDER THE PROVISIONS OF THE ACT OF OCTOBER 1, 1890.

Country.	Standard.	Monetary unit.	Value in terms of United States gold dollar.	Coins.
Argentine Republic.	Gold and silver.	Peso	$0.96,5	Gold: argentine ($4.82,4) and ½ argentine. Silver: peso and divisions.
Austria-Hungary	Gold	Crown	.20,3	Gold: former system—4 florins ($1.92,9), 8 florins ($3.85,8), ducat ($2.28,7) and 4 ducats ($9.15.8). Silver: 1 and 2 florins. Gold: present system—20 crowns ($4.05,2) and 10 crowns ($2.02,6).
Belgium	Gold and silver.	Franc	.19,3	Gold: 10 and 20 francs. Silver: 5 francs.
Bolivia	Silver	Boliviano	.51,6	Silver: boliviano and divisions.
Brazil	Gold	Milreis	.54,6	Gold: 5, 10, and 20 milreis. Silver: ½, 1, and 2 milreis.
British Possessions N. A. (except Newfounland).	do	Dollar	1.00	
Central American States: Costa Rica, Guatemala, Honduras, Nicaragua, Salvador	Silver	Peso	.51,6	Silver: peso and divisions.
Chile	Gold and silver.	do	.91,2	Gold: escudo ($1.82,4), doubloon ($4.56,1), and condor ($9.12,3). Silver: peso and divisions.
China	Silver	Tael (Shanghai)	.76,2	
		Tael (Haikwan (customs))	.84,9	
Colombia	do	Peso	.51,6	Gold: condor ($9.64,7) and double-condor. Silver: peso.
Cuba	Gold and silver.	do	.92,6	Gold: doubloon ($5.01,7). Silver: peso.
Denmark	Gold	Crown	.26,8	Gold: 10 and 20 crowns.
Ecuador	Silver	Sucre	.51,6	Gold: condor ($9.64,7) and double-condor. Silver: sucre and divisions.
Egypt	Gold	Pound (100 piasters).	4.94,3	Gold: pound (100 piasters), 5, 10, 20, and 50 piasters. Silver: 1, 2, 5, 10, and 20 piasters.
Finland	do	Mark	.19,3	Gold: 20 marks ($3.85,9), 10 marks ($1.93).

VALUES OF FOREIGN COINS, JANUARY 1, 1894, UNDER THE PROVISIONS OF THE ACT OF OCTOBER 1, 1890—Continued.

Country.	Standard.	Monetary unit.	Value in terms of United States gold dollar.	Coins.
France	Gold and silver.	Franc	$0.19,3	Gold: 5, 10, 20, 50, and 100 francs. Silver: 5 francs.
German Empire	Gold	Mark	.23,8	Gold: 5, 10, and 20 marks.
Great Britain	do	Pound sterling	4.86,6½	Gold: sovereign (pound sterling) and ½ sovereign.
Greece	Gold and silver.	Drachma	.19,3	Gold: 5, 10, 20, 50, and 100 drachmas. Silver: 5 drachmas.
Haiti	do	Gourde	.96,5	Silver: gourde.
India	Silver	Rupee	.24,5	Gold: mohur ($7.10,5). Silver: rupee and divisions.
Italy	Gold and silver.	Lira	.19,3	Gold: 5, 10, 20, 50, and 100 lire. Silver: 5 lire.
Japan	do.*	Yen ..{Gold	.99,7	Gold: 1, 2, 5, 10, and 20 yen.
		{Silver	.55,6	Silver: yen.
Liberia	Gold	Dollar	1.00	
Mexico	Silver	do	.56	Gold: dollar ($0.98,3), 2½, 5, 10, and 20 dollars. Silver: dollar (or peso) and divisions.
Netherlands	Gold and silver.	Florin	.40,2	Gold: 10 florins. Silver: ½, 1, and 2½ florins.
Newfoundland	Gold	Dollar	1.01,4	Gold: 2 dollars ($2.02,7).
Norway	do	Crown	.26,8	Gold: 10 and 20 crowns.
Peru	Silver	Sol	.51,6	Silver: sol and divisions.
Portugal	Gold	Milreis	1.08	Gold: 1, 2, 5, and 10 milreis.
Russia	Silver‡	Ruble ..{Gold...	.77,2	Gold: imperial ($7.71,8) and ½ imperial †($3.86).
		{Silver..	.41,3	Silver: ¼, ½, and 1 ruble.
Spain	Gold and silver.	Peseta	.19,3	Gold: 25 pesetas. Silver: 5 pesetas.
Sweden	Gold	Crown	.26,8	Gold: 10 and 20 crowns.
Switzerland	Gold and silver.	Franc	.19,3	Gold: 5, 10, 20, 50, and 100 francs. Silver: 5 francs.
Tripoli	Silver	Mahbub of 20 piasters.	.46,5	
Turkey	Gold	Piaster	.04,4	Gold: 25, 50, 100, 250, and 500 piasters.
Venezuela	Gold and silver.	Bolivar	.19,3	Gold: 5, 10, 20, 50, and 100 bolivars. Silver: 5 bolivars.

*Gold the nominal standard. Silver practically the standard.
†Coined since January 1, 1886. Old half-imperial = $3.98.6.
‡Silver the nominal standard. Paper the actual currency, the depreciation of which is measured by the gold standard.

VALUES OF FOREIGN COINS APRIL 1, 1894, UNDER THE PROVISIONS OF THE ACT OF OCTOBER 1, 1890.

Country.	Standard.	Monetary unit.	Value in terms of United States gold dollar.	Coins.
Argentine Republic.	Gold and silver.	Peso	$0.96,5	Gold: argentine ($4.82,4) and ½ argentine. Silver: peso and divisions.

In the Appendix (p. 299) a table will be found exhibiting the changes in the estimates of the values of foreign coins, from January 1, 1880, to October 1, 1894.

ASSAY LABORATORY, BUREAU OF THE MINT.

The assay office of the Bureau has been fully occupied during the year in testing the sample coins taken from each delivery by the coiners to the superintendents of the various mints.

The final adjudication of the fineness and weight of all coins produced at the mints lies, of course, with the annual assay commission, but meanwhile the avoidance of possible issuance of coins outside the legal weight and fineness is secured by prompt testing of all deliveries made by the coiners.

The unusually large gold coinage of the year has added much to the work required of the Bureau laboratory. Three hundred and ninety-nine gold coins and silver coins from 352 deliveries were assayed.

The following table shows, according to the mints, the number of coins assayed at the Bureau, and also by the annual assay commission, with the average fineness:

NUMBER OF DELIVERIES AND AVERAGE FINENESS OF GOLD AND SILVER COINS OF THE UNITED STATES TESTED AT THE BUREAU OF THE MINT AND BY THE ANNUAL ASSAY COMMISSION.

Institutions.	Gold.				Silver.			
	Assayed at the Bureau.		Assayed at the annual assay commission.		Assayed at the Bureau.		Assayed at the annual assay commission.	
	Number of deliveries.	Average fineness.	Number of deliveries.	Average fineness.	Number of deliveries.	Average fineness.	Number of deliveries.	Average fineness
Philadelphia	120	900.07	16	899.98	139	899.98	15	899.80
San Francisco	194	899.92	11	899.79	58	900.08	8	899.50
New Orleans	53	900.08	6	899.99	120	899.97	11	899.94
Carson	32	899.98	5	899.96	35	900.21	5	900.64
Total	399	899.99	38	899.93	352	900.02	39	899.89

It will be seen that all were within the legal requirements.

In September, 1893, two half eagles were received from the New Orleans mint which showed on assay that cuttings from the same piece varied in fineness from .899 to .900,3. This being entirely unusual in the assay of standard gold, five additional pieces from the same delivery were asked for and furnished by the superintendent at New Orleans.

A large number of assays was made from these pieces, with the same strange results, fully confirming the accuracy of the previous work. A mass melt was made of the residue of these coins, and after a thorough mixing an ingot was obtained of uniform fineness showing only .899,5.

The issue of these coins was stopped, and Mr. Cabell Whitehead, the assayer to the Mint Bureau, was instructed to proceed to New Orleans and ascertain, if possible, the cause of this apparent "segregation" in gold bullion. One lot of $125,000 in half eagles was melted into ingots. A remelting was found necessary before a uniform assay could be obtained, and this showed a fineness of only .899,5, although the ingots from which the coins were originally made were passed at .900.

The mint at Philadelphia, working on bullion of the same description, suffered from an unusual number of melts condemned as "not mixed." Attention was naturally attracted to the history of the bul-

lion which caused the trouble, and it was found that the bars sent to New Orleans and the Philadelphia mint were made several years ago at the New York assay office from foreign coin—chiefly Spanish. It was not refined, the natural supposition being that it was suitable for coinage, although it is now recalled that some difficulty was experienced in getting uniform assays.

The facts seemed to indicate the presence of some unusual element in this bullion, which only a complete analysis would reveal. The following table shows two such analyses made by the assayer of the Bureau. One is from a sample of the bullion sent to New Orleans, and the other is of coin made at the Philadelphia mint from bullion of the same character:

Metals.	New Orleans coin made (from Spanish coins).	Philadelphia coin made (from Spanish coins).
Gold	896.300	900.200
Silver	9.965	7.100
Copper (by dif)	93.6087	92.5654
Iron	.062	.030
Platinum	.047	.047
Lead	Trace.	Trace.
Bismuth	Trace.	Trace.
Arsenic	Trace.	.0002
Antimony	.0013	.0014
Tin		Trace.
Zinc	.015	.050
Nickel and cobalt	.001	.006
	1000	1000

The presence of zinc, nickel, and cobalt is unusual in gold bullion. The percentage of iron shown by the assays is a little higher than usual, but the presence of even larger quantities of this metal has not been found to cause segregation in gold ingots. We have not the same assurance as to the effect of zinc even in small quantities, and it is believed that the troublesome and anomalous results above mentioned may be fairly attributed to the presence of zinc in the bullion.

ANNUAL TRIAL OF COINS.

In conformity with section 3547 of the Revised Statutes the following Commissioners were appointed by the President to examine and test the fineness and weight of the gold and silver coins of the coinage of the calendar year 1893: Hon. D. W. Voorhees, Finance Committee, United States Senate; Hon. C. W. Stone, Committee on Coinage, Weights, and Measures, House of Representatives; Henry D. Welsh, esq., Pennsylvania; Horatio C. Burchard, esq., Illinois; Prof. J. A. Quarles, Virginia; Prof. Frederick Prime, Pennsylvania; Andrew Mason, esq., New York; Cabell Whitehead, esq., District of Columbia; Girault Farrar, esq., Louisiana; J. W. Ellsworth, esq., Illinois; Prof. George T. Winston, North Carolina; Prof. Arthur L. Perry, Massachusetts; L. Clarke Davis, esq., Pennsylvania; Talfouad P. Linn, esq., Ohio; John W. Woodside, esq., Pennsylvania.

The Commission met at Philadelphia on February 14, 1894, with the exception of Messrs. Butler, Voorhees, and Stone, all of the Commissioners being present, together with the following ex-officio Commis-

sioners: James H. Eckels, esq., Comptroller of the Currency, and Herbert G. Torrey, assayer, United States assay office, New York.

The committee on counting reported:

The packages containing the pieces reserved by the several mints for the trial of coins, in accordance with section 3539, Revised Statutes, were delivered to us by the superintendent of the mint at Philadelphia.

The number of coins corresponded with the record kept by the Director of the Mint of all transcripts sent him by the several superintendents, with the exception that in delivery 243 from the New Orleans mint $5 (in half dollars) in excess were found.

The quantities of coin reserved at the several mints for the purposes of the Commission were as follows:

Mints.	Pieces.	Value.
GOLD.		
Philadelphia	3,790	$33,495.00
San Francisco	1,364	22,490.00
Carson	94	840.00
New Orleans	128	730.00
Total	5,376	57,555.00
SILVER.		
Philadelphia	7,558	2,519.15
San Francisco	2,394	541.60
Carson	339	339.00
New Orleans	3,423	1,610.00
Total	13,714	4,409.75
Total pieces and value	19,090	61,964.75

The committee on assaying reported:

In compliance with section 3547 of the Revised Statutes we have taken samples of the coins reserved from time to time at the United States mints at Philadelphia, San Francisco, Carson, and New Orleans for assay.

These samples represent the various deliveries made by the coiners to the superintendents of the several mints during the calendar year 1893.

The result of the assays made of the individual coins, and of the same in mass, are given in the following schedules.

From these it will be seen that the greatest excess in the assay value of the gold coinage above standard at the different mints (the limit of tolerance being one-thousandth) is at—

Philadelphia 900.1
San Francisco ..... None.
New Orleans 900.2
Carson 900.3

The greatest deficiency below standard (the limit of tolerance being one-thousandth) is at—

Philadelphia 899.8
San Francisco 899.4
New Orleans 899.8
Carson 899.8

The greatest excess in silver coins above standard (the limit of tolerance being three-thousandths) is at—

Philadelphia 900.4
San Francisco 900.2
New Orleans 901.3
Carson 901.6

The greatest deficiency below standard (the limit of tolerance being three-thousandths) is at—

Philadelphia 899.3
San Francisco 899.6
New Orleans 899.1
Carson 900

The assay committee also tested the quartation of silver and the lead used in the assay of gold bullion and found them free from gold.

The acid used in the humid assay of silver was found to be free from silver and also from chlorine.

The balances used were also tested and found to be correct.

The committee therefore deem the assays exhibited in the accompanying schedules to be trustworthy.

The committee on weighing reported:

From the results shown the committee on weighing recommends that the trial of the weights of the coinage of the mints of 1893 be considered and reported satisfactory.

The result of the annual test is contained in the following resolution adopted by the Commission:

Resolved, That the assay commission having examined and tested the reserved coins of the several mints of the United States for the year 1893, and it appearing that these coins do not differ from the standard fineness and weight by a greater quantity than is allowed by law, the trial is considered, and hereby reported, satisfactory.

Resolved further, That the assay commission having compared the standard weights in use in the mint with the standard troy pound, and having found them to be correct, the comparison and test is hereby reported to be satisfactory.

COINS OF THE UNITED STATES, AUTHORITY FOR COINING, AND CHANGES IN WEIGHT AND FINENESS.

GOLD COINS.

DOUBLE EAGLE.

Authorized to be coined, act of March 3, 1849.
Weight, 516 grains; fineness, .900.
Total amount coined to June 30, 1894, $1,200,606,980.

EAGLE.

Authorized to be coined, act of April 2, 1792.
Weight, 270 grains; fineness, .916⅔.
Weight changed, act of June 28, 1834, to 258 grains.
Fineness changed, act of June 28, 1834, to .899, 225.
Fineness changed, act of January 18, 1837, to .900.
Total amount coined to June 30, 1894, $252,662,960.

HALF EAGLE.

Authorized to be coined, act of April 2, 1792.
Weight, 135 grains; fineness, .916⅔.
Weight changed, act of June 28, 1834, to 129 grains.
Fineness changed, act of June 28, 1834, to .899, 225.
Fineness changed, act of January 18, 1837, to .900.
Total amount coined to June 30, 1894, $208,820,815.

QUARTER EAGLE.

Authorized to be coined, act of April 2, 1792.
Weight, 67.5 grains; fineness, .916⅔.
Weight changed, act of June 28, 1834, to 64.5 grains.
Fineness changed, act of June 28, 1834, to .899, 225.
Fineness changed, act of January 18, 1837, to .900.
Total amount coined to June 30, 1894, $28,670,820.

THREE-DOLLAR PIECE.

Authorized to be coined, act of February 21, 1853.
Weight, 77.4 grains; fineness, .900.
Total amount coined to September 26, 1890, $1,619,376.
Coinage discontinued, act of September 26, 1890.

ONE DOLLAR.

Authorized to be coined, act of March 3, 1849.
Weight, 25.8 grains; fineness, .900.
Total amount coined to September 26, 1890, $19,499,337.
Coinage discontinued, act of September 26, 1890.

SILVER COINS.

DOLLAR.

Authorized to be coined, act of April 2, 1792.
Weight, 416 grains; fineness, .892,4.
Weight changed, act of January 18, 1837, to 412½ grains.
Fineness changed, act of January 18, 1837, to .900.
Coinage discontinued, act of February 12, 1873.
Total amount coined to February 12, 1873, $8,031,238.
Coinage reauthorized, act of February 28, 1878.
Amount coined from March 1, 1878, to June 30, 1893, $419,333,208.
Total amount coined to June 30, 1893, $427,364,446.

TRADE DOLLARS.

Authorized to be coined, act of February 12, 1873.
Weight, 420 grains; fineness, .900.
Coinage limited to export demand, joint resolution July 22, 1876.
Coinage prohibited, act of March 3, 1887.
Total amount coined, $35,965,924.

HALF DOLLAR.

Authorized to be coined, act of April 2, 1792.
Weight, 208 grains; fineness, .892,4.
Weight changed, act of January 18, 1837, to 206¼ grains.
Fineness changed, act of February 18, 1837, to .900.
Weight changed, act of February 21, 1853, to 192 grains.
Weight changed, act of February 12, 1873, to 12½ grams, or 192.9 grains.
Total amount coined to June 30, 1894, $130,512,383.50.

COLUMBIAN HALF DOLLAR.

Authorized to be coined, act of August 5, 1892.
Weight, 192.9 grains; fineness, .900.
Total amount coined, $2,501,052.50, included in half-dollar coinage.

QUARTER DOLLAR.

Authorized to be coined, act of April 2, 1792.
Weight, 104 grains; fineness, .892,4.
Weight changed, act of January 18, 1837, to 103⅛ grains.
Fineness changed, act of January 18, 1837, to .900.
Weight changed, act of February 21, 1853, to 96 grains.
Weight changed, act of February 12, 1873, to 6¼ grams, or 96.45 grains.
Total amount coined to June 30, 1894, $47,198,044.

COLUMBIAN QUARTER DOLLAR.

Authorized to be coined, act of March 3, 1893.
Weight, 96.45 grains; fineness, .900.
Total amount coined, $10,005.75, included in quarter-dollar coinage.

TWENTY-CENT PIECE.

Authorized to be coined, act of March 3, 1875.
Weight, 5 grams, or 77.16 grains; fineness, .900.
Coinage prohibited, act of May 2, 1878.
Total amount coined, $271,000.

DIME.

Authorized to be coined, act of April 2, 1792.
Weight, 41.6 grains; fineness, .892,4.
Weight changed, act of January 18, 1837, to 41¼ grains.
Fineness changed, act of January 18, 1837, to .900.
Weight changed, act of February 21, 1853, to 38.4 grains.
Weight changed, act of February 12, 1873, to 2½ grams, or 38.58 grains.
Total amount coined to June 30, 1894, $28,480,117.20.

HALF DIME.

Authorized to be coined, act of April 2, 1792.
Weight, 20.8 grains; fineness, .892,4.
Weight changed, act of January 18, 1837, to 20⅝ grains.
Fineness changed, act of January 18, 1837, to .900.
Weight changed, act of February 21, 1853, to 19.2 grains.
Coinage discontinued, act of February 12, 1873.
Total amount coined, $4,880,219.40.

THREE-CENT PIECE.

Authorized to be coined, act of March 3, 1851.
Weight, 12⅜ grains; fineness, .750.
Weight changed, act of March 3, 1853, to 11.52 grains.
Fineness changed, act of March 3, 1853, to .900.
Coinage discontinued, act of February 12, 1873.
Total amount coined, $1,282,087.20.

MINOR COINS.

FIVE CENT (NICKEL).

Authorized to be coined, act of May 16, 1866.
Weight, 77.16 grains; composed of 75 per cent copper and 25 per cent nickel.
Total amount coined to June 30, 1894, $13,432,430.95.

THREE CENT (NICKEL).

Authorized to be coined, act of March 3, 1865.
Weight, 30 grains; composed of 75 per cent copper and 25 per cent nickel.
Coinage discontinued, act of September 26, 1890.
Total amount coined, $941,349.48.

TWO CENT (BRONZE).

Authorized to be coined, act of April 22, 1864.
Weight, 96 grains; composed of 95 per cent copper and 5 per cent tin and zinc.
Coinage discontinued, act of February 12, 1873.
Total amount coined, $912,020.

CENT (COPPER).

Authorized to be coined, act of April 2, 1792.
Weight, 264 grains.
Weight changed, act of January 14, 1793, to 208 grains.
Weight changed by proclamation of the President, January 26, 1796, in conformity with act of March 3, 1795, to 168 grains.
Coinage discontinued, act of February 21, 1857.
Total amount coined, $1,562,887.44.

CENT (NICKEL).

Authorized to be coined, act of February 21, 1857.
Weight, 72 grains; composed of 88 per cent copper and 12 per cent nickel.
Coinage discontinued, act of April 22, 1864.
Total amount coined, $2,007,720.

CENT (BRONZE).

Coinage authorized, act of April 22, 1864.
Weight, 48 grains; composed of 95 per cent copper and 5 per cent tin and zinc.
Total amount coined to June 30, 1894, $7,351,783.35.

HALF CENT (COPPER).

Authorized to be coined, act of April 2, 1792.
Weight, 132 grains.
Weight changed, act of January 14, 1793, to 104 grains.
Weight changed by proclamation of the President, January 26, 1796, in conformity with the act of March 3, 1795, to 84 grains.
Coinage discontinued, act of February 21, 1857.
Total amount coined, $39,926.11.

Total gold coinage	$1,711,880,288.00
Total silver coinage	675,954,221.30
Total minor coinage	26,248,117.33
Grand total	2,414,082,626.63

MINT AT PHILADELPHIA.

The amount and value of gold and silver received by the mint at Philadelphia during the fiscal year ended June 30, 1894, is shown by the following table:

Metal.	Standard ounces.	Coining value.
Gold	3,744,425.984	$69,663,739.24
Silver	11,376,986.39	13,238,675.07
Total value		82,902,414.31

In addition, 243,200 pounds of minor coinage blanks were received. The number of assays made during the year was as follows:

Gold assays	27,200
Silver assays	12,200

The value of fine gold and silver bars issued by the mint at Philadelphia, during the fiscal year 1894, for use in the industrial arts, was as follows:

Gold	$728,631.09
Silver	31,766.62

The deposits of gold bullion at the mint at Philadelphia included worn and uncurrent domestic gold coin of the nominal value of $1,622,446, containing 86,849.070 ounces of standard metal of the coining value of $1,615,796.65.

The deposits of silver bullion included worn and mutilated domestic silver coin of the nominal value of $1,696,043.06, which produced, upon melting, 1,297,325.05 ounces of standard metal, the coining value, in subsidiary silver coin, of the same being $1,614,090.26.

Foreign gold coin containing 747.312 ounces of standard metal of the coining value of $13,903.48 was received and melted. Foreign silver coin containing 32.79 ounces of standard metal of the coining value of $38.16 was also received and melted.

The quantity of precious metals operated upon in the metallurgical department was:

Metals.	Standard ounces.
Gold	9,310,254.611
Silver	3,056,809.84

The number of melts made in the same department and the number condemned by the assayer during the fiscal year was:

Metals.	For bars.	For ingots.	
		Made.	Condemned.
Gold	292	1,757	134
Silver	358	725	2
Total	650	2,482	136

The operations of the refinery of the mint at Philadelphia were as follows:

REFINERY OPERATIONS, 1894.

Bullion.	Gold.	Silver.
Gross weight, 1,344,675.673 ounces.	*Standard ozs.*	*Standard ozs.*
Refined by acid, standard ounces by assay	395,068.403	1,052,111.42
Returned from refinery	394,997.885	1,052,295.34
Total	790,066.288	2,104,406.76
Value	$14,698,907.68	$2,448,764.23

At the annual settlement, June 30, 1894, it was found that the wastage of the melter and refiner in operating on 9,310,254.611 ounces of standard gold bullion during the fiscal year was 730.733 ounces standard, or 7.848 per cent of the legal limit of allowance under the provisions of section 8542 of the Revised Statutes of the United States. In operating upon 3,056,809.84 ounces of standard silver during the fiscal year the melter and refiner returned a surplus of 7,173.14 ounces of standard silver.

The operations of the coining department, during the fiscal year 1894, comprising gold and silver, are exhibited in the following table:

Metals operated on.	Standard ounces.
Gold	8,452,167.350
Silver	2,551,942.35

The amount of minor coinage blanks operated upon by the coiner during the year was 4,303,503.20 ounces.

On the settlement of the coiner's accounts at the close of the fiscal year, under the provisions of section 8542 of the Revised Statutes of the United States, it appeared that, in operating upon 8,452,167.350 ounces of standard gold, there was a wastage of 410.429 ounces

standard, or 9.711 per cent of the legal allowance; and in operating upon 2,551,942.35 ounces of standard silver, a wastage of 1,053.68 ounces standard, or 41.29 per cent of the legal allowance.

The coinage executed at the mint at Philadelphia during the fiscal year 1894 was as follows:

Denomination.	Pieces.	Value.
GOLD.		
Double eagles	1,713,257	$34,265,140.00
Eagles	3,327,034	33,270,340.00
Half eagles	1,721,836	8,609,180.00
Quarter eagles	30,101	75,252.50
Total gold	6,792,228	76,219,912.50
Standard dollars	758	758.00
SUBSIDIARY.		
Half dollars	1,416,758	708,379.00
Quarter dollars	2,812,758	703,189.50
Dimes	2,050,758	205,075.80
Total subsidiary	6,280,274	1,616,644.30
Total silver	6,281,032	1,617,402.30
MINOR.		
Five cent (nickel)	9,226,071	461,303.55
One cent (bronze)	25,561,571	255,615.71
Total minor	34,787,642	716,919.26
Total coinage	47,860,902	78,554,234.06

The percentage of good coin produced from ingots operated on was, gold, 48.4, and silver, 55.3.

The number of medals struck in the same Department for the year was as follows:

MEDALS MANUFACTURED, 1894.

Character.	Number.
Gold	84
Silver	382
Bronze	916
Bronze (gold plated)	3,000
Total	4,382

Foreign gold and silver coins deposited and melted at the mint at Philadelphia during fiscal year ended June 30, 1894, were as follows:

Countries of coinage.	Gold.	Silver.
	Value in U. S. money.	Coining value.
Spain	$885.67	$5.76
Great Britain	1,083.39	
Mexico		31.42
Mixed	11,934.42	.98
Total	13,903.48	38.16

Mutilated and uncurrent gold and silver coins of the United States, to the amounts shown in the following table, were deposited and melted at the mint at Philadelphia during the fiscal year ended June 30, 1894:

Denomination.	Pieces.	Face value.
GOLD.		
Double eagles	30,971	$619,420.00
Eagles	33,933	339,330.00
Half eagles	74,580	372,900.00
Three-dollar pieces	49,087	147,261.00
Quarter eagles	57,302	143,255.00
Dollars	280	280.00
Total gold	246,153	1,622,446.00
SILVER.		
Trade dollars	292	292.00
Dollars	2,262	2,262.00
Half dollars	1,061,027	530,513.50
Quarter dollars	4,005,304	1,001,326.00
Twenty-cent pieces	2,638	527.60
Dimes	1,576,824	157,682.40
Half dimes	63,090	3,154.50
Three-cent pieces	9,502	285.06
Total silver	6,720,939	1,696,043.06
Total gold and silver	6,967,092	3,318,489.06

Col. O. C. Bosbyshell having resigned as superintendent of the mint, was succeeded by Dr. Eugene Townsend, who entered on duty April 1, 1894.

The bullion, coin, and other moneys necessary to be taken into account in the transfer incident to the change of superintendents amounted to $187,301,854.20, classified as follows: Gold bullion, $24,266,094.04; gold coin, $3,824,217.50; silver bullion, $107,902,611.40; silver dollars, $50,275,000; subsidiary silver coin, $666,924.63, and minor coin, $344,195.81. The balance, $22,810.82, represents the value of the gold bullion embezzled by the late weigh clerk, which amount, it is believed, will be recovered from his bondsmen and those of the late superintendent.

Of the above amount, $161,696,313.41 were in the hands of the superintendent and $25,582,729.97 in the hands of the operative officers. No verification of latter amount was made at this time, as the bullion was legally in the hands of the operative officers.

Of the silver bullion purchased under the act of July 14, 1890, there were on hand 111,150 bars, containing 118,992,256 ounces of fine silver, costing $107,702,840.90.

An account of this bullion was taken by weight, and found to correspond with the amount charged. The weighing of the bullion occupied some four months, and was completed at the end of July, 1894.

Upon opening the vault containing the silver dollars, which had been stored in 1890, under the joint seal of a representative of the Mint Bureau and the superintendent of the mint, it was found that nearly all the bags, by reason of the dampness of the vault, had so rotted as to be little else than a mass of shreds. It was impracticable to verify the number of dollars by weight, as is usual in the case of new coins,

on account of their wet and slimy condition, thus rendering it necessary to count them on a counting machine, a slow and tedious work. The count of these dollars is still in progress, under a representative of the Mint Bureau and representatives of the retiring and present superintendent, and will in all probability be completed by the end of December.

There is not only a lack of vault room in the Philadelphia Mint, but some of the vaults are so located that they are difficult of access, inconvenient, and ill-adapted for the storage of coin. The fact of their being situated below the level of the street renders them damp, so much so, that if coin be stored in them for any length of time the result will be mildewed and rotten bags, thus entailing much time and expense to count the coin whenever it becomes necessary to do so.

During the year, three gas-annealing furnaces were erected and put in operation.

The results obtained have been very satisfactory, owing to the uniform heat which the gas produces, and which could not be obtained by wood, as formerly used. There is also a saving of about 20 per cent in the operating expenses.

An electric-light plant has also been added which gives all the illuminating power required at a greatly reduced cost to that formerly supplied by the Edison Light Company, and it is estimated the plant will effect a saving of $5,000 annually.

Notwithstanding the increased amount of steam required to operate the dynamos, there has been no increase in the consumption of fuel, but on the contrary, the engines and boilers having been thoroughly overhauled, a saving of 33⅓ per cent in fuel has been effected, 66 tons of coal now producing 115 horsepower as against 95 tons formerly used to produce 75 horsepower, and the amount of ashes has declined nearly one-half.

The annual settlement at the mint at Philadelphia June 30, 1894, was superintended by Mr. Cabell Whitehead, of this Bureau, who reported the settlement as satisfactory.

MINT AT SAN FRANCISCO.

The weight and value of gold and silver bullion deposited at the mint at San Francisco during the fiscal year 1894 was as follows:

Metals.	Standard ounces.	Value.
Gold	1,146,219.783	$21,325,019.21
Silver	3,747,203.54	4,360,382.30
Total	4,893,423.323	25,685,401.51

The number of assays made during the fiscal year was as follows:

Metals.	Number.
Gold	35,000
Silver	12,500
Sweeps	193

The deposits of gold bullion, at the mint at San Francisco, included worn and uncurrent domestic gold coin of the nominal value of $10,737.50, containing 528.307 ounces of standard metal of the coining value of $9,828.97.

The deposits of silver bullion included worn and mutilated domestic silver coin of the nominal value of $3,000,078.80, which produced upon melting 2,360,310.10 ounces of standard metal of the coining value, in subsidiary coin, of $2,936,622.22.

Foreign gold coin containing 81,986.980 ounces of standard metal of the coining value of $1,525,339.16 was received and melted.

The quantity of precious metals operated upon in the metallurgical department was:

Metals.	Standard ounces.
Gold	2,136,351.158
Silver	6,713 323.96

The number of melts made in the same department and the number condemned during the year was as follows:

Metals.	Melts of Ingots.	
	Made.	Condemned.
Gold	722	2
Silver	2,952	1
Total	3,674	3

No fine silver bars were manufactured during the year.

The operations of the refinery at the mint at San Francisco were as follows:

REFINERY OPERATIONS, 1894.

Bullion.	Standard ounces.	Value.
Gold	181,112.956	$3,369,543.37
Silver	146,115.63	163,043.64
Total		3,532,587.01

The bullion melted for coinage during the same period being 2,105,626.930 ounces of standard gold and 4,935,909.75 ounces of standard silver.

Upon the annual settlement of the melter and refiner's accounts, he returned a surplus of 860.627 ounces of standard gold, valued at $16,011.66, and 3,695.21 ounces of standard silver, valued at $2,081.32.

At the annual settlement of the coiner's accounts, at the close of the fiscal year, under the provisions of section 8542 of the Revised Statutes of the United States, it appears that in operating upon 2,169,608.570 ounces of standard gold there was a wastage of 139.318 ounces stand-

ard, or 12.842 per cent of the legal allowance, and in operating upon 5,128,998.07 ounces of standard silver there was a wastage of 968.78 ounces standard, or 18.88 per cent of the legal allowance.

COINAGE EXECUTED AT THE MINT AT SAN FRANCISCO, FISCAL YEAR 1894.

Denomination.	Pieces.	Value.
GOLD.		
Double eagles	1,043,925	$20,878,500.00
Eagles	47,850	478,500.00
Half eagles	56,000	280,000.00
Total gold	1,147,775	21,637,000.00
SILVER.		
Half dollars	3,259,896	1,629,948.00
Quarter dollars	3,097,622	774,405.50
Dimes	1,491,425	149,142.50
Total silver	7,848,943	2,553,496.00
Total coinage	8,996,718	24,190,496.00

The proportion of finished coin produced from ingots operated upon was gold, 54.2 per cent; silver, 50.25 per cent.

The following table exhibits the denominations of domestic gold melted at the mint at San Francisco during the fiscal year ended June 30, 1894:

Denomination.	Pieces.	Face value.
GOLD.		
Double eagles	241	$4,820.00
Eagles	179	1,790.00
Half eagles	736	3,680.00
Three-dollar pieces	12	36.00
Quarter eagles	143	357.50
Dollars	54	54.00
Total gold	1,365	10,737.50
SILVER.		
Dollars	6	6.00
Half dollars	5,049,083	2,524,541.50
Quarter dollars	1,092,040	273,010.00
Twenty-cent pieces	203	40.60
Dimes	2,012,451	201,245.10
Half dimes	24,610	1,230.50
Three-cent pieces	170	5.10
Total silver	8,178,563	3,000,078.80
Total gold and silver	8,179,928	3,010,816.30

The following table exhibits the amount of foreign gold coin melted at the mint at San Francisco during the fiscal year:

Countries of coinage.	Value in United States money.	Countries of coinage.	Value in United States money.
Austria	$2.28	Japan	$16.95
Argentine Republic	38.60	Mexico	101,422.98
Bolivia	89.58	New Granada	590.52
Chile	305.42	Norway	5.36
Costa Rica	1,760.25	Peru	415.90
Denmark	15.08	Russia	3.86
England	1,420,292.58	Spain	1,643.69
Ecuador	112.00	United States of Colombia	549.13
France	390.82	Total	1,529,492.98
Guatemala	759.84		
Germany	1,078.14		

Representing 81,986,980 ounces standard, of the coining value of $1,525,339.16.

Messrs. B. F. Butler and F. W. Braddock, of the Bureau of the Mint, who were designated to make the annual settlement at the San Francisco Mint, were detained at Ogden by reason of the railroad strike, and unable to be present at the settlement between the operative officers and superintendent, which settlement, by authority of the Director of the Mint, was made in the presence of Mr. P. T. Donnelly, of the San Francisco Mint.

Upon the arrival of Messrs. Butler and Braddock, the bullion and coin in the hands of the superintendent was weighed and counted, and they reported as having found all the money and bullion with which the superintendent was charged.

Gen. William Dimond having resigned, Hon. John Daggett was appointed superintendent of the mint at San Francisco, and entered upon duty August 1, 1893.

MINT AT NEW ORLEANS.

The weight and value of precious metals deposited at the mint of the United States at New Orleans, La., during the fiscal year ended June 30, 1894, was as follows:

Metals.	Standard ounces.	Value.
Gold	96,008.010	$1,786,195.53
Silver	3,453,504.11	4,018,622.96
Total	3,549,512.120	5,804,818.49

During the year there was deposited for recoinage 1,837.756 ounces standard of United States mutilated and worn gold coins, of the face value of $34,511, representing a coinage value of $34,190.81, and 1,911,740.07 ounces standard of United States mutilated and worn silver coins, of the face value of $2,492,877.61, representing $2,378,525.74 in new subsidiary coin.

Foreign gold coins containing 187.806 ounces standard, of the coining value of $3,494.06, were also deposited during the year.

The quantity of precious metals operated upon in the metallurgical department was—

Metals.	Standard ounces.
Gold	243,689.227
Silver	3,950,642.52

The number of melts made in the same department and the number condemned during the fiscal year was as follows:

Metals.	Melts for ingots.	
	Made.	Condemned.
Gold	132	17
Silver	349	2
Total	481	19

The operations of the refinery of the mint at New Orleans were as follows:

REFINERY OPERATIONS, 1894.

Bullion.	Standard ounces.	Value.
Gold	11,312.677	$210,468.41
Silver	3,492.76	4,064.30
Total	14,805.437	214,532.71

The wastage of the melter and refiner in operating during the year on 243,689.227 ounces of standard gold bullion, at the annual settlement June 30, 1894, was found to be 19.371 ounces of standard gold, or 7.948 per cent of the legal allowance.

In operating on 3,950,642.52 ounces of standard silver during the year the melter and refiner, on the settlement of his accounts June 30, 1894, returned a surplus over and above the amount delivered him of 423.48 ounces of standard silver.

During the year the old-style boiling furnace used in the refinery of this mint was dispensed with and a lead tank heated by steam substituted, and one gas and two coke furnaces were added to the plant of the melting room.

COINAGE EXECUTED AT THE MINT OF THE UNITED STATES AT NEW ORLEANS, FISCAL YEAR 1894.

Denomination.	Pieces.	Value.
GOLD.		
Eagles	122,000	$1,220,000
Half eagles	79,600	398,000
Total gold	201,600	1,618,000
SILVER.		
Half dollars	2,050,000	1,025,000
Quarter dollars	3,276,000	819,000
Dimes	100,000	10,000
Total subsidiary silver	5,426,000	1,854,000
Total coinage	5,627,600	3,472,000

The percentage of finished gold coin produced from amount operated upon was 43.59 per cent and silver 50.88 per cent.

On the annual settlement of the accounts of the coiner it was found that in operating upon 199,477.200 ounces of standard gold ingots during the fiscal year 1894, there was a wastage of 14.788 ounces of standard gold, or 14.82 per cent of the legal allowance as fixed by law.

In operating on 2,928,073.70 ounces of standard silver during the year, the actual silver wastage of the coiner was 120.04 ounces standard, or 4.09 per cent of the legal allowance.

During the year, the assayer made 10,738 assays, 3,053 of which were gold and 7,685 silver.

The annual settlement at the mint at New Orleans, June 30, 1894, was superintended by Messrs. John T. Kent, of the United States assay office at New York, and W. F. Bowen, of the Bureau of the Mint, who reported in writing that they found on hand all the money and bullion with which the superintendent was charged.

The former cashier of the mint at New Orleans, who was arrested for the embezzlement of $25,000 in June, 1893, was tried before the United States court at New Orleans in December last, and was acquitted of the charge.

Suit has been instituted against the former superintendent, Dr. Andrew W. Smyth, and is now pending for the recovery of the amount.

The President having removed the superintendent, assayer, melter and refiner, and coiner of the mint at New Orleans, Overton Cade was appointed superintendent; R. L. Schroeder, assayer; Lewis Guion, melter and refiner; and H. Gibbs Morgan, coiner; all of whom entered upon duty July 22, 1893.

MINT AT CARSON.

The weight and value of the gold and silver deposited at the mint of the United States at Carson, Nev., during the fiscal year 1894, are exhibited in the following table:

Metals.	Standard ounces.	Value.
Gold	36,577.476	$680,511.18
Silver	486,952.78	566,635.96
Total		1,247,147.14

REFINERY OPERATIONS IN 1894.

Bullion.	Gold.	Silver.
Gross weight, 808,691 ounces.	*Standard ozs.*	*Standard ozs.*
Sent to refinery	48,739.035	804,534.40
Received from refinery	43,360.889	731,955.45
Total	92,099.924	1,536,489.85
Value	$1,713,486.96	$1,787,915.47

J. W. Adams, esq., having been appointed superintendent, and Hirsch Harris, melter and refiner, of the mint at Carson, entered upon their respective duties June 1, 1894. At this time a complete settlement was made of both the superintendent's and melter and refiner's accounts. Upon the settlement of the melter and refiner's accounts, it was found that he had received from the superintendent during the year gold bullion containing 71,077.619 ounces standard, and silver bliluon containing 967,921.12 ounces standard. During the eleven months ended May 31, 1894, he operated upon 67,637.825 ounces of standard gold and 957,779.57 ounces of standard silver. In his gold operations he incurred a wastage of 8.009 ounces of gold, or 11.84 per cent of the legal allowance, and a wastage in his silver operations of 1,379.86 ounces standard, or 96.05 per cent of the legal allowance.

The superintendent of the mint at Carson, in explanation of the large wastage of silver by the melter and refiner in his operations, states that it was due to the fact that a large amount of fine silver, about 600,000 ounces, was received from the refinery at a fineness of from 0.991 to 0.992 and refined by crucible to 0.997½ and upward. The explanation of the superintendent is not a satisfactory one.

At the time the settlement was made, June 1, 1894, the melter and refiner was ill and died shortly thereafter. The Bureau is at a loss to understand why the melter and refiner should have adopted the mode of procedure described above. Such procedure is not consistent with good mint practice since silver bullion of the fineness of 0.991 and 0.992 is clearly suitable for coinage, the base metal being copper. If the refining was done for the preparation of fine bars, a reference to article 7, section 2, page 7, of the Regulations would have shown that "fine bars may be approved when they have a fineness of 0.992 andupward."

A much less drastic treatment would have brought this silver within the category of fine bars, and no treatment at all was needed for fitting it for coinage. While the treatment adopted appears to have been clearly injudicious, yet it might be more readily excused if the fluxes and sweeps had shown a large part of the missing bullion, as was to be expected. Measures have been adopted that will prevent this course of treatment of bullion in the refinery hereafter.

Messrs. B. F. Butler and F. W. Braddock, who had been designated to superintend the annual settlements at the mints on the Pacific Coast, were unable to reach Carson before the close of the fiscal year, being detained en route by the railroad strike. A complete settlement, however, of the accounts of both the superintendent and melter and refiner having been made June 1, when the present superintendent, J. W. Adams, and Melter and Refiner Hirsch Harris entered upon their respective duties, it was not deemed necessary to have a general settlement of the melter and refiner's accounts. The representatives of the Bureau, after completing the counting and weighing of the coin and

bullion in the hands of the superintendent of the mint at San Francisco, visited Carson and weighed and counted the bullion and coin in the hands of the superintendent of the mint at that place, and found the same to agree with the accounts.

ASSAY OFFICE AT NEW YORK.

The value of the gold and silver deposited at the United States assay office at New York during the fiscal year 1894 aggregated $48,224,012.04 against $26,506,360.92; an increase of $21,717,651.29 over 1893.

United States gold coin (worn and mutilated), containing 21,650.106 ounces standard of the coining value of $402,792.67, and uncurrent silver coins containing 580.82 ounces standard of the coining value of $675.86, were deposited during the year.

Foreign gold coins containing 582,841.914 ounces standard of the coining value of $10,843,570.49, and silver coins containing 469,660,74 ounces standard of the coining value of $546,514.32, were also deposited during the year.

The weight and value of the deposits were as follows:

Metals.	Weight.	Value.
	Standard ozs.	
Gold	2,209,946.300	$41,115,280.00
Silver	6,109,066.60	7,108,732.04
Total value		48,224,012.04

During the year fine gold bars of the value of $5,322,221.21, and fine silver bars of the value of $6,569,578.66, were issued for use in the industrial arts and manufactures.

The quantity of bullion operated upon in the melter and refiner's department was:

Bullion.	Weight.
	Standard ozs.
Gold	2,225,033.852
Silver	6,060,036.36

The operations of the refinery of the assay office at New York were as follows:

REFINERY OPERATIONS, 1894.

Bullion.	Weight.	Value.
Gross weight 4,514,573.93 ounces.	*Standard ozs.*	
Gold	516,084.116	$9,601,564.95
Silver	3,930,153.37	4,573,269.36
Total	4,446,237.486	14,174,834.31

The amount of sulphuric acid used for parting operations was 1,583,310 pounds.

The proceeds of sale of spent acids and blue vitriol amounted to $11,997.54, and of old material, $348.48, a total of $12,346.02.

The number of fine, mint, and standard bars manufactured was 53,549, containing 2,199,184.245 ounces of standard gold of the value of $40,915,055.72, and 6,066,507.60 ounces of standard silver of the value of $7,059,208.84.

The number of gold deposits melted was 7.473, and of silver, 3,417.

On the annual settlement of his accounts at the close of the fiscal year it appears that the melter and refiner in operating upon 2,225,033.852 ounces of standard gold bullion incurred a wastage of 137.198 ounces standard of the value of $2,552.52, being 6.166 per cent of the legal allowance. In operating upon 6,060,036.36 ounces of standard silver bullion during the year the melter and refiner returned a surplus of 603.31 ounces standard of the value of $603.31.

The work of the assay department during the year comprised the testing of some 12,000 melts of metal and 600 to 700 barrels of sweeps, in addition to the stamping of nearly 60,000 bars and the making of a large number of special assays of bullion.

The tenants of the higher floors of a new building, erected during the year on the street immediately in the rear of the refinery, having complained that the smoke, fumes of acids, etc., from the refinery were a great annoyance, the owner called the attention of the superintendent thereto. The matter, through the superintendent of repairs to public buildings in New York, was referred to the Supervising Architect at Washington, with the result that an iron pipe 5 feet in diameter and 52 feet long was placed on the top of the stack, raising its outlet some distance above the building and obviating all cause of complaint.

The addition to the stack is attached to and supported by the building, and is covered with paint claimed to be steam and acid proof.

The skylight in the weigh room of the assay department has been enlarged, effecting a saving of expenditure for artificial light and adding greatly to the comfort of the employees.

An opening made in the ceiling of the receiving room and in the hall floor of the second story extends the benefit of a skylight to that room and improves its ventilation.

Messrs. H. Clay Stier, of the First Auditor's Office, and A. A. Hassan, of the Bureau of the Mint, superintended the annual settlement, June 30, 1894, and reported that they found on hand all the coin and bullion with which the superintendent was charged.

MINT AT DENVER.

The value of the bullion operated upon at the mint of the United States at Denver, Colo., during the fiscal year ended June 30, 1894, was $3,259,277.77, an increase of $1,841,482.90 over the deposits of the previous year.

The number of deposits received and melted during the fiscal year 1894 was 3,674, a gain over 1893 of 1,595.

The increase in the deposits of gold is due, first, to the increase in the gold output of Colorado and the adjacent States and Territories; secondly, to the fact that two of the largest smelting and refining works in the West deposit their fine gold bars at the Denver mint, where they are paid for either by check on the depository banks at Denver or on the Assistant Treasurer of the United States at Chicago, Ill.

Owing to the large increase in the deposits of gold, it has been found necessary to erect an additional melting furnace, which will increase the melting capacity one-third. A small toughening plant will also be erected at an early date, at a cost of about $500.

The deposits, earnings, and expenditures for the fiscal year are shown in the following table:

Items.		Amount.
Deposits:		
Gold	$3,221,105.56	
Silver	38,172.21	
		$3,259,277.77
Earnings		7,947.63
Expenditures		27,434.72

Percentage of net expenses to deposits, 0.597

MUTILATED AND UNCURRENT GOLD COINS OF THE UNITED STATES MELTED AT THE MINT AT DENVER, COLO., DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Denomination.	Gold.	
	Number of pieces.	Face value.
Double eagles	159	$2,580
Eagles	51	510
Half eagles	29	145
Total	239	3,235

Michael E. Smith, esq., having resigned as assayer in charge of the mint at Denver, William J. Puckett, esq., was appointed, and entered upon duty December 1, 1893.

ASSAY OFFICE, HELENA, MONT.

The deposits of bullion of the assay office at Helena during the fiscal year ended June 30, 1894, amounted to $2,020,733.05, an increase of $587,931.58 over the deposits of the previous year.

The deposits, earnings, and expenditures for the fiscal year 1894 are as follows:

Items.		Amount.
Deposits:		
Gold	$1,963,534.60	
Silver	57,198.45	
		$2,020,733.05
Earnings		5,067.47
Expenditures		24,403.35

Percentage of net expenses to deposits, 0.956

MUTILATED AND UNCURRENT GOLD COINS OF THE UNITED STATES MELTED AT THE ASSAY OFFICE AT HELENA, MONT., DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Denomination.	Number of pieces.	Face value.
Double eagles	1	$20.00
Total	1	20.00

ASSAY OFFICE AT CHARLOTTE, N. C.

The deposits of bullion at the assay office at Charlotte during the fiscal year ended June 30, 1894, amounted to $249,513.64, an increase of $9,147.20 over the amount of deposits reported last year.

The deposits, earnings, and expenditures for the fiscal year 1894 are as follow:

Items.		Amount.
Deposits:		
Gold	$248,284.96	
Silver	1,228.68	
		$249,513.64
Earnings		1,098.74
Expenditures		4,750.00

Percentage of net expenses to deposits, 1.463.

MUTILATED AND UNCURRENT GOLD COINS OF THE UNITED STATES MELTED AT THE ASSAY OFFICE AT CHARLOTTE, N. C., DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Double eagles	6	$120.00
Eagles	26	260.00
Half eagles	4	20.00
Quarter eagles	7	17.50
Total	43	417.50

UNITED STATES ASSAY OFFICE, BOISE, IDAHO.

The deposits at the assay office at Boise during the fiscal year ended June 30, 1894, amounted to $801,138.37, an increase of $14,096.74 ove the deposits of the previous year.

The following table exhibits the deposits, earnings, and expenditures of this office during the fiscal year 1894:

Items.		Amount.
Deposits:		
Gold	$783,254.87	
Silver	17,883.50	
		$801,138.37
Earnings		3,226.91
Expenditures		11,192.16

Percentage of net expenses to deposits, 0.994

During the year a Hoskins gasoline blowpipe and cupelling furnace were added to the outfit of this institution, effecting not only a saving of time but also of materials.

For the accommodation and convenience of the numerous small miners, many assays of deposits of gold bullion weighing less than 5 ounces are made at this institution at a nominal charge of 50 cents.

ASSAY OFFICE AT ST. LOUIS, MO.

The deposits of bullion at the assay office at St. Louis during the fiscal year ended June 30, 1894, amounted to $157,913.84, a decrease of $573,523.44 reported for the fiscal year 1893. This falling off has occurred in the amount of domestic bullion, no refined bars of that description having been deposited.

The deposits, earnings, and expenditures for the fiscal year 1894 are as follows:

Items.		Amount.
Deposits:		
Gold	$155,620.33	
Silver	2,293.51	
		$157,913.84
Earnings		667.37
Expenditures		5,056.56

* Average.

SUMMARY OF OPERATIONS OF MINTS AND ASSAY OFFICES, 1894.

The precious metals received at the mints and assay offices during the fiscal year 1894 were valued at $170,352,370, against $135,943,272 received the previous year.

The operations of the melting and refining departments of the coinage mints and of the assay office at New York for 1893 and 1894, so far as the value of the metals treated is concerned, are exhibited in the following table:

BULLION OPERATIONS OF THE MELTING DEPARTMENTS, 1893 AND 1894.

Metals.	Fiscal year 1893.		Fiscal year 1894.	
	Standard ounces.	Coining value.	Standard ounces.	Coining value.
Gold	4,173,160	$77,640,186	13,918,586	$258,950,446
Silver	33,403,334	38,869,335	20,546,684	23,908,867
Total	37,576,494	116,509,521	34,465,270	282,859,313

The operations of the coining branches of the mints during the fiscal years 1893 and 1894, in the manufacture of finished coins from ingots prepared by the melting departments were, in value of the metals operated upon, as follows:

BULLION OPERATIONS OF THE COINING DEPARTMENTS, 1893 AND 1894.

Metals.	Fiscal year 1893.		Fiscal year 1894.	
	Standard ounces.	Coining value.	Standard ounces.	Coining value.
Gold	3,277,371	$60,974,344	10,821,252	$201,325,620
Silver	20,758,389	24,155,216	10,609,013	12,346,196
Total	24,035,760	85,129,560	21,430,265	213,671,816

The work of the minor assay offices at Helena, Mont.; Boise, Idaho; Charlotte, N. C.; St. Louis, Mo., and the mint at Denver, Colo., which consists in the receipt and assaying of deposits and the manufacture of unparted bars of gold and silver, during the fiscal years 1893 and 1894, was as follows:

OPERATIONS OF MINOR ASSAY OFFICES, 1893 AND 1894.

Metals.	Fiscal year 1893.		Fiscal year 1894.	
	Standard ounces.	Coining value.	Standard ounces.	Coining value.
Gold	239,585	$4,457,394	342,484	$6,371,794
Silver	130,666	152,046	100,355	116,776
Total	370,251	4,609,440	442,839	6,488,570

The following table is a summary of the three preceding tables, showing the value of the precious metals operated on at the mints and minor assay offices during the fiscal years 1893 and 1894:

BULLION OPERATED UPON IN THE MELTING AND COINING DEPARTMENTS OF ALL THE MINTS AND ASSAY OFFICES, 1893 AND 1894.

Metals	Fiscal year 1893.		Fiscal year 1894.	
	Standard ounces.	Coining value.	Standard ounces.	Coining value.
Gold	7,690,116	$143,071,925	25,082,322	$466,647,850
Silver	54,293,390	63,177,764	31,256,052	36,370,677
Total	61,983,506	206,249,689	56,338,374	503,018,527

In quantity the precious metals operated upon in the different departments of the mints and assay offices during the fiscal year ended June 30, 1894, exceeded 860 tons of gold and 1,069 tons of silver.

The value of the precious metals wasted in the metallurgical and mechanical departments was $29,174.35.

A loss of $16,794.30 occurred from the difference between the assay value of bullion contained in sweeps and leady melts sold and the amount received for the same.

The wastages and losses aggregated $45,968.65. Against these losses there were gains arising from the operations on bullion as follows:

Character.	Amount.
Surplus bullion returned by the operative officers	$23,125.86
Precious metals recovered in grains and sweepings	8,177.96
Gain on bullion shipped from the minor assay offices to the mint for coinage	6,362.85
Total gains	37,666.67

Deducting the value of the total operative wastage and loss on sale of sweeps from the value of incidental gains of bullion, there was a net loss in the operations of the mints during the year of $8,301.98.

The following table exhibits the cost per piece at the mints of the United States during the fiscal years 1893 and 1894:

COST OF COINAGE EXECUTED AT THE COINING MINTS OF THE UNITED STATES DURING THE FISCAL YEARS 1893 AND 1894.

Coining mints.	Pieces coined.		Pieces coined, exclusive of minor coins.	
	Fiscal year.		Fiscal year.	
	1893.	1894.	1893.	1894.

MONETARY STATISTICS OF FOREIGN COUNTRIES.

The statistics of the coinage and production of the precious metals, imports and exports of gold and silver, amount of bank and Government notes, both covered and uncovered, of the different foreign countries published annually in the reports of this Bureau are obtained directly from the governments of such countries by the representatives of the United States accredited to them.

A list of interrogatories embodying the points on which information is sought is sent every year to our ambassadors and ministers through the Department of State, and the answers are received in the form of reports made directly to this Bureau.

The questions relating to the calendar year 1893 are as follows:

(1) What was the amount of gold coined during the calendar year 1893, by denominations and values? What amount was recoined (withdrawn from circulation) during the year, domestic and foreign coins separately?

(2) Same question as to silver.

(3) What was the weight and value of the gold used in the industrial arts during the year?

(4) Same question as to silver.

(5) What was the import and export of gold during the calendar year 1893? Coin, bullion, and ore, as well as their weight and value, should be given separately, if possible.
(6) Same question as to silver.
(7) What was the weight, expressed in kilograms, and the value of the gold produced from the mines of the country during the calendar year 1893?
(8) Same question as to silver. In answering this interrogatory, state whether the value given is commercial or coining value.
(9) What was the output of gold from the refineries of the country during the year?
(10) Same question as to silver.
(11) What, approximately, was the stock of gold coin and bullion in the country at the close of the calendar year 1893?
(12) Same question as to silver.
(13) What was the amount of Government notes outstanding at the same date?
(14) What was the amount of bank notes outstanding?
(15) What was the amount of uncovered Government notes?
(16) What was the amount of uncovered bank notes?
(17) What is the actual currency of the country—gold and silver, or inconvertible paper?
(18) Is gold at a premium as compared with the actual currency of the country; and, if it is, what was the average premium during the year 1893?
(19) Were any laws passed during the year 1893 affecting the coinage, issue, or legal-tender character of the metallic or paper currency? If so, please transmit copies of the same.
(20) Is there a report published of the operations of the mint? If so, please forward a copy.

It is usual for the Bureau to supplement the information received through our foreign representatives by other statistical data obtained from printed documents, both official and nonofficial.

The Director hereby expresses his acknowledgments to the senders for this year for the Twenty-fourth Annual Report of the Deputy Master of the Royal Mint, 1893, London, 1894; London Bankers' Magazine, 1894; Journal of the Statistical Society, London, 1894; Journal of the Institute of Bankers, London, 1894; Board of Trade Journal, London, 1894; Government of India, Financial Statement, 1893–94, Calcutta, 1894; Financial and Commercial Statistics of British India, Calcutta, 1894; Report of the Head Commissioner of Paper Currency, Calcutta, to the Secretary of the Government of India for the year 1893–94, Calcutta, 1894; Accounts Relating to the Trade and Navigation of British India, for the fiscal year 1893–94, Calcutta, 1894; Report of the Administration of the Mints at Bombay and Calcutta for the year 1893–94, Simla, 1894; Annual Report of the Secretary of Mines of Victoria during the year 1893, Melbourne, 1893; the Australian Insurance and Banking Record, 1894; Broken Hill Proprietary Company, Limited, New South Wales, reports, etc., for half year ending May 31, 1884; Report of the Director of the Imperial Mint of Japan for the year ending March 31, 1894, Hyogo, 1894; República Mexicana, Noticias del Movimiento Maratímo en el Año Fiscal de 1892 á 1893, México, 1894; República Mexicana, Exportaciones en el Año Fiscal de 1892 á 1893, México, 1894; Amonedaciones é Introducciones de Metales Preciosos á la Casa de Moneda, Año Fiscal de 1892 á 1893, México, 1894; Zeitschrift für Berg., Hütten- und Salinen-Wesen im Preussischen Staate, Jahrgang 1894, Berlin, 1894; Bulletin de Statistique et de Législation Comparée, Paris, 1894; Revue des Banques, Paris, 1894; Algemeen Verslag van het Münt College, over 1893, Amsterdam, 1894.

For special information kindly furnished the Bureau the Director desires to express his personal obligations to the following gentlemen:

Sir Charles Fremantle, deputy master of the Royal Mint, London; Hon. George Anderson, deputy master of the mint, Melbourne, Australia; Hon. J. E. O'Conor, assistant secretary of the Government of India; Mr. J. Stavoli, chief of the bureau of statistics, Mexico; to the chan-

cellor of the exchequer, Russia; the directors of the mints of Japan, the Netherlands, Paris, Berlin, Vienna, and Kremnitz; Mr. Augustus Sauerbeck, London, and Mr. Ottomar Haupt, Paris.

The replies to the interrogatories, which are given in full in the Appendix to this report, are indicated by the numbers of the questions.

For convenience of reference the more important statistical data relating to foreign countries and contained in the answers to the interrogatories are condensed into the following tables:

AUSTRALASIA.

THE GERMAN SILVER COMMISSION.

The commission appointed in January, 1894, by the Imperial German Government, "to discuss measures for raising and fixing the value of silver," held its first session on the 22d of February, 1894, in Berlin, and its final session on the 6th of June following. It was a commission appointed to discuss, debate, propose, but had no right to vote on any measure. Its essential duty was to give information to the Imperial Government on the means of raising the value of silver, and this task it ably discharged. The commission consisted of twenty-eight mem-

bers (nine of whom represented the Government). Among them were such pronounced monometallists as Ludwig Bamberger, and such double standard advocates as Otto Arendt. The discussions were exhaustive and learned. The report of the commission is in two large volumes, the first containing 714 pages, the second about one-third of that number.

The following is a list of the most important papers and propositions laid before the commission:

(1) By Bergrath Schmeisser: Report on the permanency of gold mining in the South African Republic.
(2) By Count von Kanitz: Draft of an Imperial coinage law introducing the double standard into Germany at the ratio of 1 to 15½.
(3) By Professor Lexis: Propositions for raising the value of silver.
(4) Tables relating to the execution of the German monetary reform.
(5) Proposition for an international monetary agreement, by Dr. Arendt and others.
(6) History preparatory to that of the German monetary reform, by Dr. Bamberger.
(7) Proposition for an international double standard, by Bank Director Neustadt.
(8) Tables of prices in Germany from 1871 to 1893, by the statistical office of the Empire.
(9) Propositions respecting transition measures to raise the value of silver, by Dr. Arendt.
(10) Present condition of the world's production of the precious metals, by Dr. Hauchecorne.
(11) The circulation of German thalers.
(12) History preparatory to that of the German monetary reform, by Dr. Arendt
(13) The question of the standard and industry.
(14) Is a considerable diminution of Germany's monetary gold stock to be feared after the execution of a convention providing for the double standard?
(15) The German sales of silver compared with the production of silver.
(16) Table showing the copper contents of Mansfeld copper ore.
(17) On the occurrence and permanency of gold in their economic bearings, by Mining Inspector Wimmer.

Mr. von Posadowski, president of the commission and secretary of state in the treasury of the Empire, has summed up, in a very impartial manner, the arguments made by both the monometallists and the bimetallists who took part in the debates.

The following is a translation of Mr. Arthur Raffolovich's version of the president's summary, extracted from the Économiste Français of October 27, 1894:

The bimetallists alleged that since the introduction of the gold standard, the price of silver has fallen more than 50 per cent. They did not find the cause of this phenomenon in the increase of production, for if, with respect to the comparative conditions of the production of gold and silver, we go back to the year 1850, that is, to a period anterior to the Californian discoveries, we find that the production of gold increased in much larger proportions than that of silver, and that notwithstanding the price of the yellow metal never fell perceptibly at any time. Bimetallists find the causes of the depreciation of silver in governmental measures exclusively, that is, in the demonetization of silver and the closing of the mints to its free coinage.

The bimetallists maintain that there is an unlimited demand for silver, and in support of this, cite the fact that all the silver produced immediately finds a purchaser and that there is no supply of silver on the market in excess of the demand for it. They find the effects of the demonetization of silver, first of all in the increasing purchasing power of gold, and they then infer that, as at present it is necessary to give for the same amount of gold a greater amount of merchandise or of labor than in the past the gold standard has caused the price of commodities to fall. In order to show the effects of the standard on the prices of the principal articles of consumption, the bimetallists rely on the well-known tables of Mr. Augustus Sauerbeck, on those of the London Economist, and on a whole series of statistical data.

The bimetallists see in this decline of the prices of commodities, not only the cause of the economic crisis, and consequently of an economic evil, but they infer that this business depression is attended by disastrous political consequences, and that it may be said that the development of revolutionary socialism, and even of

that of German Anti-Semitism, depends in a certain measure on business depression. They see in the introduction of bimetallism the remedy for actual economic and political evils; they maintain that there is not sufficient gold at present for the countries that have the gold standard already; if these countries maintain their monetary system, the other States which still have the silver standard will be forced by the general conditions of trade to adopt the gold standard, and from the adoption of that standard there would result a still greater scarcity of gold, in consequence of which there would be a new decline of prices. The bimetallists declare that geological research shows that there is a great probability that, in the future, and even in the near future, the auriferous beds of the world will be exhausted, and that their exhaustion will be followed by an aggravation of existing evils.

The bimetallists, therefore, demand a legal-tender power of silver equal to that of gold, and they desire to attain that equality for silver by means of free coinage of the white metal; from which they expect a greater circulation of the media of payment, and as a consequence of the latter, a rise of prices, and therefore the termination of the actual present business depression.

The representatives of bimetallism have besides declared that the ratio between gold and silver, so far as they were concerned, is a secondary question. They say, however, that the restoration of the old ratio of 1 to 15½ is an end worthy of attainment, and they do not consider it a condition sine qua non in bimetallic negotiations. They even believe that the ratio between the two metals may be the object of a compromise. They allege that from the moment when the demonetization of silver ceased, when the situation which existed before the adoption of the gold standard has been restored, the old ratio will become established of itself, and that silver will stand to gold in the ratio of 1 to 15½. Lastly, they affirm that the charge made by the monometallists that the bimetallists desire to meet their obligations in a depreciated money or one of less value is unjust, and this because as soon as, in consequence of the legal introduction of bimetallism, silver has obtained the same payment power as gold the payments of debts may just as well be made in the white metal, whose intrinsic value will be equal to that of gold.

The bimetallists who heard this résumé of the president of the conference, Mr. Posadowski, made no protest against its accuracy, and it may be admitted that it represents their platform.

Mr. Posadowski made a similar résumé of the arguments of the partisans of the gold standard. In the course of the debates of the conference he said the representatives of the gold standard did not deny that the legislative measures taken since 1873 exercised an influence on the fluctuations of silver, but they insisted that the influence of the increase in the production of silver and its effect on the decline of that metal should be taken into consideration. It is true, they admitted, that there is no surplus supply of silver in the market, and that all the silver produced finds a purchaser, but it finds a purchaser only at a reduced price of the metal, and in this reduced price the excess of production naturally finds its commercial expression.

The partisans of the gold standard are therefore of opinion that the demonetization of silver, in the form of bimetallism, would not restore the old parity of 1 to 15½. They think that the legal ratio should be regulated by the real ratio of prices, as was the case when France, at the beginning of this century, adopted its monetary system, but they do not believe that by granting the free and unlimited coinage of silver it is possible to return again to the old parity of 1 to 15½, and they are of the opinion that it is impossible to regulate the prices of the precious metals for all time by monetary laws, and especially not the price of silver. Do they, nevertheless, desire to try the experiment? The divergence between the commercial price of the metal and its legal value would find its natural expression in a premium on gold.

The representatives of the gold standard maintain that it is not the price of gold which has risen, but rather the price of silver which has lowered; they do not recognize any great force in the statistical tables, especially those of Mr. Sauerbeck, who claims to have demonstrated that there is a close and constant relation between the price of silver and the price of commodities; they object that, if such a latent economic law existed, it would apply to the price of all commodities. If, on the one hand, it can not be denied that since the adoption of the gold standard a whole series of commodities has fallen in price, as many examples may be cited whose prices have risen; in any event, it is incontestable that wages (the price of manual labor) have risen.

They also maintain that the fall of the price of commodities, where it has taken place, has its origin in an improvement of the processes of production, and on the other hand, in the perfecting of the means of transportation. They deny that the existence of the scarcity of gold at the present time has been demonstrated. If gold is too scarce, gold being the legal instrument of payment, it logically follows that the rate charged for the loan of the instruments of payment is expressed by interest

and discount. But, during the last twenty years, there has been a decline both of the rate of interest and the rate of discount.

Besides, the partisans of the gold standard are of the opinion that by the introduction of the double standard the monetary rise of prices might be produced, perhaps even a rocket-like rise of prices. Not only the prices of the products which the agriculturist sells would rise, but also the price of the commodities which the agriculturists buy, as well as the price of labor—that is, wages, this last increasing gradually. They have therefore tried to show that if the price of commodities rises, the net products would not increase in the same proportion.

As to wages, there should be reason to fear, in the first place, that in case the prices of the products of agriculture and of other commodities advanced, there would be a deterioration in the standard of living of all workmen not paid in kind, experience having proved that when there is a general rise of prices wages paid in money are the slowest to rise. One point, however, was conceded by the monometallist; that is, that the introduction of bimetallism might, to a certain extent, be advantageous to the working classes. It was conceded also that the rise of prices of commodities would make the reimbursement of debts requiring fixed payment more easy.

Lastly, the monometallists explained that, even if this advantage were accepted for debtors, the higher prices would constitute a perceptible disadvantage to those with fixed incomes, and that the creditor would be injured in the same proportion, as the debtor would find it easier to pay his debts. The creditor is not always the stronger economically.

The partisans of the gold standard, therefore, believe that the introduction of bimetallism would cause a modification of prices, but that this modification of prices would produce only a temporary and apparent improvement. Some of them have not ignored that with a depreciation of silver serious inconvenience to trade with countries having a depreciated currency would result, but they contend that the evils caused by a modification of the gold monetary system of Germany would extend to larger circles, and would assume dimensions much more considerable.

With respect to the international agreement, they contended that, even on the hypothesis that bimetallism be desirable, expediency demands that, under any circumstances, the initiative should be taken by England, for if it were desired to introduce bimetallism legally without the participation of England the price of silver might be doubtless temporarily raised. In this way a remedy would be indirectly applied to the evils from which England suffers, and the latter would consequently have fewer incentives to enter into bimetallic union.

The partisans of the actual régime have therefore remained faithful to the attitude which they had hitherto maintained. They do not consider the introduction of the double standard necessary nor economically useful.

Considering the interest attached to the résumé of the president of the German silver commission, we have deemed it useful to faithfully translate it. We shall add to it the conclusion which Mr. von Posadowski expressed at the closing session of the commission.

"I believe," he said, "that the commission is agreed upon three points—that the fluctuations and the low price of silver have caused certain inconveniences to our export trade and our domestic production; that Germany alone is not in a position to take effectual measures to raise the price of silver; that an enhancement of the price of silver by means of a monopoly of a syndicate or of the purchase of the mines by the State could not be effected.

"No understanding has been reached on the question whether, in view of free production, the rise of prices might not be effected, nor by what means; nor of the question, what degree of importance, in view of the general interests of all, should be given to the particular interests compromised by the decline of silver; nor what fixed ratio should be proposed for an international convention; nor on the question whether the remedies proposed from various directions would not be more dangerous than the disease itself."

The German minister added that no matter to what party a person belonged, he had to admit that the inconveniences existing in the monetary domain are difficult of suppression, and this in consequence of the international trade of Germany. One should not identify with monetary questions economic evils, the responsibility for which an impartial judge could not trace, except in part, to the monetary régime.

The silver commission devoted its last five sessions to a debate between experts on the researches of geology and mining science.

In conclusion, we would remark that the commission has no political bearing or sanction. Germany has brought its contribution to monetary literature. Those who have had the courage to peruse the two enormous volumes of the report of its proceedings will share our [Mr. Rafalovich's] opinion that it has not added a single new argument which can cause Germany to regret the reform which it accomplished in 1873.

MONETARY SYSTEMS OF THE PRINCIPAL COUNTRIES OF THE WORLD.

In the Appendix will be found a brief abstract of the monetary systems of the principal foreign countries,* which, however, had no claim to an official character. It is simply a compilation from the latest and most reliable sources, especially Schönberg's Handbuch der National-Oekonomie, Say and Chailley's Dictionnaire de L'Economie Politique, Haupt's Arbitrages et Parités, Tate's Modern Cambist, and a pamphlet prepared in 1892 by the then director, Mr. E. O. Leech, on the monetary systems of the principal countries, the full and free use of all of which has been made in the preparation of the briefs, and the indebtedness of the Bureau to each is hereby acknowledged.

Acknowledgments are due the officers and clerical staff of the Bureau for the zeal and fidelity displayed in the performance of their duty.

Very respectfully,

R. E. PRESTON,
Director of the Mint.

Hon. J. G. CARLISLE,
Secretary of the Treasury, Washington, D. C.

(No. 3.)

REPORT OF THE COMPTROLLER OF THE CURRENCY.

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
Washington, December 3, 1894.

SIR: I have the honor to herewith submit, as required by law, for the consideration of Congress, the annual report of the Comptroller of the Currency. It is the thirty-second report made since the organization of the Bureau, and covers the year which ended October 31, 1894.

The records of the Bureau show that on October 31 the total number of national banks in operation was 3,756, with an authorized capital stock of $672,671,365, represented by 7,955,076⅔ shares of stock owned by 287,842 shareholders, thus giving to each bank in the system an average capital stock of $179,092, with 2,117 shares and 76 shareholders.

In this total number of banks in the system Pennsylvania leads with 406; New York follows with 334; Massachusetts is next with 267, and the three following in order of numbers are Ohio, 246; Texas, 218; and Illinois, 217. In the item of capital stock Massachusetts is first, with $97,992,500, with the several States following next in the order named, viz: New York, $87,346,060; Pennsylvania, $74,168,390; Ohio, $45,240,100; Illinois, $38,506,000; Texas, $23,255,000; Connecticut, $22,791,070, and Missouri, $20,840,000.

On October 2, 1894, the date of their last report of condition, the total resources of the 3,755 banks then reporting were $3,473,922,055.27, of which their loans and discounts aggregated $2,007,122,191.30, and money of all kinds in bank, $422,428,192.45. Of their liabilities, $1,728,418,819.12 represented individual deposits, $334,121,082.10 surplus and net undivided profits, and $172,331,978 circulating notes outstanding. The total amount of circulation of national banks October 31, as shown by the books of the office, was $207,472,603, a net decrease during the year of $1,741,563, and a gross decrease of $8,614,864 in circulation secured by a deposit of bonds.

During the year but 50 banks, located in 22 States, were organized, with a total capital stock of $5,285,000. This is the smallest number of banks organized, as well as the minimum amount of capital, in any one year since 1879. In point of numbers Pennsylvania leads with 8 banks, followed by Illinois with 5, Minnesota 4, Ohio and Texas 3 each; the remaining 27 are distributed among the other States. In point of capital stock Kentucky is first, with $800,000, Pennsylvania second, with $600,000, Missouri third, with $575,000, and Ohio fourth, with $510,000.

An examination of the geographical location of these banks shows 27,

with a capital stock of $2,410,000, in the Northern and Eastern States; 10, with a capital stock of $1,550,000, in the Southern States; and 13, with a capital stock of $1,325,000, in the Western or trans-Mississippi division.

The charters of forty-one national banks, having a capital stock of $5,143,000 and a circulation of $1,678,050, distributed throughout 18 States were extended during the year. Of these, 9 are located in Illinois, 5 in Indiana, and 4 each in Ohio and Kentucky. (The details as to the distribution of the remainder will be found in the table.) The aggregate capital stock of the leading States is as follows: Kentucky, $825,000; Illinois, $698,000; California, $500,000; Massachusetts, $500,000, and Texas, $500,000.

Within the year 79 banks, with an aggregate capital stock of $10,475,000, have passed out of the system by voluntary liquidation, and 21, including 2 which failed during the year 1893, with a capital stock of $2,770,000, have become insolvent and been placed in charge of receivers. Ten banks, with a capital stock of $1,575,000, which were in the hands of receivers at the date of the last report, have resumed business during the year.

The charters of 6 banks, reporting a capital of $665,000 and a circulation of $283,950, expired by limitation, 5 of which were succeeded by new associations, with a capital stock aggregating $600,000 and circulation amounting to $92,250.

By a comparison of the statements contained in the last report with the operations of the present year, it is observed that the number of new banks decreased 69; the number of voluntary liquidations increased 33; the number of receivers appointed decreased 44. The number of extensions of corporate existence increased 1; the number of expirations increased 2, and the number of banks organized to succeed expiring associations increased 1. The total number of active banks decreased 40.

The following abstract of the reports made in response to the five calls required by law indicates the changes which have characterized the status of the banks at different periods throughout the year covered by this report. For the purpose of facilitating comparison with the year preceding the reports of condition for that year are also given

SUMMARY OF THE STATE AND CONDITION OF EVERY NATIONAL BANK REPORTING DURING THE YEAR ENDED OCTOBER 2, 1894.

	Dec. 19, 1893.	Feb. 28, 1894.	May 4, 1894.	July 18, 1894.	Oct. 2, 1894.

REPORTS OF 1893 AND 1894 COMPARED.

The changed condition of the national banking interests, despite the severe and prolonged financial and business depression of the year, as shown by a comparison of the tables, is not less marked than was that between the years 1892 and 1893. The recovery of public confidence in the banks during the year 1894 has been not less rapid than was the apparent loss of such confidence in 1893.

Individual deposits declined from $1,764,456,177 on December 9, 1892, to their lowest point, $1,451,124,330, on October 3, 1893, but from the last-named date they began steadily to increase to $1,539,399,795 on December 19, 1893, $1,586,800,444 on February 28, 1894, $1,670,958,769 on May 4, 1894, $1,677,801,200 on July 18, 1894, until on October 2, 1894, they had reached the sum of $1,728,418,819, or an amount but $36,000,000 less than on December 9, 1892, the highest point reached during the two years named.

In this connection is to be considered that on December 9, 1892, these deposits were held by 3,784 banks, with a capital stock of $689,698,017, while on October 2, 1894, they were held by only 3,755 banks, with a capital stock of but $668,861,847.

At the last-named date the banks had a surplus fund of $245,197,517, and net undivided profits of $88,923,564, as against, on December 9, 1892, a surplus fund of $239,931,932, and undivided profits, after deducting expenses and taxes, of $100,398,914.

During the two years named the national-bank notes outstanding increased from $145,669,499, on December 9, 1892, to $182,959,725 on October 3, 1893, after which date they decreased until July 18, 1894, when the amount of $171,714,552 was reached. Between that date and October 2, 1894, the amount again increased, reaching $172,331,978.

The amount due to other national banks on December 9, 1892, was $323,339,449. It gradually decreased to $226,423,979 on October 3, 1893, but after that date again increased, and on October 2, 1894, stood at $343,692,316. So also with the amount due State banks and bankers. On December 9, 1892, it was $160,778,117, but decreased by October 3, 1893, to $122,891,098, and after that date again increased, standing on October 2, 1894, at $183,167,779.

On October 3, 1893, the liabilities of the banks for money borrowed in different forms amounted to $80,126,026, which liability had by December 19, 1893, decreased to $28,827,772. The same items of liability on October 2, 1894, aggregated $26,944,248. The total liabilities of the banks which on December 9, 1892, were $3,480,349,667 had on October 3, 1893, decreased to $3,109,563,284, the lowest point touched during the two years under consideration, and after that time increased gradually until on October 2, 1894, was $3,473,922,055, an amount but $6,000,000 less than on December 9, 1892.

A study of their resources shows that the loans and discounts which on December 9, 1892, stood at $2,166,615,720, and on May 4, 1893, at $2,161,401,858, had by October 3, 1893, decreased to $1,843,634,167, the lowest point touched during the two years. By December 19, 1893, however, this item of resources had increased to $1,871,574,769; on February 28, 1894, $1,872,402,605; on May 4, 1894, $1,926,686,824; on July 18, 1894, $1,944,441,315, and on October 2, 1894, to $2,007,122,191, a recovery at the last-named date of $163,488,024, as compared with the lowest point reached on October 3, 1893.

The amount of United States bonds to secure circulation on December 9, 1892, was $166,449,250, increasing gradually during 1893 until on October 3, 1893, it stood at $206,463,850, the highest point reached

during the two years. After October 3, 1893, commenced a slight decrease, the amount of bonds held for circulation on October 2, 1894, being $199,642,500. The amount of bonds held to secure United States deposits shows little variation between the dates named. On December 9, 1892, it was $15,321,000, and on October 2, 1894, $15,226,000.

Of United States bonds held for investment the banks had on December 9, 1892, $4,148,600, the item decreasing in amount until on October 3, 1893, when they held $2,760,950. On December 19, 1893, the amount had slightly increased, reaching $3,049,000, but on February 28, 1894, it increased to $17,250,150, this marked increase being chiefly due to investments made by the banks in the 5 per cent bonds sold by the Treasury during the period intervening between the two dates named. After February 28, 1894, the amount of these bonds held for investment gradually decreased until on October 2, 1894, when the banks held $10,662,200.

The amount of stocks, securities, etc., was on December 9, 1892, $153,648,180, but steadily decreased until October 3, 1893, when it amounted to but $148,569,950. An increase then began and continued, as is shown by the following: December 19, 1893, $159,749,363; February 28, 1894, $174,305,552; May 4, 1894, $185,324,549; July 18, 1894, $191,137,435, and October 2, 1894, $193,300,072. This movement commencing at the close of the monetary stringency and continuing while the cash resources of the banks were being replenished by depositors, indicates the extent to which this form of investments was resorted to by the banks during a period of easy money.

The amount invested in banking houses, furniture, and fixtures was on December 9, 1892, $72,294,364, and with slight variations gradually increased during the period to $75,183,745 on October 2, 1894. Of other real estate and mortgages owned the banks held on December 9, 1892, $15,926,687, the amount increasing during the year to $16,828,949, after which date there was a gradual and steady increase until, on October 2, 1894, the amount reached $22,708,391, thus showing the extent to which real-estate security was acquired by the banks as a result of the financial stringency for the purpose of saving debts previously contracted.

The item due from national banks, which on December 9, 1892, was $142,623,106, decreased until, on October 3, 1893, it was but $94,740,014. It then began to increase until, on October 2, 1894, it reached the amount of $122,479,067; so also the amount due from State banks and bankers, which on December 9, 1892, was $34,403,231, decreased to $24,229,106 on October 3, 1893, after which time it again slightly increased to $28,682,998 on December 19, 1893. The variation during 1894 was slight, standing on October 2, $27,973,911.

The amount due from reserve agents on December 9, 1892, was $204,948,159, decreasing by October 3, 1893, to $158,499,644, and thereafter increasing steadily until on July 18, 1894, the amount of $258,089,227 was reached, the item standing at $248,849,607 on October 2, 1894.

Exchanges for clearing house, which on March 6, 1893, had reached the large amount of $125,142,839, decreased to $106,181,394 on October 3, 1893, still further to $71,943,165 on December 19, 1893, and to $70,299,653 on February 28, 1894, increasing to $76,002,055 on May 4, 1894, decreasing again by July 18, 1894, to $66,511,835, and again sharply increasing between the last named date and October 2, 1894, to $88,524,052. Representing, as does this item, the volume of checks drawn by their depositors exchanged by associated banks, the fluctuations are interesting as measuring the ebb and flow of business activity during the period under consideration.

The specie held on December 9, 1892, amounted to $209,895,260, and gradually decreased to $186,761,173 on July 12, 1893, after which it as gradually increased until on May 4, 1894, it amounted to $259,941,923, decreasing thereafter to $250,670,652, and further to $237,250,654 on October 2, 1894. So the amount of legal-tender notes and United States certificates of deposit therefor, which on July 12, 1893, had decreased to $102,493,677, increased thereafter until the sum of these items amounted on May 4, 1894, to $192,161,292, then decreasing to $188,261,318 on July 18, 1894, and further to $165,644,028 on October 2, 1894.

It is interesting to note that the lawful money reserve in bank, which had reached its lowest point, $289,244,850, on July 12, 1893, steadily increased thereafter until May 4, 1894, the amount of it was $452,103,214. It then decreased to $438,931,970 on July 18, 1894, and further to $402,894,682 on October 2, 1894, such decrease in cash resources between May 4, 1894, and October 2, 1894, being accounted for by the marked increase in the item of loans and discounts during the same period, due to the gradual revival of business between the two dates named, but more particularly between July 18, 1894, and October 2, 1894.

EARNINGS AND DIVIDENDS.

The law requiring dividend reports from national banks went into effect in March, 1869, and since that date the abstracts for semiannual periods have been incorporated in the annual reports issued by this Bureau. The number, capital, surplus, dividends, net earnings, and ratios of dividends to capital, dividends to capital and surplus, and net earnings to capital and surplus, annually, from March, 1869, to March, 1894, are shown by such abstracts.

The average capital and surplus were $522,797,940 and $149,931,336, respectively; the average annual dividends paid amount to $44,355,814 and the net earnings to $55,237,454. The rate per cent of dividends declared varies from 10.5 in the year ended March 1, 1870, to 6.8 in 1894, the average for the twenty-five years being 8.5. The total dividends paid and the net earnings are shown to amount to $1,108,895,358 and $1,380,936,361, respectively.

CONSOLIDATION OF BANKS.

During the year, as already stated, 79 national banks withdrew from the system by voluntary liquidation, a number larger than in any previous year except 1885. Many active banks have reduced their capital stock to a greater or less degree since the last report, while the number of banks organized has been comparatively small. The cause is probably to be found in the reduced earnings of the banks, consequent upon the contraction in the volume of business for the year.

While the average percentage of net earnings on capital and surplus since 1869, when the act of Congress became operative requiring national banks to report earnings and dividends, is 8.2 per cent and of dividends 6.6 per cent, net earnings during the year past have only amounted to 5.6 per cent and dividends to 5 per cent. This is the smallest percentage of dividends ever paid, and the percentage of earnings falls below all years except 1878 and 1879. The continued stagnation in commercial circles, with its attendant business embarrassments, has in some instances consumed surplus and undivided profits, and even demanded substantial assessments upon the shareholders to make good impairment of capital. In order to place such

banks upon a dividend-paying basis, expenses must be reduced until the earnings again exceed them. How to accomplish this purpose has demanded very serious consideration. Two methods appear to promise favorable results. Either a reduction of capital or a consolidation of banking interests will produce a curtailing of expenses. If the reduction can be accomplished without loss of business, its results may be fairly satisfactory. However, such action frequently tends to breed distrust rather than create confidence. No one can deny that banking has overreached itself in many communities. Profits are sought by several institutions when one strong bank only could be able to make them, the others conducting their business at either an actual loss, or at least without profit. The consolidation of rival concerns in such localities would add quite largely to the available banking capital, and at the same time escape a large proportion of expense. It would also tend to check reckless banking springing from an unwholesome competition to obtain business. Such a course invites public confidence and goes to justify it.

During the year this plan has been adopted by national banks at Louisville, Indianapolis, Denver, Dallas, and in other places with satisfactory results. Unquestionably it will hereafter receive careful attention from conservative bankers, and, without in anywise tending toward monopoly in banking concerns, it will be productive of benefit to all interests.

BANKS, OTHER THAN NATIONAL.

In compliance with the provisions of the law requiring that the Comptroller shall present to Congress a general statement of the resources, liabilities, and condition of banks and banking companies, other than national, namely: State, savings, private banks, and loan and trust companies, the following information is submitted. It has been furnished to this office by the officers of the various States and Territories of the Union having supervision of these institutions, and is complete except as to Delaware, Maryland, West Virginia, South Carolina, Georgia, Florida, Alabama, Arkansas, Tennessee, Arizona, Idaho, Indian Territory, Oklahoma, Montana, Nevada, New Mexico, Oregon, and Utah.

The number of banks and savings institutions organized under State authority, and in active operation July 1, 1894, was 5,033, and reports of condition have been received from 4,834 of this number. A compilation of these returns will be found in the appendix, tabulated by classes and States and the source of information indicated. In addition to the returns from banks organized under State authority, reports of condition have been received from 904 private banks and bankers.

As the reports almost uniformly indicate the condition of such banks in the months following the monetary stringency of 1893, a comparison with the returns of the preceding year is herewith made to show the extent to which these banks were affected by the panic. The principal items of resources and liabilities are as follows:

Items.	1893.	1894.
Loans	$2,340,605,313	$2,133,628,978
Bonds, etc	1,009,604,350	1,010,248,230
Cash	205,645,203	229,373,004
Capital	406,007,240	398,735,390
Surplus and profits	346,206,287	352,424,784
Deposits	3,070,462,680	2,973,414,101
Total resources	3,979,008,533	3,868,474,997

From the above statement an increase is to be noted in the following items: Investments in stocks and bonds, $643,880; cash on hand, $23,727,801; surplus and undivided profits, $6,218,497. The following items show a decrease: Loans and discounts, $206,976,335; capital stock, $7,271,850; deposits, $97,048,579, and total resources, $110,533,536.

The total number of State banks from which reports were received is seven more than reported in 1893, though the capital stock is $6,000,000 less, being but $244,435,573. The deposits are $658,107,494; loans and discounts, $665,988,823; investments in stocks and bonds, $84,541,728; total resources, $1,077,164,813. The decrease in loans is about $91,000,000; deposits, $49,000,000, and total resources, $53,000,000.

The amount of dividends paid by the State banks in Rhode Island, Connecticut, Pennsylvania, Michigan, and North Dakota is official, and the percentage is based on the entire capital employed by all banks in each State. With the exceptions above noted the average rates are based on the capital and dividends of dividend-paying banks. Information on this subject, in full or in part, was received from 1,265 banks, located in twenty-six States, capitalized in the sum of $69,601,357, on which dividends amounting to $5,145,440, an average rate of 7.4 per cent, were paid.

The incompleteness of such returns is owing to the fact that in a large majority of States in which public officers are charged with the supervision of banks and the compilation of banking statistics, no provision is made for procuring statements of dividends paid. In a number of instances, however, the State officials very courteously made a special call in order that the desired information might be placed at the disposal of this Bureau.

Reports of condition were received from 1,024 savings banks and savings institutions, of which 646 are mutual and 378 stock savings banks. The resources of the latter class amount to less than 15 per cent of the total of both. Of the mutual savings institutions 635 are located in the Eastern and Middle States, 1 in a Southern, and 10 in three of the Western States.

The total loans of banks of this class amount to $822,404,433; investments in stocks and bonds, $742,923,542; deposits, $1,538,305,070; and total resources, $1,691,432,501. The total loans of all savings banks amount to $1,026,622,425; stock and bond investments, $778,587,866; deposits subject to check, $29,971,962; savings deposits, $1,747,961,280; and total resources, $1,980,744,189.

A comparison of these returns with those of 1893 indicates a decrease in the following items: Loans, $20,152,272; stocks and bonds, $20,784,610; deposits, $30,867,020; total resources, $33,030,958. The number of savings depositors is 52,912 less, and the average amount due each depositor $3.69 less than last year. It appears from the annual reports of public officers in the Eastern and Middle States that the large decrease in deposits in savings banks was the result of the panic, withdrawals from the banks being due to fear, inspired by a lack of confidence, a desire to make other investments, or, where industrial depressions occurred, for subsistence.

From reports of savings banks, made as late as June 30 last, it appears that they are again approaching their normal condition, and their deposits are now constantly increasing.

The tables in the appendix show in detail, by States, the condition of each and of both classes of savings banks and the average deposit by States and geographical divisions, the number of depositors in all savings banks, amount of savings deposits and average due by States

in 1892–'93 and in 1893–'94, and the growth of savings banks in number, depositors, and amount of savings deposits from 1820 to 1894.

There have been received reports of condition of 224 loan and trust companies, which show loans amounting to $374,421,713; stocks and bonds, $142,224,151; capital, $97,068,092; deposits, $471,298,816; total resources, $705,186,944.

Nine hundred and four private banks and bankers, having an aggregate capital of $26,652,167; deposits, $66,074,549; loans, $66,596,017; stocks and bonds, $4,894,485, and total resources, $105,379,051, reported.

In order to make a proper comparison, a condensed statement is herewith given, showing the principal items of resources, liabilities, and total resources of each class of banks referred to:

Items.	State banks.	Loan and trust companies.	Savings banks.	Private banks.
Loans	$665,988,823	$374,421,713	$1,026,622,425	$66,596,017
United States bonds	604,055	13,449,411	108,950,804	534,102
Other bonds	83,937,673	128,774,740	669,637,062	4,360,383
Capital	244,435,573	97,068,092	30,579,558	26,652,167
Surplus and profits	102,453,492	75,303,366	165,609,461	9,058,465
Deposits	658,107,494	471,298,816	1,777,933,242	66,074,549
Resources	1,077,164,813	705,186,944	1,980,744,189	105,379,051

Similar information with respect to national and other banks and total of all banks is shown in the following statement:

Items.	National banks.	All other banks.	Total.
Loans	$1,991,874,273	$2,133,628,978	$4,125,503,251
United States bonds	240,154,979	123,538,372	363,693,351
Other bonds	193,300,072	886,709,858	1,080,009,930
Capital	668,861,847	398,735,390	1,067,597,237
Surplus and profits	334,121,082	352,424,784	686,545,866
Deposits	1,742,160,267	2,973,414,101	4,715,574,368
Total resources	3,473,922,055	3,868,474,997	7,342,397,052

The total amount of capital stock reported by national banks on July 18 last, and of State, stock savings, private banks, and loan and trust companies at the date of the latest returns obtainable by this Bureau, is $1,069,826,555, an average of $15.63 per capita. The aggregate capital reported in 1893 was $1,091,793,959, an average of $16.29.

The estimated population of the United States on the date mentioned was 68,473,000; the total banking funds, namely, capital, surplus, undivided profits, and deposits of national and other banks, $6,407,003,338, making a per capita average of $93.57. The decrease in these funds, as compared with 1893, is $5,936,616. The average per capita on the latter date was $95.68.

The amount of specie, paper currency, etc., held by national banks on July 18 last, and by other banks on or about the same date, was $688,996,937, of which amount the gold reported was $133,398,786; silver, $16,827,146; specie, not classified, $20,480,340; paper currency, $397,587,281; fractional currency, $1,041,630, and cash not classified, $119,661,754.

In connection with the information obtained relative to the condition of banks other than national, it is not out of place to here incorporate

a summary of the annual report of the Commissioner of Labor, issued May last, which is devoted exclusively to the laws and rules governing, methods of operating, condition of, and statistics relative to building and loan associations of the United States.

It appears from the report that associations of this character have existed in the country since about 1840, since which date their growth has been very rapid. It is stated that the number in operation is 5,838, of which 1,079 are located in Pennsylvania, 721 in Ohio, 669 in Illinois, 445 in Indiana, 418 in New York, 366 in Missouri, 288 in New Jersey, 240 in Maryland, 148 in Kentucky, 133 in California, 115 in Massachusetts. In no other State does the number reach 100. Nearly complete data show that the number of shares in force is 13,255,872, and the number of shareholders 1,745,725. The number of male and female shareholders was 919,614 and 307,828, respectively. The assets and liabilities of the associations are as follows:

Assets.		Liabilities.	
Loans on real estate	$470,142,524	Borrowed money	$13,283,265
Loans on association stock	17,352,193	Dues paid in	370,003,478
Loans on other securities	6,001,671	Profits	80,664,116
Cash	14,056,406	Stock, paid up	33,775,366
Other assets	21,300,091	Other liabilities	31,126,660
Total	528,852,885	Total	528,852,885

Tables showing in detail information submitted by State and other banks, the condition of the loan and trust companies in the District of Columbia October 2, 1894, and of the chartered banks in the Dominion of Canada on July 31, 1894, will be found under their appropriate headings in the appendix.

INTEREST OF WOMEN IN BANKS.

In April, 1893, as the result of an inquiry instituted by this Bureau, reports were received from national banks showing the number and value of shares of stock owned therein by women, the number of women employed, and the amount paid them as compensation by the banks. In June last similar information was submitted by banks incorporated under State authority. The returns from banks of the latter class are shown in detail in the table appearing in the appendix. A condensed statement of such information from national and other banks is as follows:

	1893. National banks (3,806).	1894. All other banks (3,211).
Number of shares issued	7,099,413	3,618,084
Value of shares issued	$688,642,876	$307,151,716
Number of shares issued held by women	1,733,772	481,098
Value of shares issued held by women	$130,681,494	$38,074,712
Percentage of shares issued held by women	24.4	13.3
Percentage of capital held by women	18.9	12.4
Number of women shareholders	70,697	23,146
Number of women employés	383	584
Compensation of women employés	$185,797.00	$262,847.00
Average compensation of women employés	$185.11	$450.42

INSOLVENT NATIONAL BANKS.

During the year there were placed in the hands of receivers 21 national banking associations, having an aggregate capital of $2,770,000; surplus and undivided profits, $715,889; outstanding circulation, $453,154; other liabilities, $5,470,313; and total liabilities, $9,409,356. By comparison with the number and liabilities of all banks on October 2, last, the number of failures was 0.56 of 1 per cent, the capital 0.4 of 1 per cent, and the liabilities 0.27 of 1 per cent.

The greatest number of failures occurred in Oregon, in which State 4 banks, with capital aggregating $425,000, were closed. In Kansas 3 banks, with capital of $450,000, and the same number in Nebraska, with capital of $260,000, failed. There were 2 failures each in Texas and Missouri, the aggregate capital being $175,000 and $450,000 respectively. In each of the following-named States but 1 bank was compelled to close, the capital being as indicated: New York, $50,000; Pennsylvania, $85,000; Alabama, $50,000; Michigan, $300,000; Colorado, $200,000; South Dakota, $75,000, and Washington, $250,000.

RECEIVERSHIPS.

Within the period covered by this report the affairs of 143 insolvent national banks have demanded the supervision of the Comptroller. Of these, 10 have been restored to solvency and have resumed business in charge of their proper officers. The accounts of 8 have been finally closed; 25 have been placed upon the inactive list, the accounts being kept open only to await the result of pending litigation, or to prevent too great sacrifice in disposing of remaining assets. On October 31 receivers were in charge of 100 trusts in process of active liquidation.

The number of receiverships in active operation during the past year has been greater than in any former year since the origin of the national-banking system. For this reason, it seems appropriate to here present some statistics concerning the administration of insolvent banks.

It has been found necessary to place the affairs of 267 national banks in the hands of receivers since June 20, 1863, when the Comptroller's certificate of authority to begin business was issued to the first bank. Of these 12 have been restored to solvency, leaving the assets of 255 to be distributed by forced liquidation. The affairs of 130 of these have been fully administered and the trusts closed.

The nominal value of the general assets of the 255 banks, as they passed into the possession of the receivers, amounted to $158,010,847. Assessments have been levied against shareholders of insolvent banks amounting to $24,051,050, making the total resources of these trusts $182,061,897, an average of $713,576 for each receivership. The total liabilities of these failed banks were $109,936,458, an average of $413,123 for each receivership.

The different receivers have collected in cash from the general assets $64,925,321, and from assessments against shareholders $10,119,452, making a total of cash collected $75,044,773. This amount is increased by $21,871,822 by reason of offset settlements, etc., making gross collections aggregating $96,916,595.

There is an uncollected balance of assets in the hands of receivers amounting to $43,846,521. Assets valued at $3,926,137 have been returned to the shareholders of the banks that have paid all claims allowed against them, including interest in full. These figures show

an average of over 72 per cent of the nominal value realized from a forced collection of these items.

The total cost of securing this large aggregate of collections was $5,857,727, or an average on all trusts of a trifle over 6 per cent of the gross proceeds. When the extremely complicated and, in many instances, desperate condition of these trusts is considered, it will be seen that the expenses have been kept at a very low figure. It is gratifying to know that each year the percentage of cost to collections of assets is lessened.

The balance of the cash collected by the different receivers, after deducting the expenses of the trusts, has been disposed of as follows: settlements by offsets and otherwise, which discharged $21,871,822 of the gross liabilities, required cash payments of $9,460,506. This leaves a balance of liabilities footing up $88,064,636, of which 64⅔ per cent has already been paid in dividends, amounting to $56,933,633.

Including the settlements already mentioned, an average of 71⅝ per cent has already been paid upon gross liabilities of all insolvent national banks. The proceeds of the assets yet to be collected will materially increase this average. Shareholders of those banks that have more than paid in full have received in cash from receivers $1,077,344. On October 31, 1894, the cash balance remaining in the hands of the Comptroller and the receivers amounted to $1,723,563.

The average time required for the complete liquidation of the 130 receiverships which have been finally terminated was five and two-fifths years. The longest time taken to settle the affairs of any trust was in the case of the second bank that failed, which was eighteen and three-fourths years. The third failed bank comes next with seventeen years. The shortest time within which the affairs of an insolvent national bank have been settled by a receiver was four months and eight days, the next shortest time being four months and fourteen days.

It should be explained that the length of time required to settle the affairs of the second and third failed banks was owing to the fact that at that time no legal precedents had been established, and all important questions arising in the liquidation of their assets were required to be determined in court. The litigation thus engendered was the principal cause of the prolongation of these trusts.

It is gratifying to know that the average life of receiverships is rapidly growing shorter, being approximately proportioned to the increased experience in settling the affairs of such banks. The first receiver for a national bank was appointed April 14, 1865. The average term of receiverships for the ten years prior to October 31, 1874, was eight years one month and seventeen days. For the succeeding decade the average is six years three months and fourteen days, and for the last ten years the average is but two years ten months and twenty-four days.

INSOLVENT BANKS OTHER THAN NATIONAL.

Through the courtesy of Mr. Albert C. Stevens, editor of Bradstreet's, this Bureau has been placed in possession of statistics with respect to the failure of banks other than national during the year ended August 31 last. This information in tabular form, showing the number of failures, assets, and liabilities by States, etc., will be found in the appendix. An abstract is herewith given, in connection with similar information

with respect to the banks which closed during the first eight months of 1893.

Class.	1893.			1894.		
	No.	Assets.	Liabilities.	No.	Assets.	Liabilities.
State banks	172	$41,281,848	$36,903,266	27	$1,773,678	$2,009,967
Saving banks	47	17,673,938	16,830,809	9	2,646,008	2,677,943
Loan and trust companies	13	14,337,500	22,354,000	5	420,000	477,000
Mortgage companies	6	760,803	1,790,000	3	33,000,000	37,500,000
Private banks	177	20,237,259	19,315,455	21	1,749,600	2,235,600
Total	415	94,291,348	97,193,530	65	39,589,286	44,900,510

By eliminating the failures of mortgage companies, which do not do a banking business, from the total for the year, the number of failures is reduced to 62, and their assets and liabilities to $6,589,286 and $7,400,510, respectively. By comparing these figures with those of 1892, when the failures were 69, the assets, $6,125,189, and the liabilities, $11,024,628, it is evident that the banking business of institutions of the classes named has about resumed its normal condition.

The following table indicates the number of banks of each class in operation on July 1, 1894, and the number and percentage of national and other banks closed during the year.

Class.	Number doing business July 1, 1894.	Banks closed.	
		Number.	Per cent.
National banks	3,775	*22	.58
State banks	4,359	27	.62
State and savings banks	5,033	36	.71
Loan and trust companies	.....	8	.....
Private banks	3,858	21	.54

*One bank has resumed, 1 will probably resume, and 1 will go into voluntary liquidation, leaving 19 in the hands of receivers.

The number of all banks, exclusive of loan and trust companies, reported to be in existence on the date in question is 12,666; the number of failures 79, and the percentage of failures, 0.62.

INVESTIGATIONS UNDERTAKEN.

The increasing importance of the bank as a means for facilitating the daily business transactions of every character and the many interests centering in it, warranted the instituting and carrying on of a number of investigations upon lines which it was believed would afford the general public and the lawmaking powers added information upon questions not only affecting them in their relation to the banks, but to the whole monetary problem. They involved the use of credit instruments in daily retail transactions, the extent to which banks are used as banks of deposit by the people, as a source of profit to the Government and utility to the public. These investigations have been carried on without other expense to the Government than the trifling cost involved in the printing of the necessary extra blanks sent to the banks upon three occasions when calls for reports of condition were made upon them. The information furnished by the officers of these institu-

tions was wholly gratuitous, and the Comptroller desires to here acknowledge his indebtedness to them for the courtesy shown by them in so readily complying with his request and aiding him in his undertaking.

The Use of Credit Instruments in Retail Transactions.

The use of credit instruments in the daily transactions of the business of the country has been largely discussed in former reports, but this office had not undertaken to systematically gather information upon the subject of the use of them in retail transactions alone. The inquiries made relative to their use had been general in their character, and thus the returns received embraced in the largest measure the part they played in transactions of very large magnitude.

It seems desirable in this instance to confine them exclusively to the every-day business involved in daily living, and, therefore, at the suggestion of David Kinley, Ph. D., professor in charge of the department of political economy in the University of Illinois, who had interested himself in the matter, and of his colleague, Mr. A. P. Winston, the following circular and blank form for a reply thereto were prepared and sent out to each bank under the supervision of the Comptroller:

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
Washington, D. C., May 15, 1894.

To the Cashier of the ——— National Bank,

SIR: An investigation is about to be undertaken looking toward the collection and publication of statistics relative to the use of credit instruments in retail transactions throughout the country, and the assistance of banks and bankers, generally, is earnestly desired. I shall, therefore, be exceedingly thankful to have your cooperation in this investigation by having you furnish this office, at your early convenience, the information called for in the inclosed blank, as well as such other data bearing on the subject as may be at your command. It is suggested that the most satisfactory results will be obtained by giving the data requested, as shown by the deposits on the "settling day," in your community, nearest to the close of the fiscal year ending June 30, 1894.

Respectfully, yours,

JAMES H. ECKELS,
Comptroller.

———

———————,
———————,
June —, 1894.

Hon. JAMES H. ECKELS,
Comptroller of the Currency:

SIR: In compliance with your request of May 15, I give herewith the information desired with respect to deposits, etc., of retail merchants with this bank on June —, 1894:

Depositors.	Deposits.*						
	Gold.	Silver.	Gold certificates.	Silver certificates.	Treasury notes.	Checks and other instruments of credit.	Total.
Grocers, retail							
Butchers, retail							
Clothiers, retail							
Furniture dealers, retail							
Fuel dealers, retail							
Total							

*Please omit cents.

1. What is the usual period of credit granted by the retail merchants in your community? ————.

2. Is it the custom in your community for employers to pay wages by checks? ————.

3. If it is the custom for employers to pay wages by checks, do the employés as a rule present such checks for payment at the bank, or are they cashed by the merchants? ————.

Very respectfully,

————,

Cashier ———— *National Bank,*

————.

Replies more or less complete were received from 2,465 out of a total of 3,774. Upon their receipt an analysis of them was undertaken by Prof. Kinley, in conjunction with the Comptroller, and while neither the returns nor the analysis based upon them are as thorough as might be wished, they at least throw some light upon an important phase of the use of credit instruments and justify the making of the inquiry. It is proposed to undertake during the ensuing year another investigation touching the same subject, but in a way that will, it is believed, call out more fully the exact facts.

There was of course no way of getting anything like complete returns of retail transactions throughout the country. The best that could be done was to select a few of those kinds of retail trade which in the aggregate represent the largest percentage of retail business; that is to say, those employments were selected the purchase of whose products represents the largest part of expenses for living.

In his report for 1890, on the cost of production of iron, steel, etc., the U. S. Commissioner of Labor gives data respecting the cost of living, from which it appears that the expenditure for food, clothing, furniture, and fuel is ordinarily about 72.6 per cent of the total expenditure of the average family of five persons in those industries. It seemed likely that the mode of payment of the purchases of products in these lines would be fairly representative of the mode of payment in other classes of retail transactions, and therefore of all classes of retail transactions.

Owing to some slight misunderstanding the blanks sent out did not cover these classes of transactions quite as fully as was intended. Under clothiers, for instance, it was intended to include dealers in dry goods. It was intended further to insert among the classes whose deposits were called for, "general stores," because, as is well known, in most country districts one store covers most, if not all, the classes of trade mentioned in the schedule. Notwithstanding these omissions, it is thought, however, that the returns are fairly representative of the character of the composition of the circulating medium of those places throughout the country which are sufficiently developed to have a national bank.

It may be said that a large amount of the retail trade on the day in question is not represented, and that this omission vitiates the statistics materially. It must be remembered, however, that a large part of the trade concerning which there are no returns is in the small country towns where there are no national banks. In these places most of the trade is done on the basis of book credit, farmers bringing in their produce being credited with its value on the books of the dealers and securing their supplies on the basis of such credit.

In all these transactions very little money is used. So far as money is not used in these transactions they would go to swell the amount of

the credit in retail business. Moreover, the returns came from national banks only. It is not unlikely that if returns had been received from State and private banks throughout the country they would show the same proportion of credit instruments used. The total number of State and private banks at the time of the investigation was about 8,200; the number of national banks was about 3,700.

If the State and private banks did only half as much business as the national banks the total amount of retail transactions represented would be $9,000,000, and this is about two-thirds of the average daily expenditure in retail transactions throughout the country, as estimated from the average expenditure given by the Commissioner of Labor in his report for 1890, assuming the family expenditure he describes as the average of the country. It is doubtless true, also, that the returns from these banks would more largely increase the per cent of credit than the per cent of money in the returns, for they are mostly located in those parts of the country where credit seems to be more largely used.

Moreover, there are many instances in which the percentage of checks used for payments in the other kinds of retail transactions is much larger than in those for which returns were obtained. This is shown by the extra returns written in on many of the blanks. For example, in 8 banks in the State of Pennsylvania alone there were $6,687 in checks deposited by dealers of the kinds specified in the circular, and $50,428 in checks deposited by other classes of retail dealers. Instances of this kind would arise largely from some peculiar character of the place, like the predominance of some particular trade, but wherever they occur they would tend to swell the proportion of checks.

The amount of retail payments which the returns cover is $5,999,065, or in round numbers $6,000,000. Of this amount 58.9 per cent was in checks and store orders, and 41.1 per cent in the various kinds of money. The percentages for the different States are as follows:

TABLE I.

State.	Per cent of money.	Per cent of checks.	State.	Per cent of money.	Per cent of checks.
Alabama	35	65	Montana	27.3	72.7
Arizona	40.6	59.4	Nebraska	35.6	64.4
Arkansas	39.7	60.3	New Hampshire	42.9	57.1
California	58.4	41.6	New Jersey	49	51
Colorado	29.5	70.5	New Mexico	16.4	83.6
Connecticut	45.4	54.6	New York	42.5	57.5
Delaware	46.3	53.7	North Carolina	50.5	49.5
Florida	34	66	North Dakota	43.7	56.3
Georgia	29.8	70.2	Ohio	54.8	45.2
Idaho	45.7	54.3	Oklahoma	39.2	60.8
Illinois	44.8	55.2	Oregon	51	49
Indiana	54.7	45.3	Pennsylvania	47.9	52.1
Iowa	40.6	59.4	Rhode Island	41	59
Kentucky	46.1	53.9	South Dakota	62.4	37.6
Kansas	34.3	65.7	Tennessee	42.9	57.1
Louisiana	33.6	66.4	Texas	32.5	67.5
Maine	37.7	62.3	Utah	43.7	56.3
Maryland	41.9	58.1	Vermont	37.8	62.2
Massachusetts	50.5	49.5	Virginia	25.2	74.8
Michigan	45.1	54.9	West Virginia	36	64
Mississippi	13.5	86.5	Washington	33.2	66.8
Minnesota	56.8	43.2	Wisconsin	40.5	59.5
Missouri	35.7	64.3	Wyoming	56.4	43.6

The following table shows the returns for groups of States according to population:

TABLE II.

Population.	States.	Per cent of check.
5,000,000, upward	New York and Pennsylvania	54.8
3,500,000, upward	Illinois and Ohio	50.2
2,000,000, upward	Missouri, Texas, Massachusetts, Indiana, and Michigan	55.9
1,500,000, upward	Iowa, Kentucky, Georgia, Tennessee, Wisconsin, Virginia, North Carolina, and Alabama	61.2
500,000, upward	New Jersey, Kansas, Minnesota, California, Arkansas, Louisiana, Nebraska, Maryland, West Virginia, Connecticut, and Maine	60.4
Below 500,000		58.7

In Table III the returns are given for the States grouped geographically, according to the grouping of the census, as North Atlantic division, South Atlantic division, etc.

TABLE III.

Division.	Per cent.	Population.
North Atlantic	56.1	17,400,000
South Atlantic	62.3	8,900,000
North Central	54.3	22,400,000
South Central	65.6	11,000,000
Western	59.7	3,000,000

The order of these groups of States as respects density of population, beginning with the lowest, is Western, South Central, North Central, South Atlantic, and North Atlantic.

Figures showing the percentage of checks to total receipts in groups of cities according to population:

TABLE IV.

In cities of—	Per cent.
500,000 and over	55.9
200,000 and over	65.3
100,000 and over	70.9
50,000 and over	53.8
25,000 and over	53.0
10,000 and over	66.1
Below 10,000	55.6

The number of cities of the first class whose statistics are included above was 4; of the second, 11; of the third, 10; of the fourth, 25; of the fifth, 41; of the sixth, 59; of the seventh, 309.

It is not clear to what extent national-bank notes were returned as Treasury notes. The omission of these, if they were omitted to any large extent, can be allowed for on the assumption that the proportion of these notes used of the denominations of $20 and less bears the same proportion to the total amount of these notes of the denominations mentioned that the silver certificates returned bear to the total silver certificates of the same denominations. That amount would be $400,000. If this is included on the money side of the returns the percentage of checks would become 53.8. This would not alter the proportion of credit instruments used more than 5 per cent.

Another element which ought to be considered, concerning which there is no way of getting data, but which would go to swell the credit

side of the account, is the large amount of store orders and store checks used, especially in the mining districts and in country districts throughout the South. These are issued in payment of wages, and reduce the amount of money paid out in wages as well as in retail payments. These store orders, as well as the book credit accounts mentioned above, obtain very largely in places whose supplies are furnished through "general stores."

The business of these stores is therefore probably more largely a credit than a cash business. The inclusion of these in the returns would therefore have swelled the per cent of credit instruments. From all these considerations it may be safely inferred that the percentage of credit instruments shown is at least not too large.

A study of the tables shows that the extent of the use of credit instruments in retail transactions varies widely in different parts of the country. Mississippi heads the list and South Dakota shows the smallest percentage. The larger daily use of credit throughout the cotton-growing States was to be expected, and the figures bear out the supposition. Alabama shows 65 per cent in checks and orders, Georgia 70.2 per cent, and Texas 67.5 per cent.

The same is true in general of the great wheat-growing States of the Northwest. Referring to Table III, it is found that the highest percentage of checks is in the South Central division and the lowest in the North Central division. Grouping the division of States somewhat differently, it is found that the percentage of retail transactions done on credit is larger in the South Atlantic and South Central divisions than in the North Atlantic and North Central divisions, while the Western group of States is intermediate.

It is commonly assumed that the use of checks and other credit instruments increases with the population. While it is not safe to draw any very definite conclusions from the results of a single investigation, and that, too, so defective as the present one necessarily was, yet there are some indications from the returns that the above assumption is not in strict accordance with the facts. It would rather appear that the rate of increase in the use of credit instruments in retail transactions decreases relatively to the growth of population after a certain density of population is reached.

The returns from States grouped according to population, as in Table II, seems to show this, and the returns from the cities appear to bear out the conclusion. The same relation holds for the population groups of Table III. The conclusion holds when the groups in the tables are arranged either in the simple order of population, or in the order of the density of population in the groups. The results for the cities, grouped according to population, is shown in Table IV.

In the first class there are represented 4 cities whose population is 500,000 or more; the second class contains 11 cities whose population is between 200,000 and 500,000; the third class 10 cities of between 100,000 and 200,000 population; the fourth class 25 cities of between 50,000 and 100,000; the fifth class 41 cities of between 25,000 and 50,000; and the sixth class 59 cities of between 10,000 and 25,000. The percentage of checks falls from 66.1, in the group of cities of 10,000 and over to 53.0 in the cities of 25,000; rises again to 70.9 in the cities of 100,000 and more, and gradually falls to 55.9 when the cities of 500,000 are reached.

It will be seen from these figures that the movement of the use of checks in the cities of the country corresponds approximately to the movement in the country at large. The data are not sufficient for the foundation of a law, but they indicate that the conclusion stated above

as to the relation of the extent of the use of checks to the population may be true.

The most important practical question connected with the investigation is whether or not the returns throw any light on the legitimacy of the continual demand for more money in certain sections of the country. Bearing in mind the difficulties which always interfere with the drawing of fair conclusions from incomplete data, it may be said that, so far as they go, the returns do not fully justify, if at all, this demand.

There are wide differences as to the extent of the use of credit instruments in retail business between States of the same general character of population and economic condition, but it would seem, from such results as this investigation show, that if there is a real demand and necessity for a continuous larger medium of exchange, the satisfaction of that demand could and would be met by an increase in the use of credit instruments. It is fair to presume that their use would follow, as the absolute business needs of the people are always properly met by those engaged in carrying on business of each community. That it is not so met is evidence that the need is not as real as many would suppose from the constant demand made upon Congress to simply increase the volume of the currency. Moreover, if that argument, which is based solely upon the demand for more money, were in any large measure sound, it would amount merely to a demand for an increase in the use of credit, since the purpose served by bank notes in the majority of instances could be equally well served by bank discounts and credit deposits; in other words, by the use of checks.

There are certain other items of interesting information furnished by the investigation. One is the distribution of the different kinds of money in the country. It is a commonly observed fact that gold coin in ordinary daily transactions is common in some parts of the country and scarce in others; that silver and silver certificates are used to a relatively much larger extent in some sections than in others, and finally that Treasury notes and national-bank notes also have a pretty well defined area of circulation. Thus we find gold used in retail transactions more largely, for example, in California, Colorado, South Dakota, Oregon, Minnesota, Missouri, Nebraska, Texas, Washington, and Wyoming than in the other States. Silver and silver certificates constitute a larger part of the paying medium in retail business in Alabama, Arkansas, North Carolina, Connecticut, Delaware, Florida, Georgia, Kentucky, Maryland, Ohio, and Texas than in other States. Treasury and bank notes enter more largely in Massachusetts, New York, Maine, Michigan, Indiana, Illinois, North Dakota, Kansas, and Iowa, but the data are not very satisfactory.

The distribution of money in a country is a matter of no little interest and importance, concerning which information is very desirable.

The returns do not throw any new light on the length of the period of credit in retail transactions. It varies from a few days to six or nine months, and in some cases a year, the longer period being in the agricultural districts. Moreover, there is no uniformity among retail tradesmen even in the same locality. In the 23 largest cities of the country the average period of credit varies from one and one-tenth to one and four-tenths months. The returns are therefore too meager to furnish any satisfactory conclusion of a general nature in so complex a matter.

As to the method of payment of wages, the custom varies greatly in different States. So far as the results show in those States whose population may be roughly described as being of medium density, wages are paid more largely by checks than by cash. In the most

thickly settled States, however, the opposite is true. Cash is used, of course, more largely than checks for this purpose in States which have a considerable number of large cities and whose industrial character is manufacturing. As illustrating these points, the following table is given, showing the ratio between the number of banks which report that wages are paid by checks to the number which report payment by cash:

States.	Ratio.	States.	Ratio.
Arizona	3 to 1	Indian Territory	0.25 to 1
Alabama	0.4 to 1	Kansas	1.7 to 1
California	0.5 to 1	Kentucky	0.44 to 1
Colorado	9.7 to 1	Maryland	0.07 to 1
Florida	0.3 to 1	Massachusetts	0.15 to 1
Idaho	0.75 to 1	Michigan	1.3 to 1
Illinois	1.5 to 1	Minnesota	2 to 1
Indiana	0.22 to 1	Missouri	1.7 to 1
Iowa	1.2 to 1	Montana	6 to 1
Nebraska	4 to 1	South Dakota	1.8 to 1
New Hampshire	0.2 to 1	Tennessee	0.5 to 1
New Jersey	0.3 to 1	Texas	1.2 to 1
New Mexico	6 to 1	Utah	1.5 to 1
New York	0.17 to 1	Vermont	0.07 to 1
Ohio	0.2 to 1	Virginia	0.7 to 1
Oklahoma	0.7 to 1	Washington	2.5 to 1
Pennsylvania	0.43 to 1	Wisconsin	0.8 to 1
Rhode Island	0.09 to 1	Wyoming	8 to 1

The figures in the above table show the proportion of those banks reporting that it is the custom in their community to pay wages by checks. Besides these a considerable number of banks report that in their localities wages are paid about equally by checks and by cash. This is true principally of New York and Pennsylvania. One or two banks note the interesting fact that since the currency dearth in 1893 the custom of paying wages by checks has grown in their localities. On the other hand, one or two report that they discourage the practice of payment by checks.

A question was inserted in the blanks sent out asking whether in the places in which wages are paid by checks the employés, as a rule, present their checks for payment at the banks or have them cashed by the merchants. The purpose of this question was to get some information as to how far wage payment by check diminished the amount of money which the banks have to carry to meet drafts for pay rolls. Evidently if the employés immediately carry their checks to the banks the situation is not different from what it would be if the employers draw the amount of their pay rolls from the banks and pay the wages in cash.

If, however, the employés paid part of their bills with the checks by presenting them to the merchants, obviously they would entail a smaller draft on the cash in the banks. The returns, so far as they indicate anything, show that about half the pay checks are cashed by the banks and half by the merchants, the proportions, according to 650 replies, being 327 by the banks and 300 by the merchants.

There are several interesting facts of minor importance given in the returns.

A fact, noted by several banks, was the influence of the railroad strike of last summer. In some cases the receipts of the banks had fallen off almost entirely for several days, including that selected for securing the statistics asked for. Still another fact brought out clearly, although, of course, it was known with more or less certainty before, is that a considerable number of banks, especially in the large cities, have no depositors in retail business at all. In New York City, for example,

24 banks report that they have no such deposits or only an exceedingly small amount of them.

This fact has an important bearing on the apparent discrepancy between the percentage of checks reported in the returns of this investigation and those secured by the Comptroller of the Currency in previous investigations. The present inquiry has to do with the checks used in retail transactions only. Previous inquiries have dealt with the amount used in all transactions. It has been pretty generally agreed among economists that the percentage (between 90 and 92 per cent) of instruments of credit shown by previous investigations to be used in the business of the country was so large because it represented, to a great extent, wholesale as well as retail operations.

The advocates of a large volume of money, not inherently sound money, have used this belief to offset the statement that credit is a more important determining cause of prices in modern business than money. The results of the present inquiry, however, are, on the whole, in the line of the former conclusions as to the importance of credit instruments in payments and exchanges generally, and against the necessity of any additional provisions for simply an increase in the volume of money without taking into consideration the other and more important elements which should characterize our currency circulation.

THE NUMBER OF DEPOSITORS IN THE NATIONAL BANKS.

The office having obtained such information as it could relative to the subject just treated of, it seemed that facts showing the use of the national banks by the general public as banks of deposit would be of interest. Such facts would not only show the great numbers of the people who were making use of them as a means of safe-keeping for their cash assets and the importance to them of having them properly dealt with, but would further tend to show why so many credit instruments, such as checks, were in daily use.

It is fair to presume that as a person becomes a depositor in a bank he is more given to the use of checks upon his bank of deposit in making payment of indebtedness than to the use of actual money. As the number of depositors in banks increase such method of payment will correspondingly increase, and the need of the enlargement of the volume of the circulating medium of the country fall away. The depositing of money in bank and the checking against it makes every dollar of the currency an efficient one, in that each dollar is made to support many transactions each day instead of but a single one, as is the case where each transaction is carried on by the payment of actual cash.

In the appendix will be found the statement showing in detail the number of depositors in national banks on July 18, 1894, together with aggregate amounts to their credit. It is so arranged as to show—

Depositors having less than $1,000 to their credit,
Depositors having more than $1,000 and less than $2,000,
Depositors having $2,000 and less than $10,000; and
Depositors having $10,000 and over.

The statement is made up by geographical divisions, giving the number of banks and the number of depositors in each class and aggregate of deposits to the credit of each class, together with a grand aggregate of the number of depositors and the total amount of their deposits, as follows:

States, reserve cities, and Territories.	Total number of banks.	Number of banks reporting.	Under $1,000.		$1,000 and less than $2,000.		$2,000 and less than $10,000.		$10,000 and over.		Total.	
			Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
Division 1:												
Maine, New Hampshire, Vermont, Massachusetts (Boston), Rhode Island, Connecticut	593	588	175,916	$35,978,041	14,585	$20,324,691	14,933	$64,080,653	4,571	$154,559,628	210,005	$274,943,013
Division 2:												
New York (New York City, Albany, Brooklyn), New Jersey, Pennsylvania (Philadelphia, Pittsburg)	837	805	576,030	102,252,901	33,901	47,181,891	31,920	132,064,045	9,777	458,189,199	651,628	739,688,036
Division 3:												
Delaware, Maryland (Baltimore), District of Columbia (Washington City), Virginia, West Virginia	166	162	114,246	17,375,228	5,538	7,724,277	4,607	17,607,444	790	20,653,792	125,181	63,360,741
Division 4:												
North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana (New Orleans), Texas, Arkansas, Kentucky (Louisville), Tennessee	497	483	135,522	18,245,336	5,679	7,768,100	4,867	18,829,317	828	24,407,726	146,896	69,250,479

Ohio (Cincinnati, Cleveland), Indiana, Illinois (Chicago), Michigan (Detroit), Wisconsin (Milwaukee)	754	733	381,314	66,609,567	20,709	28,038,260	16,601	66,628,376	4,240	146,213,465	422,864	307,489,668
Division 6:												
Iowa (Des Moines), Minnesota (St. Paul, Minneapolis), Missouri (St. Louis, St. Joseph, Kansas City), Kansas, Nebraska (Lincoln, Omaha)	582	557	215,255	33,515,935	10,635	12,801,114	7,541	30,090,622	1,683	47,324,807	235,114	123,732,478
Division 7:												
Colorado, Nevada, California (San Francisco), Oregon, Arizona	128	123	68,900	10,278,863	3,806	5,164,514	2,727	10,318,089	523	15,439,267	75,956	41,200,733
Division 8:												
North Dakota, South Dakota, Idaho, Montana, New Mexico, Utah, Washington, Wyoming, Oklahoma, Indian Territory	213	199	56,894	9,013,990	2,586	3,524,023	1,890	7,254,599	326	7,559,369	61,696	27,351,981
United States	3,770	3,650	1,724,077	293,269,861	97,439	132,526,870	85,086	346,873,145	22,738	874,347,253	1,929,340	1,647,017,129

The information above set forth was procured from the banks reporting at the same date as their report of condition made to the Comptroller for July 18, 1894, and is complete as to all the 3,770 doing business on the date named, except as to 120, which failed to make any report. The failure of these 120 banks to furnish this information, taken in connection with the fact that some of the banks reporting failed to include certificates of deposit, which are included in the item of individual deposits shown in the aggregate of their liabilities, will account for the difference of $30,784,071 between the aggregate of individual deposits shown by this statement, and the aggregate of this item shown in the statement of resources and liabilities of the banks on July 18, 1894.

Considering the aggregates shown by this statement, it is found that 3,650 banks held deposits to the amount of $1,647,017,129, deposited by 1,929,340 depositors, or an average of 528.5 depositors to each bank.

The following table indicates by geographical divisions the average number of depositors, and the average amount for each depositor of each class:

Geographical divisions.	Under $1,000.		$1,000 and less than $2,000.		$2,000 and less than $10,000.		$10,000 and over.		Total.	
	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.	Average number of depositors.	Average amount for each depositor.
Division 1	299.2	$205	24.8	$1,394	25.4	$4,291	7.7	$33,813	357.1	$1,309
Division 2	715.6	178	42.1	1,392	39.6	4,137	12.1	46,864	809.4	1,135
Division 3	705.2	152	34.2	1,395	28.4	3,822	4.9	26,144	772.7	506
Division 4	280.6	135	11.7	1,368	10.1	3,869	1.7	29,478	304.1	471
Division 5	520.2	175	28.2	1,354	22.6	4,014	5.8	34,484	576.8	727
Division 6	386.5	156	19.1	1,204	13.5	3,990	3	28,119	422.1	526
Division 7	560.2	149	30.9	1,357	22.2	3,784	4.2	29,521	617.5	542
Division 8	285.9	158	13	1,363	9.5	3,838	1.6	23,188	310	443
United States	472.3	170	26.7	1,360	23.3	4,077	6.2	38,453	528.5	853

An analysis of the table shows that in the class under $1,000 the average amount for each depositor varied in different sections of the country from $135 to $205; in the class $1,000 and less than $2,000, from $1,204 to $1,395; in the class $2,000 and less than $10,000, from $3,784 to $4,291; in the class $10,000 and over, from $23,188 to $46,864.

It will be seen from these figures that, with the exception of the class of $10,000 and over, which has the smallest number of depositors, the variation as to the average amount for each depositor in the different sections of the country is but slight. A comparison of the average number of depositors in the different geographical divisions shows the variations to be much greater. The average of the total number of depositors is lowest in division No. 4, viz, 304.1, and highest in division No. 2, where it was 809.4. These wide variations are largely accounted for by the extensive banking facilities furnished by banking institutions outside of the national system.

For instance, in division No. 1, comprising six Eastern States, the average number of depositors in 588 national banks is only 357.1, but from tables appearing elsewhere in this report it will be seen that there

are also in this division 540 State banks, loan and trust companies, and savings banks.

Taking divisions Nos. 2 and 3 together, having the highest average total number of depositors in 1,003 national banks, viz, 809.4 and 772.7, respectively, it is found that in the States comprising these two divisions there also are 811 State banks, loan and trust companies, savings and private banks. In division No. 4, comprising 11 Southern States, we find the lowest average total number of depositors in 497 national banks, viz, 304.1, there being also in these 11 States 606 State, etc., banks. In division No. 5 the average total number of depositors in 754 national banks is 576.8, there being also in this division 966 State, etc., banks. In division No. 6 the average total number of depositors in 582 national banks is 422.1, there being also 2,155 State, etc., banks. In division No. 7 the average total number of depositors in 128 national banks is 617.5, there being also 313 State, etc., banks. In division No. 8 the average total number of depositors in 213 national banks is 310, there being also 347 State and other banks.

In conclusion, it is shown by the table referred to that 3,650 national banks held $1,647,017,129, deposited by 1,929,340 depositors, or an average of 528.5 depositors to each bank. Applying this average to $1,225,452,821 of deposits held by the banking institutions other than savings banks operating outside of the national system, it is found that such banking institutions held deposits made by 1,436,638 depositors. The latest returns to this office made by savings banks show that they held $1,747,961,280, deposited by 4,777,687 depositors.

A tabulation of this information is shown herewith:

	Deposits.	Number of depositors.
National banks	$1, 647, 017, 129	1, 929, 340
State and private banks, loan and trust companies	1, 225, 452, 821	1, 436, 638
Savings banks	1, 747, 961, 280	4, 777, 687
Total	4, 620, 431, 230	8, 143, 665

It is found that all the banks and banking institutions in the country, from which figures were obtainable at the latest dates, held deposits to the enormous sum of $4,620,431,230 deposited by no less than 8,143,665 depositors. After making due allowance for the fact that the same person may have deposits in more than one bank; further, that 120 national banks doing business on July 18, 1894, failed to make any report; that the number of depositors in State and private banks and loan and trust companies was estimated from the average number of those in national banks, it is not unreasonable to conclude that the banking institutions of the country are patronized and used by no less than about 9,000,000 depositors, or about 1 person out of every 7 or 8 persons in the total population of the United States.

No better evidence of the valuable and generally diffused service rendered to the public by banks in general can be deduced than that shown by the figures here presented, and no stronger argument could be adduced to warrant the most careful and statesmanlike consideration of any measure affecting them. The facts as they are demonstrate how many people have a material interest in them and how many branches of trade and commerce are touched by any banking legislation which is placed upon the statute books.

REVENUE TO THE GOVERNMENT.

The interest awakened by a discussion of a general revision of the present national banking system makes it proper to consider in this report how far the national banks have been a source of revenue to the Government. Congress has considered the capital, deposits, and circulation of these banks as legitimate subjects of taxation. The act of March 3, 1883, relieved the banks of further taxes on the first two items, but left the 1 per cent annual duty on circulation undisturbed. No subsequent changes have been made affecting this law.

The total tax collected on capital amounted to $7,885,887.74. The banks have paid taxes on their deposits to the amount of $60,940,067.16. Up to June 30, 1894, the end of the last fiscal year, the national-bank circulation had yielded a revenue amounting to $75,834,997.17. Estimated at the same rate as for the year prior, the taxes on circulation from June 30 to October 31 would yield an additional revenue of $573,698.39.

National banks are also assessed for a sufficient amount to cover the redemption of their circulating notes by the United States Treasurer, the preparation of the plates from which these notes are printed, and the fees of the national-bank examiners. These items amounted to $367,836.93 during the past fiscal year, but they should not be regarded in this calculation, as no part of this amount is retained in the public treasury.

Whatever amount of bank notes remain eventually unredeemed will be an additional source of profit, as the banks are required to pay into the Treasury lawful money to the full amount of their circulation before they are allowed to withdraw their deposits of United States bonds. From the best obtainable figures, it appears reasonable to suppose that a small amount of notes will not be presented for redemption. Although some of the national banks ceased doing business over thirty years ago, each bank still has currency that has not been presented. Something like 2 per cent of the old State-bank circulation was not redeemed.

A careful examination of the currency accounts of the liquidated national banks shows that the percentage of national-bank currency probable to be unredeemed will be very much smaller. From present indications, it seems probable that about two-fifths of 1 per cent of the national-bank notes that have been in actual circulation will remain unredeemed. On October 31, 1894, this amount was $691,706,231. At the average rate of redemption there will remain as profit to the Government from this source $2,766,824.92. The average cost of redemption has been about $1.37 per thousand.

On October 31, 1894, the amount in the Treasury to the credit of the national-bank redemption account was $35,883,967.73. Hence it will be seen that the profits from unredeemed circulation are already available.

The revenue from these banks was as follows:

From taxation	$145,234,650.4
From unredeemed circulation	2,770,615.4
Total	148,005,265.93

From this should be deducted the Government expense of this office, including the additional expense, which has been carefully estimated on the basis established by former Comptrollers, and the total brought down to the close of the report year, amounting to $15,365,963.75. This leaves the net profit derived from the national banks at $132,639,302.19.

As Government depositories, the national banks have received, stored in their vaults, and accounted for $5,356,625,891, without expense to the Government. Allowing the rate of three-eighths of 1 per cent as a reasonable compensation for such services, which is the same as that fixed by the act of March 3, 1875, as the compensation of disbursing officers for public buildings, it would amount to $20,087,347.

No attempt has been made to compute the expense for transportation charges during the thirty years, had it been necessary to transfer the moneys to the various subtreasuries instead of depositing them in these national banks, owing to the impossibility of obtaining the necessary information upon which to base an estimate. A casual investigation shows that this item would have amounted to a very large sum. The saving in expense, irrespective of transportation charges, added to the net profits detailed above, makes a total of $168,092,616 as the measure of the direct benefit the United States Treasury has actually received from the national banks.

SERVICE TO THE PUBLIC.

The amount of revenue received directly by the Government from the tax imposed by it upon the banks, and the savings to it, as stated, have been but a part of the benefits conferred upon the people through a well organized, uniform, and carefully conducted banking system. The aid rendered the individual in the carrying on of his business undertakings has been far greater than any revenue paid to the Government or service given it. The indisputable facts are that since the inauguration of the present system four great points of advantage and saving have been gained to the general public.

First. The saving in heavy discounts on the bank currency prevalent before the establishing of the national-bank system.

Second. The saving in rates of interest on loans and discounts.

Third. The saving in the making of exchange.

Fourth. The saving to customers in charges for making collections.

It is unnecessary to elaborate at any great length either of the above enumerated propositions, and yet something pertinent to each may be said that will give a clearer understanding of just what has been gained by a system under the general supervision and control of the Government.

It is not impossible, and it may be not improbable, that the same results might have followed, with improved business methods and keener watchfulness, the conduct of systems of note issue and banking not uniform and not under the same supervision, but the facts are that so far as the experiment has been tried, the one system has been wholly successful in its operation, and the other, at the best, was but partially so, and at its worst highly disastrous to all concerned.

The saving of loss from discounts on circulating notes of banks not uniform was quickly realized by the public at large. Prior to the issuing of national-bank notes there were as a part of our circulating medium approximately $200,000,000 of State-bank notes. The loss in discount upon these varied in different sections of the country, and was in a large measure controlled by what was known of the financial standing of the issuing bank. The loss to the note holder, however, was from 1 to 5 per cent, and not infrequently 10 per cent. In many cases it was an entire loss. Whatever may be the defects of the present note issue of the national banks, it is at least uniform in appearance and value, and by law the note issued by every bank in the

system is receivable at par by every other bank in it, and redeemable in lawful money at the bank of issue or at its designated redemption agency.

The saving in rates of interest on loans and discounts has been brought especially to the South, the West, and the Northwest, where the necessary capital for banking purposes was very scarce and at the same time very greatly needed to develop the great natural resources of these sections of the country. The provisions for the same governmental supervision of the national banks and uniformity of method with which the capitalists in the East and North were familiar undoubtedly was an important factor in engaging their capital, which, owing to its plentifulness at home was bringing to them either no interest or very low rates in banking enterprises in the sections named.

The evidence of the extent of this investment is found in the fact that in 1889 nearly one-third of the capital stock of 520 national banks in Iowa, Minnesota, Missouri, Kansas, and Nebraska, was contributed by Northern and Eastern shareholders, while in Dakota, Idaho, Montana, New Mexico, Utah, Washington, Wyoming, and Arizona more than one-half of the capital stock of 144 national banks was held by nonresident shareholders. In the States of Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Kentucky, and Tennessee, of the shares of 410 national banks a little more than one-sixth of the total was held by nonresident shareholders. The investments of this character made by nonresidents since the dates given has been at least as large, if not larger, than prior thereto, but the figures are not now at hand to state with accuracy the proportion. The facts gathered, however, form of themselves such data upon the point made as to make it worthy of consideration.

The increase in the supply of loanable funds thus furnished necessarily had the effect of lowering the rates of interest on loans and discounts below the level of those previously prevailing. The general confidence inspired by a central and uniform governmental supervision and examination, the frequent publication of sworn reports of condition, the double liability of shareholders, the percentage of reserve to be held against deposits required, and the necessity of having the bank's funds invested in quick assets, rather than tied up in real estate investments, operated to attract all over the country to these banks the deposit of funds in large and small amounts, upon the greater portion of which no interest is paid for temporary safe-keeping. To the extent that these deposits were made was the loaning capacity of the banks added to and the idle capital in each community brought into use. It can be easily calculated what the effect of rendering available so much imported and home capital was toward lowering rates of interest, when it is known that on October 2 last the individual deposits held by national banks amounted to $1,728,418,819.

As banking methods have improved and safety made more certain, under the effects of uniformity and general supervision, the lessening of the rates of exchange has steadily gone on, thus giving business interests the benefit of saving in an item in the transfer of funds that prior to 1860 assumed very large proportions. At present, to transmit $1,000 from New Orleans to New York it is but necessary to purchase from the bank at New Orleans its check payable to the purchaser's order on its correspondent bank in the latter city, and this may with perfect safety be transmitted to New York or any other point in the Union. At certain seasons of the year the purchaser will procure the

draft at par, at others at a slight premium of one-tenth or one-eighth of 1 per cent.

In 1859 the average rate of exchange on New York from points in the South and West is reported as from 1 to 1½ per cent, while the current rate in the State of New York in 1860 was one-half of 1 per cent. The exact figures which represent the grand total of exchange between national banks alone are not to be secured, but figures obtained by the Comptroller in the year 1878 showed an estimate at that time of nearly $3,000,000,000 as the amount of exchange drawn annually upon New York alone by Southern and Western States, and not less than $4,000,000,000 as the amount drawn annually by the same States upon points in the East, including New York.

The volume of business done by the national banks has greatly increased since 1878, and a corresponding increase must be made in the estimate then given for the purpose of approximating the measure of saving to the public effected merely through exchanges. As a very large proportion of clearing-house exchanges consist of checks drawn by banks located at a distance from the clearing houses, an examination of the volume of these clearing-house transactions will convey some idea of the great volume of exchange effected between banks at distant points. The clearings in New York city alone for the thirty years ended in 1894 aggregated the sum of $949,000,000,000, while the clearings for all the clearing houses in the United States for the single year 1894, and that a year far below the average, were $45,000,000,000.

It is impossible to ascertain in exact figures the saving to bank customers in the collections made for them free of charge, of notes, drafts, and other evidences of indebtedness. No statistics showing the money value of these services have ever been gathered, but the continual presence of these collection items in the files of every bank in the country furnishes abundant proof upon this point.

AMENDMENTS RECOMMENDED.

The act enumerating the duties of the Comptroller of the Currency specifically requires that in his annual report to Congress at the commencement of its sessions he shall suggest "any amendment to the laws relative to banking by which the system may be improved and the security of the holders of its notes and other creditors may be increased."

In compliance with the foregoing there were submitted at the last session of Congress certain recommendations looking to the amendment of existing laws. As yet the suggestions then made remain unacted upon, and therefore they are resubmitted. It is unnecessary to here set them forth in detail or again give the reasons then assigned in support of them. In a general way it may, however, be stated they cover the following points:

That associations, if the present law is not changed as to a bond deposit, be authorized to issue circulating notes equal to the par value of the bonds deposited; that the semiannual duty on circulation be so reduced as to equal one-fourth of 1 per cent per annum; that the Comptroller, with the approval of the Secretary of the Treasury, be empowered to remove officers and directors of national banks for violations of law; that loans of any bank to its executive officers or employés be restricted; that the assistant cashier under certain conditions be authorized to sign circulating notes; that some class of public officers be empowered to administer the general oaths required by the national

bank act; that bank examiners be required to take an oath of office; that the Comptroller be empowered to fix their compensation, and that provision be made for supervising examiners.

It is believed the taking of proper legislative action upon these proposed amendments would be for the betterment of the system and promotive of the public good.

The amendments thus suggested, however, affect in the largest degree only the administrative features of the present national-bank act, and are of less relative importance than the remedying of any defects which may exist in the note-issuing power vested by it in the banks. No section of the law should be disturbed which can not be materially improved upon and no amendment engrafted unless such amendment will work out better results than flow from the existing order of things.

The present law, it must be conceded, has been successful in every material feature, excepting in the matter of bank-note issue, and here the failure has been but a partial one. The notes issued by the banks under governmental supervision have been uniform in appearance and under any and all circumstances of the full face value which they purport to carry. They have possessed the first requisite of a good bank-note issue—immediate convertibility into coin upon presentation.

It is probable that there could be no better plan for simply insuring the note holder against loss than the present requirement of a deposit of bonds to secure a bank's circulation, but it is equally certain, however, that a method could be devised not less safe in this respect and in addition thereto possessing that which is as essential and is now wholly wanting—elasticity of issue. The complaint therefore made against the present system is that lacking in elasticity of issue it fails to meet as fully as it ought the varying wants of the country's trade and commerce. This defect must attach to every scheme for currency issued by the banks against a deposit of bonds, the market value of which fluctuates while the percentage of issue, less than the value of the bonds, granted the banks remains unchanged. It must also be wanting in such a method because of the delay, in the face of a pressing need, occasioned by a tight money market or other reason, in securing and depositing the bonds required and taking out the circulation thereon.

But serious as is this fault, and retardful as it is to the business interests of the country, any attempt to remedy it which should lose sight of or in anywise make less certain the present unquestioned credit and convertibility of the bank issues of the country could not be justified. It is a duty of governments to see that the currency which circulates among the people ought always to be of the very highest character, and the soundness of which should never be a subject of inquiry. For thirty years the American people have had such a bank currency, and having seen the value of it, both here and abroad, they will not be content to have any innovation made unless such new departure insures not only equal but better results.

It is respectfully suggested that not only as good but better results would be obtained if the present banking act were amended by repealing the provision thereof requiring each bank, as a prerequisite to entering the system and issuing bank-note currency, to deposit Government bonds.

In lieu of such provision should be substituted one permitting the banks to issue circulating notes against their assets to an amount equal to at least 50 per cent of their paid-up unimpaired capital. In order to guarantee the note holder against loss on account of the issue of any insolvent bank, a safety fund should be provided by graduated

taxation upon the outstanding circulation of the banks until the same should equal not less than 5 per cent of the total of such outstanding circulation, such fund to be held by the Government as an agent only and for the purpose of immediately redeeming the notes of such insolvent bank. It should be as speedily as possible replenished by a first and a paramount lien out of the assets of the bank and the shareholders' double liability. The redemption of such notes should be immediate upon presentation. Whatever other changes, if any, it would be necessary to make in the present system relative to current redemption of bank notes, and the Government's position relative to the same and kindred matters, it is unnecessary to here set forth. If the recommendation here made, together with that which will follow, should receive consideration at the hands of Congress, a bill drawn after careful study and investigation of the whole subject would necessarily embody all the details incident to a change from a bond to a safety-fund security as a basis for bank circulation.

Before presenting what seems to the Comptroller to be as important a phase of the question under discussion, and one which, if properly worked out, would be of great benefit to the General Government, it is pertinent to state that the change in the form of security for bank-note issues proposed was sanctioned not only by the American Bankers' Association, which recently met in Baltimore, but is indorsed by many of the leading financiers and students of political economy in this and other countries. It is embodied in the Canadian bank system and, in part at least in the Scotch, English, and German systems. It is safe to say that a note-issuing bank's best assets are its good business notes falling due and paid each day, and that the loss attendant upon notes issued and circulated against such assets under systems permitting it has been comparatively nothing. Only by issuing against them instead of against a bond security can any degree of elasticity in the note-issuing function be attained. It certainly can not be reached in the present hard and fast line fixed by existing law.

As an aid in arriving at the proper per cent of taxation necessary to raise a fund sufficient to redeem the notes of failed banks and the expense incident to the conduct of the office of the Comptroller of the Currency the following, taken from official records, is submitted:

Average annual circulation of national banks, 1864 to 1894	$282,801,252
Outstanding circulation of failed banks	17,819,541
Cost to General Government on account of national banks, as shown by the books of the Comptroller's office	7,610,169
Additional estimated cost	7,732,914
	15,343,083
Tax of one-fourth of 1 per cent for thirty-one years	21,917,073
Tax of one-fifth of 1 per cent for thirty-one years	17,533,674

It will thus be seen that a tax on national banking circulation of one-fifth of 1 per cent would have repaid the cost of the national banks to the General Government, and also that a tax of one-fourth of 1 per cent would have redeemed the notes of all failed national banks; in fact, a tax of two-fifths of 1 per cent would have been ample to meet both the cost of that system and the redemption of the notes of failed national banks. Under the existing laws, the Government standing responsible for the redemption of the circulation of failed national banks, up to January 1 last, had there been no bond deposit whatever, the loss to it would have been but $1,139,253, and of this amount

$958,247 represents the loss by banks whose trusts are still open and will pay further dividends, thus reducing the amount last named.

In considering the question of the benefits to the public of a bond deposit on the part of the banks it is well to remember that the comparatively few failures on the part of national banks have not been because of any security given by them for their circulation, but because of prudent and honest management on the part of those in charge of them, and the careful supervision and examination of them by the officers of the Government. Under the same character of management and the same superintendency and watchfulness on the part of the Government, failures will be not more numerous under a change in the respect named, and therefore the deductions made from the facts of the past are a safe basis for calculations as to the future.

The changes thus outlined will upon investigation, it is believed, prove to be safe in affording complete security to the note holder and give to the business interests of the country a note issue responsive to their needs. Within the measure of percentage of issue against assets granted the banks will be such range as will enable them to keep out sufficient currency to meet the ordinary demands of business and to speedily take out whatever extra amount is necessary to meet extraordinary occasions. It will not permit of an overissue if the notes issued under such system are convertible in coin on demand and the proper and speedy redemption of them is afforded. The business world will use just such amount of them as is necessary to carry on trade, and the remaining ones, it being unprofitable to have them in circulation, will at once return for redemption.

The profit upon the issue of circulation to the banks by such change would be so augmented that it is giving to them a franchise for which it is suggested they should be called upon to make proper return to the General Government. This return should not, however, be of such a character as to defeat the ends sought in the privilege given.

For a long time the chief source of embarrassment to the General Government and the cause of so great uncertainty in the business conditions of the country is the continual danger threatened by the use made of the currency issues of the Government, and the inability, when the revenues of the Government are inadequate, to maintain, except through bond issues, such a reserve of gold coin as is required by law. The current redemption of the legal tender issues and the Treasury issues under the act of 1890, and the reissuing instead of cancellation of the same, must always create distrust of the Government's credit abroad and at home, so long as the laws now upon the statute book remain unchanged.

The General Government ought to be wholly free from direct issuing and redeeming of notes to pass as money among the people. No Government yet has ever successfully engaged in so doing, and the experience of the United States has proven no exception to the rule. The general cost and loss entailed upon the Government, the repeated periods of uncertainty as to its credit, and the stability of our monetary system have been so great as to make the legal tender and Treasury issues of 1890 one of the extraordinary burdens placed upon the people. The relief given in increasing the volume of the circulating medium has been as nothing compared with the expense incident to maintaining the reserve in gold at all hazards necessary to keep intact the Government's credit and provide for their current redemption.

These issues ought to be redeemed and canceled, and the Government thus enabled to retire from the banking business—a business for which it is so poorly adapted and equipped. The intention of those

who first authorized the legal-tender issues was that it should so do at the earliest practicable moment, and the discussion then carried on in Congress is replete with such protestations. The first Congressional enactment signed by President Grant after his inauguration as Chief Executive was one reasserting the determination of the Government to preserve unquestioned the public faith, and the closing clause of it was "And the United States also solemnly pledges its faith to make provision at the earliest practicable period for the redemption of the United States notes in coin."

In the light of the present condition of the Government's finances, that which ought to have been done when there was a surplus in the Treasury can not now be undertaken, and the same conditions must continue to weaken the country's credit and plague the lines of business unless a means is devised for removing these issues from the channel of current redemption until such time as the Government finds itself in position to do that which at first was the intent of all—gradually redeem and cancel them.

If the franchise is granted the banks of issuing circulating notes against their assets instead of against a bond security, it is suggested that the banks in return should recompense the Government by relieving the Treasury Department of the current redemption in coin of the present Treasury issues. The ultimate redemption, of course, must fall upon the Government, but the embarrassment does not arise from their ultimate redemption but from their current.

It is therefore suggested that if Congress shall repeal the provisions of the present act requiring the national banks to make a deposit of Government bonds in order to secure circulating notes, and substitute therefor a provision giving them instead the right to issue the same against their assets, it incorporate therein and as a part thereof that as a prerequisite to so doing the banks be compelled to deposit with the Treasurer of the United States legal-tender issues, or issues under the act of 1890, equal in amount to the difference between the percentage of their capital stock of issues granted against their assets and the total of such capital stock. The deposit thus made ought to remain with the Treasurer until the bank ceased either through voluntary or involuntary liquidation to do business, and in either case the Government ought to then redeem and cancel such Treasury issues deposited. It is only by such permanent deposit during the life of the bank that the issues named can be removed from current presentation for redemption.

As against this deposit of legal tenders and Treasury notes so made there should be issued to the banks dollar for dollar of national-bank notes, either of the same or different design, as might be deemed best, that thus fixed the volume of the currency, as it is now contributed to by the issues of the Government, would not be contracted so long at least as the banks making such deposits are in existence. The bank notes issued under the plan suggested should be exempt from any tax levied on circulation to the same per cent that legal tender notes and Treasury issues, under the act of 1890, are deposited against circulation. If 50 per cent of the circulation is so based then 50 per cent of the circulation should be exempt from circulation tax. To an equitable percentage the bank should be permitted to hold these notes as a part of their reserve against deposit as they in part, would be based upon a deposit of lawful money, which, under the present system, is the money which must constitute such reserves.

The law should make it incumbent upon the banks to deposit in the Treasury for the current redemption of such notes gold coin to an

amount necessary to make sure the current redemption of them. The Government should not undertake or in anywise become responsible for the current redemption of these notes. Its responsibility should end with its redemption of the notes deposited to secure such circulation, when the bank ceased to exist. At present a current redemption fund of 5 per cent of the outstanding circulation is found sufficient, and it is probable that in the future no greater amount would be required.

As already suggested, it is not deemed necessary to here enter into a discussion of details. The principle, if correct, can be incorporated into a law framed in such a manner as to meet any objections, be just and equitable to all concerned, and while placing upon the banks a daily burden now borne by the Government, give them just compensation in making circulation a source of legitimate and fair profit instead of of loss. The elasticity of issue in national-bank circulation will be found in the percentage of issue against assets, subject to the necessary rate of taxation and secured by an adequate safety fund to guarantee the note holder against loss on account of the notes of insolvent banks and in a current redemption fund maintained for daily redemption. The Government will be aided, the bank given in exchange a dollar for every dollar deposited, and thus relieved of the loss incident to depositing an amount of its capital stock in excess of the return in notes granted it. No violent contraction of the currency would follow such a course, but whenever contraction would occur it would be not less gradual than would at other times the expansion incident thereto.

It is respectfully suggested that as a necessary element to the securing of proper elasticity of issue in our bank-note currency, section 9 of the act of July 12, 1882, regulating the retirement and issuing of circulation to banks within a fixed period of time, should be repealed, and also that such amendment should be made to the law as will necessitate the banks keeping in the office of the Comptroller of the Currency a sufficient amount of blank notes as will enable them to secure circulation at once, instead of after a period of delay, frequently of sufficient duration as to make the issue unavailable to relieve the pressure existing at the time of ordering the same.

It has been suggested from many eminent financial sources that the whole question of a banking and currency system ought to be referred by Congress to a commission, created by the proper act, appointed by the President, and clothed with proper authority. A commission, nonpartisan in its character, composed of men of eminent abilities, could unquestionably devise a currency system sound in every part and one which would commend itself to every interest of the country. It could largely take the question out of politics and have it considered simply in its business aspects and upon merit alone; but if the present Congress is to enact a law upon the subject the appointment of a commission could avail nothing. If, however, nothing more definite can be accomplished, the question of the creation of such commission ought to be considered and acted upon.

CONCLUSION.

In concluding this report the Comptroller desires to again bear testimony to the character and general efficiency of the employés in the Bureau, to the examiners in the field, and to the work accomplished by the receivers in relation to the trusts in their charge. The record of the Bureau throughout the past year justifies these expressions of praise.

In the appendix will be found in detail the usual tables, together with a digest of legal decisions* rendered by the various courts of the country involving questions affecting national banks.

In the second volume of this report will be found a detailed statement of the condition of all the national banks, as shown by the report of condition of October 2, 1894, alphabetically arranged by States and properly indexed.

JAMES H. ECKELS,
Comptroller of the Currency.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

---

* See foot note, p. 402.

APPENDIX.

No. 1.—Names and Compensation of Officers and Clerks in the Office of the Comptroller of the Currency, October 31, 1894.

Name.	Grade.	Salary.
James H. Eckels	Comptroller	$5,000
Oliver P. Tucker	Deputy Comptroller	2,800
Joseph Y. Paige	Chief clerk	2,500
George M. Coffin	Chief of division	2,200
Watson W. Eldridge	do	2,200
Abram R. Serven	do	2,200
George S. Anthony	Superintendent	2,200
Amos Webster	Teller	2,000
Theodore O. Ebaugh	Bookkeeper	2,000
Willis J. Fowler	Assistant bookkeeper	2,000
Edward A. Demaray	Clerk, class 4	1,800
John A. Hebrew	do	1,800
Endicott King	do	1,800
George T. May	do	1,800
Edmund E. Schreiner	do	1,800
Charles A. Stewart	do	1,800
Charles McC. Taylor	do	1,800
Walter Taylor	do	1,800
Thomas P. Kane	Stenographer	1,600
Harriet M. Black	Clerk, class 3	1,600
Willard E. Buell	do	1,600
William E. Colladay	do	1,600
George W. Collison	do	1,600
Washington K. McCoy	do	1,600
Isaac C. Miller	do	1,600
Joseph K. Miller	do	1,600
Franklin L. Mitchell	do	1,600
Ebenezer Southall	do	1,600
William D. Swan*	do	1,600
Ephraim S. Wilcox	do	1,600
George H. Wood	do	1,600
Eliza R. Hyde	Clerk, class 2	1,400
Robert Leroy Livingston	do	1,400
Mary L. McCormick	do	1,400
Loren H. Milliken	do	1,400
Morris M. Ogden	do	1,400
Carrie L. Pennock	do	1,400
Margaretta L. Simpson	do	1,400
Warren E. Sullivan	do	1,400
Arthur M. Wheeler	do	1,400
Anna M. Whiteside	do	1,400
Eliza M. Barker	Clerk, class 1	1,200
Evcline C. Bates	do	1,200
Margaret L. Browne	do	1,200
Philo L. Bush	do	1,200
Sarah M. Cartwright	do	1,200
Mary L. Conrad	do	1,200
William S. Davenport	do	1,200
Anna E. Rhodes	do	1,200
Marie Richardson	do	1,200
Eliza A. Saunders	do	1,200
Louisa Campbell	Clerk, class E	1,000
Virginia H. Clarke	do	1,000
Sarah G. Clemens	do	1,000
Harry V. Dresbach	do	1,000
Arthur L. Hitchcock	do	1,000
Frank T. Israel	do	1,000
Alice M. Kennedy	do	1,000
Emma Lafayette	do	1,000
William A. Nestler	do	1,000
Adelia M. Stewart	do	1,000
Clara L. Willard	do	1,000

*Additional to bond clerk, $200.

No. 1.—Names and Compensation of Officers and Clerks in the Office of the Comptroller of the Currency, October 31, 1894—Continued.

Name.	Grade.	Salary.
Jacob L. Bright	Engineer	$1,000
Thomas H. Austin	Clerk, class D	900
David C. Bangs	do	900
Alice M. Brazebridge	do	900
John E. Briggs	do	900
John A. W. Burche	do	900
Ellen Carey	do	900
Geraldine Clifford	do	900
James W. Farrar	do	900
Mary B. Harvell	do	900
Louisa B. Hunter	do	900
Charles S. Hyde	do	900
Mary A. Martin	do	900
Mary E. Oliver	do	900
Cassandria A. Smith	do	900
Julia A. Snell	do	900
Emma W. Stokes	do	900
William J. Tucker	do	900
William Griffiths	Messenger	840
Joseph O. Broadfoot	Assistant messenger	720
Silas Holmes	do	720
John F. Robertson	do	720
John Earle	Watchman	720
Daniel H. Mason	do	720
Samuel M. Freeman	Fireman	720
Richard Corcoran	Laborer	660
Peyton B. Kemp	do	660
Percy H. Towson	do	660

No. 2.—EXPENSES OF THE OFFICE OF COMPTROLLER OF THE CURRENCY FOR THE YEAR ENDED JUNE 30, 1894.

For special dies, plates, printing, etc	$133,359.58
For salaries	100,924.03
For salaries, reimbursable by national banks	16,778.41
Total expenses of the office of the Comptroller of the Currency from its organization, May, 1863, to June 30, 1894	7,574,277.85

The contingent expenses of the Bureau are not paid by the Comptroller, but from the general appropriation for contingent expenses of the Treasury Department; no separate account of them is kept.

No. 16.—Decrease or Increase of National Bank Circulation During Each of the Years Ended October 31, 1887 to 1894, Inclusive, and the Amount of Lawful Money on Deposit at the End of Each Year.

Net circulation outstanding, October 31, 1886		$219,710,656
National-bank notes outstanding October 31, 1887, including notes of national gold banks	$272,041,203	
Less lawful money on deposit at same date, including deposits of national gold banks	102,826,136	
		169,215,067
Net decrease of circulation		50,495,589
Net outstanding as above, October 31, 1887		169,215,067
National-bank notes outstanding October 31, 1888, including notes of national gold banks	239,385,237	
Less lawful money on deposit at same date, including deposits of national gold banks	87,018,909	
		152,366,328
Net decrease of circulation		16,848,739
Net outstanding as above, October 31, 1888		152,366,328
National-bank notes outstanding October 31, 1889, including notes of national gold banks	202,023,415	
Less lawful money on deposit at same date, including deposits of national gold banks	71,816,130	
		130,207,285
Net decrease of circulation		22,159,043
Net outstanding as above, October 31, 1889		130,207,285
National-bank notes outstanding October 31, 1890, including notes of national gold banks	179,755,643	
Less lawful money on deposit at same date, including deposits of national gold banks	54,796,907	
		124,958,736
Net decrease of circulation		5,248,549
Net outstanding as above, October 31, 1890		124,958,736
National-bank notes outstanding October 31, 1891, including notes of national gold banks	172,184,558	
Less lawful money on deposit at same date, including deposits of national gold banks	35,430,721	
		136,753,837
Net increase of circulation		11,795,101
Net outstanding as above, October 31, 1891		136,753,837
National-bank notes oustanding October 31, 1892, including notes of national gold banks	172,432,146	
Less lawful money on deposit at same date, including deposits of national gold banks	25,191,083	
		147,241,063
Net increase of circulation		10,487,226
Net outstanding as above, October 31, 1892		147,241,063
National-bank notes outstanding October 31, 1893, including notes of national gold banks	209,311,993	
Less lawful money on deposit at same date, including deposits of national gold banks	21,295,765	
		188,016,228
Net increase of circulation		40,775,165
Net outstanding as above, October 31, 1893		188,016,228
National-bank notes outstanding October 31, 1894, including notes of national gold banks	207,565,090	
Less lawful money on deposit at same date, including deposits of national gold banks	28,163,726	
		179,401,364
Net decrease of circulation		8,614,864

The gross decrease of circulation, including the notes of gold banks and those of failed and liquidated associations, was $1,746,903.

No. 17.—Table showing, by States, the Amount of National-Bank Circulation Issued, the Amount of Lawful Money Deposited in the United States Treasury to Retire National-Bank Circulation from June 20, 1874, to October 31, 1894, and Amount Remaining on Deposit at latter date.

States and Territories.	Additional circulation issued since June 20, 1874.	Lawful money deposited to retire national-bank circulation since June 20, 1874.				Lawful money on deposit with the United States Treasurer at date.
		For redemption of notes of liquidating banks.	To retire circulation under act of June 20, 1874.	To retire circulation under act of July 12, 1882.	Total deposits.

† Exclusive of $92,487 on deposit to retire circulation of national gold banks.

No. 18.—Statement showing the Amount of National-Bank Notes Outstanding, the Amount of Lawful Money on Deposit with the Treasurer of the United States to Redeem National-Bank Notes, and the Kinds and Amounts of United States Bonds on Deposit to Secure Circulation and Public Deposits on October 31, 1894, with the Changes during the Preceding Year and the Preceding Month.

National-bank notes.	October 31, 1893.	September 30, 1894.
Total circulation.		
Total amount outstanding at the dates named	$209,214,166	$207,471,501
Additional circulation issued during the intervals:		
To new banks	975,600	120,810
To banks increasing circulation	10,136,620	873,429
Aggregate	220,326,386	208,465,740
Surrendered and destroyed during the intervals	12,853,783	993,137
Total amount outstanding Oct. 31, 1894*	207,472,603	207,472,603
Decrease in total circulation since Oct. 31, 1893	1,741,563	
Increase in total circulation since Sept. 30, 1894		1,102
Circulation based on United States bonds.		
Amount outstanding at the dates named	188,016,228	180,251,065
Additional issued during the intervals as above	11,112,220	994,239
Aggregate	199,128,448	181,245,304
Retired during the intervals:		
By insolvent banks	1,254,195	33,250
By liquidating banks	2,190,268	139,285
By reducing banks	16,282,621	1,671,405
Total retired during the intervals	19,727,084	1,843,940
Outstanding against bonds Oct. 31, 1894	179,401,364	179,401,364
Decrease in circulation since Oct. 31, 1893	8,614,864	
Decrease in circulation since Sept. 30, 1894		849,701

Circulation secured by lawful money.	October 31, 1893.	October 31, 1894.*
Amount of outstanding circulation represented by lawful money on deposit with the Treasurer of the United States to redeem notes:		
Of insolvent national banks	$1,335,614	$1,278,920
Of liquidating national banks	4,732,400	5,248,217
Of national banks reducing circulation under section 4 of the act of June 20, 1874	1,886,834	9,300,104
Of national banks retiring circulation under section 6 of the act of July 12, 1882	13,243,090	12,243,998
Total lawful money on deposit	21,197,938	28,071,239
Lawful money deposited in October, 1894		1,817,290
National-bank notes redeemed in October, 1894		966,487
Increase in aggregate deposit since Oct. 31, 1893	6,873,301	
Increase in aggregate deposit since Sept. 30, 1894		850,803

United States registered bonds on deposit.	To secure circulating notes.	To secure public deposits.
Pacific railroad bonds, 6 per cents	$14,043,000	$1,195,000
Funded loan of 1891, 4½ per cents, continued at 2 per cent	22,749,900	1,013,000
Funded loan of 1907, 4 per cents	155,932,450	12,168,000
Loan of 1894, 5 per cents	6,980,850	500,000
Total on deposit Oct. 31, 1894	199,706,200	14,876,000

* Circulation of national gold banks not included in the above $92,487.

No. 19.—Statement showing Profits upon Circulating Notes Based upon a Deposit of $100,000 Bonds, October 31, 1893.

October 31, 1893—2 per cents.

Note 1.—Specie payments were suspended from January 1, 1862, to January 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally about $25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

Note 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

Note 3.—The coinage of standard silver dollars began in 1878 under the act of February 28, 1878.

Note 4.—Specie payments were resumed January 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

No. 38.—Statement showing the Amount and Kinds of United States Bonds Held to Secure Circulating Notes of National Banks on June 30 of Each Year from 1865 to 1894, and the Amount Owned and Held By the Banks for other Purposes, including those Deposited with the Treasurer to Secure Public Deposits.

(No. 4.)

REPORT OF THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., November 1, 1894.

SIR: In accordance with the instructions contained in your letter of August 23, 1894, I have the honor to respectfully submit the following report of the operations of the Bureau of Internal Revenue for the fiscal year ended June 30, 1894, together with certain additional information relating to the collections made and work performed during the months of July, August, and September of the current fiscal year.

The titles of the tables* found at the close of the bound volume of this report are as follows:

Table A, showing the receipts from each specific source of internal revenue and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ended June 30, 1894.

Table B, showing the number and value of stamps for special taxes, manufactured tobacco, snuff, cigars, cigarettes, distilled spirits, fortified sweet wine, fortified wine for export, fermented liquors, oleomargarine, and opium manufactured for smoking purposes; also the number of the different kinds of certificates of registry, with the number and value of documentary stamps used for validating unstamped instruments, issued to collectors of internal revenue during the fiscal year ended June 30, 1894.

Table C, showing the percentages of receipts from the several general sources of internal revenue now taxable in each State and Territory of the United States to the aggregate receipts from the same sources, by fiscal years, from July 1, 1863, to June 30, 1894.

Table D, showing the aggregate receipts of internal revenue in each collection district, State, and Territory of the United States, by fiscal years, from September 1, 1862, to June 30, 1894.

Table E, showing the receipts from specific and general sources of internal revenue, by fiscal years, from September 1, 1862, to June 30, 1894.

Table F, showing the ratio of receipts from specific sources of internal revenue to the aggregate receipts of the same, by fiscal years, from July 1, 1863, to June 30, 1894.

---

*The tables here referred to are omitted from this report.

Table G, showing the returns of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, and cigarettes, under the several acts of legislation and by fiscal years, from September 1, 1862, to June 30, 1894; also statement of the production of distilled spirits and fermented liquors in the several States and Territories, by fiscal years, from July 1, 1877, to June 30, 1894.

Table H, showing the receipts from special taxes in the several States and Territories for the twelve months ended June 30, 1894.

Table I. Abstract of reports of district attorneys concerning suits and prosecutions under the internal-revenue laws during the fiscal year ended June 30, 1894.

Table K. Abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1894.

Table L, showing the collections, expenses, and percentage cost of collection in the several collection districts during the fiscal years ended June 30, 1893 and 1894.

COLLECTIONS FOR THE CURRENT FISCAL YEAR.

After a careful examination, I estimate that the total receipts from all sources of internal revenue for the current fiscal year will amount to $171,000,000.

RECEIPTS FOR THE PAST NINE FISCAL YEARS.

Fiscal year ended—	
June 30, 1894	$147,168,449.70
June 30, 1893	161,004,989.67
June 30, 1892	153,857,544.35
June 30, 1891	146,035,415.97
June 30, 1890	142,594,696.57
June 30, 1889	130,894,434.20
June 30, 1888	124,326,475.32
June 30, 1887	118,837,301.06
June 30, 1886	116,902,869.44

COLLECTIONS FOR THE FISCAL YEAR ENDED JUNE 30, 1894.

In my last annual report I estimated that the receipts of this Bureau for the fiscal year ended June 30, 1894, would aggregate $150,000,000. Throughout the entire year the financial depression tended to materially reduce the receipts from all sources of internal taxation, and it is with much regret that I am compelled to state that the receipts fell short of the estimate in the sum of $2,831,550.30, the actual collections being $147,168,449.70.

The following tables exhibit in detail the amount of internal revenue collected during the fiscal year ended June 30, 1894, the sources which yielded the revenue, the total sums collected in each collection district, State and Territory, the cost of collecting, etc.:

INTERNAL-REVENUE RECEIPTS DURING THE LAST TWO FISCAL YEARS.

COMPARATIVE STATEMENT SHOWING THE RECEIPTS FROM THE SEVERAL OBJECTS OF INTERNAL TAXATION IN THE UNITED STATES DURING THE FISCAL YEARS ENDED JUNE 30, 1893 AND 1894.

k Including the Territory of Arizona.
l Including the State of Washington and the Territory of Alaska.

STATEMENT SHOWING THE AMOUNT OF INTERNAL REVENUE COLLECTED IN THE SEVERAL STATES, TERRITORIES, ETC., THAT HAVE BEEN CONSOLIDATED WITH OTHER DISTRICTS, FOR THE FISCAL YEAR ENDED JUNE 30, 1894.

States, Territories, etc.	Amount collected.	States, Territories, etc.	Amount collected.
Alaska	$2,111.50	Nevada	$16,561.24
Arizona	16,175.49	New Hampshire	425,300.21
California	1,574,702.05	New Mexico	20,545.07
California, fourth district of	316,665.26	North Dakota	19,900.86
Colorado	280,660.61	Oklahoma Territory	24,238.12
Connecticut	661,241.57	Oregon	200,519.04
Delaware	71,793.44	Rhode Island	383,757.60
District of Columbia	197,031.51	South Dakota	51,498.29
Idaho	19,851.40	Utah	45,857.80
Indian Territory	2,452.25	Vermont	23,375.76
Kansas	336,049.60	Virginia	2,545,303.23
Louisiana	815,456.98	Virginia, two counties of, Accomac and Northampton, belonging to collection district of Maryland	2,748.52
Maine	45,336.35		
Maryland	3,570,669.12		
Mississippi	13,190.68	Washington	137,900.50
Montana	84,548.21	Wyoming	17,559.53
Nebraska	2,168,892.88		

RECEIPTS FOR FIRST THREE MONTHS OF PRESENT FISCAL YEAR.

The following table shows the receipts from the several objects of taxation for the first quarter of the fiscal years ending June 30, 1894 and 1895. A comparison of the receipts for the two periods is also given:

Objects of taxation.	Amount of tax paid during first three months of fiscal year—		Increase.	Decrease.
	1894.	1895.		
SPIRITS.				
Spirits distilled from apples, peaches, or grapes	$183,958.84	$540,829.53	$356,870.69	
Spirits distilled from materials other than apples, peaches, or grapes	16,884,571.76	37,005,526.85	20,120,955.09	
Wine made in imitation of champagne, etc.				
Rectifiers (special tax)	77,141.64	69,691.71		$7,449.93
Retail liquor dealers (special tax)	2,304,872.66	2,329,965.96	25,093.30	
Wholesale liquor dealers (special tax)	200,815.51	206,382.17	5,566.66	
Manufacturers of stills, and stills and worms manufactured (special tax)	1,214.58	992.51		222.07
Stamps for distilled spirits intended for export	2,563.80	504.80		2,059.00
Total	19,655,138.79	40,153,893.53	20,498,754.74	
TOBACCO.				
Cigars and cheroots	3,026,788.65	3,248,581.10	221,792.45	
Cigarettes	451,999.18	432,583.03		19,416.15
Snuff of all descriptions	148,571.50	183,473.87	34,902.37	
Tobacco, manufactured, of all descriptions	3,099,739.87	3,750,309.25	650,569.38	
Total	6,727,099.20	7,614,947.25	887,848.05	
FERMENTED LIQUORS.				
Fermented liquors, tax of $1 per barrel on	9,671,204.62	9,284,337.78		386,866.84
Brewers (special tax)	69,937.51	72,700.09	2,762.58

Aggregate receipts	36,873,822.99	58,044,528.82	21,170,705.83	.....

COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine, and the provisions of the act of October 1, 1891, relating to the payment of bounty on sugar		$1,861,206.97
For salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses		1,881,335.86
For salaries and expenses of sugar inspectors		24,749.28
For paper for internal-revenue stamps		58,619.18
For expenses of detecting and punishing violations of internal-revenue laws		24,897.79
For salaries of officers, clerks, and employés in the office of Commissioner of Internal Revenue		267,486.50
Total amount expended		4,118,295.58
Deduct expenses relating exclusively to the payment of bounty on sugar, as follows:		
Additional deputies and clerks	$96,229.83	
Polariscopes and articles used in making analyses of sugar, etc	591.74	
Salary and expenses of sugar inspectors	24,749.28	
Additional clerks in office of Commissioner	8,570.00	
Amount paid out under Chinese exclusion act	8,933.84	
Amount paid out for fortification of sweet wines	3,316.89	
		142,391.58
Leaving the net cost of collection		3,975,904.00

The percentage of the cost of collection is 2.70 per cent. The expenses for the previous fiscal year were $4,219,739.36, being 2.62 per cent of the collections, showing a slight increase of percentage of cost over the previous fiscal year.

The amount appropriated for the purpose of detecting and bringing to punishment persons guilty of violating the internal-revenue laws, for 1894, was $25,000. This amount has been more than exhausted by the claims already presented to this office for payment. It will therefore be necessary to ask for an additional appropriation of $500.

AMOUNT EXPENDED UNDER "CHINESE EXCLUSION ACT," 1893–'94.

By the act approved November 3, 1893, to prohibit the coming of Chinese persons into the United States, the duty of registering Chinese laborers was imposed upon this Bureau. This work was completed on May 3, 1894, and the total number of registration certificates applied for was 106,811. The total sum appropriated for this work was $60,000, and the total amount expended up to the close of the fiscal year ended June 30, 1894, was $42,899.36, leaving unexpended on the 1st day of July, 1894, $17,100.64.

MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ending June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue for which appropriation was made in that act. In accordance with this requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Telegraphing on public business	$507.84
Locks for use at distilleries	3,592.95
Hydrometers used in gauging spirits	7,266.85
Weighing beams for use in weighing spirits	2,344.25
Expenses of testing spirits weighed, labor, etc	122.88
Steel letters for numbering stills	14.75
Saccharometers, and chemicals for testing sweet-wine samples and oleomargarine	163.18
Stationery for internal-revenue officers	282.51
The Internal Revenue Record supplied to internal-revenue officers	2,200.00
The Federal Reporter for the office of the Commissioner of Internal Revenue	17.50
Compensation of United States attorneys in internal-revenue cases allowed under sections 827 and 838, Revised Statutes	550.00
Traveling expenses of clerks and chemist under special orders of the Department	347.76
Expenses of seizures and sales by collectors	260.38
Total	17,670.85

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal-Revenue Service for the fiscal year ending June 30, 1896, as follows:

For salaries and expenses of collectors, including pay of deputy collectors and clerks, and expense of enforcing the act of August 2, 1886, taxing oleomargarine, and the act of August 4, 1886, imposing on the Government the expense of the inspection of tobacco exported	$1,817,500
Supplemental	423,600
For salaries and expenses of twenty revenue agents, for surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses	2,150,000
Supplemental	36,000
For paper for internal-revenue stamps	65,000

For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information and detection	$75,000
For salaries of officers, clerks, and employés in the office of the Commissioner of Internal Revenue	262,180
Supplemental	30,590
Total	4,859,870

SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1896, the sum of $262,180, and $30,590 supplemental, as salaries for the following officers, clerks, and employés in this bureau:

One Commissioner, at	$6,000
One deputy commissioner, at	3,200
One chemist, at	2,500
One statistician, at	2,500
Two heads of division, at	2,500
Seven heads of division, at	2,250
One superintendent of stamp vault, at	2,000
One stenographer, at	1,800
Twenty-four clerks, at	1,800
Twenty-four clerks, at	1,600
Forty clerks, at	1,400
Thirty-two clerks, at	1,200
Twenty-one clerks, at	1,000
Forty clerks, at	900
Four messengers, at	840
Fourteen assistant messengers, at	720
Thirteen laborers, at	660

An aggregate of 227 persons.

I also recommend the appropriation of the sum of $2,500 as salaries for one stamp agent at $1,600 and one counter at $900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections should vary from the amounts estimated the salaries will be readjusted at the end of the fiscal year:

For collection of—	Salary.	For collection of—	Salary.
$25,000 or less	$2,000	$375,001 to $425,000	$3,375
25,001 to $37,500	2,125	425,001 to 475,000	3,500
37,501 to 50,000	2,250	475,001 to 550,000	3,625
50,001 to 75,000	2,375	550,001 to 625,000	3,750
75,001 to 100,000	2,500	625,001 to 700,000	3,875
100,001 to 125,000	2,625	700,001 to 775,000	4,000
125,001 to 175,000	2,750	775,001 to 850,000	4,125
175,001 to 225,000	2,875	850,001 to 925,000	4,250
225,001 to 275,000	3,000	925,001 to 1,000,000	4,375
275,001 to 325,000	3,125	1,000,001 and upward	4,500
325,001 to 375,000	3,250		

OFFICIAL FORCE.

The force connected with this Bureau during the fiscal year which ended June 30, 1894, in the various districts throughout the United States, as reorganized under the executive order of May 21, 1887, was 63 collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
36	$4,500	1	$3,875	2	$3,250
1	4,375	1	3,750	1	3,125
1	4,250	2	3,625	1	2,875
1	4,125	6	3,500	6	2,750
2	4,000	1	3,375	1	2,625

There were also employed 963 deputy collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
22	$2,000	34	$1,300	9	$500
11	1,900	169	1,200	1	480
33	1,800	127	1,100	1	425
1	1,750	136	1,000	11	400
10	1,700	2	950	4	360
31	1,600	64	900	27	300
2	1,550	4	850	3	250
59	1,500	23	800	2	240
9	1,450	1	750	7	200
119	1,400	5	700	4	150
1	1,350	25	600	6	120

There were also employed in the offices of the different collectors 185 clerks, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1	$1,800	8	$1,150	9	$700
2	1,600	6	1,100	2	650
3	1,500	30	1,000	11	600
9	1,400	34	900	1	500
4	1,300	18	800	1	400
1	1,250	5	750		
38	1,200	2	720		

Also 30 porters, messengers, or janitors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
6	$600	1	$360	1	$180
3	500	3	300	2	120
5	480	1	240	3	100
4	400	1	200		

In addition to the foregoing there were also employed for limited periods 409 persons in duties solely connected with the execution of the provisions of the act of October 1, 1890, relating to the payment of bounty on sugar produced, as shown more in detail in that part of this report relating to that subject.

At the close of the year ended June 30, 1894, 207 officers, clerks, messengers, and laborers were employed in this Bureau, and the aggregate amount paid during the year for their salaries was $267,486.50.

STOREKEEPERS, GAUGERS, ETC.

There were also employed 696 gaugers, who received fees not to exceed $5 per day; 546 storekeepers, and 1,234 storekeepers, and gaugers, whose pay did not exceed $4 per diem, and 6 distillery surveyors. All the foregoing officers are paid only when actually employed.

Storekeepers are assigned to those distilleries only which have a surveyed daily capacity of 100 bushels or more, and are paid such compensation as may be prescribed by the Commissioner of Internal Revenue, not to exceed $4 per day.

The pay of storekeeper and gaugers assigned to distilleries whose registered daily capacity is 20 bushels or less is fixed by law at $2 per diem. The pay of those assigned to larger distilleries has been graded according to the following scale:

Compensation for storekeeper and gaugers assigned to distilleries having a surveyed daily capacity exceeding 20 bushels and not exceeding 40 bushels, $3 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 40 bushels and not exceeding 60 bushels, $3.50 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 60 bushels, $4 per day.

GENERAL CONDITION OF THE OFFICE AND THE SERVICE.

The work of this Bureau is in good condition, both in this office and in the field. It affords me great pleasure to commend the efficiency, industry, and competency of the officers, clerks, and employés in every branch of the service, which is evidenced by the prompt and accurate disposal of all business of the Bureau up to date.

Examinations have been made of the offices of the several collectors of internal revenue as frequently during the fiscal year as was possible with the limited force of revenue agents at my command, and the condition in which these offices were found and reported justifies the conclusions above set forth.

* * * * * * *

REVENUE AGENTS' DIVISION.

Twenty revenue agents have been employed during the last fiscal year, 1 as chief of division in this office, 12 in charge of territorial divisions, 3 in the examination of the offices and accounts of collectors, and 4 in assisting agents in charge of divisions and on special duty.

EXPENSES OF REVENUE AGENTS.

There have been expended from the appropriation for salaries and expenses of revenue agents during the year the following amounts:

Aggregate salary of agents	$38,211.00
Aggregate amount of traveling expenses	26,129.53
Stationery furnished agents	282.51
Transportation over Pacific railroads	826.15
Total	65,449.19

WORK OF REVENUE AGENTS.

Two thousand seven hundred and twenty-nine violations of internal-revenue law have been reported by revenue agents during the year; 632 persons have been arrested on their information; property to the value of $246,197.96 has been reported by them for seizure, and $40,271.01 for assessment for unpaid taxes and penalties.

EXPENDITURES FOR THE DISCOVERY AND PUNISHMENT OF VIOLATORS OF LAW.

In accordance with the provisions of the act making the appropriation, the following detailed statement of expenditures for detecting and bringing to trial and punishment persons guilty of violating internal-revenue laws is submitted:

AMOUNT EXPENDED THROUGH REVENUE AGENTS FOR FISCAL YEAR 1894.

Name.	Amount.	Name.	Amount.
B. B. Bouldin	$809.10	C. J. Fleming	$914.00
F. W. Bowers	5.32	J. F. Hazzard	91.75
A. H. Brooks	663.00	A. C. McGlachlin	2,735.20
W. H. H. Bowen	29.98	John M. Tobin	10.43
W. H. Chapman	4,980.48	L. A. Thrasher	634.75
George B. Clark	1,918.30	George H. Wheelock	24.00
W. W. Colquitt	9,943.45	James M. Wooters	7.81
B. L. Cromwell	64.50	Robert Williams, jr	471.50
S. F. Culbertson	108.00		
Wayne Ferguson	135.00	Total	23,546.57

AMOUNT EXPENDED THROUGH COLLECTORS OF INTERNAL REVENUE FOR FISCAL YEAR 1894.

Name.	District.	Amount.
J. J. Carter	Louisiana	$6.50
William H. Doyle	First Pennsylvania	25.00
E. M. Gilkeson	West Virginia	160.00
W. H. Johnson	Georgia	.25
R. O. Randall	Alabama	1.75
Charles H. Rodes	Eighth Kentucky	1.05
Hambleton Shepperd	Sixth Virginia	1.05
Total		195.60

RECAPITULATION.

Amount expended by revenue agents	$23,546.57
Amount expended by collectors	195.60
Amount expended for rewards	1,015.57
Amount expended for miscellaneous expenses	140.05
Total	24,897.79

The accounts for expenditures under this appropriation are rendered monthly, with an itemized statement, and in all cases supported by proper subvouchers duly sworn to. These accounts pass through all the accounting offices in the Treasury Department and are filed in the Register's office.

INTERNAL-REVENUE INSPECTORS.

In accordance with the provisions of legislative act of March 3, 1891, authorizing the Commissioner of Internal Revenue to employ not to exceed twelve inspectors whose duty shall be to inspect sugar upon which a bounty is required to be paid, and to perform such other duties as may be required by the Commissioner, twelve inspectors have been employed during the past year, at a compensation of $5 per day while actually and necessarily employed and their necessary traveling expenses.

These inspectors have been employed most of the time in connection with the payment of bounty on domestic sugar, and have been assigned as follows:

Districts of Kansas, Nebraska, and Montana	1
First district of California	1
Districts of Louisiana, Texas, and Florida	10

During the maple-sugar season inspectors were employed in connection with inspection and classification of maple sugar upon which bounty was claimed in the following districts:

Districts of New Hampshire, and Massachusetts	2
Fourteenth, twenty-first, and twenty-eighth districts of New York	1
Twelfth, and twenty-third districts of Pennsylvania	1
Tenth, and eighteenth districts of Ohio and first and fourth Michigan	1

In the cane-sugar-producing districts it was found necessary to employ some of the inspectors during the entire year. In the beet and sorghum producing districts they were employed from three to five months, and in the districts where maple sugar is produced their services were required about three months.

When not occupied with duties as sugar inspectors they were employed with revenue agents on general duty in connection with the internal-revenue service.

EXPENSES OF REVENUE INSPECTORS.

The appropriation for the payment of salaries and expenses of inspectors was $25,000. The following expenditures chargeable to that appropriation have been made during the year:

Aggregate salary of inspectors	$15,470.00
Aggregate amount of traveling expenses	9,135.30
Transportation over Pacific railroads	143.98
Total	24,749.28

STAMP DIVISION.

STATEMENT OF THE NUMBER AND VALUE OF STAMPS ISSUED FOR THE FISCAL YEAR ENDED JUNE 30, 1894.

Class of stamps.	Number.	Value.

REDEMPTION OF CHECK AND PROPRIETARY STAMPS.

Since July 1, 1893, and up to June 30, 1894, 72 applications for redemption of check and proprietary stamps have been received for consideration, the sums stated varying from 10 cents to $22.96, and the different values amounting in the aggregate to $187.01. The time allowed by law for the redemption of these classes of stamps having expired by limitation June 30, 1886, the claims were rejected and the stamps forwarded therewith were returned to the applicants.

At the close of the last fiscal year there were remaining 78 packages of check and proprietary stamps undisposed of. These packages are made up of cases incomplete as to data, some containing stamps without claims, and others claims unaccompanied by stamps. None of the old claims have been disposed of, and are chiefly those for which no clue to ownership can be obtained. Inasmuch as these claims have been carried upon the reports from year to year, it is recommended that some disposition be made of them in order that they may be omitted from future reports of this office.

PRODUCTION OF STAMPS.

The Bureau of Engraving and Printing prints and supplies all of the internal-revenue stamps used, with the exception of stamps for tobacco imprinted on foil wrappers, which have been printed and furnished by the John J. Crooke Company, of New York, under a contract which provides that the imprinting of such stamps shall be without cost to the Government, the contractor receiving such remuneration from the manufacturers of tobacco as may be agreed upon between them, and reimbursing to the Government the salaries of one stamp agent for the United States and one counter, amounting to $2,500 per annum.

MANUFACTURE OF STAMP PAPER.

After due advertisement for proposals to furnish paper for the fiscal year ending June 30, 1895, to be used in the printing of United States internal-revenue stamps, ten bids were presented. The bids were opened on the 5th day of April, 1894, and after proper consideration of the same—the customary and usual tests of the various samples of paper submitted with the bids having been made—the contract for supplying the paper was awarded on the 6th day of April, 1894, to Messrs. Alexander Balfour & Sons, of Philadelphia, Pa., at the rate of 5 cents per pound, including expenses for its transportation and delivery at the Treasury Department, this being a reduction of 1 cent from the former contract price, which was 6 cents per pound. The advertisement for the proposals stated that the quantity of paper likely to be required for the ensuing year would be about 800,000 pounds. It is now apparent by the regular annual increase of the demand for the several classes of stamps that the amount of paper required will be 1,000,000 pounds. The manufacture of paper under the contract with Messrs. Balfour & Sons was commenced on the 1st day of September, 1894.

OFFICIAL COUNT OF STAMPS IN VAULT.

In accordance with instructions contained in Department letter of December 9, 1893, appointing a committee to make an inventory of the internal-revenue stamps in the vaults of the stamp division, the committee reported and took possession of the vaults at 9 o'clock on the morning of December 27, 1893, with a force of 2 clerks, 35 expert counters, and 20 packers and laborers selected from different offices of the Department, and proceeding at once with the count, completed the work on January 3, 1894. They reported the balances found by actual count to agree in every respect with the balances reported by the superintendent of the vault and the statement of balances called for by the

books in the office of the Secretary, all of which were verified by the count and found to be absolutely correct. The following summary of transactions illustrates the extensive and responsible work performed in the stamp division in the past year.

There were on hand December 27, 1892, when the previous count was made, 64,813,844 stamps (value, $22,604,460). From that date to December 27, 1893, there were received from the Bureau of Engraving and Printing (and from collectors of internal revenue for re-issue) 1,011,707,280 stamps (value, $182,195,719), making the total to be accounted for 1,076,521,124 stamps (value, $204,800,179).

There were delivered for issue, reissue, and destruction during the period named 972,130,402 stamps (value, $169,249,011), leaving a balance to be accounted for on the morning of December 27, 1893, of 104,390,722 stamps (value, $35,551,167.87), which by actual count were found to be in the vaults on that date.

The committee, in closing their report, state that they feel justified in emphasizing the fact that these extensive operations, involving the receipt, custody, and issue of more than one billion stamps, have been conducted without loss to the Government, a result which indicates the highest degree of efficiency on the part of the officers and employés charged with this responsible duty, and that the checks and safeguards adopted by the Department to insure accuracy and proper accountability in the receipt and issue of stamps are well calculated to secure that result.

STOCK OF STAMPS IN VAULT.

The present stock of stamps in the vaults of this Bureau does not come up to the requirements of the statute and is inadequate to meet the demands of the service. It is estimated that the three months' supply which the statute requires to be in the vault should be 300,000,000 stamps of the various classes and denominations. The stock on hand in the vault to October 9, 1894, is only 96,296,482 stamps of all denominations. The inability to maintain the stock at the statutory requirement is due to the failure of the Bureau of Engraving and Printing to fill the orders from this Bureau as called for. There are now due from the Bureau of Engraving and Printing on past orders 140,452,100 stamps, and orders for November delivery amount to 97,848,000 stamps.

I am pleased to state, however, that the deliveries from the Bureau are gradually increasing, and it is believed that within a short time the stock of stamps in the vault will be brought up to the statutory requirement.

Under the provisions of an act passed August 28, 1894, imposing a tax on playing cards, this Bureau has issued 12,505,000 "stock on hand" stamps, and 6,057,000 stamps for manufacturers, up to and including October 9.

REGISTRATION OF CHINESE.

Under the provisions of the amendatory act of November 3, 1893, certificates of residence of Chinese laborers and other than laborers entitled to remain in the United States before the passage of the original act of May 5, 1892, are required to be issued by this office. The total number of certificates so issued on applications received up to and including May 3, 1894, was 106,811.

STATEMENT OF CERTIFICATES OF RESIDENCE ISSUED TO CHINESE.

Alabama	41
Arkansas	87
California (includes Nevada)	68,791
Colorado (includes Wyoming)	1,583
Connecticut (includes Rhode Island)	571
Florida	107
Georgia	184
Illinois	1,868
Indiana	117

Tennessee	70
Texas	1,054
Virginia	111
West Virginia	25
Wisconsin	140
	106,811

Since the expiration of the period allowed for registration, there have been submitted to this office satisfactory evidence and the necessary papers showing applicants entitled to receive certificates, under which there have been issued 1 in the Eighth district of Illinois, 2 in Montana, 1 in First Ohio, and 2 in First New York, up to June 30, 1894.

TOBACCO DIVISION.

The aggregate amount of taxes collected from tobacco during the last fiscal year was $28,617,898.62. This amount includes internal-revenue taxes paid by stamps on imported and manufactured tobacco, snuff, cigars, and cigarettes.

The net decrease of collections for the last fiscal year, as compared with those of the previous fiscal year, was $3,271,813.12. The increase from cigarettes was $4,050.64, of which $3,440.53 was on cigarettes weighing not over 3 pounds per thousand, and $610.11 was on cigarettes weighing over 3 pounds per thousand. The decrease from the following-named articles was:

Cigars and cheroots	$2,241,839.05
Tobacco, chewing and smoking	1,016,876.60
Snuff	17,148.11
Total	3,275,863.76
Deduct increase, cigarettes	4,050.64
Net decrease of collections	3,271,813.12

The export account shows an increase in the number of cigarettes exported of 3,778,040, a decrease in manufactured tobacco of 744,754 pounds, and a decrease in the number of cigars exported of 352,315.

COMPARATIVE STATEMENT.

The following exhibit shows in detail the receipts for the fiscal year ended June 30, 1894, from each particular source of the tobacco tax, as compared with those of the previous fiscal year:

RECEIPTS FROM TOBACCO AND SNUFF.

Manufactured tobacco	$14,127,108.31
Snuff	697,625.52
Total for year ended June 30, 1894	14,824,733.83
Total for year ended June 30, 1893	15,858,758.54
Decrease in collections	1,034,024.71

Of this decrease $1,016,876.60 was from chewing and smoking tobacco and $17,148.11 from snuff.

RECEIPTS FROM CIGARS AND CIGARETTES.

Cigars and cheroots	$12,200,752.30
Cigarettes	1,592,412.49
Total for year ended June 30, 1894	13,793,164.79
Total for year ended June 30, 1893	16,030,953.20
Decrease in collections	2,237,788.41
Decrease from cigars and cheroots	2,241,839.05
Increase from cigarettes	4,050.64

PRODUCTION OF TOBACCO, SNUFF, CIGARS, AND CIGARETTES.

The production of tobacco, snuff, cigars, and cigarettes for the fiscal year ended June 30, 1894, computed from the receipts from stamps sold for all such goods as were put on the market for consumption, together with those removed in bond for export and including importations for consumption, was:

TOBACCO AND SNUFF.

		Pounds.
Tobacco		235,451,805
Snuff		11,627,092
Total tobacco and snuff taxed		247,078,897
Tobacco and snuff exported		14,668,695
Total production for fiscal year 1894		261,747,592
Deduct tobacco and snuff imported for consumption		388,409
Total domestic production		261,359,183
Total production, 1893	279,726,092	
Less imports	370,702	
		279,355,390
Total decrease under fiscal year 1893		17,996,207

The decrease of taxed tobacco and snuff under fiscal year 1893 was 17,233,746 pounds; the decrease of tobacco and snuff exported was 744,754 pounds, and the increase of tobacco and snuff imported and withdrawn for consumption was 17,707 pounds.

CIGARS AND CHEROOTS.

		Number.
Cigars and cheroots taxed		4,066,917,433
Add number exported		1,894,740
Total taxed and exported		4,068,812,173
Deduct number imported 1894 (estimated average 12 pounds per 1,000)		36,358,690
Total domestic production		4,032,453,483
Taxed in 1893	4,814,197,117	
Exported in 1893	2,247,055	
Total for 1893	4,816,444.172	
Less imported	51,168,250	
		4,765,275,922
Decrease under fiscal year 1893		732,822,439

The decrease during the fiscal year 1893 of taxed cigars and cheroots was 747,279,684; the decrease of cigars exported was 352,315, and the decrease of cigars imported and withdrawn for consumption was 14,809,560.

CIGARETTES.

		Number.
Cigarettes taxed at 50 cents a thousand		3,183,574,760
Cigarettes taxed at $3 a thousand		208,370
Total number cigarettes taxed		3,183,783,130
Add quantity exported		401,605,300
Total taxed and exported		3,585,388,430
Deduct cigarettes imported (estimated average 3 pounds per 1,000)		3,318,451
Total product		3,582,069,979
Taxed in 1893	3,176,698,700	
Exported in 1893	397,827,260	
Total taxed and exported	3,574,525,960	
Less imported, 1893	3,824,334	
		3,570,701,626
Increase over fiscal year 1893		11,368,353

The increase during the fiscal year 1893 of taxed cigarettes was 7,084,430; and of cigarettes exported 3,778,040. The decrease of cigarettes imported and withdrawn for consumption was 505,883.

THE TABULAR STATEMENTS.

In the tables annexed will be found statements showing the manner in which the manufacturing is distributed among the different States and districts, the number of persons and firms engaged in each of the two branches of manufacturing, the quantity of different kinds of materials used, and the quantity and kinds of product manufactured. These tables are compiled from the reports received from the collectors of internal revenue of the transactions of manufacturers in their several districts for the calendar year ended December 31, 1893, a period of time differing from the fiscal year ended June 30, 1894, which will account for any apparent discrepancies between them and the previous part of the report relating to tobacco.

About 1,700 cigar manufacturers qualified as tobacco manufacturers in order to lawfully put up and sell their scrap and waste tobacco as smoking tobacco. About 68 persons qualified and kept books as tobacco manufacturers solely for the purpose of lawfully dealing in the

refuse scraps, clippings, cuttings, and waste, and pack this material in bulk and export most of it to foreign countries. Four firms have qualified as tobacco manufacturers solely for the purpose of making sheep wash and fertilizers from tobacco stems. The number of tobacco manufacturers who buy leaf and manufacture it is not over 800. About 50 of these manufacture over 1,000,000 pounds apiece, of whom 5 average over 10,000,000 pounds annually. Nearly 200 manufacture over 100,000 pounds and less than 1,000,000 each.

STATEMENT SHOWING THE NUMBER, BY DISTRICTS, OF CIGAR MANUFACTURERS ACCOUNTS REPORTED, THE QUANTITY OF TOBACCO USED, AND THE NUMBER OF CIGARS AND CIGARETTES REPORTED MANUFACTURED DURING THE CALENDAR YEAR ENDED DECEMBER 31, 1893.

1,155 pounds of tobacco, valued at	110.90
13,203 cigars, valued at	209.50
Miscellaneous property, valued at	22,595.00
Total	33,205.13

ABATEMENT CLAIMS.

On the 1st of July, 1893, there were pending 254 claims for abatement of assessed taxes, amounting to $107,122.08, and during the year 3,545 claims, amounting to $589,507.30, were presented.

Of these, 2,307 claims, amounting to $363,720.05, have been allowed by this office, and 877 claims, amounting to $151,415.99, have been rejected or returned for amendment.

This left 615 claims for abatement still pending on the 30th of June, 1894, amounting to $181,493.34.

Since that date and up to October 1, 928 other claims have been filed, amounting to $164,687.30; 1,062 claims have been allowed, amounting to $252,056.02, and 208 rejected or returned for amendment, amounting to $10,508.12, and on the 1st of October, 1894, 273 claims for abatement were pending, amounting to $83,616.50.

REFUNDING CLAIMS.

On the 1st of July, 1893, there were pending 147 claims for the refunding of taxes collected, amounting to $171,927.27, and during the year 208 other claims, amounting to $32,930.77, were presented.

Of these, 88 claims, amounting to $56,644.97, have been allowed, and 88 claims, amounting to $14,818.96, have been rejected or returned for amendment. This left 179 claims for refunding still pending on the 30th of June, amounting to $133,394.11.

Since that date and up to the 1st of October, 1894, 35 other claims, amounting to $10,415.19, have been received. Of these 214 claims, 14 have been allowed, amounting to $3,507.19, and 28 have been rejected or returned for amendment, amounting to $7,238.90, and on the 1st of October, 1894, 172 claims for refunding were pending, amounting to $133,063.21.

REBATE OF TAX ON TOBACCO.

On the 1st of July, 1893, there were no rebate claims on hand. Between that date and June 30, 1894, one claim, amounting to $6.53, has been received and allowed.

DIVISION OF DISTILLED SPIRITS.

The statements under the above heading, relating to the fiscal year ended June 30, 1894, exhibit the number of grain, molasses, and fruit distilleries which were registered and operated in each State; the number of fruit distilleries registered and operated in each collection district; the number and capacity of the grain and molasses distilleries in operation at the beginning of each month in the year and of the three following months; the number of grain distilleries, classified according to their different capacities, registered and operated in each district and State; the quantities and several kinds of grain and other materials used in the production of distilled spirits in each collection district and State; the different kinds of fruit brandy produced during the year in each collection district and State; the quantity of distilled spirits, in proof gallons, rectified in the several districts and States; and the number of cattle and hogs fed at the registered grain distilleries; the quantity of distilled spirits gauged during the fiscal years ended June 30, 1893 and 1894, in each collection district and State; the quantity of fermented liquors produced during the fiscal year ended June 30, 1894, in each collection district and State, together with other items.

DISTILLERIES REGISTERED AND OPERATED.

COMPARATIVE STATEMENT OF DISTILLERIES REGISTERED AND OPERATED.

The whole number of grain distilleries registered during the fiscal year ended June 30, 1894, was 1,964, of which number 1,541 were operated.

The numbers registered and operated during the fiscal year ended June 30, 1893, were 1,798 and 1,617, respectively, showing an increase during the last fiscal year of 166 in the number registered and a decrease of 76 in the number operated.

Much the larger portion of the increase in the number registered occurred in the class of distilleries having the smaller capacities for the production of spirits, there having been an increase of 161 in the number of distilleries of this class registered, with a decrease of 25 in the number operated.

In the class of larger distilleries there was an increase of 5 only in the number registered, and a decrease of 51 in the number operated.

During the fiscal year ended June 30, 1893, there were registered 1,532 distilleries of the smaller class, varying in daily grain capacity from not over 5 to not over 60 bushels each, and of this number 1,359, or nearly 89 per cent, were operated.

Of the larger distilleries, having daily grain capacities varying from 60 bushels to several thousand bushels each, 266 were registered and 258, or 97 per cent, were operated.

During the fiscal year ended June 30, 1894, of the smallest distilleries 1,693 were registered and 1,334, or 78 + per cent, were operated.

Of the larger distilleries 271 were registered and 207, or 76 + per cent, were operated.

There were 12 rum distilleries registered and 12 operated, an increase of 1 in the number reported for the previous fiscal year.

There were 3,633 fruit distilleries registered and 3,595 operated, an increase of 453 in the number registered and of 480 in the number operated during the fiscal year.

The total number of grain, molasses, and fruit distilleries registered and operated during the year is 5,609 and 5,148, respectively.

There was an increase of 620 in the number of all kinds of distilleries registered and of 405 in the number of all kinds operated during the fiscal year ended June 30, 1894, as compared with the fiscal year ended June 30, 1893.

Total	2,286,188	100,778	2,998	3,268,637	13,571,441	21,126	6,731	5,476,521	11,213	19,269,112	5,476,521

The average yield per bushel of grain was $\frac{87,340,897.}{*19,716,818.}$ = 4.42+gallons of spirits. The average yield per gallon of molasses was $\frac{1,864,595.}{*2,598,409.}$ = .717+of a gallon of rum.

*Two million eight hundred and seventy-eight thousand one hundred and twelve gallons of molasses were used for the production of spirits instead of rum; and their equivalent, estimated in bushels of grain, is added to the total grain in determining the yield per bushel of grain.

COMPARATIVE STATEMENT OF MATERIALS USED AND SPIRITS PRODUCED DURING THE LAST TEN FISCAL YEARS.

Year.	Grain used.	Spirits produced.	Molasses used.	Rum produced.
	Bushels.	*Gallons.*	*Gallons.*	*Gallons.*
1885	17,865,203	72,834,198	2,719,416	2,081,165
1886	19,195,332	78,544,428	2,308,130	1,799,952
1887	17,959,565	75,974,376	2,428,783	1,857,223
1888	16,122,509	68,388,160	2,519,494	1,891,246
1889	20,990,924	87,887,456	1,951,104	1,471,054
1890	25,202,901	107,618,120	2,198,538	1,657,808
1891	26,347,641	114,178,077	2,368,171	1,784,312
1892	26,489,827	112,812,723	2,550,759	1,956,318
1893	29,030,409	126,545,017	2,775,752	2,106,765
1894	19,716,818	87,340,897	2,598,409	1,864,595
Total	218,921,129	932,123,452	24,418,556	18,470,438
Average	21,892,113	93,212,345	2,441,855	1,847,043

The quantity of grain used for the production of spirits during the fiscal year ended June 30, 1894 (19,716,818 bushels, including 447,706 bushels, which is the estimated equivalent of 2,878,112 gallons of molasses, used for the production of spirits), shows a decrease of 9,313,591 bushels from the amount used in the preceding fiscal year (29,030,409 bushels), and is 2,175,295 bushels less than the average (21,892,113 bushels, for the last ten years. The number of gallons of spirits produced from grain during the year (87,340,897 gallons) shows a decrease of 39,204,120 gallons from the product (126,545,017 gallons) for the year ended June 30, 1893, and is 5,871,448 gallons less than the average produced (93,212,345 gallons) for the last ten years.

The yield of spirits from each bushel of grain is 4.42+ gallons.

The yield for the two preceding years was 4.24+ gallons for 1892 and 4.35+ gallons for 1893.

The quantity of molasses used for the production of rum during the fiscal year (2,598,409 gallons) shows a decrease of 177,343 gallons from the quantity used in the previous year (2,775,752 gallons), and is 156,554 gallons more than the average (2,441,855 gallons) for the last ten years.

The quantity of rum distilled from molasses during the fiscal year (1,864,595 gallons) shows a decrease of 242,170 gallons from the product of the previous year (2,106,765 gallons), and is 17,552 gallons more than the average product (1,847,043 gallons) for the last ten years.

DIVISION OF ASSESSMENTS.

The following statements relative to assessments, to spirits deposited in and withdrawn from distillery warehouses and special bonded warehouses, the number and location of such warehouses and the names of the proprietors thereof; to the stock of spirits in the United States October 1, 1894; to the exportation of spirits, fermented liquors, tobacco, snuff, cigars, and cigarettes in bond; to the exportation of tobacco, cigars, fermented liquors, and stills, with benefit of drawback; to the use of grape brandy tax-free in fortifying wines, and to the act of March 3, 1891, authorizing the use of alcohol tax-free in the manufacture of sugar from sorghum, are prepared from reports in the division of assessments. The statements relative to assessments are to be found on this page and the page following; statements relative to operations in distillery warehouses commence on page 646 (see also special index on page 645); to operations in special bonded warehouses, on page 686; to exportations in bond free of tax as to spirits, on page 663; as to fermented liquors, on page 696; as to tobacco, snuff, cigars, and cigarettes, on pages 694, 695; to exportations with benefit of drawback, on page 695, and to the use of brandy in fortifying wines, on page 694. No case has yet arisen under the act of March 3, 1891, above referred to.

ASSESSMENTS.

1. By States and Territories, 1894.

The following statement shows the amount of assessments in each of the several States and Territories of the United States, except where two or more are comprised in one district, during the fiscal year ended June 30, 1894:

States and Territories.	Amount.	States and Territories.	Amount.
Alabama	$8,433.82	Montana, Idaho, and Utah	$1,537.90
Arkansas	2,590.04	Nebraska, North and South Dakota	27,135.72
California and Nevada	36,192.15	New Hampshire, Maine and Vermont	4,265.06
Colorado and Wyoming	3,239.14	New Jersey	56,093.22
Connecticut and Rhode Island	88,145.46	New Mexico and Arizona	2,221.45
Florida	3,088.13	New York	53,220.82
Georgia	16,985.71	North Carolina	85,090.29
Illinois	179,079.24	Ohio	249,257.28
Indiana	107,295.04	Oregon, Washington, and Alaska	1,303.89
Iowa	12,534.08	Pennsylvania	2,666,567.05
Kansas, Indian Territory, and Oklahoma	3,646.23	South Carolina	2,848.63
Kentucky	8,923,480.45	Tennessee	156,090.18
Louisiana and Mississippi	7,717.28	Texas	4,314.40
Maryland, Delaware, and District of Columbia	833,667.46	Virginia	64,459.95
Massachusetts	17,362.38	West Virginia	262,334.63
Michigan	8,279.84	Wisconsin	3,063.62
Minnesota	18,692.90	Total	13,974,430.80
Missouri	70,197.36		

Taxes on deficiencies in the production of distilled spirits and on excess of materials used by distillers abated before assessment during the fiscal year ended June 30, 1894, are as follows:

One hundred and sixty-one claims received from grain distillers, amount of tax abated—	
On excess of material used	$11,425.52
On deficiencies in production of distilled spirits	85,027.99
Total	96,453.51
Claims received from fruit distillers, amount of tax abated—	
On deficiencies in production of distilled spirits	37,833.60
Total grain and fruit	134,287.11

2. By Articles and Occupations, 1893 and 1894.

The following table shows the assessments made by the Commissioner of Internal Revenue during the fiscal years ended June 30, 1893, and June 30, 1894 respectively and the increase or decrease on each article or occupation:

Description of tax by article or occupation.	Assessed during fiscal year ended—		Fiscal year ended June 30, 1894.	
	June 30, 1893.	June 30, 1894.	Increase over 1893.	Decrease from 1893.
Tax on deficiences in production of distilled spirits	$74,378.37	$43,712.06	.....	$30,666.31
Tax on excess of materials used in the production of distilled spirits	1,510.99	3,333.98	$1,822.99	.....
Tax on circulation of banks and others	.....	2.26	2.26	.....
Tax on distilled spirits fraudulently removed or seized, also taxes overdue	11,566,080.90	13,626,796.50	2,060,715.60	.....
Tax on fermented liquors removed from brewery unstamped	1,946.18	2,783.64	837.46	.....
Tax on tobacco, snuff, and cigars removed from factory unstamped	15,071.90	8,610.05	.....	6,461.85
Tax on oleomargarine sold without payment of tax	116.32	17.64	.....	98.68
Tax on imitation wines	.....	942.00	942.00	.....
Assessed penalties	83,248.28	80,927.25	.....	2,321.03

STATEMENT AS TO STAMP TAXES ASSESSED.

All taxes payable by stamps not paid at the time and in the manner required by law have been assessed and accounted for separately from those not payable by stamps. The amount of stamp taxes so assessed and accounted for is as follows:

Balance as per last report	$1,478,333.76
Stamp-tax spirits assessed	13,534,936.20
Special taxes assessed	49,966.20
Amount transferred from one district to another	800.41
Total	15,064,036.57
Amount collected during year	13,939,065.80
Amount abated during year	375,959.39
Balance on hand June 30, 1894	749,011.38
Total	15,064,036.57

DETAILS OF OPERATIONS IN DISTILLERY WAREHOUSES.

The following tables furnish detailed statements in taxable gallons as to operations in distillery warehouses during the year and the months of July, August, and September, 1894, also as to spirits in the hands of wholesale liquor dealers and rectifiers, etc., viz:

I.—Spirits in warehouses, July 1, 1893:
1.—By districts and months of production, pages 648 to 652 inclusive.
2.—By districts and kinds known to the trade, pages 646 and 647.
NOTE.—For statement of spirits in warehouses at commencement of previous fiscal years, see pages 677 and 678.
II.—Spirits produced and deposited in distillery warehouses:
1.—By kinds known to the trade during the fiscal year 1893, page 654.
2.—By districts and kinds during the fiscal year 1894, pages 653 and 654.
3.—In aggregate during years 1890, 1891, 1892, 1893, and 1894, page 678.
4.—By kinds in aggregate during past seventeen years, page 655.
III.—Spirits withdrawn from warehouses:
1.—Tax-paid by different kinds fiscal year 1893, page 657.
2.—Tax-paid by districts and kinds during fiscal year 1894, pages 656 and 657.
3.—Tax-paid by kinds, 1893 and 1894, compared, page 658.
4.—Tax-paid in aggregate, 1890, 1891, 1892, 1893, and 1894, page 678.
5.—For export by districts and kinds during fiscal year 1893, page 663.
6.—For export by districts and kinds during fiscal year 1894, page 664.
7.—For export by domestic and foreign ports and kinds in 1893, pages 665 to 667.
8.—For export by domestic and foreign ports and kinds in 1894, pages 668 to 670.
9.—For export in aggregate by years during the past twenty-two years, page 670.
10.—For scientific purposes and use of the United States by kinds in 1893, and by districts and kinds in 1894, page 671.
11.—For manufacturing warehouses by districts and kinds, year 1894, and in aggregate for 1893, page 672.
12.—Lost by leakage in 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, and 1893, also by districts and kinds in 1894, pages 660, 661, and 662.
13.—Loss by casualty, etc., in 1893, also by districts and kinds in 1894, also by calendar years 1872 to 1893, inclusive, pages 673 and 674.
14.—Losses and withdrawals not tax-paid or for export, 1890, 1891, 1892, 1893, and 1894, page 678.
IV.—Spirits in warehouse June 30, 1894:
2.—By districts and kinds known to the trade, pages 675 and 676.
3.—As compared with quantity in warehouses June 30, 1893, page 676.
V.—Summary of operations at distillery warehouses for the fiscal year 1894, page 677. See also page 678.
NOTE.—For statement as to balances in warehouses at close of each of past twenty-six fiscal years, see page 686.
VI.—Operations at distillery warehouses during July, August, and September, 1893 and 1894:
1.—Spirits produced in July, August, and September, 1893, by months, page 679.
2.—Spirits produced same months in 1894 by months and states, page 679.
3.—Spirits withdrawn tax-paid in July, August, and September, 1893, by months, page 679.
4.—Spirits withdrawn tax-paid same months in 1894 by months and states, page 679.
5.—Spirits withdrawn for export in July, August, and September, 1894, page 680.
6.—Spirits withdrawn for export in July, August, and September, 1887, 1888, 1889, 1890, 1891, 1892, 1893, and 1894, page 681.
7.—Spirits in warehouse October 1, 1888, 1889, 1890, 1891, 1892, 1893, and 1894, page 682.
VII.—Spirits in hands of wholesale liquor dealers and rectifiers:
1.—Quantity in aggregate, by districts, held October 1, 1893, page 684.
2.—Quantity by districts and kinds, held October 1, 1894, pages 684 and 685.
VIII.—Quantity of spirits in the United States October 1, 1894, page 683.

DIFFERENT KINDS OF SPIRITS IN WAREHOUSE JUNE 30, 1893.

STATEMENT OF THE QUANTITY IN TAXABLE GALLONS OF SPIRITS, AS KNOWN TO THE TRADE, REMAINING IN WAREHOUSE JUNE 30, 1893.

District and State.	Bourbon whisky.	Rye whisky.	Alcohol.	Rum.	Gin.	High wines.	Pure, neutral, or cologne spirits.	Miscellaneous.	Aggregate.	Specific kind of spirits reported in miscellaneous column.
Alabama								4,220	4,220	Corn whisky.
Arkansas								92,102	92,102	Do.
First California	1,770	3,993			1,192		21,040		27,995	
Fourth California								2,564	2,564	Malt whisky.
Connecticut		175,979		17,383	40,679			47	234,088	Low wines.
Georgia		2,551						99,805	102,356	Corn whisky.

DECREASED PRODUCTION OF SPIRITS.

The quantity of spirits (89,205,492 gallons) produced and deposited in distillery warehouses during the fiscal year ended June 30, 1894, is less than the production (128,651,782 gallons) of the year 1893 by 39,446,290 gallons. The difference is distributed among the different kinds as known to the trade as follows:

Decrease in the production of—	Gallons.
Bourbon whisky	25,317,524
Rye whisky	6,675,696
Alcohol	1,680,310
Rum	242,170
Gin	136,513
High wines	322,703
Pure, neutral, or cologne spirits	2,199,937
Miscellaneous	2,871,437
Total decrease	39,446,290

Second Virginia		75						1,586	1,661	Do.
Sixth Virginia		98,198			760			38,437	137,395	Do.
West Virginia	9,822	337,283						3,522	350,627	Rye malt.
First Wisconsin	22,952	48,258	361,230		13,494	711	582,315	29,201	1,058,161	Whisky.
Total	20,782,978	9,512,038	10,034,326	915,128	1,197,909	131,269	31,474,235	13,039,735	87,087,618	
Tax paid during year ended June 30, 1893.	23,170,103	9,258,395	11,809,009	1,040,920	1,370,010	425,103	34,559,231	15,792,054	97,424,825	

DECREASED WITHDRAWAL OF TAX-PAID SPIRITS.

The quantity of tax-paid spirits (87,087,618 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1894, is less than the quantity (97,424,825 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1893, by 10,337,207 gallons, the decrease being distributed among the different kinds known to the trade as follows:

	Gallons.
Decrease in withdrawals of—	
Bourbon whisky	2,387,125
Alcohol	1,774,683
Rum	125,792
Gin	172,101
High wines	293,834
Pure, neutral, or cologne spirits	3,084,996
Miscellaneous	2,752,319
Total decrease	10,590,850
Increase in—	
Rye whisky	253,643
Net decrease	10,337,207

If the quantity, 699,937 gallons (as stated by the Chief of the Bureau of Statistics), of exported domestic spirits reimported during the year upon payment of a customs duty equal to the internal-revenue tax be added, the quantity virtually withdrawn from distillery warehouses during the year ended June 30, 1894, is found to be 87,787,555 gallons, or 10,381,712 gallons less than during the year 1893, including the 744,442 gallons reimported and tax-paid during that year.

WITHDRAWAL OF PRODUCTS BY MONTHS.

The quantity of each month's product of spirits in warehouses July 1, 1893, which was withdrawn during the year ended June 30, 1894, is shown in the following statement:

[In taxable gallons.]

Product of—	In warehouse July 1, 1893.	Withdrawn during the year ended June 30, 1894.	Remaining in warehouse June 30, 1894.

*Includes 11 gallons corn whisky, second district Virginia.

DISTILLED SPIRITS ALLOWED FOR LOSS BY LEAKAGE OR EVAPORATION IN WAREHOUSE.

The quantity of spirits (5,626,803 gallons) reported in the preceding table as lost by leakage or evaporation in warehouse is that portion of actual leakage in warehouse from packages withdrawn during the year which has been allowed in accordance with the provisions of section 17 of the act of May 28, 1880.

The following statement shows the quantity of spirits, as per original gauge, withdrawn from warehouse for all purposes during the stated period, and the amount and percentage of leakage allowed thereon under the provisions of the act named:

Year	Total quantity withdrawn.	Leakage allowed.	Percentage of withdrawals.
	Gallons.	*Gallons.*	
1880	78,199,283	75,834	.096
1881	84,335,900	811,466	.962
1882	80,281,611	1,231,336	1.533
1883	83,291,190	2,291,013	2.750
1884	92,022,593	3,858,494	4.193
1885	*a* 90,925,782	4,424,314	4.866
1886	*b* 78,566,767	1,806,868	2.299
1887	70,782,951	1,833,681	2.591
1888	74,391,751	2,209,327	2.969
1889	81,879,458	3,145,111	3.841
1890	88,066,945	2,932,249	3.329
1891	92,761,985	2,420,256	2.609
1892	100,094,159	3,532,810	3.529
1893	108,353,427	5,072,164	4.681
1894	99,107,108	5,626,803	5.677

a Includes 7,750,696 gallons stamped for export not actually withdrawn.
b Includes 2,494,091 gallons stamped for export not actually withdrawn.

The increase of leakage allowed as compared with the year 1893 is 554,639 gallons, and is distributed among the different kinds of spirits known to the trade as follows:

Increase of leakage allowed for—	Gallons.
Bourbon whisky	79,443
Rye whisky	270,906
Alcohol	11,548
Gin	849
Pure, neutral, or cologne spirits	172,317
Miscellaneous	26,084
Total increase	561,147
Decrease of leakage allowed for—	
Rum	1,484
High wines	5,024
Total decrease	6,508
Net increase	554,639

EXPORTATION OF DISTILLED SPIRITS.

The following statements show the quantities of spirits of different kinds withdrawn for export during the last two fiscal years:

1. BY DISTRICTS WITHDRAWN IN 1893.

[Quantities in taxable gallons.]

District and State.	Bourbon whisky.	Rye whisky.	Alcohol.	Rum.	Gin.	Pure, neutral, or cologne spirits.	Miscellaneous.	Aggregate.	Specific kinds of spirits reported in miscellaneous column.
First Illinois			82,780		271		588	83,639	Whisky.

SPIRITS REMOVED IN BOND FOR EXPORT.

The following statement shows the quantity and percentage of production of distilled spirits removed in bond for export during each fiscal year since the passage of the act of June 6, 1872:

Year.	Taxable (proof) gallons exported.	Percentage of production.	Year.	Taxable (proof) gallons exported.	Percentage of production.
1873	2,358,630	3.45+	1884	9,586,738	12.70+
1874	4,060,160	5.90+	1885	10,671,118	14.24+
1875	587,413	0.96+	1886	5,646,656	7.02+
1876	1,308,900	2.25+	1887	2,223,913	2.85+
1877	2,529,528	4.22+	1888	1,514,205	2.15+
1878	5,499,252	9.80+	1889	2,590,235	2.89+
1879	14,837,581	20.63+	1890	1,367,726	1.25+
1880	16,765,666	18.55+	1891	1,676,395	1.44+
1881	15,921,482	13.52+	1892	3,218,787	2.80+
1882	8,092,725	7.64+	1893	3,762,231	2.14+
1883	5,326,427	7.19+	1894	6,114,417	6.85+

The quantity of spirits (6,114,417 gallons) withdrawn for exportation during the fiscal year ended June 30, 1894, is greater than the quantity (3,762,231 gallons) so withdrawn during the fiscal year ended June 30, 1893, by 2,352,186 gallons, the increase being distributed among the different kinds known to the trade as follows:

	Gallons.
Increase in the withdrawals of—	
Bourbon whisky	1,312,510
Rye whisky	734,049
Rum	348,632
Pure, neutral, or cologne spirits	985
Miscellaneous	31,399
Total increase	2,427,575
Decrease in the withdrawals of—	Gallons.
Alcohol	74,602
Gin	787
Total decrease	75,389
Net increase	2,352,186

STATEMENT, BY DISTRICTS AND KINDS, OF THE QUANTITY OF SPIRITS WITHDRAWN FROM DISTILLERY WAREHOUSES FOR SCIENTIFIC PURPOSES AND FOR THE USE OF THE UNITED STATES DURING THE YEAR ENDED JUNE 30, 1894.

[Quantities in taxable gallons.]

District and State.	Bourbon whisky.	Rye whisky.	Alcohol.	Pure, neutral, or cologne spirits.	Aggregate.
First California				3,078	3,078

SPIRITS LOST BY FIRE IN WAREHOUSES FOR THE LAST TWENTY-TWO YEARS.

The following statement shows the quantity of spirits lost in distillery warehouses by fire during each of the last twenty-two calendar years. As it shows also the stock of spirits in warehouse at the close of each of the fiscal years 1872 to 1893, both inclusive, the percentage of loss on stock held may be readily computed:

[Quantities in taxable gallons.]

Years.	In bond June 30.	Total loss.	Years.	In bond June 30.	Total loss.
1872	10,103,392	28,399	1884	63,502,551	416,609
1873	12,917,462	9,901	1885	54,724,916	109,030
1874	15,817,709	124,602	1886	58,096,620	181,198
1875	13,367,253	81,493	1887	65,145,269	112,722
1876	12,984,896	99,102	1888	61,030,236	18,925
1877	13,258,794	7,487	1889	68,509,288	32,252
1878	14,088,773	29,913	1890	89,718,271	1,160,769
1879	19,212,470	2,465	1891	112,921,457	50,431
1880	31,363,869	14,620	1892	127,596,339	48,944
1881	64,648,111	198,251	1893	147,894,694	1,975,766
1882	89,862,645	175,216			
1883	80,499,993	396,299	Total	1,227,265,608	5,274,394

[Average loss, $\frac{43}{100}$ of 1 per cent.]

The loss during the six months ended June 30, 1894, was 6,515 gallons. the stock on hand June 30, 1894, being 137,993,078 gallons.

DIFFERENT KINDS OF SPIRITS IN WAREHOUSE JUNE 30, 1894.

STATEMENT OF THE QUANTITY, IN TAXABLE GALLONS, OF SPIRITS, AS KNOWN TO THE TRADE, REMAINING IN WAREHOUSE JUNE 30, 1894.

District and State.	Bourbon whisky.	Rye whisky.	Alcohol.	Rum.	Gin.	High wines.	Pure, neutral, or cologne spirits.	Miscellaneous.	Aggregate.	Specific kind of spirits reported in miscellaneous column.
Alabama								6,688	6,688	Corn whisky.
Arkansas		2,099						92,484	94,583	Do.

SUMMARY OF OPERATIONS AT DISTILLERY WAREHOUSES DURING THE YEAR ENDED JUNE 30, 1894.

The following table shows the quantity of distilled spirits in taxable gallons, at 90 cents tax, placed in distillery warehouses during the fiscal year ended June 30, 1894, the quantity withdrawn therefrom during the year, and the quantity remaining therein or remaining unaccounted for at the beginning and close of the year:

Distilled spirits.	Gallons.	Gallons.
Actually remaining in warehouse July 1, 1893	147,894,694	
Not actually in warehouse, claimed to have been lost by casualty, etc	2,054,201	
Withdrawn for exportation, proofs of landing not received	2,560,670	
Withdrawn for transfer to manufacturing warehouse, not yet received at warehouse	763	
		152,510,328
Produced from July 1, 1893, to June 30, 1894		89,205,492
Total		241,715,820
Withdrawn from warehouse, tax-paid	87,087,318	
Allowed for loss by leakage or evaporation in warehouse	5,626,803	
Exported, proof of landing received	4,333,923	
Allowed for loss by casualty	952,997	
Withdrawn for scientific purposes and for the use of the United States	74,697	
Tax-paid on deficiencies in export and transfer bonds and casualties disallowed	36,560	
Allowed for loss by leakage in transportation for export, etc	20,901	
Withdrawn for transfer to manufacturing warehouse and received at warehouse	25,850	
		98,159,349
Withdrawn for exportation, proof of landing not received	4,308,507	
Withdrawn for transfer to manufacturing warehouse, not yet received at warehouse	18,773	
Not actually in warehouse, claimed to have been lost by casualty, etc	1,236,113	
Spirits remaining in warehouse June 30, 1894	137,993,078	
		143,556,471
Total		241,715,820

STOCK ON HAND, PRODUCTION, AND MOVEMENT OF SPIRITS FOR FIVE YEARS.

The following table shows the stock on hand, production, and movement of spirits for the fiscal years 1890, 1891, 1892, 1893, and 1894.

Distilled spirits.	1890.	1891.	1892.	1893.	1894.
	Gallons.	*Gallons.*	*Gallons.*	*Gallons.*	*Gallons.*

THE REVENUE ACT OF AUGUST 28, 1894, AS TO THE INTERNAL-REVENUE TAX ON DISTILLED SPIRITS.

Under the provisions of the act of August 28, 1894, the tax on distilled spirits was increased from 90 cents to $1.10 per gallon and the bonded period was extended from three years to eight years. Although this act did not become a law until August 28, it was evident, at least as early as June, 1894, that the tax on distilled spirits would be increased. This fact explains the great increase in the tax-paid withdrawals of distilled spirits during July and August, 1894, as shown in the foregoing table, over those for the same months in July, 1893, and the decrease of such withdrawals during September, 1894, as compared with those for the same month in 1893. The heavy withdrawals made in June, July, and August, 1894, had the effect of overstocking the market with tax-paid spirits, as will more fully appear in the table on pages 684 and 685, causing a falling off in the tax-paid withdrawals during October and November, 1894. These known facts indicate that although the rate of tax on distilled spirits was materially increased by the act named, this act may not have the effect of proportionately increasing the revenue during the year ending June 30, 1895.

SPIRITS WITHDRAWN FOR EXPORT DURING FIRST THREE MONTHS OF PRESENT FISCAL YEAR.

STATEMENT SHOWING, BY DISTRICTS, THE NUMBER OF TAXABLE GALLONS OF EACH KIND OF SPIRITS REMOVED FROM DISTILLERY WAREHOUSES FOR EXPORT DURING THE MONTHS OF JULY, AUGUST, AND SEPTEMBER, 1894.

DISTILLED SPIRITS IN THE UNITED STATES OCTOBER 1, 1894.

The quantity of distilled spirits in the United States, except what may be in customs bonded warehouses, on the 1st day of October, 1894, was 179,285,745.8 gallons, this quantity being distributed as follows:

	Gallons.
In distillery warehouses	103,836,608.6
In special bonded warehouses	1,769,192.2
In hands of wholesale liquor dealers	30,596,145
In hands of retail liquor dealers	43,083,800
Total	179,285,745.8

In making the above computation the average stock of each retail liquor dealer in the United States is estimated at 200 gallons.

The table on page 678 shows the quantity of distilled spirits in taxable gallons, at 90 cents tax, placed in distillery warehouses during the fiscal year ended June 30, 1894, the quantity withdrawn therefrom during the year, and the quantity remaining therein or remaining unaccounted for at the beginning and close of the year:

SPIRITS IN THE HANDS OF WHOLESALE DEALERS AND RECTIFIERS.

[Compiled from reports of collectors based upon statements made to them by dealers and rectifiers.]

It appears from the preceding table (on page 684) that the quantity of spirits, tax or duty paid, held by wholesale liquor dealers and rectifiers October 1, 1893, was 18,994,601 gallons, the quantity so held October 1 1894, being 30,596,145 gallons. The quantity of domestic and foreign, spirits, respectively, and the aggregate held October 1, each year from 1878 to 1894, both inclusive, are as follows:

Year.	Domestic.	Foreign.	Total.
	Proof gallons.	*Proof gallons.*	*Proof gallons.*
1878	14,480,393	11,401	14,491,794
1879	13,014,112	593,506	13,607,618

EXPORTATION OF MANUFACTURED TOBACCO AND SNUFF IN BOND.

The quantity of manufactured tobacco removed from the place of manufacture in bond free of tax, now at the rate of 6 cents per pound, during the year, also the quantity actually exported during the year, and the quantity unaccounted for at the beginning and at the end of the year, are shown in the subjoined statement:

	Pounds.
1. Quantity unaccounted for July 1, 1893	973,739½
2. Quantity removed during the year ended June 30, 1894	14,668,695⅝
Total	15,642,435⅛
3. Quantity exported during the year ended June 30, 1894	14,716,931
4. Quantity deficient on which tax was paid	8,508
5. Quantity remaining unaccounted for at close of fiscal year ended June 30, 1894	916,996⅛
Total	15,642,435⅛

EXPORTATION OF CIGARS AND CIGARETTES IN BOND.

	Cigars, $3 per M.	Cigarettes, 50 cents per M.
1. Removed and unaccounted for July 1, 1893, as per last report	120,000	20,831,000
2. Removed during the year ended June 30, 1894	1,894,740	401,605,300
Total	2,014,740	422,436,300
3. Exported and accounted for during the year ended June 30, 1894	1,868,540	410,223,700
5. Tax paid on deficiencies during the year 1894	20,000	210,000
6. Remaining unaccounted for at close of fiscal year ended June 30, 1894	126,200	12,002,600
Total	2,014,740	422,436,300

Upon comparing the foregoing statements as to manufactured tobacco, cigars, and cigarettes, with those for the fiscal year ended June 30, 1893, the increase in 1894 as to cigarettes, and the decrease as to tobacco and cigars, is found to be as follows:

	Increase.	Decrease.
Tobacco ..... pounds		744,754
Cigars ..... number		352,315
Cigarettes ..... do	3,778,040	

The increase as to cigarettes continues to be the prominent feature of this class of exportations. The business of exporting cigarettes has grown during the past thirteen years as follows:

NUMBER DURING FISCAL YEAR ENDED JUNE 30.

Year.	Number.	Year.	Number.	Year.	Number.
1882	64,001,500	1887	139,935,300	1892	320,845,020
1883	68,413,560	1888	180,769,800	1893	397,827,260
1884	86,243,485	1889	246,679,750	1894	401,605,300
1885	104,811,420	1890	259,310,050		
1886	134,311,180	1891	294,534,250		

DRAWBACK ALLOWED ON EXPORTED MERCHANDISE.

STATEMENT OF DRAWBACK OF INTERNAL-REVENUE TAXES ALLOWED ON EXPORTED MERCHANDISE DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Port.	Number of claims.	Tobacco.	Cigars and cigarettes.	Distilled spirits.	Total.
Baltimore	3		$967.03	$143.10	$1,110.13

a Manufactured cotton exported prior to 1868. *b* Machinery exported prior to 1868.
c Chairs exported prior to 1868.

STATEMENT OF FERMENTED LIQUOR REMOVED FROM BREWERIES IN BOND, FREE OF TAX, FROM JULY 1, 1893, TO JUNE 30, 1894, UNDER THE ACT OF JUNE 18, 1890.

	Gallons.
Removed for export, unaccounted for June 30, 1893	99,310
Removed for direct exportation	223,002
Removed in original packages to be bottled for export	538,413
Removed by pipe line to be bottled for export	100,191
Excess reported by bottlers	2,046
Total	962,962
Exported in original packages, proofs received	227,100
Exported in bottles, proofs received	632,609
Removed for export, unaccounted for, tax paid	4,058
Excess reported by bottlers	16,484
Removed for export, unaccounted for June 30, 1894	82,711
Total	962,962

OLEOMARGARINE.

The following statements, showing operations under the act of August 2, 1886, defining butter and imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine, comprise—

First. A summary of operations at oleomargarine manufactories during the fiscal year ended June 30, 1894; also a summary of operations during the past two fiscal years, and by months covering the period from November 1, 1886, to June 30, 1894.

Second. A statement of the receipts from all classes of taxes imposed by the oleomargarine law for the year ended June 30, 1894.

Third. A statement by States and Territories showing the number of establishments for which special tax was paid to carry on during the fiscal year ended June 30, 1894, the business of manufacturing and dealing in oleomargarine; also, in aggregate, of all persons who paid oleomargarine special taxes for the twelve months ended June 30, 1893.

Fourth. A statement of the total production and of total receipts from all oleomargarine sources for each fiscal year since the oleomargarine law took effect.

It appears from the subjoined table that the average monthly production of oleomargarine under the operations of the law has been as follows:

	Pounds.
During the eight months ended June 30, 1887	2,711,828
During the fiscal year ended June 30—	
1888	2,860,460
1889	2,972,002
1890	2,693,669
1891	3,699,367
1892	4,030,346
1893	5,602,024
1894	5,801,853

It also appears that the average monthly quantity withdrawn from factories on payment of the tax was as follows:

	Pounds.
During the eight months ended June 30, 1887	2,592,946
During the fiscal year ended June 30—	
1888	2,707,430
1889	2,821,970
1890	2,566,494
1891	3,601,292
1892	3,909,625
1893	5,371,989
1894	5,508,004

The average quantity withdrawn monthly for exportation during the same time is shown to have been as follows:

	Pounds.
During the eight months ended June 30, 1887	90,566
During the fiscal year ended June 30—	
1888	140,516
1889	145,746
1890	134,866
1891	102,426
1892	107,981
1893	232,124
1894	283,890

In the fiscal years 1887 and 1888 the largest production month was March; in the fiscal year 1889, December; in the fiscal year 1890, October; in the fiscal year 1891, March; in the fiscal year 1892, March; in the fiscal year 1893, January; while the greatest production during the fiscal year ended June 30, 1894, occurred in October, 1893. The quantity produced during these months was as follows:

	Pounds.
In March, 1887	3,568,254
In March, 1888	3,940,727
In December, 1888	4,181,317
In October, 1889	4,072,333
In March, 1891	6,723,224
In March, 1892	5,916,871
In January, 1893	7,824,657
In October, 1893	9,318,006

The months in which the production fell below 2,000,000 pounds were as follows:

	Pounds.
During the fiscal year ended June 30, 1887:	
May, 1887, produced	1,885,027
June, 1887, produced	1,375,423
During the fiscal year ended June 30, 1888:	
July, 1887, produced	1,208,638
During the fiscal year ended June 30, 1889:	
June, 1889, produced	1,575,362
During the fiscal year ended June 30, 1890:	
July, 1889, produced	1,404,749
August, 1889, produced	1,975,773
May, 1890, produced	1,864,746
June, 1890, produced	1,364,826
During the fiscal year ended June 30, 1891:	
July, 1890, produced	1,723,966
June, 1891, produced	1,988,633

There was an increase in the number of persons engaged in the sale of oleomargarine during the fiscal year ended June 30, 1894, as well as an increase in the production of the article.

The following table shows the quantity of oleomargarine, in pounds, at 2 cents tax, produced at manufactories during the fiscal year ended June 30, 1894, the quantity withdrawn therefrom during the year, and the stock of oleomargarine remaining in factories June 30, 1894:

SUMMARY OF OPERATIONS AT OLEOMARGARINE MANUFACTORIES DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

	Pounds.
Stock on hand July 1, 1893	322,911
Removed for export and remaining unaccounted for July 1, 1893	269,436
	592,347
Returned to factories during the year	678
Produced during the year	69,622,246
	70,215,271
Oleomargarine withdrawn from factories tax-paid	66,096,058
Oleomargarine lost or destroyed in manufactories	5,579
Withdrawn from manufactories for export and accounted for by clearance certificates filed	3,430,617
Withdrawn from manufactories for export and accounted for by payment of tax on account of certificates not filed	661
Withdrawn for export and accounted for by subsequent destruction	1,350
Withdrawn for exposition purposes	228
Removed for export not accounted for June 30, 1894	243,491
Remaining in factories June 30, 1894	437,287
	70,215,271

OPERATIONS IN OLEOMARGARINE DURING THE LAST TWO FISCAL YEARS.

The following statement by districts shows the quantity, in pounds, of oleomargarine produced at manufactories, the quantity withdrawn therefrom tax-paid, for export and for exposition purposes, and the quantity lost or destroyed at manufactories during the two fiscal years ended June 30, 1893, and June 30, 1894, respectively; also the stock remaining on hand at the close of each year:

Districts.	From July 1, 1892, to June 30, 1893.					
	Produced.	Withdrawn tax-paid.	Withdrawn for export.	Lost or destroyed.	Withdrawn for exposition purposes.	Remaining in factory June 30, 1893.
First California	66,307	56,883	4,700			4,724

AMENDMENTS SUGGESTED TO PRESENT LAW.

The existing laws imposing the tax and regulating the manufacture, sale, and exportation of oleomargarine are deficient in many respects. A reenactment of the laws would, no doubt, be the wisest and most effective way of correcting the existing defects; but if that is not practicable I renew the recommendations in my report of last year, that the following amendments, which are regarded as of most importance and which were suggested by my predecessor in his annual report for the year ended June 30, 1892, be enacted:

"Section 3 of the act of August 2, 1886, defines a retail dealer in oleo-"margarine to be 'every person who sells oleomargarine in less quanti-"ties than 10 pounds at one time,' whereas section 6 of this act provides "that 'retail dealers in oleomargarine must sell only from original "stamped packages in quantities not exceeding 10 pounds.'

"To reconcile the two sections, section 6 should be amended by strik-"ing out the words 'not exceeding,' and inserting in lieu thereof the "words 'less than.'

"As a wholesale dealer in oleomargarine is defined to be a person "who sells it 'in the original manufacturer's packages' (section 3, act "August 2, 1886), and it is further provided that 'all sales made "* * * by wholesale dealers in oleomargarine shall be in original "stamped packages,' persons who sell more than 10 pounds, not in the "original stamped packages, can not, as the law stands, be required "to pay special tax as wholesale dealers; nor is there any criminal "provision of the statutes directly reaching such cases.

"If it be deemed unadvisable to change the law which confines a "wholesale dealer in oleomargarine to selling only 'original stamped "packages,' then the sale of 10 pounds or more, not in such packages, "should be made a criminal offense by an amendment to section 6 of "the act.

"Section 41, act of October 1, 1890, requires wholesale dealers in oleo-"margarine to keep books and render returns in compliance with the "regulations, but no penalty for violation of this section is provided "for therein; and in view of recent decisions of the courts, it would "seem that a penalty clause, directly accompanying the provisions of a "statute requiring certain acts to be done, is essential to an effective "enforcement of the law.

"It is suggested that the last sentence of section 6, act of August 2, "1886, be stricken out and the following inserted:

" 'Every person who knowingly sells, or offers for sale, or delivers or "offers to deliver, any oleomargarine, in quantities exceeding 10 pounds "at one time, otherwise than in the original stamped packages, and "every retail dealer in oleomargarine who sells or offers for sale, oleo-"margarine otherwise than as herein required, or delivers or offers to "deliver oleomargarine in any other form than in new wooden or paper "packages as above described, and every manufacturer, dealer, or other "person, who packs in any package any oleomargarine in any manner "contrary to law, or who falsely brands any package, or affixes a stamp "on any package denoting a less amount of tax than that required by "law, shall be fined for each offense not more than $1,000 and be "imprisoned not more than two years.'

"The third clause of section 3 should be amended by applying the "provisions of that clause of section 3244 of the Revised Statutes "relieving from liability to special tax persons selling oleomargarine as "executors, administrators, or in any other fiduciary capacity.

"Section 5 should require every manufacturer of oleomargarine to "file with the collector of the district a description of the premises "constituting his manufactory, and that no business shall be carried "on on those premises except the manufacture of oleomargarine or "of other substances necessary for and to be used exclusively in the "manufacture of the oleomargarine produced thereon.

"Section 6 should be amended by requiring that all oleomargarine "intended for consumption or sale in this country should be packed as "required by that section. The same section should provide that all "oleomargarine intended for exportation to a foreign country should "be packed in wooden or metallic tubs or other vessels, as prescribed "by the Commissioner of Internal Revenue, with the approval of the "Secretary of the Treasury.

"Section 16 should be amended by striking out the clause in the third "and fourth lines 'without affixing stamps thereto,' thus giving the "Commissioner, with the approval of the Secretary of the Treasury, "authority to prescribe *export stamps* to be affixed to packages intended "for exportation.

"The last clause of the same section should be amended by substitut-"ing for the words 'export oleomargarine' the words 'remove from the "place of manufacture oleomargarine for exportation,' so as to require "the package intended for export to be branded by the manufacturer "before or at the time of removal.

"I think there should be a penalty denounced in section 16 for failure "to brand packages of oleomargarine intended for export as required in "that section."

In my report of last year I suggested the propriety of a reduction of the special taxes imposed upon wholesale dealers ($480) and retail dealers ($48) to $120 and $12 per year, respectively. This suggestion was based on the belief that the present rate of taxation is exorbitant compared with special taxes imposed upon other occupations, and that the proposed reduction would not result in loss of revenue. I am still of opinion that such reductions should be made.

SUGAR BOUNTY DIVISION.

The Commissioner of Internal Revenue has been charged with the execution of the law providing for a bounty on sugar of domestic production at the rate of 2 cents per pound on sugar testing not less than 90°, and $1\frac{3}{4}$ cents per pound on sugar testing less than 90° but not less than 80°, by the polariscope. The bounty, which became available July 1, 1891, was authorized by the tariff act approved October 1, 1890, which was repealed by the tariff act in force August 28, 1894.

The sugar producers in this country may be divided into four classes relative to the kind of raw materials used, namely: Cane-sugar producers, beet-sugar producers, sorghum-sugar producers, and maple-sugar producers. The cane sugar, constituting the great bulk of the domestic sugar, is produced in the South, mainly in Louisiana; the beet and sorghum sugars are the products of the West, and the maple sugar is produced mainly in the States of Vermont, New York, Pennsylvania, and Ohio.

Tabulated statements, showing in detail the operations of each of these four classes of producers and their locations by States, will be given in the following pages.

As required by the bounty provisions of the tariff act of 1890, above referred to, each sugar producer intending to claim bounty has filed, prior to July 1 of each year, with the Commissioner of Internal Revenue, a notice of the place of production, with a general description of the machinery and methods of manufacture to be employed, and an estimate of the amount of sugar proposed to be produced up to the end of the next ensuing fiscal year, including the number of maple trees to be tapped in that period. Each notice has included an application for a license to produce sugar under the bounty provisions of the law, and has been accompanied by a bond in a penal sum equal to at least one half the bounty estimated to be earned at 2 cents per pound during the next ensuing fiscal year; the penalty in no case, however, having been less than $100, and always conditioned on the faithful observance of the laws, rules, and regulations pertaining to bounty on sugar. Upon approval of the notices, applications, and bonds of the sugar producers, licenses have been duly issued to them by this office.

During the fiscal year ended June 30, 1894, 6,349 licenses were issued to domestic sugar producers intending to claim bounty on their product, and $12,100,208.89 net, after deducting refundments, were disbursed by this office in payment of approved bounty claims. During the fiscal years ended June 30, 1892, and June 30, 1893, $7,342,077.79 and $9,375,130.88, respectively, were disbursed as bounty on sugar, making with last year's bounty, a total disbursement of $28,817,417.56, exclusive of administrative expenses incurred in executing the bounty law.

Estimating the production of maple sugar at 32,000,000 pounds per annum, and basing the production of cane, beet, and sorghum sugar on the official weights thereof, it is found that the total domestic sugar production during the fiscal year ended June 30, 1892, amounted to 412,893,230 pounds. The next fiscal year it increased to 515,250,769 pounds, and during the fiscal year ended June 30, 1894, it further increased to 689,230,790 pounds, which is 66.9 per centum over the sugar production in the first bounty year mentioned.

As will be shown in the following statistical statements pertaining to the maple-sugar production covered by bounty claims, only a small portion of the domestic maple sugar has been produced under Government supervision for the benefit of bounty. A very large number of maple-sugar producers in this country do not make 500 pounds of sugar per annum, which was the minimum annual production on which bounty could be allowed under the late bounty law. Many other domestic maple-sugar producers, who make more than 500 pounds of sugar per annum, have been unwilling to go to the trouble and expense of complying with the late bounty law and regulations.

The work of weighing, sampling, polarizing, and classifying the large quantity of domestic sugar produced under Government supervision for the benefit of bounty; of preparing the prescribed returns of this sugar and keeping proper records thereof, and of the bounty claims based thereon; of examining the bounty claims and returns of sugar producers, and otherwise attending to all details necessary to insure a faithful observance of the law, has required the services of many additional employés during the sugar-producing season, besides the twelve sugar inspectors and the additional clerical force in this office, which have been provided for by law.

The number of extra deputy collectors acting as sugar weighers, and of clerks, messengers, and laborers employed last year on work occasioned by the sugar bounty, and the amounts paid them as compensation and traveling expenses, were as follows, by collection districts:

Name of collection district.	Number of extra employés.	Total compensation paid, including expenses.
New Hampshire (embraces Vermont, New Hampshire, and Maine)	117	$8,116.60
Third district of Massachusetts	1	100.00
Fourteenth district of New York	2	220.84
Twenty-first district of New York	16	2,754.87
Twenty-eighth district of New York	6	1,263.29
Tenth district of Ohio	1	174.50
Eighteenth district of Ohio	18	476.50
Fourth district of Michigan	5	125.00
Twenty-third district of Pennsylvania	3	756.51
Maryland (embraces Maryland and District of Columbia)	5	1,197.95
First district of California	10	4,942.21
Montana (embraces Montana and Utah)	2	621.74
Nebraska	4	1,198.63
Kansas	2	453.25
Louisiana (embraces Louisiana and Mississippi)	210	71,556.30
Third district of Texas	5	1,573.84
Florida	2	697.80
Total	409	96,229.83

To this amount should be added the following expense items:

Miscellaneous laboratory supplies for polarization of sugar	$591.74
Salaries and expenses of 12 sugar inspectors	24,749.28
Salaries of clerical force engaged on sugar bounty work in the office of the Commissioner of Internal Revenue	8,570.00
Total administration expenses	130,140.85

NOTE.—This total does not include the expense of stationery, printing, and binding, nor any extra expense in the accounting offices of this Department on account of the sugar bounty.

CANE SUGAR.

There were 579 licenses issued to cane-sugar producers during the fiscal year ended June 30, 1894, and sugar was produced under 533 of these licenses. Of this latter number 508 were issued for the collection district of Louisiana, embracing the States of Mississippi and Louisiana, with only 1 license for Mississippi; 13 were issued for the third collection district of Texas and 12 for the collection district of Florida.

The total quantity of cane sugar produced during the said fiscal year, so far as the same was officially weighed, amounted to 611,156,922 pounds, of which 597,969,745 pounds were produced in the collection district of Louisiana, 11,882,852 pounds in the third collection district of Texas, and 1,304,325 pounds in the collection district of Florida. The increase in the production of cane sugar during the last fiscal year over the fiscal year ended June 30, 1893, amounted to 156,015,541 pounds, being equal to 34.3 per centum, but the number of licenses issued to cane-sugar producers decreased from 650 to 579, and the number of actual cane-sugar producers from 551 to 495.

The decrease in the number of cane-sugar producers, notwithstanding the large increase in their production, is due to the fact that a number of primitive open-kettle sugar factories are being discontinued from year to year in the collection district of Louisiana, where the sugar production is gradually being concentrated in the hands of the sugar producers possessing the most modern and improved machinery for the manufacture of sugar. Many persons who formerly made open-kettle sugar are now selling their sugar cane, or the sirup produced therefrom, to the sugar producers who possess large factories containing vacuum pans and centrifugals with other modern machinery.

In the fiscal year ended June 30, 1894, the area of land devoted to the culture of sugar cane in the United States was reported to be 289,940 acres, of which 281,667 acres were cultivated in the collection district of Louisiana, 7,060 acres in the third collection district of Texas, and 1,213 acres in the collection district of Florida. These figures show an increase in area of 60,288 acres over the area reported for the fiscal year ended June 30, 1893. It should be observed, however, that this statistical information is not exactly accurate, owing to the great difficulty in obtaining complete and exact reports, especially of the cane and sirup purchased by the licensed sugar producers. Persons who sell cane are generally small planters, who have no exact measurements of their cane lands, but base their reports of area given to the purchaser, and by him to this office, on estimates made from the weight of the cane or the quantity of the sirup produced therefrom. Even some of the licensed sugar producers have no measurements of their cane lands and no scales for weighing their cane. In making their reports to this office they therefore have to estimate the acreage and the weight of their cane, the latter being usually based on the number of cane loads hauled to their sugar factories. The figures given in this report are the most accurate obtainable, and are certainly within a narrow margin of the actual facts in the case.

The sugar cane actually ground and used in the production of sugar is considerably less in area and weight than the total cane cultivated, as shown by the following statements. This is accounted for by the fact that a large quantity of cane is annually reserved for seed and another considerable portion of cane is destroyed by inundation, early frosts, or other mishaps. The sugar cane reserved for seed during the fiscal year ended June 30, 1894, embraced 36,112 acres, according to reports received.

The following statistical statements give the data in detail pertaining to the domestic cane-sugar industry and the bounty paid on domestic cane sugar during the fiscal year ended June 30, 1894.

DISTRICT OF LOUISIANA.

MACHINERY EMPLOYED FOR GRINDING CANE BY THE LICENSED CANE SUGAR PRODUCERS IN THE COLLECTION DISTRICT OF LOUISIANA DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Licenses issued to sugar producers operating diffusion batteries either with or without cane mills	7
Licenses issued to sugar producers operating cane mills containing from 4 to 14 rollers and propelled by steam power	477
Licenses issued to sugar producers operating cane mills containing 3 rollers and propelled by horse power	15
Total	499
Licenses issued to sugar producers having no machinery of their own for extracting cane juice, but using cane mills belonging to others or purchasing sirup only	9
Total licenses under which sugar was produced	508
Licenses under which no sugar was produced	44
Total issued	552

NOTE.—Some of the cane mills are owned jointly by two or more sugar producers.

MACHINERY EMPLOYED FOR GRANULATION OF SIRUP BY THE LICENSED CANE SUGAR PRODUCERS IN THE COLLECTION DISTRICT OF LOUISIANA DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Licenses issued to sugar producers operating factories containing vacuum pans and centrifugals	224
Licenses issued to sugar producers using vacuum pans and centrifugals at factories operated by others	63
Licenses issued to sugar producers operating open-kettle factories	141
Licenses issued to sugar producers operating open steam-train factories	66
Licenses issued to sugar producers operating factories containing open steam-trains and centrifugals	4
Licenses issued to sugar producers converting their cane into sirup and also granulating the same at open-kettle factories operated by others	8
Licenses issued to sugar producers using vacuum pans and centrifugals at factories operated by others, for a part of the sirup, the remainder being granulated by the open-kettle process at home	2
Total licenses under which sugar was produced	508
Licenses under which no sugar was produced	44
Total licenses issued	552

NOTE.—It should be observed that the above 508 licenses under which sugar was produced represent only 470 individuals, firms, and corporations. The difference of 38 is caused by the fact that 25 of the licensed sugar producers own two or more sugar factories, each of which is represented by a separate license.

The following is a summary statement of the operations of the licensed cane-sugar producers in the collection district of Louisiana,* and of the amount of bounty paid these producers during the fiscal year ended June 30, 1894:

I. CANE GROUND.

Cane cultivated and ground:	
Acres	146,176.3
Tons	3,018,484.3

*The collection district of Louisiana embraces the States of Mississippi and Louisiana, but only one sugar producer who received $114.76 in bounty is a resident of the State of Mississippi.

I. CANE GROUND—Continued.

Cane purchased and ground:	
Acres	57,270.9
Tons	1,078,731.9

II. SIRUP PURCHASED AND GRANULATED.

Gallons	1,233,860
Cane involved:	
Acres	1,749.5
Tons	38,290.2

III. TOTAL CANE UTILIZED FOR SUGAR MANUFACTURE.

Acres used	205,196.7
Tons used	4,135,506.4

IV. SUGAR PRODUCED.

Centrifugal sugar testing not less than 90°.....pounds..	478,141,549
Open-kettle sugar testing not less than 90°.....do....	20,876,345
Centrifugal sugar testing less than 90°, but not less than 80°....do....	47,594,589
Open-kettle sugar testing less than 90°, but not less than 80°....do....	50,757,788
Centrifugal sugar testing less than 80°.....do....	360,049
Open-kettle sugar testing less than 80°.....do....	239,425
Total quantity of sugar officially weighed and classified...do....	597,969,745
Packages, hogsheads, barrels, and bags involved	1,618,699

V. AVERAGE YIELD.

Sugar per acre of cane used.....pounds..	2,914.1
Sugar per ton of cane used.....do....	144.5
Cane per acre.....tons..	20.1

VI. MOLASSES PRODUCED.

At factories containing vacuum pans and centrifugals.....gallons..	13,876,646
Open-kettle factories.....do....	4,776,339
Total.....do....	18,652,985

VII. EMPLOYÉS AND PERIOD OF OPERATION AT SUGAR FACTORIES.

Total employés.....number..	20,993
Average period of operation.....days..	45

VIII. MATERIAL IN PROCESS OF MANUFACTURE.

Sugar estimated to be extracted from material on hand June 30, 1894.....pounds..	5,093,692

IX. BOUNTY PAID.

On last year's product	$10,785,782.33
On the product from the fiscal year ended June 30, 1893	84,799.88
Total	10,870,582.21
Refunded on account of errors against the Government discovered in the official weights of the sugar	1,261.61
Net bounty paid	10,869,320.60
Claims involved	3,185

NOTE.—It was found that some of the official weighers in the collection district of Louisiana returned excessive weights of the sugar weighed by them. In such cases the commercial weights upon which the sugar was sold were adopted by this office, whenever obtainable, as a guide in the correction of the erroneous weights returned. When bounty claims had been allowed prior to the discovery of discrepancies in the weights of the sugar, producers were requested to refund the amounts over paid. These refundments to June 30, 1894, amounted to $1,261.61; and since that date the sum of $1,212.54 has been refunded.

THIRD COLLECTION DISTRICT OF TEXAS.

The following is a summary statement of the operations of the licensed cane sugar producers in the Third collection district of Texas, and of the amount of bounty paid these producers during the fiscal year ended June 30, 1894:

I. Sugar Producers Licensed and their Method of Manufacture.

Number who made their sugar at open kettle or open steam train factories	8
Number who made their sugar at factories containing vacuum pans and centrifugals	5
Total licensed sugar producers	13

II. Cane Ground.

Cane cultivated and ground:	
Acres	5,392
Tons	71,167
Cane purchased and ground:	
Acres	296
Tons	3,922
Sirup purchased	None.
Total cane ground:	
Acres	5,688
Tons	75,089

III. Machinery Employed for Grinding.

Producers operating diffusion batteries either with or without cane mills	3
Producers operating cane mills containing from 3 to 6 rollers and propelled by steam power	10

IV. Sugar Produced.

Centrifugal sugar testing not less than 90° ....pounds..	9,491,068
Open-kettle sugar testing not less than 90° ....do....	494,468
Centrifugal sugar testing less than 90° but not less than 80°....do....	545,510
Open-kettle sugar testing less than 90° but not less than 80°....do....	1,351,806
Sugar testing less than 80°	None.
Total officially weighed and classified....pounds..	11,882,852
Packages (hogsheads, barrels, and bags) involved	38,533

V. Average Yield.

Sugar per acre of cane used....pounds..	2,089.1
Sugar per ton of cane used....do....	158.3
Cane per acre....tons...	13.2

VI. Molasses Produced.

At factories containing vacuum pans and centrifugals ....gallons..	139,000
Open-kettle factories....do....	97,600
Total....do....	236,600

VII. Employés and Period of Operation at Sugar Factories.

Total employés....number..	714
Average period of operation....days..	40

VIII. Material in Process of Manufacture.

Sugar estimated to be extracted from material on hand June 30, 1894....pounds..	54,000

IX. BOUNTY PAID.

On last year's product	$219,563.73
On product from fiscal year ended June 30, 1893	3,602.19
Total	223,165.92
Claims involved	51

DISTRICT OF FLORIDA.

The following is a summary statement of the operations of the licensed cane sugar producers in the collection district of Florida during the fiscal year ended June 30, 1894:

I. SUGAR PRODUCERS LICENSED AND THEIR METHOD OF MANUFACTURE.

Number who made their sugar at open kettle or open steam train factories	11
Number who made their sugar at factories containing vacuum pans and centrifugals	1
Number who made no sugar, but possessed open kettle factories	2
Total licensed sugar producers	14

II. CANE GROUND.

Cane cultivated and ground:	
Acres	509.7
Tons	9,765
Cane purchased and ground:	
Acres	40
Tons	792.5
Sirup purchased	None.
Total cane ground:	
Acres	549.7
Tons	10,557.5

III. MACHINERY EMPLOYED FOR GRINDING CANE.

Producers operating cane mills containing 5 rollers each and propelled by steam power	1
Producers operating cane mills containing from 2 to 3 rollers and propelled by horse power	11

IV. SUGAR PRODUCED.

Centrifugal sugar testing not less than 90° ....pounds..	1,012,876
Open kettle sugar testing not less than 90° ....do....	8,647
Centrifugal sugar testing less than 90°, but not less than 80° ....do....	263,782
Open kettle sugar testing less than 90°, but not less than 80° ....do....	19,020
Sugar testing less than 80°	None.
Total quantity of sugar officially weighed and classified..pounds..	1,304,325
Number of packages involved....barrels..	3,950

V. AVERAGE YIELD.

Sugar per acre of cane used....pounds..	2,372.8
Sugar per ton of cane used.... do....	123.5
Average yield of cane per acre....tons..	19.2

VI. MOLASSES PRODUCED.

At factories containing vacuum pans and centrifugals ....gallons..	61,064
At open kettle factories.... do....	2,434
Total.... do....	63,498

VII. EMPLOYÉS AND PERIOD OF OPERATION AT SUGAR FACTORIES.

Total employés....number..	73
Average period of operation....days..	17

VIII. BOUNTY PAID.

On last year's product	$22,113.37
On product from fiscal year ended June 30, 1893	None.
Total	$22,113.37
Claims involved	10

BEET SUGAR.

Seven beet-sugar producers were licensed by the Government to manufacture sugar during the fiscal year ended June 30, 1894.

There was an increase of one producer and of 18,108,008 pounds in the production of sugar, which is equal to 66⅔ per cent + over the beet-sugar production during the fiscal year ended June 30, 1893, amounting to 27,083,288 pounds, against 45,191,296 pounds during the last fiscal year.

As to the method of manufacturing beet sugar, it can be stated that all the beet-sugar producers in the United States use the most modern machinery, consisting of diffusion batteries for extracting the juice from the beets, vacuum evaporators for making sirup, and vacuum pan and centrifugal factories for granulating the beet sirup.

The data pertaining to the operations of the beet-sugar factories, as well as bounty payments on beet sugar, during the fiscal year ended June 30, 1894, are presented in the following tabulated statements:

QUANTITY AND CLASS OF BEET SUGAR PRODUCED AND THE AMOUNT OF BOUNTY PAID THEREON TO THE LICENSED SUGAR PRODUCERS DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Names and locations of sugar producers.	Sugar produced.			Bounty paid.

SORGHUM SUGAR.

The Medicine Lodge Sugar Company, Medicine Lodge, Kans., and the Parkinson Sugar Company, Fort Scott, Kans., were the only sorghum-sugar producers licensed during the fiscal year ended June 30, 1894. These producers are possessed of the most modern machinery for making sugar, consisting of diffusion batteries for extracting the juice from the sorghum, vacuum evaporators for boiling the juice into sirup, and vacuum pans and centrifugal machinery for granulating the sirup.

Kansas is the only State in the Union which is engaged in the production of sugar from sorghum.

The reported production of sorghum sugar in Kansas in the fiscal year ended June 30, 1892, was 1,136,086 pounds; in the next fiscal year it amounted to 1,026,100 pounds, and in the fiscal year ended June 30, 1894, 882,572 pounds were produced.

In addition to the above production, 950 pounds of sugar were made in the State of Minnesota, from sorghum planted for an experiment, in the fiscal year ended June 30, 1893.

The following is a summary statement of the operations of the licensed sorghum-sugar producers and of the amount of bounty paid these producers during the fiscal year ended June 30, 1894:

I. SORGHUM CANE GROUND.

Cane cultivated and ground	None
Cane purchased and ground:	
Acres	146,176.3
Tons	3,018,484.3

II. SIRUP PURCHASED AND GRANULATED.

Gallons	1,233,860
Cane involved:	
Acres	1,749.5
Tons	38,290.2

III. TOTAL SORGHUM CANE UTILIZED FOR SUGAR MANUFACTURE.

Acres used	147,925.8
Tons used	3,056,774.5

IV. SUGAR PRODUCED.

Testing not less than 90°	pounds	737,100
Testing less than 90°, but not less than 80°	do	139,872
Testing less than 80°	do	5,600
Total officially weighed and classified	do	882,572
Packages involved	bags	4,648

V. AVERAGE YIELD.

Sugar per acre of sorghum cane used	pounds	437.8
Sugar per ton of sorghum cane used	do	82.5
Cane per acre	tons	5.3

VI. MOLASSES PRODUCED.

Gallons	130,432

VII. EMPLOYÉS AND PERIOD OF OPERATION AT SUGAR FACTORIES.

Total employés	number	127
Average period of operation	days	44

VIII. BOUNTY PAID.

On last year's product	$17,060.26
On product from fiscal year ended June 30, 1893	252.00
Total	17,312.26

MAPLE SUGAR.

As a large number of maple-sugar producers in this country have taken out no licenses, and have produced no sugar under Government supervision for the bounty during the existence of the late bounty law, this office can not furnish complete data of the domestic maple-sugar production.

The maple sugar produced during the fiscal year ended June 30, 1892, by licensed maple-sugar producers who submitted reports, amounted to 3,981,953 pounds. During the fiscal year ended June 30, 1893, the domestic maple-sugar production reported by the licensed producers aggregated 7,655,116 pounds.

Complete reports of the maple sugar produced under the bounty regulations during the fiscal year ended June 30, 1894, have not yet been received, and no bounty has been paid on this product. It is learned, however, from the internal-revenue collectors' annual reports of the operations and bounty claims of the licensed maple-sugar producers, that 7,633,036 pounds of maple sugar were produced during the last fiscal year under Government supervision.

As to the weighing, sampling, and polarization of the maple sugar, it may be stated that the sugar was weighed and sampled by deputy collectors, who either called for this purpose at the sugar factories of the producers, or were located at convenient central stations in the maple-sugar districts where the licensed producers would bring their sugar to be weighed and sampled.

The sugar samples from the New England States were sent for polarization to the Government laboratory established at Montpelier, Vt., while the samples from the rest of the maple-sugar producing States were sent to the laboratory of this office for polarization, except during the first bounty year ended June 30, 1892, when a laboratory was also maintained at Syracuse, N. Y., where the samples of maple sugar produced in the State of New York were polarized.

The maple sugar is manufactured by the primitive open-kettle process, and is usually molded into solids of the size and shape of bricks. In this form the maple sugar generally appears in the market and demands a price from 100 to 200 per centum over the price of other sugar.

The bounties paid on maple sugar during the existence of the bounty law have been as follows:

In fiscal year ended June 30—	
1892	$2,465.74
1893	60,119.32
1894	116,121.90
From July 1 to August 27, 1894	354.94
Total	179,061.90

The following statistical statements give in detail the data pertaining to the operations of the licensed maple-sugar producers during the last two fiscal years, as well as the bounty payments on maple sugar during the fiscal year ended June 30, 1894.

STATEMENT SHOWING BY COLLECTION DISTRICTS AND BY STATES THE NUMBER OF LICENSES ISSUED, THE NUMBER OF MAPLE TREES TAPPED, AND THE QUANTITY OF SUGAR AND SIRUP PRODUCED DURING THE FISCAL YEAR ENDED JUNE 30, 1893, BY LICENSED MAPLE-SUGAR PRODUCERS CLAIMING BOUNTY ON THEIR PRODUCT.

[Where data are the same for States and districts of the same name no distinction is made.]

NOTE 1.—Four hundred and thirty-six bounty claims, covering 51,147 pounds of second-class sugar, were disallowed, mainly because the claimants had not produced 500 pounds as required by the late bounty law.

NOTE 2.—The total quantity of maple sugar officially weighed and classified amounted to 7,418,770 pounds, which is 236,346 pounds less than the total quantity of maple sugar reported as produced. This discrepancy is caused by errors in the weights reported by the producers and by not presenting all the sugar produced for official weighing.

Maple sugar	2,465.74	60,119.32	116,121.90	354.94	179,061.90
Grand total	7,342,077.79	9,375,130.88	12,100,208.89	966,185.84	29,783,603.40

The extra administrative expenses in executing the bounty law have been as follows:

In fiscal year ended June 30—	
1892	$147,831.61
1893	138,586.27
1894	130,140.85
In period from July 1 to Aug. 27, 1894	6,178.65
Total extra administrative expenses	422,737.38

SUPPLEMENTAL STATEMENT.

AMOUNT OF SUGARS PRODUCED DURING THE EXISTENCE OF THE BOUNTY LAW UPON WHICH BOUNTY WAS NOT PAID.

Official returns and bounty claims on hand show that the following amounts of bounty on sugars produced during the existence of the bounty law were unpaid at the time of the repeal of this law, on August 28, 1894, viz:

On maple sugar	$122,724.21
On beet sugar	86,782.47
On cane sugar	31,232.43
On sorghum sugar	436.00
Total	241,175.11

Of the sugars covered by this amount the following were produced from July 1 to August 27, 1894, viz:

	Pounds.
Beet sugar testing not less than 90°	3,961,267
Beet sugar testing less than 90°, but not less than 80°	431,836
Cane sugar testing not less than 90°	46,604
Cane sugar testing less than 90°, but not less than 80°	310,372
Sorghum sugar testing not less than 90°	21,800
Total	4,771,879

DIVISION OF CHEMISTRY.

The number of outside laboratories was diminished by three during the past fiscal year, samples heretofore tested at St. Cloud, Fla., and Austin, Tex., being sent to the New Orleans laboratory, and those from Norfolk, Nebr., being tested at Fort Scott, Kans.

As the testing of sugar for bounty purposes ceased with the passage of the recent tariff act (August 28, 1894), all laboratories used solely for sugar work have been discontinued, resulting in the closing of all the outside laboratories, except the one located at San Francisco, Cal., which is chiefly occupied in the testing of fortified sweet wines.

SUGAR WORK.

The following table shows the number of samples of sugar tested and the number of tests made in the different laboratories:

	Samples tested.	Tests made.
Lehi, Utah	83	.....
Fort Scott, Kan	37	64
Montpelier, Vt	8,067	11,784
San Francisco, Cal	1,149	.....
New Orleans, La	10,461	14,191
Washington, D. C	6,093	10,143
Total	25,890	36,118
Increase over last fiscal year	1,552	.....

In the San Francisco laboratory there were analyzed, in addition to the sugar samples—

Fortified sweet wines	924
Butter	229
Sirup	57
Brandy	6
Total	1,216

GENERAL WORK AT CENTRAL LABORATORY.

The following table shows the character and number of samples examined in the work of the laboratory at Washington, exclusive of sugar samples:

Oleomargarine	60
Butter	34
Malt liquors	16
Distilled liquors	8
Stamp paper	3
Molasses	7
Milk	15
Ink	14
Mucilage	9
Typewriter ribbons	15
Carbon paper	9
Hardblack for engraving ink	20
Linseed oil	11
Miscellaneous	12
Total	233
Increase over last fiscal year	62

The number of samples of material suspected of being oleomargarine and submitted to this office for decision was greater during the past fiscal year than in any previous year since the passage of the act, except the first year of its enforcement.

Expert testimony in regard to samples was rendered in court in 12 cases during the year.

ADULTERATION OF FOOD AND DRUGS IN THE DISTRICT OF COLUMBIA.

The act of October 12, 1888, "to prevent the manufacture or sale of adulterated food or drugs in the District of Columbia" imposes upon this office the duty of analyzing all samples submitted for decision as to their character. No provision has been made, since the first year of its passage, for increasing the force or equipment of this division, in connection with the execution of the law, and heretofore no such increase has been necessary, as no effort has been made to enforce it, consequently few samples have been presented. In consequence of a more active supervision of the milk supply in Washington by the local health authorities, however, a number of samples of milk were presented to this office during August and September, 1893, for decisions as to their adulteration under the provisions of this law. As the time required for the analysis of these samples and for the rendering of expert testimony thereon in court threatened to interfere seriously with the regular work of the division, revised regulations were issued (series 7, No. 15, revised) providing for the analysis of all such samples by the chemist of the health office of the District of Columbia, under the control and supervision of this office.

Reports were accordingly received from this officer from September, 1893, up to the close of the fiscal year, of the analysis of 17 samples—15 of milk, 1 of butter, and 1 of granulated sugar—all of which were decided to be adulterated and so certified to the district attorney for the District of Columbia. I would suggest, in this connection, that Congress be asked to either provide the facilities necessary for the analysis of all samples in the laboratory of this office, or to so amend the law as to relieve me entirely from any connection with its execution.

I have the honor to be, very respectfully,

JOS. S. MILLER, *Commissioner.*

Hon. J. G. CARLISLE, *Secretary of the Treasury.*

(No. 5.)

REPORT OF THE CHIEF OF THE BUREAU OF ENGRAVING AND PRINTING.

TREASURY DEPARTMENT,
BUREAU OF ENGRAVING AND PRINTING,
October 1, 1894.

SIR: I have the honor to submit the following report on the operations of this Bureau during the fiscal year 1894:

It has been my purpose in the management of this establishment to have the work on the notes and other securities executed in the best possible manner and at the lowest cost. It is gratifying to report that, while the work has been improved in many material points of quality during the year, it has been executed at a less rate of cost to the Government than ever before in the history of the Bureau. The tables submitted herewith show that there were completed and delivered during the year 16,780,710 sheets of United States notes, Treasury notes, gold and silver certificates, bonds, and national bank notes, 37,097,706 sheets of internal-revenue stamps, 201,000 sheets of customs stamps, and 1,437,545 sheets of drafts, checks, certificates, etc., besides miscellaneous work for the various departments of the Government costing $18,468.88. The aggregate number of sheets delivered during the year was 55,516,961. The highest delivery in any one year during a period of sixteen years prior to this, the longest period for which there is available record, was 52,508,438 sheets in 1892, which is exceeded by 3,008,523 sheets in the year 1894. The aggregate cost of the work delivered in 1892 was $1,316,585.89, while the aggregate cost of that delivered in 1894 was $1,317,389.61. The cost per 1,000 sheets in 1894, although all the plate printing was done on hand presses, was $23.73. This is the lowest rate per 1,000 sheets that the work of the Bureau has cost during a period of sixteen years, the next lowest being $23.79 per 1,000 in 1889, when a large percentage of the plate printing was done on steam-power presses.

Artistic skill applicable to the production of bank notes, bonds, etc., has not advanced with time. Bank notes prepared twenty-five years ago are as finely engraved as those of to-day. The bank notes produced by this Bureau and by the bank-note companies of the country appear to have reached the highest standard of engraving and printing, but the designs, as a rule, are weak and meaningless. The conventional design for bank notes which has been used for many years appears to be wholly lacking in artistic merit, consisting as it does of a patchwork of engraving, including the portrait, the title, and the lathe-work counters, having no connection with each other, and a vast improvement can be made in designing the future issues of the Government. I consider the artistic beauty of a design for a bank note to be as essential to protection against counterfeiting as the manner in which either the engraving or printing is executed. In fact they must all be

of the highest standard of excellence to afford perfect protection. To attain this standard of excellence I have secured the services of some of the best engravers and printers, and have received aid from some of the most talented artists in the country in preparing designs for a new issue of silver certificates, and the result, in my opinion, will be not only a creditable work from an artistic standpoint, but a series of notes which will be beyond the skill of counterfeiters to imitate in a way to be at all dangerous to commerce. Such talent commands a high price, and it is an item of expenditure which should have consideration in the making of appropriations for this Bureau.

The application of the civil-service regulations to this Bureau, so far as it relates to the lower grades of female employés, is productive of some good. It eliminates the Bureau as the one branch of the public service into which the uneducated class might enter through the aid of influential public men. This Bureau was the great receptacle of this class of applicants prior to the classification of its employés. All appointments of female operatives are made in the first place to the lowest grade, that of printer's assistant, from which they are promoted to the higher grades. It is important, therefore, that appointments to the position named should be from the most intelligent class of applicants. The operations of this Bureau are intricate and require not only physical ability, but intelligence in its employés. Where millions of sheets of governmental securities, representing enormous values, are handled each year, much confusion, delay, and possible loss may occur through the stupidity or ignorance of the employés. The classification of the service of this Bureau has to a great extent relieved it from the condition above indicated, which, I am informed, existed some years ago, but it has not given complete relief, and will not until discretion is given to the Secretary of the Treasury and to the Chief of this Bureau to secure the suspension of the civil-service rules at times when the eligible list does not furnish the kind of employés needed. It is obvious that, where but one examination is held during a year and many appointments become necessary during that period, the list of eligibles becomes very much reduced in rating and can not furnish desirable operatives for this Bureau. This was the case during the months of August and September, 1893, when an amount of national currency largely in excess of the usual requirements was needed within a very short time. At such times, when the demands upon the Bureau are excessive and imperative to meet an existing exigency, the service would be subserved if the civil-service rules were suspended for the time being, so that suitable appointments could be made outside of the eligible list. The effect of the general classification of employés in this Bureau is advantageous, unless it should attempt to include skilled workmen, or the superintendents of skilled workmen. The superintendents of engraving, plate printing, binding, machinery, etc., are as essentially skilled in their respective arts as the workmen themselves, and their ability can only be demonstrated by actual service. No competitive examination can develop executive ability, which is also a most important qualification in a superintendent of such work as is done in this Bureau. I therefore hold that to secure efficient service the selection of superintendents of the various branches of this Bureau should remain with the Secretary of the Treasury and the Chief of Bureau.

I can report that excellent discipline prevails in the Bureau. The employés are almost universally attentive to their duties, and, although it has been necessary to work them overtime in several of the branches throughout the better part of the year, they have com-

plied willingly and without complaint. This condition has resulted in the most prompt execution of orders, and I am informed that the work of the year just ended has been brought nearer to a finish than ever before. The reduction in the cost of the work is due to the fact that no employés were kept on the rolls who were not actually needed; to economy in the use of materials and care in purchasing them at the lowest cost; to the reduction of excessive salaries; and to changing the method of printing some of the internal-revenue stamps, all of which has been accomplished without lowering the standard of the work. In fact, it can be fairly claimed that there has been some improvement in every branch of the service. Under the excellent supervision of the recently appointed chief of engraving division the engraving of the dies, rolls, and plates has been, and is being, worked up to the highest state of perfection, and the several designs made by him during the year are admitted to be superior to those formerly prepared. There is also a marked improvement in the plate printing, the manufacture of ink, and in the operation of the machinery.

While not directly pertaining to the work of the fiscal year for which this report is submitted, yet as much of the preliminary work connected with it was done during that year, I feel that it is not improper for me to mention a subject of interest in connection with the work of the Bureau. For many years the only securities of the Government produced outside of this Bureau were the adhesive stamps required by the Post-Office Department which were produced under contract by a private corporation in New York City. Early in the last fiscal year the Postmaster-General advertised for proposals for the manufacture of these stamps. Feeling that the interests of the Government required that all of its securities should be produced in its own establishment and under the immediate direction of its own officers, and that this work could be done by this Bureau at considerably less cost than if done by private parties, with your approval I submitted a proposal to the Postmaster-General for the execution of this work. The rates submitted in this proposal aggregated $22,914.09 less than the lowest responsible bidder, which was the company then executing the work, and $68,882.08 less than the rate at which it was then performing it. Upon showing that the Bureau was amply able to perform this work at the rates submitted, and that there was no legal impediment to its doing so, the Postmaster-General, with the concurrence of the Secretary of the Treasury, transferred the work to it, beginning July 1 last. I am glad to be able to state that, despite many delays and embarrassments, the Bureau has met every demand for stamps and has demonstrated its ability to successfully carry out the obligations undertaken with the Post-Office Department. As the estimates of this Bureau for the first year of this contract included the cost of new machinery amounting to something over $40,000, an item of expense connected with this work which will not appear in subsequent years, it is safe to predict an annual saving to the Government of over $50,000.

During the year the work of engraving the plate of the diploma for the World's Columbian Exposition has progressed satisfactorily. The cost of the engraving to date has been $6,447.32, which, as a matter of convenience, has been first paid from the appropriation of this Bureau and subsequently, upon a bill rendered, has been refunded to that appropriation. While, therefore, this amount is included as a part of the expenditures of the Bureau, it constitutes really no part of the cost of the work finished and delivered by it during the year. This diploma, when completed, will be a most beautiful work of art.

The sundry civil act of March 3, 1893, appropriated $25,000 for a new boiler plant for this Bureau which has been expended in the erection of a boiler house and the construction of four water-tube boilers.

I desire to make acknowledgment of the honor conferred by your confidence. This Bureau is now substantially executing all the engraved work used by the Government; it furnishes the stamps (internal revenue, customs, and postage) through the use of which the revenues of the Government are in turn produced, and furnishes all of the paper money, bonds, and other securities issued by the Government; its rolls contain over 1,400 employés who are charged with the handling of these enormous values reaching up to hundreds of millions of dollars. The direction and perfection of a system that will faithfully and satisfactorily execute such work without loss to the Government is a great responsibility, and I fully appreciate the magnitude of your confidence. The policy agreed upon to keep the management of the Bureau entirely between the Secretary of the Treasury and the Chief of Bureau has lightened my responsibility very much, and I feel but little apprehension as to results so long as my actions are controlled by your wise counsel and personal approval.

The following is the financial statement of the year:

APPROPRIATIONS FOR THE YEAR.

Legislative and sundry civil acts, March 3, 1893:		
Salaries	$17,450.00	
Compensation of employés	378,000.00	
Plate printing	469,000.00	
Materials and miscellaneous expenses	181,000.00	
		$1,045,450.00
Urgent deficiency act, April 21, 1894:		
Compensation of employés	62,549.47	
Plate printing	72,665.92	
Materials and miscellaneous expenses	15,040.27	
		150,255.66
Total		1,195,705.66

Sundry civil act of March 3, 1893, appropriated also $25,000 for a new boiler plant for the Bureau of Engraving and Printing, which amount was set apart in the warrant division for expenditure by the Supervising Architect's office.

Repayments for work done for the various bureaus of the several Executive Departments, the cost of which was not included in the Bureau's estimates, the amount therefor being transferred to the credit of the appropriations for engraving and printing, are as follows:

From appropriation, expenses of Treasury notes, act of July 14, 1890, for 2,911,000 sheets of Treasury notes:		
Compensation of employés	$53,851.88	
Plate printing	47,101.18	
Materials and miscellaneous expenses	33,086.84	
		$134,039.90
From appropriation, preparing diplomas for the World's Columbian Exposition:		
Compensation of employés	6,291.15	
Materials and miscellaneous expenses	156.17	
		6,447.32
From various other appropriations and sources of sundry work:		
Materials and miscellaneous expenses		1,576.81
Total		142,064.03
Aggregate available for the work of the Bureau:		
Salaries	17,450.00	
Compensation of employés	500,692.50	
Plate printing	588,767.10	
Materials and miscellaneous expenses	230,860.09	
		1,337,769.60
Expenditures during the year:		
Salaries	17,397.35	
Compensation of employés	500,650.15	
Plate printing	584,556.45	
Materials and miscellaneous expenses	221,232.98	
		1,323,836.93

Unexpended balances:		
Salaries	$52.65	
Compensation of employés	42.35	
Plate printing	4,210.65	
Matérials and miscellaneous expenses	9,627.11	
		$13,932.76
Cost of work finished and delivered:		
Total expenditures	1,323,836.93	
Deduct cost of engraving diploma for World's Columbian Exposition	6,447.32	
Net cost of work		1,317,389.61

Very respectfully,

CLAUDE M. JOHNSON,
Chief of Bureau.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

APPENDIX.

NO. 1.—STATEMENT SHOWING THE UNITED STATES NOTES, CERTIFICATES OF DEPOSIT, BONDS, AND NATIONAL-BANK CURRENCY DELIVERED DURING THE FISCAL YEAR 1894.

Class.	Denomination.	Sheets.	Value.
United States notes, series of 1880, unsealed	$1	180,000	$720,000
Do	2	102,000	816,000
Do	5	829,000	16,580,000
Do	10	529,000	21,160,000
Do	20	189,000	15,120,000
Do	50	15,000	3,000,000
Do	100	15,000	6,000,000
Do	1,000	12,000	48,000,000
Total		1,871,000	111,396,000
Silver certificates, series of 1891, unsealed	1	3,655,000	14,620,000

(No. 6.)

REPORT OF THE REGISTER.

TREASURY DEPARTMENT,
OFFICE OF THE REGISTER,
Washington, D. C., October 10, 1894.

SIR: I have the honor to submit the annual report of the business of this office for the fiscal year ending June 30, 1894. The appropriation under which the work of the fiscal year was performed calls for 108 officers and employés at an expense of $139,750. Of this appropriation there was spent $136,710.19, leaving unexpended $3,039.81.

RECEIPTS AND EXPENDITURES DIVISION.

This division keeps ledger accounts with all appropriations made by the Congress of the United States for the conduct of the General Government, and also keeps all the personal disbursement and receipt accounts pertaining to the customs, internal revenue, diplomatic, Treasury, judiciary, interior civil, and public debt.

General receipts and expenditures ledgers are kept, running from the foundation of the Government in 1789.

This division furnishes to the proper accounting officers copies of all warrants covering proceeds of Government property, where the same may be necessary in the settlement of accounts, in their respective offices. It also furnishes certificates of balances, advances, and repayments to the offices of the First and Fifth Auditors, for settlements of accounts, and certifies to the First Comptroller, on requisitions for advances, the net indebtedness of disbursing agents, as shown by the ledgers.

The work of compiling the annual volume of receipts and expenditures of the Government for Congress, in pursuance of the standing order of the House of Representatives of December 30, 1791, and section 237 of the Revised Statutes, was performed in this division until February 9, 1894, when, upon the recommendation of the Dockery Commission, by letter of the Honorable Secretary of the Treasury, the work was discontinued. The statistical statements heretofore given in the annual report of the Register are necessarily omitted in consequence of the discontinuance of this work.

CONDITION OF THE U. S. TREASURY, GIVING THE RECEIPTS, EXPENDITURES, AND BALANCE, FISCAL YEAR ENDING JUNE 30, 1894, AS SHOWN BY THE BOOKS OF THE RECEIPTS AND EXPENDITURES DIVISION.

Balance in Treasury June 30, 1894		763,565,540.75

Included in this balance ($763,565,540.75) are the following amounts due from the several States, deposited with them under act of June 23, 1836:

Maine	$955,838.25
New Hampshire	669,086.79
Vermont	669,086.79
Massachusetts	1,338,173.58
Connecticut	764,670.60
Rhode Island	382,335.30
New York	4,014,520.71
Pennsylvania	2,857,514.78
New Jersey	764,670.60
Ohio	2,007,260.34
Indiana	860,254.44
Illinois	477,919.14
Michigan	286,751.49
Delaware	286,751.49
Maryland	955,838.25
Virginia	2,198,427.99
North Carolina	1,433,757.39
South Carolina	1,051,422.09
Georgia	1,051,422.09
Alabama	669,086.79
Louisiana	477,919.14
Mississippi	382,335.30
Tennessee	1,433,757.39
Kentucky	1,443,757.39
Missouri	382,335.30
Arkansas	286,751.49
Total	28,101,644.91

RECAPITULATION.

From the foregoing, it is shown that on June 30, 1893, the U. S. Treasury contained	$738,467,555.07	
During the fiscal year 1894, there was received from—		
Customs	131,818,530.62	
Internal revenue	147,111,232.81	
Sales of public lands	1,673,637.30	
Issues of gold and silver certificates, certificates of deposit, legal tenders, Treasury notes of 1890, funded loan of 1907, and loan of 1904	401,013,440.00	
Fund for redemption of notes of national banks	16,637,783.50	
Premium on loan of 1904	8,633,295.71	
Other sources	17,118,618.52	
		1,462,474,093.53
Expenditures for the year summarized were—		
Civil and miscellaneous	101,943,884.07	
War Department (including rivers and harbors)	54,567,929.85	
Navy Department	31,701,293.79	
Interior Department (including pensions)	151,470,766.48	
Interest on the public debt	27,841,405.64	
Redemptions of gold and silver certificates, legal tenders, and other evidences of the public debt	331,383,272.95	
		698,908,552.78
Leaving in the Treasury, June 30, 1894, (including $28,101,644.91 unavailable funds deposited with the States)		763,565,540.75

LOAN DIVISION.

Briefly stated, upon this division is devolved the performance of work upon coupon and registered bonds, as follows:

I. Upon bonds issued by the United States.

II. Upon bonds issued on account of the District of Columbia.

III. Upon Spanish indemnity certificates—the written evidence of an indebtedness of Spain to certain American citizens.

These duties include the receipt of new bonds prepared by the printer, and the custody of the same until required for use; the issue of bonds upon the warrant of the Secretary of the Treasury, and upon proper evidence of payment of amounts of accepted subscriptions for the stock of a loan; also the redemption of bonds; the record of the cancellation of bonds assigned and forwarded for a transfer of title, and the preparation and issue of new bonds in the names of the assignees; an examination touching the regularity of all assignments of registered bonds and the sufficiency of all papers submitted by the representatives of corporations, of the estates of decedents, and of persons under legal disability, whether located in the United States or in foreign countries, as the evidence of their authority to execute such assignments, as well as the proof of succession where bonds are held in a fiduciary capacity; the opening and keeping of a complete ledger account with each of the 31,179 individual, corporation, and other holders of registered bonds; the preparation of quarterly, semiannual, and annual schedules for the payment of interest by the Treasurer of the United States, showing, in regard to each holder, the amount of such stock owned, the interest due, and the addresses to which checks in payment thereof should be forwarded, involving the preparation for the printer and the proof-reading of over 6,000 large printed pages, comprising over 30,000 separately itemized accounts; filing, arrangement, and custody of the various books, records, bonds, and papers connected with the business of this division; and the correspondence which is necessary for its proper conduct.

During the months of February, March, and the early part of April, 1894, the stock of the 5 per cent loan of 1904, amounting to $50,000,000, was issued. Over three-fifths of the total amount was, in accordance with the requests of the subscribers, in the form of coupon bonds, but before the issue had been completed the holders of such bonds began to return them to the Department at the rate of over a million dollars per month, for conversion into registered bonds.

BONDS ISSUED AND CANCELED.

Tabular statements herewith, marked A and B, show the total number and amount of all United States bonds issued and canceled during the last fiscal year, as recorded upon the books of this office.

The following table shows the number and amount of bonds issued and canceled and the total handled during the last nine years:

Year.	Average number of employés.	Bonds issued.		Bonds canceled.		Total handled.	
		Number.	Amount.	Number.	Amount.	Number.	Amount.
1885–'86	19.35	39,173	$180,987,250	70,753	$191,667,950	109,926	$372,655,200
1886–'87	16.89	34,620	171,119,600	106,173	325,019,750	140,793	496,139,350
1887–'88	15.90	26,598	114,831,900	72,135	189,656,950	98,733	304,488,850
1888–'89	15.87	21,500	103,894,350	85,149	231,811,450	106,649	335,705,800
1889–'90	14.76	17,669	67,181,500	66,830	171,575,200	84,499	238,756,700
1890–'91	15.21	16,592	69,151,600	75,606	172,256,450	92,198	241,408,050
1891–'92	14.88	26,253	107,738,200	54,288	129,009,825	80,541	236,748,025
1892–'93	11.63	15,796	59,396,050	24,943	60,271,850	40,739	119,667,900
1893–'94	12.93	64,799	163,551,900	36,195	114,277,200	100,994	277,829,100

The total number of bonds issued was more than four times as great as the preceding year, and the amount involved nearly three times as great. The number of bonds issued was much larger than any year included in the foregoing table, and the amount issued has been exceeded only twice in nine years.

As classified upon the loan account, the foregoing amounts were divided as follows:

BONDS ISSUED.

Year.	Direct issues.	Exchanges.	Transfers.	Total issued.
1885–'86	$62,550	$9,623,150	$171,301,550	$180,987,250
1886–'87	44,050	19,139,700	151,935,850	171,119,600
1887–'88	101,550	5,915,700	108,814,650	114,831,900
1888–'89	48,350	3,493,900	100,352,100	103,894,350
1889–'90	50,100	1,888,100	65,243,300	67,181,500
1890–'91	64,500	1,738,650	67,348,450	69,151,600
1891–'92	27,854,550	1,940,650	77,943,000	107,738,200
1892–'93	432,150	1,949,950	57,013,950	59,396,050
1893–'94	50,014,250	7,520,750	106,016,900	163,551,900

BONDS CANCELED.

Year.	Redemptions.	Exchanges.	Transfers.	Total canceled.
1885–'86	$10,743,250	$9,623,150	$171,301,550	$191,667,950
1886–'87	153,944,200	19,139,700	151,935,850	325,019,750
1887–'88	74,926,600	5,915,700	108,814,650	189,656,950
1888–'89	127,965,450	3,493,900	100,352,100	231,811,450
1889–'90	104,443,800	1,888,100	65,243,300	171,575,200
1890–'91	103,169,350	1,738,650	67,348,450	172,256,450
1891–'92	49,126,175	1,940,650	77,943,000	129,009,825
1892–'93	1,307,950	1,949,950	57,013,950	60,271,850
1893–'94	739,550	7,520,750	106,016,900	114,277,200

During the year the following coupon bonds, issued by the District of Columbia when under a Territorial government, and redeemed by the Treasurer of the United States, were recorded on the books of this office:

Loans.	Number of bonds.	Amounts.
6 per cent twenty-year funding bonds	7	$350
6 per cent thirty-year funding bonds	3	1,200
7 per cent District of Columbia water stock	17	17,000
Total	27	18,550

SPANISH INDEMNITY CERTIFICATES.

The amount of certificates issued and canceled is shown in Table C. As compared with previous years the amounts issued are as follows:

Year.	Amounts.	Year.	Amounts.
1885–'86	$16,721.14	1890–'91	$10,189.70
1886–'87	165,404.58	1891–'92	61,565.77
1887–'88	13,770.26	1892–'93	595,972.51
1888–'89	15,891.48	1893–'94	44,523.95
1889–'90	36,813.86		

On the 27th of June, 1894, in accordance with instructions from the Secretary of the Treasury, 17,894 registered bonds of the 4½ per cent funded loan of 1891, and representing a nominal value of $152,048,750, were delivered to the destruction committee of the Treasury Department for destruction by maceration, reserving one bond of each denomination as a specimen. These bonds were in excess of those needed for issues upon this loan at the time it became payable, viz: on September 1, 1891, and they were retained until it had become evident that no extension of the 4½ per cent loan of 1891 would be made. The last previous delivery of bonds for destruction was on June 25, 1888.

There were delivered to this office during the year 93,286 new blank bonds, amounting to $244,911,500, as follows:

Loans.	Number of bonds.	Amounts.
1904 5 per cent coupon	44,500	$35,725,000
1904 5 per cent registered	19,000	45,750,000
1907 4 per cent consol registered	27,146	148,291,500
Pacific Railroad issues	1,940	12,845,000
District of Columbia 3.65 registered	500	2,100,000
District of Columbia 3½ per cent registered	200	200,000
Total	93,286	244,911,500

The number and amount of blank bonds on hand, received, issued, and delivered for destruction is shown in Statement D, of which the following is a summary:

	Number of bonds.	Amounts.
Blank bonds on hand July 1, 1893	84,356	$383,645,000
Blank bonds received during year	93,286	244,911,500
Total	177,642	628,556,500
Blank bonds issued during year	64,799	163,551,900
Blank bonds delivered to destruction committee during year	17,894	152,048,750
Blank bonds on hand June 30, 1894	94,949	312,955,850
Total	177,642	628,556,500

The total number of unissued bonds on hand July 1, 1894, was 10,593 greater than on July 1, 1893, but the total amount of these bonds on July 1, 1894, was $70,689,150 less than at the earlier date.

The following table gives a summary of blank bonds on hand and received since July 1, 1885, with the manner of their disposition. Spanish indemnity bonds are excluded, but District of Columbia bonds, issued under the direction of the Treasury Department, are included:

Year.	On hand at beginning of year (July 1).		Received during year.		Total.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.
1885–'86	116,389	$476,517,900	122,670	$447,601,000	239,059	$924,118,900
1886–'87	199,886	743,131,650	570	1,551,000	200,456	744,682,650
1887–'88	165,836	573,563,050	11,300	111,100,000	177,136	684,663,050
1888–'89	103,499	441,806,150	19,905	169,301,000	123,404	611,107,150
1889–'90	101,904	507,212,800	359	1,150,450	102,263	508,363,250
1890–'91	84,594	441,181,750	2,675	3,000,250	87,269	444,182,000
1891–'92	70,677	375,030,400	54,888	173,723,100	125,565	548,753,500

1892–'93	15,796	59,396,050	.....	.....	84,356	383,645,000	100,152	443,041,050
1893–'94	64,799	163,551,900	17,894	152,048,750	94,949	312,955,850	177,642	628,556,500

The following table furnishes, under three principal heads, a classification of the outstanding United States registered bonds on each of the later loans, as shown in connection with the dividends due July 1, August 1, and September 1, 1894; the amounts given are twelve months later than those appearing in the last report.

Loan and date.	Foreign.	Treasurer of the United States, in trust for national banks.	Domestic.	Total.
4 per cent, July 1, 1894	$4,370,750	$172,400,650	$312,657,750	$489,429,150
Pacific Railroad, July 1, 1894	.....	16,837,000	47,786,512	64,623,512
1904 5 per cent, Aug. 1, 1894	.....	6,302,600	19,069,950	25,372,550
1891 2 per cent, Sept. 1, 1894	.....	23,877,250	1,487,250	25,364,500
Total	4,370,750	219,417,500	381,001,462	604,789,712

The changes in these items during the last twelve months have been as follows:

[Increase +; decrease —.]

Loan and date.	Foreign.	Treasurer United States in trust for national banks.	Domestic.	Total.
4 per cent	—$24,250	+$19,250,150	—$16,536,250	+$2,689,650
Pacific Railroad	.....	+3,289,000	—3,289,000	.....
1904 5 per cent	.....	+6,302,600	+19,069,950	+25,372,550
1891 2 per cent	.....	—44,600	+44,600	.....
Total	—24,250	+28,797,150	—710,700	+28,062,200

The 4½ per cent funded loan of 1891 has been omitted from the foregoing tables, as the amount outstanding has been reduced to $557,250 and no longer bears interest. The new 5 per cent loan of 1904 has been added. A large part of the increase in the amounts held by Treasurer of the United States in trust for national banks upon the 4 per cent and Pacific Railroad issues occurred in July and August, 1893. It should be noted that dates in the above tables are not identical with those used in tables A and B, and that the latter tables include both coupon and registered bonds, while the above tables only comprise registered bonds.

An important part of the work arises from the necessity in a great number of cases for assignments of bonds by the representatives of the persons or corporations in whose names they may be inscribed.

As will appear from the foregoing table, over one-third of the total amount of registered bonds outstanding is held by the Treasurer of the United States in trust for national banks. When bonds on deposit with the Treasurer are withdrawn, it is customary for him to assign the bonds to the banks for whose benefit they are held; and when (as is usually the case) they are then sold to other parties, they must be reassigned by some duly authorized representative of the bank. A large portion of the amounts included under the heading "domestic," is held by life, fire insurance, trust and security companies, by national, State, and private banks, by hospitals, institutions of learning, lodges, churches, societies, asylums, corporations, and associations of various forms.

Heretofore, so far as I am aware, no attempt has been made to ascertain the proportionate amount of stock assigned by representatives of the payees, the authority for which was dependent upon such papers as those just enumerated. An examination has been made of the amounts so assigned during a considerable portion of the last fiscal year, from which it appears that of the whole sum transferred, something over 75 per cent was based upon such assignments. If the same per cent prevailed during the rest of the year, the total amount so assigned during the last fiscal year would have been as follows:

Loans.	Total transfers and redemptions.	Total assignments on authorities.
1907 consols, 4 per cent	$77,638,600	$58,772,400
1904, 5 per cent	10,739,000	8,129,400
Pacific Railroad issues	11,825,000	8,951,500
1891 fund, 2 per cent	3,558,800	2,694,000
Matured loans	183,600	139,000
District of Columbia loans	2,617,500	1,981,450
Total	$106,562,500	$80,667,750

The total number of open accounts in connection with the five United States loans included in the foregoing tables were, at the dates given, as shown below. The three District of Columbia and the Spanish indemnity loans are also given at the last dividend periods, together with a comparative statement for the last eight years:

COMPARATIVE NUMBER OF OPEN ACCOUNTS FOR LAST EIGHT YEARS.

Loans.	1887.	1888.	1889.	1890.	1891.	1892.	1893.	1894.
1907 consols	39,055	36,095	32,954	30,650	29,041	27,903	27,125	26,895
1904 5 percents								433
1891 fund, 4½ per cent	11,436	10,260	8,345	7,026	2,547	188	112	65
1891 fund, 2 per cent						1,048	1,094	1,107

Total	53,241	49,071	43,967	40,282	34,331	31,835	30,997	31,307

Such time as could be spared from other work has been devoted to the preparation of consolidated card indexes of accounts with holders of registered bonds. When completed, it is intended to show the name of every person (whether principal or beneficiary), and of every corporation whose name has been inscribed upon any United States registered bond. Every account upon every loan which refers to the same person is to be brought together upon one card, and all the cards are to be alphabetically arranged in the order used in a dictionary or directory. When this is done, information will be instantaneously available, which can now only be obtained by examining numerous long columns of names scattered through various indexes. At present hundreds, and in some cases thousands, of names are included in one subdivision of the indexes in use. The number of cards prepared during the year was 42,369, the number examined 43,248. On July 1, 1894, the total number of references on the index to different accounts upon ledgers was 170,711.

The annexed table, marked E, gives further details with respect to the work performed.

A.—STATEMENT SHOWING THE NUMBER AND AMOUNT OF UNITED STATES BONDS ISSUED DURING THE YEAR ENDING JUNE 30, 1894.

Loans.	Bonds issued.				
	Direct issue.	Exchanges.	Transfers.	Number of bonds issued.	Total issued.
Consols of 1907, 4 per cent C.	$6,200			65	$6,200

Deliveries from vault to clerks	$164,725,250
Canceled bonds to note and coupon division	$8,594,800

NOTE, COUPON, CURRENCY, AND FILES DIVISION.

Statements 1 to 19 give in detail an itemized account of the character of the work, an idea of the amount of labor involved, and the condition of the records at the close of the year, the more salient features of which I give in a condensed form and in the order of the arrangement of the tables.

The receipts of gold certificates of deposit, act July 12, 1882, series 1888 and payable to bearer, were in number 1,912, and in amount $13,960,000, being a decrease on last year in receipts of 2,621 certificates and in amount $19,810,000.

These certificates are issued in denominations of $5,000 and $10,000, and this decrease is due to the fact that in April, 1893, when the gold reserve in the Treasury fell below $100,000,000, the issue ceased and has not since been resumed.

The certificates of the same act, called the series of 1882 and made payable to bearer, and of smaller denominations, after count in this

office, are destroyed, while those made payable to order are placed on file, there now being on file 18,338 certificates, amounting to $140,235,000.

Currency certificates of deposit, act June 8, 1872, were received in number 3,676 and in amount $36,680,000, being a decrease of 2,423 certificates and $24,300,000 in amount; the total number on hand of these certificates at the close of the year being 117,081, amounting to $1,068,575,000. During the year there were received 84 checks, amounting to $28,345.77, which were issued to holders of Spanish indemnity bonds, being the first received for registration under the new method of paying the interest to claimants.

The total number of interest checks of the United States loans, District of Columbia, and Pacific railroads received was 152,459 and amounting to the sum of $32,940,398.54, being an increase of 50,348 checks and of amount $13,583,813.36. There were on hand at the close of the year 4,990 checks to register and 68,445 to examine. To June 30, 1894, there have been received, registered, and filed in this office 3,462,538 checks, amounting to $641,681,803.19.

In number 773,200 detached redeemed coupons were received, amounting to $3,999,126.27, an increase in receipts on last year of 133,792 coupons and in amount of $805,496.72.

There were on hand at the close of the year, to count and arrange numerically, 70,701; to register, 490,087; and to examine, 692,386 coupons.

To June 30, 1894, there are on file in this office 99,146,061 redeemed detached coupons, amounting in the aggregate to $1,208,366,599.20½.

At intervals during the year part of the coupon force was engaged in restrapping with copper wire old redeemed coupons, a necessary measure for their proper filing and preservation. During the time so employed, 5,589,884 coupons were restrapped, and the whole work nearly completed.

There was a decrease of 3,543 bonds and $3,607,850 in amount in the receipts of coupon bonds, the total receipts for the year being 16,072 and amounting to $8,594,800—all of which were registered, examined, and scheduled at the close of the year.

The total number of coupon bonds of the United States, District of Columbia, and Louisville and Portland Canal Company, registered and now on file in this office, is 1,914,924, with 54,916,362 coupons attached, and amount to $1,101,493,150; and the total number registered and destroyed, 2,363,085, with 76,842,128 coupons attached, and amount to $1,421,687,450—aggregating in number, on hand and destroyed, 4,278,009 bonds, with 131,758,490 coupons attached, and in amount $2,523,180,600, as the records show have been received and registered.

In connection with the bond work and at intervals, much labor during the year has been performed in reexamining the entries in the numerical registers for the purpose of ascertaining the numbers and denominations of outstanding bonds of various old loans, which work when completed will furnish a valuable record of the office. In the performance of this labor 46,720 pages of numerical registers have been examined, containing 2,311,000 entries of coupon bonds, each entry indicating an exchange, transfer, or redemption.

There was an increase of 5,954,529 in the number of pieces in the receipts of the various issues of the currency during the year, and a decrease of $10,330,920.80 in the money value. This decrease in amount can probably be traced to the fact that a large number of gold certificates of large denominations were redeemed in the last fiscal year. The total number of pieces of currency received, counted, canceled, and destroyed during the year was 53,483,932, amounting to $279,244,297.20.

In compliance with the order of the honorable Secretary of the Treasury, dated January 2, 1894, all the old and various series of notes, beginning in 1862, were consolidated in one account, to be known and designated as United States notes. This measure greatly simplifies the work, reduces the amount of labor, and secures greater accuracy in the count and settlements between the offices having in charge the adjustments of the differences.

The total destruction of old demand notes of 1861, United States notes, gold certificates (series 1882), silver and refunding certificates, one, two, and three-year compound interest notes, and fractional currency, amount in the aggregate to $4,318,319,460.20.

According to the records of this office, to June 30, 1894, of seven-thirty notes of various acts there are still outstanding $137,900; total issue, $970,087,250. One-year notes, March 3, 1863, $32,435; total issue, $44,520,000; two-year notes, March 3, 1863, $27,650; total issue, $166,480,000. Three-year compound-interest notes, $173,570; total issue, $262,932,000. Gold certificates, March 3, 1863, $248,720; total issue, $981,134,880.46. Certificates of indebtedness, acts March 1, 17, 1862, and March 3, 1863, $3,000; total issue, $561,753,241.65. Three per cent certificates, acts March 2, 1867, and July 25, 1868, $5,000; total issue, $85,155,000. Four per cent refunding certificates, act February 26, 1879, payable to bearer, $58,920; total issue, $39,954,250; and payable to order, $170; total issue, $58,500.

The total number of redeemed securities of the Government of every form of indebtedness on file in this office at the close of the year was 108,444,505 pieces, amounting to $6,887,403,322.93½, and total amount of the same destroyed after registration, $6,314,513,610.20.

The files of the redeemed securities of the Government are now in an overcrowded condition, and as they are accumulating rapidly and daily referred to, there is urgent need for more space for the proper filing of these redeemed evidences of the public debt.

In the files of adjusted accounts received from the accounting officers of the Department there were received and registered 35,438 accounts; withdrawn 34,632, and filed 65,542, and accounts and vouchers numbered 1,130,560; warrants received and filed, 63,897; internal revenue stamp books folded, cut, tagged, and filed 50,789; old accounts rearranged and labeled, 130,861.

Pages transcribed for suits in court, 7,134; pages certified for suits (174 cases), 8,083.

I.—GOLD CERTIFICATES, ACT JULY 12, 1882, SERIES 1888 (PAYABLE TO ORDER), ARRANGED, COUNTED, AND REGISTERED DURING FISCAL YEAR, AND TOTAL REDEMPTIONS TO JUNE 30, 1894.

Total	6,314,513,610.20

DIVISION OF INTEREST, EXPENSE, AND WARRANTS.

The work of the division is, first, copying and registering accounts, warrants and drafts; second, writing index record cards of the expenditures of the Government, and third, ascertaining the interest and expense of public loans.

On the 12th of February, the index record card work was ordered discontinued. Since the last report 60,759 cards have been written, which added to the number previously written, makes a total of 228,831. From 75,000 to 100,000 more would about complete the work.

The following table shows the work for the year, in copying accounts and registering warrants and drafts, and writing index record cards:

ACCOUNTS COPIED, WARRANTS AND DRAFTS REGISTERED, AND INDEX RECORD CARDS WRITTEN.

Accounts examined, stamped, and registered	36,327	
Settlements copied and compared for warrants	18,263	
Civil warrants copied and compared	28,038	
		82,628
Interior civil warrants registered	2,469	
Treasury warrants registered	7,157	
Internal-revenue warrants registered	3,429	
Diplomatic warrants registered	5,297	
Customs warrants registered	4,551	
Judiciary warrants registered	5,110	
Public debt warrants registered	25	
War warrants registered	3,447	
Navy warrants registered	1,780	
Interior (Indian) warrants registered	5,129	
Interior (Pensions) warrants registered	2,556	
War repay warrants registered	1,086	
Navy repay warrants registered	344	
Interior (Indian) repay warrants registered	373	
Interior (Pensions) repay warrants registered	625	
		43,378
Transfer drafts registered		2,072
Number of entries made on the quarterly schedules of warrants drawn on and in favor of the Treasurer of the United States		50,460
Index record cards written	60,759	
Index record cards examined, classified, and placed in file cases	50,000	
		110,759
Grand total of work performed		289,297

The following exhibits are respectfully submitted, in part fulfillment of the Department order constituting a commission "to prepare a history of interest, discounts, premiums, and expenses of the public loans," to wit:

1. A detailed tabular statement, by titles and years, of all appropriations made for the payment of interest from 1835 to 1885, inclusive.

2. A similar statement of interest paid, covering the same time, amounting to $2,273,102,282.09.

3. A balance sheet, or complete statement of the account for the entire period of fifty-one years aforesaid.

4. A detail of balances brought in to 1835, as contained in the preceding sheet.

5. A detail of amounts paid and repaid, out of same.

6. A detail of repayments out of advances in 1885, credited in personal and appropriation accounts in 1886.

7. A detail of amounts carried to the surplus fund, arising from excess of repayment.

8. A detail of balances due to or by the United States at the end of 1885, wherein certain errors exist and corrections are indicated, to which attention is respectfully and specially invited.

9. A review of balances arising since 1859, remaining due, not counterbalancing.

10. Itemized statements of "Expenses of the national loan" and "Refunding the national debt," from 1862 to 1882, inclusive.

As will be seen in the table of appropriations, there ran from 1848 to 1870, inclusive, an appropriation under the title of "Interest on the public debt created since July 21, 1841, per act of February 9, 1847," amounting to $879,456,562.39. The appropriations on account of the loans of 1841, 1842, 1843, 1846, and 1847, and of unclaimed dividends, loans of 1841, 1842, and 1843, amounting to $4,996,397.21, are not, as in most statements, here included.

Out of this general appropriation the interest on nearly all the loans of the Government was paid. It is said that some years ago on an attempt being made to separate these payments by loans, it was pronounced impossible of accomplishment. In the tables of interest payments herewith submitted, however, it will be seen that the separation has now been made, and the task successfully accomplished. In these sheets alone, to-day, can these payments of interest, in their entirety, be ascertained.

As heretofore it was impossible to say what amount of interest had been paid on any of the loans involved in that general appropriation, here alone the importance of this work is incalculable. But even more was accomplished. In the earlier years, take, for example, the several issues of Treasury notes, running from 1837 to 1846, all but one having their own appropriations. It was found that out of each of these, payments were made on account of some other; while the notes of 1839, having no appropriation, were paid entire out of that for, and as Treasury notes of, 1838; and in later years similar interpayments occurred. It was found not only that premium, interest, and principal had been either charged or credited erroneously, but that at least in the instance of $1,910.50 applying to the temporary loan of 1862, even the outstanding of the public debt was affected.

In order to arrive at the results obtained, however, most every entry, in every journal, appropriation, and personal ledger, for the entire period dealt with, especially entering into the account of "Interest on the public debt," had to be examined, scrutinized, and nearly all transcribed. After the numbers of the reports covering the expenditures had thus been ascertained, and they had, by thousands upon thousands, been drawn from the files, every one of them, with every voucher or scrap of paper they contained, which were simply innumerable, were examined and the facts thus determined. In addition, frequent protracted and exhaustive investigations had to be carried as well through the Auditor's, Comptroller's, and Treasurer's offices, and the public moneys, warrant and loan divisions of the Secretary's Office, often in a vain endeavor to discover the means of supplying omissions, or reconciling existing discrepancies. In many instances, original requisitions, on which the issuance of warrants was based, and certificates of deposit for money covered into the Treasury, when they could be found, had to be consulted.

The fact may well be emphasized here, that the payments as given in the accompanying statement are made up uniformly from the accounts (and their included vouchers) as actually entered on the books of the Register's office in the several years indicated, even after 1870, when separate accounts were opened with the various loans. This, of course, could not have been otherwise so far as payments made out of the general appropriation of "Interest on the public debt" was concerned; but this course was early decided on, even where distinctive appropriation accounts existed, as being more safe and systematic in plan, and it was only thereby that many existing irregularities, discrepancies, and errors, as indicated in the accompanying sheets, could have been discovered.

In prosecuting both branches of the work contained in the tables herewith submitted the number of every report, with the itemized expenditures appertaining to each, had at first to be roughly transcribed. In the instance of the "Expenses of the national loan" and "Refunding the national debt," these have all been copied in detail in suitable books, for preservation and future reference. In the case of the "Inter-

est on the public debt" the same course has been pursued, from 1860 to 1883 inclusive, 1884 being now in hand, leaving 1885, and from 1835 to 1859 inclusive, yet to be taken up. It is important that the data from which the results shown were obtained and compiled should be preserved, and the record should by all means be completed.

[1] As paid, March, 1814, $11.07; February, 1815, $99.30. [2] March, 1814. [3] March, 1814, $1.08; February, 1815, $199.51. [4] December, 1814, $22.68; February, 1815, $194.40. [5] December, 1814. [6] Less $2,680.70 paid as "Registered debt" and $449.33, in 1846, as principal 3 per cent stock, 1790, leaves $62,563.16. [7] Paid as "Registered debt;" also $2,680.70 out of appropriation "Funded debt." [8] Add $2,680.70 from Funded debt, and $516.35 from "Certain parts domestic debt," $4,070.40 payment. [9] March, 1814, $23.22; December, 1814, $30.24; February, 1815, $493.21. [10] Payment Treasury note of 1846.

NOTE.—In 1833, under the act of March 3, 1817, entitled "An act to provide for the redemption of the public debt," an appropriation was made of $10,000,000, by Warrant No. 51, dated December 31, 1833, for the payment, in general, of principal and interest. The balances in personal accounts brought into 1835 (with the exception of $1,236.69, on Auxiliary Ledger, No. 1, due by "John Pooler" since 1823) arose from advances made out of this amount. At the beginning of 1835, the balance standing to the credit of said appropriation was $2,518,520.99. Out of this all amounts, under their respective titles (excepting for payments on account of Treasury notes of 1837–1838, et seq., for which there were separate appropriations), were annually subappropriated, by distinctive numerical warrants, up to and inclusive of 1840, when the balance then remaining was carried to the "Surplus Fund."

In 1836 there was an excess of repayment of $13,072.49 (over $3,140.32 advanced, etc.) on account of "Interest on the funded debt;" and in 1837, of $28.88 (over a payment of $8.14) total, $13,101.37; and these amounts in conformity with the method which then prevailed, were by reappropriation added to the original or main fund. In 1838 there was nominally "appropriated" for "Interest funded debt" (the payment being actually out of the aforesaid excess of repay) $1.06; in 1839, $0.34, and in 1840, $37.86; total, $39.36; and in 1840, the balance, viz, $13,062.11, as here dealt with, was, with the general amount, of which it formed a part, carried to the "Surplus fund."

These repayments having all been credited in personal accounts, operated to reduce their respective balances. Payments were not always made in conformity with the titles of the appropriations. Thus, while the payments out of the appropriation for "Certain parts of the domestic debt," were all on account of "Registered debt," there was paid in addition, on this account, out of the appropriation for "Interest funded debt," the amount as follows, viz: In 1837, in personal account, out of a balance from 1836, $46.51; in 1845, $20.46; in 1846, $449.33; in 1847, $18.51; in 1848, $881.22; in 1849, $270.39; in 1851, $396.44; in 1852, $327.88, and in 1853, $269.96; total $2,680.70. From this appropriation, in 1845, was also paid $105.37, for principal 3 per cent of 1790.

The balance of the appropriation on account of the "Funded debt," and that for the domestic debt, as well as the balances from 1834, in personal accounts, less repayments, were all applied to the payment of the old loans of the Government, not otherwise provided for, and the repayments above were all credited to the appropriation account, "Interest funded debt."

[1] Appropriations, "Certain parts of domestic debt."
[2] Excess of repayment.
[3] After exhaustive research, owing to the loss of several books, etc., it was found utterly impracticable to more definitely determine these payments.
[4] Outstanding warrants from 1840 and 1845.
[5] Out of appropriations in 1885.

INTEREST ON THE PUBLIC DEBT—Continued.

			110,049.36
			2,274,872,687.14

[1] Out of appropriation of 1885.

INTEREST ON THE PUBLIC DEBT, 1835 TO 1885.

DETAIL OF BALANCES BROUGHT INTO 1835.

Due the United States, in personal accounts, by—		
John Pooler, agent, for paying interest, etc., Georgia		$1,236.69
Branch Bank United States, Portsmouth, as commissioner of loans, New Hampshire	$20.00	
Branch Bank United States, Boston, as commissioner of loans, Massachusetts	26,269.26	
Branch Bank United States, Providence, as commissioner of loans, Rhode Island	13.49	
Branch Bank United States, Hartford, as commissioner of loans, Connecticut	48.29	
Branch Bank United States, New York, as commissioner of loans, New York	85,289.99	
Trenton Banking Company, as commissioner of loans, New Jersey	37.02	
Bank of the United States, Philadelphia, as commissioner of loans, Pennsylvania	116,039.74	
Branch Bank United States, Baltimore, as commissioner of loans, Maryland	4,128.57	
Branch Bank United States, Richmond, as commissioner of loans, Virginia	2,095.90	
Branch Bank United States, Charleston, as commissioner of loans, South Carolina	2,231.51	
Branch Bank United States, Fayetteville, as commissioner of loans, North Carolina	4.60	
Branch Bank United States, Savannah, as commissioner of loans, Georgia	235.75	
Branch Bank United States, Washington, as commissioner of loans, District of Columbia	316,231.90	
Branch Bank United States, Washington, for paying unclaimed dividends	100,334.99	
		652,981.01
		654,217.70

These balances were finally disposed of as shown on page 76.

The first balance above is from p. 415, auxiliary ledger No. 1, and was due from 1823. All the other balances are from pp. 162 to 168, personal ledger No. 44, for 1834, and arose from advances made out of an appropriation of $10,000,000, made in 1833, for the "Redemption of the public debt." See fuller statement on detail of appropriations.

The following balances due by the United States found on pp. 334, 379, and 525, auxiliary ledger No. 1, the first two due from 1821 and the last from 1829, were not regarded, because (1), on investigation, they proved to be mainly, if not wholly, on account of principal; and (2) as there occurred no transactions affecting them, they remained standing after 1885, with no probability of their ever being paid, viz:

Manhattan Bank, Treasury notes and interest, from p. 234, ledger 35, 1825 (Report 43095) $3.30
New York State Bank, Treasury notes and interest, from p. 242, ledger 35, 1825 (Report 43095) 34.72
Calley Taylor, principal and interest, certificate registered debt, 1798, from p. 298, ledger 39, 1829 ..... 7.74

NOTE.—Pay warrant No. 9293, of February 23, 1799, "Principal and interest, certificate registered debt of 1798," in favor of Calley Taylor, for $7.74 (erroneous Report, No. 5423, given in "Daybook" of 1799), outstanding from said year, was in 1830 "carried to the surplus fund."

On December 31, 1829, "General account moneys advanced" was debited with "cancelled warrant," No. 298, of even date, "Principal and interest, certificate registered debt of 1798" for $7.74 (not found on the "Daybook" of 1829), and the same carried to the credit of an account raised thereby with Calley Taylor, on p. 298, personal ledger No. 39 for 1829, whence it was transferred in said year to p. 525, auxiliary ledger No. 1, as per above, where it still remains (after 1885) as a credit balance in his favor.

INTEREST ON THE PUBLIC DEBT—Continued.

[1] There was charged up interest on funds held by John Pooler, in 1835, $866.09; in 1841, $364.41; total, $1,230.50. In 1841 he repaid, in excess of $93.58, remaining of the balance from 1834, $546.19, leaving a charge of $884.31, which still remains (after 1885) as an open balance against him (p. 415, auxiliary ledger No. 1).

[2] Repaid (in addition) in excess of balance from 1834 and an advance of $1.35 in 1835, $5.98; the same being a transfer from Benjamin Austin, commissioner of loans, Massachusetts, "Suspense account," raising by said account, there being nothing charged against him, a credit balance of that amount, which still remains (after 1885) standing in his favor, on p. 17, auxiliary ledger No. 1.

[3] Repaid in addition, $46.29, the same being a transfer from Bank of United States as commissioner of loans, "Suspense account," raising in the latter case a credit balance of that amount, which, in 1848, was closed by a transfer in turn from Bank United States account "Relative to installments of bonds due September, 1838," etc., not involving appropriation on account of interest.

NOTE.—All the above repayments were carried to the credit of the appropriation on account of "Interest funded debt" at the periods when made.

[1] Arose as follows:

Balance from 1823, brought into 1835	$1,236.69
Plus interest charged upon same: in 1835, $866.09; in 1841, $364.41 =	1,230.50
	2,467.19
Less repayments: in 1835, $1,143.11; in 1841, $439.77 =	1,582.88
As per above	884.31

[2] Transferred to branch bank United States, Boston, as commissioner of loans, Massachusetts, raising (as there were no funds in hand) a credit balance.

[3] Charged back, raising a debit, on account of a credit in 1838 for payment on two Treasury notes of 1837, found to have been altered (report No. 82636).

[4] $79.87 of account "Reimbursement and interest, Treasury notes."

[5] Charged back, raising a debit, on account of a credit in 1864 for payment on two stolen Treasury notes of 1861 (reports 12918 and 170964).

[6] Payments in excess of advances.

[7] $2,504.44 of advances prior and $30 subsequent to 1859.

[8] Advanced in 1856, $400, and in 1857, $500; sum, $900; repaid August 28, 1866, $373.99; balance, $526.21, closed in 1877.

[9] Advanced in 1860, $500; repaid August 28, 1866, $300; balance, $200, closed in 1877.

[10] See note on page 83.

[11] $102,439.53, including items per note 1 on page 82; closed by warrant and counter warrant Nos. 53 and 2411, of date May 26, 1888.

NOTE.—As shown above, in the case of John Pooler, while the original amount was brought forward from 1823, the present balance arose between 1835 and 1859; and so did all the other balances, excepting the debits against H. Barney, of $22.78, on account of Treasury notes of 1861; E. H. Webster, of $30, on account of "Interest on the public debt," and W. C. Price, of $200, on account of "Unclaimed dividends, funded debt;" sum, $252.78, which arose between 1860 and 1885, and, of course, all arose after 1835.

[1] Report 2603.
[2] Report 26680.
[3] Report 26850.
[4] Both charged and credited incorrectly in personal account.
[5] Report 27011.
[6] Report 27047.
[7] Report 27048.
[8] Report 27149.

NOTE.—The $18.10 credit balance, standing in favor of F. E. Spinner, on ledger 5, p. 298, is incorrect to this extent: Of the old account, "Interest on the public debt," there remained in his favor, Mar. 10, 1874, per report 26180 (see $0.50 difference under report 24108, of Aug. 12, 1869, the whole account being with "Coin, coupon bonds)," on auxiliary ledger 2, p. 547 the following balance, presumably on account of five-twenties of 1862, which, in the fiscal year 1878, was carried to personal ledger 2, p. 382, apparently without anything to confirm it, as "Consols of 1867, old," viz, $24.50. Against this there was subsequently entered Warrant No. 75, of date June 24, 1878, charged in appropriation ledger 3, p. 317, as "Consols of 1865" (see letter of the First Comptroller of date June 20, 1878), $6.40, leaving due the amount as shown on p. 2, of these sheets, viz, $18.10.

The following changes would seem to be here indicated: F. E. Spinner, per. ledger 5, p. 299, five-twenties, 1862, Mar. 10, 1874, Cr. $24.50; consols of 1865, June 24, 1878, Dr. $6.40, leaving the same difference as above. See pp. 81 and 84.

INTEREST ON THE PUBLIC DEBT—Continued.

REVIEW OF BALANCES ARISING SINCE 1859, REMAINING DUE, NOT COUNTERBALANCING.

Name.	Sheet.	Loans.	Due from—	Dr.	Cr.	Differences, net. Dr.	Differences, net. Cr.

DISCOUNTS AND PREMIUMS.

The work under these heads, which is second in importance only to that already completed and which is found to be almost as intricate as that of the interest on the public debt, is now in progress. There are two sides to each of these: discount or premium on both the issue and redemption of several of the loans, while "premium on accrued interest"—being the difference on gold interest, paid in currency—comes in as a complication. The greatest confusion often exists, requiring laborious and exhaustive research to determine the facts. The numbers of all warrants covering in premium had to be ascertained, and the same withdrawn from the files and closely examined. In many instances while the warrant showed only premium, the papers attached (often very bulky) disclosed premium on interest, or a different loan from the one given in the warrant. Constant resort had to be had to the books of the Treasurer's office, returns and transcripts of the assistant treasurers examined, certificates of deposit hunted up, etc. Nevertheless, the task of determining the premium received on account of the several

loans is now very nearly accomplished. When completed there will remain yet to be ascertained the premium paid on redemption and the discounts, both received and paid; and it hardly requires to be said here that this most important branch should not, if it can possibly be avoided, be abandoned, necessitating, as it surely will at some future day, a fresh examination.

As a reference, the entire work, if completed, would prove invaluable.

Respectfully,

J. F. TILLMAN,
Register.

The SECRETARY OF THE TREASURY.

(No. 7.)

REPORT OF THE FIRST COMPTROLLER.

TREASURY DEPARTMENT,
FIRST COMPTROLLER'S OFFICE,
Washington, September 25, 1894.

SIR: In compliance with the request contained in your letter of August 23, 1894, I have the honor to submit the following report of the business transacted in this office during the fiscal year ending June 30, 1894.

WARRANTS.

The following warrants were received, examined, countersigned, entered on registers, and posted into ledgers under their several heads of appropriations, viz:

Kind of warrant.	Number.	Amount.
APPROPRIATION.		
Treasury proper	24	$16,757,082.10
Public debt	1	416,794,436.63
Diplomatic and consular	6	1,834,252.77
Customs	13	18,687,222.04
Internal revenue	7	14,480,606.28
Judiciary	8	6,352,164.59
Interior civil	14	8,524,091.69
Indians	31	10,184,727.23
Pensions	3	175,225,365.23
War	29	35,527,876.29
Navy	14	23,308,983.67
Total	150	727,676,808.52
PAY (ACCOUNTABLE AND SETTLEMENT).		
Treasury proper	7,175	51,392,834.56
Public debt	24	365,112,648.20
Diplomatic and consular	5,278	1,769,233.20
Customs	4,551	20,733,049.11
Internal revenue	3,425	16,357,743.17
Judiciary	5,110	5,805,443.77
Interior civil	2,469	9,024,381.57
Indians	5,105	10,700,719.98
Pensions	2,555	146,327,645.68
War	3,485	54,995,067.02
Navy	1,765	38,421,526.98
Total	40,942	720,640,293.24

Kind of warrant.	Number.	Amount.
COVERING (REPAY).		
Indians	375	$684,157.16
Pensions	596	5,348,140.98
War	1,099	1,586,899.50
Navy	344	6,717,254.26
Miscellaneous: Customs, internal revenue, public debt, diplomatic and consular, Treasury, Judiciary, and Interior civil	3,266	3,053,897.40
Total	5,680	17,390,349.30
COVERING (REVENUE).		
Customs	1,825	137,955,941.66
Lands	1,253	1,940,091.57
Internal revenue	1,051	159,666,152.97
Miscellaneous (including reissues of Treasury notes, gold certificates, silver certificates, etc.)	9,006	445,080,155.29
Total	13,135	744,642,341.49
Grand total	59,907	2,210,349,792.55

The following accounts have been received from the auditing officers, revised, recorded, and the balances therein certified to the Register of the Treasury, viz:

Nature of account.	No. of accounts.	No. of vouchers.	Amounts involved in footings.
FROM THE FIRST AUDITOR.			
1. *Judiciary:* Accounts of United States marshals for fees and expenses; fees of witnesses; fees of jurors; support of prisoners; pay of bailiffs, etc.; miscellaneous expenses United States courts; supervisors of election; special deputy marshals; fees of district attorneys; compensation of assistant attorneys; fees of clerks of United States courts; fees of United States commissioners; salaries of district attorneys; salaries of marshals; salaries of United States judges; salaries and expenses United States Court of Claims; excess of official emoluments; pay of judgments of Court of Claims, and miscellaneous accounts connected with the administration of the courts, or payable from an appropriation pertaining to the judicial branch of the Government	10,426	406,672	$12,411,340.72
2. *Public debt:* Accounts of the Treasurer of the United States for United States bonds redeemed; payment of interest on the public debt by checks and by redemption of coupons; interest on Navy pension fund; currency certificates of deposits; one and two year notes and compound-interest notes; gold certificates; refunding certificates; interest on Pacific Railroad bonds; purchase of bonds for sinking fund Pacific Railroad companies; destruction of gold and silver certificates; destruction of legal-tender notes, old demand notes, and fractional currency; old funded debt of District of Columbia	819	870,960	462,044,539.64
3. *Treasurer's general accounts:* Quarterly accounts of the Treasurer of the United States for receipts and expenditures, including receipts from all sources covered into the Treasury and all payments made therefrom	5	80,236	4,771,740,457.01
4. *Assistant treasurers' accounts:* Accounts of the several assistant treasurers of the United States for salaries of employés and incidental expenses of their offices	79	3,141	437,272.22
5. *Mint and assay offices:* Accounts for gold, silver, and nickel coinage; for bullion; for salaries of officers and employés, and for bullion deposits, purchases, transfers, etc.	370	87,862	1,535,253,546.66

Nature of account.	No. of accounts.	No. of vouchers.	Amounts involved in footings.
FROM THE FIRST AUDITOR—continued.			
6. *Transportation of coin and securities:* Accounts of express companies for transportation of coin, United States currency, national-bank notes, coin certificates, registered and coupon bonds, mutilated and incomplete securities, national-bank notes for redemption, stamps, stationery, etc	284	56,462	$400,127.45
7. *Congressional:* Accounts for salaries and mileage of Senators and Representatives; for salaries of officers and employés and for contingent expenses of the two Houses of Congress	184	19,019	4,759,318.77
8. *Executive:* Accounts for salaries and contingent expenses of the Executive Office; of the disbursing clerks of the several Executive Departments for salaries, contingent expenses, and disbursements relating to such Departments	1,237	226,296	18,681,776.75
9. *Public printing:* Accounts of the Public Printer for salaries and wages of employés of the Government Printing Office, for purchase of material, and for the contingent expenses of the same	240	157,650	5,798,413.96
10. *Library of Congress:* Accounts of the Librarian of Congress for salaries and expenditures under appropriations provided by law and for copyright fees; of the disbursing agent of Joint Library Committee of Congress for salaries and expenditures	51	1,215	205,661.11
11. *District of Columbia:* Accounts of the Commissioners of the District for disbursements under the several appropriations provided by Congress; for expenditures, one-half of which is paid from revenues of the District; general accounts between the United States and the District of Columbia; and of the collector of taxes with the District of Columbia	610	103,375	18,618,004.82
12. *World's Columbian Exposition:* Accounts for expenses incurred by the National Board of Commissioners and the Board of Management in connection with the international exhibition in celebration of the four hundredth anniversary of the discovery of America	110	5,687	546,832.78
13. *Public buildings and grounds:* Accounts for the purchase of sites and construction of public buildings in the States and Territories; for salaries of employés payable from appropriations for public buildings; compensation of custodians and janitors, and for fuel, lights, water, etc.; for repairs of the Capitol and extension of grounds; Washington Monument; care and improvement of public grounds in the District of Columbia, under the Chief Engineer of the Army; for construction of building for Library of Congress	623	90,521	16,449,950.11
14. *Territorial:* Accounts for salaries of Territorial officers and for the legislative and contingent expenses incidental to the government of the Territories	202	3,037	163,065.30
15. *Inspection of steam vessels:* Accounts for salaries and incidental expenses of inspectors of steam vessels	469	7,699	462,143.04
16. *Outstanding liabilities:* Accounts for the payment of drafts and checks outstanding for three years or more, the funds against which they were drawn having been covered into the Treasury	102	311	33,858.00
17. *Miscellaneous:* Accounts for salaries, contingent expenses, and expenditures authorized by law in the Bureau of Engraving and Printing, Coast and Geodetic Survey, Bureau of Labor, United States Fish Commission, United States Civil Service Commission, Interstate Commerce Commission, Government Hospital for the Insane, Columbia Institution for the Deaf and Dumb, Freedmen's Hospital, Garfield Hospital, and Howard University; for payments for agricultural experiment stations in the States and Territories and for colleges of agriculture and the mechanic arts; for payments to Providence Hospital, the Maryland Institution for the Instruction of the Blind, and the American Printing House			

Nature of account.	No. of accounts.	No. of vouchers.	Amounts involved in footings.
FROM THE FIRST AUDITOR—continued.			
17. *Miscellaneous*—Continued. for the Blind; for salary and expenses reporter United States Supreme Court; for reporting decisions of United States Court of Claims; for suppressing counterfeiting and other crimes; for protection and improvement of Hot Springs Reservation; for stationery for Treasury Department and its various branches, for paper for the national currency; with railroads for transportation of Government agents and property; transfer accounts of various kinds, and for sales of old material, etc., for all Departments of the Government, subordinate bureaus, offices, and public buildings	1,458	119,587	$12,987,797.36
Total from First Auditor	17,269	2,239,730	6,860,994,105.70
FROM FIFTH AUDITOR.			
18. *Foreign intercourse:* Accounts for salaries and compensation of all officers connected with the diplomatic and consular service of the United States; for fees collected by consular officers and for services to American vessels and seamen; for contingent expenses (rent, postage, stationery, etc.) of United States legations and consulates; for loss on bills of exchange in the diplomatic and consular service; for clerk hire; expenses of prisons for American convicts, and such other incidental expenses as are allowed by Congress; relating to relief, protection, and transportation of American seamen in foreign countries; of the United States bankers at London, for disbursements for the foreign service of the Government and for fees deposited with them by the United States consular officers; of the disbursing clerk of the Department of State for all disbursements made by him relating to the foreign service arising under treaties and conventions (including judgments of the Court of Alabama Claims); of agents and commissioners of the United States to international expositions and congresses; for allowances for widows and heirs of diplomatic and consular officers who die abroad, and for estates of American citizens dying abroad received and accounted for by United States consular officers	5,239	65,197	3,384,776.67
19. *Internal revenue:* (*a*) Accounts of collectors of internal revenue for collections. (*b*) Accounts of collectors acting as disbursing agents. (*c*) Miscellaneous internal-revenue accounts, including accounts with the Commissioner of Internal Revenue for stamps; for salaries, office Commissioner of Internal Revenue; for compensation of gaugers and internal-revenue agents; for transportation for the internal-revenue service, and for the settlement of all claims arising under the internal-revenue and direct-tax laws	2,510	111,090	685,646,692.82
20. *Miscellaneous:* Accounts for salaries and contingent expenses of the Department of State; for contingent expenses of Post-Office Department and Patent Office; fees for letters patent; relating to the census; for the preservation of collections, National Museum, and for international exchanges, Smithsonian Institution	1,358	88,222	17,146,484.83
Total from Fifth Auditor	9,107	264,509	706,177,954.32
FROM THE COMMISSIONER OF THE GENERAL LAND OFFICE.			
21. *Public lands.* Accounts of surveyors-general for salaries and contingent expenses of their offices; of deputy surveyors for surveying under contract; of receivers of public moneys for sale of public lands; of receivers acting as disbursing agents for payment of salaries; contingent expenses, expenses of depositing public moneys and hearing-fees; for the refunding of purchase money for lands erroneously sold; for the refunding of deposits in excess of the amount required for the survey of private land claims; miscellaneous, such as accounts with States for per centum of net proceeds of sales of the public lands within their respective boundaries, and for payments of swamp and overflowed land within their boundaries erroneously sold by the United States; with railroads for transportation for the public-land service; for stationery and printing furnished to surveyors-general, registers, and receivers	3,393	78,218	4,730,805.16

RECAPITULATION.

Accounts from—	Number of accounts.	Number of vouchers.	Amounts involved in footings.
First Auditor	17,269	2,239,730	$6,860,994,105.70
Fifth Auditor	9,107	264,509	706,177,954.32
Commissioner General Land Office	3,393	78,218	4,730,805.16
Grand total	29,769	2,582,457	7,571,902,865.18

REQUISITIONS.

Requisitions for advances of money from the Treasury to disbursing officers examined, recorded, and passed	3,771
Requisitions of the Secretary of State in payment of drafts of United States diplomatic and consular officers drawn on the Department of State	1,542
Requisitions issued by the First Comptroller in payments of drafts of United States consular officers drawn on the Treasury Department	1,502
Requisitions on the chief clerk and the stationery clerk of the Department of sundry supplies and stationery for the use of the office	315
Total	7,130

MISCELLANEOUS WORK.

Official letters written	20,598
Letters received, briefed, and referred	10,018
Bonds, contracts, and powers of attorney examined, approved, registered, and filed	4,842
Certificates of deposit examined, indorsed, and referred	2,355
Internal-revenue stamp books counted and certified	47,557
Copies of reports on accounts made and transmitted	862
Bonds of indemnity examined and approved	129
Accounts received and registered	29,961
Accounts indexed	32,230
Warrants examined and checked on register of accounts	13,256
Folios copied	44,716
Judgments of the Court of Claims and of circuit and district courts examined and certified	1
Consular drafts registered	1,619

In the above table, relating to the accounts settled during the past year, amounting to $7,571,902,865.18, the figures are stated as "the amount involved in footings." It has been the practice to report the amounts in this way. The figures are of course very much larger than the aggregate involved in the accounts themselves, as they include balances of former accounts, which form the first item in subsequent accounts; and in the case of the accounts of the Treasurer of the United States these balances are necessarily large. It would be very difficult and take considerable time of the clerks to so keep the account of the current work as to show only the exact amount of the accounts independently of these balances, and it is not believed to be of sufficient importance to justify the labor that would be required.

In addition to the work above stated in detail there are other duties devolving upon the Comptroller which occupy a large portion of his time, but which are not capable of detailed statement. They relate either directly to the duties specifically imposed upon him by law or to such as arise merely by the regulations of the Department, such as examining the evidence in claims for the issuance of duplicate bonds and other securities, the sufficiency of powers of attorney to collect drafts and transfer registered bonds, and as to the legality of the appointment of executors, administrators, guardians, and other trustees.

The accounts of the officers of United States courts continue to be the most difficult of satisfactory adjustment. The chief reason for this arises from the manner in which they receive their compensation, all of them being paid by fees varying with the amount of business transacted in their offices. It is believed that if these officers were put upon permanent annual salaries, with fixed allowances for expenses, the principal difficulties now experienced would be overcome and a direct

saving to the Government might be effected. If the present system is to continue, I urgently renew the recommendations made in my last annual report, that the jurisdiction of the district and circuit courts of the United States concurrent with that of the Court of Claims, upon suits brought by these officers, be taken away, and that the jurisdiction of the Court of Claims in such cases be made exclusive.

Another serious inconvenience in the settlement of the accounts of these officers arises from the insufficiency of the appropriations for the payment of their fees made by Congress in the regular annual appropriation bills. The appropriations for the fiscal year 1895 for these objects are—

Fees and expenses of marshals	$675,000
Fees of district attorneys	250,000
Fees of clerks	175,000
Fees of commissioners	100,000

The same amount was appropriated in the regular appropriation acts for the fiscal year 1894. As a result it has been necessary to appropriate in the various deficiency acts the following sums:

Fees and expenses of marshals	$600,000
Fees of district attorneys	101,000
Fees of clerks	116,000
Fees of commissioners	187,200

Even these amounts will not be sufficient. As the fees which these officers receive are fixed by statute, the total amount necessary to pay them depends upon the amount of business done in their offices, and is neither increased by large appropriations nor diminished by small ones. In the end the amount necessary has to be appropriated, and failure to make a sufficiently large provision in advance in the regular appropriation acts simply causes difficulties to the officers themselves in the administration of their offices, and delays and extra work in the settlement of their accounts. It is recommended that the attention of Congress be especially called to this matter, and that they be urged to make ample provision for these objects in the regular appropriation acts for the next fiscal year.

The practice has prevailed of paying the fees of these officers earned in civil suits on account of the postal service out of the appropriations for that service, provision being expressly made therefor in the annual appropriation acts for the postal service. It has also been the custom to pay the allowances made to district attorneys by the Secretary of the Treasury, under the provisions of sections 827, 838, and 3085, Revised Statutes, out of the appropriations for collecting the revenue from customs, or for the Internal-Revenue Service, said appropriations being under the control of the Secretary of the Treasury. This has always been an inconvenient method of paying district attorneys, and under the provisions of the new accounting system to take effect on October 1, will be particularly embarrassing, as it will necessitate the sending of such accounts to the Auditor for the Treasury Department for settlement, while the law requires all accounts of district attorneys to be settled by the Auditor for the State and other Departments. It is suggested that Congress be recommended to provide that all fees and allowances made to officers of the courts be paid out of the regular appropriations for their fees and compensation.

The act of July 31, 1894, making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1895, makes a decided alteration in the accounting offices of the Treasury and a radical change in the system of account-

ing. The detail revision of accounts heretofore made by the First Comptroller, as well as by the Second Comptroller and the Commissioner of Customs, is abolished, as are the offices of the Second Comptroller and the Commissioner of Customs, the First Comptroller being made the sole Comptroller of the Treasury. A revision of accounts under the new system will only be made when either the head of a Department or the claimant is dissatisfied with the settlement of an account by the Auditor, or when the Comptroller himself has reason to believe that any particular account ought to be subjected to a second revision. Much labor will be saved by this system, and the adjustment of accounts ought to be greatly expedited. It is believed this can be accomplished without danger of mistake or loss to the Government. As the new system does not go into effect until October 1, and its workings can only be definitely ascertained by experience, no recommendations are made in regard to the adjustment of accounts.

It is one of the duties of the First Comptroller to "countersign all warrants drawn by the Secretary of the Treasury which shall be warranted by law." This duty will continue with the Comptroller of the Treasury under the new system. As the Secretary of the Treasury has the duty devolved upon him of originating warrants, and as all such warrants must be countersigned by the Comptroller, no warrant finally becomes effective without their concurrent action. Certain practices of the Department in regard to appropriation warrants have been the subject of consideration by the Secretary and the Comptroller during the past year, and a satisfactory settlement of the practices criticised has been difficult to obtain. Section 5 of the act of June 20, 1874 (18 Stat., 85), requires "all unexpended balances of appropriations which shall have remained upon the books of the Treasury for two fiscal years to be carried to the surplus fund and covered into the Treasury." To this there is, however, added the following proviso: "That this provision shall not apply to permanent specific appropriations, appropriations for rivers and harbors, light-houses, fortifications, public buildings, or the pay of the Navy and Marine Corps, but the appropriations named in this proviso shall continue available until otherwise ordered by Congress."

It has always been difficult to determine exactly what was meant by "permanent specific appropriations," and the practice of the Department has not been uniform in this particular, at times the words receiving a narrow and at other times a liberal construction, while the practice has grown up of treating the appropriations for public improvements, which were neither "rivers and harbors," "light-houses," "fortifications," or "public buildings," as coming within the terms of the proviso and, therefore, as available until exhausted. It is not clear how the practice first arose, but it is probable this construction was given to such appropriations because the reasons why the appropriations for these improvements should continue available until exhausted were the same as induced Congress to so provide for appropriations for rivers and harbors, light-houses, fortifications, and public buildings. Of this character are appropriations for the improvement of the Yellowstone National Park and the Chickamauga and Chattanooga National Park and for the Fort Ethan Allen Military Reservation found in the sundry civil appropriation act of August 18, 1894. As Congress has specifically limited the availability of balances of all appropriations to two fiscal years after the year for which they are made, except appropriations for the six enumerated purposes in the proviso to section 5 of the act of June 20, 1874, it is not seen how any discretion is vested in the Secretary and the Comptroller to enlarge the excepted purposes by the addition of works of the character above named.

An effort has therefore been made to construe all such appropriations found in the appropriation acts for the current fiscal year as limited to the use of that year, and not as permanent appropriations as heretofore. Greater difficulty has, however, been experienced in ascertaining what character of appropriations is intended by the words "permanent specific." The Hon. John Sherman, when Secretary of the Treasury, had the question under consideration, and, on December 14, 1877, in a communication addressed to the Hon. Samuel J. Randall, Speaker of the House of Representatives, he said: "The words 'permanent appropriations' should be confined to appropriations such as private bills, where nothing is left to executive officers for examination or inquiry except to identify the party or to comply with some specific duty pointed out by the specific appropriation. A 'specific appropriation' is one where the amount, the subject, or the person is designated particularly or in detail. It may be, and usually is, permanent in terms, because not limited as to time, like an annual appropriation. * * *" In practice, however, the words have not been restricted to the narrow meaning placed upon them by Secretary Sherman.

Among the appropriations made in the appropriation acts for the current fiscal year, about which this question has been raised, are those "For constructing a revenue steamer of the first class, under the direction of the Secretary of the Treasury, for service on the New England coast, $75,000," and for constructing a similar steamer for service on the Great Lakes, $75,000; for the purchase or construction of one steam tug for the harbor of New York, under the War Department, and the appropriation "To enable the Attorney-General to represent and protect the interests of the United States in matters and suits affecting the Pacific railroads and for matters in connection therewith, $30,000." All these appropriations are found in the sundry civil appropriation act of August 18, 1894, which act began with the following sentence: "That the following sums be, and the same are hereby, appropriated for the objects hereinafter expressed, *for the fiscal year ending June 30, 1895.*"

The appropriations above enumerated are but examples of a large class of appropriations annually made in the various appropriation acts, which, by their terms, are limited to the fiscal year for which the appropriations are made, but which, by the practice of the Department, have been treated as available until expended, being construed to be "permanent specific appropriations," and therefore within the exception contained in the proviso to section 5 of the act of June 20, 1874. It is extremely doubtful whether the words "permanent specific appropriations" were intended to cover appropriations of this character. They certainly do not come within the definition prescribed by Secretary Sherman. It is earnestly recommended that the attention of Congress be called to this matter, in order that a legal definition of the words "permanent specific appropriations" may be made, and it is also recommended that where Congress intends an appropriation contained in an annual appropriation act to be used for expenses incurred after the expiration of the year for which the appropriations contained in said act are made, they should clearly indicate their purpose by adding to the same the words "to be available until expended," as sometimes now is done.

R. B. BOWLER,
Comptroller.

The SECRETARY OF THE TREASURY.

(No. 8.)

REPORT OF THE SECOND COMPTROLLER.

TREASURY DEPARTMENT,
SECOND COMPTROLLER'S OFFICE,
Washington, D. C., August 29, 1894.

SIR: I have the honor to submit the following report for the fiscal year concluded June 30, 1894.

TOTAL NUMBER OF ACCOUNTS, CLAIMS, AND CASES SETTLED.

From—	1894.		1893.		1892.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.
Second Auditor	15,652	$40,605,056	20,035	$33,704,270	31,603	$32,637,359
Third Auditor	9,936	196,620,758	11,111	147,271,490	17,971	123,272,312
Fourth Auditor	2,297	43,341,863	2,061	25,086,659	2,497	20,773,336
Various sources	5,280	34,325	5,662	39,795	6,029	36,294
Grand total	33,165	280,602,002	38,869	206,102,214	58,100	185,719,301

It will be observed by a comparison of the work of this office for the past three fiscal years the amount in volume has been very much increased; in round numbers, since the fiscal year 1891, $104,000,000, with an increase in the last fiscal year of over $74,000,000.

It gives me great pleasure to bear testimony to the efficient service rendered in the aggregate by the clerks in this Bureau. With scarcely an exception, their faithful service and ability in the discharge of the onerous duties imposed upon them have commanded my highest respect.

Under the provisions of the act "Making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June 30, 1895, and for other purposes," this Bureau is abolished on October 1, 1894.

I have no suggestions to make, but content myself with a simple statement of the character and amount of work done in the various divisions during the past fiscal year, supplemented by a statement of the quantity and character of work on hand, in each division, on the first day of the present fiscal year.

ARMY BACK-PAY AND BOUNTY DIVISION.

Character of the claims.	Number.	Amount.
Soldiers' pay and bounty allowed	7,024	$443,397
Soldiers' pay and bounty disallowed	2,517	3,928
Total	9,541	447,325

MISCELLANEOUS WORK OF THE DIVISION.

Settlements entered	9,541
Rehearings of cases	292
Official letters written	3,048

On July 1, 1894, there remained on hand, not adjusted, in this division, 2,328 claims, estimated to be eighty-nine days' work of the division.

ARMY PAYMASTER'S DIVISION.

Character of the accounts.	Number.	Amount.
Army paymasters, for the pay of the Army	405	$14,237,365
Soldiers' Home	23	387,052
National Home for Disabled Volunteer Soldiers	150	8,159,736
Special Army accounts	196	42,474
Disbursing officers of the Ordnance Department, for ordnance, ordnance stores, supplies, armories, and arsenals	492	6,138,178
Disbursing officers of the Medical Department, for medical and hospital supplies and services	272	658,368
Recruiting officers, for regular recruiting services	17	202,140
Miscellaneous disbursements for contingent expenses of the Army, Adjutant General's and Commanding General's offices, artillery schools, etc	159	350,176
Miscellaneous claims of the Army Pay Department	125	81,217
Arming and equipping the militia, act February 12, 1887	21	185,388
Total	1,860	30,442,094

MISCELLANEOUS WORK OF THE DIVISION.

Muster and pay rolls examined	24,866
Single vouchers examined	118,518
Settlements entered	1,860
Differences recorded (pages)	447
Rehearing of cases	1
Official letters written	295
Office reports of absence of employés	12
Requisitions for office furniture, etc	147
Requisitions for stationery supplies	435

On July 1, 1894, there were on hand, not adjusted, in this division, 102 Army paymasters' accounts, 14 accounts of the National Home for Disabled Volunteers, 22 ordnance accounts, 49 medical accounts, 2 miscellaneous claims, and 2 accounts for arming and equipping the militia, estimated to be about twenty-five days' work of the division.

ARMY PENSION DIVISION.

Character of the accounts, etc.	Number.	Amount.
Accounts of pension agents for Army pensions	1,013	$168,169,294
Pension reimbursement claims allowed	616	29,210
Pension reimbursment claims disallowed	55	.....
Pension agents' checks, with evidence, examined	1,623	.....
Total	3,308	168,198,504

MISCELLANEOUS WORK OF THE DIVISION.

Single vouchers examined	4,035,490
Settlements entered	1,629
Differences recorded.....pages..	265
Requisitions recorded	570
Official letters written	1,059

On July 1, 1894, there were on hand, not adjusted, in this division, 35 pension agents' accounts and 56 reimbursement claims, making about one hundred and fourteen days' work of the division.

QUARTERMASTER'S DIVISION.

Character of the accounts.	Number.	Amount.
Disbursing officers of the Quartermaster's Department for regular and incidental expenses	1,006	$9,197,379
Disbursing officers of the Subsistence Department	789	2,585,601

Claims for lost property, act March 3, 1885	10	1,528
War claims of States, act July 27, 1861, etc	1	1,679
Claims for Army transportation	399	302,263
Telegraph accounts	13	72
General miscellaneous claims	3,283	311,815
Duplicate checks approved	670	34,325
Total	5,392	694,497

MISCELLANEOUS WORK OF THE DIVISION.

Requisitions recorded.	Number.	Amount.
War Department	4,539	$57,366,429.74
Navy Department	2,335	47,626,809.08
Interior Department, pension requisitions	3,256	150,385,760.15
Interior Department, Indian requisitions	5,394	11,615,015.76
Total	15,524	266,994,014.73

Bonds recorded and filed	162
General office entries of reference and adjustment of cases	4,610
Settlements entered	4,722
Official letters written	664

On July 1, 1894, there were on hand, not adjusted, in this division 3 claims for loss of private property, 1 State claim, 59 Army transportation claims, 12 telegraph claims, and 78 miscellaneous claims, estimated to be about forty days' work of the division.

SUITS.

Transcripts for suits instituted during the year	26
Amount recovered and paid into the Treasury from suits begun in the present fiscal year	$253.62
Amount recovered and paid into the Treasury from suits begun in previous years	1,550.87

Respectfully,

C. H. MANSUR,
Second Comptroller.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

(No. 9.)

REPORT OF THE COMMISSIONER OF CUSTOMS.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF CUSTOMS,
Washington, D. C., September 27, 1894.

SIR: I have the honor, in obedience to your request of August 23, 1894, to submit a statement of the transactions of this office for the fiscal year ending June 30, 1894.

It has been usual to delay this report until October, so that the details may be as full as possible, but owing to the discontinuance of the office on the 30th of this month, it is thought best to make the report at once, with such material as it has been possible to collect.

Auditor's certificates on hand July 1, 1893	298	
Auditor's certificates received	7,165	
		7,463
Auditor's certificates examined and passed	7,236	
Auditor's certificates canceled	4	
		7,240
Auditor's certificates on hand June 30, 1894		223
Accounts on hand July 1, 1893	762	
Accounts received from the First Auditor	16,360	
		17,122
Accounts adjusted	16,558	
Accounts returned to Auditor	3	
		16,561
Accounts on hand June 30, 1894		561
Estimates received and examined		2,684
Requisitions issued		2,684
Amount involved in requisitions		$18,478,199.40
Letters received		28,100
Letters written		11,786
Letters recorded		10,744
Stubs of receipts for duties and fees returned by collectors		190,963
Stubs of receipts for duties and fees examined and summarized		193,653
Tonnage stubs received and entered		12,222
Tonnage stubs examined		16,343
Auditor's certificates registered		7,159
Auditor's certificates recorded		6,833
Auditor's certificates checked by the stubs		3,387
Appointments registered		7,100

Oaths examined and registered	$4,037
Official bonds examined and approved	126
Commissions transmitted	151
Papers filed, noted, and referred	22,302

This office was created by the fifth section of the act of March 3, 1849, and went into operation on July 1 of that year; was abolished by the fourth section of the act of July 31, 1894, which takes effect on September 30, 1894, giving as the period of its existence forty-five years and three months, during which time the accounts of over $6,300,000,000 of customs receipts have been adjusted, on which the loss has been insignificant.

The Commissioners of Customs were as follows: Charles W. Rockwell, Connecticut, July 1, 1849, to December 24, 1852; J. N. Barker, Acting, Pennsylvania, December 25, 1852, to April 24, 1853; Hugh J. Anderson, Maine, April 25, 1853, to December 4, 1857; Samuel Ingham, Connecticut, December 5, 1857, to May 19, 1861; Nathan Sargent, Pennsylvania, May 20, 1861, to May 31, 1871; Henry A. Lockwood, Acting, Wisconsin, June 1, 1871, to July 2, 1871; William T. Haines, Pennsylvania, July 3, 1871, to April 30, 1874; Henry C. Johnson, Pennsylvania, May 1, 1874, to April 7, 1885; John S. McCalmont, Pennsylvania, April 8, 1885, to June 14, 1889; Samuel V. Holliday, Pennsylvania, June 15, 1889, to May 31, 1893; William H. Pugh, Ohio, June 1, 1893, to September 30, 1894.

There have only been three chief clerks, or deputy commissioners, during the whole time: John D. Barclay, Thomas Feran, Henry A. Lockwood.

The personnel of the office at its inception numbered 14 including the Commissioner. This force gradually increased until the period when it is to be abolished it numbered 33, a little more than 100 per cent of increase, but the increase in business was more than 400 per cent.

An effort has been made to close up the work of the fiscal year 1894 by the time that the law for the abolition of the office goes into effect, but the shortness of the time has prevented.

It is confidently asserted that an examination of the customs ledgers of the Department for the time this office has been in existence—especially the latter portion of it—will show as great, if not the greatest, percentage of business transacted to the unadjusted losses, of any branch of the Government.

In closing this the last report of the Commissioner of Customs it is but right that I pay a tribute of justice to those who have been associated with me, and under my direction have assisted in the discharge of the duties of the office. With faithful and intelligent industry they have ever upheld my hands in the discharge of my duty, and it is not one of the least of the trials incident to the discontinuance of the office to part with those with whom I have had such pleasant relations, and I most cordially recommend them to your favorable consideration as worthy of being provided for in the coming reorganization of the Treasury Department.

I inclose herewith the statements (A) of transactions in bonded goods as shown by the adjusted accounts; (B) statement of transactions in transportation; (C) statement of transactions in exportation; (D) approximate statement of merchandise imported for exhibition at the World's Columbian Exposition at Chicago during July, August, September, and October, 1893; (E) approximate statement of mer-

chandise received at San Francisco, Cal., for exhibition at the Midwinter International Exposition, 1893-'94; (F) merchandise transported without appraisement under act of June 10, 1880; (G) approximate statement of merchandise imported under consular seal pursuant to Department Circular No. 100, July 2, 1891.

Respectfully, yours,

WM. H. PUGH,
Commissioner of Customs.

The SECRETARY OF THE TREASURY.

APPENDIX.

TABLE A.—STATEMENT OF WAREHOUSE TRANSACTIONS OF THE SEVERAL DISTRICTS

DISTRICTS AND PORTS.	Balance of bonds to secure duties on goods remaining in warehouse July 1, 1893.	Warehoused and bonded.	Constructively warehoused.	Rewarehoused and bonded.	Constructively rewarehoused.

The foregoing exhibit shows that the volume of business done in this office is steadily increasing each year. In my last annual report I stated that the work of the office had been brought up so near to date that it would be but a short time before all delayed business in the office was disposed of.

When I assumed the charge of this office, April 1, 1893, there were awaiting adjustment 4,737 accounts of all classes, and of this number 1,167 had been in the office from three months to two years. On the 30th day of June, 1893, the total number had been reduced to 3,647—a reduction of 1,090. I am now able to state that the total number of accounts remaining in the office at the close of business June 30, 1894, was 1,156, and of this number all except 36 were received during the quarter then ended, and these few could not have been audited.

Of the 1,156 accounts on hand at the close of the year, 497 had been examined and were awaiting either certificates of the revised balances on the preceding accounts, or warrants covering deposits. Of the 659 accounts remaining, after deducting the 497 examined, all but 50 or 60 were monthly accounts that are stated quarterly and could not be audited till the June accounts were received after the close of the fiscal year, or were accounts that were awaiting explanations from the officers or persons rendering them.

It will be seen that at the end of the fiscal year there was not a single delayed item of business in this office, and that the accounts that could have been audited amounted to only about one-half of the receipts of one day. The enforcement of the rule against making accounts special, and requiring all business to be disposed of in the order of its receipt, has had a tendency to cause officers and others sending accounts to this office to put them in such perfect form that they would not be returned for correction, and has enabled me to so dispose of public buiness that a request to make an account special is very rare, while formerly many of them were made daily.

At the beginning of the fiscal year the six divisions that had existed in this office for years I consolidated into the four for which chiefs are provided by law. The division of mints and subtreasuries was consolidated with the miscellaneous division, and the warehouse and bond division with the customs division. Under the consolidation the business of the office is as correctly and speedily disposed of as before, and the services of the two clerks of class four formerly acting as chiefs of division are now given to the adjustment of accounts. By an agreement with the First Comptroller and with your approval many small accounts heretofore stated in this office have this year been paid by the disbursing officers of the Treasury Department, and the great labor of their statement and revision before payment and the issue of warrants thereon has been avoided. The change has proven most satisfactory. Of the accounts thus changed those of the inspectors of steam vessels number over one thousand. This action decreased the number of accounts stated, but the amount paid is found in the disbursements by the disbursing officers.

I desire to express my appreciation of the efforts of the deputy auditor, chiefs of division, and clerks in this office, all of whom have worked with the greatest zeal and enthusiasm to accomplish the result now reported. They have shown a commendable pride in their work and the good standing of their office, without which it would have been impossible to dispose of the public business in arrears and be able to audit all accounts within a few days after their receipt.

In my last annual report I expressed the belief that, notwithstanding the fact that the work of the office had increased over 35 per cent since the last increase of the clerical force July 1, 1880, the present force was sufficient to bring the work up to date and to keep it there. This result has been accomplished without help and without requiring clerks to work overhours.

E. P. BALDWIN,
First Auditor.

The SECRETARY OF THE TREASURY.

(No. 11.)

REPORT OF THE SECOND AUDITOR.

TREASURY DEPARTMENT,
SECOND AUDITOR'S OFFICE,
Washington, D. C., September 29, 1894.

SIR: I have the honor to submit the following annual report, showing the details of the work performed in this office during the fiscal year ending June 30, 1894.

A brief statement of the duties of each division is given, with a detailed report of the work performed by each division.

BOOKKEEPER'S DIVISION.

This division keeps a journal and ledger record of all disbursing officers' accounts and of all claims (except claims for arrears of pay and bounty) which come within the jurisdiction of the Second Auditor and Second Comptroller; also ledger accounts of the various appropriations involved in said accounts and claims. All requisitions issued by the Secretary of the Interior on Indian account, and such requisitions of the Secretary of War as are chargeable to appropriations on the books of this office, are registered, indexed, and posted under their proper heads. Claims of heirs of deceased payees of paymasters' checks are adjusted in this division and a record is kept of valuable effects of deceased soldiers. Certificates are issued as to the indebtedness or nonindebtedness of claimants, and claims for pay, etc., in cases where the claimants are charged on the books of this office, or on the Third Auditor's books, are referred to the bookkeeper for settlement. A proper record is kept of suits pending against the United States in the Court of Claims and in the circuit and district courts of the United States, in cases where notice is received that such suits have been entered, and all information, copies of documents, etc., required by the courts or the Attorney-General in Army cases are furnished by this division. (Calls for information, etc., in Indian cases are attended to by the Indian division.)

A record is also kept of the data contained in the annual report of the Auditor, annual and other estimates, and such reports or information as this office may be required to furnish to Congress or any of the Departments.

APPLICATION OF APPROPRIATIONS.

The application of moneys appropriated for the Indian service, the Medical Department, Pay Department, Ordnance Department, expenses of the Commanding General's Office, contingencies of the Adjutant-General's Office, the Soldiers' Home, the National Home for Disabled Volunteer Soldiers, the Artillery School at Fortress Monroe, publication of Official Records of the War of the Rebellion, contingencies of the Military Establishment, etc., is indicated by the subjoined tabular statements of amounts drawn from the Treasury on requisitions of the Secretary of War and Secretary of the Interior, repayments of unexpended balances, and aggregate balances remaining in the Treasury on June 30, 1894.

Appropriations.	Drafts.	Repayments.
INDIAN SERVICE.		
Advance interest to certain Indian tribes	$193,468.42	$15,381.71
Allotments to certain Indian tribes and bands	51,311.87	3,065.13
Appraisement and sale of Round Valley Indian Reservation	4,365.17	453.17
Buildings and repairs at agencies	20,714.31	3,951.43
Civilization fund	525.35	141.71
Civilization of the Sioux	250,545.93	.....

Trusses for disabled soldiers	8,000.00	2,724.24
Miscellaneous items	2,660.68	1,019.80
Total War Department	23,292,599.77	779,987.79

GENERAL BALANCE SHEET OF APPROPRIATIONS.

	War.	Indian.
DEBIT.		
To amount withdrawn from the Treasury from July 1, 1893, to June 30, 1894	$23,292,599.77	$10,904,147.54
To amount of transfer warrants, issued to adjust appropriations	147.45	23,602.63
To amount of unexpended balances carried to the surplus fund	741,126.07	264,428.00
To aggregate amount of balances remaining to the credit of all appropriations June 30, 1894	8,371,218.70	31,077,676.58
Total	32,405,091.99	42,269,854.75
CREDIT.		
By amount of balances on hand July 1, 1893	9,348,752.22	31,844,280.23
By amount of repayments during the year	779,987.79	610,598.32
By amount of counter warrants issued to adjust appropriations	3,225.52	23,602.63
By amount of appropriation warrants issued during the year	22,273,126.46	9,791,373.57
Total	32,405,091.99	42,269,854.75

The miscellaneous work of the bookkeepers' division consisted of—

Requisitions registered, indexed, journalized, and posted	7,018
Settlements journalized and posted	5,000
Settlements made in the division chiefly to adjust appropriations and close accounts	224
Certificates of deposit listed and indexed	1,066
Repay requisitions prepared for the War and Interior Departments	522
Appropriation warrants recorded and posted	38
Certificates of nonindebtedness issued in cases of officers and enlisted men	2,389
Letters written	1,519
Letters indexed	9,151
Bonds of disbursing officers recorded	123
Consolidated statements of the work of the office	12

The amount drawn from the Treasury on settlements was $205,731.10, including the following sums on Soldiers' Home account:

Withdrawn from the "permanent fund" of the Soldiers' Home and paid to the treasurer of said Home to meet current expenses (section 8, act of March 3, 1883, 22 Stats., 565)	$128,000.00
Interest on Soldiers' Home permanent fund (same act)	74,509.29

PAYMASTERS, ORDNANCE, AND MEDICAL DIVISION.

The paymasters division and the ordnance, medical, and miscellaneous division were consolidated on October 13, 1893, under the title of the paymasters, ordnance, and medical division, and the work of recording payments to officers and men of the regular Army was reassigned to this division, and the record of payments to officers of volunteers transferred to the archives division.

The duties of the paymasters' section of this division are to audit and adjust the accounts of Army paymasters; to state accounts in favor of the Soldiers' Home for the monthly contributions of 12½ cents by enlisted men of the Army, court-martial fines, forfeitures by desertion, etc.; to keep a record of deposits by and repayments to enlisted men; to determine the longevity status of officers of the Army; to raise charges against officers for overpayments, erroneous musters, etc.; to transfer to the Third Auditor's books such amounts collected by paymasters as have not already been deposited and passed to the credit of the proper appropriations on books of the Second and Third Auditors, and to make such settlements of a miscellaneous character as are incidental to the general work of the division.

The duties of the ordnance, medical, and miscellaneous section of this division are to audit all other disbursing accounts of the Army rendered to the Second Auditor's office; also the accounts of the National Home for Disabled Volunteer Soldiers and the military accounts of the disbursing clerk of the War Department; also claims of a miscellaneous character, namely, claims under special acts of Congress; claims for material furnished the Ordnance Department; for refundment of bounty money taken from soldiers under General Orders 305 of 1864; for refundment of money erroneously paid to secure exemption from draft, etc. The book records of payments to officers of the regular and volunteer armies are kept in this division, and transcripts from said records are furnished when required by other divisions. It also has charge of the files of settled ordnance, medical, and miscellaneous accounts from 1817 to date.

The following is a record of work performed by this division during the fiscal year ending June 30, 1894:

PAYMASTERS, ORDNANCE, AND MEDICAL DIVISION.

Accounts and claims.	Paymasters.	Ordnance.	Medical.	Miscellaneous.	Claims.	Total.
On hand July 1, 1893	99	29	61	21	66	276
Received during the year ending June 30, 1894	385	610	370	213	202	1,780
To be accounted for	484	639	431	234	268	2,056
Examined during the year	412	597	382	183	198	1,772
On hand June 30, 1894	72	42	49	51	70	284

DISBURSEMENTS.

The amount involved in the 1,772 accounts and claims disposed of was $24,147,272.46, as follows:

In 412 accounts of Army paymasters under appropriation for "pay, etc., of the Army"	$15,146,870.62
In 597 accounts of ordnance officers under appropriation for ordnance and ordnance stores, ordnance service, arming and equipping the militia, armament of fortifications, repairs of arsenals, and other appropriations of the Ordnance Department	4,777,461.58
In 582 accounts of medical officers under appropriations for medical and hospital department, artificial limbs, Army Medical Museum, library Surgeon-General's office, trusses and appliances for disabled soldiers, and other appropriations of the medical department	769,848.39
On the 30th of June, 1894, the accounts of Army disbursing officers were rendered to this office to include May, 1894, and examined to include March, 1894.	
In 59 accounts of the treasurer, under appropriation for the support of the National Home for Disabled Volunteer Soldiers	3,023,186.02
On the 30th of June, 1894, the accounts of the treasurer of said Home were rendered to this office for the quarter ending September 30, 1893, and examined for the quarter ending June 30, 1893.	
In 322 miscellaneous accounts and claims under appropriations for expenses of recruiting, contingencies of the Army, publication of the Official Records of the War of the Rebellion, expenses of military convicts, expenses of Commanding General's office, contingencies of headquarters military departments, artillery school at Fortress Monroe, infantry school at Fort Leavenworth, special acts of relief, local bounty, and other miscellaneous appropriations	429,905.85
Total	24,147,272.46
Number of vouchers examined in auditing the above 1,772 accounts and claims	127,727

MISCELLANEOUS SETTLEMENTS.

Amount involved in 11 settlements crediting the Soldiers' Home with sums ascertained to be due in auditing the accounts of Army paymasters, $176,802.92; in 5 settlements charging officers with sums overpaid, $77.40; in 4 settlements paying sundry persons amounts due, $301.45; in 19 settlements crediting amounts refunded on account of overpayment, $154.62; and in 33 settlements transferring amounts from appropriations for "pay, etc., of the Army" to the credit of sundry appropriations on the books of the Second and Third Auditors, on account of ordnance transportation, subsistence, etc., $35,265.79, making a total of 72 settlements, involving the sum of $212,602.18.

DEPOSITS.

The record of deposits by enlisted men under the act of May 15, 1872, shows that 7,836 deposits were made since last report, amounting to $420,210.64, and that 7,423 deposits have been withdrawn, amounting to $347,233.87, upon which the depositors received interest amounting to $33,537.11.

DESERTERS' SETTLEMENTS.

Number of cases on hand July 1, 1893	525
Received during the year	2,770
To be accounted for	3,295
Settled during the year	2,932
On hand June 30, 1894	363

LONGEVITY.

Number of cases in which dates have been received and established, showing the time from which increase is due officers of the Army for length of service	87

ADVANCE BOUNTY.

Number of calls on hand July 1, 1893	21
Received during the year	4,711
To be accounted for	4,732
Disposed of during the year	4,709
On hand June 30, 1894	23

MISCELLANEOUS.

Number of letters written	3,129
File boxes rearranged	459
Miscellaneous papers received and disposed during the year	6,529
Vouchers refolded, briefed, etc	9,336
Vouchers and settlements withdrawn and returned to files	1,024
Payments recorded	145,910
Payments reported to other divisions for use in settlement of claims from July 1, 1893, to October 16, 1893, when the record was transferred to the archives division	3,009

INDIAN DIVISION.

The general duties of the Indian division are to audit the money accounts of Indian agents and other disbursing officers of the Indian service and the claims of contractors, employés, etc., for supplies furnished and services rendered; also to examine and finally dispose of the property accounts of Indian disbursing officers and to keep records of contracts for supplies and delivery thereunder, so that any article can be readily traced from the place of purchase to its destination. This division has charge of the files of settled accounts and claims pertaining to the Indian service, and furnishes to the Attorney-General and to the proper courts such information and documentary evidence as may be found in said files touching suits against the United States. It also makes transcripts of the accounts of Indian disbursing officers in cases where it is necessary to bring suit for balances found due the Government.

The following table exhibits the work for the year upon accounts and claims:

	Accounts.		Claims.
	Cash.	Property.	
On hand July 1, 1893	536	394	56
Received during the year	1,080	854	5,178
Total	1,616	1,248	5,234
Examined and stated	970	863	5,054
On hand July 1, 1894	646	385	180

Disbursements allowed on officers' accounts	$4,890,595.18
Disbursements certified on claims	5,088,890.38
Total disbursements audited	9,979,485.56

Letters written, 5,639; pages copied, 13,257; transcripts, 37.

Under the head of "accounts" are included both the regular quarterly returns of officers and the "explanations" filed by them to remove suspensions, so that the actual status July 1, 1894, may be exhibited thus:

	Cash.		Property.		Total.
	Original accounts.	Explanations.	Quarterly accounts.	Explanations.	
In process of examination	166	81	50	20	317
Waiting examination	277	122	222	93	614
Total	443	203	272	113	931

The following table exhibits the volume of work done as compared with the previous year:

	Cash accounts.		Property accounts.		Claims.	
	1893.	1894.	1893.	1894.	1893.	1894.
On hand July 1	360	536	316	394	14	56
Received	958	1,080	664	854	5,287	5,178
Total	1,318	1,616	980	1,248	5,301	5,234
Examined and stated	782	970	586	863	5,245	5,054
Remaining on hand June 30	536	646	394	385	56	180

	1893.	1894.
Disbursements allowed in agents' accounts	$4,058,395.96	$4,890,595.18
Disbursements on account of claims	8,611,189.34	5,088,890.38
Total	12,669,584.30	9,978,485.56
Number of letters written	5,467	5,639
Number of pages copied	7,637	13,257
Number of transcripts furnished	14	37

It will be seen from the above comparative exhibit that there were 176 more "cash accounts" on hand at the beginning of the fiscal year, 1894, than at the same period of 1893. There were also 122 more received than in the former year, making a total net increase of 298.

There appears, also, an increase over 1893 of 188 in the number examined and stated, or nearly 25 per cent. And yet the number remaining on hand at present is 110 greater than at same period last year. This clearly indicates the necessity for an increase in the force of clerks in the division, to cope with the constantly increasing work of the Indian Service.

It will also be observed that there were on hand at the beginning of the fiscal year 1894, 78 more "property accounts" than at same period previous year, also an increase in number received of 190; total increase, 268. There were examined and stated during the year 277 more than in the year before, a net increase, in volume of work done, of about 47 per cent.

Increase in number of letters written, 172; in number of pages copied, 5,620; in number of transcripts, 23, the latter furnished as follows:

For the Court of Claims	7
For the Attorney-General	3
For defendant (special account)	1
For the solicitor	26
Total	37

Total number of disbursing officers in the Indian Service during the fiscal year:

Agents	57
Agents, special	5
Inspectors	5
General superintendent of schools	1
School superintendents	32
Supervisors of education	6
Supervisors of Indian schools	4
Allotting agents	26
Disbursing officers, special commissions	20
Land examiners	2
Governor of Alaska	1
Examiner of survey	1
Secretary of Board of Indian Commissioners	1
Superintendent New York warehouse	1
Superintendent Chicago warehouse	1
Receiving and shipping clerks	2
Other of a miscellaneous nature	33
Total	198

PAY AND BOUNTY DIVISION.

This division is subdivided into six branches or sections, namely:

(1) *The registering branch*, by which all claims for arrears of pay and bounty that have accrued since April 13, 1861, are received, registered according to regiments or other independent organizations, and sent to the files of claims awaiting examination. After being certified by the Second Auditor and Second Comptroller, the claims again pass through this branch in order that the number of the certificates may be entered on the claims' register, thus completing the record. Letters of inquiry concerning claims, either settled or pending, are necessarily referred to this branch for information as to date of filing, number of certificate, etc.

(2) *The examining branch*, by which such evidence as may be necessary to complete claims is collected and scrutinized. When completed, if there appears to be anything due from the United States, the cases, after passing the board of review, go to the settling branch for adjustment. In cases where formal settlements have not previously been made, and it is evident that nothing is due the claimants, settlements disallowing the claims are made in this branch and are disallowed by the Second Auditor under the provisions of the act of July 16, 1892. In cases where formal settlements have already been made and it is apparent that nothing further is due, claimants are so notified and the papers are filed with said settlements.

(3) *The settling branch*, by which all claims passed by the examining branch and reported correct by the board of review are formally adjusted by certificate settlements and reported to the Second Comptroller.

(4) *The correspondence branch*, in which inquiries relating to settled claims, and all letters from members of Congress in regard to claims, whether open or settled, are answered, and the miscellaneous correspondence attended to, including the writing of letters to claimants and attorneys, notifying them of the settlement of their claims. This branch also transmits certificates to the Paymaster-General for payment, and keeps the necessary records showing under what heads of appropriations balances have been certified.

(5) *Branch in charge of open and disallowed files.*—These files consist of claims awaiting evidence to be furnished by claimants and attorneys, claims awaiting action by the examining and settling branches, claims summarily disallowed by the Auditor prior to January 1, 1882, and not since called up, and claims which have not been completed by the parties in interest and are regarded as abandoned.

(6) *Branch in charge of files of settled claims.*—These files consist of claims for arrears of pay and bounty which have been formally certified by the Second Auditor and Second Comptroller since 1832.

The following is a record of last year's work:

EXAMINING BRANCH.

Classes of claims.	Claims pending July 1, 1893.	Claims received.	Sent to settling branch.	Disallowed.	Referred elsewhere.	Claims pending June 30, 1894.
WHITE SOLDIERS.						
Commissioned officers and enlisted men subsequent to Apr. 13, 1861, arrears of pay and all bounties	29,852	6,813	6,079	5,686	1,434	23,466
Claims prior to Apr. 14, 1861	148	66	17	35		162
Claims of laundresses, sutlers, tailors, etc	81	22	22	3	11	67
COLORED SOLDIERS.						
Arrears of pay and bounty	9,065	3,148	812	1,327	1,272	8,802
Total	39,146	10,049	6,930	7,051	2,717	32,497

SETTLING BRANCH.

Classes of claims.	Claims pending July 1, 1893.	Received from examining branch.	Settled and allowed.	Disallowed.	Referred elsewhere.	Claims pending June 30, 1894.
WHITE SOLDIERS.						
Commissioned officers and enlisted men subsequent to Apr. 13, 1861, arrears of pay and all bounties	469	6,079	5,890	160	17	481
Claims for pay prior to Apr. 14, 1861		17	17			
Claims of laundresses, sutlers, tailors, etc		22	22			
COLORED SOLDIERS.						
Arrears of pay and bounty	180	812	901	22	2	67
Total	649	6,930	6,830	182	19	548

Number of claims settled and allowed during the year ending June 30, 1894	6,830
Amount involved in claims settled and allowed	$537,375.80
Whole number of claims disallowed and referred	9,969
Total number of claims disposed of	16,799
Number of claims pending June 30, 1894	33,045
Number of letters written and mailed during the year	138,153
Total number of vouchers used and consulted	355,450

The division for the investigation of fraud was discontinued October 13, 1893, and its work merged with that of the pay and bounty division. The claims received from that source (707 white and 100 colored) are included in the above items, 6,813 and 3,148, in the column of claims received.

COMPARATIVE STATEMENT OF THE NUMBER OF CLAIMS PENDING IN THE PAY AND BOUNTY DIVISION AT THE END OF EACH OF THE THREE LAST FISCAL YEARS.

June 30, 1892.	Number.	June 30, 1893.	Number.	June 30, 1894.	Number.
Examining branch	44,712	Examining branch ...	39,146	Examining branch ...	32,497
Settling branch	799	Settling branch	649	Settling branch	548
Total.....	45,511	Total.....	39,795	Total.....	33,045

The work of the pay and bounty division is still nearly two years behind, although the above tabulated statement shows that a gradual gain has been made on the back work during the last two years, the number of claims on hand having been reduced by 5,716 claims during the fiscal year ending June 30, 1893, and having been still further reduced by 6,750 claims during the last fiscal year, which has about brought the work up to claims filed in 1893. At the same rate of gain on this back work it will require the present force at least five years to bring the work up to date, if as many new claims continue to be filed; but an increase of 25 clerks would enable this work to be brought up to date within two years, and I therefore respectfully recommend that this increase of force be made, in order that all just claims for pay and bounty due to soldiers and to the families of deceased soldiers may be paid more promptly.

MAIL AND PROPERTY DIVISION.

The mail division and the property division were consolidated October 13, 1893, and a part of the division of inquiries and replies afterwards added thereto, under the title of the mail and property division, and the work divided into three sections.

The following is a summary of the work of each of said sections during the fiscal year ending June 30, 1894:

Mail section.—The work in this section is to carefully examine, stamp, assort, and distribute all of the incoming mail received in this office, including the general departmental mail, claims, and papers received daily from the Second Comptroller's Office, the War Department, Indian Office, etc.; to brief, jacket, and register claims and important papers, additional evidence, etc., and send them to the proper divisions; to inspect the outgoing mail and see that all errors and irregularities are corrected; to answer all letters which do not pertain to claims on file, and to refer or properly dispose of all letters, claims, etc., which do not come within the jurisdiction of the Second Auditor. The mail is properly disposed of on the same day as received, while special and important matters receive immediate attention and action.

The following statement is a summary of work for this section for the past fiscal year:

Incoming mail (general)	56,453
Departmental	97,383
Total	153,836
Outgoing mail (general)	82,293
Departmental	68,691
Total	150,984
Claims received, briefed, and registered	10,163
Additional evidence received and noted	13,138
Letters written	2,600
Letters referred	818
Letters returned uncalled for	1,933

Property section.—The duties of this section are to examine and settle clothing, camp, and garrison equipage accounts of Army officers, and to keep proper files of such accounts, both settled and unsettled.

Under the provisions of the act of Congress approved March 29, 1894, the War Department, on May 19, 1894, ceased sending such accounts to this office for reexamination and settlement. Upon the completion of the examination of the returns now on hand this portion of the work will be dispenesd with. This section also answers calls made by the pay and bounty division of this office, by the Third Auditor, or by the officer concerned, or his representative, and issues certificates as to the indebtedness or the nonindebtedness of regular and volunteer officers who served in the U. S. Army since March 31, 1817.

The following is a record of the work performed in this section during the past fiscal year:

Returns on hand unsettled June 30, 1893	1,585
Returns received	3,338
Returns settled	4,267
Returns on hand unsettled June 30, 1894	656
Returns examined	3,906
Vouchers examined	41,243
Letters received	3,004
Letters written	2,129
Letters recorded	1,781
Certificates of nonindebtedness issued	1,841
Certificates of nonindebtedness recorded	1,477

Inquiries and replies section.—The duties of this section are to answer calls for information in regard to officers and enlisted men who served in the U. S. armies since July 1, 1815, from the Adjutant-General, U. S. Army, Record and Pension Office, Quartermaster-General, Commissary General of Subsistence, War Department, the Commissioner of Pensions, the Third and Fourth Auditors of the Treasury; also to compare and verify the signatures of claimants and their witnesses, who have claims pending in the Pension and Third Auditor's Office, with their signatures on the original rolls and vouchers on file in this office, and to verify the signatures of Army officers to certain papers submitted by said officers, and to furnish copies of such affidavits, final statements, certificates of disability, or other papers, as may be required by the different officers of the U. S. Government.

The record of work performed since January 24, 1894, the date when this work was transferred to the mail and property division from the archives division, to June 30, 1894, is as follows:

	Received.	Answered.	On hand June 30, 1894.
Record and Pension Office	1,100	1,099	1
Adjutant-General	277	277	.....
Commissary-General of Subsistence	230	230	.....
Commissioner of Pensions	2,482	2,481	1
Third Auditor	194	194	.....
Fourth Auditor	2	2	.....
Miscellaneous	251	251	.....
Total	4,826	4,823	2

Letters written to other bureaus	349
Signatures compared	658
Pages of copying (legal cap)	945
Final statements copied	47
Descriptive list examined and filed with settlements	7,620
Descriptive list examined and filed with application	3,178
Descriptive list examined and filed for future reference	83,068
Total	93,866

ARCHIVES DIVISION.

This division has charge of all accounts of Army paymasters which have ever been settled by the Second Auditor and Second Comptroller; book records of payments to regiments, batteries, and other independent organizations, detachments, hospitals, paroled prisoners of war, recruiting parties, and all other separate commands; also book records of payments to officers of the volunteer service and to volunteer enlisted men who were discharged before the expiration of their terms of service, and the card indexes of payments to enlisted men absent from their regular commands.

The principal duties assigned to this division are as follows: To withdraw from the files such vouchers as are required by other divisions and return them to their proper places when no longer required; to furnish the pay and bounty division with abstracts from the book records of payments to volunteer officers and with transcripts of the paymasters' accounts, for use in the settlement of claims for arrears of pay and bounty; to furnish information from the card indexes relative to payments made to enlisted men who were not paid on the regular pay rolls of their commands, and to copy or repair worn and defaced muster and pay rolls.

The following is a record of work performed during the fiscal year:

Paymasters' settlements received from Second Comptroller	268
Vouchers withdrawn from the files	82,046
Vouchers returned to the files	157,945
Vouchers sent to Record and Pension Office, War Department	4,811
Vouchers received from Record and Pension Office, War Department	5,435
Vouchers briefed	103,506
Vouchers rearranged	112,615
Vouchers stamped	89,344
Payments to companies, detachments, etc., U. S. Army, entered on register	27,110
Payments to volunteer officers recorded	145
Miscellaneous entries on records of officers' payments	475
Pages of defaced registers of payments copied and compared	796
Pages of paymasters' abstracts marked with box numbers	32,016
Sheets of paymasters' abstracts numbered	9,356

Miscellaneous accounts filed	316
File boxes stenciled	436
Abstracts of officers' payments furnished to pay and bounty division	820
Transcripts of paymasters' accounts furnished to pay and bounty division	3,084
Payments transcribed at Second Comptroller's Office	1,021
Special cases investigated	697
Replies to inquiries from—	
Adjutant-General	1,464
Commissary-General of Subsistence	132
Pension Office	6,058
Third Auditor	91
Fourth Auditor	37
Replies to miscellaneous inquiries	514
Signatures verified	236
Letters written	339
Affidavits copied	215
Applications copied	51
Special orders copied	48
Pages of foolscap used in copying	1,630
Single vouchers repaired	15,617
Muster and pay rolls repaired	3,634
Sheets of paymasters' abstracts repaired	14,585
Muster and pay rolls copied (1,467 pages, 74,243 lines)	712
Cards written from old war records	18,862
Cards written from muster and pay rolls	434,213
Muster and pay rolls carded	13,741
Descriptive lists filed with settlements	7,050
Descriptive lists filed with applications	4,107
Descriptive lists filed with pending claims	1,138

The card indexing of payments to enlisted men absent from their commands on detached service, in hospitals, parole camps, etc., which was begun on April 1, 1891, is very nearly completed. It will be supplemented by a card catalogue of all the muster and pay rolls in the files of this office, aside from the rolls of regular commands, which will be classified and arranged in such a manner that reference can almost instantly be made to any pay roll desired.

RECAPITULATION.

Amounts drawn out of the Treasury in payment of claims and in advances to disbursing officers	$34,196,747.31
Less repayments on account of unexpended balances, etc	1,390,586.11
Net amount paid out	32,806,161.20
Total number of letters written	153,857

The foregoing report gives a detailed account of the work performed by the several divisions in this Bureau as constituted during the past fiscal year. Under the provisions of an act of Congress approved July 31, 1894 certain changes were made in the methods of accounting in the Treasury, to take effect October 1, 1894, which will require a reorganization to some extent of this Bureau. And the Second Auditor, to be designated hereafter as "The Auditor for the War Department," will audit only accounts of the War Department, as shown by the following extract from section 7 of said act:

"Second. The Auditor for the War Department shall receive and examine all accounts of salaries and incidental expenses of the office of the Secretary of War and all bureaus and offices under his direction; all accounts relating to the military establishment, armories and arsenals, national cemeteries, fortifications, public buildings and grounds under the Chief of Engineers, rivers and harbors, the Military Academy, and to all other business within the jurisdiction of the Department of War, and certify the balances arising thereon to the division of bookkeeping and warrants, and send forthwith a copy of each certificate to the Secretary of War."

In consequence of said legislation the work heretofore done by the bookkeepers' division in this office will be transferred to the division of bookkeeping and warrants in the office of the Secretary of the Treasury, and the work done by the Indian division in this office will be transferred to the office of the Third Auditor, hereafter designated as "the Auditor for the Interior Department," and the work heretofore done by the military division and the claims division in the Third Auditor's Office will be transferred to this office, and the work of auditing all other accounts relating to or coming within the jurisdiction of the War Department heretofore done in the office of either of the other Auditors will be transferred to this office; and the divisions in this office, after October 1, 1894, will therefore be constituted as follows: Pay and bounty division, mail and property division, archives division, paymaster, ordnance, and medical division, military division, and review division.

It gives me much pleasure to state that the clerical force and other employés of this Bureau have discharged their respective duties with commendable faithfulness and efficiency.

Very respectfully,

T. STOBO FARROW,
Auditor.

The SECRETARY OF THE TREASURY.

(No. 12.)

REPORT OF THE THIRD AUDITOR.

TREASURY DEPARTMENT,
THIRD AUDITOR'S OFFICE,
September 18, 1894.

SIR: I have the honor to submit herewith the annual report of this bureau for the fiscal year ending June 30, 1894. The following statement shows, in tabular form, the number of accounts and claims, and amount involved, on hand July 1, 1893, received and audited during the fiscal year, and remaining unsettled June 30, 1894:

Description of accounts.	On hand July 1, 1893.		Received during fiscal year.

* Including 33 claims reopened, involving $6,498.89.
† Added by revision. See division report.
‡ Including one claim recharged, involving $67,870.13.

ARMY PENSION DIVISION.

The condition of the work of auditing and settling the accounts of the several agents for paying Army pensions and the progress made therein during the fiscal year ending June 30, 1894, are extremely gratifying, the work being practically up to date. By reference to the following tabular statements it will be seen that at the beginning of the year there were in this office 142 unsettled accounts of pension agents, involving the sum of $102,474,209.17, of which accounts there remained unexamined at that time 1,284,310 vouchers. There were received during the year 231 accounts, involving $139,959,445.39, and containing 3,986,594 vouchers, making a total of 373 accounts, involving $242,433,654.56, and requiring in their adjustment the examination of 5,270,904 vouchers. There were examined during the year 4,532,235 vouchers, a gain over the receipts of 545,641; and settlements were made of 296 accounts, involving $202,688,577.22, a gain over receipts of 65 accounts, involving $62,729,133.83. There remained unsettled at the close of the year 77 accounts, involving $39,745,077.34. These unsettled accounts pertain to the quarter ending March 31, 1894, and months of April and May, so far as received. They contain 1,051,378 vouchers, of which 312,709 belonging to the March quarter had been examined, leaving 738,669 unexamined at the close of the year. Of these unexamined vouchers 202,813 were received during the month of May and 312,993 during the month of June. The accounts are settled by quarters, and the total amount of unfinished work on hand at the close of the year was considerably less than the receipts for one quarter:

ACCOUNTS OF PENSION AGENTS, INCLUDING SUPPLEMENTAL SETTLEMENTS; ALSO, SPECIAL SETTLEMENTS, ACCOUNTS FOR LOST CHECKS, RECLAIMED CHECKS, EXAMINING SURGEONS' FEES, ATTORNEYS' FEES, ETC., ON HAND JULY 1, 1893, RECEIVED AND AUDITED DURING THE FISCAL YEAR AND REMAINING ON HAND JUNE 30, 1894.

MILITARY DIVISION.

The military division examines and adjusts the money accounts and property returns pertaining to the Quartermaster's Department, Subsistence Department, Corps of Engineers, Military Academy, Military Prison, Mackinac National Park, Chicamauga and Chattanooga National parks, surveys of battle fields, and such other accounts of the War Department as are required by law to be settled in this office.

In the fiscal year just closed, 2,020 accounts, involving $20,141,993.70, more were settled than during the fiscal year 1893, which is a very gratifying exhibit, especially in view of the fact that the average number of clerks employed in the military division during the fiscal year 1894 was 27, against $27\frac{5}{12}$ during the preceding year.

The great increase in the receipts and settlements this year, over those of last year, was due to an effort of the War Department to dispose of an accumulation of accounts in that Department, and a strenuous effort on my part to have settlements keep pace with receipts as nearly as possible, and so arrive at settlements of the accounts nearer the period of rendition. As the result of this endeavor, I am able to report that accounts are now adjusted nearer the date of rendition than at any period subsequent to 1861.

The number of property returns received during the fiscal year 1894 is 1,476 less than last year and the number settled is 1,125 less than last year. This arises from the fact that the act of Congress passed the 29th of March last provides that the War Department shall thereafter settle the returns of the officers of the Army. This law afforded the War Department the opportunity to hasten the settlement of pending money accounts. This division pursued a like policy, putting property returns then in this office aside till the close of the year, when their settlement will be resumed with the view of closing them all up at the earliest practicable period.

Four clerks detailed from other divisions and such as have been regularly employed on property returns have been employed one and one-half months, making necessary arithmetical computations for those engaged in adjusting money accounts. In this way 175 accounts, embracing 72,321 vouchers, involving $2,007,223.56, have received preliminary examinations, which will materially assist in reaching early settlements of money accounts.

On March 30, 1833, a fire in the Treasury Department destroyed many valuable papers pertaining to the last war with Great Britain. Among the papers so destroyed were a large portion of the rolls of troops of the States in the United States service during said war, and the respective States furnished their retained rolls of their troops as substitutes for the rolls destroyed. The State of New York was one of the States that furnished their retained rolls. But many of the New York soldiers did not receive the allowances from the State they were entitled to, and they, or their heirs, have been pressing the State for settlement. As the State had transmitted its "retained" rolls to the U. S. Treasury Department, it was unable to arrive at a satisfactory adjustment of the claims referred to; and the State made request for copies of its rolls in order that the claims above referred to might be adjudicated.

During the early part of the present fiscal year the work on the rolls was commenced, and considerable progress has been made (1,665 rolls and 2,445 vouchers for personal payments have been copied). By reason of the pressure of current business this work has been suspended, but will be resumed as early as practicable.

REPORT OF THE OPERATIONS OF THE MILITARY DIVISION FOR YEAR ENDING JUNE 30, 1894.

Letters written	7,545		
Vouchers examined	1,099,773		

CLAIMS DIVISION.

The claims division is charged with the examination and settlement of claims of a miscellaneous character, arising in the various branches of service in the War Department, and growing out of the purchase, hire, or appropriation of supplies and stores for the Army; for the purchase, hire, or appropriation of vessels, cars, engines, horses, mules, wagons, or other means of Army transportation; for the value of property of citizens or officers and soldiers lost in the military service; for mileage, traveling expenses, commutations and other allowances to officers and soldiers of the Army, not including pay or bounty; claims growing out of the Oregon and Washington Indian war of 1855 and 1856; claims of States and Territories under various acts of Congress for expenses in raising troops for the service of the United States for service in Indian wars and border invasions; and claims of various descriptions under special acts of Congress.

REPORT OF THE OPERATIONS OF THE CLAIMS DIVISION FOR THE FISCAL YEAR ENDING JUNE 30, 1894.

Number of official transcripts prepared for the Court of Claims 67
Number of letters written 9,876

* An actual and careful examination of the dockets and other records of the division showed that there were 3,671 claims pending and undisposed of which were not carried on the reports of the office as work before it. These, added to the claims shown by the reports to be pending, exhibit the actual number of claims on hand June 30, 1894.

The files are very much crowded, and I can not urge too strongly the necessity of providing additional room. The business of this division consists largely in the examination of claims growing out of the war of the rebellion. Many of them are of long standing, requiring much care in their preparation. The largest proportion of current business consists of claims for the transportation of the Army and its supplies over the bond subsidized railroads. In fact, more than 50 per cent of it was on this account during the last fiscal year. The work of this division is of a character requiring clerks of experience good judgment, and knowledge of law. Many of the claims are large in amount, and involve intricate legal questions. The business of the division is well in hand.

BOOKKEEPERS' DIVISION.

This division keeps the appropriation books and money accounts of disbursing officers which are settled in this office, and the accounts upon which pay and counter requisitions are drawn by the Secretaries of War and Interior. All certificates of settlement looking to an expenditure of money in the claims, military, and pension divisions are entered in the books of this division. The statement appended shows the financial operations of the Third Auditor's office for the fiscal year ended June 30, 1894. It will be observed that the requisitions upon the Secretary of the Treasury, which passed through this office, for the period above mentioned, amounted to $175,020,478.51, while the total expenditures for the U. S. Government for the fiscal year ended June 30, 1893, were $469,107,312.15. This statement also shows the amounts drawn out of certain of its appropriation accounts and the repayments made through this office into the Treasury during the fiscal year ended June 30, 1894, to be $14,162,620.16 less than those of the preceding fiscal year for the same purposes.

STATEMENT SHOWING THE FINANCIAL OPERATIONS OF THE OFFICE DURING THE FISCAL YEAR ENDING JUNE 30, 1894.

	Period.	Advances to officers and agents.	Claims paid.	Transfers not involving expenditure of money from the Treasury.	Total.	Repayments and transfers to this office. (Number of credit requisitions, 1,326.)	Carried to surplus fund by warrants of the Secretary of the Treasury, June 30, 1894.	Indefinite relief and transfer accounts closed by warrants of the Secretary of the Treasury, June 30, 1894.	Balances available June 30, 1894.
The number of requisitions drawn by the Secretaries of War and Interior on the Secretary of the Treasury is 4,808, amounting to $175,020,478.51, and paid in the manner set forth out of the following appropriations, viz:									
Regular supplies, Quartermaster's Department	1891 and prior years; transfer account.					$1,096.44		$1,096.44

					5,373	25,405,332.83	4,974	21,403,526.56
Excess of receipts and settlements during the fiscal year 1894 over those for the fiscal year 1893					3,168	19,407,373.75	2,020	20,141,993.70

The settlements made by this office during the fiscal year 1893, as shown by the report for that year, aggregated $163,989,129.56, leaving on hand at the close of said year unsettled claims and accounts amounting to $115,607,778.49; while for the year ending June 30, 1894, the settlements amounted to $245,961,005.15, reducing the amount unsettled to $57,294,329.62, showing an increase of work for the year 1894 over that of 1893 of 50 per cent.

The exhibit of the year's work is very gratifying, and I am glad to testify that I have had the hearty cooperation of the Deputy Auditor and very efficient help of the chiefs of divisions and clerks in the discharge of the duties of the office.

SAMUEL BLACKWELL,
Third Auditor.

The SECRETARY OF THE TREASURY.

(No. 13.)

REPORT OF THE FOURTH AUDITOR.

TREASURY DEPARTMENT,
OFFICE OF FOURTH AUDITOR,
October 1, 1894.

SIR: I have the honor to submit the annual report of this Bureau for the fiscal year ending June 30, 1894.

The balances, liabilities, and payments under "Pay" and other appropriations are shown by the following statements:

STATEMENT OF APPROPRIATIONS, PAY OF NAVY, AND PAY OF MARINE CORPS, 1894.

Pay of the Navy, 1894.

Balance in Treasury, as shown by ledger, June 30, 1894		$1,427,417.74
Balance in hands of disbursing officers June 30, 1894		80,164.23
Total balance		1,507,581.97
The liabilities June 30, 1894, were as follows:		
Due and unpaid officers and men	$642,598.02	
Due naval hospital fund	33,540.50	
Due clothing and small stores fund	138,201.60	
Due provisions, Navy	9,775.20	
Due on account of unpaid allotments	23,392.50	
Due general account of advances	706,397.20	
Total liabilities		1,553,905.02
Apparent deficiency		46,323.05

Pay of the Marine Corps, 1894.

Balance in Treasury, as shown by ledger, June 30, 1894		$93,670.11
Balance in hands of disbursing officers June 30, 1894		20,036.51
Total balance		113,706.62
The liabilities June 30, 1894, were as follows:		
Due and unpaid officers and men	$36,273.37	
Due naval hospital fund	7,969.65	
Due clothing and small stores fund	4,416.69	
Due general account of advances	29,234.22	
Total liabilities		67,893.93
Apparent available balance		45,812.69

The following table exhibits in detail the appropriations and expenditures for the year:

APPROPRIATIONS AND EXPENDITURES OF THE UNITED STATES NAVY FOR THE FISCAL YEAR ENDING JUNE 30, 1894.

Title of appropriation.	Year.	Appropriations and balances.	Amount drawn out by warrant.	Balance in hand June 30, 1894.	Amount carried to the surplus fund.	Amount expended by vouchers.
Pay of the Navy	1894	$7,300,000.00	$5,872,582.26	$1,427,417.74		$6,641,931.17

Indemnity, lost clothing		9,499.74	9,499.74			10,440.91
Mileage, Navy (Graham decision)		2,138.25		2,138.25		15.17
Navy pension fund		840,000.00	420,000.00	420,000.00		
Prize money to captors		455,889.81	1,365.90	454,532.91		1,865.30
Payment, Japanese award		30,706.72	714.37	26,992.35		714.37
Relief of sufferers, Samoa		308.77	308.77			272.77
Relief of Rodman M. Price		7,900.00	7,900.00			7,900.00
Total		40,332,976.58	32,408,009.49	7,619,329.43	305,637.66	32,178,691.85

INCREASE OF THE NAVY.

Amount heretofore appropriated	$78,179,529.61
Amount heretofore expended	60,449,345.39
Unexpended balance July 1, 1893	17,730,184.22
Expended during the fiscal year 1894	16,199,258.53
Unexpended July 1, 1894	1,530,925.69
Appropriated by act July 26, 1894	10,111,725.00
Amount available for the fiscal year 1895	11,642,650.69

PAY OF THE NAVY DEPOSIT FUND.

Balance standing to credit of the men July 1, 1893	$195,257.57
Deposited during the fiscal year 1894	150,225.20
Total	345,482.77
Repayments during the fiscal year 1894	136,200.17
Standing to the credit of the men July 1, 1894	209,282.60
Interest paid during the same period	8,340.63
Total deposits since date of act February 9, 1889	650,932.59
Total repayments	441,649.99
Balance as above stated	209,282.60
Total interest paid	21,439.73

EXCHANGE.

Bills of exchange were sold by the pay officers of the Navy Department during the year to the amount of $1,636,536.45. Of this sum $1,394,488.97 was drawn on the Navy agents at London and $242,047.48 on the Secretary of the Navy.

These bills were negotiated at varying rates of exchange, the gross gain being $17,259.76; gross loss, $9,242.61, making the total net gain of $8,017.15. The following tables show these transactions in detail:

DRAFTS DRAWN ON THE NAVY AGENTS, LONDON, ENGLAND, FOR THE FISCAL YEAR ENDING JUNE 30, 1894.

SPECIAL FISCAL AGENTS AT LONDON.

The contract with Messrs. August Belmont & Co., special fiscal agents at London, provides as follows: A commission of one-half of 1 per cent to be paid on disbursements made by them on account of the Navy Department.

On daily balances in their hands they paid to the United States the rate of interest paid by the London joint stock banks, and on advances they received the rate charged by the Bank of England. They have received the amount of $7,002.47 as commissions under the above contract, and $278.88 as interest on advances. They have paid the United States $1,253.60 as interest on daily credit balances. There has been a net gain of $4,114.50 in the transfer of funds from New York to London during the year.

WORK OF THE OFFICE.

The following tables show a summary of the work performed in the different divisions of the office for the fiscal year:

The sum of $565.79 was expended under section 4718 of the Revised Statutes to reimburse those who bore the expense of last sickness and burial of pensioners.

In submitting this report I am able to say that the work of the Bureau is up to date, the first time since 1861. The accounts on hand in the paymaster and claims division are held up temporarily awaiting a decision of the U. S. Supreme Court on the questions involved. They will be promptly disposed of as soon as a decision has been received.

The faithful and efficient work performed by the chiefs of division and clerks of the Bureau, a much reduced force, the past year is highly appreciated by me, and I desire to commend them for it. The force of the Bureau will be still smaller next year, but in my judgment amply sufficient to do the work promptly under the new system of accounting, approved July 31, 1894.

C. B. MORTON,
Auditor.

The Hon. SECRETARY OF THE TREASURY.

(No. 14.)

REPORT OF THE FIFTH AUDITOR.

TREASURY DEPARTMENT,
OFFICE OF THE FIFTH AUDITOR,
Washington, D. C., September 29, 1894.

SIR: As requested in the communication of Hon. S. Wike, Acting Secretary, dated the 23d ultimo, I have the honor to submit the annual report of the transactions of this office during the fiscal year ended June 30, 1894, and of the present condition of the public business intrusted to my charge.

It is three or four weeks earlier than has been customary in previous years to present the report, but its preparation at this time is important, first, in order that the part relating to the accounts assigned elsewhere on October 1 by recent legislation could be prepared while the work was yet in the office, and second, before the additional labor shall have been entered upon which will be necessary for several weeks to come for putting the office in working order under the new regime. An incompleteness will necessarily exist, however, in some of the tables of the foreign service, by reason of the returns not having been received at so early a date.

A comparison with the report for the previous year will show a larger amount of work done for this year than last. There were 30 per cent. more accounts examined and stated, and the increase in the number of letters written was very nearly in the same proportion; and there were 54,000 more vouchers examined.

The following is a summary of the monthly work reports of the office:

Accounts examined and stated	20,472
Reports on accounts	9,105
Vouchers examined	386,552
Amount involved	$711,145,599.52
Reports on accounts copied	10,488
Letters written	3,715
Coupon books of internal-revenue stamps counted	50,273
Coupon books of internal-revenue stamps scheduled	51,298
Letters copied by hand	971
Comptroller's certificates copied	7,365
Invoice and debenture certificate numbers posted from returns of collectors of customs (section 4213, Revised Statutes)	317,508
Consular-fee reports proven	3,256
Pages of consular-fee reports tabulated	18,436
Drafts examined for payment	1,542

The customary tables, lettered from A to K, will appear at the end of the report as an appendix, showing in detail, by legations, consulates, and internal-revenue districts, the salaries, expenses, collections, and fees involved in the adjustments made; and the following

are the résumés of the same as they relate to their respective appropriations, and also of some additional disbursements on other accounts. They will be presented in the order of the divisions of the office, namely:

DIPLOMATIC AND CONSULAR DIVISION.

Diplomatic service.—The accounts of ministers and other officers of the diplomatic service have been adjusted, showing (Table A of the appendix) expenditures and passport fees for the year, as follows:

Paid for salaries of ministers	$296,389.84
Paid for salaries, secretaries of legations	26,251.96
Paid for salary of clerk to legation in Spain	1,200.00
Paid for salaries, diplomatic officers while receiving instructions and in transit	32,889.37
Paid for salaries, chargés d'affaires *ad interim*	15,186.34
Paid for salaries, interpreters to legations	10,122.18
Paid for contingent expenses, foreign missions	98,110.68
Paid for loss by exchange, diplomatic service	977.71
Total salaries and expenses	481,128.08
Passport fees received and accounted for	1,310.75

The accounts of legations which have not yet been received are pointed at by figures referring to footnotes in Table A of the appendix.

The expenditures for contingent expenses, foreign missions, during the year, have again exceeded the appropriation of $90,000 made for that service. The advisability is respectfully suggested of the appropriation for this purpose, and also for the contingent expenses, United States consulates, being sufficiently increased in the future to cover the constantly recurring deficits each year for these objects, and thus save the officers affected thereby much inconvenience and expense.

Consular service.—Accounts of consular officers have been adjusted, showing expenses for this service and official fees collected as follows (Tables B, C, D, and E of the appendix):

Paid:	
Salaries, consular service	$489,776.01
Salaries while receiving instructions and in transit	55,277.13
Salaries, consular clerks	12,678.03
Loss on bills of exchange	4,711.20
Pay of consular officers for services to American vessels	23,732.74
Compensation from fees (sections 1703, 1730, and 1733, Revised Statutes)	176,077.91
Office rent and clerk hire (section 1732, Revised Statutes)	2,440.32
Contingent expenses, United States consulates	168,443.69
Allowance for clerks at consulates	87,995.38
Expenses of prisons for American convicts	7,013.69
Salaries, interpreters to consulates in China, etc	13,419.66
Salaries, marshals for consular courts	7,696.22
Expenses of interpreters and guards, etc	5,480.00
Boat and crew at Hongkong and Osaka and Hiogo	675.45
	1,055,417.43
Received:	
Consular fees received for official services	758,410.81
Excess of expenditures over receipts	297,006.62

The excess of expenses of the consular service over the receipts for fees, as shown above, is larger than it has ever been in any year since this office commenced to make a comparative statement in its report, in 1881. The largest excess of expenditures till now was in 1892, and

was then $157,545.05. The receipts exceeded the expenses from 1887 to 1890, inclusive. Since 1890 the balance has been on the side of the expenses.

The excess this year in expenses is mainly due to the large falling off in the fees. The total expenses, however, are $49,685.73 less than they were last year, notwithstanding the item of salaries while receiving instructions and in transit of consular officers is almost double the amount for 1893.

The following is a statement comparing the consular fees and expenses during the years back to 1883, inclusive:

COMPARATIVE STATEMENT OF CONSULAR FEES RECEIVED AND EXPENDITURES MADE FROM 1894 BACK TO 1883, INCLUSIVE.

Year.	Consular fees received.	Salary and other expenses.	Excess of expenditures.	Excess of receipts.
1894	$758,410.81	$1,055,417.43	$297,006.62	.....
1893	1,009,060.26	1,105,103.16	96,042.90	.....
1892	940,040.50	1,097,585.55	157,545.05	.....
1891	978,142.58	1,095,160.93	117,018.35	.....
1890	1,039,653.26	1,032,048.08	.....	$7,605.18
1889	979,191.60	953,580.37	.....	15,611.23
1888	999,172.31	934,983.93	.....	64,188.38
1887	950,690.64	918,973.26	.....	31,717.38
1886	881,569.79	900,604.90	19,035.11	.....
1885	791,345.43	870,183.10	78,837.67	.....
1884	895,780.27	872,345.08	.....	23,435.19
1883	914,839.74	870,290.60	.....	44,549.14

Consular fees.—The consular fees collected for official services are stated in detail as to the character and amount at each consulate in Table H of the appendix, and aggregate in kind and amount as follows:

Invoice certificates	$683,226.50
Landing certificates	25,157.60
Bills of health	30,190.50
Currency certificates	1,076.00
Miscellaneous	18,760.21
Total	758,410.81

The fees in the aggregate are about 25 per cent. less than they were for the last fiscal year. Those for bills of health show an increase of over 25 per cent. The fees for currency certificates were abolished during the year, which accounts for the small sum collected for them, the amount last year being $10,302.

The bulk of the depreciation in the fees is for consular certificates to certified invoices, from which it may be deduced that the same ratio of reduction exists in the number of invoices of merchandise which has been imported into the United States during the year, namely, over 25 per cent.

Relief of seamen.—As shown by Tables F and G of the appendix accounts for relief of seamen and wages were adjusted with the following results:

Board and lodging	$5,985.10
Clothing	5,956.02
Medical aid	2,387.15
Other expenses	5,181.52
Loss by exchange	91.04
Passage to the United States paid at the Treasury	8,649.01
Total	28,249.84

Amount of extra wages and arrears collected	$236,334.99
Amount of extra wages and arrears paid to seamen	228,147.78
Amount of extra wages and arrears paid for relief	6,945.41
Amount of extra wages and arrears in hands of consuls	1,241.80
Total	236,334.99
Total relief afforded	28,249.84
Wages and extra wages applied	6,945.41
Amount paid by the United States	21,304.43
Balance of appropriation unexpended	28,695.57
Total sum appropriated	50,000.00

The amount paid last year for the relief of 1,114 seamen was $24,769.19, while for this year 1,040 seamen were relieved at a cost of $21,304.43. Considerably more than one-third of the total expenditure for the relief of seamen of the United States is made and authorized by consuls at British Canadian ports for sailors from American fishing vessels.

Other expenses of the foreign service.—Accounts, other than those hereinbefore reported, and in addition to the amounts which are included in the tables coming immediately after this, of disbursing clerk's accounts, adjusted during the year, relating to appropriations, are as follows:

International Union of American Republics	$193.26
International Boundary Survey, United States and Mexico	77,009.50
International Bureau of Weights and Measures	1,684.70
Continental Railway Commission	658.76
Publication of consular and commercial reports, 1894	12,516.10
Annual expenses, Cape Spartel light, 1894	297.00
Foreign hospital at Panama, 1894	500.00
Refunding penalties or charges erroneously exacted	73.54
Allowance to widow or heirs of diplomatic officers who die abroad, 1894	441.85
Transporting remains of diplomatic officers, consuls, and consular clerks, 1894	994.56
Fees and costs in extradition cases, 1894	453.65
Rescuing shipwrecked American seamen, 1894	1,026.01
Tribunal of Arbitration at Paris	64,008.41
Columbian Historical Exposition at Madrid	591.58
Books and maps, Department of State, 1894	100.41
Steam launch for legation at Constantinople, 1894	1,214.15
Relief of Mary A. Lewis, widow of John H. Lewis	411.22

Disbursing clerk's account.—Accounts of F. J. Kieckhoefer, disbursing clerk of the Department of State, have been adjusted, showing expenditures on account of appropriations as follows:

Salaries, Department of State, 1893, $1,061; 1894, $116,887.67	$117,948.67
Proof-reading, Department of State, 1894	1,150.00
Stationery and furniture, Department of State, 1893, $334.10; 1894, $3,156.98	3,491.08
Books and maps, Department of State, 1893, $271.77; 1894, $1,425.52	1,697.29
Lithographing, Department of State, 1894	1,200.00
Contingent expenses, Department of State, 1893, $275.08; 1894, $2,995.91	3,270.99
Binding manuscript papers, Department of State	212.00
Contingent expenses, foreign missions, 1893, $404.38; 1894, $16,901.40	17,305.78
Contingent expenses, U. S. consulates, 1893, $349.69; 1894, $10,916.37	11,266.06
Emergencies arising in the diplomatic and consular service, 1893, $20,264.92; 1894, $25,323.38	45,588.30
Rescuing shipwrecked American seamen, 1894	1,062.30
Publication of consular and commercial reports, 1893, $71; 1894, $2,607.44	2,678.44
Continental Railway Commission	8,494.81
International Union of American Republics	24,249.23
Protecting the interests of the United States in the Samoan Islands	7,576.13
Publication of international catalogue of exports and imports	5,319.20

Tribunal of Arbitration at Paris	$16,208.52
Columbian Historical Exposition at Madrid	2,660.11
Transporting remains of diplomatic officers, consuls, and consular clerks, 1894	615.40
United States and Chilean Claims Commission	12,737.98
Pan-American Medical Congress	13,727.61
Wharf at Wakefield, Va., birthplace of Washington	60.37

Accounts of prior years.—Diplomatic and consular accounts not heretofore reported were received or perfected during the year, and have been adjusted as follows:

Salaries of ministers, 1892, $81.52; 1893, $3,411.34	$3,492.86
Salaries, chargés d'affaires *ad interim*, 1893	1,636.32
Salaries, secretaries of legations, 1893	1,078.52
Salaries, diplomatic officers while receiving instructions and in transit, 1893	2,319.35
Salaries, interpreters to legations, 1891	125.00
Contingent expenses, foreign missions, 1891, $89.31; 1892, $939.75; 1893, $864.17	1,893.23
Loss by exchange, diplomatic service, 1891, $37; 1892, $1,515.13	1,552.13
Salary and expenses of commercial agent at Boma, 1890, $3,996; 1891, $4,860; 1892, $3,550.30	12,406.30
Bringing home criminals, 1892, $30.37; 1893, $1,347.09	1,377.46
Fees and costs in extradition cases, 1893	2,990.20
Rescuing shipwrecked American seamen, 1892, $20; 1893, $1,031.43	1,051.43
Allowance to widows or heirs of diplomatic officers who die abroad, 1893	670.37

Salary of clerk to legation in Spain, 1894	1,200.00
Contingent expenses, foreign missions, 1893, $4,327.22; 1894, $43,745.75	48,072.97
Contingent expenses U. S. consulates, 1893, $5.15; 1894, $134.28	139.43
Steam launch for legation at Constantinople, 1894	1,800.00
Tribunal of Arbitration at Paris	30,000.00
Loss by exchange, diplomatic service, 1894	572.72

Estates of decedents, trust fund.—Accounts of this fund (sec. 1709, Revised Statutes) were adjusted, showing the following sums paid to the legal representatives of citizens of the United States who died abroad:

Estate of N. R. Shuert	$67.14
Estate of L. H. Northrup	169.92

INTERNAL-REVENUE DIVISION.

The total collections of internal revenue during the fiscal year 1894, as shown by the adjustment of collectors' accounts, and exhibited in detail in Table I, amounted to $147,170,690.94, showing a decrease for the year of $13,135,060.43. Of the former sum, however, $66,055.06 belong to the collections of the previous year.

STATEMENT OF COLLECTIONS OF INTERNAL REVENUE FROM 1894 BACK TO 1883, INCLUSIVE.

1894	$147,170,690.94
1893	160,305,751.37
1892	153,889,401.70
1891	145,624,272.42
1890	142,476,584.07
1889	130,939,147.21
1888	124,162,828.93
1887	118,932,978.91
1886	116,807,500.09
1885	112,498,877.51
1884	121,585,058.35
1883	144,711,626.58

The accounts of collectors of internal revenue, as adjusted for the fiscal year, aggregate $3,630,386.91, inclusive of amounts allowed storekeepers and gaugers. These expenses in detail are given in Table K.

Of this total expense the sum of $15,254.89 belongs to prior fiscal year, of which $1,191.11 are commissions on tax-paid spirit stamps sold.

The following exhibit shows, by States, for what these expenses were incurred:

District.	Compensation of collector.		Rent, fuel, and lights.	Stationery and other expenses.	Compensation of storekeepers.	Compensation of gaugers.	Total expense of collecting.
	Salary.	Deputies and clerks.

Paper for stamps (F. R. Walker & Son)	44,377.09
Telegrams	244.52

Payments to States for refund of direct tax, under act of March 2, 1891, have been made as follows:

State of Mississippi	$416.45
State of South Carolina	17,919.92
State of Tennessee	9,807.28
State of Texas	24,285.83
Total	52,429.48

Three hundred and seventy-nine claims for the redemption of stamps, amounting to $20,798.15, were settled during the year, from which $59.15 were discounted, leaving $20,739 actually paid.

Eight thousand two hundred and twenty-nine claims for "bounty on sugar," under act of October 1, 1890, amounting to $12,828,232.83, were adjusted during the year.

SUGAR BOUNTY CLAIMS ADJUSTED SINCE LAW WENT INTO EFFECT.

Years.	Number of claims.	Amount.
1894	8,229	$12,828,232.83
1893	4,967	9,642,042.69
1892	3,588	7,190,695.44

By the annual report of this office for 1893, it appeared the Secretary of the Treasury had on deposit to his credit, on account of "fines, penalties, and forfeitures" (special-deposit account No. 1), $33,022.33. During the year $43,222.68 have been deposited and $54,794.72 have been disbursed, leaving a balance to his credit January 1, 1894, of $21,450.19.

On account of "miscellaneous deposits" (special-deposit account No. 3), there was a balance to his credit, January 1, 1893, of $25,141.02; $20,621.37 have been deposited and $23,661.20 disbursed, leaving a balance to his credit, January 1, 1894, of $22,101.19.

The balance to his credit January 1, 1893, on account of "offers in compromise" (special-deposit account No. 5), was $17,800.81. During the year $90,691.23 were deposited and $100,107.75 disbursed, leaving a balance to his credit January 1, 1894, of $8,384.29.

Accounts were adjusted for the following sums refunded:

Taxes erroneously assessed and collected, $56,352.42; direct taxes refunded, $2,407; drawback on beer and other merchandise exported, $43,232.09; and taxes paid on spirits lost by casualty (one claim), $29.70.

During the year, 85 judgments, Court of Claims, for direct tax under act of March 2, 1891, amounting to $121,508.47, have been adjusted.

Five hundred and thirty-two dollars and sixty-two cents were recovered during the year, by suit on bond, of one stamp agent.

The disbursements made by George Waterhouse, special disbursing agent of the Treasury Department, of the South Carolina free school fund commissioners amounted to $1,905.

Accounts rendered by George W. Evans, disbursing clerk, Department of the Interior, have been adjusted as follows:

Expenses of the Eleventh Census	$730,753.82
Printing, engraving, and binding, Eleventh Census	5,932.91
Farms, homes, and mortgages, Eleventh Census	135,818.60
Official Gazette, Patent Office	52,777.40
Photolithographing, Patent Office	105,180.69
Scientific library, Patent Office	1,965.99
International protection of industrial property, Patent Office	680.93
Public use of inventions and defending suits, Patent Office	23.00

Accounts of F. H. Thomas, disbursing clerk, Post-Office Department, have been adjusted as follows:

Sales of post-route maps	$1,353.66
Rent of buildings	24,625.03
Post-route maps	17,323.39
Miscellaneous items	9,027.90
Plumbing and light fixtures	1,572.20
Hardware	412.25
Furniture	1,264.60
Fuel	7,209.32
Stationery	6,938.08
Horses and wagons	840.50
Postage	640.00
Lights	3,503.93
Official Postal Guide	22,418.06
Painting	3,088.43
Telegraphing	1,378.79
Carpets	1,503.78

Accounts of W. W. Karr, disbursing agent, Smithsonian Institution, have been adjusted as follows:

Preservation of collections, National Museum	$170,083.80
Furniture and fixtures, National Museum	15,388.41
Heating and lighting, National Museum	14,858.29
International exchanges, Smithsonian Institution	20,844.09
Postage, National Museum	980.00
Smithsonian Institution, building repairs	11,573.21
North American Ethnology, Smithsonian Institution	55,863.32
Astro-physicial observatory, Smithsonian Institution	12,238.81
Building, National Museum	2.83
Rent of workshops, National Museum	542.71

Accounts of Commissioner of Patents show that $1,183,523.18 were received during the fiscal year 1894, and deposited with the Treasurer of the United States on account of patent fees.

During the year accounts for transportation over Pacific railroads amounting to $414.11 have been adjusted.

Six hundred and thirty-seven dollars and eighty-eight cents were disbursed by Cosmos Mindeleff, special disbursing agent, Bureau of North American Ethnology, during the year.

I have the honor to be, very respectfully,

THOMAS HOLCOMB,
Fifth Auditor.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

APPENDIX.

(No. 15.)

REPORT OF THE SIXTH AUDITOR.

TREASURY DEPARTMENT,
OFFICE OF THE SIXTH AUDITOR,
Washington, D. C., October 11, 1891.

SIR: The following report presents an account of the transactions of this office, and of the financial operations of the Post-Office Department, during the fiscal year ended June 30, 1894:

In compliance with your order dated January 4, 1894, a reorganization of the business methods of this office has been effected during the fiscal year, based upon the recommendations of the Joint Commission of Congress.

The number of divisions has been reduced from 10 to 7. Two divisions, the examining and the review, have been discontinued, and the business heretofore transacted by them absorbed by the bookkeeping and collecting divisions, in which it is performed with economy and accuracy. Under the present system the work of examining and auditing the postal accounts of postmasters of all classes is assigned to the bookkeeping division, thus avoiding the necessity for a review of the work, except in the case of the discovery of an error on the part of a postmaster. In such cases the work of the auditing bookkeeper is reexamined before it is finally accepted as correct.

The collecting division reexamines accounts in which errors have been discovered by the bookkeeping division, notifies all postmasters of the state of their accounts each quarter, collects balances due the United States, and pays balances due late and present postmasters.

As required by the reorganization, the files of the postal accounts have been so disposed as to place those for the year last past in close proximity to the clerks who need to have recourse to them in their work. This arrangement, which was accomplished after considerable labor, is found very satisfactory, as it discontinues the system of briefing data of previous settlements upon jackets of account, which consumed much time.

The general effect of the change of system as it relates to auditing the postal account is beneficial, in that it has diminished the number of clerks without the loss of any check material to accurate auditing, provided that the force of clerks engaged upon the work is kept to a high degree of accuracy and proficiency. I have endeavored to weed out the negligent and inaccurate, and the force now employed upon the postal account performs the work conscientiously and with accuracy. The number of persons through whose hands accounts are passed is

lessened, thus hastening settlements, and the number of records required to be kept is reduced without impairing the resources of information regarding accounts necessary for future reference.

The pay division as at present organized audits the accounts of all classes of mail transportation and miscellaneous expenses of the postal service, and performs, with a less number of clerks than were formerly engaged in the review division upon transportation accounts, the work of reviewing settlements, while the standard of accuracy has been fully maintained, if not improved. Care has been taken in reorganizing this division to maintain checks securing accuracy, as payments to the extent of upward of $40,000,000 annually are audited by this division.

The money-order business has been affected by the reorganization commencing July 1, 1894, so as to consolidate the assorting with the checking division. The business of the inspecting division has been most affected by the change. The force of this division has been much strengthened by clerks whose services have been dispensed with on the postal account. The issue of postal notes has been discontinued and money orders limited to $5 substituted. An increase in the number of limited money orders over postal notes heretofore issued is expected by the change. Improvement in method has resulted from dispensing with a separate certificate of deposit for each money-order deposit. Such deposits are now audited by means of transcripts, or lists from the offices receiving them.

The adoption of the new form of coupon money order is of too recent date to admit of any decided statement as to its effect upon the business of this office. I believe, however, that when postmasters become sufficiently acquainted with the manner of handling the new order, and of correctly separating the coupon, which is its prominent feature, it will be approved, and recognized as superior to the forms heretofore in use. Through the inspecting division an extended correspondence with postmasters is in progress, instructing them, when errors are committed in separating the coupon, as to the proper manner of procedure, and inclosing a corrected sample of the money order. If the size of the order were reduced and the quality of paper upon which it is printed improved, it would facilitate handling it in this office, and avoid some of the errors caused by portions of the margin becoming detached. Until the coupons are separated by postmasters with greater accuracy, it will not be practicable to audit by the coupon alone the money orders issued, and it will remain necessary to check the orders with the statements of the issuing offices, as at present.

The inspecting division also transacts a considerable part of the business heretofore in charge of the Superintendent of the Money-Order System of the Post-Office Department. It receives directly from postmasters the weekly, semimonthly, and monthly statements of money-order business, giving them immediate preliminary examination in order to insure the prompt deposit of surplus funds so as to reduce defalcations to a minimum.

Under the act of Congress approved July 16, 1894, authority is vested in the Secretary of the Treasury and the Postmaster-General to cause to be destroyed all paid money orders and postal notes, and all money-order statements which have been filed in this office for ten years or more, and to dispose each year in like manner of one year's files of the oldest date. In conformity with your order 3,000 full mail sacks of money-order vouchers and statements, amounting to 224 tons, covering the period from 1864 to 1884, have been sold to the Antietam Paper Company. The sale has realized about $1,650, and has been of

great advantage, as it has yielded valuable space in the basement of the Union building, so that the money orders and statements for the past ten years, 1884 to 1894, have been arranged by years and States and are now accessible for reference.

The total number of money-order offices in operation on June 30, 1890, was 9,382; on June 30, 1894, the number was 19,529, an increase of more than 108 per cent in four years. More than 6,000 of these were made money-order offices during the first, second, and third quarters of the fiscal year commencing July 1, 1892.

From June 30, 1865, to June 30, 1890, the average annual increase in the number of money-order offices was 358.

From June 30, 1890, to June 30, 1893, the increase per annum was 3,017.

The number was increased during the past fiscal year from 18,434 to 19,529, 1,095 offices being added.

Doubling the number of money-order offices in the short space of time above mentioned, the greater number of which were created during part of one year, has imposed an unusually heavy burden upon the clerical force of the money-order branch of this office. It now has supervision of the financial operation of 20,000 offices, in round numbers, instead of 10,000 in 1890, with an immensely increased number of vouchers to handle, with but little increase in its force. The number of employés engaged in the money-order branch of this office on June 30, 1892, was 270; on October 11, 1894, the number was 304.

The total number of persons on the rolls of this office June 30, 1892, was 477. For the fiscal year ending June 30, 1895, the total number is 488.

During the past fiscal year there has been received by postmasters for money orders and postal notes issued the sum of $165,235,129.35. Upon these vouchers there has been paid by postmasters during the same period the sum of $157,983,566.61. Auditing the vouchers which represent these large amounts of money handled by postmasters, seeing to it that deposits are promptly made, and exercising vigilance to protect the Government from loss by defalcation or otherwise, is the province of this office. This work should be done with the care and accuracy which characterizes the business of well-conducted banking institutions. It can not be hurried, or neglected and allowed to fall in arrears without injustice to postmasters and possibly serious loss to the Government.

When I was placed in charge of this office, April 16, 1894, the work of assorting and checking money orders was more than two years in arrears, with more than thirty-five millions of vouchers unassorted. I have succeeded in reducing that number more than one-half, and the recording division is at this time making a final settlement of the money-order accounts of all late postmasters to July 1, 1893.

It has been my constant care to use every effort to bring up to date the great arrears of work in the money-order branch. Every available clerk who could be detached from other divisions has been employed upon it. Advantage has been taken of periods of comparative inactivity in some divisions between the conclusion of one quarter's work and the commencement of the next to detail the entire force to assort money orders. The corps of clerks engaged upon money orders are working until 5 o'clock—an hour extra each day. By these means the work is in an advanced state, and if continued will be brought up to a current date. When once brought up it will require at least the present force to maintain it in that condition, considering the regular annual increase of the business.

The condition of the entire office is good. The force has been so disposed as to reach the best results from the combined labor of all. Wherever it has become apparent that salaries and capacity or diligence were not justly proportioned, I have recommended the regrading or transposition of compensation. In cases of unfitness, inattention, lack of diligence, or other justifying causes in which I have believed it for the best interests of the office to discontinue the services of employés, I have so recommended.

I have exacted from every employé, so far as it has been in my power to do so, a strict compliance with the rules governing the business of the Department as to attendance, conduct, and diligence, and it is gratifying to be able to report a high standard of discipline conducive to the rendition of a full quota of effective service without unnecessary and annoying restrictions. It is with pleasure that I commend to you the clerks of this office. They have, with scarcely an exception, been zealous for its success and good name. To Mr. W. G. Crawford, Deputy Auditor, to the Chief Clerk, and to the gentlemen who as chiefs so successfully manage the seven divisions of the office, I desire to make acknowledgment. These words are added in all sincerity, not as a customary formula. The hearty coöperation of the entire office force gives good promise for the future.

The following letter addressed to the honorable Postmaster-General in regard to securing more speedy action in the investigation and inspection of the accounts of delinquent postmasters I have attached to this report, in the hope that if it meet with your approval such steps be taken as you may deem requisite to carry its suggestions into effect.

Very respectfully,

Geo. A. Howard,
Auditor.

Hon. J. G. CARLISLE,
Secretary of the Treasury.

(No. 16.)

REPORT OF THE SUPERVISING SPECIAL AGENT.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., November 8, 1894.

SIR: I have the honor to submit herewith a report of the result of the work of the division of special agents during the fiscal year ended June 30, 1894.

Reports and letters written	8,796
Number of arrests for violation of the Chinese exclusion acts	176
Number of arrests for smuggling	143
Number of suits brought	135
Amount involved in suits	$141,135.65
Number of seizures	589
Value of seizures	$175,529.95
Amount recovered on account of seizures, fines, and penalties, and increased duties on account of undervaluations or erroneous classifications discovered	$323,809.53
Reduction of expenses recommended	$98,109.50
Salaries and expenses of special agents	$93,041.00
Number of customs districts examined	80
Number of Chinese deported	201

Appended hereto will be found also a statement of customs business in all the districts and ports of the United States for the same fiscal year, as well as a comparative statement of aggregate receipts and expenses of collection for the fiscal years 1880 to 1894, inclusive.

While the work of the officers of this division has resulted in the payment into the Treasury of a large amount of money, such result does not adequately represent the actual labor performed.

The presence at unexpected times of officers at exposed places on the frontier and on the coast has deterred smugglers from plying their vocation and has compelled observance of lawful methods. The special officer in the performance of his duty frequently has obstacles to contend with, not the least of which is an adverse public sentiment, particularly noticeable at many frontier settlements, where the perpetration of frauds upon the revenue is not looked upon as evidencing any great turpitude. In many instances where seizures and arrests have been made, the persons implicated have escaped merited punishment on mere technicalities. In other cases violations of the laws reported by special officers have been compromised on reports from collectors of customs recommending such action, and owners of goods have been permitted to pay fines equal in amount to the duties. It is probable that in

some instances these recommendations have been made without a thorough and personal investigation of the facts, and upon representations by interested parties. I respectfully suggest that collectors be instructed to examine each case closely before recommending a compromise.

OPIUM SMUGGLING ON THE PACIFIC COAST.

In the latter part of the preceding fiscal year an investigation of alleged methods of smuggling Chinese and opium was begun by officers of this division in the States of Oregon and Washington. This work was continued with the result that a special grand jury was called at Portland, Oreg., July 10, 1893, and on July 15, following, indictments were found against twenty-seven persons, including an ex-collector of customs and a former officer of this force. In October, 1893, another grand jury found additional indictments, making a total of about forty persons charged with conspiracy to illegally import Chinese laborers and prepared opium. The extent of the fraud discovered was so great that it was deemed wise to employ special counsel to assist the U. S. attorney, and at the trials it was established that over 1,500 Chinese laborers and 30,000 pounds of opium had been smuggled into Portland, Oreg., from British Columbia in a period of less than twelve months. Seven of the leading smugglers pleaded guilty and three others were convicted. Two of the latter have appealed their cases to the United States Supreme Court. The proprietors of a steamship company were among the number, as well as an ex-special agent. A decree of forfeiture in the case of the steamship *Haytien Republic* was entered, and it has since been sold by U. S. marshal. The action of the officers of this division has been approved by the subsequent judgment of the grand juries, trial juries, and by the court, which has refused new trials in each case where convictions were secured.

ENFORCEMENT OF THE CHINESE EXCLUSION LAWS.

Strenuous efforts have been made during the year by inspectors appointed to aid in the enforcement of the exclusion laws to prevent the unlawful admission of Chinese into the country, and to secure the arrest and deportation of Chinese who may have come in by fraudulent means.

In many instances after weeks of unremitting labor in the effort to convict persons for evasion of the laws, they have been discharged from custody on testimony that they were members of firms of Chinese merchants. As an evidence of the worthlessness of such testimony it may be stated that in one instance a firm of so-called merchants has ninety-six members, and the value of the stock in trade is by no means commensurate with the size of the firm. It is a common practice among the Chinese laundrymen, who desire to leave the United States and return thereto, to invest $100, sometimes less, in the business of small dealers in Chinese groceries or other merchandise and by this means establish a claim to consideration as merchants. Efforts were made during the past year to correct this abuse. The treaty lately entered into with China which provides for the return to this country of Chinese laborers if ratified will increase the work of special officers, as it is certain that the number of applicants will exceed that of any year since the passage of the first exclusion law in 1882. During the last year 6,840 Chinese made application for admission. Of this number 5,599 were admitted and 1,241 rejected. One thousand one hundred

and sixty-nine Chinese were permitted to pass in transit through the country; 6 of these escaped from the custody of the railroad officials who had them in charge.

EXAMINATION OF CUSTOMS DISTRICTS.

The examination of customs districts has formed no inconsiderable portion of the work of the agents during the year. New officers have been instructed in the performance of their duties, and many irregularities in the administration of the customs corrected. In the examination at one port it was discovered that by collusion between the storekeeper and proprietor of a bonded warehouse the Government had been defrauded of a large amount of duty. Nearly $19,000 were turned into the Treasury as a result of this discovery.

SPECIAL AGENTS IN EUROPE.

The force of special agents in Europe has been strengthened materially during the past year and with good results. They have been actively employed in the investigation of irregular practices in the preparation of invoices covering a great variety of goods shipped to the United States. As a result of their labors the undervaluation of merchandise has been largely checked. The information obtained was promptly placed in possession of consular officers and also transmitted to the board of general appraisers and appraising officers at the several ports in this country. Suit has been instituted in one instance for the recovery of $55,000 and in another for $35,000 on account of duties withheld, the information in both cases being conclusive and furnished by special officers. A seizure of $20,000 worth of jewelry was made on information obtained by one of the officers under the direction of this division. Important investigations, not yet concluded, were instituted during the year with the view of correcting fraudulent practices in the shipment to this country of woolen dress goods from Germany and France. The evil results of the so-called consignment system, by means of which importations were invoiced at the cost to produce rather than at the market value, and the revenue thereby defrauded, have been somewhat lessened.

NECESSITY FOR THE REORGANIZATION OF CUSTOMS SERVICE.

The accompanying statement of the business of the several ports furnishes abundant evidence that there is no commercial necessity for the continuance of custom-house establishments at many places. The greater portion of commerce is now concentrated at the larger ports, and there is practically no other business at many of the ports now established than that pertaining to the documentation of vessels, which may readily be attended to by subordinate customs officers. I am confident that a reorganization of the customs service would secure better administration, while effecting a considerable reduction in expenses. If the Secretary of the Treasury were authorized by law to consolidate customs districts whenever in his judgment the public interests so required, it would be a step in the right direction.

ORES IMPORTED FROM CONTIGUOUS COUNTRIES.

The tariff law provides for the imposition of a duty of three-fourths of 1 cent per pound on lead ores, and a similar rate of duty on lead contained in silver and other ores according to sample and assaying

by commercial methods at the port of entry. No provision has been made for the necessary facilities to comply with the provisions of the law, and it is respectfully suggested that until an appropriation is made for the establishment of plants at the ports of entry on the Canadian and Mexican frontiers at which these ores are introduced it will be impracticable to comply strictly with the law.

DANGER TO THE REVENUE THROUGH THE SO-CALLED ZONA LIBRA.

There is abundant opportunity for the perpetration of frauds on the revenue, not only through the irregular introduction of opium, but of merchandise of a general character from Mexico by reason of the continuance of the so-called Zona Libra. While I am aware that the subject is one which properly belongs to another Department, I may be permitted to suggest that the existence of this zone is not only a menace to our revenue but a discrimination against the honest importers of both the United States and Mexico. The Mexican duties are higher than ours and smuggling into both countries is encouraged. As a protection against this the Mexican Government has stationed guards along the border of the zone on its Mexican side. A similar proceeding on the part of our Government would involve large expense, for which, in my opinion, there should be no necessity. This Zona Libra is not popular among the Mexican people, especially among merchants doing business beyond its limits, and American interests are most seriously affected by its existence; it is respectfully suggested that the subject be called to the attention of the honorable the Secretary of State with the view to the submission of the question of its unfriendly effect upon American interests for the consideration of the representative at this capital of the Republic of Mexico.

ABOLISHMENT OF UNNECESSARY BONDS.

Under present regulations bonds are required from all persons making entry of merchandise for warehouse. These bonds should not, in my opinion, be exacted. The warehouses in which imported goods with duties thereon unpaid are placed are bonded and in charge of customs officers. I see no good reason for requiring a bond from an importer for the payment of duties on goods which are in the custody of the Government. The same suggestion may properly be made as to merchandise withdrawn from bonded warehouse for transportation to another port than that into which it was originally imported. The bond provided for by sections 3000 and 3001, Revised Statutes, is for transportation, and the sections referred to are held to apply to the common carriers who convey the merchandise from place to place and who are required to give satisfactory bonds before they are permitted to engage in such transportation. The owner of the goods has no control over or access to them. The bonded carrier is liable for the duties in the event of failure to deliver, and it would seem that the owner of the goods should be relieved from the necessity for guaranteeing the performance of an action, when he has no power whatever in the premises.

LIQUORS AND FIREARMS IN ALASKA—SEAL AND SALMON FISHERIES.

Special officers for the protection of the seal and salmon fisheries of Alaska are under the direction of the division of special agents, and are required to make reports from time to time on matters pertaining

to their official duties. Instructions for the guidance of customs and other officials of the Treasury Department in Alaska, when based on Executive orders, are promulgated through this division. Frequent requests have been made to the Department for modification of existing regulations pertaining to the introduction of firearms and liquors into the Territory. To such requests adverse replies have been given. Since the date of the passage of the laws referred to, the condition of affairs then existing in Alaska has materially changed, and the native inhabitants are as submissive to law and, through contact with persons engaged in the development of the resources of the Territory, as fully advised of the advantages of civilization as citizens of any other Territory. I am satisfied that the unusual restrictions imposed by the laws in force, and which are not suitable to the present condition of affairs, retard the interests of Alaska. I am aware of no reason why citizens and business men of that Territory should be denied privileges accorded elsewhere in our country, and I therefore recommend such action as may be necessary to remove the discrimination now practiced.

The importation, manufacture, and sale of liquors, except for medicinal, mechanical, and scientific purposes, are now forbidden, but there is abundant reason for the belief that the law is violated and the efforts made to punish persons arrested for such violations have failed because of the refusal of juries to convict offenders. It will be no more difficult to enforce in Alaska laws similar to those prescribed for the government of other Territories than in said Territories. As to firearms the only reason assigned for prohibiting their importation at the time of the passage of the law was the fear of an uprising of the uncivilized inhabitants. If there were ever reasons for the fear referred to they do not exist now and the present condition of the natives is such that firearms are necessary to enable them to provide food for themselves and families.

Respectfully, yours,

J. J. CROWLEY,
Supervising Special Agent.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

APPENDIX.

STATEMENT OF CUSTOMS BUSINESS FOR THE FISCAL YEAR ENDED JUNE 30, 1894.

1894	132,533,105.20	6,747,257.03	5.09

NOTE.—The accounts of receipts and expenditures published by the Register will vary in some cases from the figures above given, for the reason that his statement is made up from warrants issued during the fiscal year, regardless of balances in the hands of officers at the beginning and end of the year. If the accounts of each collector were closed and balances settled at the end of the fiscal year the two statements would agree.

(No. 17.)

REPORT OF THE CHIEF OF THE SECRET SERVICE DIVISION.

TREASURY DEPARTMENT,
SECRET SERVICE DIVISION,
Washington, D. C., November 2, 1894.

SIR: I have the honor to submit herewith the twenty-ninth annual report, containing a summary of results of the work accomplished by the Secret Service Division of the United States Treasury Department during the fiscal year ended June 30, 1894.

The arrests by agents of this division and other duly qualified officers (the latter receiving gratuities of money from the funds of the division for meritorious service) number 687.

The offenses alleged were as follows:

Manufacturing and passing counterfeit paper money	2
Dealing in counterfeit paper money	1
Having in possession and passing counterfeit paper money	6
Passing counterfeit paper money	23
Having in possession and attempting to pass counterfeit paper money	2
Attempting to pass counterfeit paper money	5
Having in possession counterfeit paper money	1
Attempting to pass $2 scrip notes as United States notes	1
Passing $10 flash notes as United States notes	5
Having in possession and passing college-currency notes as United States notes	1
Passing college-currency note as United States note	1
Attempting to pass college-currency note as United States note	1
Passing Confederate States notes as United States notes	3
Attempting to pass Confederate States note as a United States note	1
Attempting to pass Confederate States notes as United States notes, and gilded 5-cent nickels	1
Passing State-bank note as a United States note	1
Manufacturing and having in possession 100-pesos notes, plates, seals, machinery, etc	2
Altering $1 United States Treasury note to represent $5	1
Raising and passing $1 United States notes altered to represent $5	2
Having in possession and attempting to pass $1 United States Treasury notes altered to represent $5	2
Passing $1 United States Treasury notes altered to represent $5	2
Raising and passing $1 United States Treasury notes altered to represent $10	1
Attempting to pass $1 United States Treasury note altered to represent $10	1
Passing $1 United States Treasury note altered to represent $10	1
Raising and passing $1 United States Treasury notes altered to represent $20	2
Altering $1 United States Treasury note to represent $100	1
Having in possession and attempting to pass $2 United States Treasury notes altered to represent $10	2
Passing $5 United States Treasury note altered to represent $50	1
Passing $1 United States silver certificate altered to represent $5	2
Raising and attempting to pass $1 United States silver certificate altered to represent $10	1
Passing $1 United States silver certificates altered to represent $10	2
Attempting to pass $2 United States silver certificates altered to represent $10	2
Passing $2 United States silver cirtificates altered to represent $20	3
Altering $5 United States silver certificates to represent $20	2
Passing $5 United States silver certificates altered to represent $50	1
Attempting to pass $10 United States silver certificates altered to represent $50	2
Raising and passing altered obligations of the United States	4
Passing altered obligations of the United States	4
Raising notes and manufacturing counterfeit coins	1
Making and having in possession plate for $10 United States silver certificate	1

Manufacturing, passing, and having in possession counterfeit coin, molds, etc.	25
Manufacturing and dealing in counterfeit coin	1
Manufacturing and passing counterfeit coin	74
Manufacturing and having in possession counterfeit coin, molds, etc	17
Manufacturing counterfeit coin	49
Manufacturing counterfeit coin and having in possession steel dies for making same	1
Manufacturing and attempting to pass counterfeit coin	1
Having in possession and passing counterfeit coin	69
Passing counterfeit coin	215
Passing and attempting to pass counterfeit coin	8
Having in possession and attempting to pass counterfeit coin	17
Dealing in and having in possession counterfeit coin and molds	4
Attempting to pass counterfeit coin	23
Having in possession counterfeit coin	24
Having in possession and passing counterfeit coin and possessing tools for counterfeiting	4
Having in possession counterfeit coin and molds	6
Attempting to make counterfeit coin	1
Having in possession tools and molds for manufacturing counterfeit coin	15
Having in possession and dealing in molds for manufacturing counterfeit coin	1
Making and having in possession molds for manufacturing counterfeit coin	3
Making and selling molds for manufacturing counterfeit coin	1
Plating and passing counterfeit gold coins	1
Sweating gold coins and having in possession complete outfit	1
Passing sweated coins	1
Impairing and scaling coins	5
Mutilating coins	1
Passing mutilated coins	1
Passing 1-cent coins (plated) for 10-cent coins	4
Attempting to pass 5-cent coin (plated) for $5 gold coin	1
Passing 25-cent coins (plated) for $10 gold coins	1
Personating Government officers	5
Violating United States postal law	1
Using United States mail for fraudulent purposes	1
Intimidating and corrupting United States witnesses	3
Obstructing officer in the performance of his duties	1
Embezzlement from U. S. mint	2
Larceny from the U. S. Treasury	1
Total	687

The judicial disposition of the foregoing cases was as follows:

Convicted and sentenced	151
Convicted, sentence suspended	11
Pleaded guilty and sentenced	116
Pleaded guilty, awaiting sentence	4
Pleaded guilty, sentence suspended	9
Convicted, awaiting sentence	2
Indicted, awaiting trial	59
Not indicted	52
Awaiting action of grand jury	129
Awaiting trial	2
Awaiting examination	2
Acquitted	54
Nolle prosequied	12
Dismissed by U. S. attorney	1
Discharged on personal recognizance	4
Discharged by U. S. commissioner	72
Discharged and held as Government witness	1
Fugitives from justice	3
Adjudged insane and sent to insane asylum	1
Died before action of grand jury	2
Total	687

The fines imposed by the court amounted to $35,091.

The sentences aggregate five hundred and forty-three years seven months and nineteen days.

Seventy-five cases were disposed of during the past fiscal year which were undetermined at the close of the year preceding, to wit:

Convicted and sentenced	30
Pleaded guilty and sentenced	11
Sentence suspended	2
Acquitted	24
Bills ignored by U. S. grand jury	3
Nolle prosequied	5
Total	75

Sentences aggregate seventy-three years, eleven months, and sixteen days. Fines, $5,967.

Of those arrested during the past fiscal year, 24 had been previously arrested for offenses similar to those herein charged against them.

Places of nativity of persons arrested.

United States	376	Poland	1
Italy	36	Sweden	1
Germany	26	Bohemia	1
Ireland	14	China	1
Africa	8	Roumania	1
Canada	8	Cuba	1
Russia	8	Spain	1

Scotland	2	Total	687
Sicily	2		

The following table shows the character and amount (representative value) of altered and counterfeit notes, also counterfeit coins and imitation money, captured and secured by Secret Service agents during the past fiscal year:

United States notes		$5,302.00
Treasury notes		67.00
United States silver certificates		3,078.00
National-bank notes		3,605.00
Altered notes		1,630.00
Fractional currency		260.50
		13,942.50
Imitations and facsimiles of notes		7,358.30
Gold coin	$2,609.50	
Silver coin	7,930.47	
Nickel coin	159.24	
Copper coin	57.25	
		10,756.46
Imitations and facsimiles of coins (toy money)		437,300.00
Total		469,357.26

SUNDRIES.

Miscellaneous imitations of coins (foreign)	13
Gilded 5-cent nickel coins	9
Lithographs of U. S. Department seals	3,009
Large photographs of $1 United States silver certificate	4
Large photographs of United States postage stamps	4
Facsimiles of "World's Fair diploma"	2,591
Pen sketch of $2 silver certificate and postal card	4

PLATES.

Glass for $1 United States silver certificate	2
Glass for $10 United States silver certificate	3
Steel for one-half of $5 United States note	1
Copper for United States seal	1
Zinc for part of $10 silver certificate	1
Glass for United States postage stamps	2
For illustrations of United States and foreign coins	108
For flash notes and cards	6
For facsimiles of "Worlds Fair diploma"	10
Total	134

DIES.

	Sets.
For $5 gold coin	1
For $1 silver coin	2
For 50-cent silver coin	3

MOLDS.

	Sets.
Metal for $1 silver coin	4½
Metal for 50-cent silver coin	3
Metal for 25-cent silver coin	½
Metal for 5-cent nickel coin	4½
Plaster for $20 gold coin	½
Plaster for $10 gold coin	1
Plaster for $5 gold coin	1
Plaster for $1 silver coin	56½
Plaster for 50-cent silver coin	15
Plaster for 25-cent silver coin	26
Plaster for 10-cent silver coin	34
Plaster for 5-cent nickel coin	10
Total	156½

MISCELLANEOUS.

Furnace	1
Lathes and appurtenances	2
Batteries	6
Reeding tools	8
Punches	2
Crucibles	12
Trade checks or tokens	4,478
Ladles	25
Planchets	100

Also a large lot of miscellaneous material consisting of files, melting-pots, tools, metals, etc.

Thirty-six cases of back pay and bounty were investigated by this service for the Second Auditor of the United States Treasury.

For the Third Auditor of the United States Treasury eight claims, aggregating $4,771.35, made by various persons for reimbursement of expenses incurred in the last sickness and burial of deceased pensioners, have been investigated. The amount of these allowed by the Auditor was $2,712.88, being a gross saving to the Government of $2,058.47.

In addition to the foregoing, miscellaneous work has been performed by this service for other departments of the Government.

The events of the past fiscal year furnish evidence of great activity among counterfeiters. The number of arrests reported largely exceed those of any previous year in the history of this service.

Because the figures show a decrease in the amount of counterfeit notes captured it must not be inferred that counterfeiting paper money is on the decrease. The past year has been prolific in counterfeits of both the notes and coins of the United States.

Upon assuming the duties as chief February 1, 1894, I found the appropriation nearly exhausted. Upon your recommendation an additional sum of $10,000 was appropriated, making the total amount $61,000, thus enabling the operations of the service to be carried on to the close of the fiscal year, with the good results shown in the above-tabulated statement.

The following new counterfeit notes have appeared during the year:

In September, 1893, a counterfeit $100 United States note, series of 1880, check letter B, W. S. Rosecrans, Register, and J. N. Huston, Treasurer. This note was executed with pen and brush, and would deceive even careful handlers of money. Only one has been seen.

In October, 1893, a counterfeit $20 United States silver certificate, series 1880, check letter A, B. K. Bruce, Register, A. U. Wyman, Treasurer, made its appearance. This note was very badly executed. The maker was captured in Pittsburg, Pa., within a month, and is now serving a six-year-and-eight-month sentence.

In October, 1893, a new counterfeit note appeared. It was a $5 United States silver certificate, series of 1891, check letter C, W. S. Rosecrans, Register, E. H. Nebeker, Treasurer. It was a badly executed wood-cut production which should not deceive anyone. Only a few have been seen.

In December, 1893, another pen-made $100 note was found in circulation. This was of the issue of Treasury notes, series 1890, check letter B, W. S. Rosecrans, Register, J. N. Huston, Treasurer. Like the $100 United States note, series 1880, above-mentioned, this was a marvel of good workmanship, but the manner of its production makes the supply very limited. The one note is all that has been found.

In January, 1894, a counterfeit $10 note on "The National Bank of Vergennes, Vt.," check letter B, B. K. Bruce, Register, C. N. Jordan, Treasurer, appeared. This was a photographic production and not dangerous. Only one note has appeared.

During March, 1894, a dangerous counterfeit of the $2 Treasury note, series 1891, check letter C, W. S. Rosecrans, Register, E. H. Nebeker, Treasurer, was discovered. This note was well executed and printed on paper containing distributed silk threads. Only one has been found.

A counterfeit $1 United States silver certificate, series of 1891, check letter A, J. Fount Tillman, Register, D. N. Morgan, Treasurer, appeared in March, 1894. This note was printed from an etched plate of fair workmanship on paper containing distributed silk threads. But few have been seen in circulation.

In April, 1894, companion photographic counterfeits appeared, one a $10 note on the "Fort Worth National Bank, of Fort Worth, Texas,"

check letter C, B. K. Bruce, Register, A. U. Wyman, Treasurer; the other a $20 note on the "First National Bank of Bowie, Texas," check letter A, W. S. Rosecrans, Register, J. N. Huston, Treasurer. Only about half a dozen of these notes were placed in circulation, all in the city of Fort Worth and State of Texas.

A counterfeit $20 United States note also appeared in April, 1894; this was of series 1880, check letter C, W. S. Rosecrans, Register, James W. Hyatt, Treasurer. Was probably printed from a wood-cut plate and is not dangerous. Only two have been seen.

Again in April, 1894, appeared companion photographic counterfeit notes, one a $5 note on the "Derry National Bank, of Derry, N. H.," check letter C, B. K. Bruce, Register, A. U. Wyman, Treasurer, and the other a $20 note on the "South Bend National Bank, of South Bend, Ind.", check letter A, W. S. Rosecrans, Register, J. N. Huston, Treasurer. The former was found to be quite dangerous considering the manner of its production. The paper used was two pieces pasted together with distributed silk between them. The maker of these notes is now awaiting trial.

About May 1, 1894, another counterfeit $2 Treasury note, series 1891, check letter B, J. Fount Tillman, Register, D. N. Morgan, Treasurer, was discovered. This note was probably substituted for the one bearing check letter C, W. S. Rosecrans, Register, E. H. Nebeker, Treasurer, which appeared in March, 1894, and, like it, was printed on paper containing silk threads and considered exceedingly dangerous, but since the arrest of two men in Scranton, Pa., on May 4, 1894, for passing them, they have ceased to appear.

In May, 1894, also appeared a counterfeit $5 silver certificate, series 1891, check letter C. J. Fount Tillman, Register, D. N. Morgan, Treasurer. This note was printed from a lithograph stone. The maker and two confederates have been captured, together with $1,015 in notes, the plates, and other paraphernalia.

In June, 1894, a conspiracy was discovered in Hamburg and Leipzig, Germany, for counterfeiting $5 United States silver certificates, series 1891, check letter A, W. S. Rosecrans, Register, E. H. Nebeker, Treasurer, and £5 Bank of England notes, and all the parties connected therewith arrested, and the plates, presses, etc., together with about $300,000 in United States and $200,000 in English notes captured. None of these notes were brought to this country.

A counterfeit $5 Treasury note, series 1891, check letter A, W. S. Rosecrans, Register, E. H. Nebeker, Treasurer, also appeared in June, 1894. The faulty workmanship of this note accounts for its very limited circulation.

The art of photolithography, however, although seemingly in its infancy, has made it comparatively easy to imitate the most skillfully engraved designs of our notes, so that the danger from this source is not only very grave, but increasing; and to meet these conditions the designs and execution of Government notes should be such as would make their reproduction most difficult. One safeguard still remaining, however, is the secret process of making distinctive paper.

Coin counterfeiters are more numerous than formerly, and more than the usual number of arrests and captures of material have been reported. This branch of counterfeiting, however, is more serious in its results to the community than that of the making of spurious notes and much less difficult of detection. No evidence of advancement in the art of manufacturing counterfeit coin has been shown. Of the

numerous counterfeits of the silver coins which have appeared during the past year, none can be classed as especially dangerous.

The figures show a decided increase in the receipt of altered notes during the fiscal year. The arrests of persons charged with altering and passing notes are largely in excess of any previous year, and is due to the promptness of the agents of this service in thoroughly investigating all cases reported to them.

Among the most important arrests of this class of operators were M. T. Paulson at Denver, Colo., on September 16, 1893, and S. J. Freeland and his wife, Belle, at Chicago, Ill., on November 15, 1893. These people were artists in this line of work, and the community is to be congratulated that they are now serving terms in prison.

On February 1, 1894, I found the banking interests deeply concerned over the great number of light-weight gold coins in circulation.

These coins had been impaired by a new and ingenious method, namely: The milled or corrugated rim of the coin had been removed, decreasing its value about 5 per cent, new milling was then put on and the coin, to all appearances, made perfect. I immediately put agents to work, with the result that all of the guilty persons are now serving terms in States prison. One man was arrested in Sioux City, Iowa, on March 19, 1894, and, after trial, was sentenced to imprisonment for eighteen months; another and his wife were subsequently arrested in Baltimore, Md., and sentenced to four years and six months, respectively, under section 5459, Revised Statutes. In both instances a lathe and complete set of tools were captured. Since these arrests were made coins lightened in the manner above described have ceased to appear.

In the prosecution of these cases I was greatly surprised to learn that there is no law to punish uttering or passing such lightened or debased coins, knowing them to be such. I therefore earnestly recommend the passage of an act making it a felony to mutilate United States coins, or to utter, pass, or attempt to pass such coins, and ask that section 5459 of the Revised Statutes of the United States be amended to read as follows:

> Every person who fraudulently, by any art, way, or means, defaces, mutilates, impairs, diminishes, falsifies, scales, or lightens, or causes or procures to be fraudulently defaced, mutilated, impaired, diminished, falsified, scaled, or lightened, or willingly aids, or assists in fraudulently defacing, mutilating, impairing, diminishing, falsifying, scaling, or lightening the gold or silver coins which have been, or which may hereafter be, coined at the mints of the United States, or any foreign gold or silver coins which are by law made current or are in actual use and circulation as money within the United States, or who passes, utters, publishes, or sells, or attempts to pass, utter, publish, or sell, or bring into the United States from any foreign place, knowing the same to be defaced, mutilated, impaired, diminished, falsified, scaled, or lightened, with intent to defraud any person whatsoever, or has in his possession any such defaced, mutilated, impaired, diminished, falsified, scaled, or lightened coin, knowing the same to be defaced, mutilated, impaired, diminished, falsified, scaled, or lightened, with intent to defraud any person whatsoever, shall be imprisoned not more than five years and fined not more than two thousand dollars.

Owing to the increased activity of counterfeiting operations, as hereinbefore mentioned, and finding that the appropriation which sustains the field force of this division provided for the investigation of frauds committed against the pay and bounty laws, and for the investigation of claims for reimbursement of expenses incident to the last sickness and burial of deceased pensioners, as well as violations of section 5209 of the U. S. Revised Statutes, I, on April 19, 1894, submitted for your

consideration and recommendation to Congress the following draft of an act to be substituted for the one then being considered:

SUPPRESSING COUNTERFEITING.

For expenses incurred under the authority or with the approval of the Secretary of the Treasury, in detecting, arresting, and delivering into the custody of the U. S. marshal having jurisdiction dealers and pretended dealers in counterfeit money, and persons engaged in counterfeiting Treasury notes, bonds, national-bank notes, and other securities of the United States and of foreign governments, as well as the coins of the United States and of foreign governments, and for no other purpose whatever, $60,000: *Provided*, That no part of this amount be used in defraying the expenses of any person subpœnaed by the United States courts to attend any trial before a United States court, or preliminary examination before any U. S. commissioner, which expenses shall be paid from the appropriation for "Fees of witnesses, United States courts."

Congress adopted said recommendation in so far as to do away with the investigation of violations of section 5209 of the Revised Statutes, but still left to this division the investigation of frauds against the pay and bounty laws and claims for reimbursement above mentioned.

It is impossible with the limited amount of funds at present available to give the proper attention even to violations of the laws relating to counterfeiting (the legitimate work of this service), and I therefore earnestly request that you again recommend to Congress the passage of the above-worded act making appropriation for the suppression of counterfeiting, substituting therein $100,000 in lieu of "$60,000," the former amount being that included in my estimate of expenses for the fiscal year 1895–1896, and which amount I consider as actually necessary for the satisfactory accomplishment of the work requiring the attention of the operatives of this division.

In my estimate of expenses I have asked for a sufficient amount to admit of the employment of another clerk at $1,600.

The great and increasing value of the work of the agents of this division is not generally understood, from the very nature of our work, which is always of a secret character; but its record leads me to the belief that, with proper encouragement and occasional increases in numbers, it can be made one of the most effective organizations of its kind in the world.

I trust I have made sufficiently explicit explanation of the requirements for the increase in the amount of the appropriation asked for.

Respectfully submitted.

WM. P. HAZEN,
Chief.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

(No. 18.)

FREE ALCOHOL IN THE ARTS.

Letter of Hon. Joseph S. Miller, Commissioner of Internal Revenue to Hon. John G. Carlisle, Secretary of the Treasury.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., November 28, 1894.

HON. JOHN G. CARLISLE,
Secretary of the Treasury, Washington, D. C.

SIR: In compliance with your request I have the honor to inclose herewith copies of correspondence concerning the provision in the tariff bill of August 28, 1894 (section 61), relative to the use of alcohol in the arts free of internal-revenue tax.

You will observe by my letter of July 6, 1894, copy herewith, that the loss of revenue through the operation of this law is estimated to be about $10,000,000 annually. I am of the opinion at this time that the above estimate is not excessive if all manufacturers who use alcohol in the arts, or in any medicinal or other like compound, should avail themselves of the privilege accorded by the law to use it free of tax.

I have found it impossible to estimate the expense of supervising this matter with any degree of accuracy. It is found, however, in order to prevent fraud and to arrive at the amount of tax to be refunded to persons who use alcohol in the manner provided, that the services, in a sufficient number, of officers whose duties are similar to those of storekeepers, or storekeepers and gaugers, are needed. There are about 1,600 distilleries in the United States requiring the services of some 1,200 storekeepers and gaugers, and 650 storekeepers who gauged last year 242,626,324 gallons of distilled spirits at an expense of $1,200,000, these officers being paid at the rate of compensation ranging from $2 to $4 per day. If the regulations were so framed as to exclude small manufacturers from the benefits of the law, it is fair to presume that there would be, even then, as many manufacturers as there are distillers, viz: 1,600.

Perhaps these officers might serve these manufacturers in a more economical manner than the distillers; but even making a large allowance for this advantage, it seems impossible to supervise this business at an expense of less than $500,000.

The number of druggists in the United States was stated in my letter of August 25, 1894, to be 200,000. This statement was made upon information which has since been found to be unreliable. The latest information I have in this matter is to the effect that the number is only 60,000.

I also inclose herewith a draft of proposed regulations in this matter, drawn at your request in the early part of September, 1894.

There are five letters addressed to you herewith, bearing dates as follows: July 6, 1894; August 25, 1894; August 27, 1894; October 3, and October 5, 1894. Copies of two letters from you, dated, respectively, October 5 and 6, 1894, are also inclosed. This is believed to be all the correspondence between the two offices in this matter.

Respectfully, yours,

JOS. S. MILLER, *Commissioner.*

REGULATIONS FOR THE ALLOWANCE OF REBATE OF INTERNAL-REVENUE TAX ON ALCOHOL USED IN THE ARTS AND IN THE MANUFACTURE OF MEDICINAL OR OTHER LIKE COMPOUNDS.

TREASURY DEPARTMENT,
Washington, D. C., ——— ——, *1894.*

Section 61 of the act of Congress of August 28, 1894, entitled "An act to reduce taxation, to provide revenue for the Government, and for other purposes," provides:

> Any manufacturer finding it necessary to use alcohol in the arts, or in any medicinal or other like compound, may use the same under regulations to be prescribed by the Secretary of the Treasury, and on satisfying the collector of internal revenue for the district wherein he resides or carries on business that he has complied with such regulations and has used such alcohol therein, and delivering up the stamps which show that a tax has been paid thereon, shall be entitled to receive from the Treasury of the United States a rebate or repayment of the tax so paid.

DEFINITIONS.

ARTICLE 1. The word "*manufacturer*" as employed in the statute above quoted is held to mean any person who, having an established place of business, manufactures, *for wholesale only*, articles in which alcohol is either a necessary constituent or is necessarily used in the process of manufacturing such articles, *except* spirituous liquors or other alcoholic compounds, intended or used as a beverage.

Under this construction rectifiers, compounders, or other persons manufacturing any of the articles last referred to will not be regarded as *manufacturers* within the contemplation of the statute named.

ARTICLE 2. The word "*alcohol*" is held to be distilled spirits of an alcoholic strength of not less than one hundred and eighty-eight per centum of proof spirits, as defined by section 3249, of the Revised Statutes of the United States; and which have been branded and deposited in the distillery warehouse as *alcohol.*

ARTICLE 3. The word "*arts,* "as above used, is held to apply only to the manufacture of articles (other than spirituous liquors) where the process of manufacture requires the use of alcohol, and where the alcohol used is either a component part of the manufactured article or is necessarily destroyed or lost in the process of such manufacture. Under the construction here given no rebate of tax will be allowed where the alcohol used, and not remaining incorporated with the manufactured article, is recoverable by distillation, filtration, or by any other process. Also where its use is not necessarily a part of the process of manufacture; as, for instance, when used for heating, drying, or other like purposes.

Nor will such rebate be allowed on alcohol used in laboratories (except as herein provided) or in any experimental work whatever.

ARTICLE 4. The words "*medicinal or other like compounds*" are held to be articles, preparations, or compounds prepared according to the directions of the United States or other national pharmacœpia, or according to published formulas in common use among physicians or apothecaries in the United States; also medicinal preparations prepared according to private formulas, when advertised, sold, and used solely as specifics or remedies for certain diseases or bodily ailments defined and treated in standard medical works of this country.

Under this construction no rebate of tax will be allowed on alcohol used in the manufacture of proprietary articles, wines, cordials, bitters, or other alcoholic compounds which are sold or used as a beverage or

as a substitute therefor, or which, in the opinion of the Commissioner of Internal Revenue, are intended to be or may be so sold or used.

MANUFACTURERS TO FILE NOTICE AND TO GIVE BOND.

ARTICLE 5. Where rebate is to be claimed under the foregoing provision of law on alcohol used in the manufacture of articles the manufacturer will, before obtaining the alcohol, file with the collector of Internal Revenue of the district in which the manufactory is situated a notice in duplicate in the following form:

[Form —]

[Alcohol to be used for manufacturing purposes.]

Notice is hereby given that we ——— ———, under the name and style of ———, are engaged (or intend to engage) in the business of manufacturing at the place herein designated the following-named articles, and that application will hereafter be made under the act of Congress of August 28, 1894, for rebate of the internal-revenue tax paid on the alcohol used in the manufacture of said article.

1. Location of premises.
2. Name and residence of owner of premises.
3. Name and residence of every person interested in the business to be carried on at said premises.
4. Description of all buildings on said premises, and purpose for which each is to be used.
5. Number and kind of stills, and capacity of each.
6. Number and kind of condensers.
7. Particular description of building or room to be used exclusively for the storage of alcohol.
8. Amount of capital now invested in the business carried on at said premises.
9. Number of persons employed on said premises.
10. Distance of premises to nearest rectifying house, or premises of a wholesale or retail liquor dealer.
11. Whether either of the above-named parties have been, or are now, or intend to be during the ensuing year, interested in the business of manufacturing, rectifying, compounding, or selling alcoholic liquors, or compounds which may be used as a beverage.
12. Whether any of the articles below enumerated, or any articles heretofore manufactured by the parties, or either of them, were sold by them, or either of them, to any rectifier, wholesale liquor dealer, or retail liquor dealer during the year preceding the filing of this notice.
13. Description and estimated quantity of articles to be manufactured on said premises during the ensuing year, ending June 30.

Articles.		Alcohol at 188° proof.			
Name of each.	Quantity of each.	Quantity to be used.	Quantity to be recovered.	Loss by free evaporation.	To remain incorporated in article.
		Proof galls.	*Per cent.*	*Per cent.*	*Per cent.*

14. List of articles to be manufactured on premises, as to which *no* alcohol will be used in the manufacture thereof.
15. Estimated quantity of alcohol required for a period of three months, ——— proof gallons.
16. Estimated quantity to be used each day manufactory is operated.
17. Quantity of alcohol used at said manufactory during the year last preceding the filing of this notice, ——— proof gallons.
18. Formula by which each article above named is to be manufactured, except drugs and other medicinal preparations, prepared according to published formulas, ——— ———.

STATE OF ———, *County of*———.:

Personal appeared the above named, ——— ———, who, being first duly sworn, depose- and say-, that the statements contained in the foregoing notice are true; that the alcohol on which a rebate of internal-revenue tax is to be claimed will be used solely for the purposes and in the manner above stated; that they will not remove or permit to be removed from the premises above described any portion of the alcohol thereon stored and not used for the purposes above specified; that they will from time to time, as may be required, truly account for all alcohol received or remaining on said premises, and all alcohol used by them, and for all articles manufactured by them or removed from their said premises; and they will give due notice to the collector of internal revenue for the district in which said premises are located of any intended change, either as to the kind of articles to be manufactured by them or as to the process to be employed in the manufacture thereof, and that they will at all times keep the said premises, and all buildings thereon, open to the inspection of any internal-revenue officer, and will allow such officer to examine the process by which the alcohol is used in the manufacture of any of said articles, or is recovered during or after such process of manufacture; and will at all times furnish, for examination or analysis, samples of any articles stored on said premises as may be selected by said officer.

——— ———.
——— ———.

Sworn to before me this —— day of ———, 1894.

——— ——— [SEAL.]

(In case of a firm or company (not incorporated) the notice must be signed and sworn to by each member. In case of an incorporated company the notice will be signed and sworn to by a duly authorized officer of the company.)

ARTICLE 6. A renewal notice will be required of each manufacturer on the first day of July in each year, except where an original notice has been filed within 30 days prior to that date. Also, in case of change in the ownership of the premises described, or in case of any material change in the producing capacity of the factory, or in the construction or arrangement of any still or condenser on the premises, and at such other times as may be required by the Commissioner of Internal Revenue or the collector of the district.

ARTICLE 7. The bond to be filed by the manufacturer will be in duplicate and in the following form:

[Form —.]

MANUFACTURER'S BOND.

[Alcohol to be used for manufacturing purposes.]

Know all men by these presents, that we, ——— ———, as principal—, and ——— ——— and ——— ———, as sureties, are held and firmly bound unto the United States of America, in the sum of ——— dollars, for the payment whereof to the United States we bind ourselves, our heirs, executors, and administrators, jointly and severally firmly by these presents.

Witness our hands and seals at ———, this —— day of ———, 189—.

Whereas the above bounden principal- intend- to manufacture certain articles on the premises owned, or to be occupied by them, and located at ———, county of ———, State of ———, and to use in the manufacture of said article alcohol on which a rebate of the internal-revenue tax will be claimed under the provisions of an act of Congress of August 28, 1894.

Now, therefore, the condition of this obligation is such that if the said principal shall, as to all such alcohol received, or remaining on the said premises, use the same solely in the manufacture of said articles, and in the manner described in their notice filed with the collector of internal revenue for the —— district of ———, and shall from time to time, and in the manner required by regulations issued pursuant to said act, truly account for all alcohol received, used, or remaining on said premises, and for all articles manufactured or removed from said premises; and shall likewise comply with all other requirements of said regulations, then this obligation to be void; otherwise to remain in full force and virtue. And the obligors for themselves, their heirs, executors, administrators, and assigns, do further covenant and agree with the United States in case the said principal, his agents or employees, shall use or remove from the aforesaid premises, or permit to be used or removed, any alcohol otherwise than as above specified and authorized by the aforementioned act and reg-

ulations, or shall fail or neglect to do or cause to be done any of the acts or things hereinbefore specified, or required by said act and regulations, or shall claim, or seek to obtain, a rebate of tax on any alcohol not used for the purposes specified in their notice and in their application for rebate, well and truly pay or cause to be paid to the collector aforesaid double the amount of tax on spirits so used or removed or on which such rebate of tax is wrongfully or fraudulently claimed, and a penalty of $2,000 in addition thereto.

——— ——— [L. S.]
——— ——— [L. S.]
——— ——— [L. S.]

ARTICLE 8. In preparing the bond the following instructions must be particularly observed and complied with, viz:

1. The Christian names must be written in the body of the bond in full, and so signed to the bond, and the execution must be duly acknowledged by each of the signers before the collector or deputy collector, or an officer authorized to take the acknowledgment of deeds. When a bond is signed by an officer of a corporation the seal of the corporation must be affixed, and evidence of the authority of the officer to sign and to affix the seal filed with the collector and Commissioner of Internal Revenue.

2. The residence of each signer must be stated in the bond.

3. A seal of wax or wafer must be attached to each signature.

4. Each signature must be made in the presence of two witnesses, who must sign their names as such.

5. The bond must be properly dated, and signed by at least *three* sureties (unless signed by an incorporated security company, duly qualified and approved), who must qualify (in real estate only) in an amount of not less than double the penal sum of the bond.

6. The sufficiency of the sureties should be shown by affidavits made on form 33.

7. The penal sum of the foregoing bond must at least equal double the amount of tax on the quantity of alcohol to be stored on the manufacturer's premises at any one time, and in no case be less than $5,000.

RENEWAL BOND.

ARTICLE 9. A renewal bond will be required upon the renewal of the manufacturer's notice, as provided in article 6, and in case of death, insolvency, or removal of the sureties, and at such other times as the Commissioner of Internal Revenue may direct.

STOREROOM.

ARTICLE 10. The manufacturer will, before filing the foregoing notice and bond, provide a suitable room or building on his premises, to be used solely for the storage and safekeeping of all alcohol received or recovered by redistillation on said premises. The windows in such room or building will be provided with solid shutters with secure iron fastenings; and where a room is provided in a building to be used for any purpose other than the storage of such spirits, such room must be separated from all other rooms in the building by a solid brick or plank partition, as in the case of distillery warehouses.

The storeroom so provided will be secured by a Government seal lock, and will remain in the joint custody of the manufacturer and the officer assigned to the manufactory (article 19), and must in no case be unlocked or remain open, unless in the presence of that officer or some person regularly designated to act in his absence and having the key to the Government lock.

RECEIVING TANKS.

ARTICLE 11. In order that an accurate account may be kept of the alcohol used in the manufacture of *each* article, the manufacturer will, before obtaining the alcohol, provide suitable tanks or other vessels for the storage of alcohol removed each day from the storeroom, as provided in article 25. Each tank or vessel to be so used must have marked thereon, in plain letters, the name of the particular article which will be manufactured from the alcohol stored therein; and in no case must the name of more than one article be marked on any one tank.

MANUFACTURER'S PREMISES TO BE INSPECTED BEFORE APPROVAL OF HIS BOND.

ARTICLE 12. Upon the receipt of the foregoing notice and bond, the collector will carefully investigate the statements contained in the notice, and as to the sufficiency and responsibility of the offered sureties.

He will also have the manufacturer's premises inspected by a deputy collector, who will see that all regulations have been strictly complied with respecting the construction and arrangement of the storage room, and that the statements contained in the manufacturer's notice as to the location of the premises and as to the character of the business to be carried on at the premises are true. The deputy will make report of his inspection in writing to the collector, who will, if satisfied therewith, and with the notice and bond, indorse his approval on each of the papers and forward the duplicate notice and bond, together with the report of the deputy, to the Commissioner of Internal Revenue for review.

ARTICLE 13. The collector will, however, refuse to approve the notice and bond if in his judgment the parties filing the same intend to engage in business other than specified in their notice, or to fraudulently use any portion of the alcohol obtained by them.

In case the collector refuses to approve the notice and bond the manufacturer may appeal to the Commissioner, whose decision in the matter shall be final.

LICENSE.

ARTICLE 14. Upon the acceptance of the notice and bond by the Commissioner of the Internal Revenue, a license in the following form will be issued to the manufacturer and forwarded to him through the collector of the district:

No. ——.] LICENSE. [Form No. ——.

[Alcohol to be used for manufacturing purposes.]

TREASURY DEPARTMENT,
Washington, D. C., ——— ——, *189—*.

——— ———, manufacturer, having filed the required notice and bond, is authorized, on payment of the internal revenue tax, to withdraw from distillery warehouse, or general bonded warehouse, during the year ending June 30, 189—, ——— proof gallons of alcohol, to be immediately removed to the said manufacturer's premises, located at ———, in the State of ———, and there used solely for manufacturing purposes as specified in said notice and as authorized by the act of Congress of August 28, 1894.

———— ————,
Secretary (or Commissioner.)

Each license will bear a serial number, which will be used to designate the manufactory named in the license.

WITHDRAWAL OF ALCOHOL FROM BONDED WAREHOUSE.

ARTICLE 15. The alcohol to be used under the foregoing provisions of law must be shipped directly from a distillery warehouse or general bonded warehouse to the manufacturer's premises; and, on making application for such withdrawal, the license issued to the manufacturer will be submitted to the collector of the district in which the warehouse is located, who will, upon the withdrawal of the alcohol, endorse upon the license in the columns provided for that purpose the quantity so withdrawn, the date of withdrawal, and the serial number of the packages. Under this requirement no rebate of tax will be made on any alcohol used for manufacturing purposes and not withdrawn from bonded warehouse as herein provided.

ARTICLE 16. On receipt of an application for withdrawal of alcohol under the license issued, the collector will instruct the officer gauging the spirits to mark upon each package the words "*For manufacturing purposes;*" and the collector will, in issuing the taxpaid stamps for such spirits, and until suitable branding stamps are furnished, write across the face of such stamp the words "*For manufacturing purposes, under act of August 28, 1894.*"

ARTICLE 17. Except as to the additional brand above prescribed, the packages containing the alcohol will be marked, branded, and stamped, as required in other cases of withdrawal, upon payment of tax.

In affixing the taxpaid stamps on such packages the gauger will, however, instead of pasting the entire stamp to the head of the package, paste only that portion to which a slip of paper has already been attached, so that the officer assigned to the manufacturer's premises may remove such stamps and attached coupons without mutilating the same. Such stamps, however, must in all other respects be fastened (tacked) to the packages, canceled, and varnished, as required by existing regulations.

ARTICLE 18. Upon the withdrawal of the alcohol from the warehouse, the collector will note such withdrawal upon the manufacturer's license, as above required, and will then forward the license to the collector in whose district the manufacturer's premises are situated, who will, after noting the withdrawal on the records of his office, deliver the license to the manufacturer.

ASSIGNMENT OF OFFICER TO MANUFACTURER'S PREMISES.

ARTICLE 19. Upon receipt of the alcohol so withdrawn, the manufacturer will at once notify the collector of the district who will assign to the manufacturer's premises such officer as may be authorized by law for that purpose. Such officer must in every case be thoroughly informed on the subject of gauging distilled spirits, and should be selected with reference to the business to be carried on at the premises to which he is assigned.

The officer so assigned must be in daily attendance at the manufactory while in operation, and in case the manufactory is to be operated at night, the collector will, on notice thereof, assign an additional officer for duty at such times.

DUTIES OF OFFICERS.

ARTICLE 20. The officer so assigned to duty will at once carefully gauge the alcohol received by the manufacturer, and note any discrepancy, either outage or excess, between the actual contents of each pack-

age and the marks and brands thereon. He will then have the regauged packages immediately removed to the storeroom, and will under no circumstances allow any portion of such alcohol to be removed therefrom except as herein authorized. The officer will likewise gauge and store all alcohol subsequently received on the manufacturer's premises.

The officer will also keep a daily record of all alcohol received on the premises, and the quantity delivered each day to the manufacturer, and he will inspect all articles received on the manufacturer's premises and all articles removed therefrom. He will familiarize himself with the process of manufacture carried on at the premises, so far as relates to the use of alcohol or its recovery during the manufacturing process, and he will at once report to the collector and Commissioner of Internal Revenue any violation of the regulation issued on the subject, or any matter connected with business as carried on by the manufacturer, which, in his judgment, indicates a fraudulent use of the alcohol on which rebate is claimed. (For instructions as to the methylation of alcohol in certain cases, see art. 21.)

The officer will at such times, or when so required, select samples of the manufactured articles, and forward the same to the Commissioner for examination and analysis, and he will see that all labels and outside wrappers used on the manufactured article have printed thereon the notice prescribed in article 26 of these regulations before such articles leave the manufacturer's premises. (For form of monthly report of officer, see article 29.)

METHYLATION.

ARTICLE 21. Where alcohol is to be used in the manufacture of articles other than medicinal preparations, or other like compounds, such alcohol must be first methylated by the manufacturer and in the presence of the officer before being removed from the storeroom. The methyl (wood-alcohol) must be provided by the manufacturer and must be of standard strength, and will be added to the tax-paid alcohol in the proportion of one to ten (i. e., one wine gallon of methyl to ten wine gallons of tax-paid alcohol), or in a larger proportion if required by the Commissioner of Internal Revenue.

The methyl to be so furnished must also be deposited in the storeroom (article 10), and a sample of each lot received must be furnished to the Commissioner, and be approved by him, before being used as above provided.

DELIVERY OF ALCOHOL FROM STOREROOM.

ARTICLE 22. When the manufacturer has occasion to use the alcohol so stored, the officer will deliver the same to the manufacturer in quantities not exceeding that required for immediate use during a period of twenty-four hours.

The gauger will carefully gauge or measure the alcohol so delivered, and will see that the same is immediately placed in the tanks bearing the name of the article to be manufactured.

When the alcohol so removed is to be placed in two or more tanks the gauger will note the quantity placed in each of such tanks. He will, however, in no case deliver alcohol from the storeroom if the manufacturer has on his premises any alcohol not withdrawn from warehouse as hereinbefore provided.

ARTICLE 23. In removing alcohol from the storeroom the same must be taken from the packages in the order the packages are numbered, commencing with the lowest serial number; and no alcohol shall be

removed from a package until the entire contents of the package bearing the next lowest serial number has been entirely emptied.

ARTICLE 24. As soon as the entire contents of a package have been removed the officer will carefully detach the tax-paid stamp and annexed coupons and retain the same in his possession until the manufacturer has prepared and signed his application for rebate of the tax represented by such stamps, at which time the officer will, after verifying the application by his records and appending his certificate thereto (article 33), deliver such stamps to the manufacturer.

USE OF ALCOHOL.

ARTICLE 25. The alcohol so delivered to the manufacturer, and after being deposited in the proper tanks, may be used for the purposes as specified in the manufacturer's notice, and for no other purpose. No portion of the alcohol deposited in one tank shall be used for any purpose other than in the manufacture of the article as marked on that tank; and no tank shall be marked with a name of more than one article to be manufactured.

The quantity of alcohol deposited each day in each of such tanks, and the quantity removed therefrom each day, must be carefully noted and entered on the record prescribed in article 28.

The manufacturer will also enter on said record the quantity of each article manufactured each day and the quantity of each removed for consumption or sale.

ALL PACKAGES TO BE LABELED.

ARTICLE 26. All manufactured articles containing alcohol on which a rebate of tax is to be claimed must have affixed to each bottle or package containing the same a registered label showing the quantity of alcohol contained therein. Such label will be in the following form, and must be printed on the manufacturer's label affixed to each such bottle or package, and also on the outside wrapper inclosing such bottle or package. The label to be used must be first submitted to the Commissioner of Internal Revenue for approval and registry.

NOTICE.

The article to which this label is affixed contains ———* per cent of alcohol on which REBATE OF INTERNAL REVENUE TAX has been claimed.

Registered. No. ——. ———— ————, *Manufacturer.*

*Number to be here inserted. If methylated alcohol is used, the word *methylated* will also be inserted.

ARTICLE 27. The label above prescribed must be at once affixed to all such articles, and a failure to so label the articles will be a violation of this regulation, and will render the manufacturer liable for the penalty conditioned in his bond. In order that the articles so manufactured and labeled may be kept separate from other like articles produced from alcohol on which no rebate can be allowed, the manufacturer will provide a separate room for the storage of such articles, and such room and the contents therein stored must at all times be accessible to the officer assigned to the premises.

RECORDS TO BE KEPT.

ARTICLE 28. Every manufacturer using alcohol as herein provided will keep a daily record showing—

1. The quantity of alcohol received on the premises (specifying serial number of package, and wine, proof, and taxable gallons).

2. If spirits are to be methylated, the quantity of methyl received and quantity used, and the quantity of spirits so methylated.

3. The quantity of alcohol removed from the storeroom, and the quantity deposited in each storage tank.

4. The quantity of alcohol removed from each such tank.

5. The quantity of each article manufactured in which alcohol was used.

6. The quantity of each of such articles removed from the premises.

The manufacturer will, on the first day of each month, forward to the collector and to the Commissioner of Internal Revenue a sworn transcript of said record.

ARTICLE 29. The officer will also keep a daily record, to be furnished for that purpose, showing the quantities of alcohol received, methylated, used, and remaining on hand, and he will, on the first day of each month, render a report in the form to be prescribed by the Commissioner of Internal Revenue, covering the transactions during the preceding month.

SAMPLES.

ARTICLE 30. The officer will, at such times as the Commissioner of Internal Revenue may direct, or at such times as he has reason to suspect that the alcohol obtained by the manufacturer is being improperly used, select one or more samples of the manufactured articles and forward the same to the Commissioner for analysis.

ARTICLE 31. If upon such analysis the articles are found to be essentially different from those described in the manufacturer's notice and the formula submitted by him, or to contain a less quantity of alcohol than shown by the label, the license granted the manufacturer will be revoked and proceedings instituted on his bond.

The license will also be revoked and suit instituted in case the manufacturer fails to comply with all the requirements of the law and the foregoing regulations; and no rebate will be allowed after the revocation of such license.

NO REBATE ON ALCOHOL LOST IN TRANSIT.

ARTICLE 32. As the rebate of tax authorized by the act of August 28, 1894, is limited to alcohol actually used for the purposes therein specified, no rebate will be allowed on alcohol lost in transit or while stored on the manufacturer's premises.

Losses resulting from free evaporation, or from other causes incident to the process employed in the manufacture of the articles specified in the manufacturer's notice, will not, however, be deducted in computing the rebate due where such loss is not deemed excessive.

CLAIMS FOR REBATE.

ARTICLE 33. All applications for rebate of tax under the above-named act must be under oath, and the quantity of alcohol on which such rebate is claimed, and the quantity of each article manufactured therefrom must be clearly stated therein.

The claim in such cases will be prepared on blank forms, to be furnished the manufacturer, and must include only so much of the alcohol as has been actually used during the preceding month, and covered by the tax-paid stamps to be furnished with such claim.

The claim in such cases must also be verified by the officer assigned to the manufacturer's premises, and when so verified will be forwarded to the collector of the district, who will, if satisfied with the proofs submitted, indorse his approval thereon, and forward the papers in the case to the Commissioner of Internal Revenue. In case the collector is not fully satisfied that the claim is a valid one, he will require such further proof as he may deem necessary, and unless such proof is furnished, no rebate of tax will be allowed. Nor will such rebate be allowed when the payment of the tax on the alcohol used is not fully established by the tax-paid stamps furnished by the claimant.

Letter of Hon. Joseph S. Miller, Commissioner of Internal Revenue, to Hon. John G. Carlisle, Secretary of the Treasury.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., July 6, 1894.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury, Washington, D. C.

SIR: Referring to that part of the tariff bill relating to the internal revenue as recently passed by the Senate, attention is respectfully called to section 61 of said bill, which provides for the rebate of tax paid on alcohol used "in the arts, or in any medicinal or other like compound."

I have carefully examined this section, and deem it proper to call your attention to certain objections which have occurred to me, both as regards its administrative features and as a revenue measure.

The section provides:

> Any manufacturer finding it necessary to use alcohol in the arts, or in any medicinal or other like compound, may use the same under regulations to be prescribed by the Secretary of the Treasury, and on satisfying the collector of internal revenue for the district wherein he resides or carries on business that he has complied with such regulations and has used such alcohol therein, and exhibiting and delivering up the stamps which show that a tax has been paid thereon, shall be entitled to receive from the Treasury of the United States a rebate or repayment of the tax so paid.

The proposition to exempt from tax alcohol used in the arts and manufactures has heretofore received considerable attention, and during the past ten or twelve years several bills have been introduced in Congress with the view of securing this exemption from tax. Many safeguards, including the methylation of the spirits so used, have been proposed, but it appears that, after careful consideration, Congress deemed legislation on the subject inexpedient; and this office has, without exception, when called upon for an expression of its views, objected to the proposed exemption, on the ground that the privilege of using alcohol in such cases would afford dangerous opportunities for fraud, and would involve great expense in the matter of official supervision.

The danger to be apprehended in such cases would, of course, be greatly increased by the further increase of tax on distilled spirits, and for this reason additional restrictions and safeguards would seem nec-

essary. The section, however, not only affords no additional protection against the fraudulent use of alcohol, or for fraudulently obtaining a refund of the tax, but it imposes no penalty for such fraudulent use or claim, and requires no bond or other security to be given by the manufacturers to comply with such regulations as may be prescribed thereunder.

The section also contains no limitation or restriction as to the time or place or manner in which the alcohol is to be used; nor does it provide for any official supervision or inspection, or for the keeping of books or rendering accounts, such as would enable the officers to verify the claims made. The section is also, in my opinion, further defective, inasmuch as it does not define or limit the word "manufacturer," which, as now used in the section, would include rectifiers and dealers in spirits, who, as such, have been carefully excluded from the provisions of the bills heretofore offered. The words "medicinal and other like compound" are also vague and difficult of construction, and would, in my judgment, greatly increase the danger of fraud.

As stated, the section does not provide for any official inspection of the spirits on which a rebate is claimed or any supervision of the business in which the spirits are claimed to have been used. Such inspection and supervision, however, are, in my judgment, absolutely necessary to prevent fraud, and the expense attending the employment of a sufficient force for this purpose is a serious objection to the proposed measure.

This office has no very satisfactory data on which to base estimates as to the quantity of alcohol used in the arts and manufactures, or as to the number of persons using alcohol for manufacturing purposes.

A measure similar to the one now proposed was introduced in the Forty-seventh Congress (first session), and according to reports received at that time from the various collectors the quantity of alcohol so used each year was 4,269,978 gallons, while the estimated quantity which would be so used, if exempted from tax, was stated as 7,367,594 gallons.

The list of manufacturers forwarded with these reports is found to embrace manufacturing chemists, druggists, perfumers, manufacturers of flavoring extracts, manufacturers of patent medicines, photographers, hatters, varnish and paint manufacturers, tobacco and cigar manufacturers, machinists, and others.

This list, although incomplete, serves to show some of the difficulties which this office would experience in exercising ordinary surveillance, even in cases where the alcohol is intended and is used for legitimate purposes.

The foregoing statement of the quantity of alcohol which would be used for manufacturing purposes, if exempted from tax, was based on such information as the officers were able to obtain at that time. The quantity thus stated, however, is found to be some 2,000,000 gallons less than that subsequently estimated by my predecessor; and in my opinion the quantity so used each year would not be less than 9,000,000 gallons, exclusive of that used in the manufacture of bitters, cordials, and other like preparations.

At the proposed rate of tax of $1.10 per gallon, imposed by section 48 of the bill, the loss of revenue on this quantity of spirits would amount to nearly $10,000,000 yearly, or more than one-half of the estimated increase of revenue to be derived from the additional tax thus imposed.

From a revenue standpoint, and aside from the probable loss of revenue resulting from fraudulent claims, this proposed measure seems

open to serious objections; and it may, I think, be fairly questioned whether the consumer of articles manufactured from free alcohol would to any extent be benefited by its enactment.

Respectfully, yours,

JOS. S. MILLER, *Commissioner.*

Letter of Hon. Joseph S. Miller, Commissioner of Internal Revenue, to Hon. John G. Carlisle, Secretary of the Treasury.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., August 25, 1894.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury, Washington, D. C.

SIR: Referring to your request that regulations be prepared under section 61 of the new tariff act, providing for a rebate of tax on alcohol used "in the arts, or in any medicinal or other like compound," I would respectfully ask to be advised as to the following matters before submitting such regulations for your approval. The section provides that where alcohol is so used under regulations to be prescribed, the manufacturers using the same shall be entitled to a rebate on "*exhibiting and delivering up the stamps which show that the tax has been paid thereon.*"

Section 3322 of the Revised Statutes, in prescribing the manner in which tax-paid stamps are to be affixed to casks or packages containing distilled spirits, declares that such stamps—

shall in every case be affixed to a smooth surface of the cask or other package, which surface shall not have been previously painted or covered with any substance, and so as to fasten the same securely to the cask or package, and shall be duly canceled, and shall then be immediately covered with a coating of transparent varnish, or other substance, so as to protect them from removal or damage by exposure; and such affixing, cancellation, and covering shall be done in such manner as the Commissioner of Internal Revenue may by regulation prescribe.

Section 3324 of the Revised Statutes provides that—

Every person who empties or draws off, or causes to be emptied or drawn off, any distilled spirits from a cask or package bearing any mark, brand, or stamp required by law, shall at the time of emptying such cask or package efface and obliterate said mark, stamp, or brand.

The section also provides for the forfeiture of all such casks or packages on which the marks, stamps, and brands are not so effaced and obliterated, and imposes severe penalties for the failure to efface or obliterate such marks, stamps, and brands, or for receiving or transporting, or procuring the transportation of any such empty casks or packages, or any part thereof, having thereon any of the brands, marks, or stamps so required to be effaced and obliterated.

In view of these provisions of law the question has arisen: How are the stamps, showing the payment of the tax on the alcohol used by the manufacturer, to be exhibited and delivered as required by section 61? The section seems to contemplate the delivery of the entire stamp, but the detachment of the stamp from the package, when affixed as required by section 3322, and the regulation issued thereunder, is impracticable, and would seem to necessitate the delivery of that portion of the empty casks to which the stamp is affixed. But the transportation and delivery of such portions of the cask is prohibited by section 3324 as above shown.

The provisions of sections 3322 and 3324, referred to, are relied upon more than any other sections of the internal-revenue law for protection against the fraudulent use of packages containing distilled spirits, and of the reuse of the tax-paid stamps affixed thereto. Any exemption from the provisions of these sections in favor of persons using, or pretending to use, alcohol under section 61, would greatly impair these necessary safeguards. Indeed, if the use of alcohol under section 61 extends over a large section of the country, as will undoubtedly be the case, such exemption would, in my judgment, render such safeguards practically useless, so far as the tax on alcohol is concerned.

In view of this fact, and the dangerous opportunities which the manufacturers, or other persons applying for such rebate of tax, would have for fraudulently disposing of the spirits on which such rebate is claimed, and the further fact that no appropriation appears to have been made by Congress for the payment of such rebate, I would suggest whether it would not be advisable to delay the issuing of the proposed regulations until the attention of Congress has been called to this matter, with the view of securing either a repeal of said section 61, or additional legislation on the subject.

Respectfully, yours,

JOS. S. MILLER, *Commissioner.*

Letter from Hon. Joseph S. Miller, Commissioner of Internal Revenue, to Hon. John G. Carlisle, Secretary of the Treasury.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., August 27, 1894.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

SIR: Upon examination, it appears that this Department, in regard to section 61 of the revenue bill now before the President, is in the same situation as it was in 1861 in regard to portions of an act approved August 5, 1861 (12 Stat., p. 292).

The act is entitled "An act to provide increased revenue from imports, to pay interest on the public debt, and for other purposes."

Section 49 of that act provided that from and after the first day of the following January there should be levied, collected, and paid upon the annual income of every person residing in the United States, whether such income was derived from any kind of property, or from any profession, trade, employment, or vocation carried on in the United States or elsewhere, or from any other source whatever, if such annual income exceeded the sum of $800, a tax of 3 per centum on the amount of such excess of such income above $800. * * *

It is also provided that this income tax should be assessed upon the annual income of persons therein named for the year next preceding the time for assessing said tax, to wit, the year next preceding the 1st of July, 1862.

Section 50 of the act provided that it should be the duty of the President of the United States, by and with the advice and consent of the Senate, to appoint one principal assessor and one principal collector in each of the States and Territories of the United States and in the District of Columbia, to assess said income tax, with authority in each of said officers to appoint so many assistants as the public service

might require, to be approved by the Secretary of the Treasury. The said taxes were to be assessed and collected under such regulations as the Secretary of the Treasury might prescribe.

It appears that the Secretary of the Treasury did not prescribe regulations under said act, nor was any action taken thereunder, probably for the reason that it was impracticable to prescribe regulations or to adopt any line of action that would result in the enforcement of the law and the prevention of fraud.

So much of the act as levied the income tax above specified was repealed by section 89 of an act entitled "An act to provide internal revenue to support the Government and to pay interest on the public debt," approved July 1, 1862. (12 Stat., p. 432.)

From the fact that the act of 1861 provided only one collector for each State and Territory and the act of 1862 made provision for a collector for each Congressional district and one in excess for the State of New York, I am led to conclude that the enforcement of the act of 1862 was deemed impracticable by reason of the scarcity of officers. Such is certainly the situation as to section 61 of the bill now before the President.

A sufficient number of deputy collectors should be provided to enable this office to exercise daily, nay, hourly, supervision of every druggist, 200,000 in number in the United States, to say nothing of hosts of photographers, manufacturers of bitters, whose numbers would suddenly and largely increase, manufacturers of paints, varnish, white lead, vinegar, hats, shoe blacking (a new and very profitable business), mince-meat, tobacco, perfumery, furniture, carpets, etc. Besides, as section 61 contemplates the removal, intact, of the tax-paid stamps from the distiller's casks or packages, all such stamps would have to be so affixed as would make such removal convenient, thus rendering it necessary to largely increase the number of officers needed to supervise the operations of distillers, rectifiers, and dealers in distilled spirits.

Respectfully, yours,

JOS. S. MILLER, *Commissioner.*

Letter from Hon. Joseph S. Miller, Commissioner of Internal Revenue, to Hon. John G. Carlisle, Secretary of the Treasury.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., October 3, 1894.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

SIR: I have the honor to report that the preparation of regulations governing the use of alcohol in the arts and manufactures, with rebate of the internal-revenue tax as provided by section 61 of the revenue act of August 28, 1894, has been and is now receiving very serious consideration from this office, and many communications have been received from, and personal interviews had with, manufacturers who use alcohol in their establishments; and it is found, in every case without exception, all agree that no regulation can be enforced without official supervision, and that, without such supervision, the interests of manufacturers and of the Government alike will suffer through the perpetration of frauds.

As it is found to be impossible to prepare these regulations in a way that will prove satisfactory without official supervision, I have the honor

to inquire whether there is any appropriation or any general provision of law authorizing the expenditure of money by this Department needed to procure such supervision.

Respectfully, yours,

JOS. S. MILLER, *Commissioner.*

Letter of Hon. John G. Carlisle, Secretary of the Treasury, to Hon. Joseph S. Miller, Commissioner of Internal Revenue.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., October 5, 1894.

The COMMISSIONER OF INTERNAL REVENUE,
Treasury Department.

SIR: Yours of the 3d instant inquiring whether there is any appropriation or general provision of law authorizing the expenditure of money by the Treasury Department or by the Commissioner of the Internal Revenue to provide supervision of manufacturers using alcohol in the arts, etc., under section 61 of the act of August 28, 1894, is received, and in response I have the honor to state that no appropriation whatever, either special or general, has been made by Congress for the purpose mentioned, or for any other purpose connected with the execution of the section of the statute referred to.

Very respectfully yours,

J. G. CARLISLE, *Secretary.*

Letter of Hon. Joseph S. Miller, Commissioner of Internal Revenue, to Hon. John G. Carlisle, Secretary of the Treasury.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., October 5, 1894.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury, Washington, D. C.

SIR: I have the honor to acknowledge the receipt of your letter of the 5th instant, in reply to my letter of the 3rd instant, in which you state that no appropriation whatever, either special or general, has been made by Congress authorizing the expenditure of money by the Treasury Department or by the Commissioner of Internal Revenue to provide supervision of manufacturers using alcohol in the arts, etc., under section 61 of the act of August 28, 1894, or for any purpose connected with the execution of the section of the statute referred to.

In reply I would suggest that, inasmuch as I have been unable, as stated in my letter of the 3d instant, after thorough consideration of the matter, and upon consultation by letter and by personal interview with a large number of the most prominent manufacturers, to prepare any set of regulations which would yield adequate protection to the Government and the honest manufacturer without official supervision, which has not been provided for by Congress, that the preparation of these regulations be delayed until Congress has opportunity to supply this omission.

Respectfully, yours, JOS. S. MILLER, *Commissioner.*

Letter of Hon. John G. Carlisle, Secretary of the Treasury, to Hon. Joseph S. Miller, Commissioner of Internal Revenue.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., October 6, 1894.

Hon. J. S. MILLER,
Commissioner of Internal Revenue.

SIR: Your communication of yesterday in reference to the execution of section 61 of the act of August 28, 1894, and advising me that, for the reasons therein stated, you are unable "to prepare any set of regulations which would yield adequate protection to the Government and the honest manufacturer without official supervision, which has not been provided for by Congress," is received. I have also given much attention to the subject and have fully considered all the arguments and suggestions submitted by parties interested in the execution of the section of the statutes referred to, and have arrived at the conclusion that, until further action is taken by Congress, it is not possible to establish and enforce such regulations as are absolutely necessary for an effective and beneficial execution of the law.

You are therefore instructed to take no further action in the matter for the present.

Respectfully, J. G. CARLISLE. *Secretary.*

Letter from Hon. Joseph S. Miller, Commissioner of Internal Revenue, to Hon. John G. Carlisle, Secretary of the Treasury.

TREASURY DEPARTMENT,
OFFICE OF THE COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., January 9, 1895.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

SIR: In reply to your inquiry for an estimate of the expense of the administration of section 61 of the act of August 28, 1894, pursuant to the United States Senate's resolution of the 4th instant (which is herewith returned), I would say that nothing has come to my notice since November 28, 1894, the date of my last letter to you relative to this matter, which leads me to believe that the expense of official supervision was at that time overestimated.

It was stated in that letter that the expense of the necessary official supervision would not be less than $500,000 per annum. This estimate was based upon the number of officers required whose duties would be similar to those required of storekeepers and gaugers. There are about 1,600 distilleries in the United States requiring the services of some 1,200 storekeepers and gaugers, and 650 storekeepers who were paid last year $1,200,000 at a rate of compensation ranging from $2 to $4 per day.

It was estimated that if the number of manufacturers could be reduced by regulation to 1,600, a number equal to the number of distilleries, and if these officers could serve as to these manufacturers more economically than they serve as to the distilleries, the expense for this service would not be less than $500,000 per annum.

Since November 28, 1894, I have obtained further information in regard to the use of alcohol by druggists and by manufacturers of pat-

ent medicines, and feel warranted in estimating the number of druggists who are now in the habit of buying alcohol in distillers' original packages, or other packages containing each 40 gallons or more, at 3,800, and the number of patent-medicine manufacturers at 200. It is not seen from these figures how the number of the favored class as to those who use alcohol in any medicinal or other like compound could well be less than 4,000. In fact it is not clearly seen how any discrimination could be made against any druggist who makes medicinal or other like compounds in which (as happens in the business of all or nearly all druggists) alcohol is a necessary component part. It is true that druggists whose business does not warrant the purchase of the ordinary distillers' original 40-gallon package of alcohol, have heretofore usually purchased their supplies in small packages put up from distillers' packages by rectifiers and liquor dealers.

As, however, distillers' original packages may, under the internal-revenue laws, contain as small a quantity as 10 wine gallons, it would seem that most druggists who have heretofore obtained the alcohol to be used in the manufacture of tinctures and extracts from liquor dealers will buy directly from the distillers or from those who deal in distillers' original packages, containing 10 wine gallons each. How can it be said that a manufacturer is not a manufacturer because the amount of business done by him is small? There being no special statutory definition in this instance, no such discrimination could be made by the Treasury Department.

This being the case it would seem that the number of manufacturers who daily, Sundays not excepted, use alcohol in medicinal or other like compounds would be more nearly 32,000 than 1,600, involving an outlay of $10,000,000 rather than $500,000.

Nevertheless, although these small druggists are required to make up these medicinal compounds at all hours of the day and night and Sundays, their great number affords an opportunity for economical official supervision not otherwise possible. Even with this advantage, however, when the fact is also taken into account that the operations of photographers, manufacturing chemists, perfumers, manufacturers of flavoring extracts, hatters, paint and varnish manufacturers, manufacturers of tobacco and cigars, of woolen goods, of carpets, of mince meat, and of glue, would necessarily also be brought under the same surveillance when the use of alcohol in such arts and manufactures is claimed, it would seem to be improper to estimate the expense of an efficient administration at less than $1,000,000 annually.

Respectfully, yours,

JOS. S. MILLER, *Commissioner.*
