REPORT
OF
THE COMPTROLLER OF THE CURRENCY.

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY,
Washington, December 3, 1877.

I have the honor to submit for the consideration of Congress, in compliance with section three hundred and thirty-three of the Revised Statutes of the United States, the fifteenth annual report of the Comptroller of the Currency.

Carefully prepared tables accompany this report, among which are those showing the average amount of capital and deposits of national banks, State banks, savings banks, and private banks of the country, by States and geographical divisions, for two different periods in each of the years 1876 and 1877; the items of the public debt of the United States at the date of its maximum, August 31, 1865; the amounts and kinds of circulating-notes of the United States and of the national banks, yearly, from 1865 to 1877; the specie held by the banks, and the estimated amount in the country, on June 30, 1877; the issue and retirement of bank circulation, by States, under the operation of the acts of June 20, 1874, and January 14, 1875; the amounts and kinds of United States bonds held as security for national-bank notes on November 1, 1877; the number and denominations of legal-tender notes and national-bank notes outstanding on the same date; a classification of the loans of the national banks in New York City, in October, for the last three years; together with the average rate of interest in New York and London for those years; the number and amount of national-bank notes issued, redeemed and destroyed, from 1863 to 1877; the amount of circulation and deposits of the banks, and a classification of the reserve required and held, at five different dates in each year, from 1871 to 1877; of the weekly movement of legal tender reserve in the New York City national banks, in the month of October, from 1872 to 1877; the operations of the clearing-house in New York City, for the last twenty-four years; the capital, and amount and rate of taxation, of the national banks, State banks and private bankers, for a series of years; the amount of losses charged off by national banks in the several States and Territories during the years 1876 and 1877; the capital, surplus, dividends and earnings of the national banks, by States and geographical divisions, semi-annually, from 1869 to 1877; the national banks in voluntary liquidation, and insolvent national banks, with their capital stock, claims proved and dividends paid, since the establishment of the national system. The report also contains statements of the State

banks and savings banks organized under the laws of the different States, so far as they could be obtained from official sources.

Tables are also given showing the aggregate resources and liabilities of all the national banks at all the dates for which reports have been made during the past fifteen years, and by States and reserve cities at five different dates for the present year; together with separate statements of the condition of every national bank in the Union, on the first day of October of the present year.

The total number of national banks organized since the establishment of the national banking system, on February 25, 1863, is 2,372; of these, two hundred and thirty-three have gone into voluntary liquidation, by vote of shareholders owning two-thirds of their respective capitals, and fifty-nine have been placed in the hands of receivers for the purpose of closing up their affairs, leaving 2,080 in existence on November 1 of this year. Included in the aggregate number organized are nine national gold banks, located in the State of California, which redeem their circulating-notes at their places of issue, and in the city of San Francisco, in gold coin. These have an aggregate capital of \$4,300,000, and an aggregate circulation of \$1,432,120.

During the past year twenty-nine banks have been organized, with an authorized capital of \$2,589,000, to which \$1,244,520 in circulating-notes has been issued. Ten banks have failed within this period, having an aggregate capital of \$3,344,000; and twenty-six banks, with a total capital of \$2,589,500, have voluntarily discontinued business.

The following table exhibits the resources and liabilities of the national banks in operation at corresponding dates for the last eight years:

Section 333 of the Revised Statutes of the United States requires the Comptroller to present annually to Congress a statement of the condition of the banks and savings banks organized under State laws. Returns of capital and deposits are made by these institutions and by private bankers, semi-annually, to the Commissioner of Internal Revenue, for purposes of taxation. The following statement, compiled in this Office from these returns, exhibits in a concise form, by geographical divisions, the total average bank capital and deposits of the whole

* The reserve cities, in addition to New York, Boston, Philadelphia, and Baltimore, are Albany, Pittsburgh, Washington, New Orleans, Louisville, Cincinnati, Cleveland, Chicago, Detroit, Milwaukee, Saint Louis, and San Francisco.

The capital of the 2,078 national banks in operation on June 22, 1877, was \$481,044,771, and the average capital of 3,825 State banks, private banks, and savings-banks having capital stock, was, for the six months ending May 31, 1877, less than half that amount, being \$223,503,172. The net deposits of the national banks were \$768,245,746, and the average deposits of the other banks above designated were \$508,712,845. The deposits of 676 savings-banks having no capital stock were, for the same period, \$843,154,804.

The table below, arranged in similar form, gives the average capital and deposits of the same class of banks and bankers for the six months ending November 30, 1876:

Geographical divisions.	State banks and private bankers.			Savings-banks with capital.			Savings-banks without capital.		Total.

If the number, capital and deposits of the national banks on June 22, 1877, be combined with the number, average capital and average deposits of the State banks, private banks, savings-banks, and trust and loan companies, as shown by the foregoing table, for the six months ending May 31, 1877, it will give a total number of 6,579, a total banking capital of \$704,547,943, and total deposits of \$2,120,113,396. A similar combination of the national banks for October 2, 1876, with the State banks, savings-banks, &c., for the six months ending November 30, 1876, will give for the latter date a total number of 6,564, a total banking capital of \$722,079,176, and total deposits of \$2,082,735,984.

Tables similar to the above, for the two periods of six months each, ending respectively on November 30, 1875, and May 31, 1876, together with other tables giving the assets and liabilities of State institutions, so far as they could be obtained from the official reports of the several States, will be found in the Appendix.

A table, arranged by States and principal cities, giving the number, capital and deposits, and the tax on capital and deposits, of banking institutions other than national, for the six months ending May 31, 1877, will be found on page 48 of this report. A similar table for the six months ending November 30, 1876, is printed in the Appendix.

THE BANKS AND RESUMPTION.

Section 3 of the act of January 14, 1875, provides that "on and after the first day of January, anno Domini eighteen hundred and seventy-nine, the Secretary of the Treasury shall redeem, in coin, the United States legal-tender notes then outstanding, on their presentation for redemption at the office of the assistant treasurer of the United States in the city of New York in sums of not less than fifty dollars." This legislation is not without precedent, for Congress, on April 30, 1816, by resolution declared that "from and after the 20th day of February next, no duties, taxes, debts or sums of money, accruing or becoming payable to the United States, ought to be collected or received otherwise than in the legal currency of the United States, or in Treasury-notes or notes of the Bank of the United States, or in notes of banks which are payable and paid, on demand, in the said legal currency of the United States."

The New York legislature took similar action at about the same time; and again on March 22, 1875, it passed an act providing that "all taxes levied and confirmed in this State on and after January 1, 1879, shall be collected in gold, United States gold-certificates, or national-bank notes which are redeemable in gold on demand," and that "every contract or obligation made or implied after January 1, 1879, and payable in dollars, but not in a specified kind of dollars, shall be payable in United States coins of the standard of weight and fineness established by the laws of the United States at the time the contract or obligation shall have been made or implied."

The banks in this country, with the exception of those in the New England States, suspended specie payment in September, 1814. The New York banks resumed specie payment on February 20, 1817, but resumption was not general throughout the country until about the close of the year 1819. There was also a general suspension in May, 1837; but in May of the next year the New York and New England banks again resumed specie payment. The banks in Pennsylvania finally resumed, under the coercion of the State legislature, in March, 1842. Banks in other portions of the country resumed at about the same date. A general suspension again occurred in October, 1857, the banks resuming specie payment in the following year.

It would be instructive to compare the condition of the banks during previous periods of suspension and resumption with that at the present time, but detailed statements of the assets and liabilities of the banks during the first period of suspension, which continued for five years, cannot be obtained. The published statistics of the State banks during the later periods mentioned are not wholly satisfactory for the purpose desired, for the reason that the bank reports were not of uniform date in the several States, while the items of specie, circulation, and deposits vary greatly in amount throughout the country at different dates in the same year. The specie, as reported, was not separated from checks payable in coin, and it is known that, in some instances, the same specie was more than once returned.

From such data as are now obtainable, the following table has been

VIII REPORT OF THE COMPTROLLER OF THE CURRENCY.

By reference to these tables it will be seen that from 1835 to 1842 the average ratio of specie to circulation held by the State banks was 31.7 per cent., and to circulation and deposits 18 per cent.; and that from 1850 to 1858 it was 32.1 and 16.1 per cent., respectively. The ratio of specie and legal-tenders to circulation of the national banks, for the eight years named, was 45.5, and to circulation and deposits 16.7 per cent.

The returns of the State banks in the New England States and in the State of New York were more regular and reliable than those of the banks in any other portion of the Union. A comparison between these banks, for the periods named, with the national banks for the last eight years, is given in the following tables, which, together with those

preceding, are tabulated from reports of the condition of the banks at the date nearest January 1 of each year given:

In the above tables the five per cent. redemption-fund required by the act of June 20, 1874, and which consists of deposits with the Treasurer for the purpose of redeeming circulation, is included in the legal-tender fund.

The yearly average circulation of the banks of the State of New York for the ten years from 1851 to 1860 was \$29,698,094, and of deposits \$82,364,349. The average amount of specie held by those banks yearly during the same period was \$16,287,377, of which about one eighth only was held by the banks outside of the city of New York, and the remaining seven eighths by the banks in that city. The average ratio of specie to circulation for the ten years named was 54.8 per cent., while to circulation and deposits the ratio was only 14.5 per cent.

The following tables, the first of which has been prepared from information furnished by the manager of the New York clearing-house, show the strength of the State banks of New York City for the six years from 1855 to 1860, as compared with that of the national banks of the same city, at nearly corresponding dates, for the last six years :

* "Legal-tender funds," in the case of the State banks, represents specie.

The national banks are required by section 5172 of the Revised Statutes of the United States to pay their circulating notes on demand, and by section 3 of the act of June 20, 1874, to "keep and have on deposit in the Treasury of the United States, in lawful money of the United States, a sum equal to five per centum of their circulation, to be held and used for the redemption of such circulation." When the legal-tender notes shall be redeemed in coin, the banks will also be required to redeem in coin or in such notes. These notes will then become *coin-certificates*, and will be more convenient and desirable for general use than coin, for the reason that the cost of their transportation will be less than that of specie.

The banks of New York City, during the month of December in the last eight years, have held in lawful money an average of 224.4 per cent. upon their circulation, and of 26.8 per cent. upon their circulation and deposits combined. The average amount of lawful money held by the banks in the other principal cities during the same periods has equaled 59.2 per cent. of their circulation, and, including the amount due from their reserve agents, it has equaled 26.5 per cent. of both circulation and deposits. The national banks of the whole country have held during the same periods an average of 43 per cent. of their circulation, and including, as before, the amounts due from their agents, an average of 23.2 per cent. upon deposits and circulation.

The ratios stated above are shown by the following table, which gives the average circulation, deposits and reserve funds of the national banks in New York City, in the other principal cities, and in the remainder of the country, separately, and the average of the whole for the last eight years:

It will be seen from the various tables given, that the average strength of the national banks for the last eight years is fully equal to that of the State banks during periods of suspension and resumption in former times; and, if resumption is to take place upon any fixed date, the national banks will be certain, as a matter of precaution, to strengthen their reserves beyond the averages here given. It cannot be doubted, therefore, that the national banks will be prepared to redeem their circulating notes at any date of resumption which may be fixed upon.

But, while it is admitted that the banks may easily pay their circulating notes, it is said that it will be impossible for them to provide for their deposits. Those who take this view proceed on the assumption that the banks will be called upon to pay their deposits in specie. This was not true during any former period of specie payment, and is less likely to be true under the national banking system than it was under any previous system of banking. The banks in this country, from their first organization, have, in times of resumption as well as of suspension, received from their dealers current bank-notes and have paid out the same. This is true to-day in England, Scot-

land, Germany and France, in all of which countries the bank-note is preferred, as a rule, to either gold or silver. Only a small portion of the bank circulation of the country, at any period prior to 1863, was either safe or convertible, and the losses to the holders of bank-notes during such period is estimated to have been not less than five per cent. annually upon the whole amount of circulation outstanding. Yet even this circulation, poor and defective as it was, was freely received by the banks, and was paid out by them to their depositors, so closely identified were the interests of the one with the other. The notes which were returned from the commercial centers for redemption were readily paid out and circulated at home, and the demand for specie, wherever it existed, was almost entirely owing either to an excess of currency or to a want of confidence in the institutions which issued it.

The people throughout the country now know what, prior to 1863, they could not know—for it was not then true—that every bank-note is safe beyond peradventure, and that if these notes are not paid at the counters of the banks which issued them they will be paid at the Treasury Department, in lawful money, and that the securities held for their redemption are amply sufficient for that purpose. No reason, therefore, exists why the people—who, in the last fourteen years, have not lost one dollar through the use of bank-notes—should decline to receive such notes in payment of their deposits. These notes are not only guaranteed by the government, but they are received by it in payment of all taxes and other dues except duties on imports, and are disbursed by it in payment of all demands except interest on the public debt, and in the redemption of national-bank notes.

The national banks hold eight hundred and eighty millions of loans made to the people, and each bank is required, by section 5196 of the Revised Statutes, “to take and receive at par, for any debt or liability to it, any and all notes or bills issued by any lawfully organized national banking association.” There are, therefore, eight hundred and eighty millions of liabilities of the people due to the national banks—a sum largely exceeding the whole amount of deposits—which may be paid in the notes of any or all of the national banks in the country. The national-bank notes are therefore very different in character from the heterogeneous bank-notes formerly issued by authority of the several States. Moreover, the deposits of the banks are largely owned by their own shareholders and by their borrowers; and surely business men, who look to the banks for accommodations, and stockholders, whose profits depend upon their successful management, will be the last to conspire to injure their credit.

Deposits consist chiefly of bank-credits, are derived largely from the discount of commercial paper, and are paid mainly by transfers upon the books—not with either coin or currency. Throughout the country all large payments are made, not with money, but with checks. In the principal cities these payments are accomplished through the operations of clearing-houses. During the last twenty-four years the exchanges of the New York clearing-house were 454 thousand millions, while the balances paid in money were less than 19 thousand millions. The average daily exchanges during this whole period were more than sixty-one millions, while the average daily balances paid in money were but two and one-half millions, or but four and one-fifth cents upon the dollar, as will be seen by a table on another page.

Immediately after resumption in England, in 1821, there was but little demand for gold, and the same was true in France after resumption by the Bank of France in 1850, and in this country in 1838 and 1858. The Bank of France is at present in a state of suspension,

but its notes are preferred by the public to specie, and the bank has found it difficult to reduce the volume of its circulating notes in exchange for coin. All thought of demanding actual payment in specie will vanish as soon as resumption is assured, and those timid bankers who fear that their dealers will demand coin for every dollar of their deposits can reassure themselves by an agreement with their dealers that their deposits shall be payable, as at the present time, "in current funds," which will then consist of legal-tender notes and the notes of specie-paying banks. There is no greater bugbear than the oft-repeated cry, that the Treasury and the banks must provide specie for the payment of two thousand millions of deposits, before resumption can take place.

The coinage act of 1873 provides for the issue of a gold dollar, which shall be the unit of value; but, since the suspension of specie payments, the business transactions of the country have been based upon a false and fluctuating measure of value. This will be seen from the following table, which gives the value of the legal-tender paper dollar on July 1 of each year, from 1863 to 1877, the last column of the table showing, also, its value on November 1 of the present year:

1863.	1864.	1865.	1866.	1867.	1868.	1869.	1870.	1871.	1872.	1873.	1874.	1875.	1876.	1877.	1877.*

The coinage act also provides that the standard weight of this gold dollar, which is the unit of value, shall be twenty-five and eight-tenths grains; but the paper dollar in use since 1863 has represented a gold coin fluctuating in weight, from less than ten grains to about twenty-five grains, as follows:

1863.	1864.	1865.	1866.	1867.	1868.	1869.	1870.	1871.	1872.	1873.	1874.	1875.	1876.	1877.	1877.*

These tables by no means fully represent the fluctuations in the legal standard of value during the last sixteen years. The variations cannot be counted by the number of years, nor even by the number of days. They have been numerous on each day since the date of suspension, and can only be numbered by tens of thousands. The importers, and other wholesale dealers, have often found, during the last sixteen years, that they could have realized more profit from the purchase and sale of gold than of the commodities belonging to their legitimate trade. The tendency of such fluctuations is either to bankrupt or to demoralize all persons engaged in ordinary traffic; for, under such circumstances, business of every kind becomes simply a game of chance, based upon the ever-changing value or weight of a false but legalized standard, and persons in every portion of the country abandon their legitimate business and embark in speculations, bringing failure and disgrace upon themselves and losses upon those who confide in them.

* November 1 of this year.

If the weight of all the produce which has been purchased in the last sixteen years had been determined by a standard pound which varied in weight from six to sixteen ounces, or if the measure of all fabrics had been ascertained by a yard-stick, the length of which at different times ranged all the way from fourteen to thirty-six inches, the evil resulting from the use of such false and varying standards of weight and measure could not have been greater than that which has followed the use, during the same period, of so false a standard of value as the paper dollar has been.

Not many years ago it required one hundred large and heavy weights to balance one hundred bushels of wheat. To-day, by the advance in mechanical science, a five-pound weight will balance a much larger amount of produce, while the actual use of the pound weight is confined to the small transactions of the retail trade. It would now be impracticable to weigh the products of the country with the old-fashioned balances; but, by the aid of the modern platform-scales, the weight of car-loads of coal and of canal-boats of grain are quickly and accurately determined in pounds, every one of which is exactly sixteen ounces avoirdupois. There is not sufficient gold or silver coin in the country with which to pay for the one-twentieth part of the products of the present year; but the machinery of the bank, with its system of checks, and bills of exchange, and clearing-houses, can pay for it all in dollars, every one of which will be an equivalent of the true standard dollar of twenty-five and eight-tenths grains of gold, nine-tenths fine.

Resumption does not mean the actual use and handling of the gold dollar in every transaction. Coin and currency are but the small change used in trade. Bank-checks and bills of exchange are the instruments employed in all large transactions. A single check pays for a whole invoice of goods, for car-loads of coal, and for houses and lands. Resumption means only that the dollar represented by the check shall be equivalent to twenty-five and eight-tenths grains of gold, as the pound represented upon the beam of the platform-scale shall be equivalent to sixteen ounces avoirdupois. It means that the millions and billions of business transactions of a single year shall each be measured by a fixed and true, and not by a fluctuating and false, standard of value.

Congress, on March 18, 1869, passed an act in which "the United States pledges its faith to make provision at the earliest practicable period for the redemption of United States notes in coin;" and on January 14, 1875, a day was fixed for that purpose. The paper dollar is now worth $97\frac{3}{8}$ cents in gold, and represents a weight of about twenty-five grains of that metal. It has increased in its representative value and weight forty per cent. during the last ten years, more than ten per cent. during the past two years, and nearly five per cent. within the last six months; and there is no apparent good reason why it should not soon become of the full standard value, when both the paper and the gold dollar will be an equal measure of value, for the rich and poor alike.

The government, and the banks of the country also, suspended specie payment on December 28, 1861; and it is believed that the national banks will cordially unite with the government in restoring the true standard of value whenever the acts of Congress referred to shall be carried into effect.

NATIONAL-BANK CIRCULATION.

The act of February 25, 1863, and the subsequent act of June 3, 1864, authorized the issue of three hundred millions of dollars of national

bank circulation, which was increased by the act of July 12, 1870, to three hundred and fifty-four millions. The act of June 20, 1874, authorized any national-bank desiring to withdraw its circulating notes, in whole or in part, to deposit lawful money with the Treasurer of the United States, in sums not less than \$9,000, and to withdraw a proportionate amount of the bonds held as security for such notes; and the act of January 14, 1875, repealed all provisions restricting the aggregate amount of national-bank circulation, and required the Secretary of the Treasury to retire legal-tender notes to an amount equal to eighty per cent. of the national-bank notes thereafter issued, until the amount of such legal-tender notes outstanding should be \$300,000,000, and no more.

Nearly all of the \$300,000,000 of national-bank circulation originally authorized was issued during the first six years subsequent to the establishment of the system, the amount outstanding on November 1, 1868, having been \$299,837,675—or within \$112,325 of the authorized limit. The additional fifty-four millions authorized by the act of July 12, 1870, was never wholly issued—the greatest amount of circulation outstanding at any time having been on December 1, 1874, when it was \$352,394,346, or \$1,605,654 less than then authorized by law.

Since the passage of the acts of June 20, 1874, and of January 14, 1875, authorizing the retirement and reissue of national-bank notes at the pleasure of the banks, the circulation has been steadily decreasing in amount. This will be seen from the following table, which exhibits the total outstanding circulation, not including mutilated notes in transit, upon the 1st day of January for the last ten years, and also upon November 1 of the present year :

Jan. 1, 1868	\$299,846,206	Jan. 1, 1874	\$348,516,478
Jan. 1, 1869	299,747,569	Jan. 1, 1875	347,959,471
Jan. 1, 1870	299,629,322	Jan. 1, 1876	341,653,672

Jan. 1, 1873	342,541,452		

The amount of legal-tender notes on deposit for the purpose of retiring national-bank circulation was, on November 1, 1875, \$20,238,642 ; on November 1, 1876, \$20,910,946 ; and on November 1, 1877, \$13,111,371 ; and deducting these amounts respectively from the amount of circulation outstanding at the dates named, the remainder, on November 1, 1875, was \$322,944,586 ; on November 1, 1876, \$298,965,250 ; and on November 1, 1877, \$302,770,619—or only \$2,770,619 more than the three hundred millions originally authorized.

Since the passage of the act of June 20, 1874, \$72,407,545 of legal-tender notes have been deposited in the Treasury for the purpose of retiring circulation, and \$63,109,849 of bank-notes have been redeemed, destroyed and retired. Since the passage of the act of January 14, 1875, \$34,386,385 of additional circulation has been issued, and legal-tender notes equal to eighty per cent. thereof, or \$27,509,108, have been retired, leaving \$354,490,892 of the latter notes outstanding November 1, 1877. The amount of additional circulation issued for the year ending November 1, 1877, was \$16,306,030, of which \$1,244,520 was issued to twenty-nine banks organized during the year, having capital amounting to \$2,589,000 ; and within the same period \$20,681,637 of circulation was retired, without reissue ; the actual decrease for the year being \$4,375,607, and the total decrease since January 14, 1875, \$35,086,339. During the year ending November 1, 1877, lawful money to the amount

of \$10,465,756 was deposited with the Treasurer to redeem circulation, of which amount \$2,291,266 was deposited by banks in liquidation. The amount previously deposited, under the act of June 20, 1874, was \$52,853,560, and by banks in liquidation \$9,088,229; to which is to be added a balance of \$3,813,675 remaining from deposits made by liquidating banks prior to the passage of that act. Deducting from the total of the sums named (\$76,221,220) the amount of circulating notes redeemed and destroyed, and for which no reissue has been made, (\$63,109,849,) there remained in the hands of the Treasurer on November 1, 1877, \$13,111,371 of lawful money for the redemption and retirement of circulation.

NATIONAL GOLD BANKS.

National gold banks were authorized to be organized under the act of July 12, 1870. The largest amount of outstanding circulation of these banks was on August 19, 1875, when it amounted to \$2,640,000, upon a capital of \$4,630,000. Nine national gold banks were in operation on November 1, 1877, all located in the State of California, with a capital of \$4,300,000, and with circulation amounting to \$1,432,120. These banks are subject to the same restrictions as other national banking associations. The amount of circulation issued upon bonds deposited is, however, but eighty per cent., and they are required to keep on hand twenty-five per cent. of their circulation in gold and silver coin, the notes of the bank being redeemed in gold coin alone. A bill passed the House of Representatives during the last session, authorizing the issue of ninety per cent. of circulation upon the amount of bonds deposited with the Treasurer, and also requiring such banks to keep on deposit with the assistant treasurer in San Francisco five per cent. of their circulation in gold coin, in lieu of the twenty-five per cent. now required to be kept on hand, and to redeem their circulating notes at their own

counter and at the office of the assistant treasurer. This bill was passed too late in the session to be acted upon by the Senate, and its passage is now recommended.

SECURITY OF CIRCULATING-NOTES.

The following table exhibits the kinds and amounts of United States bonds held by the Treasurer on the 1st day of November, 1877, to secure the redemption of the circulating-notes of national banks:

Class of bonds.	Authorizing act.	Rate of interest.	Amount.

Funded loan of 1907.....	do.....	4 per cent.....	15,884,150
Pacific Railway bonds.....	July 1, 1862, and July 2, 1864.....	6 per cent.....	7,836,000
Total.....			343,048,900

On October 1, 1865, the total amount of bonds held for this purpose was \$276,250,550, of which \$199,397,950 was in six per cents., and \$76,852,600 in five per cents. On October 1, 1870, the amount held was \$342,833,850, of which only \$95,942,550 were five per cents.; from which it appears that there has been, during the last seven years, an increase of \$104,147,950 in the five per cents., and a decrease of \$164,906,750 in the six per cent. bonds. During the two years ending November 1, instant, there has been a decrease of \$46,518,662 in six per cents., and of \$38,955,700 in five per cent. bonds; while in the same period \$45,089,700 of four and one-half per cents., and within the last six months \$15,884,150 of four per cent. bonds, have been deposited.

From the above table it will be seen that the amount of bonds pledged by the national banks as security for their circulating-notes is \$343,048,900. This amount consists of \$81,984,550 of six per cent. bonds, including \$7,836,000 issued to Pacific Railroads, \$200,090,500 of five per cent., \$45,089,700 of four and one-half per cent., and \$15,884,150 of four per cent. bonds. If that portion of these securities bearing a higher rate of interest were exchanged for the latest issues of United States bonds, bearing interest at the rate of four per cent. per annum, the income of the banks from this source would thereby be reduced \$3,865,194.50. The tax upon circulation paid to the government for the last fiscal year was about \$2,900,000, which is \$965,194.50 less than the loss of income to the banks, if the bonds held as security for circulation were all exchanged for the four per cents. That is to say, if circulating notes, free from tax, were authorized to be issued upon four per cent. bonds deposited as security therefor, and such bonds should be substituted for the others now on deposit, the income of the national banks would thus be reduced \$965,194.50. The government would, however, be largely the gainer; for the purchase by the banks of \$327,004,750 of four per cent. bonds would place the Treasury Department in funds with which to purchase and retire the same amount of six per cents which have now matured. The government would thereby save \$6,540,095 annually in interest,

while it would lose the present tax upon circulation, (\$2,900,000,) thus leaving a net annual gain of \$3,640,095.

The government has now outstanding more than nine hundred millions of six per cent. bonds, which are to be retired before the five per cents can be called in. When the six per cents shall have been retired, the banks may still hold the five per cents, of which more than \$700,000,000 are now outstanding. If the six per cents held by them should be exchanged for fives, the income to the banks would then be \$3,015,000—or \$115,000 more than the amount of taxes paid upon circulation during the last fiscal year. When the banks shall become the owners of \$300,000,000 of the four per cents, it may be fairly presumed that the borrowing-power of the government will be fixed at not above that rate; so that the funding of the remaining five and six per cent. bonds of the government will be promoted and hastened. It is also to be presumed that, under the stimulus of renewed prosperity in trade and commerce, and the gradual reduction of the greenbacks, an additional amount of bank currency will be issued, which will furnish renewed demands from the banks for the four per cent. issues. It is not probable that during the next ten years the government debt will all be reduced to a rate of interest below five per cent.; and it is clearly for the interest of the government, until this can be accomplished, to receive the four per cents from the banks, free of any tax upon circulation.

The proposition for the repeal of the tax upon circulation has not been urged by the national-bank interest; but, if the four per cent. bonds were authorized to be received as a basis for circulation which shall be free from tax, it would seem that all of the six per cent. bonds now outstanding could soon be exchanged for what would then be rightfully designated the four per cent. consols of the United States.

RESERVE.

It is estimated by the best authorities that the Scotch banks, which have long enjoyed the reputation of being well managed, and the Joint-stock and other incorporated banks of England (not including the Bank of England) hold not exceeding five per cent. of their liabilities in ready money. The remainder of their reserves are largely invested in the English consols, bearing interest at the rate of three per cent. per annum, the average price of which, since 1850, has been about ninety-two cents to the dollar.

The French Government issues small coupon-bonds, or rentes, in denominations as low as one hundred francs, or about twenty dollars, for the convenience of those who desire to invest their savings in the public funds. The recent failures of savings-banks throughout this country, having on deposit large amounts of the people's earnings, have suggested the propriety and policy of the issue by the Government of four per cent. bonds of a denomination less than fifty dollars. There is but little doubt that the savings of the people would be largely invested in such bonds, provided they could be readily negotiated by the holders, when desired, without material loss.

The national banks in the reserve cities are required to keep a reserve of twenty-five per cent. upon deposits, one-half of which may be on deposit with their reserve agents in the city of New York. The country banks are required to hold a reserve of fifteen per cent. upon deposits, three-fifths of which may consist of balances with their correspondents in the reserve cities. An amount equal to more than one-sixth of the capital of the national banks, or about \$87,000,000, is thus con-

XXII REPORT OF THE COMPTROLLER OF THE CURRENCY.

tinually kept on deposit with the banks in the reserve cities. A considerable portion, probably one-half of this amount, is sent by the banks to their correspondents, not for the purpose of legitimate business, but in order to obtain interest upon idle funds which cannot be invested by them in available loans. If authority were given to the national banks to hold, in four per cent. bonds of a denomination less than fifty dollars, such portion of their reserve on deposit with their agents as they might think proper, it would result in a large investment by them in these securities; and the savings-bank depositor, if he should so desire, would then find no difficulty in disposing of these small bonds among the twenty-one hundred national banks, one, at least, of which is located in almost every village in the country. This policy would also have the effect of strengthening the available resources of the banks, and of retaining in their hands a considerable portion of those idle funds which are now sent to their correspondents in the central cities, and are loaned by the latter, upon call, to dealers in speculative securities.

It is estimated that an amount, varying from 200 to 600 millions of dollars, is held in English consols, as a reserve fund, by the banks of the United Kingdom; and there does not seem to be any good reason why the four per cent. consols of the United States should not be employed for a similar purpose in this country; and the Comptroller recommends that the banks outside of the city of New York be allowed to hold that portion of their reserves, not required to be kept on hand in cash, in the small four per cent. bonds which may be issued for the use of that class of persons now depositing in savings-banks.

The following tables exhibit the amount of circulation, net deposits and reserve held by the national banks in the States and Territories, (exclusive of reserve cities,) in New York City, and in the other principal cities, together with the total amount held by all the banks, at three periods in each year, from 1872 to the present time.

XXIV REPORT OF THE COMPTROLLER OF THE CURRENCY.

Previous to the passage of the act of June 20, 1874, the national banks were required to hold a reserve upon circulation and deposits. By that act the provisions requiring a reserve to be kept upon circulation were repealed; but the banks were required to deposit with the Treasurer of the United States lawful money, equal in amount to five per centum of their circulation, as a redemption fund, which fund was authorized to be counted as a part of the reserve upon deposits. In the table above given this redemption fund, on and after June 20, 1874, is included in the item of "other lawful money," and the ratio of reserve, as given, is upon both circulation and deposits.

The following table exhibits the amount of net deposits, and the reserve required thereon by the act of June 20, 1874, together with the amount and classification of reserve held, at ten different dates, from October 2, 1874, to October 1, 1877, the date of the latest returns from the banks.

A table showing the average weekly deposits, circulation and reserve of these banks, for the months of September and October, since 1870, will be found in the Appendix. Tables will also be found in the Appendix, showing the state of the lawful money reserve of the national banks, as shown by their reports, from October 8, 1870, to October 1, 1877, together with a similar table showing the reserves, by States and principal cities, for October 1, 1877.

REPORT OF THE COMPTROLLER OF THE CURRENCY. XXVII

SPECIE IN BANK, AND ESTIMATED SPECIE IN THE COUNTRY.

The table below exhibits the amount of specie held by the national banks at the dates of their reports, for the last nine years—the coin, coin-certificates, and checks payable in coin, held by the New York City banks, being stated separately.

The amount of silver coin held by the national banks on June 30 and October 2, 1876, was \$1,627,566 and \$2,557,599, respectively. The amount held on October 1, 1877, was \$3,700,703. The amount of specie held by the State banks in the New England States, in New York, New Jersey, Pennsylvania, Maryland, Ohio and Wisconsin, as shown by their official reports for 1877, was \$2,213,978, of which the banks in New York City held \$2,029,160. In the returns from California the amount of coin is not given separately. The amount of "coin and bank-notes" returned July 1, 1877, was \$20,081,300.

In my last annual report a statement was given, from estimates made by the Director of the Mint, showing that the probable amount of coin and bullion in the country on June 30, 1876, was \$181,678,000, of which \$30,113,000 was silver. Assuming this estimate to have been substantially correct, the movement of coin and bullion for the year ending June 30, 1877, and the amount in the country at the latter date, is shown from further estimates of the Director of the Mint to have been as follows:

XXVIII REPORT OF THE COMPTROLLER OF THE CURRENCY.

Estimated amount of coin and bullion in the country June 30, 1876.....	\$181,678,000
Estimated product of the mines for the year.....	82,000,000
Importations for the year.....	40,732,595

Total.....	304,410,595
Deduct exportations.....	\$56,054,737
Amount used in the arts and manufactures.....	5,500,000
	<u>61,554,737</u>

Total estimated amount of coin and bullion in the country on June 30, 1877.....	242,855,858
---	-------------

Of this amount, \$192,720,230 was in gold coin and bullion, and \$50,135,628 in silver coin and bullion. The increase for the fiscal year was \$61,177,858, of which \$41,155,230 was in gold coin and bullion, and \$20,022,628 in silver coin and bullion. The Director estimates the amount of gold coin and bullion in the country on October 31, 1877, at about \$185,000,000, and of silver coin and bullion at about \$50,000,000.

PUBLIC DEBT AT ITS MAXIMUM—CURRENCY AND ITS COIN VALUE.

The public debt reached its maximum on August 31, 1865, when it amounted to \$2,845,907,626, composed as follows:

Funded debt.....	\$1,109,568,192
Matured debt.....	1,503,020
Temporary loans.....	107,148,713
Certificates of debt.....	85,093,000
Five per cent. legal-tender notes.....	33,954,230
Compound-interest legal-tender notes.....	217,024,160
Seven-thirty notes.....	830,000,000
United States notes, (legal-tenders).....	433,160,569
Fractional currency.....	26,344,742
Suspended requisitions uncalled for.....	2,111,000

Of these obligations, \$684,138,959 were a legal tender in the payment of all debts, public and private, except customs-duties and interest on the public debt.

The amounts of legal-tender notes, demand-notes, fractional currency and national-bank notes, outstanding on August 31, 1865, and annually thereafter, from January 1, 1866, to January 1, 1877, and the amounts outstanding December 1, 1877, are shown by the following table, together with the currency price of gold and the gold price of currency at each date:

Date.	United States issues.			Notes of national banks, including gold notes.	Aggregate.	Currency-price of \$100 gold.	Gold-price of \$100 of currency.

TRANSACTIONS OF THE NEW YORK CLEARING-HOUSE.

The exchanges at the clearing-house in New York City for the year ending October 1, 1877, were nearly twenty-one thousand millions, and the balances paid in money were about one thousand millions. The average daily exchanges were about sixty-eight and a half millions, and the average daily balances paid in money were but about three and one-third millions, or only 4.9 per cent. of the amount of the settlements.

The New York clearing-house was organized in 1853, and the following table exhibits its transactions, and the amount and ratio of currency required for the payment of daily balances, yearly, for the last twenty-four years:

XXX REPORT OF THE COMPTROLLER OF THE CURRENCY.

By reference to this table it will be seen that the total amount of loans of the national banks in the city of New York on October 1, 1877, was \$169,162,391, which is much less than at the date of any report for the last seven years. On January 22, 1870, the loans were \$168,314,034, and on October 8, of the same year, \$168,082,085.

The average rate of interest in New York City for each of the fiscal years from 1874 to 1877, as ascertained from data derived from the *Journal of Commerce* and the *Financial Chronicle* of that city, was as follows:

1874, call loans, 3.8 per cent.; commercial paper, 6.4 per cent.
 1875, call loans, 3.0 per cent.; commercial paper, 5.6 per cent.
 1876, call loans, 3.3 per cent.; commercial paper, 5.3 per cent.
 1877, call loans, 3.0 per cent.; commercial paper, 5.2 per cent.

The average rate of interest of the Bank of England for the same years was as follows:

During the calendar year ending December 31, 1874, 3.69 per cent.
 During the calendar year ending December 31, 1875, 3.23 per cent.
 During the calendar year ending December 31, 1876, 2.61 per cent.
 During the fiscal year ending June 30, 1877, 2.16 per cent.

The rate of interest in the city of New York, on November 30 of the present year, as quoted in the *Daily Bulletin*, was, on call loans, from five to seven per cent., and on commercial paper of the best grade, from five and one-half to seven per cent. The rate of interest of the Bank of England was increased to five per cent. on October 11, and was reduced to 4 per cent. on November 29.

TAXATION.

The following table exhibits the amount of taxes paid by the national banks to the United States, yearly, from the establishment of the system to July 1, 1877, the rate of taxation being one per cent. annually upon the average amount of notes in circulation, one-half of one per cent. annually upon the average amount of deposits, and a like rate upon the average amount of capital stock not invested in United States bonds:

The number and value of two-cent check stamps sold by the Commissioner of Internal Revenue, yearly, cannot be ascertained. The value of such stamps ordered from contractors during the fiscal years designated was as follows: In 1874, \$1,502,549; 1875, \$1,949,166; 1876, \$1,882,941; and in 1877, \$1,889,334.

From the above tables it will be seen that the total amount collected from the national banks, State banks and private bankers, during the last year, was \$10,828,656.12, and from the date of the imposition of the tax to the present time, not including the tax on bank-checks, it was \$126,988,461.59. The total amount of tax paid upon circulation by the national banks to July 1, 1877, was \$36,827,770.27; while the whole expense of this office from its organization to the same date, has been \$4,298,270.34, which, under section 5173 of the Revised Statutes, is payable out of the proceeds of this tax. The tax upon the national banks has been, from the beginning, collected without expense to the government.

The Comptroller, in August last, issued a circular requesting the national banks to report the amount of State taxes paid by them for the year 1876, and in reply received returns from all the banks continuously in operation throughout the year, 2,046 in number, having an aggregate capital of \$488,272,782. From these reports, and the returns made to the Treasurer, the following table has been prepared, giving the amount of United States and State taxes paid by the national banks in each of the States, Territories and principal cities, together with the rates of taxation upon capital, for the year 1876:

Similar tables for the years 1867, 1869, 1874 and 1875 will be found in the Appendix. Statements of the amount of State and municipal taxes paid by the national banks for the year 1866 were also received, but were not tabulated by States. From the data for the years named, estimates have been made for 1868, 1870, 1871, 1872 and 1873, and a table has been prepared, showing the amount of national and State taxes paid yearly by the national banks, for the last eleven years, as follows:

In my report for 1876, a table, arranged by States and principal cities, was given, exhibiting the losses charged off by the national banks during the two dividend periods, of six months each, ending respectively on March 1 and September 1, 1876, the information having been derived from the dividend reports made to this office under section 5212 of the Revised Statutes. A similar table is herewith presented, showing the losses charged off, as above stated, during the years 1876 and 1877 :

The table shows that the losses for the first six months of the year were \$8,175,960.56, and for the last six months \$11,757,627.43; total, \$19,933,587.99. The losses for the preceding year were, for the first six months, \$6,501,169.82, and for the last six months \$13,217,856.60; total, \$19,719,026.42, showing an increase in the total losses for the current year over those of the preceding year of \$214,561.57. The amount of losses charged off by the banks in the principal cities was as follows:

Cities.	1876.	1877.
New York	\$6,873,759 97	\$4,247,941 66

The internal-revenue law of July 1, 1862, imposed taxes upon almost the entire property and products of the country. The amount of internal revenue collected during the fiscal year ending June 30, 1866, was nearly \$310,000,000. The act of July 13 of that year largely reduced this amount, and a still further reduction was effected by the legislation of the two following years, which exempted from taxation all manufactures and products except gas, spirits, tobacco and fermented liquors. The entire internal revenue is now derived from taxes upon the three last-mentioned articles, upon such articles as require the use of proprietary stamps, and upon bank deposits, capital, circulation and checks. It is difficult to understand why the tax upon bank deposits, which tax, like the others, was essentially a war-tax, was not repealed at the same time, unless because of an unjust prejudice against banks which is peculiar to this country, and which is traceable to the large losses heretofore sustained by the people upon bank currency issued under the authority of injudicious laws of many of the States.

The *London Bankers' Magazine*, for April, 1877, in commenting upon this subject says: "It is easy to understand how, in the midst of that terrible struggle for existence which racked for a time every joint and sinew of national life almost past endurance, the Government of the United States felt compelled to seize hold of every and any available basis for taxation, and hence fixed on the easily-reached resources of the banks as a most valuable source of supply. But now that those dangers are happily passed, no adequate reason can be given for such an impost. There is nothing which conduces more to the prosperity of a country than a sound system of banking, and besides good management, which is of course understood, nothing is more essential to sound banking than sufficient and ample capital—capital large enough to enable depositors to feel they may rest on it in safety; and any measure which imperils the growth of banking capital for the sake of the taxes which may be levied on it is indeed short-sighted."

The deposits of the banks, which at present amount to more than \$2,000,000,000, as may be seen by reference to another page, are considerably more than twice the whole amount of the paper currency and coin in the country. They are not money, but merely represent commodities which, to a great extent, are not subjected to national taxation. The wheat and flour which are shipped from St. Paul to Chicago are taxed in the banks at St. Paul, if their avails are represented by a bill of exchange. If the same commodities are reshipped from Chicago to the East, a tax is again imposed in Chicago upon their representative bill of exchange, and again in the seaboard city when they are exported to a foreign market. The same is true of the avails of cotton shipped from the South, and of manufactures sent from the New England and other States.

According to the Treasury regulations, deductions of amounts re-deposited are not allowable in estimating the taxable deposits. The total individual and bank deposits of each bank must therefore be returned without allowance of such moneys as are deposited by it with its correspondents. A temporary resident in Florida draws his check against his deposit in Boston, which is already subjected to taxation in that city. The bank at Jacksonville transmits the check to its correspondent at Savannah, the Savannah bank transmits it to Philadelphia, the Philadelphia banker to New York, and the New York banker to Boston, where the check is collected. According to the regulations of the Department,

this check, which is not money, but which represents the amount on deposit in Boston, is subject to tax five different times while in transit.

The State laws generally authorize the indebtedness of individuals to be deducted from personal property returned for the purposes of taxation; but the tax on deposits is, on the contrary, a tax upon the indebtedness of the banks, and not only upon their indebtedness to private individuals and corporations, but, in the case of disbursing-officers of the United States, to the government itself. The law requires that the banks shall keep on hand, as a permanent reserve fund, from fifteen to twenty-five per cent. of their deposits; and these reserves, which are held without profit to the banks, and solely for the security of their bill-holders and depositors, are also subjected to a tax. The injustice of all this would seem to be apparent.

The losses of the banks have been unprecedentedly large since the panic of 1873. Many banks have paid no dividends, and others have frequently been paid from surplus, which fund the law contemplates shall be held as a reserve fund for the protection of depositors and dealers.

The banks are not a monopoly, nor is their stock very largely held by the rich men of the country. It is distributed quite generally among people of moderate means, who need for their support regular dividends upon the small amounts of stock which represent their accumulated earnings. This fact will be seen by reference to the carefully-prepared tables on this subject given in my last annual report, where it appears that the number of shareholders of the national banks was then 208,486, and that the average amount of stock held by each shareholder was but about \$3,100. More than one-half of these shareholders held but ten shares or less, each, (not to exceed \$1,000,) while the entire number holding more than one hundred shares each was but 10,851, or only about one-twentieth part of the whole number, and, of these, but 767 held more than five hundred shares each.

The resources of the banks are reported regularly to the Comptroller in sworn statements, and are published in the newspapers of nearly every village in the country. They are also presented annually in the reports of the Comptroller, and are, therefore, accessible to the assessors of every town; so that the banks cannot evade taxation, or deceive the authorities, or resort to any of the devices which other corporations and many private individuals practice with great success. The banks thus pay a large percentage of the taxation which should, in justice, be imposed upon other capital, but which they cannot evade unless they diminish their capital or surrender their business. The State taxes have increased to such an extent in recent years that, in many of the cities, they alone are equal to two and sometimes even three per cent. of the capital of the banks; and instances are known where these institutions pay four-fifths of the personal taxes of the communities in which they are located.

The only plausible reason given for continuing the tax upon the banks is that they enjoy special privileges. But the only real privilege which they possess is that of issuing circulation, and even that is not a restricted privilege, but is one open to all who see fit to engage in the business of banking. Moreover, the profit upon circulation does not, under the most favorable circumstances, exceed two and one-half per cent., and, if issued upon four per cent. bonds, does not exceed one and one-half per cent. of its amount. That it is not a great source of income is evidenced by the fact that the banks have, since the passage of

the act of January 14, 1875, voluntarily reduced their circulation more than forty-four millions of dollars.

The State taxation upon national banks, as will be seen by reference to the tables accompanying this report, is also oppressive because of the unjust system of valuation which prevails in almost every State. For instance, the State assessors of New York, in their report for 1873, say:—"We are satisfied that less than fifteen per cent. of the personal property of the State, liable to taxation, finds a place on the rolls of the assessor, and of mortgages not even five per cent. * * * The amount of personal property assessed, in some of the counties, is less than the banking capital, and the same is true of thirty towns and cities, among which are some of the most prosperous in the State."

In the report of the assessors for 1876, the total personal estate in the State of New York was returned at \$379,488,140, and of the city of New York at \$218,626,178. The bank assessment in that city for the same year was \$85,145,116. The banks of the city, therefore, paid nearly one-fourth of the whole personal tax of the State, and nearly forty per cent. of the personal tax of the city. The Supreme Court of the United States, in the case of the *Gallatin National Bank vs. The Commissioners of Taxes*, decided that the shares of national banks should be assessed at their full and true value, without regard to their par value. The New York assessors had said that shares of bank stock in that State were then assessed to a greater extent than any other kind of personal property; but, under the Supreme Court decision, the assessment for 1876 of the banks in New York City was increased \$11,754,127. The assessment for that year of the personal property in the whole State was also subsequently increased, but the entire increase, exclusive of the more than eleven millions added to the assessment of New York City bank stock, was but \$9,758,758: and it is probable that even this amount was very largely composed of increased assessments on the stock of the banks outside of New York City.

The commissioners of taxes and assessments for the city of New York, in their report of June 30, 1877, say:—"It is unnecessary to reassert at any length the fact, so often stated in previous reports, that the personal property actually assessed in the city and State of New York is small, compared with the actual possessions of their citizens, and that the assessments represent rather the meager provisions of the law than the wealth of the State. * * * The practical effect of the present law is to exempt foreign banking capital used here, and to tax domestic banking capital." They report the total assessments on personal property in the city of New York for the year 1875 at \$217,300,154, of which \$73,390,989 was upon bank stock. Total assessments for 1876, \$218,626,179, of which \$85,145,117 was upon bank stock. Total assessments for 1877, \$206,028,160, of which \$73,614,274 was upon bank stock. The number of persons assessed in 1875, other than bank shareholders, was 8,920; in 1876, 9,233; in 1877, 10,519. The number of shareholders of banks assessed upon their stock was, in 1875, 25,236; in 1876, 25,698; in 1877, 24,649. The reduction of the number of shareholders and of the assessment upon banks in 1877 was due to the reduction of capital and surplus, caused by excessive taxation.

The actual capital and surplus of fire and marine insurance companies in New York was, in 1874, \$58,670,000, but they were assessed at less than \$7,000,000. The total capital of incorporated companies and associations was estimated in 1871, by a commission appointed by the governor, at \$856,500,000, exclusive of surplus and undivided profits. The total assessment of these associations in 1874, was only \$130,000,000,

of which the banks in New York City alone paid seventy-three per cent. If the capital of other associations were assessed like bank stock, at its true value, the proportional assessment of the banks would be but eleven per cent. of the whole, instead of seventy-three per cent., as at present.

By a decision of the Court of Appeals of the State of New York, foreign capital transmitted to that State, to be loaned and employed in business, is exempt from taxation. A national bank with a capital of \$4,000,000 paid taxes in 1876, amounting to \$200,000—or at the rate of five per cent. on its capital, while a foreign agency, employing an equal amount of capital, paid nothing. Ten banks in one of the cities in the State of New York having a population of 46,000 persons, pay taxes upon \$2,750,000, which is more than their aggregate capital; while the aggregate personal property of all other corporations and individuals in the same city, the true value of which is estimated at \$15,000,000, is assessed at but \$990,000. The bank shareholders of that city, numbering 924, of whom more than one third are women, hold, each, an average of \$3,000 of stock. It is estimated that at least 3,000 other persons in that city possess personal property amounting to \$3,000 each. These persons either escape taxation altogether, or are taxed upon a valuation not exceeding \$300 each. The holders of bank stock in that city, therefore, pay a tax at least ten times as great as that paid by the holders of stock in other corporations. The banks in other cities and States are subjected to similar injustice. Even were the United States taxes to be repealed, the banks would still be subject to a tax at least twice as great as that imposed previous to the year 1862. The elaborate tables which are herewith presented furnish convincing evidence in favor of the repeal of the law imposing the tax upon capital and deposits.

The prayer for the repeal of bank-taxes proceeds not alone from officers and shareholders of the banks. The most urgent appeals to Congress are from chambers of commerce and boards of trade in the principal cities of the Union. The following extract from the petition of the Chamber of Commerce of the city of New York, which represents not only the commercial and business interests of that city, but also to a large extent the public sentiment of the business men of the country, declares “that war-taxes, both heavy and unequal in their burden, are imposed on the national banks, State banks, savings-banks and private bankers of this country, which taxes have been for several years productive of great commercial injury; that in no other country are such taxes incurred by the business of banking; that, the exigency having passed away, the war-taxes can be taken off without any sacrifice to the Treasury at all commensurate with the benefits which will result to the agricultural, financial, commercial and industrial pursuits of the country; that the continuance of this onerous and discriminating taxation on banking capital is rapidly withdrawing it from that business, leaving the commerce and industries of the country illy prepared to meet a long-hoped for returning tide of prosperity; and that a persistence in this unequal and special tax can lead to but one result, and that is to prolong the present period of depression and inactivity.”

The *London Economist*, a high and impartial authority, in discussing the last report of the Comptroller, says:—“Now there may be some difference of opinion among economists as to the expediency and equity of a tax upon the circulation of the banks, the right of note-issue being a privilege conferred by the State, from which the banks derive a profit; but there can be no question whatever as to the injustice and injurious nature of the other forms of government taxation. The Comptroller points out that the amount of tax to which the national banks are sub-

ject is much greater than that imposed on any other capital in the country; and it is precisely in such a case as this, where taxes are imposed upon the accumulated savings of the country, gathered together into stores available and necessary for the conduct and development of its commerce, that the taxing of capital engaged in trade assumes its most pernicious aspect."

DIVIDENDS.

The law provides, not only that each national bank shall, before the declaration of every dividend, carry one-tenth part of its net profits of the preceding half year to its surplus fund, until the same shall amount to twenty per cent. of its capital, but that no association or any member thereof shall, during the time it shall continue its banking operations, withdraw, or permit to be withdrawn, either in the form of dividends or otherwise, any portion of its capital, and that losses and bad debts shall be deducted from its net profits before any dividend shall be declared. The Comptroller has endeavored to carry out the provisions of this law, and the correspondence of the Office shows that in many instances he has prevented the declaration of illegal dividends. If a bank suffers a loss greater than its accumulated earnings, there are but two courses open to it, so far as dividends are concerned: one is, to pass the dividend, and the other, to pay an illegal dividend from the capital stock.

The *London Economist*, in commenting upon the proper policy to be pursued in the case of a bank which has suffered loss, says:—"One (course) is at once to estimate the whole loss, to largely reduce the present dividend, and to write the necessary sum off the reserve fund; the other, to estimate the possible loss low, to write off but little, and, above all things, to declare as high a dividend as possible. In all companies the rules of morality prescribe the former. It is wrong not to provide for plain losses, and wrong to pay unreal dividends. But in the case of a bank, it is not only wrong but dangerous. Perfect explicitness in such cases is the only means of safety. The credit of a bank is its life, and that credit can only be maintained by deserving the confidence of the public, by *telling the whole truth, though it is not favorable*, and by acting consistently upon real facts, though they are not pleasant. If the largest of our joint-stock banks—the bank of which it used to be said that it never was known to lose largely, or to be concerned in any but good business—writes so large a sum off its reserve fund, and lessens its dividend by one-half, no other bank need fear to tell the whole truth and nothing but the truth. Credit will never be good as long as people believe that anything is kept back. No doubt it needs manliness and fortitude to tell the truth, when the truth is not pleasant; but it is only by manliness and fortitude that confidence can be obtained in common life, or that credit can be preserved in the difficult and trying transactions of business."

During the past six months, 288 banks, with a capital of \$41,166,200, have paid no dividends, and many others have largely reduced the amount of their usual dividends. Associations of high character and standing always refuse to impair their capital stock under such circumstances; and the attention of those banks which are conducted upon the theory that a dividend is always necessary for the maintenance of the credit of their associations is called to the excellent advice of the leading financial journal of England, above quoted.

The subjoined table exhibits the aggregate capital and surplus, total dividends and total net earnings of the national banks, with the rates

of dividends to capital, and to capital and surplus, for each half year from March 1, 1869, to September 1, 1877 :

From the above table it will be seen that the average annual dividends upon capital during the past year were 8.93 per cent., while the ratio of dividends to capital and surplus in the same period was but 7.09 per cent. The ratio of earnings to capital and surplus during the six months ending March 1, 1877, was 3.12 per cent.; during the six months ending September 1, 1877, it was but 2.5 per cent. The ratio of earnings to capital and surplus for the year was but 5.62 per cent., from which it is evident that a large portion of the dividends for such year has been made from surplus, or from the earnings of former years.

The following table exhibits similar ratios, by geographical divisions, for the years 1875, 1876 and 1877:

A table, exhibiting in a concise form the ratios of dividends to capital, and to capital and surplus, and of net earnings to capital and surplus, of the national banks in every State in the Union and in the principal cities, semi-annually, from March 1, 1873, to September 1, 1877, will be found in the Appendix.

REDEMPTION.

The following table exhibits the amount of national-bank notes received monthly by the Comptroller, for the year ending November 1, 1877, and the amounts received for the same period at the redemption-agency of the Treasury, together with the total amount received since the passage of the act of June 20, 1874 :

During the year ending November 1, 1877, there was received at the redemption-agency of the Treasury \$229,308,507 of national-bank notes,

of which amount \$71,025,000, or about thirty-one per cent., was received from the banks in New York City, and \$82,659,000, or about thirty-six per cent., from Boston. The amount received from Philadelphia was \$14,859,000; from Baltimore, \$1,461,000; Pittsburgh, \$1,146,000; Cincinnati, \$1,603,000; Chicago, \$3,492,000; Saint Louis, \$1,024,000; Providence, \$5,496,000. The amount of circulating notes, fit for circulation, returned by the agency to the banks during the year, was \$158,626,000. The total amount received by the Comptroller from the redemption-agency, for destruction, and from the national banks, direct, was \$75,850,063. Of this amount, \$6,811,790 were issues of the banks in the city of New York, \$6,176,437 of Boston, \$2,469,455 of Philadelphia, \$1,592,920 of Baltimore, \$1,462,517 of Pittsburgh, \$603,900 of Cincinnati, \$814,252 of Chicago, \$446,280 of Saint Louis, \$575,167 of New Orleans, \$494,050 of Albany, and \$494,600 of Cleveland.

There were, on November 1, \$255,580,790 of national-bank notes outstanding upon which the charter-number had been printed, and \$60,301,200 not having that imprint.

The following table exhibits the number and amount of national-bank notes of each denomination which have been issued and redeemed since the organization of the system, and the number and amount outstanding on November 1, 1877:

Section 5175 of the Revised Statutes provides "that not more than one-sixth part of the notes furnished to any association shall be of a less denomination than five dollars, and that after specie payments are resumed, no association shall be furnished with notes of a less denomination than five dollars;" and section 5185 prohibits the issue to gold-banks of circulating notes of a less denomination than five dollars. The amount of such notes issued to national banking associations has always been greatly below this limitation. The whole amount of one and two dollar notes in circulation at the present time is but \$6,083,340, which is less than one-eighth of the proportion to which they are legally entitled. The small amount of these issues is attributable in part to the legal limitation; but more especially to the time and labor involved in signing them, as well as to the further fact that legal-tender notes of these denominations can be readily obtained at the Treasury. The amount of such legal-tender notes now outstanding is \$49,407,003. The amount of tens and twenties of national-bank notes outstanding is \$191,817,750, and the amount of outstanding legal-tender notes of the latter denominations is \$123,983,356. The amount of national-bank notes of the denomination of fifty dollars, and over, is \$52,515,600, and of legal-tender notes, \$129,161,385.

Of the entire amount of legal-tender and national-bank notes outstanding more than eight per cent. are of the denominations of ones and twos, nearly twenty-two per cent. of fives, twenty-four per cent. of tens, and nineteen per cent. of twenties. Of these entire issues, less than twenty-five per cent. in amount are of the denomination of fifty dollars and upward.

Section 5182 of the Revised Statutes requires that the circulating notes of national banks shall be "signed by the president or vice-president and cashier thereof." The signature of at least one bank officer is necessary, as a check between this Office and the issuing bank; for, if the question of an overissue of notes should arise, the signature of such officer would determine the genuineness of the note. A number of banks, however, issue their notes with printed signatures, and, in some cases, with lithographic ones, which are frequently so badly executed as to excite suspicion as to the genuineness of the notes. The Comptroller recommends an amendment of section 5182 of the Revised Statutes,

* Fractions of notes not presented or destroyed.

† Legal-tender notes destroyed in Chicago fire; denominations unknown.

imposing a penalty of twenty dollars for every note issued without the written signature of at least one of the officers of the bank.

INSOLVENT BANKS.

Since my last report receivers have been appointed for ten banks, as follows:

	Capital.
First National Bank of Greenfield, Ohio.....	\$50,000
National Bank of Fishkill, N. Y.....	200,000
First National Bank of Franklin, Ind.....	132,000
Northumberland County National Bank, Shamokin, Pa.....	67,000
First National Bank of Winchester, Ill.....	50,000
National Exchange Bank of Minneapolis, Minn.....	100,000
National Bank of the State of Missouri, Saint Louis, Mo.....	2,500,000
First National Bank of Delphi, Ind.....	50,000
First National Bank of Georgetown, Colo.....	75,000
Lock Haven National Bank, Lock Haven, Pa.....	120,000
	3,344,000

Dividends have been paid to the creditors of seven of these banks, as follows:

National Bank of Fishkill, N. Y.....	45 per cent.
First National Bank of Franklin, Ind.....	25 per cent.
Northumberland County National Bank Shamokin, Pa.....	25 per cent.
First National Bank of Winchester, Ill.....	20 per cent.
National Exchange Bank of Minneapolis, Minn.....	50 per cent.
National Bank of the State of Missouri, Saint Louis, Mo.....	25 per cent.
First National Bank of Delphi, Ind.....	25 per cent.

The aggregate amount of these dividends is \$759,799.09, the average rate being 27.6 per cent. Dividends have also been paid during the year to creditors of banks which failed previous to November 1, 1876, as follows:

First National Bank of Nevada, Austin, Nev.....	10 per cent. ; total, 90 per cent.
Ocean National Bank, New York, N. Y.....	20 per cent. ; total, 90 per cent.
New Orleans National Banking Association, La.....	15 per cent. ; total, 30 per cent.
Cook County National Bank, Chicago, Ill.....	8 per cent. ; total, 8 per cent.
First National Bank of Tiffin, Ohio.....	7 per cent. ; total, 27 per cent.
Charlottesville National Bank, Va.....	10 per cent. ; total, 20 per cent.
Miners' National Bank, Georgetown, Colo.....	10 per cent. ; total, 10 per cent.
Fourth National Bank of Chicago, Ill.....	40 per cent. ; total, 40 per cent.
First National Bank of Duluth, Minn.....	20 per cent. ; total, 45 per cent.
City National Bank of Chicago, Ill.....	10 per cent. ; total, 35 per cent.
Watkins National Bank of Watkins, N. Y.....	37½ per cent. ; total, 87½ per cent.
First National Bank of Wichita, Kans.....	35 per cent. ; total, 35 per cent.

A dividend of seven and five-tenths per cent. has also been paid to the shareholders of the Waverly National Bank, Waverly, N. Y., making, in all, one hundred per cent. to depositors and 32.5 per cent. to stockholders, and finally closing the bank. Also a dividend of fifteen per cent. to the shareholders of the National Bank of the Commonwealth, in New York City, making, in all, one hundred per cent. to depositors and thirty-five per cent. to stockholders.

The total amount of dividends disbursed by the Comptroller to creditors and shareholders during the year ending November 1, 1877, was \$1,631,867. The total amount of dividends paid since the organization of the system is \$11,153,462.

Dividends have also been declared since November 1, 1877, in favor of the creditors of the following banks, viz:

Crescent City National Bank, New Orleans, La.....	15 per cent. ; total, 75 per cent.
First National Bank of Wichita, Kans.....	10 per cent. ; total, 45 per cent.
Lock Haven National Bank, Lock Haven, Pa.....	10 per cent. ; first dividend.
Miners' National Bank of Georgetown, Colo.....	25 per cent. ; total, 35 per cent.
First National Bank of Norfolk, Va.....	10 per cent. ; total, 45 per cent.
City National Bank of Chicago, Ill.....	10 per cent. ; total, 45 per cent.

Assessments have been made upon the shareholders of twenty-six insolvent national banks, for the purpose of enforcing their individual liability, the amount of such assessments being \$5,108,500, of which \$824,032.89 has been collected. The amount of assessments made during the past year was \$1,502,400.

From the date of the establishment of the national banking system to June 1, 1877, fifty-five banks had failed, with an aggregate capital of \$10,875,100. The amount of creditors' claims proved was \$17,899,886, and that of dividends paid was \$10,029,045. The total loss to the creditors of these banks is estimated at \$5,525,000. There has been no loss whatever upon their circulation.

The most fruitful cause of the failure of national banks has been the unlawful use of the funds or credits of these associations by their officers and directors. In most instances these persons have accomplished this malfeasance or crime by obtaining, in their official capacity, the discount of notes in which the bank had no interest. The receivers of six different banks, which have recently failed, have declined to allow claims for discounted paper bearing the indorsement of the bank, upon the ground that the claimant had good and sufficient notice that such paper was discounted for the benefit of individuals and not of the bank. The passage of an act prohibiting a bank from borrowing money upon its own obligation, or from loaning its credit, is recommended; and it is also suggested that an act prohibiting any bank from obtaining rediscounts upon its own bills receivable, unless authorized by its board of directors, under the seal of the bank, would have the effect to put other banks upon their guard, when applied to for such favors.

A table showing the national banks which have been placed in the hands of receivers, the date of appointment of such receivers, the amount of capital and of claims proved, and the rates of dividends paid to creditors, and also one showing the amount of circulation of such banks, issued, redeemed and outstanding on November 1, 1877, will be found in the Appendix.

STATE BANKS AND SAVINGS-BANKS.

Section 333 of the Revised Statutes requires the Comptroller to report to Congress "a statement exhibiting, under appropriate heads, the resources and liabilities and condition of the banks, banking companies and savings-banks organized under the laws of the several States and Territories; such information to be obtained from the reports made by such banks, banking companies and savings-banks to the legislatures or officers of the different States and Territories, and where such reports cannot be obtained, the deficiency to be supplied from such other authentic sources as may be available."

The laws of the United States require returns of capital and deposits to be made to the Commissioner of Internal Revenue, for purposes of taxation, by all State banks, savings-banks and private bankers. These returns have been procured from the Commissioner, and the following table compiled therefrom in this Office, which exhibits the number of State banks, savings-banks, trust companies and private bankers, and

A table, giving the number of State banks, savings-banks, trust companies and private bankers in the United States, with their average capital and deposits, and the taxes thereon for the six months ending November 30, 1876, will be found in the Appendix.

The returns tabulated above refer only to capital and deposits. The Comptroller is required by law, as before stated, to report to Congress the resources and liabilities of banks other than national banks, so far as such information can be obtained by him. This requirement was first made by act of February 19, 1873, and in compliance therewith the Comptroller has endeavored for the past four years to furnish as complete statistics of the condition of these institutions as could be obtained. Statements relative to the condition of the State and savings banks of New York, and of the New England States, are readily obtained from their State authorities. A summary of these statements, and of returns showing the condition of the State banks of Pennsylvania, Maryland, Kentucky, Ohio, Indiana, Michigan, Wisconsin, Iowa and Minnesota, are given in the Appendix. Complete returns are also given, showing the condition of the savings-banks of New Jersey, Ohio and Indiana, and partial returns of such banks are given for the States of Pennsylvania and Maryland.

The Comptroller is indebted to the *San Francisco Evening Bulletin* for returns from the State banks and savings-banks in California, which, by the act of the legislature of April 1, 1876, are required to be filed for record in the office of the recorder of the county, and to be published by all banks and private bankers in a newspaper published in the county where their banking-offices are located. In the returns made by the California banks, specie is not separated from United States and national-bank notes. In compiling these returns from the several States, all banks having capital stock are included under the head of State banks, while banks having no capital stock are placed under the head of savings-banks.

It will be seen that complete returns of State banks have been received from seventeen States only, of savings-banks from but ten, and of trust and loan companies from only four States. The legislature of Missouri recently passed a law requiring all banks in the State to make reports in the month of December. There are ten States and eight Territories in which no reports are required. With a view of rendering this system of reports more complete and effective than at present, the Comptroller has prepared the form of a bill, which is herewith presented; and it is respectfully suggested to members of Congress and State officers that, if approved by them, they shall lend the weight of their influence to procure the enactment of a law, similar in form, by the legislatures of their respective States. It may be mentioned that a bill, substantially the same as that here presented, was passed by the legislature of Ohio last year.

A BILL to provide for obtaining and publishing reports of banks, savings institutions, and trust companies organized under State laws.

Be it enacted, That each and every banking institution, organized under the laws of this State, shall make a report to the auditor of state, showing the condition thereof before the commencement of business on the first Monday in the months of January, April, July, and October, of each year.

SEC. 2. That the auditor of state shall issue his requisition upon all banking institutions, for the reports required to be made by section 1 of this act, a convenient number of days prior to the first day of January, April, July and October, in each year, and each banking institution shall, upon receipt thereof, immediately forward to the auditor a balanced report of its condition, verified by the oath or affirmation of one or more of the officers of such institution, and shall also publish such report in full at its own expense, in a newspaper issued at the place where the institution is located, or, if there be no newspaper in that place, then in the one nearest thereto; and any banking insti-

tution neglecting to make and transmit to the auditor of state, and publish, such reports, shall, after the expiration of five days from the receipt of the requisition therefor, be subject to a penalty of thirty dollars for each day's delay, which penalty may be collected by suit to be brought by the auditor of state, or by any creditor of the association, before any court of competent jurisdiction in the district wherein such banking institution is located; and all sums of money collected for penalties under this section shall be paid into the treasury of the State.

SEC. 3. That banks, trust companies, savings-banks and other banking institutions, having capital stock, shall report their resources and liabilities in the following form:

INDIVIDUAL LIABILITY OF SHAREHOLDERS.

Previous to the year 1858 banking companies could not be organized in England with limited liability, except by way of privilege under special acts of Parliament, royal charters or letters patent. The Bank of England, and three banks in Scotland, were thus privileged. In the year 1858 an act was passed authorizing the formation and registration of banking companies with limited liability—that is, limited to the total amount of each share, whatever might be the amount actually paid up at the time. In the Scotch banks, with the exception of the Bank of Scotland and two chartered banks with large capitals, the private fortune of every stockholder is answerable for the debts of the bank.

The elaborate banking law of Sweden, (act of 1864,) which contains severe restrictions, together with many excellent features, requires the transfer of shares to be registered in court, and also advertised in the newspapers at the time the transfer is consummated. The partners in such banking companies must be Swedish subjects, in number at least thirty, and “they are responsible, one for all and all for one, for the fulfillment of all the engagements of the banking company.” These are called “partners with joint responsibility.” These partners may unite with themselves shareholders whose responsibility for the engagements of the company is limited to the full amount of their shares. These are called “shareholders with limited liability,” and such may not be received into the company for more than, at most, one-half of the amount which the partners with joint responsibility put into the capital. The board of directors is formed from those partners, only, who have a joint responsibility. Similar provisions in reference to the liability of shareholders are in existence in other countries.

The safety-fund system of the State of New York, authorized in 1829, contained no provision in reference to the individual liability of shareholders, nor did the free-banking act of 1838. An attempt was made in the year 1828, and many times subsequently, to enact such a provision, but it was always bitterly contested in the legislature, and defeated. The principle was, however, considered of so great importance that a section was incorporated in the constitution of the State, in 1846, providing that after the 1st day of January, 1850, the stockholders of all banks issuing circulating notes “shall be individually responsible to the amount of their respective share or shares of stock in any such corporation or association for all its debts and liabilities of every kind contracted after the said 1st day of January, 1850,” and the constitution, as amended in 1874, contains substantially the same provision. The same principle was subsequently incorporated into the bank legislation of Ohio and other States.

Section 5151 of the Revised Statutes of the United States provides that the shareholders of every national banking association shall be held individually responsible, equally and ratably, and not one for another, for all contracts, debts and engagements of such association, to the extent of the amount of their stock therein, at the par value thereof, in addition to the amount invested in such shares. Suits have been brought against the shareholders of twenty-six banks for the enforcement of this individual liability. Assessments have been made to the amount of \$5,108,500, of which \$324,032.89 has been collected. The first suit under this section was that of *Kennedy vs. Gibson*, brought to enforce the individual liability of the shareholders of the Merchants' National Bank of Washington, which bank failed on May 8, 1866. This suit was appealed to the Supreme Court of the United States, and in December,

1869, an elaborate opinion was given by that court, from which the following quotation is made:

The receiver is the instrument of the Comptroller. He is appointed by the Comptroller, and the power of appointment carries with it the power of removal. It is for the Comptroller to decide when it is necessary to institute proceedings against the stockholders to enforce their personal liability, and whether the whole or a part, and, if only a part, how much shall be collected. These questions are referred to his judgment and discretion, and his determination is conclusive. The stockholders cannot controvert it. It is not to be questioned in the litigation that may ensue. He may make it at such time as he may deem proper, and upon such data as shall be satisfactory to him. This action on his part is indispensable whenever the personal liability of the stockholders is sought to be enforced, and must precede the institution of suit by the receiver. The fact must be distinctly averred in all such cases, and if put in issue must be proved.

The liability of the stockholders is several and not joint. The limit of their liability is the par of the stock held by each one. Where the whole amount is sought to be recovered, the proceedings must be at law. Where less is required, the proceedings may be in equity, and in such case an interlocutory decree may be taken for contribution, and the case may stand over for the further action of the court—if such action should subsequently prove to be necessary—until the full amount of the liability is exhausted. It would be attended with injurious consequences to forbid action against the stockholders until the precise amount necessary to be collected shall be formally ascertained. This would greatly protract the final settlement, and might be attended with large losses by insolvency and otherwise in the intervening time. The amount must depend in part upon the solvency of the debtors and the validity of the claims. Time will be consumed in the application of these tests, and the results in many cases cannot be foreseen. The same remarks apply to the enforced collections from the stockholders. A speedy adjustment is necessary to the efficiency and utility of the law—the interest of the creditors requires it, and it was the obvious policy and purpose of Congress to give it. If too much be collected, it is provided by the statute that any surplus which may remain after satisfying all demands against the association shall be paid over to the stockholders. It is better they should pay more than may prove to be needed than that the evils of delay should be encountered. When contribution only is sought, all the stockholders who can be reached by the process of the court may be joined in the suit. It is no objection that there are others beyond the jurisdiction of the court who cannot for that reason be made codefendants.

At the last term of the Supreme Court it reaffirmed this decision in the case of *Casey, receiver, vs. Galli*, Italian vice-consul. In this case the order was to collect the par value of the stock, and therefore the suit was at law. The declaration on the part of the receiver demanded judgment for the par value of defendant's stock, as debt, and interest from the date of said order, as damages. To this defendant demurred specially, for four reasons, viz: First, that defendant was bound to contribute ratably, and that the proper amount could be ascertained only in equity; second, that defendant was bound to contribute ratably to pay a large sum, that this sum was not stated in the declaration, and hence what would be ratable and proper did not appear; third, that the obligation of defendant was to pay into the hands of the Comptroller a ratable portion of the debts of the association proved before him, but the declaration did not show that any debt had been so proved; fourth, that the declaration demanded a larger sum than defendant was bound to pay, in that it claimed interest by way of damages.

The court in passing upon this demurrer said:—"In regard to the first three of these objections, it is sufficient to say that *Kennedy vs. Gibson* is conclusive against them. It is there said that the amount to be paid rests in the judgment and discretion of the Comptroller, that his determination cannot be controverted by the stockholders in suits against them, and that when the order is to collect the full amount of the par of the stock, the suit must be at law. It is unnecessary to reproduce the reasoning of the court in support of these propositions."

After the judgment of the court the counsel for the defendant filed

two "special pleas in bar." 1. That the Comptroller had determined to collect from the defendant, and other shareholders who were solvent, money sufficient to pay the debts of the bank, without collecting from those who were insolvent. 2. That the receiver or the Comptroller had allowed, and determined to pay, a large amount of claims which the bank was not liable for, because of the prohibitions contained in section 5202 of the Revised Statutes, and that, without these, the assets of the bank were sufficient to pay all its debts. The court held that the first plea was bad, not only for special reasons, but because the Comptroller had ordered collections from all stockholders, which order was conclusive upon the defendant, as already decided in the case of *Kennedy vs. Gibson*. The second plea was also held bad, the court saying that "the same objection lies to this plea as to the preceding one, and the same authority applies." So, also, in the same case, a plea in abatement, alleging that there was no such corporation as the New Orleans National Banking Association, because the owners of two-thirds of the capital stock of said Bank of New Orleans did not authorize the bank to be converted into a national association under the laws of the United States, nor to accept an organization certificate as such banking association, was held bad on general demurrer. The court decided that the Comptroller was clothed with jurisdiction to decide as to the completeness of the organization, and that, for the purposes of this litigation, his certificate is conclusive upon the subject. "It has the same effect, and for the same reasons, as his determination and order with regard to the amount to be collected from each shareholder in the event of the failure of an association." "No question can be raised in this collateral way as to either." Upon this point the case of *Thacher vs. West River National Bank* (19 Mich., 199) is cited and concurred in.

Subsequently, in the case of the *Crescent City National Bank, Case, receiver, vs. Germania National Bank, et al.*, the Supreme Court recognized the power of the Comptroller to make and repeat assessments, until the limit of the par value of stock is reached.

Section 5151 of the Revised Statutes is in the nature of a contract between the shareholders and the depositors of a national bank, and section 5210 of the Revised Statutes provides that "every national banking association shall cause to be kept at all times a full and correct list of the names and residences of all the shareholders in the association, and the number of shares held by each, in the office where its business is transacted, which list shall be subject to the inspection of all the shareholders and creditors of the association; and that a copy of such list, on the first Monday of July of each year, verified by the oath of the president or cashier, shall be transmitted to the Comptroller of the Currency." The law thus provides that the depositors shall at all times have the means of ascertaining the names of the shareholders of the bank to whom they intrust their money, and it is right that these stockholders shall be held individually responsible for its prompt return; and it has been held in a number of cases that, until there is a transfer of shares on the books of the bank, the shareholder whose name there appears is liable for the debts of the bank, and that an actual sale and the signing of an ordinary power of attorney on the back of the certificate of stock will not relieve the seller from liability.

It has also been held by the Supreme Court that shareholders must pay interest upon their assessments, from the date thereof. It is the duty of the Comptroller speedily to collect and promptly to distribute these assessments. The chief points in reference to the liability of shareholders have been presented and determined by the highest court. Nothing,

therefore, but delay and expense can result from the refusal of stockholders to pay their individual liability, when called upon for that purpose by the Comptroller.

Section 1010 of the Revised Statutes provides that "where, upon a writ of error, judgment is affirmed in the Supreme Court or a circuit court, the court shall adjudge to the respondents in error just damages for his delay, and single or double costs, at its discretion." Yet parties of high standing and well-known responsibility postpone the payment of legal assessments by appeal to the courts, notwithstanding these decisions. The Comptroller will endeavor to collect from such parties, not only the principal and interest, but the penalty of such delay, as provided by law.

SYNOPSIS OF SUPREME COURT DECISIONS.

A synopsis of the decisions of the Supreme Court of the United States, relative to the national banks, was prepared for my last annual report by the Hon. Charles Case, late receiver of two national banks in the city of New Orleans, now practicing his profession in this city. Mr. Case, at my request, has revised that synopsis, adding not only the recent decisions of the Supreme Court, but many adjudications of other Federal courts, and, in some instances, the rulings of State tribunals upon points pertaining or applicable to national banks.

ABATEMENT.

- I. An action brought by a creditor of a national bank is abated by a decree of a district or circuit court dissolving the corporation and forfeiting its franchises. (*National Bank of Selma vs. Colby*, 21 *Wallace*, p. 609.)
- II. Suit by the receiver of the *New Orleans National Banking Association* (formerly a State organization called the Bank of New Orleans) against a shareholder to enforce his personal liability. Plea in abatement that "at the date of the appointment of said receiver there was not, nor has there since been, nor is there now, any such corporation as said New Orleans National Association, because said Bank of New Orleans had no power by its charter, nor authority otherwise from the State of Louisiana, to change its organization to that of a national association under the laws of the United States."

On general demurrer this plea was held bad, because no authority from the State was necessary to enable the bank to make such change. The option to do so was given by the forty-fourth section of the banking act of Congress, 13 Statutes, 112. "The power there conferred was ample, and its validity cannot be doubted." (*Casey, receiver, &c., vs. Galli*, 4 *Otto*, p. 673.)

This plea was also held bad upon the additional ground that "where a shareholder of a corporation is called upon to respond to a liability as such, and where a party has contracted with a corporation, and is sued on his contract, neither is permitted to deny the existence and legal validity of such corporation." (*Ibid.*)

"To hold otherwise," says Mr. Justice Swayne, (p. 680), "would be contrary to the plainest principles of reason and good faith, and involve a mockery of justice. Parties must take the consequences of the positions they assume." "They are estopped to deny the reality of the state of things which they have made to appear to exist, and upon which others have been led to rely. Sound ethics require that the apparent, in its effects and consequences, should be as if it were real, and the law properly so regards it."

ACCOMMODATION INDORSEMENTS.

- I. Where bills, indorsed by a national bank for accommodation only, had been negotiated by the bank through its usual channels of communication with its correspondents as its own bills, and the proceeds thereof had been placed to the credit of the bank, which thereupon gave the same credit to the parties for whom it had thus indorsed, and received no benefit therefrom:

Held, That although an accommodation indorsement by a national bank, in such cases, was void in the hands of holders against whom notice of the character of the indorsement could be concluded, yet that the bank was liable for the same to holders, for value, without notice. (*Blair vs. First National*

ACCOMMODATION INDORSEMENTS—Continued.

Bank, Mansfield, Ohio. United States circuit court for Ohio, at Cleveland, November term, 1875, Emmons, J.
Query, whether, under the provisions of section 5202 of the Revised Statutes of the United States, any indorsement by a national bank is not *ultra vires*.

ACTIONS.

- I. A national bank may be sued in proper State court. (*Bank of Bethel vs. Pahquiogue Bank*, 14 Wall., 383, p. 395.)
- II. Such banks may sue in Federal courts. The word "by" was omitted in section 57 of act of 1864 by mistake. (*Kennedy vs. Gibson*, 8 Wall., pp. 506-7.) Receivers may also sue in United States courts. (*Ibid.*, pp. 506-7.)
- III. When the full personal liability of shareholders is to be enforced the action must be at law. (*Kennedy vs. Gibson*, 8 Wall., p. 505; see, also, *Casey, &c., vs. Galli, supra.*)
- IV. But if contribution only is sought, the proceedings may be in equity, joining all the shareholders within the jurisdiction of the court. (*Ibid.*, pp. 505-6.) See, also, title "SHAREHOLDERS, INDIVIDUAL LIABILITIES OF," VI. *post*. Judge Swayne says "may," and Nelson, J., says that "we may sue at law."

ATTACHMENT OF ASSETS.

1. When a creditor attaches the property of an insolvent national bank, he cannot hold such property against the claim of a receiver appointed after the attachment suit was commenced. Such creditor must share *pro rata* with all others. (*National Bank of Selma vs. Colby*, 21 Wall., p. 609.) See also title "JURISDICTION," II, *post*.

ATTORNEYS.

- I. Section 56 of currency act is directory only, and it cannot be objected by defense that a suit is brought by private attorney instead of the United States district attorney. (*Kennedy vs. Gibson*, 8 Wall., p. 504.)

BY-LAWS.

- I. A national bank cannot by its by-laws create a lien on the shares of a stockholder who is a debtor of the association. (*Bullard vs. National Bank, &c.*, 18 Wall., p. 589.) See also case of *Bank vs. Lanier*, 11 Wall., p. 369, cited under "LOANS ON SHARES," *post*.
 [NOTE.—In *Young vs. Vaughn*, 23 N. J. Equity R., p. 325, it was held that a national bank could by its by-laws prohibit the transfer of shares by a shareholder while indebted to the bank, and that transfers in violation of such by-laws were void. As it is held by the Supreme Court of the United States that such by-laws can create no lien for indebtedness, it would seem that a regulation prohibiting such transfers can be of little practical use, even if the power exists.]

CHECKS.

- I. The holder of a check on a national bank cannot sue the bank for refusing payment, in the absence of proof that it was accepted by the bank. (*National Bank of the Republic vs. Millard*, 10 Wall., p. 152.)
- II. The relation of banker and customer is that of debtor and creditor. Receiving deposits is an important part of the business of banking, but the moment they are received they become the moneys of the bank, may be loaned as a part of its general fund, and the check of the depositor gives no lien upon them. (*Ibid.*, *per Davis, J.*, p. 155.)
- III. Perhaps, on proof that check had been charged to the drawer, and that the bank had settled with him on that basis, the holder or payee could recover on a count for "money had and received." (*Ibid.*, pp. 155-6.)
- IV. The facts that the bank was a United States depository and the check was drawn by a United States officer to a United States creditor do not vary the rule. (*Ibid.*, pp. 155-6.)
- V. Where a bank pays a check drawn on it, in favor of a party whose indorsement thereon is forged, and the same has passed through several hands, only reasonable diligence is required to be exercised in giving notice to prior holders of the forgery, after its discovery, in order to hold them liable. (*Schroeder vs. Harvey*, 75 Ill., p. 638.)
- VI. A clerk of plaintiffs' received from their debtors checks, payable to their (plaintiffs') order, in payment of sums due. The clerk, wrongfully and without authority, indorsed the names of the plaintiffs on these checks and transferred

CHECKS—Continued.

them to other persons, appropriating the proceeds to his own use. Subsequently these checks were deposited with a bank which in good faith collected them and paid over the proceeds to the depositors. In a suit by plaintiffs against the bank, to recover the amount so collected by it: *Held*, That the bank was liable. (*Johnson vs. First National Bank*, 13 N. Y. Sup. Court, p. 121.)

- VII. The act of Congress of March 3, 1869, making it unlawful for a national bank to certify checks unless the drawer has at the time funds on deposit to an amount equal to the amount specified in the check, does not invalidate a conditional acceptance of a check by such bank, having no funds of the drawer in its hands at the time, but engaging to pay the same when a draft left with it for collection by the drawer shall have been paid. (*National Bank vs. National Bank*, West Va. St., p. 544.)

CITIZENSHIP.

- I. National banks are *citizens* of the State in which they are organized and located, and when sued by national banks of other States have a right to demand a removal of the suit from a State to the proper Federal court. (*Chatham National Bank vs. Merchants' National Bank*, 4 Thomp. § C., (*Thompson & Cook*), N. Y. Sup. C., p. 196, and 1 *Hunter*, N. Y., p. 702)

COLLECTIONS.

- I. A collection agent who receives from his principal a bill of lading of merchandise, deliverable to order, and attached to it a *time* draft, may, in the absence of special instructions, deliver the bill of lading to the drawee of the draft, upon the latter's acceptance of the draft. It is not the duty of the agent to hold the bill after such acceptance. (*National Bank of Commerce vs. Merchants' National Bank*, 1 *Otto*, p. 92.)
- II. *Woolen & Co.*, bankers at Indianapolis, sent to defendant, a bank at Buffalo, a draft on one Bugbee, also bills of lading for sundry car-loads of lumber. The remittance was by letter, which merely stated that the draft and bills were sent to defendant for collection and remittance of proceeds to plaintiffs, *Woolen & Co.* The draft was drawn by, and to the order of, *Coder & Co.*, indorsed by them, by Mayhew, and the plaintiffs. By the terms of draft the drawer, indorsers, and acceptor waived presentment for payment and notice of protest and non-payment. It was payable fifteen days after its date, and it was admitted that by ordinary course of *transit* the lumber would reach its destination eight days prior to the maturity of the draft. There had been no business transactions between plaintiffs and defendants save one collection similar to this. Defendants presented the draft to Bugbee for acceptance, and, upon such acceptance, delivered to him the bills of lading. Bugbee failed before the draft matured, and plaintiffs sued defendants for delivering the bills of lading to Bugbee before payment of the draft. It was conceded that the draft was drawn for the price or value of the lumber.
- Held, per Wallace, J.*, that, the draft being on time, it must be presumed that it was the intent of parties that Bugbee should realize from sale of the lumber the funds to meet the draft at maturity. Therefore, upon his acceptance of the draft, he was entitled to the bills of lading, and defendants were not liable for thus delivering them, but if the draft had not been upon time, a different rule might have prevailed. (*Woolen & Webb vs. N. Y. and Erie Bank*, 12 *Blatchf.*, p. 359.)

- III. The *Corn Exchange National Bank of Chicago* sent defendant, the *Dawson Bank* at Wilmington, N. C., a draft drawn upon one *Wiswall*, living at Washington, N. C., for collection. Defendant by letter acknowledged the receipt of the draft, stating that it had been credited to the *Corn Exchange Bank*, and entered for collection. Thereupon defendant sent draft to *Burbank & Gallagher*, bankers at Washington, N. C., for collection. The latter house collected the draft, but failed and passed into bankruptcy before remitting. In a suit brought by the assignee of the *Corn Exchange National Bank* against the *Dawson Bank* to recover the proceeds of the draft, *Held, per Wallace, J.*, that the latter bank was liable for the amount. (*Kent, Assignee, &c., vs. The Dawson Bank*, 13 *Blatchf.*, p. 237.)

[NOTE.—The court concedes that the authorities are conflicting upon the point involved in this case. In *New York, Ohio*, and in *England*, the decisions sustain the conclusion of Judge Wallace, while in *Connecticut, Massachusetts, Illinois and Pennsylvania*, precisely the contrary rule prevails. The point was made in this case that the law of Illinois should control the rights of parties, but it was held otherwise.]

COLLECTIONS—Continued.

- IV. In an action by G against a bank it appeared that a note was made to G's order, indorsed by him and sent through the house of B, a banker, for collection, and by B indorsed to the defendant bank, "for collection and credit." Held that B, by the indorsement, did not become the owner of the note, and had no right to pledge it, or direct its proceeds to be credited to him in payment of his indebtedness to the defendant bank. (*First National Bank vs. Gregg*, 79 Pa. St., p. 384.)
- V. In such case if the defendant bank had made advances, or given new credit to B on the faith of the note, it would have been entitled to retain the amount out of the proceeds. (*Ibid.*)
- VI. A bank holding a customer's demand-note has a lien upon the proceeds of drafts delivered to it for collection, after the giving of the note, though collected after the filing of a petition in bankruptcy, and can apply such proceeds upon the notes. (*Re Farnsworth*, 5 Biss., p. 223.)

COMPROMISES.

- I. In adjusting and compromising contested claims against it, growing out of a legitimate banking transaction, a national bank may pay a larger sum than would have been exacted in satisfaction of them, so as to thereby obtain a transfer of stocks of railroad and other corporations, in the honest belief that by turning them into money under more favorable circumstances than then existed, a loss, which it would otherwise suffer from the transaction, might be averted or diminished. (*First National Bank vs. National Exchange Bank*, 2 Otto, p. 122.)
- II. So, also, it may accept stocks in satisfaction of a doubtful debt, with a view to their subsequent conversion into money, in order to make good or reduce an anticipated loss. (*Ibid.*)
See also ESTATE, REAL, I, *post*.

COMPTROLLER.

- I. The Comptroller appoints the receiver, and can therefore remove him. (*Kennedy vs. Gibson*, 8 Wall., p. 498.)
- II. The Comptroller's certificate, reciting the existence of the facts of which he is required to be satisfied, to justify the appointment of a receiver, under section 50 of the national-bank act, is sufficient evidence of the validity of such appointment, in an action brought by such receiver. (*Platt vs. Bebee*, 57 N. Y., p. 339.)
- III. The Comptroller must authorize any increase of the capital stock of a national bank; and such increase must be certified by him as prescribed by sec. 13 of the act of Congress providing for the organization of national banks. (R. S., sec. 5142. *Charleston vs. People's Nat'l Bank*, 5 S. C., p. 103.)
- IV. The Comptroller cannot subject the United States Government to the jurisdiction of a court, though he appears and answers to the suit. (*Case vs. Terrill*, 11 Wall., p. 199.)

CURRENCY ACT.

- I. The purpose of the currency act, was, in part, to provide a currency for the whole country, and, in part, to create a market for the government loans. (*Per Strong, J.*, in *Tiffany vs. Missouri*, 18 Wall., p. 413.)
- II. National banks organized under the act of Congress of June 3, 1864, are the instruments designed to be used to aid the government in the administration of an important branch of the public service; and Congress, which is the sole judge of the necessity for their creation, having brought them into existence, the States can exercise no control over them, nor in any wise affect their operation, except so far as Congress may see proper to permit. (*Per Swayne, J.*, in *Farmers and Mechanics' National Bank vs. Dearing*, 1st Otto, p. 29.)
- III. The constitutionality of the act of June 3, 1864, is unquestioned. It rests on the same principle as the act creating the second Bank of the United States. The reasoning of Secretary Hamilton, and of this court in *McCulloch vs. Maryland*, 4 Wheat., p. 316, and in *Osborne vs. Bank U. S.*, 7 Wheat., p. 708, therefore applies.
- IV. The power to create carries with it the power to preserve. The latter is a corollary of the former. (*Ibid.*, *per Swayne, J.*, pp. 33-34.)

DEBTORS OF NATIONAL BANKS.

- I. Debtors of an insolvent national bank, when sued by the receiver, cannot object that pleadings do not show a compliance with all the steps prescribed by statutes as preliminary to the appointment of such receiver. (*Cadle, Receiver, &c.*, vs. *Baker & Co.*, 20 Wall., p. 650.)
- II. Such ordinary debtors may be sued by receiver without previous order of the Comptroller. (*Bank vs. Kennedy*, 17 Wall., p. 19.)

DEPOSITS, GENERAL.

- I. The relation between a bank and its depositors is that of debtor and creditor only, and is not fiduciary. Thus, a note deposited for collection, if passed to the credit of the depositor, in his general account, then overdrawn, becomes the property of the bank, which becomes indebted to him for the proceeds. Upon the bankruptcy of the bank, the proceeds are assets available to the general creditors. And the fact that the account was made good by other deposits, before collection of the note, makes no difference. (*In re Bank of Madison*, 5 *Bissell*, p. 515.)
- II. A deposit is general, unless the depositor makes it special, or deposits it expressly in some particular capacity. And in case of a general deposit of money with a banker, a previous demand by the depositor, or some other person by his order, is indispensable to the maintenance of an action for the deposit, unless circumstances are shown which amount to a legal excuse. (*Brahm vs. Adkins*, 77 *Ill.*, p. 263.)

DEPOSITS, CERTIFICATES OF.

- I. A certificate of deposit was issued by a bank for a certain sum, subject to the order of the depositor at a certain date, payable on the return of the certificate :
Held, in an action on said certificate against the bank, brought by an assignee, that there could be no recovery without proof of an actual demand and refusal of payment. (*Brown vs. McElroy*, 52 *Ind.*, p. 404.)
- II. In a suit against the bank, upon a stolen certificate of deposit given by the defendant to the plaintiff, reciting that he had deposited in the bank a certain number of dollars, payable to his order *in current funds*, on the return of the certificate properly indorsed :
Held, first, that the instrument should be regarded as the promissory note of the bank, assignable under the statute, (of Indiana,) but that it was not negotiable as an inland bill of exchange, being made payable, not in money, but "in current funds;" second, that the payee could recover on said stolen certificate without giving a bond against a subsequent claim thereunder by another person. (*National State Bank vs. Ringel*, 51 *Ind.*, p. 393.)
- III. Where a bank issues a certificate of deposit, payable on its return properly indorsed, it is liable thereon to a *bona-fide* holder, to whom it was transferred *seven* years after it was issued, notwithstanding the payment thereof to the original holder. Such certificate is not dishonored until presented. (*National Bank Fort Edward vs. Washington Co. National Bank*, 5 *Hun.*, *N. Y. Sup. Court*, p. 605.)

DEPOSITS, SPECIAL.

- I. The taking of special deposits to keep, merely for the accommodation of the depositor, is not within the authorized business of national banks; and the cashiers of such banks have no power to bind them on any express contract accompanying, or any implied contract arising out of, such taking. (*Wiley vs. First National Bank*, 47 *Vt.*, p. 546.)
- II. If a banking association, under the national-currency act, has power to assume the duties and obligations of a naked bailee of property, either gratuitously or for hire, (as to which point the court does not decide, though apparently inclined to deny such power,) it is clearly outside its ordinary business; and it is not within the scope of the general powers or general authority of its executive or ministerial offices to bind such corporation by a contract for such bailment. Therefore, in the absence of proof of special authority for that purpose, delegated by the board of directors, or evidence that such powers have been exercised by their knowledge and sanction, or that such has been the habit and custom of the bank, it is not responsible for property thus received by its cashier. (*First National Bank Lyons vs. Ocean National Bank*, 60 *N. Y.*, p. 278.)
- III. A circular issued by such corporation, inviting the correspondence of other banks, and offering to buy and sell securities for them, is no evidence of a consent, on its part, to become a general bailee and depository of such securities for its correspondence. (*Ibid.*)
- IV. The corporations formed under the national-currency act are banks of deposit, as well as circulation. They are authorized to issue their own notes, and receive from others their money and circulate it. Money so received is termed a deposit, although it has none of the qualifications of a bailment, thus named. There is no trust or promise to redeliver the same money. By the deposit the money becomes the property of the bank, and only the relation of debtor and creditor is created. (*Ibid.*, per *Allen, J.*, p. 288.)

[NOTE.—In the last cited case the cashier of the Ocean National Bank had, at

LVIII REPORT OF THE COMPTROLLER OF THE CURRENCY.

DEPOSITS, SPECIAL—Continued.

sundry times, received United States bonds belonging to the Lyons bank. Some of these bonds had been purchased by said cashier and the assistant cashier for the Lyons bank. Two or three times, by the order of the latter bank, the coupons of these bonds had been cut off by said cashier, and proceeds credited to the Lyons bank. But there was no proof that these transactions were done, or that said bonds were kept in the vault of said Ocean Bank, with the knowledge of the directors. While said bonds were thus kept, burglars broke in and stole them. The court held, and the opinion was unanimous, that there was no difference under the currency act between such a deposit of United States bonds and a deposit of other valuable property, such as plate, diamonds, or jewelry, for safe-keeping, gratuitously. It was a naked bailment of deposit, without reward, and such an act of the cashier as did not bind the bank.]

For definition of the bailment called "deposit," and the liabilities of such a bailee, see *Story on Bailments, section 4, and sections 61 to 135.*

As to special deposits of money with a bank, see *Story on Bailments, section 88*; also, *Smith vs. First National Bank, 99 Mass., p. 605.* In this last case there had been a special deposit of gold coin, to be returned when called for. The cashier embezzled the funds: *Held*, that the bank was not liable, as there was no gross negligence on the part of the corporation.

DIRECTORS OF NATIONAL BANKS.

- I. Directors of a national bank may remove the president, both under the law of Congress and the articles of association, where the latter so provide. The power exists if the bank has adopted no by-laws. (*Taylor vs. Hutton, 43 Barb. N. Y. Sup. Court, p. 195; S. C., 18 Abb. Pr. R., p. 16.*)

ESTATE, REAL.

- I. The want of power of a bank, or of its trustee (receiver) in insolvency, to purchase and hold real estate, does not render void an arrangement whereby land subject to a lien in favor of the bank, and to other liens, is discharged of those other liens by funds from the assets of the bank, the land being then sold, and the entire proceeds of such sale realized to the bank assets, provided the title does not pass through the bank or its trustee. (*Zantingers vs. Gunton, 19 Wall., p. 32.*)

INTEREST.

- I. Under section 30, act of 1864, a national bank in any State may take as high rate of interest as by the laws of such State a natural person may stipulate for, although State banks of issue are restricted to a less rate. (*Tiffany vs. National Bank of Missouri, 18 Wall., p. 409.*)

[NOTE.—In Missouri, natural persons may take ten per cent., but State banks are restricted to eight per cent. In this case the national bank had taken nine per cent: *Held* legal.]

- II. *Held*, also, that as the action was virtually brought to recover the penalty for usury, the statute (section 30) must receive a strict construction. (*Ibid., p. 409.*)

See also Title "USURY," *post*.

INTEREST ON CLAIMS OF CREDITORS.

- I. Where a national bank is put in charge of a receiver, under section 50 of the original Currency act, (R. S., sec. 5234,) and a sufficient sum is realized from its assets to pay all claims against it and leave a surplus, the Comptroller ought to allow interest on the claims during the period of administration, before appropriating the surplus to the stockholders of the bank. An action of assumpsit by the holder of such a claim will not lie against the Comptroller, nor against the receiver, but will lie against the bank. (*Chemical National Bank vs. Bailey, 12 Blatchf., p. 480.*)
- II. In such action interest is recoverable on all demands originating in contract conditioned for the payment of interest, and on all demands for money due and unpaid, by way of damages for non-payment after such demands became due. And interest is recoverable on a balance due a depositor in such bank, although he has made no formal demand of payment. (*Ibid.*) But, as to this last point, see the ruling of the Supreme Court.
- III. In the case of *National Bank of the Commonwealth vs. Mechanics' National Bank, 4 Otto, p. 437*, the Supreme Court United States, at its last term, decided that a depositor in a national bank, when it suspends payment and a receiver is appointed, is entitled from the date of his demand to interest upon the deposit; that the claims of depositors in such bank at date of suspension for the amount

INTEREST ON CLAIMS OF CREDITORS—Continued.

of their deposits are, when proved to the satisfaction of the Comptroller of the Currency, placed upon the same footing as if reduced to judgments; that is to say, they draw interest from the time of such proof and allowance.

It was also decided that, such interest being a liquidated sum at the time of the payment of the deposit, an action lies to recover it, *and interest thereon*.

JUDGMENTS.

- I. A judgment against a national bank in the hands of a receiver, upon a claim, only establishes the validity of such claim; the plaintiff can have no execution on such judgment, but must await *pro rata* distribution. (*Bank of Bethel vs. Pahquioque Bank*, 14 Wall., p. 383. *Clifford, J.*, p. 402.)

JURISDICTION.

- I. A United States district court has jurisdiction to authorize a receiver of an insolvent national bank to compromise a debt. (*Matter of Platt*, 1 Ben., p. 534.)
- II. A resident (citizen) of Kentucky was a creditor of a national bank located in Alabama, and commenced a suit on his claim against said bank in the supreme court of the State of New York, at the same time attaching certain moneys belonging to said bank, in the hands of the National Park Bank, in New York. Subsequently the receiver of the Alabama bank (which had failed) was, on his own motion, made party defendant to the action pending in the New York supreme court, and pleaded "*want of jurisdiction*," and other defenses. The supreme court overruled his plea to the jurisdiction, rendered judgment against the receiver on the merits, and ordered satisfaction to be made from the moneys attached. Thereupon the receiver filed his bill in chancery in the *United States circuit court* for the proper circuit, praying an injunction to restrain the collection of the judgment rendered by said supreme court, and that the moneys attached be paid to him as receiver.

Held that, by the provisions of the currency act, the State court was deprived of jurisdiction of the attachment proceedings; that the receiver was not estopped by the proceedings in said State court from asserting his rights in said circuit court, and that he was entitled to the relief prayed for in his bill. (*Cadle, receiver, &c., vs. Tracy*, 11 Blatchf., p. 101.)
(*Vide* Title "RECEIVERS, VII," *post*.)

LOANS ON SHARES.

- I. National banks are governed by the act of 1864, which repealed the act of 1863, and cannot, therefore, make loans on the security of their own shares, unless to secure a pre-existing debt, contracted in good faith. (*Bank, &c., vs. Lanier*, 11 Wall., p. 369.)
- II. The placing of funds by one bank on permanent deposit with another bank is a loan within the spirit of section 35 of act of 1864. (*Ibid.*, p. 369.)
- III. Loans by such banks to their shareholders do not create a lien on the shares of such borrowers. (*Ibid.*, p. 369. See also *Bullard vs. Bank*, 18 Wall., p. 580; and "BY-LAWS," *supra*.)

LOANS IN EXCESS.

- I. A loan by a national bank in excess of the restriction of section 29 of the act of 1864, (Revised Statutes, section 5200,) which provides that the total liabilities of any person (borrower) shall not exceed ten per centum of the capital stock, &c., is not void on that account. The loan may be enforced, though the bank may be liable to proceedings for forfeiture of its privileges, &c., for making it. (*Stewart vs. National Union Bank of Maryland*, 2 Abb., *United States*, p. 424. See also *O'Hare vs. Second National Bank*, 77 Pa. St., p. 96.)

In *Samuel M. Shoemaker vs. The National Mechanics' Bank*, and *The Same vs. The National Union Bank*, application for injunction, &c., United States circuit court, Baltimore, Md., Judge Giles held * * * "As to the first charge in this bill against the defendant, in reference to the amount loaned to Bayne & Co., in violation of the twenty-ninth section of the act of June 3, 1864, I would only say that the loan made under such circumstances is not void; it can be enforced as any other loan made by the bank." * * *

LOCATION.

- I. Under sections 6, 8, 10, 15, 18, and 44 of the original currency act, (13 Stat. at Large, 101,) respecting the location of banking associations, a national bank is to be regarded as located at the place specified in its organization certificate. If such place is in a State, the association is located in that State. (*Manufacturers' National Bank vs. Baack*, 8 Blatchf., p. 137.)

OFFICERS.

- I. It is the duty of directors of a bank to use ordinary diligence in acquiring knowledge of its business. They cannot be heard, when sued, to say that they were not apprised of facts, the existence of which is shown by the books, accounts and correspondence of the bank. They should control the subordinate officers of the bank in all important transactions. Therefore, under the circumstances proved in this particular case, they were held liable for the abstraction and sale of special deposit by the latter. (*United Society, &c., vs. Underwood, 9 Bush, Ky., p. 609.*)
- II. The cashier of a national bank, who had executed no bond, embezzled its funds, discovery whereof might have been effected by use of slight diligence on the part of the directors. They, however, published, according to law, a statement of the condition of the bank, which showed that its affairs were being prudently and honestly administered, and from which the public had a right to believe that he was trustworthy. Afterward, persons who had seen this report became sureties on the official bond of the cashier, and for his subsequent embezzlements were sought to be held liable thereon. Held, that such sureties, being misled by the statement, were released. They had a right to believe that the directors, before publishing it, investigated the condition of the bank. (*Graves vs. Lebanon National Bank, 10 Bush, Ky., p. 23.*)
- III. A guaranty against loss for signing as sureties, given by a bank president, without authority from the directors, to those whom he had solicited thus to sign a note, given to the bank to retire a prior note held by it against their principal, is held to be the individual contract of the president, and not binding upon the bank. (*First National Bank vs. Bennett, 33 Mich., p. 520.*)
- IV. A cashier, who has made sale of corporate property, and holds a balance in his hands, is the agent of the board of directors, and not of the respective stockholders, and cannot be charged by an individual stockholder as holding such balance for his benefit. (*Brown vs. Adams, 5 Biss., p. 181.*)
- V. A cashier, without special authority, cannot bind his bank by an official indorsement of his individual note, and the onus is on the payee to show such authority. (*West Saint Louis Savings Bank vs. Shawnee Co. Bank, 3 Dill, p. 403.*)
- VI. Although the cashier of a bank may, in the ordinary course of business, without the action of the directors, dispose of the negotiable securities of the bank, he has not the power to pledge its assets for the payment of an antecedent debt. (*State of Tennessee vs. Davis, 50 How. (N. Y.), p. 447.*)

RECEIVERS.

- I. The receiver of a national bank is the instrument of the Comptroller, and may be removed by him. (*Kennedy vs. Gibson, 8 Wall., p. 505.*)
- II. Such receiver is the statutory assignee of the assets of the bank, and may sue to collect the same in his own name, or in the name of the bank, for his use. (*Ibid., p. 506.*)
- III. In such suit it is not necessary to make the bank or creditors parties. (*Ibid., p. 506.*)
- IV. The receiver of a national bank represents such bank and its creditors, but he in no sense represents the United States Government, and cannot subject the government to the jurisdiction of any court. (*Case vs. Terrill, 11 Wall., p. 199.*)
- V. The decision of a receiver, rejecting a claim against his bank, is not final. Claimant may still sue. (*Bank of Bethel vs. Pahquioque Bank, 14 Wall., p. 383.*)
- VI. The clause of section 50, act of 1864, which prescribes that the receiver shall be "under the direction of the Comptroller," means only that he shall be subject to his direction, not that he shall not act without orders. He may and must collect the assets. That is what he is appointed for. (*Bradley, J., in Bank vs. Kennedy, 17 Wall., pp. 22-3.*)
- VII. Receivers of national banks are officers of the United States, within the meaning of the act of Congress of March 3, 1815, giving United States courts jurisdiction of actions by United States officers, and may sue in such courts. (*Platt, receiver, &c., vs. Beach, 2 Ben., p. 303.*)

[NOTE.—The judge places stress upon the provision of section 31 of the act of 1864, which requires (in that particular instance) that the Secretary of the Treasury shall concur in the appointment of the receiver.]

SET-OFF.

- I. In an action brought to enforce the individual liability of a shareholder of an insolvent bank, such shareholder cannot set off against such liability the amount due to him as a creditor of the bank. (*Garrison vs. Howe, 17 N. Y., p. 458; In re Empire City Bank, 18 N. Y., p. 190.*)

[NOTE.—Though these cases were decided by a State tribunal, (New York

SET-OFF—Continued.

court of appeals,) and the rulings were based upon provisions of a State constitution and a State statute, yet the principle they enunciate is recognized and fully affirmed in *Sawyer vs. Hoag*, 17 Wall., p. 610, and *Scammon vs. Kimball*, 2 Otto, p. 362.]

SHAREHOLDERS, INDIVIDUAL LIABILITY OF.

- I. Comptroller must decide *when and for what amount* the personal liability of the shareholders of an insolvent national bank shall be enforced. (*Kennedy vs. Gibson*, 8 Wall., p. 505.)
- II. His decision as to this is conclusive. Shareholders cannot controvert it. (*Ibid.*, p. 505.)
- III. In any suit brought to enforce such personal liability, such decision of the Comptroller must be averred by the plaintiff, and, if put in issue, must be proved. (*Ibid.*, p. 505.)
- IV. The liability of shareholders is several, and not joint. (*Ibid.*, p. 505.)
- V. The limit of such liabilities is the par value of the stock held by each one. (*Ibid.*, p. 505.)
- VI. Where the whole amount is sought to be recovered, the proceeding must be at law; where less is required the proceeding may be in equity, and, in such case, an interlocutory decree may be taken for contribution, and the case may stand over for the further action of the court, if such action should subsequently prove to be necessary, until the full amount of the liability is exhausted. (*Ibid.*, p. 505.)
But in *Bailey, Rec'vr, &c., vs. First National Bank Duluth, U. S. circuit court for Minnesota, Nelson, J.*, held that even where less than the par value was assessed the suit *might* be at law; and this would seem to be the true theory. *Vide Bankers' Magazine*, April, 1877, p. 793.
- VII. In such equity suit, all shareholders within the jurisdiction of the court should be made parties defendants; but it is no defense that those not within the jurisdiction are not joined. (*Ibid.*, p. 506.)
- VIII. Suits to enforce personal liability of shareholders may properly be brought before other assets are exhausted. (*Ibid.*, pp. 505-6.)

SHAREHOLDER, LIABILITY OF TRANSFEREE.

- I. The transferee of shares, when such transfer is absolute on the books of the bank, is liable to creditors to the amount of such shares, although in fact he holds them as collateral security for a loan to the shareholder who transferred them. (*Hale vs. Walker*, 31 Iowa, p. 344.)

[NOTE.—This also is a State court adjudication, but it is believed to be in harmony with the rulings of other high and eminent State tribunals upon the same question.] (*Adderly vs. Storm*, 6 Hill, p. 624, and *Worrall vs. Johnson*, 5 Barb., p. 210.)

[In the *Bankers' Magazine* for January, 1875, is a notice of the case of *Mann, receiver, vs. Dr. Cheeseman*, decided by Blatchford, J., in the United States circuit court, in New York, in which the judge held that until there was a transfer of shares on the books of the bank the shareholder whose name there appeared was liable for the debts of the bank; that an actual sale and the signing the ordinary power of attorney on the back of the certificate will not relieve the seller. The learned judge also held that such shareholder could not question the action of the Comptroller as to the necessity of suing the shareholder.]

(See also SET-OFF, *supra*.)

In the case of *Bouden vs. Farmers and Merchants' National Bank of Baltimore*, decided by Judge Giles in the United States circuit court, Maryland district, April, 1877, it was held that the defendant was liable, though the shares had originally been transferred to it as security for a loan, which loan had been paid, and though, upon such payment, defendant delivered the certificate of stock to the original owner, with a power of attorney authorizing him to re-transfer the stock to himself.

SHARES OF STOCK.

- I. A national bank whose certificates of stock specify that the shares are transferable on the books of the bank on surrender of the certificates, *and not otherwise*, and which suffers a shareholder to transfer without such surrender, is liable to a *bona fide* transferee, for value, of same stock, who produces such certificate with usual power of attorney to transfer; and this is so though no notice had been given to the bank of the transfer. (*Bank vs. Lanier*, 11 Wall., p. 369.)
- II. Shares *quasi negotiable*. (*Ibid.*, p. 369.)

LXII REPORT OF THE COMPTROLLER OF THE CURRENCY.

TAXATION OF SHARES.

- I. The act of 1864, rightly construed, subjects the shares of the association in the hands of shareholders to taxation by the States, under certain limitations set forth in section 41, without regard to the fact that part or the whole of the capital of such association is invested in national securities which are declared by law exempt from State taxation. (*Van Allen vs. Assessors*, 3 Wall., p. 573.) (Chase, C. J., and other judges, dissented.)
- II. Act thus construed is constitutional. (*Ibid.*, p. 573.)
- III. A certain statute of New York, which taxed shares of national-bank stock, declared void, because shares of State banks were not tax-d, although their capital was; the act of Congress prescribing that shares of national banks shall be taxed only as shares of State banks are. (*Ibid.*, p. 573.)

The ruling as to taxing shares of stock reaffirmed in *Bradley vs. People*, 4 Wall., p. 459, and *National Bank vs. Commonwealth*, 9 Wall., p. 353.

In last case, held that a State law requiring the cashier to pay the tax was valid. Held, also, that a certain State tax law virtually taxed "shares of moneyed corporations," &c. (*Ibid.*, p. 353.)
- IV. Shares of stock in national banks are personal property, and though in one sense incorporeal, the law which created them could separate them from the person of their owner, for taxation, and give them a *situs* of their own. (*Tappan, collector, vs. Bank*, 19 Wall., p. 490.)
- V. Sec. 41 did thus separate them, and give them a *situs* of their own. (*Ibid.*, p. 490.)
- VI. This provision of the national-currency act became a law of the property, (in shares,) and every State in which a bank was located acquired jurisdiction, for taxation, of all the shares, whether owned by residents or non-residents, and power to legislate accordingly. (*Ibid.*, p. 490.)
- VII. Under the act of Congress of February 10, 1868, enacting that each State legislature may direct the manner of taxing all shares of stock of national banks located within the State, subject to the restriction that the taxation shall not be greater than the rate assessed upon other moneyed capital in the hands of individual citizens of such State, and of a certain act of the legislature of Pennsylvania which provided that such shares shall be assessed for school, municipal, and local purposes at the same rate as is now or may hereafter be assessed and imposed upon other moneyed capital in the hands of individual citizens of the State; held, that shares of national-bank stock may be valued for taxation, for county, school, municipal and local purposes, at an amount above their *par value*. (*Hepburn vs. School Directors of the Borough of Carlisle*, 23 Wall., p. 480.)

[NOTE.—In this case it appeared that Hepburn owned several thousand dollars of national-bank stock, the *par value* of which was \$100 per share, and that it was valued for taxation, for a school tax, at \$150 per share. This assessment was held valid, notwithstanding that by a certain act of the State legislature, applicable to the county of Cumberland, in which the borough of Carlisle was situated, certain specified kinds of moneyed obligations were exempt from taxation, except for State purposes.]

See also *Saint Louis National Bank, National Bank of Missouri, Third National Bank, Valley National Bank, and Merchants' National Bank of Saint Louis vs. Papin*, in United States circuit court, eastern district of Missouri, September term, 1876. Also, *Gallatin National Bank of New York vs. Commissioners of Taxes*, supreme court of New York, first department, general term, November, 1876. These latter cases are published in the *Bankers' Magazine* for December, 1876.

TAXATION OF INTEREST AND DIVIDENDS.

- I. Under the internal-revenue act of July, 1870, interest paid and dividends declared during the last five months of 1870 are taxable, as well as those declared during the year 1871. (*Blake vs. National Banks*, 23 Wall., p. 307.)

LICENSE TAX.

- I. The District of Columbia imposed a *license tax* on all the national-banks in the District, the rate being 50 cents annually on each \$1,000 of the capital invested. The *Citizens' National Bank* refused to pay this assessment, and a test case was made in the district criminal court, Mr. Justice MacArthur presiding. This court, after full argument, held the tax illegal and void, as being contrary to the mode of taxation prescribed by Congress, which mode was held to be exclusive.

TRANSFERS OF ASSETS.

When binding. The receiver of a national bank cannot repudiate a pledge of its assets made by the bank for advances to it, either on the ground that the pledge

TRANSFERS OF ASSETS—Continued.

was not formally executed, or that the transfer was void because not authorized by the charter of the bank, so long as he retains, as assets, the advances, to secure repayment of which the pledge was given. (*Casey vs. Le Société de Crédit Mobilier*, 2 *Woods*, p. 77.)

A preference of one creditor to another, within the meaning of section 5242, Revised Statutes, is a preference given by the bank to secure or pay a pre-existing debt. Where a person, knowing that a national bank is embarrassed, makes to it a loan, taking as security therefor a pledge of part of the assets of the bank, this transfer does not give him the preference prohibited by the statute. (*Ibid.*)

- II. *When not binding.* Under said section 5242, which declares void transfers of its property by a national bank, made in contemplation of insolvency, and with a view to give a preference to one creditor over another, or with a view to prevent the application of the assets of the bank in the manner prescribed by law, such a transfer is void if the insolvency is in the contemplation of the bank making the transfer, although the party to whom it is made does not know or contemplate the insolvency of the bank. (*Case, receiver, vs. Citizens' Bank*, 2 *Woods*, p. 23.)

ULTRA VIRES, WHAT IS.

- I. National banks cannot sell railroad bonds for third parties on commission, or engage in business of that character. (*Susan Welcker vs. First National Bank of Hagerstown*, Court of Appeals of Maryland, 43 Md., p. 581.)
- II. In an action of deceit against a national bank, for alleged false representations of its teller in the sale to plaintiff of certain railroad bonds:
Held, That the selling of such bonds on commission was not within the authorized business of a national bank, and being thus beyond the scope of its corporate powers, the defense of *ultra vires* was open to it, and it was not responsible for the deceit of its teller. (*Ibid.*)
- III. The national-bank act confers no power on a national bank to take a deed of trust of real estate as security for a contemporaneous loan; and such bank has no power not conferred by Congress. A sale under such a deed enjoined. (*Matthews vs. Skinner*, 62 Mo., p. 329. See also DEPOSITS, SPECIAL, I, II, III, IV.)

ULTRA VIRES, WHAT IS NOT.

- IV. A national bank took a lien upon real estate to secure a pre-existing debt. Afterward, the bank paid \$500 to discharge a prior lien upon the land, taking a note and mortgage on land in Kansas to secure this advance. Lien and mortgage held valid, and warranted by law. (*Orum vs. National Bank*, 16 *Kans.*, p. 341.)
- V. A *chattel mortgage* taken by a national bank to secure a pre-existing debt is valid, and will be enforced. (*Spofford vs. First National Bank*, 37 *Iowa*, p. 181.)

USURY.

- I. State laws relative to usury do not apply to national banks. (*Farmers and Mechanics' National Bank vs. Dearing*, 1 *Otto*, p. 29.)
- II. The only forfeiture declared by the 30th section of the act of June 3, 1864, (Revised Statutes, section 5196,) is of the *entire interest* which the note or bill carries with it, or which has been agreed to be paid thereon, when the rate knowingly received, reserved or charged by a national bank is in excess of that allowed by that section; and no loss of the entire debt is incurred by such bank, as a penalty or otherwise, by reason of the provision of the usury law of a State. (*Ibid.*)
To same effect are *National Exchange Bank vs. Moore*, 2 *Bond*, p. 170, and several State decisions.
(The *New York court of appeals* had decided the other way.)

APPENDIX.

Special attention is called to the carefully prepared tables contained in the report and appendix, a full list of which will be found on the following page. An index to the detailed report of each of the 2,089 banks in operation on October 1 of this year appears at the end of the volume.

In concluding this report the Comptroller takes pleasure in bearing testimony to the industry and efficiency of the officers and clerks associated with him in the discharge of official duties.

JOHN JAY KNOX,
Comptroller of the Currency.

Hon. SAMUEL J. RANDALL,
Speaker of the House of Representatives.
